Project Report on Fishing Harbour Dhamara, Orissa

***494. SHRI ARJUN SETHI:** Will the Minister of AGRICULTURE be pleased to state:

(a) whether the Project report for the proposed fishing harbour at Dhamara in the Balasore district of Orissa has been considered by the Government;

(b) whether approval has been accorded for sanction of the harbour; and

(c) if not, when it will be sanctioned?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) to (c). A statement is laid on the Table of the Sabha.

STATEMENT

(a) to (c). A project report containing details of engineering surveys, soil investigations, and designs and estimates in respect of a fishing harbour at Dhamara, was received from the F.A.O. in March, 1972. The State Government was requested in May, 1972 to verify the cost estimates given in the Project report with the current schedule of rates and also to indicate the yearwise phasing of the number of boats and their landings and their correlation with the mechanisation programme for the Fourth and Fifth Plan periods. A reply to this letter is awaited. Further action on the proposals will be taken on receipt of the information asked for from the State Government.

SHRI ARJUN SETHI: I want to know from the Minister whether this fishing harbour project is going to be fully financed by the Central Government?

SHRI ANNASAHAB P. SHINDE: All minor harbours including this one are fully financed by the Central Government.

SHRI ARJUN SETHI: In the statement we find:

"The State Government was requested in May, 1972, to verify the cost estimates given in the project report with the current schedule of rates and also to indicate the yearwise phasing of the number of boats and their landings and their correlation with the mechanisation programme for the Fourth and Fifth Plan periods. A reply to this letter is awaited."

Since the State Government has taken enough time, I would like to know what steps Government have taken to expedite this project so that the project could be executed very soon.

SHRI ANNASAHAB P. SHINDE: We have sought clarification from the State Government, and we are awaiting the clarification, and we have reminded the State Government.

SHRI ARJUN SETHI: Since this will be financed by the Central Government, the State Government have nothing to do with this....

SHRI ANNASAHAB P. SHINDE: This will be financed entirely by the Central Government. Naturally, they have to submit the estimate of the costs and other things, and we are seeking clarifications from them, because the amounts sanctioned have to be issued on the basis of realistic estimates.

SHRI ARJUN SETHI: It is said that the FAO has already submitted the proposals. That is what is mentioned in the statement....

MR. SPEAKER: The hon. Member has already asked two supplementary questions. He should not have gone in for the third one....

SHRI ARJUN SETHI: In the statement it is said that the FAO has already submitted proposals....

MR. SPEAKER: Did he listen to me or not? A Member in whose name the main question stands, is allowed to ask two supplementary questions. But he has

asked a third question, and now he is going in for a fourth question also....

SHRI ARJUN SETHI: I just want a clarification. I am not asking any question....

MR. SPEAKER: I think that if we allow clarifications also, then no other Member can come in. He has already asked more than two supplementary questions. What does he want now?

SHRI ARJUN SETHI: It is said in the statement that:

"A project report containing details of engineering surveys, soil investigations and designs and estimates in respect of a fishing harbour at Dhamra was received from the FAO in March, 1972."

MR. SPEAKER: Why does he want to read out from the statement? Let him put his question verbally?

SHRI ARJUN SETHI: They have already received the report from the FAO.

SHRI ANNASAHAB P. SHINDE: There are no technical difficulties in executing the project. Estimates are required from the State Government, and we are awaiting a reply from the State Government.

(b) whether Government are aware that the total number of meters purchased are much more than required and many of these meters are lying unused due to some inherent mechanical defects; and

(c) if so, the actions taken thereon?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) A statement is laid on the Table of the Sabha.

(b) The Food Corporation of India has reported that the number of moisture meters is not more than required and that moisture meters are not lying idle on account of inherent mechanical defects.

(c) Does not arise.

Burning of a Harijan Boy in Ghaziabad, U.P.

+

*497. **SHRI JYOTIRMOY BOSU:**

SHRI R. R. SINGH DEO:

Will the Minister of **EDUCATION AND SOCIAL WELFARE** be pleased to state:

(a) whether a Harijan boy in Ghaziabad (U.P.) has burnt himself to death;

(b) whether the boy's initiative was following his merciless beating by the local police; and

(g) whether Government of India received any report in this regard from the Uttar Pradesh Government and if so, the details thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION, SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D. P. YADAV): (a) to (c). Relevant extract from a report received from the Government of Uttar Pradesh is laid on the table of the House.

Statement

Report regarding alleged burning of a Harijan boy in Ghazabad, District Meerut

Shri Om Prakash, Constable of Dasna Gate P.S. 410 made an oral report at Sihani Gate Police Station at 4.15 P.M. on the 11th November, 1972 that during the time of his duty at the Roadways Stand he caught the accused named Chandra Sen red handed when he picked the pocket of a constable named Tyagi of Bisrakh Police Station, District Bulandshahr, who was standing at the bus stand in plain clothes and took away Rs. 18 and a diary. He took away the accused as well as Shri Tyagi to the Dasna Gate Police Station. Shri Tyagi, constable however said that he did not want to register a case and left the Police Station taking his money as well as Diary with him. The accused, Chandra Sen intimated several addresses to him and also stated that a case regarding pick-pocketing was pending against him in Agra. At 2.45 P.M. the accused while still at Dasna Gate Police Station threw some kerosene upon his body and set himself on fire. He (Shri Om Prakash), constable Ram Krishan Dixit and two persons named Shri Ram Prasad and Shri Ram Krishan extinguished the fire by throwing earth and water on the accused. The accused, Chandra Sen was admitted into Government Hospital, Ghazabad at 3.15 P.M. A case under Sections 573/379/411/309 of I.P.C. was registered against the accused on the basis of the report of the constable.

The accused was admitted into the Meerut Medical College on the 13th 3001 L.S.—3

November, 1972, and he died there on the 26th November, 1972.

An enquiry regarding the character of the accused was made from the Ferozabad Police Station and it was learnt that he was convicted four times and was absconding after being released on bail by the Court in three cases.

The accused stated in his dying declaration before the Tehsildar of Ghazabad at the Hospital that four constables of the Police Station had thrown Kerosene on his body and set him on fire. As a result of this statement a case was registered against four constables under Section 573A and Section 307 of I.P.C. at Sihani Gate Police Station. All the four constables were suspended and sent to jail at 9 P.M. on the 12th November, 1972.

The District Magistrate, Meerut ordered a magisterial enquiry into this case and C.I.D. was also entrusted with the investigation of the case. All the four accused constables were released on bail on the 14th November, 1972 by the Court of A.D.M. (J) Meerut.

SHRI JYOTIRMOY BOSU: From the statement I find that the Scheduled Caste Harijan boy in his dying declaration before the tehsildar of Ghazabad at the hospital had stated that four constables of police station had thrown kerosene on his body and set him on fire, and we find also that a magisterial inquiry has been ordered. I would like to know why a judicial inquiry is not being ordered.

I would also like to know why bail was not opposed by Government because if these constables are bailed out, they will be tampering with the witnesses. I would also like to point out that the statements made are contradictory. How dare they come before the Lok Sabha to make this sort of statement?

I find also that a constable named Tyagi of Bisrakh police station, District Bulandshahr was pickpocketed by the Harijan boy. That is the allegation. After that, we find that the constable Tyagi,

however, said that he did not want to register a case and he left the police station taking his money as well as diary with him. Who will believe that? Is it not strange, and is it not true that the constable caught the Harijan boy pick-pocketing him, but then he was allowed to leave without making an FIR, taking his money as well as diary with him? We would like to know under what circumstances this happened? The statement says:

....the accused while still at Daana Gate Police station threw some kerosene upon his body and set himself on fire.—

That is to say, in the presence of constables, he acquired some kerosene from somewhere and set fire to himself.—

"He (Shri Om Prakash), constable Ram Krishan Dixit and two persons named Shri Ram Prasad and Shri Ram Krishan extinguished the fire by throwing earth and water on the accused."

How was it possible for an accused within the police station compound to get a gallon of kerosene? Wherefrom did he get it. All this is a cock-and-bull story.

I also want to know how many days after this happening the dead body was handed over to his relations. I want a contradiction of this cock-and-bull story and a proper clarification by the hon. Minister. It is a matter of shame that a Harijan boy has been burnt.

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): A case under s. 573A and s. 307 IPC has already been registered against the four accused. Quite obviously, the hon. member knows that when such a case under such a serious section is registered, it is a full-fledged judicial inquiry that takes place.

SHRI JYOTIRMOY BOSU: No, only magisterial inquiry.

PROF. S. NURUL HASAN: He has not cared to read the second portion. As

a result of the dying declaration of the boy, a case was registered against the constables under s. 573A and s. 307 IPC. The case has also been entered into the investigation.

SHRI JYOTIRMOY BOSU: Why a magisterial inquiry?

PROF. S. NURUL HASAN: Earlier a magisterial inquiry had been ordered, but when this came to notice, a judicial inquiry will be held.

SHRI JYOTIRMOY BOSU: Why did you not oppose bail?

PROF. S. NURUL HASAN: Bail was, in fact, opposed. I would like to bring one further fact to the notice of the House. This unfortunate person had been convicted four times in Ferozabad of Agra District.

SHRI JYOTIRMOY BOSU: That is bogus.

PROF. S. NURUL HASAN: This is a statement conveyed to us by the Government of U.P. It is a statement of fact, not an opinion.

SHRI JYOTIRMOY BOSU: These are incorrect statements. A boy has been burnt to death and you want us to keep quiet on this? I am very sorry.

PROF. S. NURUL HASAN: If he wants to make a political speech out of this, he is most welcome to do so, but he should not use the House for this. The point is that he was convicted four times earlier in Ferozabad of Agra district. He was absconding in three non-bailable warrants (*Interruptions*).

SHRI PILOO MODY: Some members of the Treasury Benches have been to jail. That is no reason for burning them.

PROF. S. NURUL HASAN: I am not yielding. I very strongly resent the innuendo of the hon. member. I was making a statement and before I could com-

asked for certain information by the Central Government. Each time the State Government supplies some information, it is not the bounden duty of the Minister merely to read parrotlike what the State Government says. If a statement has been made by the State Government which is obviously incongruous and patently impossible, it is the duty of the Central Government to alter it or modify it or seek further clarifications. You on your part and your Secretariat screen with a fine tooth comb everything that the Member submit to you by way of motions, etc. Why is it that your department does not do likewise with regard to such statements which are presented to the House.

SHRI D. P. YADAV: I wanted to mention that the hon. Minister, Prof. Nurul Hasan had a call-attention notice in the other House and so he has to go.

MR. SPEAKER: He has already written to me that immediately after the Question Hour he has to go....(Interruptions) If you are keeping the whole House at your mercy by shouting, God help. Kindly sit down....(Interruptions).

SHRI SHYAMNANDAN MISHRA: You kindly do the needful in the matter, we leave it in your hands.

MR. SPEAKER: What to do? The question Hour is over.

Indo-Soviet Symposium on Crop Plants

*486. SHRI RAMKANWAR:

SHRI K. LAKKAPPA:

Will the Minister of AGRICULTURE be pleased to state:

(a) whether a 4-day Indo-Soviet symposium recently took place in Delhi regarding crop plants;

(b) if so, the number of scientists who participated in the symposium;

(c) the recommendations and observations made at this symposium; and

(d) the reaction of Government thereof?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) Yes. A symposium on "Gene Pools, Centres of Origin of Crop Plants; and Recent Advances in Mutation Research" was held at the Indian National Science Academy from 10th to 18th November, 1972.

(b). 6 Soviet Scientists and about 60 Indian Scientists participated in the Symposium.

(c). The scientists taking part in the Symposium drew attention to the immense contribution, which crop resources in the two countries make to their nation economies, and considered new approaches for the genetic upgrading of these resour-

ces and for their enrichment and preservation. Based on these discussions, a number of conclusions were made for enlarging the scope of collaboration between the scientists of the two countries in the field of crop improvement. Some of these conclusions and recommendations are listed below:—

(i) The Soviet Scientists offered to collaborate with their Indian counterparts in further improving sunflower and sugarbeet, which are new crops for this country and which promise to be of great value in augmenting our fat and sugar resources. The Soviet Scientists have done outstanding work on these crops, as a result of which it has been possible to double the oil content in sunflower, and to develop high yielding varieties of sugarbeet, using such techniques as exploitation of hybrid vigour and triploidy. These varieties can be compared with the high-yielding varieties of wheat and other cereals, which Indian plant breeders have evolved in recent years.

(ii) The Seminar drew attention to the fact that with the release of high yielding varieties and with the spread of improved agricultural technology in many countries, there was a great danger that very valuable genetic stocks of local varieties of crop plants, which have been grown for centuries, may be lost for ever. The participants, therefore, recommended that collections of these valuable genetic stocks should be organised on an emergency basis from different parts of the world including India. In this connection, the establishment at the Indian Agricultural Research Institute of a National Repository of seeds of crop plants and their wild relatives was considered a vital necessity, and the ICAR was requested to take up this project on a priority basis. They also recommended the setting up in India of a national network of Genetic Resources Centres of crop plants on a regional basis, utilising the facilities available at some of the Agricultural Universities and Research Institutes. The participants noted the excellent work done by

the Soviet Scientists in this field and it was agreed that the two countries should work on a system for the exchange of seeds of different crop plants on a continuing basis.

(iii) The participants noted that the Trans-caucasian region of the USSR is a centre of diversity of some of the important crop plants like wheat. It was recommended that a joint team of geneticists from the two countries should explore this region for the collection of this valuable wealth of plant material.

(iv) It was proposed that there should be a continuing exchange of geneticists and plant breeders including postgraduate students in these fields between the two countries and that more Indo-Soviet joint symposia should be organised in the two countries.

(v) The Scientists agreed to collaborate in the field of experimental mutagenesis and nitrogen fixation by the different pulse crops. They took note of considerable advances made in the two countries in the field of mutation research and felt that these advances would make increasing contribution in the years to come in crop improvement programmes.

(d). A detailed report on the Symposium with specific recommendations is yet to be received by the Government.

(ग) वास्तव में पात्र व्यक्तियों को अपने विवेक के बिना बारी के टोकन जारी करने के बिल्ली दृष्ट योजना के अध्यक्ष के अधिकार पर सरकार कोई रोक नहीं लगाना चाहती। तथापि आशा है कि अगले वित्तीय वर्ष में मौजूदा डेरी संयंत्र के विस्तार का वर्तमान कार्यक्रम पूरा होने पर स्थिति में काफी सुधार होगा और नई रिकम्बाइनिंग (मदर) डेरी की स्थापना के बाद स्थिति और भी सुधरेगी।

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHIB P. SHINDE): (a) Yes, Sir. There has been a general complaint from the Southern States of inadequate supplies of fertilisers relative to their demands during the current Rabi season.

The shortfall in supplies has been mainly due to the following reasons:—

(i) Lag in the domestic production of fertilisers;

(ii) Constraints in the availability of fertilisers in the world market.

(iii) Adverse effect of Mulki rule agitation on the rail transport position in the South.

(b) The following are some of the steps taken by the Government to obviate the difficulties in the supply of fertilisers to the Southern States:—

(i) Coordinated supply plans were drawn up in the Southern Zonal Conferences before the Kharif and Rabi crop seasons together with the Essential Commodities Act Governments and to the manufacturers concerned. Orders under the Essential Commodities Act have been issued thereafter, making it legally obligatory for the domestic manufacturers to supply the quantities of fertilisers committed by them to each State at the Zonal Conferences.

(ii) Efforts are also being made to increase the capacity utilisation by the domestic manufacturers.

(iii) Utmost efforts are being made to procure additional quantities of imported fertilisers as quickly as possible.

(iv) In order to supplement rail transport for expediting supplies to consuming areas, road movement from ports is also being allowed from posts.

(v) A mid-season review of supplies of fertilisers by manufacturers to the Southern States has recently been made and problems regarding these supplies sorted out.

(vi) The State Governments have been advised to distribute available fertilisers for priority crops such as high yielding varieties and export

oriented crops. The Ministry has also issued instructions to the State Governments to take other steps for the most effective utilisation of available fertilisers on the basis of guidelines given by the Indian Council of Agricultural Research.

Instructions to Motor Cyclists and Scooter Drivers to wear Helmets.

4703. **SHRI G. Y. KRISHNAN:** Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether Government propose to issue instructions to all Motor Cyclists, scooter drivers to wear helmets compulsorily to avoid road accidents; and

(b) whether some States are also in favour of utilizing helmets compulsorily in their States and if so, the names of such States?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS, AND IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI OM MEHTA): (a) and (b). The views of the State Governments and Union Administrations had been invited in the past on the question of making the use of crash helmets by drivers of motor cycles and scooters and pillion riders, compulsory. Only a few of them (Andhra Pradesh, Kerala, Mysore, Tamil Nadu, West Bengal and Chandigarh) were in favour of legislation to provide for the compulsory use of crash helmets, while the others preferred popularisation of the use of these helmets by propaganda. It was, therefore, decided not to undertake legislation for the time being.

The Study Group on Road Safety appointed by the Government of India has suggested that the use of safety helmets should be encouraged for the drivers as well as the pillion users of scooters and motor cycles by allowing a higher rate of insurance compensation for such of them as were wearing such equipment, at the time they were involved in an accident; gradually, their use should be made compulsory. The views of the State Governments and Union Administrations have been invited on all the recommendations of the Study Group. The question whether the use of crash helmets by motor cyclists and scooter drivers may be made

compulsory or otherwise encouraged will be further examined on receipt of the comments of the State Governments and Union Administrations.

Movement of Dairy Products on Priority Basis

4706. SHRI INDER J. MALHOTRA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether Government have prepared any scheme or examined needs for movement of dairy products including perishable and essential commodity like butter on a priority basis;

(b) whether it has come to the notice of Government that shortage of quality butter produced in modern plants occurs from time to time and it raises prices and also leads to adulteration; and

(c) the steps envisaged to check adulteration and to encourage competition?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) The Government have not prepared any special scheme for movement of dairy products. The movement of dairy products is done through normal marketing channels i.e., railways and road transport. Preferential Traffic Schedule is issued by the Railway Board every six months indicating the priority allocated for various essential commodities in wagon loads needed by the community. The priority is allocated according to the importance of the commodity concerned. There are 5 categories of priorities in the Preferential Traffic Schedule, namely items 'A', 'B', 'C', 'D' and 'E'; their relative priority being in the descending order.

Perishable commodities are normally accepted and cleared in item 'D' priority. The Railways also keep a special watch on the movement of these commodities. However, skim milk powder and butter oil from ports when offered by the Indian Dairy Corporation to the various milk plans have been accorded item 'G' priority as per recommendations of the Ministry of Agriculture. Butter normally moves as parcels or 'smalls' and as such it is not covered by the Preferential Traffic Schedule issued by the Railway Board. No difficulty in clearing butter by rail traffic

has been brought to the notice of the Government.

Apart from the above, priorities are also given by the Railways for transport of milk through insulated wagons and rail tankers. Milk is transported daily between Anand to Bombay, Dhulia to Bombay, Vijaywada to Hyderabad and Mehsana to Delhi. Transportation of milk through rail tankers would also be intensified under the Operation Flood Programme.

(b) No instances of serious shortage of butter, produced in modern plants, has been brought to the notice of the Government. There may have been certain instances where shortage may have occurred in certain packets due to dislocation of rail and road traffic due to unavoidable circumstances.

At present the licenced capacity of skim milk powder production is of the order of 2,800 tons in public, cooperative and private sectors. This would produce equal quantity of butter fat for manufacture of butter and ghee. This installed capacity is being increased by another 14,000 tons. This expansion programme will produce another 14,000 tons of butter and ghee. In addition, under the Operation Flood Programme, many feeder balancing stations are to be established in 10 States. These feeder balancing stations would also produce milk powder, butter, ghee, etc., after meeting the fluid milk requirements of the four metropolitan cities of Bombay, Calcutta, Delhi and Madras.

(c) Adulteration of food commodities are checked through Food Adulteration Act and the rules thereunder by the respective States.

(b) if so, the names and qualifications of persons included in these delegations?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF CULTURE (SHRI D. P. YADAV): (a) and (b). A statement is laid on the Table of the House [*Placed in Library. See No. LT 4062/72.*]

Representation from West Bengal Government Re: separation of Central Ground Water Board from Geological Survey of India

4708. SHRI SAMAR GUHA: Will the Minister of AGRICULTURE be pleased to state:

(a) whether Government of West Bengal made any representation against separation of Central Ground Water Board from Geological Survey of India; and

(b) if so, the nature of the representation and the reaction of Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) and (b). A representation was received from the West Bengal Government wherein it was stated that the Central Government's decision to merge the Groundwater Wing of the Geological Survey of India with the Central Groundwater Board (Ministry of Agriculture may result in more unemployment. This apprehension is unfounded. As a result of this merger, posts have not been reduced and there has been no retrenchment. Also, the Regional Ground Water Directorate at Calcutta which was functioning under the Geological Survey of India would continue to function there now under the Central Ground Water Board.

Production and Marketing of Cashew Nuts in West Bengal

(a) whether Government have any plan to develop cashew nut production, its procurement and marketing in the contai area of West Bengal;

(b) whether Government have received any scheme for the purpose from the State Government; and

(c) if so, the salient features of the scheme?

For development of cashewnut production a Centrally sponsored demonstration scheme has been continuing in the State from 1969-70 under which improved package of practices such as manuring, soil working, plant protection etc., are being demonstrated with a view to increasing production. The State Government has no scheme on cashewnut production, its procurement and marketing in contai area.

(b) No scheme has been received from the State Government.

(c) Does not arise.

4710. KUMARI KAMLA KUMARI: Will the Minister of SHIPPING AND TRANSPORT be pleased state the total foreign exchange earned by the commercial ships of India in the year 1971-72?

THE MINISTER OF PARLIAMEN- TARY AFFAIRS AND SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): 50 per cent of the gross earnings of Indian ships in overseas trade may be taken as

the net foreign exchange earning including saving. During the year 1970-71 the gross earning of Indian ships in overseas trades were about Rs. 168 crores, 50 per cent of which i.e., Rs. 84 crores may be assumed to be net foreign exchange earning including saving. The information in respect of 1971-72 is not yet available.

Steps to Preserve Lion

4711. SHRI RAJDEO SINGH: Will the Minister of AGRICULTURE be pleased to state:

(a) whether lion population is gradually deminishing in the country;

(b) whether this phenomena of diminishing lions is obtained only in this country or elsewhere too; and

(c) whether adoption of tiger as the national animal in place of lion means that only 177 lions are left to their own fate and whether protection will be given to them as national animal?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a). Information received from the Government of Gujarat is as under:

Figures of the lion enumeration carried out in 1936 was two hundred and thirty six; two hundred in 1950; two hundred ninety in 1955; two hundred eighty five in 1963 and one hundred seventy seven in 1968. The last enumeration in 1968 was direct count while the previous ones were on the basis of pug-marks. Hence the figures cannot be quite comparable. No appreciable decline observed since the numeration.

(b) The status of the lion in African countries in the context of past population is not known.

(c) Full protection will continue to be given to the lion.

दिल्ली दुग्ध योजना द्वारा डी-1/ए जनकपुरी में दूध की सप्लाई की व्यवस्था

4714. श्री नरेन्द्र सिंह बिष्ट : क्या कृषि मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या दिल्ली दुग्ध योजना प्राधिकारियों को डी-1/ए ब्लॉक, जनकपुरी के निवासियों से इस ब्लॉक में दूध की सप्लाई करने के बारे में सहायक प्राप्त हुआ है जबकि दिल्ली दुग्ध योजना जनकपुरी के सी-ब्लॉक के निवासियों को दूध की सप्लाई कर रही है; और

(ख) यदि हां, तो क्या दिल्ली दुग्ध योजना के अधिकारियों का विचार यहां अस्थायी व्यवस्था करने का है ताकि उक्त ब्लॉक के निवासी वहां दुग्ध डिलीवरी का निर्माण होने तक उचित मूल्य पर शुद्ध दूध प्राप्त कर सकें।

कृषि मंत्रालय में राज्य मंत्री (श्री० शंकर सिंह) : (क) जी हां।

(ख) आवश्यकता पड़ने पर दिल्ली दुग्ध योजना डी-1/ए ब्लॉक, के कार्टेशरवां को सी-5 ब्लॉक के मौजूदा दुग्ध केन्द्र से घर पर दूध की सप्लाई करने की व्यवस्था कर सकती है। कोई अन्य अस्थायी व्यवस्था करना सम्भव नहीं है।

दिल्ली विकास प्राधिकरण द्वारा दिल्ली मास्टर प्लान पर संक्षिप्त पुस्तिका

4715. श्री नरेन्द्र सिंह बिष्ट : क्या निर्माण और आवास मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या दिल्ली विकास प्राधिकरण का विचार दिल्ली मास्टर प्लान पर एक संक्षिप्त पुस्तिका प्रकाशित करके जनता में बेचने का है, जिसमें उन स्थानों की जानकारी दी जावेगी जहां से जनता प्लाटों को खरीदे

ताकि भोली-भाली जनता को उन कोलोनाई-जरीं और जाली सहकारी समितियों से बचाया जा सके जो उन्हें अनधिकृत भूमि बेचते हैं; और

(ख) यदि नहीं, तो उसके क्या कारण हैं जबकि दिल्ली विकास प्राधिकरण स्वयं समाचार पत्रों द्वारा जनता को अनधिकृत क्षेत्र में भूमि न खरीदने की सलाह देता है ?

निर्माण और आवास तथा स्वास्थ्य और परिवार नियोजन मंत्री (श्री उमाशंकर बीक्षित) : (क) जी, नहीं ।

(ख) दिल्ली की वृहत योजना पर दिल्ली विकास प्राधिकरण द्वारा पहले ही एक पुस्तक का प्रकाशन किया जा चुका है, जिसमें नक्शों का एक सैट भी है । यह पुस्तक विक्री के लिए है । दिल्ली विकास प्राधिकरण द्वारा अब दी गई सामान्य चेतावनी मुख्य रूप से उन क्षेत्रों के लिए है, जो नगरीकरण योग्य सीमाओं से बाहर पड़ने हैं, तथा जहां अनधिकृत कॉलोनियां तेजी से बन रही हैं, क्योंकि दिल्ली की नगरीय सीमा से बाहर भी भूमि का विक्रय अथवा क्रय दिल्ली भूमि सुधार अधिनियम 1954 तथा दिल्ली नगर निगम अधिनियम 1957 और वृहत योजना के उपबन्धों के विरुद्ध है ।

दिल्ली विकास प्राधिकरण से खरीदे गए प्लॉटों पर मकान बनाना

4716. श्री नरेन्द्र सिंह बिष्ट : क्या निर्माण और आवास मन्त्री यह बताने की कृपा करेंगे कि :

(क) गत दो वित्तीय वर्षों में सरकार ने केन्द्रीय सरकार के कितने कर्मचारियों को

दिल्ली विकास प्राधिकरण से खरीदे गए प्लॉटों पर मकान बनाने और इसी प्राधिकरण से बने बनाए मकान खरीदने हेतु ऋण दिए ;

(ख) उनमें से कितने कर्मचारियों को सरकारी क्वार्टर भी मिला है ;

(ग) क्या ऐसे केन्द्रीय सरकारी कर्मचारी सरकारी ऋण से खरीदे या बनाये अपने मकानों में चले गए हैं और उन्होंने सरकारी क्वार्टर छोड़ दिए हैं अथवा सरकारी क्वार्टर से खरीदे या बनाए गए अपने इन मकानों को ऊंचे किरायों पर उठा दिया है ; और

(घ) यदि सरकारी ऋण से खरीदे या बनाए गए मकानों को किराये पर उठा कर केन्द्रीय सरकार के ये कर्मचारी लाभ उठा रहे हैं तो क्या सरकार का विचार उनके विरुद्ध कोई कार्यवाही करने का है और नहीं, हे क्यों ?

निर्माण और आवास तथा स्वास्थ्य और परिवार नियोजन मंत्री (श्री उमाशंकर बीक्षित) : (क) से (घ). केन्द्रीय सरकार कर्मचारियों द्वारा दिल्ली विकास प्राधिकरण से खरीदे गए प्लॉटों पर मकानों के निर्माण तथा दिल्ली विकास प्राधिकरण से खरीदे गए प्लॉटों के बारे में अलग अलग से कोई सूचना नहीं रखी जाती । तथापि, 1-4-56 से 30-11-71 तक की अवधि के दौरान दिल्ली में केन्द्रीय सरकार के उन कर्मचारियों की संख्या 847 है, जिन्होंने उन पर मकानों के निर्माणार्थ अथवा प्लॉट खरीदने के लिए सरकार से ऋण लिया था तथा जो सरकारी आवास के दखल में भी थे ।

चूँकि सरकारी कर्मचारी उपरोक्त कार्यों के लिए ऋण लेते हैं तथा उनको उसे ब्याज सहित वापस करना पड़ता है, अतः सरकारों को किराए पर देने के लिए उनके विरुद्ध कोई कार्यवाही करने का कोई प्रश्न ही नहीं है।

Steps to raise level of living

4717. SHRI SOMCHAND SOLANKI: Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether the problem of raising the levels of living in the country can be tackled by reducing growth rate of population;

(b) the percentage of acceptance of Family Planning Programme from the 1969—72; and

(c) the percentage achieved to reduce the growing rate of population?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (PROF. A. K. KISKU): (a) The problem of raising the levels of living in the country can be tackled by reducing the growth rate of population alongwith other economic development programmes.

(b) 8.7 per cent of couples in the reproductive age of 15—44 years has accepted family planning during 1969—72.

(c). As a result of work done under the Family Planning Programme the national birth rate has been estimated to have come down to 37.1 per 1000 population in 1971-72 from its level of 41.7 per 1000 population in 1961. This agrees with the estimated birth rate of 37.2 per 1000 population in 1971 provided by the Sample Registration Scheme of the Registrar General of India. The annual geometric growth rate during the decade 1961—71 was 2.2 per cent. The rate of the natural increase based on Sample Registration data has been estimated as 2.2 per cent in 1971. But for the reduction in the birth rate the rate of natural increase

in 1971 would have been nearly 2.7 per cent. Thus the reduction in growth rate is estimated to be 18.5 per cent during 1961—71.

Problem of Educated Unemployed

4718. SHRI SOMCHAND SOLANKI: Will the Minister of EDUCATION AND SOCIAL WELFARE be pleased to state the main fundamental reasons of unemployment of the educated unemployed in the country?

THE MINISTER OF EDUCATION, SOCIAL WELFARE AND CULTURE (PROF. S. NURUL HASAN): Studies on unemployment have shown that it is due to the following reasons amongst others:—

- (1) Excess of the output of matriculates and graduates over the employment opportunities available;
- (2) Some categories of educated persons (e.g. married women) do not seek employment;
- (3) In many cases, educated persons are not willing to accept jobs which are available because they deem its status and emoluments low or because of some difficulties and inconveniences e.g. urban educated girls often do not villages even when jobs are available there; and
- (4) Employment information is often not readily available to the unemployed.

(b) if so, the time by which seeds for ready made lawns will be made available to nurseries and public?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a). The Indian Agricultural Research Institute in the Division of Agronomy has done research to develop a system through which a grassy patch can be prepared on soil as also on a sheet of plastic which can be rolled and transported.

(b). The species of grass (*Zoisa japonica*) used in this lawn does not set seed under Delhi conditions, and is generally propagated through rooted slips. Small quantities of the slips will be available in the Agrostology section of the Division of Agronomy after 15th of March, 1973.

(ख) उनकी राज्य-वार संख्या कितनी है; और

स्वास्थ्य और परिवार नियोजन मंत्रालय तथा निर्माण और आवास मंत्रालय में राज्य मंत्री (प्रो० डी० पी० बट्टीपाण्डेय) :

(क) से (ग). परिवार नियोजन कार्यक्रम के अन्तर्गत नसबन्दी सेवा दो अथवा अधिक बच्चों वाले दम्पतियों को उपलब्ध कराई जाती है। 1970-72 में आयोजित किये गए बृहत् नसबन्दी शिविरों के अध्ययनों से पता

चला है कि 20 वर्ष की आयु से कम वाले किसी व्यक्ति की नसबन्दी नहीं की गई थी। नवम्बर, 1972 के अन्त तक केन्द्रीय परिवार नियोजन विभाग में केवल तीन शिकायतें—दो तमिलनाडु में तथा एक उत्तर प्रदेश से—प्राप्त हुई थी जिनमें यह आरोप लगाया गया था कि 20 वर्ष से कम आयु वाले व्यक्तियों की नसबन्दी की गई है। जांच करने पर इस शिकायतों में से दो निराधार पाई गई। तीसरे मामले में राज्य सरकार से अभी सूचना प्राप्त नहीं हुई है।

विभिन्न फसलों पर उर्वरकों के प्रभाव सम्बन्धी अनुसंधान

4721. श्री महावीर सिंह शास्त्री : क्या कृषि मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या उर्वरकों सम्बन्धी अनुसन्धान का लाभ केवल अनाज की फसलों को ही हुआ है;

(ख) क्या केला, अन्नानास और नारियल जैसी बागानी फसलों को इनसे कोई लाभ नहीं मिला है;

(ग) क्या भारतीय कृषि अनुसन्धान परिषद् ने इस बारे में एक सम्मेलन बुलाया था जिसमें कहा गया था कि ठंडे देशों में की गई खोज गर्म देशों पर ज्यों की त्यों लागू नहीं हो सकती और उनकी खोज अलग से होनी चाहिए; और

(घ) यदि हां, तो सरकार ने अब तक क्या कार्यवाही की है; और यदि नहीं, तो क्यों ?

कृषि मंत्रालय में राज्य मंत्री (श्री अन्ना-साहिब पी० शिन्डे) : (क) जी नहीं ।

(ख) उर्वकों के सामयिक, सही और सन्तुलित प्रयोग से सभी फसलों को लाभ होगा । इन्हीं केना, अन्नानास और नारियल की फसलें भी शामिल हैं ;

(ग) भारतीय कृषि अनुसन्धान परिषद ने ऐसा कोई सम्मेलन नहीं बुलाया था जिसमें इस विषय पर विचार-विमर्श किया गया हो ;

(घ) प्रश्न ही नहीं उठता ।

(क) क्या बढ़ रही जनसंख्या राष्ट्र के विकास में बहुत बड़ी बाधा है ;

(ख) क्या बहु-विवाह प्रथा परिवार नियोजन कार्यक्रम पर कुठाराघात कर रही है ; और

(ग) यदि हां, तो क्या सरकार का विचार ऐसी योजना बनाने का है जिससे देश के सभी वर्गों को एक विवाह करने के लिये बाध्य किया जा सके ।

स्वास्थ्य और परिवार नियोजन मंत्रालय में राज्य मंत्री (प्रो० ए० के० किस्कू) :
(क) जनसंख्या में अनियन्त्रित वृद्धि जीवन-स्तर के सुधार में बहुत बड़ी बाधा मानी जाती है ।

(ख) जी हां ।

(ग) प्रश्न नहीं उठता ।

परिवार नियोजन कार्यक्रम को समान रूप से लागू करने के लिए कानून

क्या स्वास्थ्य और परिवार नियोजन मंत्री यह बताने की कृपा करेंगे कि ;

(ख) यदि हां, तो यह कार्य कब तक पूरा हो जायेगा ; और यदि नहीं, तो इसके क्या कारण हैं ?

स्वास्थ्य और परिवार नियोजन मंत्रालय में राज्य मंत्री (प्रो० ए० के० किस्कू) :
(क) जी नहीं ।

(ख) प्रश्न नहीं उठता । देश की जनसंख्या के सभी वर्गों के लिये यह कार्यक्रम स्वैच्छिक आधार पर समानरूप से उपलब्ध है और इस कार्यक्रम के अन्तर्गत उपलब्ध सेवाओं का लाभ सभी समुदायों द्वारा उठाया जा रहा है ।

4726. SHRI RAJDEO SINGH: Will the Minister of SHIPPING AND TRANSPORT be pleased to state:

(a) whether out of Rs. 1407 crores total export shipments, road transport alone accounted for Rs. 864 crores;

(b) whether the percentage ratio of expenditure to revenue on road development had declined from 65.8 percent in 1960-61 to 35.5 per cent in 1968-69;

(c) whether the break-down of road revenue and expenditure rate between the Centre and States showed that while the States spend the whole or almost whole revenue from the roads on road development the centre spent only 24 per cent of its revenue from roads on roads development; and

(d) if reply to (a) and (b) is in the affirmative, what is the programme of the Central Government in the Fifth Five Year Plan regarding spending on roads vis-a-vis revenue derived from roads?

THE MINISTER OF STATE IN THE DEPARTMENT OF PARLIAMENTARY AFFAIRS AND IN THE MINISTRY OF SHIPPING AND TRANSPORT (SHRI OM MEHTA): (a) to (d). Part (a) of the question indicates the conclusion of the "Survey of the domestic Transport of India's Export Cargo" conducted by the operations Research Group, Baroda. That study was based on a sample survey of export consignments during April-June 1969 on the basis of daily list of trade returns compiled by Customs authorities.

The expenditure and revenue figures given in part (b) of the question are also based on that study Report. These figures are, however, not correct inasmuch as the expenditure given does not take into account several major items of roads such as the Lateral Road, Special Roads, etc. Actually, the total expenditure on roads in 1968-69 was about 47 per cent of the total revenue from road transport instead of 35.5 per cent.

The Central expenditure in 1968-69 on roads accounted for about 27 per cent of the total revenue to the Central Government from road transport. The corresponding figure for the States was 86.90 per cent Fifth Five Year Plan is as yet in a preparatory stage and it is not possible now to give any indication about Central Government's programme of expenditure on road development under that Plan.

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI A. K. KISKU):

(a) There is no conclusive proof that Lunar Cycles cause mental disturbances. However according to the Homoeopathic Medical profession certain mental conditions have aggravations or ameliorations related to the phases of the moon;

(b) Government have seen two Press Reports which appeared in the 'Hindu' of 1-10-1972 and 'Hindustan Times' of 13-11-1972, stating that Dr. Arnold Lieber and Dr. Carolyn R. Sherin at the University of Miami in U.S.A. had discovered that when the moon is new or full it causes emotional disturbances in "predisposed" individuals; and

(c) If such a study appears necessary suitable action will be taken.

(b) if so the reaction of Government thereon?

THE DEPUTY MINISTER IN THE MINISTRY OF EDUCATION AND SOCIAL WELFARE AND IN THE DEPARTMENT OF PERSONNEL (SHRI D. P. YADAV): (a) and (b). After conducting a survey on the project "Early Detection of Visual Defects" which in-

involved examination of eye of a member of students; the National Society for Prevention of Blindness as recommended, among other things, that the school going age of all children should be 6½ years. Previously, the Society conducted a symposium on 'Prevention of blindness in infants' in New Delhi on 22 January, 1971, at which one of the main conclusions was that primary education, before the age of 6, should be in the form of oral instructions and very little of reading and writing work, and regular schooling, with instructions by books and writing work, should be introduced from the age of 6 onwards.

This recommendation of the Society was forwarded to the State Governments/ Union Territory Administrations for consideration.

According to Compulsory Primary Education Acts, the minimum age of admission to primary schools in many States is 6½ years. In some States the age restriction for voluntary admission is 5½ years. It is, however, acknowledged that in educating children before this age-level, the stress should be on the use of play-way materials and on activities, rather than on formal education involving reading and writing.

4744. SHRI PAMPAN GOWDA:

SHRI C. K. JAFFER SHARIEF:

(a) whether the Indian Agricultural Research Institute has evolved a 'spring soyabean' variety which may prove a boon to farmers in Northern and Central India; and

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) Yes, Sir.

(b) Trials carried out at the Indian Agricultural Research Institute for two seasons have shown that two American

Varieties Clark-63 and Adelpia are suitable for raising a spring crop (Feb.-June) after the harvest of sugarcane, potato, toria and winter vegetables, under assured irrigation facilities. These varieties are early and mature in 90-100 days as spring sown crop. Both are yellow-seeded. It was possible to obtain yields ranging from 30-35 quintals per hectare in the experimental plots. Investigation for Real Causes of Cancer

4746. SHRI PAMPAN GOWDA:
SHRI ATAL BIHARI
VAJPAYEE:

Will the Minister of HEALTH AND FAMILY PLANNING be pleased to state:

(a) whether Government have investigated the real causes of cancer;

(b) whether one-third of those who die of cancer could be saved if the knowledge available for every diagnoses and treatment is applied without waiting for further research; and

(c) if so, the steps taken by Government in this regard?

THE DEPUTY MINISTER IN THE MINISTRY OF HEALTH AND FAMILY PLANNING (SHRI A. K. KISHU): (a) Research workers in both Government and non-Government institutions are working to elucidate certain factors associated with the causation of cancer or more directly related to its occurrence. Recent advances in the field of epidemiological research on cancer have not only enhanced the knowledge of etiology of malignant tumours but have also brought out the significant role of environmental factors in the causation, development and progression of certain tumours. Studies of these factors have opened avenues for prevention of certain types of tumours.

(b) It can be safely said that one-third of those who die of cancer could be saved if the knowledge presently available for early diagnosis specially by extensive use of investigative cytology (Pap smear) is applied. Detection of cancer at the early stage followed by prompt and proper treatment is the most powerful weapon at our disposal today for launching an all out attack against the disease.

60 to 65 per cent of cancers occurring in our country, comprise of oral and cervical cancers. Both these sites are accessible to detection by cytological procedures. It is also known that these cancers are antedated by the development of precancerous or premalignant lesions. Cytological screening can also detect these lesions. It would thus be clear that if these precancerous lesions are detected and adequately treated, both the cancers like cervical and oral could be termed as preventable diseases.

(c) The Government of India had set up a Cancer Assessment Committee under the Chairmanship of the Director General, Indian Council of Medical Research to make an assessment of the needs and additional requirements of some of the existing institutions and hospitals so that they may be upgraded to regional Cancer Research Centres. The Report of Committee has since been received and is

under examination. The Government of India is also giving grant-in-aid for research work in cancer.

Staff on Government and Research Side of Indian Council of Agricultural Research

4777. SHRI BHARAT SINGH CHOWHAN: Will the Minister of AGRICULTURE be pleased to state:

(a) whether there have been two sets of Officers and staff viz., Government side and research (non-Government) side in the Secretariat of the Indian Council of Agricultural Research since its inception; and.

(b) if so, whether a statement giving information about number of employees pertaining to each side, class-wise on the first of April each year since 1969 will be laid on the Table?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHAB P. SHINDE): (a) In terms of the Government Resolutions constituting the Indian Council of Agricultural Research, the Council, on its Institutional side, was set up as a Society in 1929 and registered under the Societies Registration Act of 1860, but in Secretariat was, to start with, constituted as a regular Department of the Government and subsequently as an Attached Office of the Department of Agriculture, with effect from 15th January, 1939. The Staff comprised of Government servants and the expenditure on the Secretariat was met from the Central Revenues. Till the year 1940, the Indian Council of Agricultural Research Secretariat comprised almost entirely of the servants of the Government of India, although some isolated clerical posts came to be created out of the Research Fund, alongwith the research schemes, for looking after the clerical and accounts work. After the year 1947, due to an overall increase in the activities of the Council and the inability of the Government to provide the requisite staff, additional staff was employed by the Council, from year to year, financed from its Research Funds. In this way, there came into existence a large number of ministerial staff and some scientific and technical staff appointed by the Council, side by side with the staff provided by the Government of India, in the Indian Council of Agricultural Research Secretariat.

As a part of the scheme for reorganising the I.C.A.R. it was decided by the Government of India in 1965, to convert the

I.C.A.R. Secretariat which has been functioning as an Attached Office of the Department of Agriculture, into an office wholly controlled and financed by the I.C.A.R. Society. Option documents were served in 1967 on the scientific, technical and Class IV staff employed in the Indian Council of Agricultural Research Secretariat. No option papers were served on these senior administrative staff in the Indian Council of Agricultural Research Secretariat. As regards ministerial staff, such as Section Officer, Assistants, Stenographers, Upper Division Clerks and Lower Division Clerks, it was decided that since they were members of the respective Central Secretariat Services, borne on the unified cadre of the Department of Agriculture, and were interchangeable, option documents should be served on the above staff borne on the cadre of the Department of Agriculture, including its Attached Offices, subject to the condition that the Indian Council of Agricultural Research will not accept more optees than the number of Government posts in the Indian Council of Agricultural Research Secretariat.

Such of the staff as have opted for the Society's service, have been appointed in the service of the Society w.e.f. 1st February, 1972. Other Government staff working in the I.C.A.R. Secretariat, which is in the process of being converted into a non-Government office, continue to be Government staff.

(b) The requisite information is indicated below:

Recruitment to the Post of Deputy Chief Artist (Exhibition) to I.C.A.R.

4778. SHRI BHARAT SINGH CHOWHAN: Will the Minister of AGRICULTURE be pleased to state:

(a) whether the post of Deputy Chief Artist (Exhibition) under the Indian Council of Agricultural Research in the senior Class I scale was not advertised at all and the usual recruitment procedure was not followed for filling it up; and

(b) if so, what steps have been taken to set right this irregularity?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ANNASAHEB P. SHINDE): (a) and (b). Consequent upon appointment of the substantive incumbent of the post of Director of Arts and Chief Artist in the pay scale of Rs. 700-1250, to the post of Chief Artist in the scale of Rs. 1100-1400 at I.C.A.R. Headquarters, the former post was redesignated as Deputy Chief Artist (Exhibition) in the scale of Rs. 700-1250 in November, 1970 in the interest of work. Normally posts at this level are filled up on the basis of selection through open advertisements. However, the ICAR has been following the practice of utilising live Select Panels, provided the scale of pay and qualifications of the two posts are substantially similar or identical. Keeping in view the need for filling up the post of Deputy Chief Artist (Exhibition) expeditiously, it was decided that instead of advertising the post, it may be filled up by utilising the Select Panel drawn up, on 30th May 1970, by a Selection Committee, constituted for selection to the post of Chief Artist at I.C.A.R. Headquarters in the pay scale of Rs. 1100-1400, as the qualifications of the two posts were more or less the same, and as the Selection Committee had indicated in the proceedings that all the three candidates recommended by them were really outstanding candidates in the field.

(b) Yes.

(c) In respect of India, the situation is much better than what would appear from the concern expressed. The doubling of production of wheat in India during the last five years is quoted in many quarters as an unprecedented achievement in the field of agriculture. In the case of rice, new varieties now available are expected to ensure a sustained and rapid increase in rice production in the coming years.

Certain foodgrains are, however, susceptible to pests and diseases and consumer resistance. The Government is making an effort to ensure better supply of inputs and adopt adequate plant protection measures.

(b) if so, the nature of decision taken by Government in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (PROF. SHER SINGH): (a) No such demand has been received. However, cane growers have been demanding prices higher than the statutory minimum on various grounds including drought conditions.

RE: STARRED QUESTION NO. 497

Dated 19-12-72

SHRI INDRAJIT GUPTA (Alipore): You have permitted this question to be addressed to the Ministry of Education and Social Welfare. But the substance of the matter concerns the Home Ministry. The member might have addressed it to the Minister of Education and Social Welfare, but the Lok Sabha Secretariat should have informed the member that this question should be addressed to the Minister of Home Affairs. If the record of the UP Government in the matter of protection of Harijans had been above board, I could understand this kind of reply being given that "we are just reading out the report received from UP Government". But every day, every week, incidents are taking place. Harijan students have been killed in the hostels. Harijan girls have been molested. If I may say so with great respect to you, Sir, you should not just give protection to the minister by allowing him to say that he is reading out the report received from the UP Government. The UP Government is only trying to whitewash its own failings. The substance of this matter should be referred to the Home Ministry. They must find out independently the facts of the case and make a statement in this House before this session is over. It is a serious matter. Every day such incidents are taking place.

श्री अटल बिहारी वाजपेयी (बालिहार):

अध्यक्ष महोदय, एक कमिशनर हैं जो कि शैड्यूल्ड कास्ट्स और शैड्यूल्ड ट्राइब्स की देखभाल करते हैं और केन्द्रीय सरकार उन कमिशनर महोदय से इस सारे मामले की जांच पड़ताल करके उन से उस बारे में रिपोर्ट मांग सकती है और वह सबन के सामने रखी जा सकती हैं। केवल राज्य सरकार की रिपोर्ट पर ही डिपेंड न किया

[श्री अटल बिहारी वाजपेयी]

जाय क्योंकि मैं केवल उत्तरप्रदेश की ही बात नहीं कह रहा हूँ इस तरह की बटनाएं अन्य राज्यों में भी हुई हैं और राज्य सरकार की रिपोर्ट पर केन्द्रीय सरकार अपने सारे निर्णय करे इस की आवश्यकता नहीं है। आखिर यह कमिश्नर फौर शैड्यूल्ड कास्ट्स और शैड्यूल्ड ट्राइब्स किस लिए हैं ?

श्री इन्द्रजीत गुप्त : वह दो साल में अपनी रिपोर्ट देंगे।

श्री अटल बिहारी वाजपेयी : उनसे कहा जा सकता है कि अभी वह इस मामले की पूरी जांच पड़ताल करें और सरकार को अपनी रिपोर्ट पेश करें और वह सदन के सामने पेश की जाय।

SHRI FRANK ANTHONY (Nominated—Anglo-Indians): I remember drawing attention to the fact that you have a special provision for the scheduled castes which you have not applied to the other minorities. The President is under an obligation, he has the power to issue directives to every State Government in respect of any matter that affects adversely the minorities. This comes directly within the purview of the Central Government. They cannot evade responsibility. (*Interruptions*).

SHRI S. M. BANERJEE (Kanpur): Myself and Mr. Shailani have given notice about the incident at Hathras....

MR. SPEAKER: He wanted to raise it under rule 377. But I have allowed a calling attention on it.

SHRI S. M. BANERJEE: The Minister can get more details and make a statement about what happened to the Harijan boy in Hathras.

MR. SPEAKER: The two members who sent this question were under the impression that it concerns the Ministry of Education and Social Welfare. Mr. Jyotirmoy Bosu himself addressed this question that the Ministry of Education and Social Welfare. He ought to have known..

SHRI JYOTIRMOY BOSU (Diamond-Harbour): No, Sir, I do not want to walk into that trap of Mr. Pant that law and order is a State subject.

MR. SPEAKER: Why don't you admit your mistake sometimes?

This being a matter involving the Harijans, it would have naturally gone to the Ministry of Education and Social Welfare.

SHRI SEZHIYAN (Kumbakonam): I suggest we should have a discussion in this case.

MR. SPEAKER: I will think over it as to what to do with this question. If you think this is related to the Ministry of Home Affairs....

SHRI S. M. BANERJEE: He should have contacted the Home Minister. All the newspapers in UP are full of the atrocities committed on the harijans.

SHRI SHYAMNANDAN MISHRA (Begusarai): May I submit that the mistake does not lie in addressing the question to the Ministry of Social Welfare. The only question is whether the Central Government has got adequate machinery to collect the information. The information will have to be collected from the State Government for the immediate purpose. But given the time, probably they can also check on them and provide information to the House. Otherwise, there is no meaning in addressing this question to the Ministry of Social Welfare....(*Interruptions*).

SHRI JYOTIRMOY BOSU: How does the hon. Minister pass on such cock and bull stories to us?....(*Interruptions*).

MR. SPEAKER: No, I am not allowing it.

SHRI JYOTIRMOY BOSU: Sir, I want to draw your kind attention to the statement that has been laid on the Table of the House.

MR. SPEAKER: No question about statements, whether right or wrong.

SHRI JYOTIRMOY BOSU: That information must have passed through the hon. Minister. He should have applied his commonsense whether the statement is one which people will believe. It is a cock and bull story.... (*Interruptions*).

MR. SPEAKER: A judicial enquiry is going on. It is a matter which is *sub judice*. The hon. Minister has supplied whatever information he has got.... (*Interruptions*). Do not put too much into your allegations. I am not allowing it. For instance, I cannot scrutinise every information that comes to me.... (*Interruptions*).

श्री फूलचन्द वर्मा (उज्जैन) : 'मंत्री महोदय ने अपने वक्तव्य में कहा हैं कि उन चारों सिपाहियों के विरुद्ध 307 सैक्शन के मातहत केस दर्ज किया गया हैं। जब कि किसी व्यक्ति को मर डर किया गया है तो उनके विरुद्ध 302 के मातहत मुकदमा क्यों नहीं दर्ज किया गया है? दूसरी बात मैं यह कहना चाहता हूं कि अब किसी व्यक्ति को पुलिस कस्टडी में लसे हैं तो उस के पहने उस की तलाशी ली जाती है तो फिर इस पुलिस कस्टडी के बाद उसे किरोसीन आयाल कैसे मिल गया जिसे कि उसने अपने ऊपर डाल लिया और इतना ही नहीं बल्कि उसने माचिस लगा कर आग भी लगा ली। अब यह सब मनगढ़न्त है। सदन की भावना को ध्यान में रखते हुए इस बारे में सदन में पूरे डिस्कशन का मौका इसी सेशन के दौरान मिलना चाहिए।

MR. SPEAKER: That matter is over now. I am not allowing any discussion now.... (*Interruptions*). It is all over now. We will take up papers laid on the Table.

RE: BUSINESS OF THE HOUSE

SHRI JYOTIRMOY BOSU (Diamond-Harbour): Sir, I have given notice of a motion....

MR. SPEAKER: No, I am not allowing it.

SHRI JYOTIRMOY BOSU: Sir, I have written to you.... (*Interruptions*).

MR. SPEAKER: Order, order. I am not allowing it. May I request you to please allow me to conduct the business of the House? You are getting up every time without my permission. (*Interruptions*).

अगर माननीय सदस्य इसी तरह करेंगे तो लोक सभा चलेगी कैसे? और यह बीमारी सरकारी बैंचों की तरफ भी हैं। (व्यवधान) में यहां कार्रवाई चलाने के लिये बैठा हूं या शोर सुनने के लिये? अगर शोर सुनना है तो मैं आराम से बैठ कर सुनूंगा, कानों में रुई डाल लूंगा। यह इधर से भी होता है और उधर से भी।

SHRI SHYAMNANDAN MISHRA (Bengal): Sir, I want to raise a completely procedural issue, let alone the merits of the case. The question is as to whether any proposition which is sought to be brought before the House by an hon. Member and admitted by the Chair can be objected to by the Government.

The Government had only the mechanical duty of finding time for discussion. If we agree to the proposition that the Government is making then we will have to submit ourselves to pre-censorship by the Government and, even for that matter, for our questions too we may have to submit supplementaries in advance. Would that be the kind of proposition to which you would like us to subscribe? My humble submission is that the Minister should not stick to this position. (Interruptions) The other things could be sorted out in many ways.

MR. SPEAKER: Mr. Raj Bahadur.

SHRI JYOTIRMOY BOSU: Give me half a minute, Sir..

MR. SPEAKER. Not now. I am calling Mr. Raj Bahadur. (Interruptions).

THE MINISTER OF PARLIAMENTARY AFFAIRS AND SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR) In this Session, Sir, we have held as many as eight discussions on different subjects.

MR. SPEAKER: You wanted certain information....

SHRI RAJ BAHADUR: I will come to that, Sir. First of all, let me remove the impression from the minds of my hon friends that we have not been allowing discussion. Various subjects were discussed here. I do not have to repeat that; the House is aware of it. There would be in all eight discussions on motions from Members and four discussions at the instance of the Government itself.

So far as that particular matter is concerned, Mr. Jyotirmoy Bosu has been repeatedly making allegations that the Central Government machinery or the State Government machinery has been used for special favour. We have repeatedly said that there is no basis for that; we have emphatically denied that. On that he wrote a letter to the Prime Minister. That letter has already been replied. We have asked him to comply with our requirements. He has not done that. (Interruptions) There

is no basis for the allegations. He wrote to the Prime Minister and I have replied on her behalf. But he has not replied. Let him reply to my letters. I have written to him two letters. Let him reply to those letters.

श्री अटल बिहारी वाजपेयी (ग्वालियर) : अध्यक्ष महोदय, आप देखेंगे कि मंत्री महोदय के जवाब से कोई सन्तोष नहीं हो सकता है। यह मामला केवल मिनिस्टर और मेम्बर के बीच का नहीं है। एक प्रस्ताव दिया गया, आप ने उसे सरकारी सूची में रख दिया। वह चर्चा के लिये आये या न आये, इस सवाल पर क्या मंत्री महोदय शर्त लगायेंगे कि आप पहले हम को समझाड़िये कि प्रस्ताव सारी शर्तें पूरी करता है या नहीं? उस के बिना इस मदन में कोई चर्चा नहीं हो सकती?

श्री राज बहादुर : मैं कहना चाहता हूँ कि यह मंत्री और सदस्य के बीच की बात नहीं है, उन की बात जायज हो सकती है, लेकिन टाइम तो सरकार को देना है। हम को रिलेटिव इम्पोर्टन्स देखना होता है कि किस को टाइम देना है और किस को नहीं देना है। इस के लिये भी नियम है।

I have to give the time according to the rules. See the rules first. (Interruptions).

श्री अटल बिहारी वाजपेयी : अगर सदन के पास समय नहीं है, बिजनेस ज्यादा है तो वह अलग चीज है, लेकिन यह कहना कि शर्तें पूरी होती हैं या नहीं, यह ठीक नहीं है।

SHRI INDRAJIT GUPTA (Alipore): My hon. friend, Mr. Shyamnandan Mishra, himself has said that it is on a matter of procedure. None of us is, at the moment, going into the merits of the case. Personally, for that matter, I think there are matters of much greater importance and priority for the country than this particular thing....

SHRI RAJ BAHADUR YADAV: That is a matter of opinion.

SHRI INDRAJIT GUPTA: Yes; that is a matter of opinion. The Minister, in his statement just now, has said that Governments of the opinion that there is no basis, whatsoever, for these allegations. That is what he has said in front of you—I can understand—I may not agree with him but I can understand—if logically he said that since Government was perfectly certain or sure in its own mind that there was no basis, they did not consider a discussion necessary. But, having said that there is no basis, then he says, 'The Member must supply us with further information and evidence before we make up our mind'...

SHRI JYOTIRMOY BOSU. It is self-contradictory.

SHRI INDRAJIT GUPTA: That is definitely contradictory. Therefore, I would also like to know that this should not become a precedent. That is all we are concerned with. There are so many notices given and so many motions which are on the list of No-Day-Yet-Named motions and if before they are accommodated in the List of Business, the movers and proposers of those motions are required to supply additional information and evidence before they can be taken up, I think it is a very dangerous precedent.

SHRI RAJ BAHADUR: I would only say this. I would have never said that, but for the fact that this motion is being raked up over and over again, we can only say that there is no basis for the motion....

SHRI INDRAJIT GUPTA: Then, why are you asking him for basis? If you say, 'There is no basis', there is no basis *(Interruptions)*.

SHRI RAJ BAHADUR: Therefore, I said that there is ample other business that was already accommodated for you and we have no time for this.... *(Interruptions)*. We have already admitted another motion for this week....

SHRI SEZEVAN (Kumbhar): The hon. Minister seems to have written a letter to Mr. Jyotirmoy Bosu after the admission of the motion by you and its publication in the Bulletin. In that letter he has stated that no discussion in the House could be agreed to in the absence of essential particulars as required under the normal practice.... *(Interruptions)*.

Once a motion has been given notice of, admitted by you and has been published in the Bulletin, then the Minister comes forward that he has written a letter to Mr. Jyotirmoy Bosu—perhaps in his personal capacity as there has been so much correspondence going on between them—wherein he has said that no discussion should be agreed to in the House in the absence of essential particulars as required under the normal practice.

I do not think there is any provision in the Rules of Procedure wherein the Minister could ask the Member to give the particulars and the background of the discussion before a discussion can be taken up in the House. If the Speaker asks for them, that is a different matter. I do not think the Minister has got any prerogative to call upon or ask the Member to furnish the particulars before starting a discussion. It is for you to decide.

The second thing that want to submit is: Mr. Jyotirmoy Bosu has given many notices of motions under this particular Rule. It is not for the Minister to choose one of the motions and foist it in the name of Mr. Jyotirmoy Bosu for discussion in the House. It is highly objectionable. It is for you and the Member to decide, and, not for the Minister, to choose which of the motions should be discussed in the House or not.

SHRI PILOO MODY (Godhra): Further, the Minister was heard to say, 'I have written to you two letters. You first reply to those letters before I consider giving any time'. I think a prece-

[Shri Piloo Mody]

dent is being set which is going to vitiate the entire procedure of parliamentary democracy and, with all deference to you, I do not quite understand why you should even permit this particular thing to drag on. It is quite obvious that the Minister is in the wrong and he should be reprimanded, if you do not allow a privilege against him. There is no public spanking here. Otherwise, he should be publicly spanked and told that he should not indulge in this sort of activities with which he tried to browbeat the Opposition.

SHRI JYOTIRMOY BOSU: I regret to say that what the hon. Minister said is not quite correct.

On the 11th of November I have given this motion on Maruti Ltd. because for the last six months we have been reading in the Press all sorts of things which are not complimentary....

MR. SPEAKER: Now, please come to your point. Please do not make a speech. 1

SHRI JYOTIRMOY BOSU: We wanted to clear it once for all on the floor of the House I am quite sure the Government is competent to defend itself. Then, Mr. Raj Bahadur, *suo motu* and even without consulting me, put my name on the motion of flood and cyclone.... (Interruptions) Sir, my motion was scrutinised by your goodself and it was admitted and put down in the list. Now it is upto the Minister to find a time if they feel that this will not create any harassment. If they have any skeletons in the cupboard, then they need not allow the discussion. I have replied to each and every letter of the Minister.

So, what I want to say is that if this discussion is not allowed, then the whole country will feel and think that there is a lot of skeletons in the Maruti Ltd. and that is why the Government is resisting a discussion on the floor of the House.

MR. SPEAKER: So far as the procedure is concerned, it is for the Government to find time for that. The Member

says something; he wants to know what the basis is, he wants to know some precise information. It is not my concern.

SHRI ATAL BIHARI VAJPAYEE: Why not, Sir?

MR. SPEAKER: So far as this motion is concerned, along with others this was there; it is for the Minister to find time, among others.

श्री अटल बिहारी वाजपेयी : टाइम का सवाल है तो हम 23 दिसम्बर को बैठने का फैसला कर सकते हैं। टाइम तो ढूँढा जा सकता है। लेकिन मंत्री महोदय को यह अधिकार कैसे दे सकते हैं कि वह कौन सा मोशन चर्चा के लिये लाएं और कौन सा न लाएं। यह तो आपको तय करना है।

अध्यक्ष महोदय : मुश्किल बात यह है कि the Minister has to find time.

SHRI INDRAJIT GUPTA: There should not be any misinterpretation of the rule to go into the record, Sir. I was not favoured with a copy of this letter earlier but now Mr. Bosu has given me a copy of this letter. In it was have been told: "No discussion in the House could be agreed to in the absence of essential particulars required under the normal practice followed in fixing such discussion. "I say that our rules do not provide for any such thing as this. I don't know where this 'normal practice' is found in our rules. We have got Rule 184 and Rule 189. Conditions of admissibility of Motions are laid down there. Rule 189 says clearly that it is the Speaker who shall decide whether a motion or any part thereof is or is not admissible under the rules. That is all what I wish to submit.

SHRI ATAL BIHARI VAJPAYEE: You can admit the motion.

MR. SPEAKER: So far as the Speaker's part is concerned, you should know this. We cleared all of them. Now, what happens after that is another thing. It is for

the Minister. It is for the Minister to fix the time for that. I have already said so.

SHRI SEZHIYAN: Rule 190 says that the Speaker may, after considering the state of business in the House and in consultation with the Leader of the House, allot a day or days or part of a day for the discussion of any such motion. It is not for the Minister, it is for the Speaker to fix time under Rule 190.

MR. SPEAKER: It is for all of us to find time. Consultation does not mean that I should do it one-sided. It is for him to do it and he has been doing it all right.

SHRI SHYAMNANDAN MISHRA: The Chair may make it unambiguously clear by saying that time has to be found by the Government and that there is no question of Government exercising any kind of control or check. Only that will satisfy us.

MR. SPEAKER: I have already told you. It is for the Government to find time. I am not shutting anything.

SHRI SHYAMNANDAN MISHRA: Members' right must also be protected by the Chair. You should find time for that. This is a duty cast upon the Chair, I believe.

MR. SPEAKER: So far as the motion is concerned, I have cleared it. So far as the hon. Minister's part is concerned, it is for him...

SHRI SHYAMNANDAN MISHRA: Leaving aside this controversial issue, I am asking you to pronounce your judgment on the procedural aspect so that in future we shall have no difficulty.

MR. SPEAKER: This is what I am doing; on the procedural aspect, the Speaker has held it in order, and now it is for the hon. Minister to find time...

SHRI SHYAMNANDAN MISHRA: The second provision in the rule is that

the Speaker in consultation with the Leader of the House has to find time for this, half a day or a day or any part of a day. That is the protection that we want.

MR. SPEAKER: That is what I am asking him, namely when he will find time.

SHRI SHYAMNANDAN MISHRA: If they lay down this proposition, then I should think that they would be...

MR. SPEAKER: There are so many motions. I have to pass them on to the hon. Minister in order to find time for them, and let me know what time he has found for them, and when I know it, I shall inform the House.

SHRI SHYAMNANDAN MISHRA: The difficulty is....

MR. SPEAKER: There is not just one motion; there are about forty to fifty motions. Why should I be particular only about one motion? He should find time for all the motions.

SHRI JYOTIRMOY BOSU: I want a ruling from you....

MR. SPEAKER: My ruling is very much clear.

SHRI DASARATHA DEB (Tripura East): We want to seek one clarification from you. The Minister's duty is to find time. But here in the letter he says that this motion has not got any substantial points. On that ground, can the hon. Minister refuse a discussion on the motion?

SHRI PILOO MODY: Why are you afraid of reprimanding him?...

MR. SPEAKER: He may be in the process of finding time.

SHRI RAJ BAHADUR: Out of 15 motions, I have found time for about eight motions including the discussion on the CIA, the STC and so on.

SHRI JYOTIRMOY BOSU: I want a ruling from you, Sir....

MR. SPEAKER: Now, Secretary to read out message from Rajya Sabha.

SECRETARY: Sir, I have to report the following messages....

SHRI PILOO MODY: Kindly ask the Secretary to sit down. We have not finished with that point yet. I am not quite clear in my mind whether Government are going to find time or not. I want a clarification on that.

MR. SPEAKER: I cannot try to answer on behalf of the Government....

SHRI PILOO MODY: My submission is that if the Government has to find time, it does not also imply that it may not find time. It has to find the time. This is quite specific. Let it be on record. Since you would not be giving the ruling specifically, I have to make it clear.

SHRI SHYAMNANDAN MISHRA: If Government do not find time, then it would mean that Government are making a Christmas gift to its opponents.

MR. SPEAKER: The hon. Minister has the discretion to find time for it.

SHRI JYOTIRMOY BOSU: Was he justified in writing that letter demanding that I should give additional points? Was he or was he not? Kindly give your ruling on this.

MR. SPEAKER: I am not sure about it. So far as my part is concerned, I have cleared it.

SHRI PILOO MODY: I hope you realise what you are doing to parliamentary procedure.

MR. SPEAKER: The hon. Minister says that he is wrong. Where am I in says that he is wrong. Where am I in between?

SHRI JYOTIRMOY BOSU: They have got many skeletons in the cup-board in regard to Maruti Ltd. That is why they are not prepared for a discussion.

MULKI RULES BILL*

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS AND IN THE DEPARTMENT OF PERSONNEL (SHRI RAM NIWAS MIRDHA): I move for leave to introduce a Bill to provide for certain amendments to the Mulki Rules so as to limit their operation, for the validation of certain appointments and for the repeal in a phased manner, of the said Rules and for matters connected therewith.

*Published in the Gazette of India Extraordinary, Part II, section 2, dated 18th December, 1972.

†Introduced with the recommendation to the President.

MR. SPEAKER: Motion moved;

"That leave be granted to introduce a Bill to provide for certain amendments to the Mulki Rules so as to limit their operation, for the validation of certain appointments and for the repeal in a phased manner, of the said rules and for matters connected therewith".

SHRI M. SATYANARAYAN RAO (Karimnagar): On a point of order.

MR. SPEAKER: Some members have given me advance notice of their intention to oppose introduction—Shri Samar Mukherjee, Shri Viswanathan, Shri Somnath Chatterjee and Shri Piloo Mody.

SHRI M. SATYANARAYAN RAO: I have also written to you. It is on the competence of the House.

SHRI S. M. BANERJEE (Kanpur): I have also written to you. Before we consider introduction, there is an extraordinary situation in Andhra Pradesh. In view of that, how do they intend to proceed with the Bill? They have declared non-co-operation and there is a parallel authority emerging there....

MR. SPEAKER: That is separate matter.

PROF. MADHU DANDAVATE (Rajapur): On a point of order re: procedure. The subject-matter of this Bill falls under art. 16(3) of the Constitution which refers not to a part of a State but to a State as a whole. In the Supreme Court judgment in the case of A. V. S. Narasimha Rao vs. State of Andhra delivered on 28th March 1969, it was categorically stated that art. 16(3) refers to a State as a whole and not to a part thereof. The point is, changes in article 16(3) of the Constitution refer to the State as a whole and not a part. The Supreme Court's judgment, delivered on 20th March, 1969, clarifies the position. Again,

if any changes are to be made, no changes are permissible under article 35(a) of the Constitution. Any change in article 16(3) can be introduced only through article 35(a). In the text of the Bill, no reference has been made to this extent, and therefore, I challenge the very legislative competence of this Parliament to introduce this Bill.

SHRI M. SATYANARAYAN RAO: Sir, I support Prof. Madhu Dandavate. He has already mentioned the articles of the Constitution. The hon. Minister should have known what is meant by article 35(a). Unfortunately, he has not mentioned anything. Unless that is done, this is likely to be struck down by the courts. That is the difficulty.

MR. SPEAKER: He has raised the same point of order which has already been raised. Why are you repeating it?

SHRI M. SATYANARAYAN RAO: Already, the Employment Act has been passed by this House in 1967, and that was struck down by the Supreme Court. Again, the hon. Minister has come with a doubtful legislation. We will suffer; Telengana has already suffered and we are going to suffer by this, and the attitude of the Government is only to delay the matters; they are not interested in the solution of the problem. That is my submission. If the House allows the Minister to introduce this Bill, everything will be frustrated. That is my submission.

SHRI S. B. GIRI (Warangal): Sir, you might have seen from the newspapers that eight Ministers from the Andhra Pradesh region have resigned. (*Interruptions*). I am raising a point of order. Eight Ministers belonging to the Andhra region have resigned, asking for a separate Andhra State. The Deputy Chief Minister of Andhra Pradesh, Mr. V. V. Subba Reddy, has demanded a separate State and he has resigned from the ministry. Under the

[Shri S. Giri]

present circumstances, and the present situation, may I know whether this Bill is going to help the people of Andhra Pradesh or Telengana.

MR. SPEAKER: That is not a point of order.

DR. G. S. MELKOTE (Hyderabad): Under rule 72 of the Rules of Procedure, I raise the point of order, whether this House has the legislative competence to introduce this Bill. The point is, under what article of the Constitution are they going to introduce this Bill here; what is the amendment that they are bringing in, and under what enactment.

Secondly, since the question has been raised by Prof. Dandavate and also Mr. M. Satyanarayan Rao, whose arguments I support may I request you to call the Attorney-General to come here and give his views as to what is the competence of this Government to introduce this Bill. Then, the Parliament will know whether it can be introduced or not. I want the Attorney-General to come here and give his opinion on this matter.

SHRI MALLIKARJUN (Medak): Sir is it advisable for the Government to introduce this Bill? Mr. Speaker.—

MR. SPEAKER: I have not called you. Please sit down. Not a word will go on record when I have not called you. You must know it. I have not called you. You must know the procedure. You are making a speech after coming forward, moving forward. Will you please sit down?

SHRI B. N. REDDY (Niryalguda): I request you not to allow the Minister to introduce this Bill, because, at this critical stage, this Bill strikes at the very foundation and the integrity of the State of Andhra Pradesh, especially when there are regional claims and passions. Already, the draft Bill puts the entire State into regional fights and claims. So, I request you not to allow him to introduce this Bill.

MR. SPEAKER: You make a request to him not to move it.

SHRI MALLIKARJUN: My humble submission in this august House is to introduce a Bill to effect the creation of a separate Telengana State, when there is bilateral demand for bifurcation of Andhra Pradesh State. Unilaterally, we have in Telengana demanded for bifurcation of State and lost 350 lives. Why do you want to take 700 lives in Andhra Region? Yesterday in the Vijayawada meeting, a resolution was adopted for division. The Andhra M.Ps. sent a telegram that they are going to abide by the decision in Vijayawada; they passed a resolution demanding a separate Andhra State. With all that, I invoke our esteemed Prime Minister whose dynamic leadership is known not only nationally but also internationally. I pray to her in this august House to introduce a Bill effecting the creation of a separate Telengana State.

SHRI SAMAR MUKHERJEE (Howrah): This is the most unwise act on the part of the Government to introduce this Bill at this stage in this form. This Bill incorporates the award given by the Prime Minister and that award does not help the integration but it helps regionalism grow further; the results are already quite evident. (Interruptions). Those who are not interested in the integrity of the State should not be given a handle by this Bill to take the issue to such a stage where the entire State is going to be divided and partitioned. Already the slogan is there that there should be a separate Andhra State and a separate Telengana State. It was on the basis of the linguistic States that Andhra State was constituted. It is the basic fundamental democratic principle that the States of the other languages have grown and developed. It was on that principle that Andhra also came into existence. The proposals made in this Bill, the five point award does not help the integration of services at all levels. It retains regionalism at a certain level and helps further intensification of the outlook of regionalism. That is why everybody is discontented. Those who are for a separate Telengana are discontent and those who want integration of Andhra are also discontented. The main reason is that the Government of India reason is that to provide jobs

for all. The main factor behind this regionalism, one of the key factors, is economic. Unemployment is growing more and more and backward areas are not being sufficiently developed. If efforts are to be made to develop backward areas and provide jobs for all, it requires basic change in the entire policy of the Government. Otherwise patchwork will not solve the problems or help integration of Andhra. That is why I request the Government to withdraw this Bill and try to create some atmosphere where sober thinking will appear and introduce at least at this stage two to one proportion basis at all levels so that the integration process is started, commencing from below to the top, and Andhra may remain united. That is why I oppose the introduction of this Bill.

13 hrs.

SHRI G. VISWANATHAN (Wandiwash): Sir, I rise to oppose the introduction of this Bill on constitutional and other grounds. In 1969 in the case of *Narasimha Rao vs State of Andhra Pradesh*, the Supreme Court struck down the Public Employment (Requirement as to Residence) Act of 1957 and declared it unconstitutional on the ground that it cannot discriminate between citizens and citizens within the same State. In 1972, in the case *State of Andhra Pradesh vs. Venkata Reddy*, the Supreme Court has laid down that by virtue of article 35 (b), the Mulki Rules were not unconstitutional because it is only applicable in the erstwhile State of Hyderabad and there is no discrimination between citizens within the State.

If we are going to pass this Mulki Rules Bill, it will become a central Act and it will attract fundamental rights, particularly article 16(2), which says:

"No citizen shall, on grounds only of religion, race, caste, sex, descent, place of birth, residence of any of them, be ineligible for, or discriminated against in respect of any employment or office under the State."

So, this Act also be struck down by the Supreme Court under this article like the 1957 Act about public employment. I would like to quote the resolution of the

Telengana Regional Committee in this regard:

"The Regional Committee is of the considered view that fresh parliamentary legislation is not necessary for the implementation of the aforesaid proposals. Mulki Rules can be implemented through executive orders. Experience of the past has shown that any legislation on the question of residential qualification for employment bristles with unpredictable legal difficulties in the context of constitutional provisions and it may actually defeat the purpose for which they are intended and continued. The Regional Committee is also conscious of the possibility of the eventual abrogation of Mulki Rules by courts as a result of defective and doubtful legislation. If the Government of India feels that fresh legislation is absolutely necessary for the implementation of the Mulki Rules, article 16(3) of the Constitution may be amended first enabling Parliament to pass legislation providing residential qualification for employment for a part of a State."

According to the judgment of the Supreme Court in 1972, if the Mulki Rules are applicable to the erstwhile State of Hyderabad, it has its own repercussions. The same rules will be applied to the Marathwada region of Maharashtra and Karnataka region of Mysore, because they formed part of Hyderabad State before Andhra Pradesh was formed. Some may argue that the gentlemen's agreement between Andhra and Telengana in 1956 was only for a period of five years—I am saying it subject to correction.

This five-point formula announced by the Prime Minister is not acceptable to both Andhra and Telengana. Especially we find there is so much opposition from the people of Andhra region. Yesterday nine Ministers, including the Deputy Chief Minister, have resigned. Ministers, parliamentarians and legislators on both sides have asked for clarifications, certain assurances and amendments. In Andhra no office is working except that of the Ministers who have not resigned and that of the Secretaries. The situation there is very

[Shri G. Viswanathan]

serious. Yesterday, the President of the NGO's Association has been dismissed from service. I think it is going to have its repercussion in the Andhra region.

It was said that the five point formula was endorsed by the Andhra Cabinet the same evening. But we see different statements by different people, including Ministers, the very next day. It means that both the sides have not accepted this formula. Government had enough time but they missed the opportunity when they should have taken a quick decision.

I deplore the indecent haste with which the Bill is sought to be hustled through this House. The Centre has to carry both the regions with them. Otherwise, this Bill will cause conflagration in Andhra State. Some people seem to be of the opinion that this agitation is created by some landlords and frustrated politicians. If you think like that, you are living in a fool's paradise. Here I want to make it clear that I am not in favour of the division of Andhra Pradesh. It was with the sacrifice of Potti Sriramulu that Andhra was formed and Pandit Nehru inaugurated Visala Andhra. I do not want it to fall upon his daughter to divide the State. Hence, I want the government to take some time to consider this and that is why I oppose the introduction of this Bill.

SHRI SOMNATH CHATTERJEE (Burdwan): Until the Supreme Court invalidated the 1957 Act, the Mulki rules had not been in operation or in force since the formation of the Andhra State. The present situation has arisen because of the judgment of the Supreme Court. Under Article 35(a) of the Constitution the Mulki rules are in force and are continuing. I would like that Shri Mirdha to take note of this. In fact, it is a part of the fundamental rights chapter, namely, Part III of the Constitution. Therefore, this is a fundamental right under article 35 of the Constitution, and the beneficiaries of the Mulki rules want to enjoy them as a fundamental right. Now, as a result of the Supreme Court judgment and the

invalidation of the 1957 Act, it has become so to say a part of the fundamental rights of certain sections of the people until Parliament makes a proper law.

Now I wish to draw your kind attention to the provisions of the Bill. Apart from legislative competence, what is sought to be introduced by this Bill comes within the mischief of article 16 of the Constitution read with article 35. We do not want to be a party to a legislation which cannot stand the test of judicial scrutiny. I am not here at the moment on the political aspect of the Bill. I am purely on the legal aspect. Clause 3(3) of the Bill provides for validation of certain appointments which had been made contrary to the Mulki Rules. Clause 4 also deals with validation of certain appointments which are contrary to Mulki rules, with retrospective effect. That is important. Clause 3(3) and clause 4 seek to validate with retrospective effect those appointments which have been made contrary to Mulki Rules. Now, according to the Supreme Court judgment, the Mulki Rules are operative till today and will continue to do so until they are properly repealed.

During the period when Mulki Rules have remained in force and which are deemed to be a fundamental right under article 35 read with article 16(3), how can those Rules be ignored with retrospective effect under clause 3(3)? That is a very important point I would request the hon. Minister to consider. Although the Mulki Rules are in force and have got the sanction of article 16(3) and article 35, even then Parliament is being asked to ignore them with retrospective effect. This will not stand the test of scrutiny.

Then, kindly see clause 3(1). One could have understood that the Mulki Rules are being repealed with retrospective effect. That is not being done. Clause 5 says that the Mulki Rules will be repealed in a phased manner. Clauses 5, 6 and 7 make it very clear that they are not being repealed with retrospective effect. Therefore, during the period when the Mulki Rules would be deemed to be in force, how can you

ignore them for the purpose of giving retrospective effect? The Parliament can make a retrospective legislation if there are constitutional impediments or legal impediments. They must get rid of those impediments, by a proper law. Then, you can make them with retrospective effect. Without getting rid of the impediments, that is, the Mulki Rules and keeping them alive, the Parliament is seeking to pass a legislation which will amount to ignoring the Mulki Rules and will go against provisions of article 16(3) and article 35 of the Constitution and this will be declared as bad.

The power has been given to Parliament under article 16(3) to make a law prescribing any requirement as to the residence, etc. Therefore, if you want to make a law under article 16(3), that law has only to provide for certain requirement in regard to residence. Article 16(2) will not be applicable if the Parliament makes a law prescribing certain residential requirement. This Bill does not seek to prescribe any residential requirement at all. It does not come within article 16(3) at all. It does not come within article 16(3) at all. It does not at all come under article 16(3) to lay down any requirement in regard to residence.

This Bill seeks to invalidate something which the Supreme Court has said valid or validate something which the Supreme Court has said invalid, without avoiding the causes which have caused invalidation. Therefore, apart from these defects, the Parliament, as the Constitution stands today, has not got the power to do anything under article 16(3) except to prescribe the residential requirement which this Bill does not seek to do.

With these words, I submit, let the Bill be withdrawn and let them give their thought to it. It is not a constitutional amendment. This will not stand the test of scrutiny and, therefore, I am opposing the introduction of the Bill.

SHRI R. V. SWAMINATHAN (Madurai): Sir, I would request you to adjourn the House now for lunch and this will give time to the Government to consider the matter.

श्री र. व. स्वामिनथन (मदुरै):

अध्यक्ष जी, इस पर चर्चा लम्बी चलेगी क्योंकि लीगल कॉम्पिटेंस को चुनोती दी गई है। नियमों के अनुसार आप चाहें तो पूरी चर्चा का मौका दे सकते हैं। यदि आप पूरी चर्चा का मौका देंगे तो बहुत से सदस्य बोलना चाहेंगे, यह जल्दी खत्म होने वाला मामला नहीं है।

SHRI PILOO MODY (Godhra): Sir, I would like to have my say on the matter... (Interruptions).

SHRI R. V. SWAMINATHAN: My submission is that we may adjourn for lunch and on reassembling after lunch, we may take it up. This would give time for the Government to think over the matter, whether to move it or not.

MR. SPEAKER: Among those names which I have received to oppose the introduction, only yourself and Mr. Piloo Mody are left. There is no other name..

SHRI ATAL BIHARI VAJPAYEE: You can allow a full discussion on this as the legal competence of the House has been challenged.

SHRI. SEZHIYAN (Kumbakonam): Under rule 72, a full discussion can be allowed if the introduction of the Bill is opposed on Constitutional grounds. There is the procedure for that.

SHRI PILOO MODY: All that procedure can be contemplated after we have had the chance of saying what we wanted to say.

SHRI R. V. SWAMINATHAN: After Lunch, you can speak.

MR. SPEAKER: Mr. Swaminathan, I am sorry, your name is not here....

SHRI R. V. SWAMINATHAN: I do not want to speak, Sir, I was only suggesting that we might adjourn for lunch....

MR. SPEAKER: I have heard it. You need not repeat it.

SHRI R. D. BHANDARE (Bombay Central): You can comply with our request, Sir. After lunch, he can speak for sufficient time. We can break for Lunch and after Lunch, he can have the floor of the whole House.

MR. SPEAKER: I will listen to Mr. Piloo Mody for three or four minutes. I think he will take....

SHRI PILOO MODY: I will take two minutes.

You have heard several points of order. You have heard Constitutional arguments against the introduction of this Bill. You have heard legal arguments. I plead with you, Sir, to hear a couple of moral arguments also.

Nobody in Andhra or in Telengana wants this Bill. I do not know why the Central Government is so anxious to introduce it. I have received a sheaf of telegrams which I am going to read to you....

MR. SPEAKER: Everybody has received....

SHRI PILOO MODY: I will take two minutes.

MR. SPEAKER: If it is a matter of detail....

SHRI PILOO MODY: As I said, Sir, I will take only two minutes.

MR. SPEAKER: All right.

SHRI PILOO MODY: "Andhra Government indiscriminately enforcing internal security Act against peaceful Andhra State agitation leaders. Please raise the issue in Parliament."

This telegram has been sent by no less a person than Mr. Gouthu Latchanna and Mr. Subbaraju, President and Secretary Andhra Kendra Karyacharana Samithi, who are considered to be reactionaries because they upheld this cause, and now we find that eight of their own Ministers....

AN HON. MEMBER: Nine.

SHRI PILOO MODY: Now we find that nine of their own Ministers are also on the same side.

This is another telegram:

"Citizen lawyers and all intelligentsia of Andhra pray oppose introduction of Prime Minister's Bill on Mulki Rules. Andhras are denied fundamental rights in their own Capital. People want separate Andhra State or integrated State without Mulki Rules. Please take up our cause and save as from the autocracy of the Chief Minister of Andhra Pradesh."

This has been sent by Andhra Pradesh Bar Association, Visakhapatnam.

"In view of intense agitation in Andhra, Prime Minister should not introduce. Speaker of Lok Sabha should not admit. Leaders of Opposition should oppose Mulki Rules Bill—president, Bar Association, Eluru."

"Tenali Bar Association rejects Prime Minister's five-point formula. Demands separate Andhra State—Secretary."

MR. SPEAKER: Two minutes are over now.

SHRI PILOO MODY: I have not yet finished. I will just finish.

In view of the very large volume of public opinion that has been built up as a result of the tremendous strife that is going on in this area, I plead with you not to permit this Bill to be introduced not only on the grounds that it is not Constitutional, that it is against the law of the land, but also on the humanitarian grounds because if this Bill is introduced and if it is passed, I assure you that there will be a blood-bath not only in Andhra but also in Telangana. Therefore, I appeal to you, for the benefit of the country and of all of us, not to allow this Bill to be introduced and to declare it *ultra vires*. I for one, will have to make my position quite clear that if you allow this Bill to be introduced, I will have to walk out of this House.

SHRI FRANK ANTHONY (Nominated-Anglo-Indians): I want to very briefly oppose the basic principle of this Bill.

I think basically it is a pernicious Bill in principle. I have always opposed the 'sons of the soil' movements because they are evil movements. What you are now in fact doing is sanctifying the 'sons of the soil' movement for a part of the State, not even for the whole State.

Now, the Government is entirely to blame for the present position that it is in. It has sown the wind of disintegration and now the country is reaping the whirlwind. Very few of the Members here now were there in the House when I alone in this House opposed the Bill and opposed the formation of Andhra Pradesh. I said, you were opening a Pandora's box and you will have a multiplicity of the linguistic States. Even, I made prophetic statement that Andhra Pradesh in time will itself divide; and that is happening to-day. What are you doing now? You have got to stop it. This is an exercise not only in futility, it is an exercise in hypocrisy. Before there is further blood-bath, my submission to the Government
 'ceased pa of seahg seahg paog 1a1 :s
 Otherwise, what you will get is that there will be similar movements. They are already ready-made—Vidharbha and Saurashtra. My respectful submission is: you have sown the wind, but, before the country reaps the whirlwind and more blood-bath, let these two States part in peace.

श्री बटल बिहारी बाजपेयी : मेरा निवेदन है कि नियम के अनुसार अगर आप चाहें तो इस समय इस सवाल कर पूरी बहस का मौका दे सकते हैं। केवल जिन लोगों ने अपने नाम भेजे हैं उन्हीं को चर्चा में भाग लेने दिया जाये यह काफी नहीं होगा।

अध्यक्ष महोदय : इस पर पन्द्रह बीस आक्षेप तो बोल चुके हैं।

श्री बटल बिहारी बाजपेयी : आप कल 72 देव में :

"....Provided that where a motion is opposed on the ground that the Bill initiates legislation outside the legislative competence of the House, the Speaker may permit a full discussion thereon."

इसके पहले कि आप मंत्री महोदय को बुलायें, जिन सदस्यों ने अपने नाम नहीं भेजे हैं उन को भी चर्चा में भाग लेने का मौका दें।

SHRI SHYAMANADAN MISHRA (Bengal): I would like to make a very brief submission in this regard. Now, the question is: if the House thinks in its wisdom that it might lead to a blow-up and further conflagration, should not the House advise the Government whether they should come up with a measure of this kind? The atmosphere is completely surcharged in that State and there are indications that probably the situation might become even worse. In that situation, it is our advice that the Government....

MR. SPEAKER: I am asking them if they want time to think it over.

SHRI JYOTIRMOY BOSU (Diamond Harbour): Where is the hon. Prime Minister when such an important matter is being discussed?

SHRI SHYAMANANDAN MISHRA: I am of the opinion that the Government will be well-advised to do a little more of political and humane engineering before it comes up with any measure on this subject. That is my humble submission.

SHRI JYOTIRMOY BOSU: We do it after lunch.

SHRI MURASOLI MARAN (Madras South): Many Members of Andhra Pradesh are here and we would like to hear their views also.

SHRI R. S. PANDEY (Rajnandgaon): On a point of order, Sir..(Interruptions)

MR. SPEAKER: Now we adjourn for lunch to meet at 2-30.

13.25 hrs.

The Lok Sabha adjourned for Lunch till thirty minutes past Fourteen of the Clock.

The Lok Sabha re-assembled after Lunch at thirty three minutes past Fourteen of the Clock.

[MR. SPEAKER in the Chair]

MULKI RULES BILL—contd.

SHRI JYOTIRMOY BOSU. **

MR. SPEAKER: Not a word will go on record. You should not get up every time without my permission. Shri Vajpayee.

श्री अटल बिहारी वाजपेयी : मुझे प्रसन्नता है कि आपने इस विषय पर इसी स्तर पर चर्चा करने का मौका दे दिया है।

अध्यक्ष महोदय : अभी नहीं दिया है।

श्री अटल बिहारी वाजपेयी : आप मुन लें और शायद उसके बाद आप दे दें।

MR. SPEAKER: I wanted to listen to the Minister first....

श्री अटल बिहारी वाजपेयी : मेरा निवेदन यह है कि इस बात की चुनौती दी गई है कि यह सदन इस तरह का विधेयक पास कर सकता है या नहीं ? अनेक सदस्यों ने यह आहंका प्रकट की है कि इस विधेयक को अगर अदालत में चुनौती दी गई तो इसे अवैध घोषित कर दिया जाएगा। नियमों के अनुसार जब इस प्रकार का मुद्दा आपके सामने पेश हो तो आप सदन को पूरी चर्चा का मौका दे सकते हैं।

**Not recorded.

अध्यक्ष महोदय, मुझे यह कहने के लिए विवश होना पड़ रहा है कि इस विधेयक को लाने में बड़ी जल्दबाजी से काम लिया गया है। पहले आज की कार्य सूची में इस विधेयक को पेश किए जाने का समावेश नहीं था। एक दूसरी कार्य सूची निकाली गई जिसमें 12ए के अन्तर्गत विधेयक को पेश किया जा रहा है। पहले यह विधेयक श्री राज बहादुर पेश करने वाले थे लेकिन इसे श्री मिर्चा ने पेश किया है —

संसदीय कार्य तथा नौबहन और परिवहन मंत्री (श्री राजबहादुर) : उनकी अनुपस्थिति में मैंने दस्तखत कर दिए थे।

श्री अटल बिहारी वाजपेयी : आप भी जल्दी में दस्तखत कर देते हैं और पीले मुष्किल हो जाता है।

मेरा यह निवेदन है कि उच्चतम न्यायालय ने ए० बी० एस० नरसिंह राव और अन्य बनाम आंध्र प्रदेश राज्य और अन्य में 28 मार्च, 1969 के अपने निर्णय में यह अभिनिर्धारित किया कि लोक नियोजन (निवास के बारे में अपेक्षा) अधिनियम, 1957 की धारा 3 जहां तक वह तेलंगाना क्षेत्र से सम्बन्धित है, असंवैधानिक है किन्तु न्यायालय ने अधिनियम के अन्य उपबन्धों की विधिमान्यता के बारे में, जिन में मु. की नियमों के निरसन से सम्बन्धित धारा 2 भी सम्मिलित है, कोई मत प्रकट नहीं किया। स्वयं मंत्री महोदय ने अपने वक्तव्य में आगे बताया है कि 2 की धारा 3 से पुष्क

नहीं किया जा सकता। धारा 3 उनके द्वारा पहले ही शक्ति बाह्य घोषित की गई थी।

मेरा निवेदन है कि इस मामले पर अभी सुप्रीम कोर्ट ने टुकड़ों में विचार किया है, पूरी तरह से विचार नहीं किया और परस्पर विरोधी निर्णय हुए हैं। मैं चाहता हूँ कि सरकार को इस विधेयक को पेश करने से पहले एटर्नी जनरल की इस बारे में राय ले लेनी चाहिए थी। मैं जानना चाहता हूँ कि क्या उनकी राय ली गई है और क्या उनका मत यह है कि इस विधेयक को अगर अदालत में चुनौती दी गई तो अदालत का फैसला इसे संवैधानिक घोषित करेगा? अगर एटर्नी जनरल की राय नहीं ली गई है तो मेरा निवेदन है कि उनको इस विधेयक पर अपनी राय देने के लिए सदन में बुलाया जा सकता है। अगर उनकी राय ले ली गई है तो मंत्री महोदय बताएं कि वह राय क्या है? आज तक जो आंध्र के उच्च न्यायालय और सर्वोच्च न्यायालय ने निर्णय दिए हैं उसको देखते ही इस बात की पूरी सम्भावना है कि यह विधेयक भेदभाव के आधार पर, मूलभूत अधिकारों के प्रतिकूल जाने के आधार पर अदालत द्वारा अवैध घोषित किया जा सकता है। हम नहीं चाहते हैं कि यह सदन कोई ऐसी कार्रवाई करे, ऐसा विधेयक स्वीकार करे जिस की वैधता के सम्बन्ध में सन्देह हो। इस वास्ते हम सदस्य यह चाहते हैं कि एटर्नी जनरल को अपनी राय देने के लिए सदन में बुलाया जाए।

दूसरे पहलू पर प्रकाश डाला जा चुका है। इस तरह का विधेयक लाने से पहले सभी सम्बन्धित पक्षों से सहमति प्राप्त कर लेना आवश्यक था। हम समझते थे कि इस तरह की सहमति प्राप्त कर ली गई है। लेकिन अब संतोषजनक बात है अपने ही घर में जो विवाद पैदा हो गया है उसके प्रकाश में इस अवसर पर इसको लाने-अपाने की आवश्यकता नहीं

है। मंत्री महोदय इसे वापिस ले लें, घर में बैठकर चर्चा करें, सर्वसम्मति के आधार पर निर्णय ले और उसके बाद सदन के सामने विधेयक ले कर आएँ जिसे अदालत में भी चुनौती न दी जा सके।

MR. SPEAKER: Now, the hon. Minister.

SHRI INDRAJIT GUPTA: (Alipore) May I have a word, Sir?

MR. SPEAKER: The hon. Member had already spoken on this....

SHRI INDRAJIT GUPTA: I had spoken on this on the 21st of last month. Much water has flowed down the river since then. So, please allow me.

SHRI RAM NIWAS MIRDHA: You want me to reply?

MR. SPEAKER: Did he have time to consult the Attorney-General? Have the Government consulted the Attorney-General or not?

SHRI RAM NIWAS MIRDHA: We consulted the Law Ministry and they were involved at every stage in the drafting of this Bill, and all points raised by the hon. Members were duly considered.

SHRI ATAL BIHARI VAJPAYEE: What about the Attorney-General?

SHRI RAM NIWAS MIRDHA: I cannot say anything about the Attorney-General, but the Law Ministry which advises us on all these matters has been fully involved at every stage.

SHRI PHLOO MODY: Scrap the Law Ministry.

SHRI G. VISWANATHAN: I am told that the Attorney-General had advised Government against this Bill. We want to know the position from the hon. Minister.

SHRI INDRAJIT GUPTA: On the 21st of last month, when this matter came up in the form of a calling-attention-notice

[Shri Indrajit Gupta]

I had made it quite clear that in our opinion any formula which was devised for maintaining the integrity of the Andhra Pradesh State which was acceptable to the various interests concerned would be something which we would all like, but I had made it clear that in order to do that, first of all, article 16 of the Constitution would have to be amended. Article 16(3) says:

"Nothing in this article shall prevent Parliament from making any law prescribing, in regard to a class or classes of employment or appointment to an office under the Government of, or any local or other authority, within a State or Union territory, any requirement as to residence within that State or Union territory, prior to such employment or appointment."

I had made it clear that day that this clause dealt with prescribing requirements of residence within a state, not within a part of a State. Therefore, if this Bill of the type they are seeking to introduce is not to run the risk of being invalidated—other members have laboured this point sufficiently—this must be preceded by a Bill amending art. 16(3) so that Parliament is permitted to make a law prescribing requirements of residence within a state or part thereof. Otherwise, there is every chance of this being struck down. Therefore, it is impolitic from every point of view to seek to introduce such a Bill which runs this risk.

I may just say this, though I do not think the Ministers will admit it. After all, these things are done in a routine way. A formula was devised and announced by Government. To give it statutory form, the Law Ministry was asked to start drafting a Bill. On that basis, it had gone on drafting it. In the meantime, something else has happened there, which was not there at the time we discussed it last time here. At that time, the demand for a separate Andhra State distinct from Telengana had not been raised; only the demand of the people of Telengana or, some parties in Telengana was there.

SHRI S. B. GIRI: It was the demand of the entire people.

SHRI INDRAJIT GUPTA: All right, the entire people. Subsequent to that formula, what has happened is something which is also helpful to him—the other people also wanting a separate State.

SHRI M. SATYANARAYAN RAO: Helpful to the people, not to us.

SHRI INDRAJIT GUPTA: In the meantime, the Bill had gone on being drafted according to the formula announced at that time.

Therefore, I would request Government to look into this matter very carefully not only on the ground that it may be held *ultra vires* art. 16(3) but also on the ground that after all, the Bill seeks to incorporate a formula whose purpose was to keep the State intact, prevent it from being bifurcated. In the meantime, these developments have taken place which show that such a Bill will not be acceptable to anybody there—neither the Andhra portion nor the Telengana portion. So, Government should seriously consider it before bringing it here.

Finally, may I take this opportunity to offer a word of personal explanation? I have no hesitation in saying that I regret very much, that day when I spoke here inadvertently I used a certain word. I am not talking about land reforms; of course, Shri Mody will not accept the existence of landlords. I had said 'Khamma landlords'. Many friends took offence, I understood later on, because of this, because this is the name of a certain caste. I can assure you that I had no intention whatsoever to cast any reflection on any particular caste. Landlords are landlords, Khamma or non-Khamma.

SHRI P. VENKATASUBBAIAH (Nandyal): His was the most provocative statement. That was one of the contributory causes for the situation that arose.

SHRI INDRAJIT GUPTA: I did not know I was such a powerful person.

SHRI PILOO MODY: Not powerful, destructive.

SHRI INDRAJIT GUPTA: This was inadvertently used. I had no intention of distinguishing landlords in this manner. So I express my regret for it.

Shri Mody has read out a telegram from Latchanna. Now, I suppose he will say nobody can call him a reactionary.

I would like to conclude on this note. We will stand by the demand to keep the State integrated. I know if a separate Andhra State is formed—perhaps it will be—there will be another quarrel started, in which Shri Latchanna is one of the chief protagonists, as to which is going to be the capital, Kurnool or Guntur....

SHRI P. VENKATASUBBAIAH: On a point of order. Now he is introducing another controversial matter and making matters worse. He is not helping the cause of an integrated State for which he speaks.

SHRI INDRAJIT GUPTA: These things have already been raised by friends there. I only get reports about them.

Anyway, I would request Government to look into this. Nobody here welcomes this Bill as it does not conform to the concrete situation outside as it has developed now. They should consider it very carefully and not do anything which may only worsen the situation.

SHRI S. B. GIRI rose—

MR. SPEAKER: You spoke already.

SHRI S. B. GIRI: I did not speak.

MR. SPEAKER: What did you do at that time?

SHRI S. B. GIRI: I gave the information to this august House about the resignation of nine Ministers. I did not speak.

MR. SPEAKER: You have already spoken. If the Bill is taken up, you can speak, but not now on the same point. Again you have got up.

SHRI S. B. GIRI: I spoke at that time supporting the point of order. I did not speak about it. I only gave information to the House.

MR. SPEAKER: I gave you a chance, and you have spoken, either supporting a point of order or otherwise.

SHRI S. B. GIRI: I have got my own opinion about the Bill. I have not spoken about it. Only two minutes, Sir.

MR. SPEAKER: The question is about the procedure; whether you can speak twice.

SHRI S. B. GIRI: I did not speak at

MR. SPEAKER: What was it that you said at that time?

SHRI S. B. GIRI: I informed the House the nine Andhra Ministers have resigned. That is all I said.

MR. SPEAKER: I am sorry I cannot allow you. Anybody else who would like to speak?

SHRI G. VISWANATHAN: We would like to know the views of the Andhra Members. I am told that they have written to the Prime Minister asking for President's rule. Let them clarify the position. Here is a copy of the letter sent to the Prime Minister, asking for President's rule, in reply to the statement of the Chief Minister on the Vijayawada meeting.

MR. SPEAKER: Shri P. Narasimha Reddy. The Andhra people are hearing all the time the people who do not belong to Andhra Pradesh.

SHRI P. NARASIMHA REDDY (Chittoor): I would only like to contradict one statement which my friend Shri Viswanathan made, namely, that M.Ps. from Andhra Pradesh have written a letter to the Prime Minister. Apart from that, I also

[Shri P. Narasimha Reddy]

feel that we should consider all the constitutional aspects of this Bill which have been raised on the floor of this House. I do not know whether this aspects has been sufficiently and suitably considered at all levels in the Government. Furthermore, as somebody has remarked, as the situation has materially changed, in view of the changed situation, I wonder whether this Bill serves the purpose, and that is an aspect which the Government should well examine. They may take time to examine this matter and bring forward a proper Bill. That is my submission.

AN HON. MEMBER: Ask Mr. Venkatasubbaiah to speak.

MR. SPEAKER: He does not want to speak, and you are forcing him. The Minister.

SHRI RAM NIWAS MIRDHA: Sir, two types of objections have been raised with respect to this Bill. One is regarding the legislative competence of this House to deal with a Bill of this nature. The other aspect of the argument is that the situation has materially changed and due to various other reasons this Bill should not be brought forward in this shape, but a different Bill which meets the aspirations of the people to a greater extent should be brought in. The latter type of argument will not be very relevant at this stage. They can be gone into—

SHRI PILOO MODY: And to hell with the wishes of the people?

MR. SPEAKER: Mr. Mody, there should be some limit.

SHRI PILOO MODY: You should have made this remark instead of me.

MR. SPEAKER: There should be a limit on every side.

SHRI RAM NIWAS MIRDHA: At this stage, only arguments of a legal nature can be brought forth. That is what I said. As regards the merits of the Bill, they can be gone into when we consider the Bill at a later stage. When the

Bill is opposed at the introduction stage only the preliminary legal and constitutional aspects can be brought forward. As regards the first aspect I should deal with it right now. As regards the other aspects, the merits of the Bill, they will be considered when it comes up for further consideration in greater detail and whatever arguments are brought forward by the hon. Members, I shall try to reply to them.

As regards, Parliament's right to pass a Bill of this nature, we have very seriously considered it, particularly after the judgment of the Supreme Court was given. We have no doubt that this Parliament has the requisite powers under the Constitution to pass a law of this nature. As the House would recall, a similar law was passed before also. Because certain sections of that law were struck down by the Supreme Court, this new Bill is being brought forward before the House. The Supreme Court judgment itself when it struck down certain provisions, said that it was for Parliament to deal with the matter.

SHRI ATAL BIHARI VAJPAYEE: Not in this manner....(Interruptions).

SHRI RAM NIWAS MIRDHA: Manners can differ. But the Supreme Court itself has said that it was for Parliament to consider the matter and in their opinion also we are not debarred from considering a Bill of this nature and that is what my submission is. The Supreme Court has held the view that this House can consider a Bill of this nature and that is why we have brought forward the Bill.

Something was mentioned about retrospective effect—whether the retrospective effect element introduced in this Bill is also constitutionally valid or not. This point was also thoroughly considered and we that it could be done. Parliament has the requisite legislative competence under article 35 of the Constitution in particular.

PROF. MADHU DANDAVATE: While referring to the competence, there was also reference to article 16(3) and its scope.

SHRI RAM NIWAS MIRDHA: In particular attention may be invited to the concluding words of article 35(b): 'Until altered or repealed or amended by Parliament'. An argument has been advanced that the word "until" precludes Parliament from making a retrospective amendment of the Mulki Rules. This can be met by pointing out that similar wordings found in section 292 of the Government of India Act of 1935 corresponding to article 372 of the Constitution, were interpreted by the Federal Court as not prohibiting retrospective legislation.

SHRI SOMNATH CHATTERJEE: Answer is being given on a point not raised.

SHRI RAM NIWAS MIRDHA: It was raised and in fact the provision of the Bill was quoted and it was argued that the provision which seeks to give retrospective effect was not legal. As regards the basic argument that retrospective effect cannot be given to certain provisions, I beg to say that we have very thoroughly considered all the points that have been raised by the hon. Members. They were before us all the time and the Law Ministry was consulted at every stage in framing this Bill. We have been fully advised that what we are doing is within the law and the limits of the Constitution and that this House is fully competent to discuss the Bill that is sought to be introduced.

श्री अटल बिहारी वाजपेयी : अध्यक्ष महोदय, मैं आप की इजाजत से यह प्रस्ताव पेश करना चाहता हूँ कि इस विधेयक के कानूनी पहलुओं पर सलाह देने के लिए सदन में एटार्नी जनरल को बुलाया जाय ।

SHRI K. NARAYANA RAO (Bobilli): The hon. Minister said that the power to approve this Bill stemmed from a stray sentence in the judgment. Of course, in the Supreme Court judgment it is said that it is for Parliament to do it. But in what context was it said? One of the arguments was that if Mulki Rules were to be upheld, that will be injurious to

the interests of the Andhra region. In that context, the Supreme Court said, if there was any injustice for Andhra region, Parliament may look into it.

SHRI M. SATYANARAYAN RAO: I want to know whether it is a fact that the present Attorney General has given the opinion that you cannot bring this Bill unless article 16(3) is amended.

SHRI RAM NIWAS MIRDHA: It is not a fact. I have already said that we have consulted the Law Ministry at every stage, but the Attorney General's opinion is not with us.

श्री अटल बिहारी वाजपेयी : अध्यक्ष महोदय, अब मुझे आप यह प्रस्ताव पेश करने की इजाजत दें ।

अध्यक्ष महोदय: प्रस्ताव की क्या जरूरत है ?

श्री अटल बिहारी वाजपेयी : तो आप एटार्नी जनरल को बुलाने के लिए फैसला कर दीजिए तो प्रस्ताव की जरूरत नहीं रहेगी । अब यह बात साफ हो गई कि एटार्नी जनरल की राय ली नहीं गई है और इस सदन में यह भी कहा जा रहा है कि एटार्नी जनरल की राय इस बिल को पेश करने के खिलाफ है । तो ऐसे ही मौके होते हैं जब एटार्नी जनरल को बुलाया जाता है और उन की राय ली जाती है । इसलिए मैं समझता हूँ कि एटार्नी जनरल को बुलाना चाहिए और उन की राय ली जानी चाहिए ।

SHRI PILOO MODY: We have a provision in our rules by which we can resist the introduction of a Bill on the ground that it is unconstitutional. Suppose the Government has come up with a Bill which is or which will be *ultra vires* of the Constitution and this is pointed out to them, who decides whether the Bill should be proceeded with

[Shri Piloo Mody]

or not? Or, is it merely a formality that we express our objection to it and then the majority rules it out and carries through with the Bill, till it is struck down in the Supreme Court some months hence? There must be some valid way of finding out at this point whether it can or cannot be proceeded with. Some legal opinion must be available other than the legal opinion of the Government as given to them by the Law Ministry.

SHRI G. VISWANATHAN: There is a precedent when the Attorney General was invited to give his views on the floor of the House. You should direct the Government to ask the Attorney General to come here and give his views.

DR. G. S. MELKOTE: Sir, I would like to read a few sentences from the Committee of Jurists' report on Telengana Safeguards, headed by Mr. Wanchoo:

"The implications of the Supreme Court judgment being clear, the question now is whether or what provisions can be made which would make it possible to provide safeguards in the matter of public employment or appointment to the people of Telengana area of Andhra Pradesh in keeping with what had been going on since 21st March, 1969. We have already indicated that in view of the interpretation placed by the Supreme Court on article 16(3), it is no longer possible to make any law or rule prescribing residential qualification in a part of a State for appointments within that part. Any law or rule so made would be bad and would be liable to be struck down as *ultra vires* the Constitution."

SHRI M. SATYANARAYAN RAO: The Attorney General was also a member of this Committee.

MR. SPEAKER: What precisely do you want, Dr. Melkote?

DR. G. S. MELKOTE: In the bill they are introducing, they have not indicated the Act, under which they are introducing the Bill. Secondly, whatever they are doing is going to affect only part

of a State and hence they cannot introduce the Bill in this form.

MR. SPEAKER: I am sorry, I will have to postpone the consideration for some time and satisfy myself on all the points. So, we will postpone the consideration of this item.

15 hrs.

SICK TEXTILE UNDERTAKINGS (TAKING OVER OF MANAGEMENT) BILL—Contd.

MR. SPEAKER: We will now take up the next item, namely, the Sick Textile Undertakings (Taking Over of Management) Bill. Shri Dinan Bhattacharyya will continue his speech.

SHRI DINEN BHATTACHARYYA (Serampore): Sir, in the list of business this Bill is mentioned as "Sick Textile Undertakings (Taking Over of Management) Bill" instead of calling it "Sick Textile Undertakings."

I would say that confusion has been sought to be created on this issue of nationalisation. While I was speaking on this Bill the other day, the Minister stated that Government had no intention of nationalising the textile industry as a whole. Yet, in the Statement of Objects of Reasons attached to the Bill it is mentioned that this legislation is pending nationalisation of such undertakings. So, I want a categorical answer on this point. Government are not certain as to what measures they should adopt in respect of this industry and, therefore, they are bringing forward this bill for the rehabilitation of the sick mills.

15.02 hrs.

[MR. DEPUTY-SPEAKER *in the Chair*]

Who is responsible for the present state of affairs of these sick mills? The management of these mills frittered away their assets, cheated the shareholders and even swallowed the money due to the workers in respect of provident fund. Crores of rupees are lying unrealised from the management, not only their contribution but also the contribution of the workers.

Coming to the provisions of the Bill, it is provided that the government will make a regular payment "of an amount to the extent of Rs. 30,000 per annum" to the owners of the sick mills to save these industrialists. I do not know what is the necessity for this payment.

Then, in clause 7(b) it is stated:

"all or any of the rights, privileges, obligations and liabilities accruing or arising herein before the said day shall remain suspended, or shall be enforceable with such adaptations and in such manner as may be specified in the notification."

This clearly means that any right, any privilege, as per the law to which the workers were entitled before the closure of the mills will be suspended by passing this Bill, that is, after taking over the management. This is a clear violation of the principles of natural justice and also the right of the workers.

Again, there is a provision in this Bill that the Government after taking over the management and the Custodian will be entrusted with all powers to manage these mills will be entitled to even retrench or not to give appointment to any employee whomsoever they like. Their only obligation will be that they will pay one month's pay as compensation. Here also, I want to make an emphatic protest against this sort of behaviour, this sort of attitude, of the Government after taking over the management of these concerns.

In the meantime, I know, some mills were taken over by the National Textile Corporation in Maharashtra and the workers of these mills were not given even the wages that the workers of other mills were getting. In regard to bonus also. I know, the minimum bonus was not given to the workers even after passing of the Minimum Bonus Act.

In this way, the other amenities which they are entitled to get are being denied to the workers of these taken-over mills. So, while you are taking over the management and you are paying compensation to the owners, you are at the same time denying even the minimum privileges and rights which the workers are entitled to get as per the law of the land.

I know, in some cases, in Tamil Nadu, the workers had to fight to get even the benefits of the Factories Act. They were not paid over-time wages although they were asked to work overtime. They were not paid due wages for extra work done. I am not against taking over the management of the mills. But why are you hiding the facts? On the one hand, you are saying that you have no intention to nationalise the textile industry, on the other hand, you are saying that, as a stepping stone to nationalisation, you are bringing forward this legislation. Because under the Industries Development and Regulation Act, you have limited powers, under this Bill, you are taking the powers to keep these mills under your management as long as you like. Why this double dealing? I say double-dealing in the sense that you are not straight-forward.

Coming to certain other aspects of the Bill, now you want rehabilitation of the industry. I know, in West Bengal, about the cost of the main raw material, that is, cotton, the mill-owners have to pay more than what the mill-owners of Gujarat and Maharashtra have to pay. Just like steel, I demand that price of raw cotton should be the same everywhere throughout India, so that the mills in any one State do not have to pay more than what the mills in other States pay.

Another aspect that I would like to point out is this. I do not know whether you have got any idea about these mills. You have yourself stated here that 'in the meantime, the owners might fritter away all the assets'. I can tell you that the assets have already been frittered away and you have to start every thing anew. I do not know why you are providing for payment to these owners, why

[Shri Dinesh Bhattacharyya]

you are saying that if so many spindles are there, you will pay them so much amount, if so many looms are there, you will pay them so much amount. Why? All those firms had various sources for finance; they were taking money as loan and they have not paid any dividend to the shareholders and they have also swallowed the Provident Fund dues of the workers. You must realise all these and then only think of paying any return to those owners.

I will again appeal to the hon. Minister that he must have a first hand knowledge of the situation and should not deny any right or privilege that the workers were enjoying before these mills were closed. Those things should be continued as before and there should not be any retrenchment. All the employees who were on the pay-rolls on the day the mills were closed should be taken back and all the emoluments and other privileges which they were getting should be restored to them.

With these words, I conclude.

श्री रामसिंह भाई बर्मा (इंदौर) : श्रीमन्, जो बिल पेज किया गया है उसका मैं हृदय से समर्थन करता हूँ और माननीय मंत्री जी का आभार प्रकट करता हूँ। सेक्रेटरी लोक सभा में टेक्सटाइल इंडस्ट्री के सम्बन्ध में जब बर्मा हुई थी तो माननीय उपाध्यक्ष महोदय ने मुझे 35 मिनट का टाइम दिया था और आज के बदले हुए बजाने में मैं आशा करता हूँ कि कम से कम 55 मिनट का समय जरूर देंगे।

MR. DEPUTY-SPEAKER: How much time you want? 55 minutes? If you want to take the whole time of your Party, I have no objection. That is a matter between you and your Party.

श्री रामसिंह भाई बर्मा : चार घंटे हैं।

श्रीमन्, टेक्सटाइल इंडस्ट्री देश की सबसे पहली, पुरानी और बड़ी इंडस्ट्री है। इसमें लगभग 3 अरब पेड-अप कैपिटल है, 1 करोड़ 80 लाख स्पिडल्स जिसमें काम करते हैं, दो लाख लूम्स हैं और साढ़े सात लाख श्रमिक काम करते हैं। देश में लगभग 60 करोड़ किलोग्राम से ज्यादा सूत बनता है। हमारे शासन को भी 1 अरब 30 करोड़ से ज्यादा एक्साइज ड्यूटी यह इंडस्ट्री देती है। इस टेक्सटाइल इंडस्ट्री के ऊपर अभी तक किंगी का ध्यान नहीं गाया है जबकि इस इंडस्ट्री ने लगाई हुई पूंजी से सौ गुना ज्यादा कमाया है। अब यह नहीं कहा जा सकता कि इस इंडस्ट्री में जो लगाई हुई पूंजी है वह किसी की है, वह तो सारे राष्ट्र की हो चुकी है, यह मानना चाहिए। यह इंडस्ट्री केवल शोषण करने के लिए अभी तक चलती रही है। जब देश आजाद हुआ तब 300 मिलें हिन्दुस्तान में थी और अब 664 से ज्यादा मिलें हो गई हैं। लेकिन इन सवा सौ वर्ष में इस इंडस्ट्री की तरफ ध्यान नहीं दिया गया है। पिछले टाइम जब यह इंडस्ट्री बन्द होने लगी तो गवर्नमेन्ट ने कुछ मिलों को टेक-ओवर किया। टेक-ओवर करने पर उनको रिलीफ ऐक्ट के अनुसार बचाया

गया बाकी मजदूरों को कम वेतन और कम महंगाई भत्ता दिया गया और कुछ को ठीक करके एम्प्लायर्स को लौटा दिया गया। लेकिन अब हमारे मंत्री महोदय ने जो एनाउन्समेंट किया है और जो इस बिल में रखा है कि जब तक इस इंडस्ट्री का राष्ट्रीयकरण नहीं होता इन मिलों को नया बनाने और उत्पादन देने के हिसाब से गवर्नमेंट अपने हाथ में रखेगी या वापिस लौटायेगी नहीं—यह एक स्वागत योग्य बात है जिसके लिए मैं धन्यवाद देना चाहता हूँ।

46 मिलें आप हाथ में लेने जा रहे हैं, हाथ में ली है उनमें लगभग 12 लाख के करीब स्पिडल्स काम करते हैं, 60 हजार श्रमिक काम करते हैं और प्रति स्पिडल 54 किलोग्राम सूत के हिमाव में लगभग 6 करोड़ किलोग्राम सूत इनमें पैदा होता है। लेकिन मैं निवेदन करना चाहता हूँ कि यह जो 12 लाख स्पिडल्स इन 46 मिलों में हैं उनमें से आधे तो बन्द पड़े हैं यानी बन्द इस हालत में हुए कि जहाँ तक इन मिलों का शोषण करना था उतना एम्प्लायर्स ने कर लिया। शासन ने जब इन मिलों को हाथ में लिया तो उनको सिक मिल्स नहीं मुर्दा मिलें मिलीं। बाकी आधी मिलों के करीब 6 लाख स्पिडल्स जो चल रहे हैं वह चल नहीं अंतिम मांस ले रहे हैं। वे कैसे चल रहे हैं उसका एक उदाहरण सबन के सामने रखना चाहता हूँ। एक मिल चल रही है और वह बराबर सास कर रही है लेकिन संचालन के आवश्यक भी उसको चाहे जैसे चल रहे हैं।

और वह चल कैसे रही है? सन-1968 में उस मिल ने 18,20,915 रुपये प्रॉविडेंट फंड का जमा नहीं कराया। 5 लाख 8 हजार इ० एस० आई० का जमा नहीं करवाया गया।

श्री इन्द्रजीत गुप्त (अलीपुर): कौन सी मिल है?

श्री रामसह भाई वर्मा : इन्दौर मालवा यूनाइटेड मिल्स। 1967 में 31 लाख प्रॉविडेंट फंड का जमा नहीं करवाया, 9 लाख 20 हजार इ० एस० आई० का जमा नहीं कराया। 1969 में 50 लाख 53 हजार प्रॉविडेंट फंड का जमा नहीं कराया और 15 लाख इ० एस० आई० का जमा नहीं करवाया तथा 12 लाख 11 हजार एलेक्ट्रिसिटी बोर्ड का जमा नहीं करवाया। पैसा मजदूरों का, पैसा सरकार का और मोरग करें राइवेट एम्प्लायर्स। बड़े आश्चर्य की बात है कि ऐसी मिल जो चल रही है उसमें केवल प्रॉविडेंट फंड, इ० एस० आई० और इलेक्ट्रिसिटी बोर्ड का 1 करोड़ 46 लाख 90 हजार का बकाया है जो कि एम्प्लायर्स ने नहीं दिया है। मैं निवेदन करना चाहता हूँ कि उसका जो नेट ब्याक है वह 96 लाख है जबकि एक करोड़ 46 लाख केवल मजदूरों का बकाया है। इसके साथ में आप देखें कि लायबिलिटी क्या है—4 करोड़ 55 लाख और उसके असेट्स हैं 2 करोड़ 57 लाख तथा नेट सास है 1 करोड़ 98 लाख। मैं

[श्री राम सिंह भाई वर्मा]

मानता हूँ कि जब इन्डस्ट्री की यह हालत हो तो गवर्नमेंट उसकी टेक-प्रोवर करती है और इस बृद्ध निश्चय के साथ कि हम वापिस नहीं लौटाएंगे तो यह एक स्वागत करने लायक बात है। लेकिन इसके साथ मैं निवेदन करना चाहता हूँ कि ऐसी 46 मिलों को चलाने के लिए आपने जो 10 करोड़ रुपए की राशि रखी है, वर्किंग कैपिटल, क्या उससे 12 लाख स्पिंडल्स को चला सकते हैं? मैं समझता हूँ 10 करोड़ का वर्किंग कैपिटल, बहुत कम है। इन मिलों के पास कुछ नहीं है, उन्हें फिर से आपको खड़ा करना होगा।

आधुनिकीकरण के लिए आपने जो 17 करोड़ की राशि रखी है, उसके सम्बन्ध में मैं कहना चाहता हूँ कि लगभग 6 लाख स्पिंडल बन्द पड़े हुए हैं और 6 लाख स्पिंडल की हालत बहुत ही खराब है। हमारे शासन ने 1951 में एक वर्किंग पार्टी टेक्स्टाइल्स के लिए मुकदर की थी। उस वर्किंग पार्टी ने सारे देश की मिलों की जांच करने के बाद सन् 1952 में रिपोर्ट दी थी। उसमें से मैं एक उद्धरण देना चाहता हूँ, वह सदन में पढ़ने लायक है। मैं मानता हूँ कि मंत्री महोदय को उस का पता नहीं है। उसमें लिखा हुआ है कि :

“मिलों का नक्शा तथा जमाबट हर प्रकार से बिल्कुल पुराने ढंग की है। शुरुआत में मशीनें जमाते समय खाते में माल को इधर

उधर व्यवस्थित ढंग से लाने-ले जाने और श्रमिकों के आने जाने की सुविधाओं का कतई ध्यान नहीं रखा गया। मिलों की इमारतें भी बहुत बुरी हालत में पाई गई, शायद जिन्हें पिछले 10-15 वर्षों में न तो दुरुस्त किया गया है और न उनकी पुताई ही की गई मालूम देती है। खातों में रोशनी के लिए लगाए गए उज्जरदान और खिड़कियों के कांच फूटे हुए थे या उन पर वर्षों से जमी धूल आदि से वे काले हो गये थे। मशीनों के चलते हुए हिस्सों को ढकने के लिए और जालियों की व्यवस्था या तो की ही नहीं गई या वे गायब थीं। मिलों की इमारत, शब, कम्पाउण्ड आदि बाहर से ऐसे दिखाई देते थे मानों वे भूतघर हों, उदास, निर्जीव, गन्दे मनुष्य। इसी प्रकार उपरोक्त कारखानों के खातों के अन्दर की हालत भी बहुत असन्तोषजनक थी। और वे 19वीं सदी में डाली गई थीं। इसलिए 19वीं सदी की पुरानी मशीनें ही यहां लगी हुई हैं। यद्यपि उस समय के बाद मशीनरी और उत्पादन के तरीके तेजी से बदल चुके हैं किन्तु यहां पर वे ही 19वीं सदी की मशीनरी बिना कोई सुधार किए चली आ रही हैं। हमने मिलों में जीर्ण इमारतें खराब हालत में, पुरानी मशीनरी, बहुत खराब वर्किंग कंटीशन, काम करने के गन्दे तरीके, असन्तोषजनक काम की स्थिति, असन्तुष्ट श्रमिक वर्ग, और अक्षम मैनेजमेन्ट पाया। (पृष्ठ 526)”

मैं समझता हूँ कि जो मिल्स की सारी हालत रख रहा हूँ उसकी और मंत्री महोदय का ध्यान अवश्य जाएगा और वे सबको

कि हमारे सामने क्या कठिनाइयां आने वाली हैं। वर्किंग पार्टी ने सारी मशीनों की हालत और एक एक डिपार्टमेंट की हालत का उस रिपोर्ट में वर्णन किया है।

जहां तक कैश मुआवजा देने की बात है, इस बिल में ऐसा रक्खा गया है कि 1000 स्पिंडल्स पर 50 पैसे के हिसाब से और 100 लूम्स पर 1 रुपया के हिसाब से प्रति माह मुआवजा दिया जायेगा। जहां तक मुआवजे की बात है, मैं एक मिल का उदाहरण देना चाहता हूं। 1956 में उस का पेड अप कैपिटल 31 लाख का था और इस मिल ने 10 रुपये के शेयर के ऊपर 150 रुपये के बोनस शेयर दिये और अपने पेड अप कैपिटल को बढ़ा कर 4 करोड़ से अधिक का कर लिया। जब उस ने अपना पैड अप कैपिटल 31 लाख से बढ़ा कर 4 करोड़ रुपये से ऊपर का कर लिया है तब उस को मुआवजा देने की बात कहां से आती है ? मैंने इस सम्बन्ध में अमेंडमेंट दिये हैं कि अगर आप को देना ही है तो आप 1000 स्पिंडल पर 5 पैसे दें और 100 लूम्स पर 10 पैसे दें। अगर कोई वैधानिक सवाल पैदा होता है तो इतना ही मुआवजा दें। इस से अधिक को मैं उचित नहीं समझता।

इस बिल में मजदूरों के जो कानून हैं वह स्थगित कर दिये गये हैं। एक तरफ तो आप शोषण करने वालों को मुआवजा दे रहे हैं और दूसरी तरफ मेहनत करने वालों का वेतन और मंहगाई भत्ता काट रहे हैं। मेरे प्रदेश में मिल बन्द की गई। उस को बन्द करने के बाद हर एक मजदूर से 2

रुपये रोज के हिसाब से काट लिये गये। यानी 26 वर्किंग डेज के हिसाब से हर एक मजदूर के 52 रुपये महीने काट लिये गये।

इस के बाद मैं यह निवेदन करना चाहता हूं कि भले ही आप मित्रों को अपने हाथ में लेते हैं लेकिन उन को चलाते कौन लोग हैं ? चलाते वही लोग हैं, उन्हीं लोगों को आप ने नियुक्त किया है जिन्होंने मिल मालिकों से मिल कर मिलों की इतनी दुर्दशा की है। आप मिलों को लेते हैं, यह स्वागत योग्य है, हम इस में पूरा पूरा सहयोग देना चाहते हैं, लेकिन इतना जरूर मैं निवेदन करना चाहता हूं कि आप जिस को कंट्रोलर मुकर्रर करें उस को कम से कम मिल चलाने का तरीका तो मालूम होना चाहिये। एक ऐडमिनिस्ट्रेटर वहां काम नहीं आ सकता। वहां काम वह आयेगा जिस को खरीदने-बेचने एवं टेक्निकल ज्ञान हो, यह मालूम हो कि काटन को किस तरीके से खरीदा जाता है या तैयार माल कैसे दूसरों को बेचा जाता है। उस को टेक्निकल योग्यता भी पूरी हो, प्रैक्टिकल एक्स्पीरिएंस भी होना चाहिये। खाली किताबी योग्यता नहीं होनी चाहिये कि जा कर कालेज से प्रमाण-पत्र ले आये। मैंने देखा है कि आप की जो मिलें आज चल रही हैं, जिस को आप ने अपने हाथ में लिया है, उन की भी बहुत बुरी दशा है। हमारे यहां की मिल को जब शासन ने अपने हाथ में लिया था, जिस का माम स्वदेशी काटन मिल है, उस की हालत में आप को क्या बतलाऊं। मजदूरों को छः वर्ष से बोनस नहीं दिया गया है जब कि

[श्री रामसिंह भाई बर्मा]

वहाँ की दूसरी मिलों में लोगों को बोनस मिल रहा है, सारी सुविधायें मिल रही हैं। लेकिन जो मिल हमारे यहाँ है उस की मैं बात कर रहा हूँ बैलेंस शीट मेरे पास है। उस में बतलाया गया है कि 1971 में उस की हालत क्या थी 42,32,650 रुपये प्राविडेंट फंड का जमाना नहीं किया गया, ई० एस० आई० का 13,69,729 रुपये बाकी है। यह सब मिला कर 66,34,941 रुपये बनता है। मजदूरों का जिस से उम मिल का काम चलाया जा रहा है। 1966 से लेकर 1971 तक इस मिल ने जो लास किया है वह 1,30,54,897 रुपये तक का है।

मैं निवेदन करना चाहता हूँ कि हम पूरी तरह से सहयोग देने के लिये तैयार हैं, प्रोडक्शन, प्रोडक्टिविटी बढ़ाने के लिये तैयार हैं, लेकिन इस इंडस्ट्री में प्राइवेट सेक्टर में जो सुविधायें मजदूरों को मिलती हैं कम से कम उतनी तो पब्लिक सेक्टर में मिलें। इस के साथ ही यह भी आवश्यक है कि योग्य लोगों के हाथ से इन मिलों को चलाना चाहिये। मंत्री महोदय ने कहा कि वह इस मामले में जल्दी काम कर रहे हैं, लेकिन मेरा इस मामले में एक अमेंडमेंट है, आशा है आप मुझ को उस समय बोलने का अवसर देंगे, लेकिन इस बात का जरूर ध्यान रखा जाये कि यह इंडस्ट्री अनप्लैन्ड अनकंट्रोल्ड, अनवैलेंस्ड और पूरी तरह से मिस-मैनेज्ड है।

SHRI INDEAJIT GUPTA (Alipore): This Bill, apart from the details of its provisions which I shall come to a little later, represents in a way a new departure

of State policy or Government policy. This is the first time that Government are entering into the consumer industries in this country on a big scale. Up till now, public sector, nationalisation and so on have by and large been restricted to heavy basic industries or industries of a strategic nature which are vital for the economy. We had been demanding and urging for many years that at least the production and distribution of those essential commodities which are vital for the day-to-day existence of our people, particularly, the lower income groups, should be taken over by the State. Pressure of certain circumstances which are described here in the Statement of Objects and Reasons, has compelled the Government to come forward with this piece of legislation to take over 46 mills. There are already a number of other textile mills which were taken over either by the National Textile Corporation or by State Governments and State corporations or by the Industrial Reconstruction Corporation. So, by and large, a big sector of the textile industry or a big segment of it, not the major segment but a big or substantial segment of it, is now coming into the public sector. I can only hope that this is or will be the precursor of similar action in respect of sugar, edible oils and essential drugs. If the public sector, during the course of the Fifth Plan, has the boldness and the vision to enter these fields also, then perhaps at least a part of the misery which the low income groups and the poorer sections of the people are suffering from at present due to the ever-increasing prices may be alleviated.

Although the statement of objects and reasons says that the ultimate goal is to subserve the interest of the general public by the augmentation of production and distribution at fair price of cheaper varieties of cloth—very laudable objective no doubt; we do not know how far we will succeed in achieving it; let us see—the selection of these 46 mills has been due to the fact that they have fallen sick, sickness being what is defined here in the Bill, according to the Minister. If they had not fallen sick in terms of this definition, they might still not have been taken over.

My friend, Shri Ramsinghbhai Verma, cited instances of two or three mills, to his knowledge, which are running—they have not yet put up a closure notice. You heard his description, the symptoms of the patients. I do not know to what degree these symptoms have to increase before the Minister will decide they are sick mills. They wait until everything is frittered away, all the money is looted, the owners run away with all the money, the mill closes down and people are rendered unemployed. Then only it is going to be a sick mill.

There is the classic case of the Lalshmirattan Cotton Mills, Kanpur. It was raised here. For three years no bonus was paid; lakhs of rupees being share of the workers' provident fund contribution have not been deposited, lakhs of rupees of ESI contribution have not been deposited by the management and Rs. 31 lakhs are due as arrears of income tax by the company. An investigation committee was set up some time ago by the Central Government. It recommended that the mill should be taken over. But the State Government did not agree; they said 'we are going to conduct our own investigation'. Although the mill is formally still running, 5,000 spindles are idle, but according to the definition in this Bill, it is not a sick mill.

Then there is the case of the Saksaria Mills of Bombay which the Minister knows very well. The owners had run away with all the money; they were showing losses year after year. It was closed down and it was taken over. In two years, it was showing a profit of Rs. 94 lakhs. Thus nursed back to health, earning a profit of Rs. 94 lakhs, it was handed back to the same employers who had looted and ruined it. Again they started looting and fleecing it. Again it closed down, I do not know since when. Now it is in the list of sick mills in the Bill.

So, I must say that it is not really this high-sounding concern of yours for supplying the poorer sections of the community with cheaper cloth at fair price which really activated Government. These owners have been allowed over and over again to

mismanage and loot these concerns and then they are taken over. This is the oldest, largest, and best-established industry in the country enjoying an entirely protected market with a huge potential as everybody requires cloth, there is no competition from imports. Yet this is an eloquent commentary on the way the capitalist system works, with Government giving them so many incentives, facilities, benefits and concessions paid for by the taxpayer with a completely protected domestic market. But they have reduced some of the best mills in the country to absolute junk by simple robbery, thievery and loot. Now they have reached a stage when they are being taken over. We welcome it, of course, but I want a categorical assurance from the Minister on the floor of the House that these mills will not at any stage in future be handed back to these same people who have ruined them.

THE MINISTER OF FOREIGN TRADE (SHRI L. N. MISHRA): Yes, not to anybody else.

SHRI INDRAJIT GUPTA: Nowhere in the body of the Bill is there anything stated about this being the first step towards complete nationalisation. It is stated only in the statement of objects and reasons.

MR. DEPUTY-SPEAKER: And the long title.

SHRI INDRAJIT GUPTA: Yes, and the long title. Nowhere in the provisions is there any finality or definiteness about the period for which the management is being taken over.

PROF. MADHU DANDAVATE (Rajapur): There also, it did not say nationalisation, but "pending nationalisation."

SHRI INDRAJIT GUPTA: Pending nationalisation. It may pend for 50 years.

SHRI L. N. MISHRA: Yesterday I said in my speech that the earlier regulation was only for 15 years.

SHRI INDRAJIT GUPTA: Mr. Mishra, when you reply, you make it very clear what the commitment is. I find, for example, in West Bengal—he must know—in some of the mills which were lying closed, which have been taken over with the assistance of the Industrial Reconstruction Corporation, the Boards of Directors have been slightly reshuffled. One or two new people have been brought in, but the majority of the directors remain the same people who are responsible for what has happened. This is not the proper way of setting about it.

Other Members have also expressed their concern, and if this is going to be done, this whole thing will be reduced to a farce. The consumers have been looted, and the cotton growers have been not looted but in some parts of the country certainly they have not got their dues.

A very important point has been mentioned by my friend Shri Bhattacharyya, that without equalisation of cotton prices all over the country, the weaker mills, the smaller mills, mills which have got lesser or smaller resources in many cases have faced such difficulties regarding their raw materials supplies that they have had to be closed down also. So, equalisation of cotton prices is very very important as has been done in the case of coal and steel. Otherwise, the mills situated in those areas which are not cotton-growing areas are always casualties. And this is an unfair discrimination against them to the benefit of mills which are situated in the cotton-growing or near to the cotton-growing areas.

Another point I want to raise is there seems to me to be—I do not know why—a great multiplicity of agencies visualised here. There is the National Textile Corporation; there are textile corporations in various States. There is the Industrial Reconstruction Corporation, and now, according to clauses 5(1) and 5(2) of the present Bill, these 46 mills after being taken over may be managed by either some individual custodians or by Government companies acting as custodians. So, we have got five or six types, even now, of management of

these various textile mills which have been taken over. I would like to know what is the thinking of the Government in this matter. As far as steel is concerned they have thought of a holding company; one central, overall holding company which will regulate the production and operation of all the steel mills. But here we are having five to six different agencies. There is nothing to indicate here whether Government is thinking on the lines of a big textile holding company also for all these mills in the public sector.

Then the definition of 'textiles' under clause 2(e), I find, includes jute; "cotton, wool, jute, synthetic and artificial (man-made) fibres." In that case, I would like to know from him whether they have in contemplation also to take over a whole number of sick jute mills which are lying closed. There is nothing to indicate it, because the preamble and the Statement of Objects and Reasons talk about the supply of cheap cloth to poor people, but what about the jute mills which are lying closed?

Then there is the question of compensation. My friend Mr. Bhattacharyya mentioned in passing that Rs. 30,000 per annum is to be paid for taking over the management. As far as I read this financial memorandum, it is Rs. 30,000 per annum per mill. It is not for all the 46 mills together—the amount of Rs. 30,000. The amount will come to Rs. 1,38,000 per annum, by way of so-called compensation now called more politely 'amount', for taking over the management. This is nothing but gratis or bonue. You may not give bonus to the workers but you are giving bonus to the people who run the mills, every year, not because their ownership is being taken away but only their management. We are totally against this. This is a further example of how taxpayer's money is used to pamper these people. For modernisation and for providing working capital, common people like you and me will have to pay out of their pocket Rs. 10.55 crores as working capital, Rs. 17.06 crores for modernising these mills and Rs. 2.65 crores for recouping losses, because these mill have been

reduced to junk; every thing has been taken away and frittered away and ruined. For that now, we the tax payers of the country will have to pay these huge amounts. This kind of a thing is not very promising as far as the prospect of cheap cloth being provided to the people is concerned. All this will come into the pricing policy and we will be told that because of these huge investments which have now got to be met out of the national exchequer, it will not be possible to reduce the price of cloth. The very purpose of the Bill will be defeated. There is a provision in the Bill for giving cloth at cheap price to the poorer sections of the people and this will be defeated because of the heavy amount of compensation which has to be paid. This is only for taking over the management side. Later on if Mr. Mishra decided to nationalise them a much bigger dose of compensation amount will be prescribed and all these will go into the pricing policy. I would like to know from him how he will work out a policy which will permit cloth to be sold in the market at a cheap price to the vast majority of poor people.

I do not want to go into detail about the relief which is sought to be given to these mills after being taken over. I only want to reiterate with all the emphasis at my command what the speakers preceding me have said. The relief should not be at the cost of workers' amenities. Powers are given to the custodian to such an extent that even the application of the Industrial Disputes Act and the Minimum Wages Act may be withheld. That is the provision made in Schedule II so that even the Minimum Wages Act and the Industrial Disputes Act may not apply to some of these mills. Agreements which have been made or settlements or awards in force regarding the workers' condition may, also, if necessary, be cancelled or modified or something like that can be done. In these cases I do not see why the workers should be penalised. People who have ruined these mills are not being punished in any way. They are not going to be penalised. They are criminals who should be put in jail but far from it they are going to be given compensation; for having successfully looted and ruined the

mills they are going to be given compensation and the tax payers have to provide the money to nurse these mills for health. People who are likely to be penalised are the workers who would be told; you should accept a cut in wage, no bonus for you, there will be reduction in your dearness allowance,—no Minimum Wages Act and no Industrial Disputes Act for you. Is this the way to Socialism? This kind of nationalisation is only meant to repair the health of sick undertakings which the capitalists have ruined and made the workers and the taxpayers pay for it. Because of that cloth cannot be sold cheaply. This inverted form of nationalisation is not going to achieve the purpose of the Government.

I would like the hon. Minister to refer to page 7. I have not been able to send an amendment because I did not have the time to do it. But I would request him to please consider this. The first line on page 7 refers to contract or agreement entered into before the take over in relation to such sick textile undertakings and says that if the Government is satisfied that it has been entered into in bad faith and is detrimental to the interests of the sick textile undertaking, it may make an order cancelling or varying the contract.... I request him to consider this. Because the technical formalities could not be completed there is no listed amendment from me. It should be 'in bad faith or is detrimental'. Otherwise, something may be found detrimental to the interests of the mills but one may say he did it in good faith. You have to prove bad faith as well as detriment to the industry. Otherwise, the contract subsists. An identical amendment was accepted at the time of taking over the IISCO by the minister concerned.

Finally about the interim management, I would reinforce what Mr. Ramsinghbbhai said that pending the appointment of Custodians or whatever other form of management they are going to device, it is laid down that those people who have actually been in charge of the management up to the appointed day, they will continue to manage the mills. Even if it means some risk, I would suggest that this should not be permitted. Those people who have been associated all along

[Shri Indrajit Gupta]

with the mismanagement of these mills should not be allowed to continue there for a single day. You may ask, where will we get the men overnight? At least honest people can be found who will hold the baby until you are able to finalise your arrangement. Don't allow the management to remain in the hands of the people who are guilty by every standard and who will utilise their positions to do further damage to the assets of these companies.

SHRI J. B. PATNAIK (Cuttack): Sir, I congratulate the Government on taking this very important step. If socialism means anything it is higher production and equitable distribution. On these two counts, the textile industry in this country has failed signally. The textile industrialists promised last year that they would export a greater volume of textile goods. But the performance in the 1st 10 months shows that the exports are running short by Rs. 11 crores. So, on their own promise they have failed. So far as internal consumption is concerned their failure is evident. There is short supply of medium and coarse cloth as a result of which consumers are put to great difficulty. So, on these two accounts, if not on any other account, the textile mills should have been taken over by Government. Not only these sick mills but the other textile mills also should be nationalised as a policy keeping this basic consumer industry in the hands of Government.

The reason for the signal failure of the textile mills is that most of them are old, out-dated and below standard. They have been making profits all these years, but they have never tried to the old machinery with new machinery. Some of the machinery are as old as the first world war and second world war, and they have never been renovated. So, it was necessary in the interests of the country's economy that the sick mills should have been taken over long ago. They have been taken over only now, which is belated justice. The other textile mills are going to be sick after

some time. The record of the textile industry has been one of killing the hen which is laying the golden egg. It is necessary for Government to take over all textile mills and not allow the other textile mills which are now outside the purview of Government's action to fall sick.

Taking over the management of the sick mills is not entirely a new step for the government. Because, the National Textile Corporation has under its management 51 mills producing 526 million metres of cloth, roughly ten per cent of the total textile production in this country. They employ one lakh workers, which also comes to 10 per cent of the total strength of workers in this industry. They export Rs. 5 crores worth of textile and earn foreign exchange. They have also made a good profit out of these textile mills, belying the impression that government-managed mills do not make any profit and only private sector mills can make profit. Government have built-in know-how, capacity and organisation to take over mills and they are a major factor in moulding the economy of the textile industry in this country.

Now I want to make some points on the Financial Memorandum attached to the Bill. While taking over the management of these mills, Government would be paying them round about Rs. 30,000 per mill.

SHRI L. N. MISHRA: It is Rs. 30,000 for all the mills.

SHRI J. B. PATNAIK: I would say that they should not be paid even that. It is my sincere plea to the Minister that those people who are responsible for reducing these mills to their present position should not be given any money even in terms of relief or compensation, whatever may be the term used.

Secondly, it must be made clear that this is the first step towards nationalisation of all the mills within a limited

period. Government must stipulate a period of five years within which the new taken over sick units should be nationalised and another time limit should be fixed, say, the end of the Fifth Plan for the take over of the entire textile industry in this country.

Then, for the running of these mills, the government now depend on the share of the State Governments which have to take 49 per cent shares in these units. In many cases, the State Government may not come forward and pay their share of the money and there will be inordinate delay in bringing these units back to life. Therefore, the entire burden of these sick mills should be taken by the Union Government and nothing should be left to the State Governments.

I want to make a reference to a particular textile mill in my constituency. The Orissa Cotton Mills, Bhugatpur is the oldest textile mill in the State of Orissa. Unfortunately, this mill died an infantile death. It never regained its health and its machinery has been reduced to nothing; it is just junk now. About 600 families who were depending on that mill for their employment are now unemployed. Government should take particular care to bring this mill back to health from its present position of an uneconomic unit so that it may not die an untimely death again.

I now come to the employment policy, which is not clearly mentioned in this Bill. In the case of those mills which were closed long ago, if the ex-employees of those mills are still unemployed, they should be given first preference in the matter of employment when they are re-opened.

With the take over of these sick textile mills, the government is now a major partner in the field of textile industry in this country. So, a large number of fair price shops should be opened by them all over the country, particularly in the countryside, so that there will be no dearth of cheap cloth in the country. Then only government can rightly justify their action in this field.

3001 LS-4

SHRI VIRENDRA AGARWAL (Moradabad): Mr. Deputy-Speaker, Sir, the shadow of a deepening economic crisis has engulfed the whole nation. But the Government's industrial policy has remained in doldrums. Indian economy today is really poised for breakdown because the Government has really learnt nothing from the past. We have reached a stage in our national history when the economic policy needs to be reviewed if we are really keen to guarantee a national minimum to the people.

The Government today suffers from a sense of helplessness and it really does not know what to do and in which direction to move. Of course, the Government has got a magic word "nationalisation" in which it finds solutions for all economic problems. Whenever there is a problem, or there is a difficulty, the Government leaders immediately talk in terms of nationalisation or take-over. The Prime Minister has repeatedly said that nationalisation should be resorted to only when it is essential because this by itself is not a socialistic step. Nationalisation undoubtedly is a powerful instrument and it should certainly be employed, judiciously, whenever it is found that it can bring relief to the poor.

In actual practice, the State ownership of the means of production has proved to be an irrelevant factor because it has wholly failed either in the attainment of socialism or in ensuring a higher growth rate. Of course, it ensures erosion of democratic values. The nationalisation as a whole has not brought any relief to the poor nor it has benefited the priority sectors. The economic policies which we are pursuing today are creating scarcities and shortages. When the Government fails to hold the price-line, it immediately thinks in terms of take-over without creating adequate machinery resulting in all-round chaos and widely prevalent corruption.

A nationalised institution squanders the nation's resources to the extent that the rupee value has begun eroding in a big way. Today, we find that the economic policy has placed the economy in a

[Shri Virendra Agarwal]

very turbulent situation. We are very fond of blaming the bureaucracy here and there. But we really do not know why we blame bureaucracy when we are entrusting a large share of responsibility which it is not able to discharge. This is a question which I would like the ruling party to answer as to whether the bureaucracy is really capable of handling the responsibility which has been entrusted with.

15.57 hrs.

[SHRI R. D. BHANDARE *in the Chair*]

This is the question which has never been replied to while we are really going on a slippery ground of socialism or nationalisation without knowing where it will ultimately lead us to. This Bill is undoubtedly a hasty step. This take-over of 46 sick textile mills will ultimately, in actual practice, develop into what. That is what we are interested to know. We know that vandalism, loot, grab and corruption have, taken-over the Union Ministry of Foreign Trade. Everyone in the Ministry has minted money and has become a potential capitalist. This is what the country knows and the people in the political life know that the officers of this Ministry right from the top to bottom are corrupt. In fact, today we have a sick Government with a sick economic thinking.

The hon. Minister has claimed that this Bill will save 46 mills from closure and will also bring the tendency of retrenchment to an end. This is undoubtedly a laudable objective. But we know that this objective has never been realised whenever the industries have been taken over. We are interested to know why these mills have gone sick and how they become sick. What are the factors responsible for it?

There are three major criteria to judge the performance of any industrial unit. One is operational efficiency; the second is to produce qualitative goods at competitive prices; and the third is profitability of the industrial concern. If you apply these three criteria to the public sector, I

am afraid, I will have to say that the entire public sector will fall in a distinct sector, i.e., the sick sector. The entire public sector today is sick, if you see in terms of profitability, if you see in terms of operational efficiency, if you see in terms of producing quality goods.... (Interruptions). That is the situation. I would request him not to interrupt me. Let me take his own chance. With this interruption, nobody can really present his case.

16 hrs.

SHRI K. P. UNNIKRISHNAN (Badagara): When you make such denunciation of the public sector, you must be prepared for interruptions.

SHRI VIRENDRA AGARWAL: There are three factors which are largely responsible for this. One is the persistent shortage of cotton, resulting in high cost of cotton. Number two is inflation—spiralling of wages by 20 to 25 per cent. Number three is the high level of taxation. These three major factors have resulted in uneconomic working not only of these 46 mills but of the vast majority of 668 cotton mills that we have in this country.

I would also like to present the Reserve Bank report which says that the profit after tax as percentage of net worth has been so low that it hardly leaves anything for modernisation of plant and machinery. The Reserve Bank has recently analysed the financial results of 271 cotton mills for 1968-69 and it has shown that 141 mills have incurred losses amounting to Rs. 3.64 crores in contrast to a net profit of Rs. 4.01 crores in 1967-68, Rs. 11.28 crores in 1966-67 and Rs. 2.55 crores in 1965-66. The industry is caught in a vicious circle of lower profits, smaller outlay on modernisation, and so on.

What we do need today is a time-bound comprehensive programme for modernisation which needs to be drawn up on the basis of Rs. 630 crores with an annual outlay of Rs. 50 to Rs. 60 crores. It has also been repeatedly recommended that the Government should immediately set up an institution called Cotton Textile Modernisation Corporation with a paid-

up capital of Rs. 25 crores to be increased to Rs. 50 crores in three years, to provide financial assistance in the form of long term on soft terms with suitable safeguards for overseeing that the funds are effectively used and modernisation actually takes place. The norms of credit-worthiness should be liberal. Viability of borrowing units should be determined on the basis of the competence of management, possibilities of cost reduction and improvement in quality as well as profitability as a result of modernisation. It is ultimately not the nationalisation of 46 sick mills but a national policy of modernisation which can go a long way to meet the demands of the growing population as well as for exports.

Sometime back, the Manubhai Shah Committee had recommended that these sick mills should better be merged with better run mills rather than bureaucratisation of the sick mills which is sure to become a permanent liability on the Government's resources. The State should not burden itself with such a huge liability....

MR. CHAIRMAN: Kindly conclude now.

SHRI VIRENDRA AGARWAL: In the end, Sir, with your permission I would like to put a few questions to the hon. Minister. These questions are as follows. Which were the mills which were actually running on the date of promulgation of the Ordinance either by the same management or under some lease or any other arrangement? Which were the mills for which the proposals were received and considered by the Government for restarting under lease or any other arrangements? Which were the mills for which the proposals were considered favourably and the Government has given clearance or 'No Objection memo' for running the mills on lease or under any other arrangement? Which were the mills which were really closed on the date of promulgation of the Ordinance for which no proposals were received and considered by the Government to re-start the mills? Whether any opportunity was given to all the 46 mills listed in the first schedule

of the Ordinance to find out whether the present management has any scheme or resources to re-start the mills and why the mills should not be taken over by the Government in public interest in case they do not have any scheme or arrangement for re-starting the closed mills? If not, the said failure on the part of the Government amounts to a violation of fundamental rights of the mills concerned and under such circumstances legal complications are bound to crop up and the Government will be unnecessarily dragged to High Courts and the Supreme Court. It is learnt that many mills have already filed writ petitions in courts and in some cases even stay orders have been issued by the Courts restraining the Government from giving effect to the said Ordinance. This shows that there was complete non-application of mind.....

MR. CHAIRMAN: You have to conclude.

SHRI VIRENDRA AGARWAL: This shows that there was complete non-application of mind in including many such mills in the first schedule.

The grounds of urgency and other circumstances to promulgate the Ordinance so hastily on 31st October, 1972, only 13 days before the winter session of the Parliament was to begin since there was no emergency.

Why the Government has included the names of those mills which were actually running on the date of promulgation of the Ordinance—

- (a) when there is no loss of production of cloth;
- (b) when the labour is getting employment;
- (c) when there is no financial stake required to be made by the Government and no botherations are to be taken by the Government, since the private parties are to manage the affairs of such mills.

[Shri Virendra Agarwal]

Sir, these the questions I would like to put to the hon. Minister to reply so that the House could know exactly where and to what extent this Ministry has bungled in the whole affair of the textile industry.

श्री प्रबोध चन्द्र (गुरदासपुर) : सभा-पति महोदय, जहां तक इस बिल के बेसिक आब्जेक्ट का ताल्लुक है, मैं बड़े जोरसे इसकी मुखालफत करने के लिये खड़ा हुआ हूँ। आज आप इस तरह की सिक टैक्सटाइल मिलें लेते हैं, कल जूट मिलों को लेंगे, परसों मर्कैनि कल चीजों को बनाने वाले कारखानों को लेंगे, इस तरह से करप्शन और इन एफिसिएन्सी की लावी को एक प्रिमियम देने का ऐम बन जायेगा। इससे अच्छा तो यह होता कि जो इस तरह की नाकारा मिलें हो चुकी हैं—मेरे खयाल से गवर्नमेंट के इल्म में यह बात होगी कि मिलों को लेने और ऐलान करने के दरमियान जितने मिल ओनर्स हैं, उन्होंने मिलों के अन्दर से तमाम अच्छे-अच्छे पुरजों को निकाल लिया और जब सरकार इन मिलों को चलायेगी तो वे पुर्ज बहुत ज्यादा कीमतें देकर खरीदने पड़ेंगे। इसलिये इनको लेने के बजाय, अगर सचमुच सरकार के सामने यह मकसद है कि गरीब आदमियों को मोटा कपड़ा सस्ते भावों पर मिले, तो सरकार को चाहिये कि इन मिलों के बजाय नई मिलें चलाये। पुरानी मिलों को निशानाड़ करके से. एक नई बीमारी को मोल लेना है। नई मिलों के लिये चाहे ज्यादा कीमत भी खर्च करनी पड़े, लेकिन उस पर किसी की अंगुली नहीं उठेगी।

अब मैं की जो सियासत है—मैं अपने सच्ची मित्रा-समूह से कहना चाहता

हूँ—इस तरफ हजारों अंगुलियां उठ रही हैं। जब इस बिल की चर्चा एक जगह पर हो रही थी तो वहां 10 में से 9 आदमियों ने यही कहा कि यह एक और तरीका पब्लिक सेक्टर एक्सचेकर को लूटने का बन गया है। यह बात गलत होगी, मैं नहीं जानता कि इसमें कहां तक सच्चाई है, लेकिन हमारे हर अमल को एक नहीं, दो नहीं, हजारों-लाखों आंखें देख रही हैं, हम कहते हैं, हम करते क्या हैं। एक तरफ ऐलान किया जाता है कि 46 मिलें इसलिये ली जा रही हैं कि मोटे कपड़े की कीमतें कम की जायें तो आप को यह भी देखना चाहिये कि 1969, 1970 और 1971 में जो मिलें पूरी तरह से चली हैं, जो मोटा कपड़ा पैदा करती हैं, उनकी कीमतें में कोई इजाफा हुआ है या नहीं हुआ है या कमी हुई है। आज लोग इस बात में विश्वास नहीं रखते कि हम गरीबी हटाओ का नारा लगाते हैं या गरीबी बढ़ाओ का नारा लगाते हैं, आज दुनियां हमारे ऐमाल पर हमको परखेगी। मैं यहां एक शेर अर्ज करना चाहता हूँ—

साकी की नबाजिन उन पर है

पीते का सलीका जिनको नहीं,

वस्तुएं अगर कायम यह रहा

आबाद न होया मैदान।

अगर इसी तरह से टूटी-फूटी, जंक लगी हुई मशीनरी को लेकर आप कामवाब होते हैं तो ठीक है, लेकिन गवर्नमेंट को मिलेगा, अगर जैसा खयाल है कि माफामियाब होगी तो एक बच्चा और उनके हाथ पर सब जायेगा।

इसलिये गवर्नमेंट अच्छी तरह से सोच ले कि अभी उसने तक जो मिलें चलाई हैं उनको किस इन्तहा तक उसने पहुंचाया है। अगर मुकाबला किया जाये, प्राइवेट सेक्टर और पब्लिक सेक्टर की मिलों के दम्यानि तो कोई ऐसा नकशा आज तक हमारे सामने गवर्नमेंट ने पेश नहीं किया जिस पर खुशी और फख महसूस कर सकें। चाहे स्टील इन्डस्ट्री हो या कोई दूसरी इन्डस्ट्री, हम देखते हैं कि प्राइवेट सेक्टर की स्टील मिलें जहां टोटल कैपेसिटी का 60—70 परसेन्ट पैदा करती हैं वहां पर पब्लिक सेक्टर की मिलें 30—40 परसेन्ट ही पैदा करती है। जहां टाटा एक मजदूर साल में 140—145 टन लोहा पैदा करता है हमारे पब्लिक सेक्टर में 80 टन से ज्यादा पैदा नहीं करते हैं। जापान में एक मजदूर 600 टन से ऊपर पैदा करता है, अमरीका में 480 टन पैदा करता है, जर्मनी में तीन, साढ़े तीन सौ टन पैदा करता है लेकिन हमारे पब्लिक सेक्टर की मिलें जो हैं उनकी पैदावार 80 टन से ज्यादा नहीं है। मैं इशारतन कहूंगा, कोई मुखालिफत करने की बात नहीं है, सिर्फ एक दोस्त के नाते उस पार्टी से ताल्लुक रखते हुए जिसकी सरकार यह बिल ला रही है, कि हमें कदम सोच समझ कर रखना चाहिये। पिछला जो तजुर्बा है, हम अंधेरे में चारों तरफ भटक रहे हैं लेकिन कोई रास्ता और मंजिल हमारे सामने नहीं है। कुछ सूबे फीके नारे हैं और चारों तरफ हिन्दुस्तान के हर कोने में, हर मोर्चे में तालिब-इस्लाम, मजदूर और नीचबानों में माफूसी है। इसकी कम करने की कोशिश की जाये बजाय

बीमार मरने वाली मिलों को जैसे कि इस्तेजिटिमेट चाइल्ड की तरह मुतबन्ना बनाया जा रहा है। आप समझ सकते हैं कि उस खानदान की हालत क्या होगी जिसमें कि इस तरह के चाइल्ड इकट्ठे किये गये हों। जिस तरह से उस खानदान की बदनामी होगी उसी तरह से इस गवर्नमेंट की भी हालत हो सकती है। अगर आपने मिलों को लेने का फैसला कर ही लिया है ती मेहरबानी करके इन मिलों के इन्चार्ज जो हों वह ऐसे आदमी लगाये जायें जिन्हें कि उन मिलों को चलाने के बारे में पूरा इल्म हों उस तरह से न करें जैसे कि काबुल में बच्चा सक्का की बादशाहत आई तो उसने अपने एक मोची दोस्त को इंस्पेक्टर जनरल आफ हास्पिटल बना दिया। आज इस तरह से काबिलियत देखकर नौकरियां नहीं मिलती हैं बल्कि यह देखा जाता है कि फलां आदमी से उसके क्या सम्बन्ध हैं और दूसरे से उसकी क्या रिश्तेदारी है। मैं सिर्फ इतना ही कहूंगा कि यह आपका जो फैसला है उसमें अगर आप कामियाब हो जायें तो मुबारिक है लेकिन जो पिछला तजुर्बा है उससे कोई आम्ति-मिज्म नहीं है। इसलिये कोशिश करें चाहे चाहे कुछ दिन वही चलाते रहें लेकिन एक बार आप मिलों को अपने कब्जे में लें तो कामियाब बनाकर दिखायें ताकि आज उंगलियां उठाने वाले शर्म महसूस करें न कि वे इस बात को जतायें कि हमने तो पहले ही बार्न कर दिया था। इन अलफाज के साथ फिर बार्न करते हुये मैं कहूंगा कि इतना बड़ा जो कदम उठाया है उसके लिये जो ज़रूरी चीजें हैं उनका पहले खयाल कर लें आपका शुक्रिया।

*SHRI P. A. SAMINATHAN (Gobichettipalayam): Mr. Chairman, Sir, on behalf of my party, the Dravida Munnetra Kazhagam, I would like to place before you a few concrete and constructive suggestions on The Sick Textile Undertakings (Taking Over of Management) Bill, 1972.

This Bill seeks to replace the Sick Textile Undertakings (Taking Over of Management) Ordinance, 1972, promulgated by the President on 31-10-1972 whereby the management of 46 textile undertakings pending their nationalisation was taken over by the Central Government. In our country there are 379 pure spinning mills and 291 composite textile mills. Out of 34 mills taken over by the Government under the Industries (Development and Regulation) Act and placed under Authorised Controllers, six mills are under the direct management of the National Textile Corporation.

SHRI C. T. DHANDAPANI (Dharampuram): Mr. Chairman, Sir, the hon. Minister of Foreign Trade is not listening to the Member. Perhaps the hon. Minister does not care to hear the Member who is speaking in Tamil.

MR. CHAIRMAN: Please do not be so sensitive.

SHRI MOHANRAJ KALINGARAYAR (Pallachi): Sir, he cannot understand Tamil. How can he reply to the points being raised by the hon. Member if he does not listen to the interpretation? Perhaps he is not interested.

SHRI C. T. DHANDAPANI: Let the hon. Minister finish his conversation first and after that the hon. Member can resume his speech.

MR. CHAIRMAN: Order, Order. You do not worry. The hon. Minister will reply to the points raised by the hon. Member.

*SHRI P. A. SAMINATHAN: As the owners of 46 textiles were frittering

away the assets of these textile mills to the detriment of public interest, the Government of India were compelled to arrange for the promulgation of Presidential Ordinance on 31st October, 1972 and to replace that Ordinance this Bill providing for the taking over the management of the said sick textile undertakings has been brought before this House. I am not in a position to accept the contention that this is the first step in the nationalisation of entire textile industry. Not only the huge profits earned by these textile undertakings have been misappropriated by the owners for their own self-aggrandisement, without even declaring dividends to the share-holders, but also the Depreciation Reserve Fund has been eaten away by the owners, leaving these undertakings high and dry. They did not invest the Depreciation Reserve Fund for modernising these mills. The Central Government were left with no other alternative except to issue the Presidential Ordinance for the purpose of taking over these 46 sick textile undertakings. The argument that this is the first step in the nationalisation of one of the important consumer industries like the textile industry, is, according to me, untenable. I would substantiate my point by saying that if the Government were serious in their profession of maximization of production and distribution at fair prices of cheaper varieties, of cloth, they should have come forward with the statute for nationalising the 379 pure spinning mills and the 291 composite textile mills in the country which are earning enormous profits running to crores of rupees and which are also being exploited fully by the owners for their personal benefits.

Sir, there could be only one reason for not taking up the step of nationalising the entire textile trade and that is, many of these mill magnates are members of the ruling Congress Party and they happen to have a major say in the affairs of the ruling party. In Coimbatore District from where I come, there are many textile

mills. The mill-owners who were previously members of the Old Congress have not come to the new Congress. Just like the sugar industry which was a milch cow for the ruling Congress during the Elections, it is reported that the Election Fund of the ruling party swelled by the contribution of 18 paise per spindle from the textile trade. In their personal conversations with me, the mill-owners have conveyed this to me.

MR. CHAIRMAN: Let not the hon. Member follow Shri Jyotirmoy Bosu in making all sorts of allegations.

SHRI C. T. DHANDAPANI: These are incontrovertible facts.

*SHRI P. A. SAMINATHAN: The main reason for not nationalising the entire textile industry or for that matter the sugar industry is that these are the perennial sources for the ruling party to fleece for their Elections. If the Government want to prove it otherwise, they should not show any hesitancy in nationalising the entire textile trade and the sugar trade.

Even in the matter of taking over of the management of 46 sick textile undertakings, Clause 6(3) of the Bill provides for the owner of every sick textile undertaking being given by the Central Government a particular amount of compensation in cash. I am astonished that the Government should make such a provision for the owners of these undertakings, who had no compunction even to misappropriate the Depreciation Reserve Fund, who had left these mills as mere bones after sucking the marrow, to get compensation even for taking over their management? Is such a provision necessary? If the Government are going to be so munificent towards these exploiters, if the Government are going to have such a statutory provision for giving bounties to these owners who had been so callous to the maintenance of these mills, I wonder whether the Government will ever think of implementing the proposition of nationalising the entire textile trade. Even

at the time of nationalising the General Insurance companies, an amount of Rs. 38 crores was provided as compensation. At every stage of nationalisation of industries which are vital for the economic development of the nation, crores of rupees are being paid as compensation. I do not know whether the Government want to ensure the economic development of the nation on an even keel or they want to benefit a particular section of our society by giving them huge amounts of compensation. I am at a loss to understand the processes of thinkings on the part of the Government in this important matter.

Sir, the requirement on account of modernisation of these sick mills has been estimated at about Rs. 1706 lakhs and the requirement of margin money for working capital for these mills has been estimated at about Rs. 1055 lakhs. The Government require about 2761 lakhs of rupees for putting these undertakings on their feet. I would request the hon. Minister to clarify whether it is at all necessary and whether he is justifiable in making the provision of compensation at the time of taking over of the management in view of the staggering sum required for re-vitalising these units.

Out of the 46 undertakings whose management is being taken over, there are seven mills in Tamil Nadu—Balarama Varma Textile Mills, Kaleeswarar Mills—A Unit, Kaleeswarar Mills—B Unit, Pankaja Mills, Pioneer Spinners, Thandram Spinning Mills, Mad Sarada Mills. The number of textile becoming sick in Tamil Nadu was so fast that many thousands of workers were on the verge of losing their livelihood. In fact it was an explosive situation. On many occasions, repeatedly, the Members of Parliament from Tamil Nadu belonging to Dravida Munnetra Kazhagam, and our dynamic Chief Minister Dr. Kalaignar Karunanidhi used to make fervent appeals to the Central Government that they should save the situation from going out of hands by taking over the

(Shri P. A. Swaminathan.)

sick textile mills. As there was unconscionable delay on the part of the Central Government in arriving at a decision, the Tamil Nadu Government set up the Tamil Nadu Textile Corporation and in the interest of thousands of textile workers, the State Government strained its every nerve in finding resources for taking over the sick textile mills. The Mills like Murgan Mills, C.S. & W. Mills, Coimbatore Cotton Mill, Om Parasakthi Mills, Somasundara Mills were handed over to the Tamil Nadu Textile Corporation. Thousands of textile workers were saved from the serious and tragic consequence of being thrown out in the streets. The arrangement agreed to was that the Central Government would bear 15 per cent of the expenditure involved in running these sick undertakings and the remaining 49 per cent would be borne by the State Government. The slender resources of the State Government are being fully utilised in reviving these sick units. I would like to take this opportunity to inform you, Sir, that the Centre's share of 51 per cent has not yet been disbursed to the State Government. I would urge upon the hon. Minister that the Centre's share of 51 per cent should be made available immediately to the State Government as the responsibilities undertaken by the State Government are bursting to their seams.

I would now refer to Clause 5(1) in Chapter II of the Bill, which reads:

"The Central Government may, as soon as it is convenient administrative-ly so to do, appoint an individual or a Government company as the Custodian of a sick textile undertaking for the purpose of taking over the management of such undertaking and the Custodian so appointed shall carry on the management of such undertaking for and on behalf of the Central Government."

I can welcome the provision of appointing a Government company as the custodian of a sick textile undertaking. But, I strongly and vehemently oppose the provision that an individual can also be appointed as the custodian of a sick textile mill. This provision may also mean

that the old management which had exploited these units for such a long period can again be appointed as the custodian. What I am saying is that there is a statutory provision according to which there is no bar for appointing the same individual who has so long been responsible for mismanagement for malpractices and for misappropriation as the custodian of the mill after the management has been taken over by the Government. This provision goes against the very purpose for which these sick units are being taken over. Wherever there is the State Textile Corporation these Mills should be handed over to them. If it is not there, then, with the consent of the State Government, these sick mills should be administered by the National Textile Corporation. I would like to say that this provision that an individual can also be appointed as the custodian will lead to fresh irregularities and malpractices. If the Government want to save the sick mills from certain death, then this provision about the individual being appointed as the custodian should be deleted from the Bill. I hope that the hon. Minister will ensure that the Government company alone is entrusted with the management of these sick units.

It has also been stated in the Financial Memorandum that certain amounts will have to be paid to the owners at the time of nationalisation and the amounts to be so paid have yet to be assessed. This provision ensures payment of compensation twice to the owners of these sick undertakings. I would only say that the objective of maximization of production and distribution at fair prices of cheaper varieties of cloth would never become a reality if the Government are obsessed with the notion of compensating the owners responsible for creating chaos in the textile industry.

Before I conclude, I would stress that the deficiencies which I have referred to in the Bill should be removed. No individual should be appointed as the custodian of a sick mill. If the Government of India are really determined to establish an egalitarian society in the country, if the government want to implement the

promises given to the people during the recent Elections, then they must conform with the proposal to nationalise the entire textile trade, sugar industry, cement industry, iron and steel industry, which should be the public means of production for achieving the goal of economic equality in the country. These are the vital sectors of our economy, the profits of which go to fatten a few at the cost of entire population of the country. I suggest that these industries and their earnings must be made to serve the public interest. If this is not done, the people of the country will decide what to do to achieve this.

With these words, I conclude.

श्री नटवरलाल पटेल (मैहसाना) : सभापति महोदय, आज इस सदन में मुझे इस बिल पर बोलने का मौका मिला है, इस से मुझे बड़ी खुशी होती है और मैं मंत्री महोदय को इस के लिए धन्यवाद देता हूँ। धन्यवाद इस लिए दे रहा हूँ कि इस माननीय सदन में एक बड़ा क्रान्तिकारी बिल आया है। वह इस लिये क्रान्तिकारी है कि उस से हमारे देश में मजदूरों को काफी सिक्थोरिटी मिलने वाली है और बड़ा फायदा होने वाला है।

इस सदन में जो बहस हुई उस से मुझे ऐसा महसूस होता है कि कई माननीय सदस्यों का विचार है कि इस टेक ओवर से कोई फायदा नहीं होगा। मैं कहना चाहता हूँ कि वास्तव में जिस का फायदा होने वाला है उस से जा कर पूछिये कि फायदा होने वाला है या नहीं। जिन लोगों को फायदा महसूस नहीं हो रहा है, उन से मेरी प्रार्थना है कि वह मजदूरों से जा कर पूछें कि इस सदन में जो बिल आया है उस से हिन्दुस्तान के मजदूरों का कोई फायदा होने वाला है या नहीं।

आप जानते हैं कि हमारे देश में टेक्स्टाइल इंडस्ट्रीज सब से बड़ी इंडस्ट्री है और इस सबसे बड़ी इंडस्ट्री में काफी बड़ी तादाद में मजदूर लोग अपनी रोजी कमाते हैं। पिछले पांच सात वर्षों में हमारे यहां कितनी ही मिलें बन्द हो गईं। आप को पता है कि किसी भी धन्धे को करने में मुनाफा भी होता है और नुकसान भी होता है। आज हमारे देश में यह प्रक्रिया चल रही है कि जब तक धन्धा करने वाले को मुनाफा मिलता रहता है तब तक वह धन्धे को चालू रखता है और जब मुनाफा नहीं मिलता घाटा आना शुरू हो जाता है तब वह मशीनों को बन्द कर देता है और ऐसा कर के मजदूरों को बाहर निकाल देता है।

मैं मंत्री महोदय से निवेदन करना चाहता हूँ कि हम अपने देश में सोशलिज्म की ओर बढ़ रहे हैं और तेजी से आगे बढ़ रहे हैं। यहां पर जो मजदूरों का सवाल है अगर हम उस के उपर तेजी से विचार नहीं करेंगे तो उन की परिस्थिति काफी खराब होने वाली है। मेरी ऐसी मान्यता है कि पिछले पांच वर्षों में जो परिस्थिति पैदा हुई है उस को ठीक करने के लिए यह बिल लाया गया है। मैं अपने गांव का एक उदाहरण देना चाहता हूँ। गुजरात राज्य के मैहसाना डिस्ट्रिक्ट में मेरा एक छोटा सा गांव है। वहां की टेक्स्टाइल इंडस्ट्री काफी प्रसिद्ध है और इंडस्ट्री भी काफी अच्छी। वहां पर 1500 मजदूर काम करते थे, आठ वर्ष हुए मिल बन्द हो गई। जब मिल बन्द हुई थी तब मैं मिल के ओनर से मिलने गया और उस से पूछा कि आप ने मिल को बन्द क्यों कर दिया आप जानते हैं कि यहां पर 1500 मजदूर काम करते हैं,

[श्री नटवरलाल पटेल]

और अगर मिल ने प्रोडक्शन बन्द कर दिया तो जो मजदूर उन की रोजी बन्द हो जाएगी। अगर आप एक मजदूर के यहां चार या पांच आदमी ही मान लें तो मेरे जिले की इन टैक्स्टाइल मिल को बन्द होने से कम से कम 6,000 मजदूरों पर उसका असर पड़ेगा। इस लिये गरीब लोग इस काम से संतुष्ट नहीं हैं। मैंने मिल मालिक से यह भी कहा कि अगर आप मिल न चला सके तो हमारी कोई जबरदस्ती नहीं है, लेकिन इस को समझ लीजिए कि मिल बन्द होने से यहां के 1500 कारीगर बेकार हो जाएंगे। मैं आप को बतलाऊं कि इन मजदूरों में से काफी लोग हरिजन कम्युनिटी के हैं और हरिजन कम्युनिटी के लोगों के पास जमीन तो अधिक होती नहीं, इस लिये उन के पास दूसरा कोई धन्धा भी नहीं है जो लोग बेकार हो जाते हैं आखिर वह अपने घर को कैसे मैनटेन करेंगे। उन के सामने समस्या यह है कि वह अपनी रोजी कैसे कमाये। जो आदमी बेकार हो जाते हैं उन की परिस्थिति को सोच कर मुझे बड़ा दुःख होता है जब मिल बन्द हो गई तब मैंने बार बार उस के मालिकों से प्रार्थना की, लेकिन उन्होंने मेरी प्रार्थना को नहीं सुना। इस के बाद मैंने स्टेट गवर्नमेंट को अपना रिप्रेजेंटेशन दिया। स्टेट गवर्नमेंट ने मुझे ऐसा बतलाया कि वह इस मिल को टैक्स्टाइल करापोरेशन के जरिये नहीं चलायेंगे। मैंने कहा कि अगर आप नहीं चलायेंगे और मिल मालिक भी नहीं चलायेगा तो इन 1500 मजदूरों का सवाल पैदा होता है। मेरे गांव में एक ही इंडस्ट्री है इस लिये गवर्नमेंट इस को चलाये जो इंडस्ट्री बाटे में चलती है उस को गवर्नमेंट अपने हाथ में ले सकती है और चला सकती

है तो इस को क्यों नहीं चला सकती है। उन्होंने कहा कि हम यह इंडस्ट्री नहीं चला सकेंगे, हां अगर तुम्हारे पास कोई बायर हो जो मिल को ले ले तो उस को ले आओ हम उस को हर तरह की मदद देंगे। मैंने कहा कि मैं तो एक छोटा सा आदमी हूं कोई इंडस्ट्रीयलिस्ट तो हूं नहीं, मैं कोई ट्रेडर भी नहीं हूं, इस लिये बायर ढूँढने क्या मैं बम्बई जाऊंगा। बायर ढूँढना मेरी काम नहीं है, लेकिन गवर्नमेंट ने मेरी बात नहीं सुनी।

मुझे कहते हुए दुःख होता है कि जब हमारे देश में अनएम्प्लायमेंट के सवाल को हल करने की कोशिश हो रही है तब इस की ओर ध्यान नहीं दिया जा रहा है। यहां पर अनएम्प्लायमेंट को हल करने का सवाल तो दूसरा है, जिन को पहले एम्प्लायमेंट मिल चुका है वह अनएम्प्लायमेंट हो गये हैं यह बहुत बड़ा सवाल सामने है। इतने बड़े देश में अगर बेरोजगारी के सवाल को हल करना है तो अगर उसको हम पूरी तरह से हल नहीं कर सकते हैं तो इतना तो हम कर ही सकते हैं कि जो रोजगार में लगे हुए हैं वे बेरोजगार न हों। अगर आप यह कहते हैं कि रोजगार के अवसर बढ़ रहे हैं तो उसके साथ साथ इंडस्ट्री भी बढ़ती जा रही है। इंडस्ट्री को बढ़ा कर हम बेरोजगारी के सवाल को भी धीरे धीरे हल करते जा सकते हैं। लेकिन जो कई सालों में एम्प्लायड थे, काम धंधे में लगे हुए थे और जो केवल इस लिये बेकार हो जाते हैं कि मिल या इंडस्ट्री चलाने वाले अपने विह्वल से इंडस्ट्री या फैक्ट्री को बन्द कर देते हैं, और मजदूरों को कह देते हैं कि आप बाहर चले जाओ, हम मिल नहीं चला

संकेत, तो इसको किसी भी अवस्था में बरदाश्त नहीं किया जा सकता है। हमारे यहां आठ बरस से मिल बन्द पड़ी है। यह हमारे गांव का बनिंग प्रोबलम है। हमारे यहां के मजदूर आपकी ओर देख रहे हैं। भगवान से प्रार्थना कर चुके हैं लेकिन अभी तक उनकी प्रार्थना स्वीकृत नहीं हुई है। मिश्र जी सुन रहे हैं। मैं चाहता हूं कि वह इस ओर ध्यान दे। मैंने एक एमेंडमेंट भी मूव किया है। आप 46 मिलों को ले रहे हैं। आप मजदूरों के सवाल में बहुत दिलचस्पी लेते हैं। जहां आप 46 मिलों को लेते हैं वहां आप कहीं दुर्गों काटन मिल को भी लें और इसको भी चालू करें। आपने ऐसा किया तो मजदूर आपके बड़े आभारी होंगे। हमारे गांव वाले आपको सदा याद करते रहेंगे।

सभापति महोदय, मैं बहस में भाग लेना पसन्द नहीं करता। सदन में बार बार मैं बोलता भी नहीं हूं। लेकिन जब मिलों का सवाल आया तो मुझे ऐसा महसूस हुआ कि यह मेरा कर्तव्य है कि मैं इस मिल के बारे में बोलूं जोकि वहां का बनिंग प्रोबलम है। यह मेरी कंस्टिट्यूएन्सी का सवाल है। मैंने सोचा कि इसे मुझे सदन में उठाना चाहिए। इस वास्ते मैं बहस में भाग ले रहा हूं।

मैं मिल चलाने वालों को भी कह चाहता हूं कि जमाना बदल गया है, जो कोई भी किसी चीज को करना चाहता है वह इस बात की सोच ले कि वह उसको बन्द नहीं कर सकेगा और अगर वह गरीबों से टकराया तो चूर चूर हो जाएगा, मिट्टी में मिल जाएगा। इस वास्ते यह काम किसी के लिए भी करना ठीक नहीं है। इस मिल वालों की हालत क्या

हुई इसमें मैं जाना नहीं चाहता। कांटेक्ट में काम या दूसरे में बे पड़ गए और वहां पैसा सफा हो गया। जो हालत हुई वह मैं बताने को तैयार नहीं हूं। जो मजदूरों से टकराते हैं वे कभी सुखी नहीं होते। भगवान का प्रोटैक्शन भी उनको नहीं मिलता। अन्त में मैं कहंगा कि मेहरबानी करके मेरी एमेंडमेंट को आप स्वीकार करें और मजदूरों की समस्या वहां हल करने में मदद दें।

इस क्रान्तिकारी बिल को पेश करने के लिए मैं फिर से मंत्री जी को धन्यवाद देता हूँ।

PROF. MADHU DANDAVATE (Rajapur): There exists a very clear case for a comprehensive scheme of nationalisation of their entire textile industry. But even then as a short term measure, as a socialist I welcome this Bill. It is no doubt a Bill with very good features which if implemented properly will go a long way in ultimately making the final scheme of nationalisation a success. The objective of this Bill is quite laudable. We want to rationalise industries and managements and we want commercial production and most of all, we want to bring about equitable distribution through providing cloth to the consumers at a fair price. I am not sure whether in its present form the Bill will be able to achieve all these objectives. If amended suitably, probably it will be able to produce good results. It is a fact that even before the promulgation of the Ordinance there existed a certain situation in the textile mill industry. Certain sick mills were taken over by the Government. What was the attitude of the mill-owners? They considered the Government merely as a health centre or sanatorium, to which the sick mills were transferred. You spend on the administration of the mills and on rationalising and modernising the industry and increase the profitability of the mills. When the sick patient becomes hale and hearty, the millowners said the recouped patient should be returned back to them. In the past this was

[Prof. Madhu Dandavate]

being done with the result that the profitability of the private entrepreneurs increased. Now I am happy that the minister has given the assurance that in the implementation of this Bill, this tragedy will not be repeated and the mill-owners will not be permitted to treat the Government as a sanatorium and health centre. We spend from the public exchequer a lot of money on rationalising the industry. We do not want to increase the profitability only for the private entrepreneurs. We want to increase the profitability for public good. From that point of view, the step being proposed now is quite welcome.

About the definition of sickness, a number of items have been put down in the Bill. I would like to add one significant symptom which is clear to those who are associated with the trade union movement and the running of the industry. We have come across a certain type of sickness developing in the industry because of the crisis perpetrated by the textile magnates, namely, artificial scarcity. Very often when they want to increase their profitability, they create an artificial scarcity of cotton and yarn with the basic objective of pressurising the Government, so that disproportionately more import of cotton from outside is made resulting in the prices of indigenous cotton going down and thereby their margin of profit is increased. The mills of those textile magnates who indulge in this should also be taken over under this scheme.

No doubt the list of 47 mills given here is quite justified. But we know there are a number of additional mills which are badly in need of take-over. To make only a sample survey, in the Lakshmi Rattan Mills, Kanpur, lakhs of rupees of provident fund have not been deposited. When the trade union leaders met the Labour Minister, he also accepted that there have been such fraudulent practices. Provident fund has been deducted from the wages of the workers, but the corresponding amount has not been deposited in the bank. About bonus amount, also, there are fraudulent practices. I submit that the mills indulging in such malpractices should also be taken over. If

there is coordination between Mr. Mishra's ministry and the Labour Ministry, they would be able to get all the available data about mills indulging in such malpractices and those mills should also be taken over.

According to the Bill, in the interim period, the present management will be allowed to continue. If the very same management which was responsible for the fraudulent practices are allowed to continue, they will perpetuate the fraud. When they find that ultimately the industry is going to be taken over by Government and it is not going to be returned back to them as in the past, they may derive a vicarious satisfaction in destroying the industry, in seeing that the management is put in the reverse gear and creating as much difficulties as possible in the path of ultimate nationalisation.

Therefore, taking note of these fraudulent practices and the dangers, I would very much suggest that the very same management which is responsible for creating dislocation of the textile industry should not be allowed to continue their management even in the intermediate period. Not only that, even when the custodians take charge of the textile industry, the trade union organisations must be associated with them in an advisory capacity in the intermediate stage.

MR. CHAIRMAN: Have you put in any amendment to clause 5?

PROF. MADHU DANDAVATE: Unfortunately, I came late and I could not give notice of them. But other hon. Members have done it. Further, it is always open to the mover to make modifications in his own draft.

I am sure that a number of trade unionists have sent memoranda to the Labour Ministry and the Foreign Trade Ministry, and I am sure that the hon. Minister is quite conscious of the fact that the trade union organisations in this country have a desire, not merely to persist in

making just demands, but also in seeing to it that the public sector undertakings taken over by the government make a grand success because ultimately on the success of these undertakings depends the pattern of distribution. Therefore, the trade union organisations in these units must be associated with the conduct of management of the industry

श्रीलालजी भाई (उदयपुर) : सभापति महोदय, सदन में गणपूर्ति नहीं है।

MR. CHAIRMAN: The hon. Member may resume his seat. The quorum is being challenged. The bell is being rung.... Now there is quorum.

PROF. MADHU DANDAVATE: In my concluding remarks on the Bill I would like to refer to a very relevant document on the subject, a study made by the professors of the Allahabad University on the working of public corporations in India. Though it is only a study on the working of public corporations in India, I think that would also be relevant in the management and conduct of the sick textile mills which will be taken up by the government. That team of professors went round the country and tried to meet the managers of the various public corporations and they have drawn the inference that the paradox of our public corporation is that the corporations are run with the private sector mentality and unless that mentality is eliminated they cannot work. The same thing can be said about the management and conduct of the textile units which will be taken over by the administrators and custodians. If they are guided by the philosophy of the private sector, the norms and ideology of the private sector, it will be very difficult for them to make these undertakings quite efficient and it will not be possible for them to rationalise the management. Therefore, do not leave the management merely to the custodians and administrators; try to make it broad-based and try to associate organised trade unions with the conduct and management of the industry, even in an advisory capacity, so that the proclaimed objectives of this Bill,

with which I am hundred per cent in agreement, will be implemented effectively.

श्री राम सहाय पाण्डे (राजनंदगांव) : सभापति महोदय, मैं अपनी आदत के मुताबिक मंत्री महोदय को बधाई नहीं देता हूँ, जो इस बिल को इस आशा के साथ लाये हैं कि इस के द्वारा इस उद्योग का कल्याण होगा, मजदूरों का भला होगा और इन पिटी-पिट्टाई बीमार मिलों को कुछ आधुनिकता के स्तर पर ला कर इन का उद्धार किया जायेगा। मैंने कहा है कि मैं बधाई नहीं देना चाहता था, लेकिन मैं उन्हें बधाई देता हूँ। मगर मुझे दुःख है कि मिनिस्टर साहब इस बारे में अभी तक सोते क्यों रहे और जो बिल आज से पांच दस बरस पहले आना चाहिए था, वह इतनी देर से क्यों आया है। क्या सरकार को यह एहसास नहीं था कि टैक्सटाइल इंडस्ट्री में लुट खसूट और ब्लैक मार्केटिंग वगैरह सब कुछ हो रहा था। उस ने स्वराज्य-प्राप्ति के तुरन्त बाद एक हाई पावर कमीशन बिठा कर इस के बारे में जांच क्यों नहीं कराई। और जब अशोक मेहता कमेटी ने इनवेस्टिगेशन करने के बाद अपनी रिपोर्ट दी, तो सरकार ने उस का इम्प्लीमेंटेशन क्यों नहीं किया।

यह उद्योग हमारी एक परम्परा के साथ जुड़ा हुआ है। लेकिन बीच में ट्रांसिट पीरियड में, वह कलकत्ता के सटोरियों के हाथों में चला गया जिन को टैक्सटाइल इंडस्ट्री या किसी भी इंडस्ट्री के बारे में ज्ञान या अनुभव नहीं था, जो सट्टे से पैदा किए गए पैसे की कोर्से से इस इंडस्ट्री में आये, जिन्होंने सेयरज कार्नर किये और मैनेजमट को अपने हाथ में ले लिया। उन्होंने ब्लैक मार्केटिंग किया, प्रॉफिट को इंडस्ट्री में प्लो बैंक नहीं किया; प्रॉविडेंट फंड के पैसे नहीं दिये और लक्सरी की जिन्दगी में खूब पैसा खर्च किया। जब उन मिलों के शरीर में खून नहीं रहा और केवल स्कैलेटन रह गया तो, जैसा कि श्री यशु बंबटे ने कहा है, उन को सिक मिलों की तरह सैनेटोरियम में खड़ा कर दिया गया है।

[श्री रामसहाय पाण्डे]

यह ठीक है। यह सरकार का दायित्व है। इस का सब से बड़ा कारण यह है कि सरकार चाहती है कि कहीं मजदूर बेकार न हो जायें। सरकार के सामने सबसे पहले मजदूरों का चित्त आता है, फिर उत्पादन का चित्त आता है और यह खयाल भी आता है कि इन सिक मिलों को किसी प्रकार रेशनलाइज और माड्रनाइज कर के ठीक हालत में लाया जाये। इस उद्देश्य से इन 46 मिलों के बारे में अक्टूबर में एक आर्डिनंस जारी किया गया अब विधेयक लाया गया है। इस के लिए मैं मंत्री महोदय को बधाई देता हूँ

इन 46 मिलों का इतिहास हमारे पास सामने है लेकिन इन के अलावा पचास साठ और ऐसी मिलें हैं, जो सिक हैं और शायद बहुत सिक हैं। माननीय सदस्य, श्री वीरेन्द्र अग्रवाल ने कहा है कि वे चल रही हैं, कभी बन्द नहीं हुई हैं। वे कैसे चल रहीं हैं, इस का भी एक इतिहास है। उन मिलों ने प्राविडेंट फंड के पैसे जमा नहीं किये, उन की तरफ इनकम टैक्स की लायाबिलिटीज पड़ी हुई है, वे कन्ट्रोल्ड क्लाय का प्रोसेसिंग कर के ब्लैंक मार्केट से पैसा पैदा करती हैं। एक हार्ड-पावर कमीशन बिठा कर इन मिलों के बारे में इन-वेस्टीगेशन किया जाना चाहिए और इन को भी हाथ में ले लेना चाहिए।

मैं यह पूछना चाहता हूँ कि इन मिलों को टेक ओवर करने के बाद उन का प्राफिट क्यों वापिस किया गया। जब सरकार ने उन को सिक मिल मान कर ले लिया, उन को ठीक किया दिया, उन को प्राफिटबिलिटी के स्तर पर ला दिया, तो फिर प्राफिट को

वापिस करने की क्या जरूरत है क्या सरकार ने यह प्रावधान किया है कि वह नेशनलाइजेशन की दिशा में बढ़ेगी और मिलों को वापिस नहीं करेगी ?

मैं अपने क्षेत्र की एक मिल का जिक्र करना चाहता हूँ। राजनदगांव की बी० एन० सी० मिल में लेबर की कानसालिडेटिड वेजिज 85 रुपये थी।

जब मैं वहां से चुन कर आया और वहां गया तो सबसे पहले मैंने इस बात को पूछा कि कंसालिडेटिड वेजेज एकाडिंग टू नागपुर इन्डेक्स 136 रुपये जो मिलना चाहिए वह उन्हें मिलता है या नहीं? डी ए होता है वह मिलना चाहिए, बाकी उनकी वेजेज मिलनी चाहिए। सब मिला कर सवा दो सौ रुपये मिलना चाहिए। लेकिन पता लगा कि 85 रुपये कंसालिडेटेड वेजेज के मिलते हैं। आपने एक कस्टोडियन अप्वाइट किया। तीन चार लाख रुपया उसने इन्वेस्ट किया। 47 लाख रुपये का प्राफिट किया तीन वर्ष में। हमने पूछा कि 47 लाख रुपये का प्राफिट किया, मिल में कोई नई मशीनरी लगाई, वेजेज बढ़ाए, बोनस दिया, डी ए दिया? सारी बातों का उत्तर या जीरो अर्थात् कुछ नहीं किया। मैंने कहा कि अच्छी बात है फार दी सेक आफ टोकेन इन्कीमेंट दस रुपये बढ़ाइये। उन्होंने कहा कि आप हमारे चार्टर्ड एकाउण्टेंट से बात कीजिए। अगर वह कहेंगे और हमारी फाइनेंसियल कंटीशन परमिट करेगी तो हम बढ़ा देंगे। 47 लाख रुपये का प्राफिट कर चुके थे और यह तो बुरा प्राफिट था, स्टोर

में कितना ब्लैक किया, सेल में कितना ब्लैक किया, मशीन तोड़ फोड़कर कितनी बेची, उस ब्लैक मनी से कितनी एप्रीकल्बरल जमीन खरीदी, वह सब तो एक तरफ है और दस रुपये नहीं बढ़ाए। हमने इसी सदन में माननीय मिश्र जी से प्रार्थना की कि उसको नेशनल टेक्सटाइल्स कारपोरेशन के मातहत लिया जाए और मध्य प्रदेश द्वारा संचालित टेक्सटाइल्स कारपोरेशन के मातहत उसको लिया जाए। आज 85 रुपये पाने वाले लेबर को 50 रुपये बढ़ जाने के बाद 135 रुपये महीने मिल रहे हैं और 7 लाख रुपये का प्राफिट हर महीने हो रहा है। 7 लाख रुपये का प्राफिट हो रहा है, 50 रुपये बेजैज बढ़ाए गए चार पांच महीने के अन्दर। हमारे क्षेत्र से पंडित किशोरी लाल शुक्ला जो टेक्सटाइल कारपोरेशन के चेयरमैन हैं उन्होंने अभी भोपाल विधान सभा में बताया, भाई राम सिंह बर्मा को पता होगा, शायद पांच छः मिलें हैं टेक्सटाइल्स कारपोरेशन के अन्दर जिनका नेतृत्व शुक्ला जी कर रहे हैं और एक करोड़ दस लाख रुपये का प्राफिट हो चुका है। यह उन सिक मिलों की हालत है जिनका खून चूस लिया था इन उद्योगपतियों ने और मजदूर बेकार हो गये थे। अगर बेकार नहीं हुए तो उनको बड़ी आर्थिक कठिनाई का सामना करना पड़ा। मैं एक बात बड़े दावे के साथ कहता हूँ कि अगर इमानदारी के साथ या रीजनेबल आनेस्टी के साथ भी उद्योगपति टेक्सटाइल मिलों का संचालन करते और जो हेराफेरी हुई, उस प्राफिट को प्लाऊ बैंक किए होते, वह जो ब्लैक का पैसा जेब में भरा और ऐयाशी में खर्च किया वह न किया होता

तो एक मिल भी सिक न होती क्योंकि बेजैज हमारे बहुत कम हैं। दुनिया को देखते हुये, हमारे बेजैज बहुत कम हैं। मशीन कितनी भी पुरानी हो, लेकिन कन्ज्यूमर को हम 18 काउन, 14 काउन और 10 काउन का कपड़ा देते हैं। मसिराइज्ड और सुपर फाइन 40-45 काउन की बात मैं नहीं करता हूँ जैसा कि अहमदाबाद की कुछ मिलें बनाती हैं और प्राफिट करती हैं। लेकिन यह जो सिक मिल्स हैं यह कोर्स क्लाय, मीडियम क्लाय तैयार करती हैं। तो क्या कारण है घाटे का? बेजैज कम, कोर्स क्लाय का प्रोडक्शन, एक्जोर्ड मार्केट और पैसा गवर्नमेंट से मिलता है। ये सारी सुविधायें होने के बाद भी जिस प्रकार की लूट हुई जिस प्रकार धोखा धड़ी हुई जिस प्रकार मार्केट का एक्स्प्लाइडेशन हुआ, कन्ज्यूमर का एक्स्प्लायटेशन हुआ और प्राफिट बूक एकाउन्ट में शो नहीं किया गया, इसके कारण ऐसा हुआ।

मैं समझता हूँ कि आज यह एंक्वेसिक इंडस्ट्री है, यह टेक्सटाइल इंडस्ट्री हमारी बहुत महत्वपूर्ण इंडस्ट्री है। आपको यह जान कर प्रसन्नता होगी कि माडर्न टाइम में टेक्टाइल में सिर्फ काउन टेक्सटाइल नहीं रहा, टेक्टाइल में टेरीन भी आ गया, टेरीकाट भी आ गया और बहुत सारी चीजें आज यह इंडस्ट्री बनाती हैं। लेकिन हमारा जो एक्सपोर्ट होता है, मैनचेस्टर में काउन की जगह पर हमारा कोर्स क्लाय रा मैटीरियल के रूप में वह लेते हैं और 12 आने गज का कपड़ा 18 काउन का जो यहां से जाता है वह तीन रुपये गज में उसे री-प्रोसेसिंग करके बेचते हैं। पहली नवम्बर से कन्ज्यूमर दुकानों

[श्री रामसहाय पाण्डे]

के मार्फत कंट्रोल्ड प्राइम में आपने कपड़े को बेचने का प्रावधान किया उसके लिये आपको बधाई लेकिन हर मिल ने जो कंट्रोल्ड प्राइम रखी है थी उसको ब्लैक में बेचा और शत प्रतिशत में ज्यादा पैसा चार्ज करके मार्केट में उसे फिर से उन्होंने बेचा है। आप एक नीति कन्ज्यूमर के हित में बनाते हैं लेकिन आपको यह देखना होगा कि इसका एडवान्टेज कोई दूसरा तो नहीं ले रहा है। आपका डेसीशन बड़ा अच्छा था कि कन्ट्रोल रेट का कपड़ा कन्ज्यूमर को दिया जाए। लेकिन कन्ज्यूमर के हाथ में पहुंचने के पहले ही री-प्रोसेसर के हाथ में वह पहुंच गया और उसने री-प्रोसेसिंग करके ज्यादा पैसे में उसे बेचकर उसका प्रॉफिट कमाया। इसलिए आपको हर चैनल को देखना होगा। आपने कन्ट्रोलर बढ़ाया ठीक किया। आपने टेक ओवर किया बहुत अच्छा किया। लेकिन यह आपको देखना होगा कि ये कौन लोग हैं जिनको आपने कन्ट्रोलर बनाया। बड़ी आसानी से पैसे खाए जा सकते हैं स्टोर में, सेल में, काटन में, केमिकल्स में, जितने ने कम्पोनेन्ट्स, जितने रा मैटिरियल्स हैं, जितनी भी ऐसी चीजें हैं उनमें अच्छी तरह से पैसे आज भी खाए जा सकते हैं। इसलिए आपको देखना पड़ेगा कि जो बातें इन प्राइवेट उद्योगपतियों के माध्यम से हमको बर्दाश्त करनी पड़ी कहीं आप के माध्यम से भी, ऐसा न हो कि जो कन्ट्रोलर आपने बनाये वह भी ऐसा ही करने लगे। क्योंकि बहुत से ऐसे बड़े बड़े मगरमच्छ बैठे हैं जो मार्केट को कन्ट्रोल करते हैं और वह आपकी मशीनरी को कहीं करस्ट

न करें, इसका आपको ध्यान रखना होगा। आप इन्डस्ट्री को आगे बढ़ाए। पसा लगाए और मैन, मैटीरियल, मार्केट, मशीन, मैनेजमेन्ट ये सारे के सारे जितने चैनल्स हैं इनको सबको अच्छी तरह से देखिए ताकि कोई लूप होल न रहे और जिस उद्देश्य से, जिस भावना से, जिस दायित्व से इन मिलों को टेक ओवर किया है उसमें सफलता मिले। कहीं ऐसा न हो कि आगे चलकर यह खराब हो और हमारा पैसा जो इनमें इन्वेस्ट हुआ है उसका पूरा पूरा रिटर्न न मिले। क्योंकि धीरे धीरे कन्ज्यूमर गुड्स जितने भी हैं उनकी तरफ आपको बढ़ना है और राष्ट्रीयकरण करना है। ऐसी तमाम मिलें आपको लेनी पड़ेगी। केवल 46 तो क्या पचास साठ और भी जितनी हों सब आपको लेनी पड़ेंगी। आपकी आबादी बढ़ रही है। 56 करोड़ की आबादी है। अनाज और कपड़े की गारन्टी आपको देनी होगी। स्वास्थ्य, शिक्षा, कपड़ा, भोजन इनकी सबकी गारन्टी आपको देनी होगी और इस मार्ग में समाजवाद की बात तो आप छोड़ दीजिए, वह तो बहुत अच्छी बात है, लेकिन दायित्व के साथ सरकार का जो कर्तव्य है उसकी पूर्ति के लिए आपको यह करना होगा, सरेआम उपभोक्ताओं को जो आज लूटा जाता है, जिनको आज ठगा जाता है, उनकी यह लूट बसोटी बन्द हो, और साथ साथ उनको यह सारी सामग्री प्राप्त हो, इस दिशा में जितना भी अच्छा कदम आप बढ़ाएंगे राष्ट्रीयकरण की तरफ बढ़ने, जितने भी प्रयत्न इस दिशा में करेंगे उसके लिए आप बधाई का पात्र बनेंगे।

श्री मूलबन्ध डागा (पाली) : सभापति जी, मन्दिर, मस्जिद और गिरजाघर बन्द हो जाने चाहिए लेकिन जो मिलें हैं वह बन्द नहीं होनी चाहिए। हमें कुछ एतराज नहीं है अगर कुछ टूटे फूटे मन्दिर या मस्जिद या गिरजाघर बन्द हो जाएं लेकिन जब देश के अन्दर कारखाने बन्द हो जाते हैं.....

सभापति महोदय : डागा जी, यह पब्लिक मीटिंग नहीं है। आप जरा चेयर की ओर देखकर भाषण कीजिए।

श्री मूलबन्ध डागा : मैं चेयर को ही ऐड्रेस कर रहा हूँ। मैंने कहा कि जब कारखाने बन्द हो जाते हैं तो उसके अन्दर दरिद्र-नारायण अपनी रोजी से महकूम हो जाते हैं। तो मैं सबसे अच्छा इस बिल को समझता हूँ और मेरे ख्याल में सारे समाचारपत्रों ने और सब तरफ से सबने इस बात की तारीफ की है कि हमारा कदम ठीक जगह जा रहा है। माननीय बीरेन्द्र अग्रवाल जी बोल गये कि आप इन्हें खत्म कर रहे हैं लेकिन आपके प्रबन्ध करने वाले प्रबन्ध ठीक तरह नहीं कर पाएंगे। पान्डेय जी ने भी चेतावनी दिलाई। लेकिन मैं यह कहना चाहता हूँ कि आखिर में जो एक कदम हम उठा रहे हैं तो हमें अपने लोगों पर विश्वास करना होगा और विश्वास करके चलना होगा। जब देश एक विश्वास करके चल रहा है और देश में एक अवस्था ऐसी बन रही है कि हम शोषण को खत्म करना चाहते हैं तो शोषण को खत्म करने का यही तरीका है। ये 47 कन्सन्स जो ले रहे हैं इनके स्थान पर अगर नये कारखाने लगाए जाएं तो कितनी पूंजी चाहिए? कुछ माननीय सदस्यों ने यह एतराज उठाया कि इसके लिए बड़ी पूंजी की आवश्यकता होगी। मैं समझता हूँ कि अगर इसको नये सिरे से लगाया जाए तो तब कितनी पूंजी चाहिए थी। आज यह जसे भी कारखाने हैं, जमीन है, कुछ मशीनें हैं चाहे जैसी भी हैं, यह सब

थोड़ी पूंजी में मिल जाते हैं तो इसमें हर्ज क्या है? यह जो उनका कहना था कि हमको इन कारखानों को नहीं लेना चाहिए, हमें नये कारखाने लगाने चाहिए, तो मैं कहता हूँ कि हमारे पास जो कारखाने आलरेडी मौजूद हैं और जिनमें थोड़ी पूंजी लगाकर ज्यादा लाभ उठा सकते हैं, उन्हें क्यों न लिया जाए?

दूसरा एतराज इसके साथ बे यह उठाते हैं कि हमने देखा है कि पब्लिक सेक्टर में बड़ा घाटा होता है और प्रबन्ध व्यवस्था अच्छी नहीं होती है। मैं कहता हूँ कि आखिर हम लोगों ने एक निर्णय लिया है तो हमें अपने लोगों की इमानदारी पर और उनकी मेहनत पर भरोसा करना होगा। बार-बार जब हम लोग इस बात की ओर ध्यान दिलाएंगे तो हमारे लोगों में जो काम करने की शक्ति है वह बढ़ेगी और उनकी इमानदारी बढ़ेगी। यह बात नहीं होनी चाहिए कि हम हमेशा हर बार अविश्वास करें कि हमारे कर्मचारी और सरकारी कर्मचारी उन कामों को कर नहीं पाएंगे। आधिर हमारी सारी योजनाएँ चलती हैं, देश का सब काम चलता है, रेल इण्डस्ट्री चलती है, दूसरी इण्डस्ट्रीज चलती हैं, तो हमें लोगों पर विश्वास करना होगा, लेकिन कुछ वर्गों पर हमला भी करना होगा। जो लोग गलत काम करते हैं उनकी निन्दा भी करनी होगी, लेकिन जो हमारा रास्ता है, जिसको हमने तय किया है, 46 मिलों को लेने जा रहे हैं, उनको नया जीवन दिया जाएगा, यह एक अच्छा कदम है। मेरे ख्याल से किमी ने भी इस बिल का विरोध नहीं किया है, सबने एक स्वर में कहा है कि यह कदम बड़े साहस का कदम है, अच्छा कदम है, आगे की ओर ले जाने वाला कदम है।

लेकिन मैं दो तीन बातों की तरफ आप का ध्यान दिलाना चाहता हूँ—अभी मेरे साथी नटवरलाल जी ने कहीं दुर्गा काटन

[श्री मूल चन्द्र झाणा]

लि०, डिस्ट्रिक्ट मेहसना का बिक्र किया है। आप इस मिल को भी लीजिये, 46 की जगह 47 कर दीजिये। इस मिल में 1500 आदमी बेकार हो गये हैं।

इस बिल में जो रीखन्च दिये गये हैं— मैं उनको दोहराना नहीं चाहता हूँ, लेकिन मैं आपका ध्यान क्लॉज 10 की तरफ़ दिखाना चाहता हूँ। इस क्लॉज में कहा गया है—

He may, by giving to the employee one month's notice in writing or the salary or wage for one month in lieu thereof, terminate such contract of employment.

यह मुनासिब नहीं है। हम मजदूरों की बेरोजगारी हटाने के लिए इस बिल को लाये हैं लेकिन दूसरी तरफ़ आप ऐसा क्लॉज डाल दें कि एक महीने का नोटिस देकर उनको हटा सकते हैं, इससे तो बेरोजगारी बढ़ेगी। अगर हमने उनको रख लिया है और बाद में यह महसूस करते हैं कि उनकी जरूरत नहीं है तो आप काम को बढ़ाइये, लेकिन मजदूरों को नहीं हटाइये। आप ने कहा है—

MR. CHAIRMAN: You have already explained; you need not say this again.

श्री मूल चन्द्र झाणा : दूसरी बात— आपने इसमें एक क्लॉज दी है—

Every person in charge of the management of a sick textile undertaking immediately before the appointed day shall, within 10 days from that day or within such further period as the Central Government may allow in this behalf.

आपने इसमें 10 दिन का टाइम दिया है। मैं अर्ज करना चाहता हूँ कि जब आप को कस्टडी में कोई चीज़ लेनी है तो फौरन लीजिये। वरना कई बार ऐसा होता है कि वे लोग काज-पस, दूसरी चीज़ें मिस-एप्रोप्रियेट कर लेते हैं, वहाँ से हटा लेते हैं। इसलिये कोई टाइम लिमिट मत दीजिये

जो काम करना है वह फौरन लीजिये। 10 दिन का टाइम बहुत ज्यादा है—इस टाइम के अन्दर मशीनें हट जाती हैं, जितना कम टाइम दिया जाय, उतना अच्छा है। जब आप यह तय कर लें कि हमें फ़र्ला मिल को लेना है तो तुरन्त ले लीजिये, इस के लिए टाइम मुकर्रर नहीं होना चाहिये।

आप ने क्लॉज 4(8) में कहा है—

No Resolution passed at any meeting of the shareholders of any textile company on or after the appointed day regarding the business of the textile company in so far as it relates to the sick textile undertaking shall be given effect to unless approved by the Central Government.

अगर कोई रेज़ोल्यूशन पास कर दे और सेंट्रल गवर्नमेंट उसको एप्रूव कर दे तो उसको इफ़ेक्ट दिया जा सकता है—ऐसा क्यों किया जाय। इसमें ऐसा होता है कि के मीटिंग करे और उसमें अपनी च्वाइस वेदें और सेंट्रल गवर्नमेंट उसको एप्रूव कर दे तो

सभापति महोदय : आप इसके मायने नहीं समझ पाये हैं। ठीक है अब आप समाप्त करें।

श्री मूल चन्द्र झाणा : मैं यही निवेदन करना चाहता हूँ कि इस क्लॉज को नहीं रखना चाहिए।

श्री राम सहाय पाण्डेय : (राजनंदगांव) : सभापति महोदय, मैं अपने भाषण में एक बात और जोड़ना चाहता था—आप कृपया कदवी० एन० सी० मिल, राजनंदगांव को श्री इन सिक-मिलों की तालिका में जोड़ दें।

श्री एम० रामचोपाल रेड्डी (निजामाबाद) : सभापति महोदय, मैं मुक़्तसिर-सा भाषण देना चाहता हूँ। जो मिलें ली गई हैं,

उन के लिये मैं मंजी जी को बधाई देना चाहता हूँ। जो मिलें ली गई है, अगर उनकी कामयाबी से चसाना है तो सिर्फ़ ले लेना ही काफ़ी नहीं है, उन में जो मजदूर काम करते हैं, उनके ऊपर भी बड़ी जिम्मेदारी है। क्योंकि जिस दिन से सिक-मिल ली जाय, अगर उसी दिन से मांगों की भरमार चलदी शुरू हो गई तो सिक-मिल फिर बन्द हो जायेगी और उससे बदनामी होगी और सरकार आइन्दा दूसरी मिल लेने का साहस ही नहीं करेगी। इस वास्ते मैं यह चाहता हूँ कि फिलहाल मजदूर बोनस मांगना छोड़ दें। जब तक वह मिल कामयाब तरीके से न चले, अगर दूसरी सुविधायें कम भी हैं तो भी थोड़े दिन के वास्ते उस को बरदाश्त करें।

दूसरी बात—हमारे यहां मजदूरों की प्रोडक्टिविटी बहुत कम है। जापान में 198 प्वाइन्ट्स हैं, जर्मनी में 160 प्वाइन्ट्स हैं, यूरोपियन कंट्रीज में 140 प्वाइन्ट्स हैं, जब कि हमारे यहां 40 प्वाइन्ट्स हैं.....

श्री एस० एम० बनर्जी (कानपुर) : तनखाह कितनी है ?

श्री एम० रामगोपाल रेड्डी: डीरम बनर्जी साहब से दरखास्त करता हूँ कि मैं कानपुर जा कर आया हूँ—मेहरबानी करके ज्यादा काम करके ज्यादा तनखाह हासिल करने के लिये कहा जाये।

मोर्नाइजेशन आफ मशीन्ज के लिये कहा गया है कि इस पर 600 करोड़ रुपया लगेगा। जो मिलें जल्दी खराब होने वाली हैं उनके लिये एक प्रोग्राम बनाया गया है। मिनिस्टर साहब ने कहा है कि हर साल 60 से 65 करोड़ रुपया खर्च करके मोडर्नाइज करेंगे। आगामी सप्ति वुनिया में मशीनें मोडर्नाइज हो गई हैं—लेकिन

हम इस मामले में अभी पीछे हैं। अगर हर साल 60 करोड़ रुपया मशीनरी के मोडर्नाइजेशन पर लगायेंगे तो 10 साल में तमाम मशीनरी नई हो सकेगी। इसलिये मैं चाहता हूँ कि जहां कहीं भी मिलों को मोडर्नाइज करने के लिये पैसे की जरूरत है, फाइनेन्सल कार्पोरेशन से पैसे का इन्तजाम किया जाय ताकि मशीनों को मोडर्नाइज करके दुनिया की दूसरी मिलों के साथ अच्छी तरह से कम्पीटीशन कर सकें।

THE MINISTER OF FOREIGN TRADE (SHRI L. N. MISHRA): I am indeed very much grateful to the House for the support that it has given to the Bill. Fourteen Members have participated in the debate, and out of these fourteen, eleven have strongly supported the principles for which the Bill stands, and only three colleagues of ours have not supported the principle for which this Bill stands.

Before I go into the general principles which have been raised by hon. Members, I would like to take some of the points raised by hon. Members one by one and try to allay their misgivings.

First, I shall take the point raised by Shri Dinen Bhattacharyya. He asked 'Why are you paying compensation to the owners under clause 6(2)?'. Till the units are actually nationalised, some compensation has to be paid to the owners; otherwise, it will amount to expropriation. This point was raised by Shri Indrajit Gupta also and he asked why we were proposing to pay Rs. 30,000 for each mill and he calculated that something like Rs. 1.46 crores would be paid to the mills. I would point out that this Rs. 30,000 is meant for all the 46 mills. This is just nominal compensation and we are doing this in order to respect the provisions of the Constitution, for otherwise it would amount to expropriation. So, Shri Indrajit Gupta and Shri Dinen Bhattacharyya need not have this apprehension that we are

[Shri L. N. Mishra]

going to make payments of such amounts to these mills or to those mills which do not have much utility.

The hon. Member also raised the question about the freezing of past liabilities and said that workers' dues should not be frozen. As far as possible, workers' dues will be paid after the mills are restarted. But our concern will be to restart the sick mills.

17.09 hrs.

(SHRI K. N. TIWARY *in the Chair*).

Shri Dinen Bhattacharyya also pointed out that in the mills already working under Government control, arrears of workers' wages and bonus were not being paid. Government are making serious efforts to pay arrears and will fully safeguard the workers' interests. However, this will be possible only after the mills start working.

I must say that I do not agree with Shri M. Ram Gopal Reddy when he says that no bonus should be paid to the workers.

Bonus has to be paid to the workers, no matter in what condition the mills are. There is the Bonus Act and we should not raise the question of productivity etc., once the question of bonus comes.

About the equalisation of cotton price, this is a question which has been raised a number of times by the Chief Minister, West Bengal, Shri Siddhartha Shankar Ray, that there should be equalisation of price of cotton as in regard to coal and steel. I agree with it in principle. I addressed a letter to all the Chief Ministers of cotton growing States in this regard. Unfortunately, they did not agree to this principle. I am thinking of convening a meeting of all the Chief Ministers of cotton growing States and of those States where there are textile mills to discuss this problem. The difficulty is genuine. The States which do not grow cotton have to incur a higher cost of production than those States where cotton

grows. Some solution has to be found. I assure Shri Gupta and Shri Dinen Bhattacharyya that we are serious about this question.

Shri Ramsinghbhai Verma raised the question of huge arrears in respect of one particular mill the Indore Malwa United Mills. This mill has been taken over under the Ordinance and the dues are being gradually liquidated.

Shri Indrajit Gupta made the point that the mills taken over should not be returned to their owners. I had stated earlier, and I reiterate, that not only these 46 mills but even these 57 mills which are under NTC, the return of which is to be considered after 15 years, will not be handed back to the owners. We are not going to waste public money repairing and modernising these mills of private owners and returning them to them after putting them in proper order.

As Shri Indrajit Gupta said, this is for the first time that we are entering the consumers' industry on a large scale. These 46 mills are going to be nationalised. Pending that, we have come forward with this Bill. I cannot set a timelimit for nationalisation, but it will be very soon.

The point was made that we gave 10 and 15 days notice and in the meanwhile valuable properties of the mills might have been removed from their premises. Here I want to share a secret with the House. This question of taking over these mills has been with us for a long time. We had a Cabinet meeting and we were to announce the promulgation of the Ordinance the same evening. But then some difficulty arose. We could not do it the same day. Immediately I came to my office, round about 7 O'clock, I requested all the Chief Ministers of the concerned States to put police guard in the mills so that no property was removed. I am thankful to all the Chief Ministers for their quick action for the same night before 12 O'clock all these mills were put under police guard and, according to our information, no property has been removed.

The general question of nationalisation of the entire textile industry was raised. This is not before us at the moment. We do not want to do it; we want to take over these mills which are not remunerative, which are not economic. We want to take over such units after paying compensation according to the amended Constitution on a mill-wise basis.

Whatever may be the faults of individual millowners, I must pay a compliment to the textile industry which has not done a bad job. A visit to the Textile pavilion of Asia 1972 will convince one about the progress made by the Indian textile industry.

In export also, it has done a good job. But anyway, we are not satisfied with export performance, and that is why we are setting up the Textile Export Corporation and we are going to enter the field of textile export also. But I must say that at the moment we have no proposal to take over the textile mills, and I do not think that stage has yet been reached.

PROF. MADHU DANDAVATE: Many speakers have referred to the Laxmiratan Cotton Mills.

SHRI L. N. MISHRA: I will come to the individual mills later. But that mill and also one mill at Kanpur—perhaps Shri Indrajit Gupta referred to it....

SHRI S. M. BANERJEE: The Laxmiratan Cotton Mills has not been taken over yet in a spite of the fact that this man has not paid bonus for three years and is not remitting the amounts to the provident fund. Non-payment of Government dues is his capital.

SHRI L. N. MISHRA: Shri Banerjee knows it. He had discussed it with me and I had set up an investigation team which had gone into it and also recommended the taking over of a part of the mill. We wrote to the State Government because 49 per cent of the finance has to be found from the State Government and 51 per cent of the finance has to come from the Central Government. We had

some difficulty in that, and we could not take it over, but I assure hon. Members that efforts will be made to take over this mill also.

About fair price shops, the question was raised by Shri Patnaik. Under the revised scheme, into which I do not want to go in detail, we have stopped private trading in the controlled varieties of cloth, and we want to give it to the State Government and the national consumers co-operatives, super markets, etc.

Next, I come to the points made by Shri Virendra Agarwal. It is very difficult to answer the points raised by him. We are at two different poles. He is against nationalisation and he is against any State activity in the economic field. We know his philosophy and we know the philosophy of his party. I will only tell him that the public sector has not done as badly as he has tried to paint. He has raised the question of the National Textile Corporation. I may tell him a word about it. We had 57 mills under the National Textile Corporation and these mills have had an annual production of over Rs. 200 crores of yarn and cloth, and they have provided employment to one lakh workers. The mills under the management of these corporations exported textile goods worth over Rs. 8 crores last year. In respect of 45 mills, detailed modernisation programmes have been framed involving an investment of Rs. 17 crores. The major portion of the outlay has been spent on the mills which are being modernised. In short, the Government is very serious about it and is acting in a phased manner to rehabilitate the undertakings which have come under its control so that the production of textile which is essential for the community is augmented. Therefore, the allegation or charge against the National Textile Corporation is not fair.

Shri Prabodh Chandra is not also happy about the provisions of the Bill. He thinks that we are putting additional power in the hands of the Government which may not be used for the good of the people. But this is the only solution to the conditions under which the sick

[Shri L. N. Mishra]

mills in this industry have fallen, and this Bill is going to help us in restoring the health of the textile industry, and I would request Shri Prabodh Chandra to wait for a little while and see how things move. I may assure him that the textile industry would improve as a result of the provisions of this Bill and there will be less cause for worries in the future. He said that all the mills which are not efficient should be taken over. Of course, there can hardly be any two opinions on this.

Mr Saminathan said that the Government is not serious about nationalisation. But, as I said, we are not going to take over the entire industry at present.

About compensation, I have explained it and I have said that the compensation of Rs. 30,000 is for the 46 mills. It was said by another hon Member that the Central Government should try to pay 51 per cent to the Tamil Nadu Government. This will be done. So far as the 51 per cent to the State Government is concerned, it will be done, and if the Tamil Nadu Government wants to run any of the mills we will hand it over to the Tamil Nadu Government as we have done in the case of Maharashtra, Gujarat, West Bengal and Uttar Pradesh also. If The State Government wants to run the mill, and if they set up a State Textile Corporation, we will have no objection and we will be happy to hand it over to them and help them by giving them 51 per cent of the capital required.

SHRI INDRAJIT GUPTA: Why not have one agency?

SHRI L. N. MISHRA: Shri Natwarlal Patel said that the Durga Cotton Mills in Gujarat should be taken over. The State Government has also recommended the taking over of this mill, and necessary action is being taken in that direction and I will be able to take over this mill also.

Prof. Dandavate said that an artificial scarcity of yarn is being created.

SHRI K. BALADHAND AYUTHAM: Coimbatore): There are two mills which have been closed for ten years Raj Mill of Madura and Seethalakshmi Mill of North Arcot. These sick mills have not been included.

SHRI L. N. MISHRA: I did not know. They might have missed my attention. There is no difference of opinion on principle. I am prepared to take them over if they are closed for ten years. There might have been some slip and they might have missed my attention. If the hon. Member writes to me, he has brought it to our notice in fact, we shall set up an investigation team and we shall take them over. A closure of even three months is enough and so ten years is good enough and it is a good case.

SHRI DINEN BHATTACHARYYA: It is already a dead mill. You must take it as dead if it remained closed for ten years.

SHRI L. N. MISHRA: I said that I would take them over after getting them investigated. I have already taken 57 mills and today this covers 46 mills. I shall have to take those two mills also provided they come within the formula which the Bill envisages, if it has been closed and if they are uneconomic etc. we shall take over those mills.

Prof. Dandavate has raised the question of scarcity of yarn, synthetic and cotton yarn. There is no scarcity. As a matter of fact only yesterday I had written to two Chief Ministers that they have not lifted the quota. The difficulty lies in the distribution stage. We have fixed the quota for each state in the case of cotton fibre and synthetic fibre. If the State Governments do not lift their quota, what can I do? The Textile Commissioner has visited most of the States and discussed with them the system of distribution. I must say categorically that there is no scarcity of yarn in the country. Only a proper distribution machinery should be evolved by the State Governments.

We also said something about clause 11 of the Bill. I agree with him. That provision was meant for only a day or two after the Ordinance was promulgated. The Government has appointed now custodians for all the 46 mills. We were not in a position to have custodians for all the 46 mills overnight and therefore this provision was there. It is now infunctious because custodians have been appointed.

SHRI DINEN BHATTACHARYYA: May I have one information? Some mill owners of these 46 mills have already gone to the Court and have obtained injunctions and stay orders. For these six mills what is the Government contemplating to do? I know one Kanodia mills have gone to the court and the court has given an injunction.

SHRI L. N. MISHRA: I shall look into it. If there is a case I shall try to help you and your union if you have a case there.

SHRI DINEN BHATTACHARYYA: I said some mills have obtained injunctions from the court.

SHRI L. N. MISHRA: I do not think so. You are not correct.

It has been suggested that workers and business experts should be associated with management. While considering the constitution of the Advisory Committee this point will be kept in mind. Though workers' participation in management has been our policy we have not made much headway in these 57 plus 46 mills. It will be my endeavour to see that the workers are also represented on the board of management.

There was one question about holding company and Shri Indrajit Gupta referred to it. We have appointed the Textile Corporation as the custodian-general of all the mills. We shall see its working. We believe that with the nationalised textile corporation as the custodian-general all these mills will be able to do much better. If we feel that it is not working properly we shall consider something else. I agree with Shri Indrajit Gupta that there has to be some

body which should co-ordinate the working of all the mills.

SHRI INDRAJIT GUPTA: Where is it provided that the Custodian-General will be the Textile Corporation of India? It is not there in the Bill.

SHRI L. N. MISHRA: It will be done under the rules. In the ordinance, we mentioned it. When we frame rules, we will take care of that.

MR. CHAIRMAN: The question is:

"That the Bill to provide for taking over, in the public interest, of the management of the sick textile undertakings, pending nationalisation of such undertakings, for the expeditious rehabilitation of such undertakings so that such rehabilitation may subserve the interests of the general public by the augmentation of the production and distribution, at fair prices, of cheaper varieties of cloth, and for matters connected therewith or incidental thereto, be taken into consideration."

The motion was adopted.

MR. CHAIRMAN: We will take up clause by clause consideration. Clause 2. There is an amendment by Mr. Ram-singh Bhai, but he is not here. The question is:

"That Clause 2 stand part of the Bill."

The motion was adopted.

Clause 2 was added to the Bill.

Clauses 3 to 5 were added to the Bill.

MR. CHAIRMAN: To clause 6, there are amendments Nos. 2 to 5 but Mr. Ramsingh Bhai is not here.

The question is:

"That clause 6 stand part of the Bill."

The motion was adopted.

Clause 6 was added to the Bill.

MR. CHAIRMAN: We will now take up the half-an-hour discussion.

SHRI JYOTIRMOY BOSU (Diamond Harbour): Sir, on a point of order. I want to submit something on the BAC Report presented just now.

MR. CHAIRMAN: Not now. We will take up the next item.

HALF-AN-HOUR DISCUSSION

SCRAPPING OF AGREEMENT WITH FOREIGN OIL COMPANIES

SHRI JYOTIRMOY BOSU (Diamond Harbour): Sir, I will just now say why the agreement should be scrapped, why the business of the foreign private oil tycoons should be nationalised and what is the class character of the government and then I will try to substantiate my argument.

There has been fantastic increase in production even without the permission of the government. They do not think it even necessary to seek the permission of the government. I would like to know what comments Shri Gokhale has got to make on this point. Here is a report of the Estimates Committee for 1967 which says:

"The original and existing capacity of the above coastal refineries in the private sector is given below:

(million tonnes)

	Original capacity	Present capacity (1967)
Burmah Shell Refinery, Bombay.	1.50	3.75
ESSO Refinery, Bombay.	0.92	2.50
Caltex Refinery, Vishakhapatnam.	0.50	1.55
	2.92	7.80

It will be seen that the rated capacity of the above three Refineries has been increased by more than 2½ times over the years.

Then, it says:

"The Committee learn with concern that expansion of the refineries in the private sector was carried out without the approval of Government inasmuch as Government's permission was not sought for capital investment for this purpose. The Committee are doubtful that the capacity of the refineries can be increased to about two times with minor modifications and improvements only unless the additional capacity was contemplated and built into the original plant and equipment itself."

An agreement with private foreign oil companies is nothing but an agreement of slavery.

I would read out from the same Estimates Committee Report which says:

"There are three agreements with foreign oil companies, namely, agreement dated 30th November, 1951 with Standard Vacuum Oil Company (now Esso Standard Eastern Inc.), agreement dated 15th December, 1951 with Anglo-Saxon Petroleum Company Ltd., and Burmah Oil Company Ltd. (Burmah-Shell Refinery) and agreement dated 28th March, 1953 with Caltex (India) Ltd., (Caltex Refinery). Under these agreements and the revisions subsequently agreed upon, the following capacities were licensed...."

The figures are given here. Further, it says:

"Besides the above the respective agreements contained the assurances that for a period of 25 years from the commencement of full-scale refinery operations, the same shall not be acquired nor its operation taken over by the Government and, if it is acquired thereafter a reasonable compensation shall be paid...."

[Shri. Jyotirmoy Bosu]

Even after 25 years, they have not been touched.

"An assurance was also given that in the matter of taxation the Indian company will not be treated less favourably than if it would have been operating in India as a subsidiary of the parent foreign company."

Can you think of any such thing that they allow a foreign tycoon to come and dictate the terms?

Again, it says:

"Among the various assurances and concessions granted to the oil companies, the following two are very important:—

(i) Rights of the oil companies regarding import of crude oil; and

(ii) Pricing of the petroleum products on the basis of import parity."

Then, it says:

"The Oil companies have been given the freedom to make arrangements for importing crude oil from sources of supply of their own selection subject to the obligation to use under certain conditions crude oil produced in India. Assurance has been given to the companies for release of foreign exchange as required for the purpose of importing crude oil."

What sort of an agreement is this, I cannot say. Unless this Government has completely surrendered itself at the feet of a foreign private sector oil tycoon, this sort of agreement could not have been agreed upon. What is the outcome is dangerous. It says:

"Another stipulation that was made was that they would be allowed to bring in crude from their own sources. This is a very important consideration with the refinery companies. They are more or less subsidiaries of other big oil companies in the world. There are eight big international oil companies—one of them is the British Petroleum Company and another is the

Royal Dutch Shell Company. This is partly owned by the Dutch and partly owned by the British...."

This is the position. They have completely surrendered to foreign monopoly interests.

The most serious thing is the volume of remittances and head-office expenses in respect of these Oil Companies. In reply to Unstarred Question No. 3026 dated 5th December, 1972, they have given the figures. The figures are in thousand rupees. M/s Burmah-Shell Oil Storage and Distributing Co. of India—remittances during 1969, 1970 and 1971 are Rs. 561,00; Rs. 860,00 and Rs. 150,41 respectively and head-office expenses during 1969, 1970 and 1971 are Rs. 25,33; Rs. 23,52 and Rs. 25,33 respectively. It is increasing. So is the case with M/s Burmah-Shell Refineries Ltd., M/s Caltex India Ltd., M/s Caltex Oil Refining India Ltd., M/s Esso Eastern Inc. and M/s Esso Standard Refining Co. of India. All these figures show that they have been draining out an enormous amount of money out of this country.

Then, it says:

"The Working Group on Oil Prices in their Report (1965) have observed that the total "amounts paid in dollar/Sterling by the different companies during the five years from 1960 to 1964 towards the cost of their New York/London offices were as follows:—

"Year	Total (in million rupees)
1960	11.449
1961	11.858
1962	9.297
1963	9.232
1964	10.734"

That is the position. There has been a great plunder going on, and the Government has been a silent spectator to it.

The Estimates Committee have observed:

"The Committee regret to observe that in spite of the recommendations made by the Oil Prices Enquiry Committee in 1961 and the Working Group on Oil Prices in 1965, heavy payments, amounting to approximately Rs. 1.6 crores are being made annually to their overseas offices by the various oil companies on account of services rendered. The payments made by the Burmah Shell and ESSO on this account are very heavy. The Committee see no justification for the payment of such heavy expenses. They are not convinced that such heavy payments are covered by the agreements concluded with these refineries. The Committee recommend that Government should take effective measures to drastically reduce payments on this account which would result in saving of foreign exchange considerably."

As far as I know, nothing was done, and nothing will be done as long as this Government remains in power.

Regarding prices of crude, let us see how they have increased. The increase by the oil-producing and exporting countries....

MR. CHAIRMAN: Please do not go into details, and try to conclude.

SHRI JYOTIRMOY BOSU: These are the facts. I will take a little more time.

"The increases that have taken place as a direct result of the concerted action taken by the OPEC and otherwise are summarised below:

Date	Cents/bbl.
November 1970	7
February 1971	27
June 1971	6
July 1971	5
January 1972	11.7
TOTAL	56.7 cents/bbl"

Then it says:

"Between them the three foreign oil companies are currently importing 7.7 million tonnes of crude oil each year. This is equal to a little over 56 million barrels of crude oil per annum. An increase in the crude oil price by every cent, therefore, results in additional foreign exchange outgo of \$ 5,62,000."

Then it says:

"Our requirement of crude oil for 1970 was 18.46 million tonnes. Sources of supply were ONGC 3.63 million tonnes, Oil India 3.07 million tonnes, Assam Oil Company 0.11 million tonnes, making a total of 6.81 million tonnes. The estimated requirements of crude oil for the coming years are as follows:—

1971	20 million tonnes.
1972	20.9 million tonnes
1973	24.3 million tonnes
1974	26.5 million tonnes.

"We can go beyond these dates also for projection. But I think it would be advisable at this stage to restrict the projections upto the end of the Fourth Plan. Against these requirements the indigenous production will be like this:—

1971	7.15 million tonnes
1972	7.80 million tonnes.
1973	7.80 million ton
1974	8.80 million tonnes.

"The degree of self-sufficiency that we shall attain would be:

1971	35.7 per cent.
1972	37.3 per cent.
1973	32.1 per cent.
1974	33.2 per cent"

That is the position, Sir. The Committee on Public Undertakings have very rightly pointed out:

"The Committee note that while the requirements of crude oil would increase from 18.46 million tonnes in

[Shri Jyotirmoy Bosu]

1970 to 26.50 million tonnes in 1974 the degree of self-sufficiency in terms of indigenous production as compared to import would decrease from 36.9 per cent in 1970 to 33.2 per cent in 1974. For filling up the gap, the Committee note, the country is dependent on major international oil companies, whose role in this regard has not always been in the best interests of the country. The Government is often faced with a tug of war for fixing price of the crude oil to be imported; in fact the prices of crude have been sought to be revised upwards no less than four times by these Oil Companies since December, 1970. The import bill in terms of foreign exchange is estimated to increase from Rs. 94 crores in 1969-70 to over Rs. 186 crores in 1974-75. The Committee also note that during the first three years of the Fourth Plan, there has hardly been any increase in the production of crude oil which has been at around 3.6 million tonnes from the oil-fields of Oil and Natural Gas Commission."

Sir, the Minister is bragging that nationalisation....

MR. CHAIRMAN: Please do not use such language. You withdraw that word.

SHRI JYOTIRMOY BOSU: I withdraw it and substitute it by saying that the Minister is beating his own drums by saying high-sounding hollow things.

The Petroleum and Chemicals Minister said in the Rajya Sabha that the question of nationalising the three foreign oil companies was still open. This was on 14th November 1972. This is nothing but a hollow statement. That means nothing at all. The remittances *vis-a-vis* the capital of the oil companies in the year 1962 was:—

Burmah Shell . . .	Rs. 39.99 crores.
ESSO . . .	Rs. 3.97 "
Assam Oil Co. . .	Rs. 1.85 "
Indo-Burmah Petroleum Co. . .	Rs. 0.03
Caltex . . .	Rs. 17.76
TOTAL	Rs. 90.60

MR. CHAIRMAN: Now, please conclude.

SHRI JYOTIRMOY BOSU: So, the total foreign investment in the petroleum industry is of the order of Rs. 210 crores, and the game of joint sector is highly propagated. It is said that under the new oil policy, which is on the anvil, the emergence of a joint sector in the oil industry is regarded as a certainty. The State-owned Oil and Natural Gas Commission has not discovered any new oil field during the last five or six years. In spite of that you go on beating your drum.

There was a techno-economic study conducted by a Soviet team of experts. They made a techno-economic feasibility study of India's oil reserves and it has virtually ruled out the possibility of the country being self-sufficient in oil in the foreseeable future. The team which came to India in August 1970 and submitted its findings sometime ago, has held that the country can at best hope to establish crude reserves of the magnitude of 64 million tonnes by 1980. This means an annual production of about 13 million tonnes at a time when the country's consumption of crude petroleum would be of the order of 50 million tonnes annually. The production relates only to the Oil and Natural Gas Commission.

I do not want to take more time of the House. I only want to say that these foreign oil companies are even allowed to make profit out of our own Indian Oil Company's products. Such is the arrangement with the foreign oil companies.

I want to say that this Government is neither capable of looking after the interests of the country nor its economic interests and they have surrendered because of the hon. Minister's surrender at the feet of the foreign oil monopoly companies. If they do not scrap the agreement, they will completely mortgage this country to the foreign oil monopolists.

Let the Minister reply to the points I have raised.

श्री रामावतार जाल्जरी (पटना) : सभापति, महोदय, समस्या बहुत ही गम्भीर है। मेरा भी खयाल है कि इस मामले में सरकार की नीति विदेशी तेल कम्पनियों के सामने घुटने टेकने की रही है। इस बात को ध्यान में रखते हुए मैं निम्न सवाल पूछना चाहता हूँ

गत तीन वर्षों में एस्सो, बर्मा शील, कालटेक्स और स्टैंडर्ड वैक्यूम कम्पनियों ने अलग अलग कितना वार्षिक मनाफ़ा कमाया है ? क्या इन कम्पनियों के दबाव में आकर सरकार पिछले दिनों पेट्रोल और केरोसीन प्रायल की कीमत बढ़ाती रही है; अगर नहीं, तो पेट्रोल और मिट्टी के तेल की कीमतों में वृद्धि का क्या औचित्य है क्या वर्तमान गड़बड़ियों को देखते हुए और विदेशी तेल कम्पनियों की राष्ट्र-विरोधी कार्यवाहियों को ध्यान में रख कर सरकार उनका राष्ट्रीयकरण करने का विचार रखती है या नहीं ? अगर नहीं तो क्यों ? सरकार के सामने इस रास्ते में कौन सी कठिनाई है ?

मालवीया कमेटी की सिफारिशें थीं, उन सिफारिशों की मुख्य मुख्य बातें क्या हैं और उनके बारे में सरकार का री-एक्शन क्या है ?

आखिर मैं मैं यह जानना चाहता हूँ उन्होंने प्रश्न के जवाब में कहा है कि तेल कम्पनियों के सुझावों पर विचार किया जा रहा है विस्तार के साथ। तो यह विचार आप कब तक कर लेंगे और इस सिलसिले में आप कब तक अन्तिम निर्णय ले लेंगे ?

*SHRI M. KATHAMUTHU (Nagapattinam): Mr. Chairman, Sir, in reply to a question on 5th December, 1972, the hon. Minister stated that certain offers of three foreign oil companies, which were received by Government, were under the consideration of Government. On 19th November, 1971 the then Minister for Petroleum

and Chemicals, Shri P. C. Sethi, said that the foreign oil company agreements would not stand in the way of nationalisation of the foreign oil companies. From the present indications, it appears that the joint sector idea is being thought of. I am afraid this is a very dangerous trend.

MR. CHAIRMAN: Please do not make a speech; put a question.

SHRI M. KATHAMUTHU: I am coming to the question. In 14 years the foreign oil companies with a paid-up capital of just Rs. 22 crores have earned a profit of 1048 crores of rupees. I would like to know from the Government whether they would allow the foreign oil companies to go on making such huge profits. I would also like to ask whether the Government were not aware of the fact that these foreign oil companies are smuggling their reserves from out of our country in a clandestine manner.

Sir, the foreign oil companies raised the prices of oil in 1970 and 1971 and the Government agreed to the rise. But in 1972 when they wanted to raise the price of oil, Government objected to the rise. The foreign oil companies in a challenging mood started retaliating against the authority of Government. Sir, they stood in the way of our public sector refinery companies getting crude from Iraq. Not only that; these companies engaged themselves in sabotage activities when our country was facing a war in 1965 and 1971.

MR. CHAIRMAN: You have already put two questions; please put the third question if you like.

SHRI M. KATHAMUTHU: Finally, Sir, I would like to ask whether the Government are aware of the dangerous implications of the joint sector idea and why Government are not scrapping the agreements with the foreign oil companies and nationalising these companies.

SHRI S. M. BANERJEE (Kanpur): How long is the Government going to pursue this policy of appeasement with the foreign monopoly oil companies and oil cartels? Is it a fact that they are using double-barelled gun, one bullet aiming at the chest of the Government with a view to increase the prices, and the other at the consumers, and loot the people of the country, to repatriate the profits to their own countries abroad? When is the Government going to make a final decision regarding the nationalisation of the oil companies?

SHRI K. BALADHANDAYUTHAM (Coimbatore): My questions are these:

(1) Is the Government aware that these companies are now trying to slacken production and to block our imports from abroad of crude from Iraq and other countries?

(2) Is the Government aware of the sabotage in supplies indulged in by these companies during the two emergencies in 1965 and 1971?

(3) Is it not a fact that this offer is only a way of their perpetuating their own exploitation? When is the Government going to scrap the agreement and nationalise all these oil companies?

THE MINISTER OF LAW AND JUSTICE AND PETROLEUM AND CHEMICALS (SHRI H. R. GOKHALE): I am grateful to the hon. Member who has initiated this discussion and also to the other Members who have participated in the discussion for highlighting the attention of this House and, through this debate, of the whole country, on a question which undoubtedly is of vital importance.

I shall deal with the specific points which have been raised in the debate. But I had occasion to refer to these aspects several times on different occasions in both the Houses and as recently as when I replied to the question which the hon. Member had put, the answer to which the hon. Member thought was evasive, with which I do not agree, with great respect for him. It was not evasive, because the last answer

did make the position clear as to where the whole thing stands at the moment. The answer was:

"The offers received from ESSO and Burma Shell for majority-equity participation by Government in their refinery and marketing operations...."

Now comes the more important thing, namely:—

"...in replacement of the existing refinery agreements".

Then, the answer proceeded further to say:

"...vis-à-vis other alternatives available to Government are under detailed scrutiny and consideration."

This arose because the Essos offer, to which all hon. Members have practically referred in this debate, came as recently some time in October. It was for the first time that in the offer itself, if any one of the two alternatives which they had made was accepted by Government, the inevitable consequence was that the refinery agreements would be scrapped. Therefore, there are ways and ways of scrapping the refinery agreements.

You can either scrap them by law unilaterally, at the same time keeping in mind the fact that these are agreements and as such they have validity in law or you can scrap them or have them removed by other methods. And the two other methods, none of which Government has accepted yet but which Government are investigating, are the methods which are proposed for discussion by the Esso company and by Burmah Shells.

I am in a position to say that Government has not decided it as a matter of policy that we would enter into equity participation with Essos. Also, it is their offer that they would like to participate with us on the basis of 74:26 giving control of the management on the basis of the proportion in which the capital is held by Government and Essos, then also agreeing that in the event of a final arrangement being reached, the refinery agreement will

be scrapped, meaning thereby that the present rather objectionable—here, I must agree with the hon. Member that it is an objectionable and somewhat distasteful provision in the agreement whereby they are entitled to bring in their own crude through their own source—this provision will also go; they have agreed that in the event of an arrangement being arrived at, this will also go.

I do agree that it is very bad that at that time the agreement provided that there would be no nationalisation for 25 years. I do agree that it did provide for the clause which I said is an onerous and very distasteful clause. I have said so many times before in Parliament that they will be entitled under this clause to import their own crude through their own sources.

SHRI JYOTIRMOY BOSU: How did Government sign such an agreement?

SHRI H. R. GOKHALE: The circumstances in which the agreement had been signed also cannot be lost sight of. They were signed many years ago. As I said, the first of these agreements will come to an end in 1979. But I know that we are not in that position where we shall say that we shall wait till 1979. There is one point on which there is unanimity of opinion and that is this that we have to devise a method for seeing that the Government acquires adequate and effective control on the operations of these oil companies, both in the marketing and in the refinery fields.

Hon. Members will also be happy to know that in the course of what has been achieved in all these years, we are already controlling to the extent of 60 per. cent of the total refinery capacity in the country....

SHRI JYOTIRMOY BOSU: They have doubled their donations to the party funds.

SHRI H. R. GOKHALE: It is no use referring to those things, because these are facts for which there is no answer and hence certain other observations are being made.

As I was saying, we are controlling nearly 60 per cent or so of refinery capacity of these companies.

18 hrs.

Therefore, all that I can say today is that Government have, in pursuance of the decision to which I have referred earlier, set up a machinery for eliciting information for purpose of ascertaining data and facts which if gathered would help us to come to a positive conclusion as to which of the three alternatives is the best. This is in spite of the fact that that sentence is not very much liked by Shri Jyotirmoy Bosu. I would again point out that the alternative of nationalisation is not ruled out. We want to find out what is the best method of doing this. This can be determined only after ascertaining the facts from the various companies.

The whole object is to discuss for the purpose of obtaining full details of the assets, reserves, liabilities and so on to arrive at a realistic evaluation.

SHRI S. M. BANERJEE: Are not these details available with Government?

SHRI H. R. GOKHALE: There is a lot of difference between ascertaining facts by discussion and relaying merely on the published balance sheets and profit and loss accounts. The hon. Member has enough experience to know that there is much hidden behind these documents which have to be found out; we should not blindly accept what is stated in these documents of a company. If Government were to rely only on these documents, they would be charged with accepting these figures as gospel truth. That is precisely what Government do not want to do. Government have to verify whether these facts and figures available in their published statements are correct or not, or to what extent they are correct or incorrect, and what is the actual, real position so that we can make up our mind.

I also agree that the various companies have been operating at higher than the licensed capacity levels.

SHRI JYOTIRMOY BOSU: 2½ times.

SHRI H. R. GOKHALE: I do not want to go into the figures, but broadly I accept the suggestion that they have been operating at a level higher than the licensed capacities. I do not agree with the figure he mentioned; given time, I would have given all the figures.

SHRI JYOTIRMOY BOSU: What action have you taken against them? Why did you not prosecute the oil companies for exceeding their licensed capacities?

SHRI H. R. GOKHALE: We have to set our demand for products in this country. That this demand has been increasing from year to year is a fact which our own refining capacity and to see that cannot be disputed. We have to build up all our product demands are met by refining in our own refineries. Till then, we have no alternatives; either to stop the extra refining they are doing, which we can in law, or import products, which is more expensive and not in the interest of the country. Therefore, all these factors have to be taken into account by Government in a pragmatic manner. Not that we like that they have exceeded licensed capacity; we certainly do not like it. But the fact remains that we have not amended their licences in spite of the fact that they have been operating at higher levels. We have objected to it on occasions. But when we deal with a situation where the need for meeting the demand for products in the country is urgent, we cannot go merely by the letter of the law but have to take account of facts.

SHRI JYOTIRMOY BOSU: On a point of order. You have surrendered to the oil companies who gave a crore of rupees to our election fund.

SHRI H. R. GOKHALE: There is no use saying these things, though I know

that his whole object was to say . these things.

SHRI JYOTIRMOY BOSU: We want to know the number of the notes given to....

MR. CHAIRMAN: No, no. Let the hon. Minister continue. He need not take notice of these things.

SHRI H. R. GOKHALE: I have explained the position.

With regard to repatriation of profits and home office expenses, in the last few years, steps have been taken to exercise greater and more rigorous control over the same and I am in a position to say that with regard to office expenses, figures for the last three years show that the repatriations have been substantially curbed and controlled, and latter repatriation has been allowed.

That is not only in the matter of these home office expenses and other things but also in matter of repatriation of profits.

A question has been asked—more or less. the same question was raised by many hon. Members—as to how long it will take. It is very difficult to tell in precise terms how many months it will take, but all that I can assure the house is that we have taken up this matter in right earnest and we want to finish that at the earliest possible opportunity without any avoidable loss of time.

18.06 hrs.

There are the answers which I wanted to give.

18.06 hrs.

(MR. SPEAKER in the Chair)

ORAL ANSWERS TO QUESTIONS

इन्दौर-चित्तौड़गढ़ मीटर-गेज लाइन को
बड़ी लाइन में बदलना

*502. श्री फूल चन्द वर्मा :
क्या रेल मंत्री यह बताने की कृपा
करेंगे कि :

(क) क्या इन्दौर-चित्तौड़गढ़ मीटर
गेज लाइन को बड़ी लाइन में बदलने हेतु
सर्वेक्षण कराने का निर्णय लिया गया है;

(ख) यदि हां, तो तत्संबन्धी मुख्य
बातें क्या हैं; और

(ग) यह सर्वेक्षण कार्य कब तक पूरा
हो जायेगा ?

THE DEPUTY MINISTER IN THE
MINISTRY OF RAILWAYS (SHRI
MOHD. SHAFI QURESHI): (a) No,
Sir.

(b) and (c). Do not arise.

फूलचन्द वर्मा : अध्यक्ष महोदय, मैं
आपके माध्यम से जानना चाहता हूँ कि
इन्दौर-चित्तौड़गढ़ मीटर-गेज लाइन को बड़ी
लाइन में बदलने के सम्बन्ध में जो निर्णय लिया
है और "नहीं" में उत्तर दिया है तो "नहीं"
में निर्णय लेने के क्या कारण हैं? साथ ही मैं
यह भी जानना चाहता हूँ क्या सरकार को

कोई ज्ञापन और प्रतिवेदन भी इस सम्बन्ध में
वहाँ के नागरिकों से मिलें हैं? यदि हां, तो
उन्हें अस्वीकार करने के क्या कारण हैं?

THE MINISTER OF RAILWAYS
(SHRI T. A. PAI): The existing capa-
city of various sub-sections of
Chittaurgarh-Indore section is gene-
rally adequate to cater to the require-
ments of the present as well as anti-
cipated traffic and this is now being
augmented to the extent necessary by
the cheaper line capacity works such
as the provision of additional facili-
ties at Chittaurgarh yard, four cross-
ing stations, additional loops at three
stations and extensions of loops at
three stations, etc. Transshipment faci-
lities are also provided at Ratlam. The
idea is to make use of the existing
capacity to the maximum advantage
before we can think of converting it.
In the meanwhile also it is not being
considered at this stage as it would
disrupt north-south metre gauge con-
nection.

श्री फूलचन्द वर्मा : अध्यक्ष महोदय,
इन्दौर-चित्तौड़गढ़ जो मीटर-गेज लाइन
है वह पहले तो बहुत धीरे चलती है, पैसेंजर
ट्रेन है, स्थान स्थान पर रुकती है तथा साथ
ही उसमें गुं बागड़ी भी बहुत अधिक होती है।
मैं एक बात और माननीय मंत्री जी के ध्यान
में लाना चाहता हूँ और जानना चाहता हूँ
कि रेलवे बोर्ड के एक प्रवक्ता रतलाम पधारे
थे तो उन्होंने प्रेस कान्फ्रेंस में कहा था कि
इस लाइन को हम ब्राड-गेज में शीघ्र ही
परिवर्तित करने जा रहे हैं और इसके सम्बन्ध
में रेलवे मंत्रालय ने निर्णय लिया है तो मैं
जानना चाहता हूँ कि इनके अफसर जनता में
जो घोषणायें करते हैं वह घोषणायें भ्रामक
और जनता को धोखा देने वाली ही होती हैं
या उनके पीछे कोई तथ्य भी होता है? यदि.

इस सम्बन्ध में इनके अधिकारियों ने कोई घोषणा की है और आज मंत्री महोदय यहां पर इन्कार कर रहे हैं तो मैं जानना चाहता हूं कि जिस अधिकारी ने प्रेस कान्फ्रेंस में इस प्रकार की घोषणा की है उसके खिलाफ कोई ऐक्शन लेना चाहते हैं या नहीं? साथ ही भूतपूर्व रेलमंत्री श्री हनुमन्तैया जी ने सदन में आश्वासन दिया था कि देश में जितनी मीटर-गेज लाइनें हैं उन सभी को ब्राड गेज में परिवर्तित करेंगे तो यह लाइन उस योजना के अन्तर्गत आती है या नहीं?

SHRI T. A. PAI: In preference to any statement that they hear from my officers, they should rely on my statements as to the programme that we are going to adopt. It is very difficult to say whether any of my officers has made such a statement. I am not prepared to admit it unless it is brought to my notice.

श्री कलू चन्द बर्मा : अध्यक्ष महोदय, रेलवे बोर्ड के प्रवक्ता ने जो प्रेस कान्फ्रेंस में यह बात कही थी तो मैं उस समय वहां पर था और अखबारों में भी यह समाचार छपा है लेकिन अब मंत्री महोदय कहते हैं कि ऐसी कोई बात नहीं है तो या तो मंत्री महोदय का कथन सत्य है या इनके अधिकारी का कथन सत्य है।

अध्यक्ष महोदय : आप जरा धीरे से बोलिये।

श्री अटल बिहारी वाजपेयी : यदि मंत्री महोदय यह कहें कि इनके अधिकारी ने ऐसा वक्तव्य नहीं दिया तो बात समझ में आ सकती है लेकिन मंत्री महोदय का यह कहना कि हमारे अधिकारी क्या कहते हैं उसकी फिक्र मत करो, मैं क्या कहता हूं उसकी फिक्र करो तो यह अपने अधिकारियों पर अनिश्वास प्रकट करना है।

MR. SPEAKER: The minister should not have said it.

SHRI T. A. PAI: There are two or three allegations. My officer made a

statement which came in the press. It may be true or it might not be true. All I can say is, when the question is put to me and I have made a statement, that is more reliable.

श्री भागीरथ भंडार : मंत्री महोदय ने बताया कि इस रेलवे लाइन को बड़ी लाइन में परिवर्तित करने की कोई योजना नहीं है तो मैं जानना चाहता हूं क्या इस लाइन के अन्तर्गत इन्दौर से माहू तक छोटी लाइन है और माहू में मिलिंद्री कम्प है और पिछली बार हनुमन्तैया जी ने बताया था कि चूंकि वहां पर मिलिंद्री कम्प है इसलिए इन्दौर से माहू तक बड़ी लाइन में परिवर्तित करने की कार्यवाही चल रही है।

अध्यक्ष महोदय : आप प्रश्न क्या कर रहे हैं?

श्री भागीरथ भंडार : मैं यह जानना चाहता हूं कि पूरी लाइन को परिवर्तित करने की कोई योजना नहीं है तो क्या माहू से इन्दौर तक बड़ी लाइन में परिवर्तित करने की योजना शासन के विचाराधीन है या नहीं?

SHRI T. A. PAI: The section between Indore and Mhow, a distance of 21 KM is now being considered for provision of a parallel BG line. Apart from that on a portion of Ajmer-Khandwa South and north-south link between Ajmer and Chittorgarh, a distance of 186 KM, the question of providing a parallel BG line is under investigation as part of the surveys for the Delhi-Ahmedabad MG to BG conversion referred to earlier. In view of this possibility, the Chittorgarh-Indore section might not be taken up for conversion.

SHRI MADHURYA HALDAR: I want to know whether emphasis is laid on the opening of new lines in preference to conversion of MG to BG or NG to MG?

MR. SPEAKER: This is a specific question about conversion of Indore-Chittorgarh section. You are side-tracking it.

SHRI MADHURYA HALDAR: They must have some policy.

श्री हुकमचंद क बाय : अध्यक्ष महोदय, मैं आप की अनुमति से मंत्री महोदय से जानना चाहता हूँ कि भूतपूर्व रेल मंत्री श्री हनुमन्तैया ने जो यह कहा था कि जितनी भी मीटरगेज लाइंस हैं अर्थात् जितनी भी छोटी छोटी लाइंस हैं उन को बड़ी लाइंस में तब्दील कर देंगे तो वह जो शासन की घोषणा थी उस के अनुसार इस समय कितना प्रतिशत कार्य प्रारम्भ हो गया है ? उस पर सरकार ने अब तक जो प्रयास किया है उस में कितना पैसा अलग से रखा है और इंदौर व अजमेर की जो लाइन है इस का नम्बर कब आने वाला है ?

SHRI T. A. PAI: My predecessor had announced that by and by all the metre-gauge would have to be converted into broad-gauge. But we have about 25,000 Km. of metre-gauge and it naturally take a long time before all that is converted into broad-gauge. We cannot afford to throw away all the rolling-stock and undertake this. But wherever, there are traffic bottle-necks, with a view to eliminating the bottle-necks due to transshipment, eliminating delays and high cost of metre-gauge operations, ensuring smooth flow of traffic and providing adequate capacity for movement of anticipated increase in traffic, on these considerations, the metre-gauge is taken up for conversion into a broad-gauge. Out of about 25,000 Km., in the Fourth Plan, it was decided to convert 3200 Km. at a cost of Rs. 230 crores. Ernakulam-Trivandrum, the parallel broad-gauge line from Guntakal-Dharmavaram....

Mr. SPEAKER: He is only asking about the Indore-Chittaurgarh metre-gauge line.

SHRI T. A. PAI: It is outside 3200 Km.

MR. SPEAKER: That was the only part of the question in which he was interested.

राज्यों के लिए हलके डीजल तेल का कोटा निश्चित करने का आधार

* 503. श्री महा दीपक सिंह शर्मा : क्या पेट्रोलियम और रसायन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या केन्द्रीय सरकार राज्यों को हलके डीजल तेल का कोटा देती है ;

(ख) यदि हाँ, तो कोटा निश्चित करने का आधार क्या है ; और

(ग) तत्सम्बन्धी, राज्यवार, ब्योरा क्या है ?

THE MINISTER OF LAW AND JUSTICE AND PETROLEUM AND CHEMICALS (SHRI H. R. GOKHALE): (a) No, Sir. The distribution is made directly to the consumers on the basis of demands in various areas.

(b) and (c). Do not arise.

श्री महा दीपक सिंह शर्मा : मंत्री महोदय ने बतलाया है कि वह मांग के आधार पर उप-भोक्ताओं को हल्का डीजल तेल देते हैं। लेकिन हकीकत यह है कि हलके डीजल के तेल के जितने डिपोज हैं वे बड़े बड़े शहरों तक ही महदूद हैं जबकि इस तेल का इस्तेमाल शहरों से लगा कर छोटे छोटे नगरों और कस्बों तक होता है। अब जब देहाती क्षेत्र की जनता हल्का डीजल तेल खरीदने आती है तो एक तो उनसे कीमत के मामले में शोषण होता है और दूसरे तेल भी उन्हें मिलावटी दिया जाता है। इस शोषण को बचाने के लिए क्या मंत्री महोदय के पास कोई ऐसी योजना है जिससे कि शुद्ध तेल ग्रामीण क्षेत्र की जनता को वह दिला सके ? क्या मंत्री महोदय इस तरह का आश्वासन देंगे ?

SHRI H. R. GOKHALE: I must say with all respect to the hon. Member, it is not true that the organisation for the supply of Light diesel oil is confined only to the big cities. Actually, the consumption pattern varies so

much, the variation is so sharp, that we have to adjust ourselves to the demand for consumption in all areas, including the rural areas. It depends on various factors like availability of electricity, good or bad monsoons, railway facilities and things like that. Therefore, to meet the demand particularly of the rural population what are called the barrel outlets have now been established in rural areas to see that rural population is served.

श्री महादीपक सिंह शक्य: अध्यक्ष महोदय, मैं मंत्री महोदय से जानना चाहूंगा कि क्या उन को ऐसी शिकायतें प्राप्त हुई हैं जिनमें यह निवेदन किया गया है कि हल्के डीजल तेल को पेट्रोलियम अथवा मिट्टी के तेल में मिश्रित किया जाता है, यदि हां, तो सम्बन्धित व्यक्तियों के विरुद्ध क्या कार्यवाही की गई है ?

क्या यह सही है कि भूतपूर्व मंत्री जी को इस प्रकार की शिकायतें प्राप्त हुई थी, यदि हां, तो उन को रोकने और समाप्त करने के लिए मंत्री महोदय क्या प्रयत्न कर रहे हैं ?

अध्यक्ष महोदय : माननीय सदस्य का प्रश्न महज क्राइटेरिया फौर फिक्सिंग दिस कोटा और स्टेट-बाइजब्रेक-अप को लेकर था जबकि माननीय सदस्य इस में मिलावट आदि करने की बात करने लगे हैं। यही कारण है कि हम क्वेश्चन औरर में अधिक प्रश्न नहीं निबटा पाते हैं।

श्री फूलचन्द वर्मा : मंत्री महोदय का उत्तर तो आने दें।

श्री महादीपक सिंह शक्य : मेरे प्रश्न का उत्तर नहीं मिला है।

अध्यक्ष महोदय : मैं कह चुका हूँ कि वह प्रश्न यहां इस मौजूदा मूल प्रश्न के सम्बन्ध में पैदा नहीं होता है।

SHRI K. S. CHAVDA: May I know what was the demand of light diesel oil from the State of Gujarat and to what extent Government has met this demand for the year 1972?

SHRI H. R. GOKHALE: If the hon. Member had listened to my earlier answer. I have said that allocations are not made on the basis of State quotas for the reason that there is such a big variation in the consumption pattern from year to year; even in one year there is a sharp rise or a sharp fall. (Interruption) I am aware of your question and that is why I am telling you all this. It is impossible to say that the Gujarat State will get so much or that any other State will get so much.

SHRI K. S. CHAVDA: What was the demand?

SHRI H. R. GOKHALE: I do not have the figures now.

SHRI B. K. DASCHOWDHURY: In order to improve the supply position particularly in the rural areas, may I know from the Government whether they have chalked out any particular scheme so that the rural people may be supplied diesel oil whenever they need? In most cases, they are not getting adequate supplies. Some of the traders are making large amounts of money out of this....

MR. SPEAKER: You are asking the same question which Mr. Shakya asked.

SHRI H. R. GOKHALE: I have answered this question.

SHRI RAJA KULKARNI: Apart from the States, does Government supply directly to some organisations or industries and if so, which are they?

MR. SPEAKER: Please tell me whether you think that it is a relevant question.

SHRI RAJA KULKARNI: I wanted to know this. Apart from fixing up quotas to the States for the supply of light diesel oil, does Government supply to some industries or organisations directly and if they are, which are they?

SHRI H. R. GOKHALE: My answer covers this question also. We supply to consumers. Industry is also a consumer. Naturally it is supplied to industry.

Representation by Bhartiya Rail Vid-yuta Karamchari Sangh to General Manager, Western Railway

***505. SHRI PRAVINSINGH SOLANKI:** Will the Minister of RAILWAYS be pleased to state:

(a) whether the Bhartiya Rail Vid-yuta Karamchari Sangh has submitted a representation to the General Manager, Western Railway in regard to cancellation of trade test of ELF (HS) TL Grade Rs. 130-212 held in 1970 vide its letter No. BRVKS/Branch/Re/2/72 of 6-7-72 and to the Minister of Railways vide BRVKS/I/Rep/8-72 of 17-8-1972;

(b) if so the gist thereof; and

(c) the action taken by Government on each of the points referred to therein?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). Yes, Sir. The main contention was that the staff had not been called up for the test in order of seniority, with the result that some junior staff had secured promotion over the heads of their seniors.

(c) This contention was found to be incorrect.

SHRI SOMCHAND SOLANKI: May I know from the hon. Minister, out of the representations submitted, which are the ones which are being considered by the Government?

SHRI MOHD. SHAFI QURESHI: I have not been able to follow....

SHRI SOMCHAND SOLANKI: Out of the representations submitted....

MR. SPEAKER: Kindly sit down for a while. You will have to be identified whether you are the proper person.... I think you are not the proper person. Where is the other Solanki?

SHRI SOMCHAND SOLANKI: I am 50 per cent Solanki.

MR. SPEAKER: You are the elder Solanki.... It has come already.

कभी कभी कुछ घोखा हो जाय करता है।

Grant of Second Cyclone Advance to Railway Employees, Khurda Road Division (South Eastern Railway)

***507. SHRI ARJUN SETHI:** Will the Minister of RAILWAYS be pleased to state:

(a) whether Government have sanctioned second cyclone advance to Railway employees in the Khurda Road Division of the South Eastern Railway;

(b) if so, the amount of advance sanctioned to each employee and

(c) if not, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Yes, Sir.

(b) An advance equal to three months' pay not exceeding Rs. 500 recoverable in 24 equal monthly instalments is admissible to every employee subject to adjustments in respect of any unrecovered portion of an earlier flood/cyclone advance.

(c) Does not arise.

SHRI ARJUN SETHI: I am thankful to the hon. Minister that they have given advances to the employees. But I understand that the advances were given in a peculiar manner. So, I want to know why they have adopted a criterion which was different from the one adopted by other Departments.

SHRI MOHD. SHAFI QURESHI: We have not ~~adopted~~ a different criterion for giving aid to these sufferers. It is the same criterion which was adopted by other Departments while giving relief to the affected areas.

**Rehabilitation Rules Notified by
Rajasthan Government regarding
Pong Dam Oustees**

*508. PROF. NARAIN CHAND PARASHAR: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether the Rajasthan Government has notified certain rehabilitation rules recently in contravention of the Union Cabinet Secretary's award given in August last regarding the Pong Dam Oustees;

(b) if so, the text of the notification issued by the Rajasthan Government in this connection regarding the rehabilitation rules; and

(c) whether the definition of 'oustees' and the definition of 'family' as agreed upon between the two Chief Ministers of Rajasthan and Himachal Pradesh has been changed effectively and if so, the reaction of Union Government to this development?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI B. N. KUREEL): (a) to (c). Yes, Sir. Some of the provisions of the Rules were not strictly according to the advice of the Cabinet Secretary. There were some discrepancies in the definition of 'oustee' and 'family' as provided in the Rules but the officers of the two Governments have since re-conciled the same and their joint recommendations are expected to be formally approved by the State Governments shortly.

PROF. NARAIN CHAND PARASHAR: Then hon. Deputy Minister says 'Yes' to (a). But my specific question in (b) is:

"If so, the text of the notification issued by the Rajasthan Government."

May I request him through you to give the exact notification of the Rajasthan Government because it concerns the fate of lakhs of people in H.P.?

THE MINISTER OF IRRIGATION AND POWER (DR. K. L. RAO): It was said 'Yes' because those Rules have been amended now. Since that, what happened was that we had a meeting between the officers of both the States and they came together and they revised the Rules and the up-to-date Rules will be given shortly. Then we will supply those Rules. What is the great use of supplying those Rules which have now been overruled?

PROF. NARAIN CHAND PARASHAR: There is a great use of supplying those Rules because the people of Himachal Pradesh are greatly agitated that there was an agreement and that was broken and new rules are framed. The House has a right to know and I would request the hon. Minister to take the House into confidence as to what the Rajasthan Government has done and how the changes have been made. He accepts that changes have been made in contravention of the Cabinet Secretary's award. I want to know what are those changes and the exact notification.

DR. K. L. RAO: There is no question of not taking the House into confidence. Those Rules can be given. I shall lay it on the Table of the House, if so desired.

Work on Rajasthan Canal Project

*509. DR. KARNI SINGH: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether the work on the Rajasthan Canal Project is not progressing according to the schedule;

(b) if so, the reason therefor; and

(c) the steps Government propose to take to accelerate the pace thereof in view of the famine conditions prevailing in various parts of Rajasthan?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI B. N. KUREEL): (a) The work on the Rajasthan Canal Project is progressing according to schedule. Stage-I of the project would be substantially completed by the end of the Fourth Plan period. Works under Stage-II will be taken up thereafter.

(b) and (c). Do not arise.

DR. KARNI SINGH: It is well-known that in Rajasthan desert we have to face famine conditions once every three years and this matter has been brought to the attention of this hon. House many times that the permanent solution to the famine in Rajasthan is irrigation. Now, the hon. Minister says that the work has not been slowed down. But I have been given to understand that the work has been slowed down as a result of petty contractors not completing the work.

May I know from the hon. Minister as to whether the Government has a time-bound programme for Rajasthan Canal stages I, II and III and for the three phases of the lift channel so that this House will be fully aware and can watch the progress from now on?

THE MINISTER OF IRRIGATION AND POWER (DR. K. L. RAO): The Rajasthan canal should have been expedited, because this is in a very bad area of the country and the area could have been converted into a flourishing area and in that context I am very sorry that this project is delayed. So far the only consideration has been that of the financial resources and according to the present schedule we hope to complete the first stage by 1973-74 and the second stage by 1978-79.

DR. KARNI SINGH: He has not replied to the other part of my question. That is regarding the lift channel work. I asked about the phases of the lift channel work. May I know, whether

the Government has any proposal following the recommendations of the Members of Parliament in the Informal Consultative Committee for Ministry of Irrigation and Power on the question whether this canal work can be taken over by the Centre? May I know whether the work of the State Government done in this regard is up to the satisfaction of the hon. Minister?

DR. K. L. RAO: It is now behind schedule but it is hoped that this will be completed by 1973-74. Regarding the other point, this question has come up a number of times. The Centre has not taken any irrigation project and Rajasthan Canal also cannot be taken. But the best thing would be that we should provide sufficient amount of funds to take up the work which I had already indicated in answer to his earlier question.

SHRI NAWAL KISHORE SHARMA: He said about financial difficulty. Does it relate to the State Government or Central Government? If it relates to the State Government, what are the specific steps being suggested to remedy the situation?

DR. K. L. RAO: It is both, Sir. For such irrigation projects the provisions are made in the State plan and Central Government could provide some assistance outside the State plan. Unfortunately, both by the Centre and the State, sufficient amount of money could not be provided. As I told you, the first stage is now in an advanced stage and I hope that this will be completed by the end of the Fourth Plan.

श्री विभूति मिश्र : जैसे राजस्थान केनाल के लिये पैसे की दिक्कत हो रही है उसी तरह से गंडक प्रोजेक्ट, कोसी प्रोजेक्ट और नर्मदा प्रोजेक्ट के लिए भी हो रही है। मैं जानना चाहता हूँ कि क्या केन्द्रीय सरकार इन प्रोजेक्टों को अपने हाथ में लेकर पूरी करायेगी ताकि हम को विदेशों से भिखमंगों की तरह गल्ला न मांगना पड़े। गल्ले की कमी को दूर करने के लिए क्या केन्द्रीय सरकार इन को अपने हाथ में लेगी ?

DR. K. L. RAO: It is a question of Centre taking up or State taking up so much, because, in the case of Rajasthan Canal and Gandak projects, you have got a very good organisation which can do the work. As I have submitted, the question is that of how much finance we can find for the various projects. When the Fifth Plan comes up for consideration before Parliament, Members may express their opinion.

श्री धोंकार लाल बेरवा : अभी राजस्थान कैनाल का काम कम से कम 150 करोड़ की लागत से पूरा हो सकेगा और हमारी सरकार 5 करोड़ रु० साल का काम करती है, और वह भी मंहगाई के कारण 2 करोड़ का ही रह जाता है। इस तरह से यह काम कहीं 30 साल में जा कर पूरा होगा। मैं मंत्री महोदय से पूछना चाहता हूँ कि उन्होंने जो आश्वासन दिया है वह कहां तक सत्य है? इस काम को जल्दी पूरा करने के लिए वह क्या कदम उठावेंगे ?

DR. K. L. RAO: Rs. 75 crores would be the amount needed for the second stage and if work is to be done in 5 years the annual provision would be Rs. 15 crores. I hope that in the Fifth Plan, we will be able to provide some amount.

SHRI PILOO MODY: I would like to know from Government whether as a result of the drought this year, there has been any re-thinking on the part of the Government to allot more money for these irrigation projects which are likely to be a permanent solution to our food problem and whether there have been any talks going on in the higher echelons of Government regarding diverting some money from other plan expenditure to irrigation, such as the Rajasthan canal and other projects such as those which my hon. friend Shri Bibhuti Mishra has mentioned

DR. K. L. RAO: I believe that hon. Members are aware that there was a provision of Rs. 150 crores for minor

irrigation. No separate provision has been made for the major and medium irrigation projects this year. But I think that due consideration will be given in the Fifth Plan to complete these major projects.

MR. SPEAKER: Next question. Shri Vikram Mahajan. The hon. Member is absent.

SHRI PRABODH CHANDRA: May I seek your indulgence to put this question? I had also given notice of an identical question, but since Shri Vikram Mahajan's question had been allowed, mine has not been allowed.

MR. SPEAKER: It cannot be done under the rules. When we come to the second round, if the hon. Member has got the authority from Shri Vikram Mahajan, I shall allow him, but not now. These are the rules.

रिहन्द बांध में दरार

*511. डा० लक्ष्मीनारायण पांडेय : क्या सिंचाई और विद्युत मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या रिहन्द बांध के दक्षिण ब्लाक में एक बड़ी दरार पड़ गई है ;

(ख) क्या दरार की मरम्मत का कार्य प्रारंभ कर दिया गया है और क्या इससे यह समस्या स्थायी रूप से हल की जाएगी ; और

(ग) यदि नहीं, तो इस विषय में क्या स्थायी कार्यवाही करने का प्रस्ताव है ?

सिंचाई और विद्युत मंत्रालय में उपमंत्री (श्री बंजनाथ कुरील): (क) से (ग) . जी नहीं। रिहन्द बांध में कोई दरार नहीं आई है। बहरहाल, रिहन्द बांध के शिखर पर सड़क के मध्य के निकट सड़क के साथ-साथ एक दरार आई है। यह दरार सम्भवतः अनुप्रवाह की ओर सेंटीलीवर के लोडिंग के कारण आई है। इस

क्षति का निरीक्षण तकनीकी विशेषज्ञों द्वारा किया गया है तथा शीघ्र उनकी मरम्मत की जाएगी। ये मरम्मत स्थायी प्रकार की होगी।

डा० लक्ष्मीनारायण पांडेय : मंत्री महोदय ने पहले भाग में कहा है कि दरार नहीं आई फिर कहा है कि आई है।

अध्यक्ष महोदय : कहा है कि ऊपर आई नीचे नहीं आई।

श्री हुकम चन्द कछवाय : महत्व की कौन सी है ?

डा० लक्ष्मीनारायण पांडेय : आपने कहा है कि ग्रीच नहीं क्रेक आया है। मैं जानना चाहता हूँ कि टेक्नीशियन्ज के अनुसार दरार चाहे छोटी हो या बड़ी, उसके कारण क्या रहे हैं ?

टेक्नीशियन्ज का कहना है कि इस प्रकार की दरार का कोई स्थायी हल सम्भव नहीं है। आप कहते हैं कि सम्भव है और आप निकालेंगे। जो विरोधाभास है; जो परस्पर एक दूसरे की बात में अन्तर है उसका कारण क्या है और क्या वास्तव में आप इसका कोई स्थायी हल निकाल सकेंगे ?

THE MINISTER OF IRRIGATION AND POWER (DR. K. L. RAO): A breach is different from a crack. If the Rihand Dam breaches, then large area of Bihar would have been washed out. What has actually happened in the Rihand Dam is that for the lamp-post and so on, they have put a cantilever, that is to say, without any support at the bottom, as we see in the cinema-houses, some portion of the upper balcony or some portion of the structure is kept projecting without any support from the bottom. That is how the arrangements for the lamp-posts have been made by a cantilever; that is, it is just projecting out without any support from the bottom. In a case like this, one has to anchor down the projecting portion with reinforced bars and so on. I have not inspected the dam myself. Whatever the

reasons may have been, my own feeling is that there has not been sufficient amount of anchorage of the cantilever block, we can take up the repair of this section and all that we have to do is to anchor the cantilever sufficiently. I have asked the engineers of the CPWC to go into this and tell me exactly the measures to be adopted. It is not a very difficult problem, and it can be done, and I hope that it will be carried out in the next few months.

डा० लक्ष्मीनारायण पांडेय : या इस प्रकार की दरारें और भी किसी स्थान पर आई हैं जिन के कारण रिहन्द बांध को काफी खतरा पहुंचने की सम्भावना है ?

DR. K. L. RAO: As my colleague has said, the crack is at the top of the road, for a depth of eighteen inches where the cantilever is just projecting out. I understand that as a result there are also some cracks in the elevator shaft. That is also being enquired into, but I submit that both these cracks are not of a serious nature.

श्री हुकम चन्द कछवाय : क्या आपने इस बात की छानबीन की है कि जब इनका निर्माण हुआ था उस समय इस में कुछ त्रुटियां रह गई थीं या भसाला ठीक प्रकार का प्रयोग में नहीं लाया था ? कौन इसके लिए दोषी है क्या इसकी आप जांच करेंगे और दोषियों को दोषित करेंगे ? इस पर कितना खर्चा आया ?

DR. K. L. RAO: To be frank, I did not know of this crack till the question came. After having come to know of it, I have asked engineers to find out the remedial measures. The crack is not of such a serious nature as to necessitate an inquiry. Anyway, since the hon. member has raised this point, I am asking the UP Government to find out who are responsible for this.

Manufacture of equipment needed for Power Projects

*512. SHRI K. KODANDA RAMI REDDY: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether the indigenous manufacturers of the equipment needed for power projects in the country are not able to meet the demand; and

(b) if so, the steps Government propose to take to tide over this difficulty?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI B. N. KUREEL): (a) and (b). A statement is laid on the Table of the House.

Statement

(a) and (b). There have been delays in commissioning of power projects as a result of delay in the supply of generating plant and equipment from indigenous manufacturers. The heavy electrical manufacturing industry in the country as well as the feeder industries such as those supplying specialised auxiliary plants as well as heavy castings and forgings for the main plant are still in a period of preparation for undertaking the manufacture of larger and new types of plants and are thus, in spite of their best efforts, finding it difficult to meet the requirements of the power sector ..

A number of steps are being taken to increase the manufacturing capability as fast as possible. Further, if there are any specific cases or special situations where indigenously manufactured equipment is not likely to be available in time, then possibilities of obtaining the requirements from other sources would also be considered.

SHRI K. KODANDA RAMI REDDY: Apart from the reasons given in the statement, is it a fact that equipment supplied by indigenous manufacturers is costlier than the imported

equipment and is also not upto the requisite standard of quality?

THE MINISTER OF IRRIGATION AND POWER (DR. K. L. RAO): No, the quality of indigenous manufactures is quite good. The only question is that because for the first time this is being manufactured, there will be some delay in manufacture and delivery. Otherwise, so far as the quality is concerned, I would submit it is quite good.

SHRI K. KODANDA RAMI REDDY: Does the Ministry feel that exclusive dependence on indigenous manufacture will not help us to achieve the Fifth Plan targets and whether this view is not shared by the Ministry of Industrial Development and the Planning Commission? If so, what are the reasons offered by the above two departments?

DR. K. L. RAO: It is true that in the Fifth Plan we want to go in for a very big quantum of additional power consistent with the requirement of the country. We propose to add as much as 20 million kw. of power, nearly double what we will have by 1974. This requires the installation of a lot of additional equipment. Since power generation is more important than the question of equipment, whether indigenously manufactured or imported, one has got to be very careful in regard to the question of obtaining the requisite equipment, whether from indigenous sources or from abroad. This is an exercise we are doing at the moment. A Committee of Ministers has been appointed with the hon. Minister in charge in UP as the Chairman. When its report is received in two or three months, it will be possible for the Ministry to come to a conclusion as to how much equipment will have to be imported and how much could be got manufactured indigenously.

PROF. MADHU DANDAVATE: Since the increase in the demand for coal is 4 per cent and of oil 12 per cent per annum, and for oil we have

to depend on imports, will this not create difficulties for power projects expansion and equipment for the same? If so, how do we propose to resolve these difficulties?

DR. K. L. RAO: Broadly, the projects are those run by coal and by water. In this country, we do not run projects on oil; we avoid it. Practically, very little oil is used in these projects. So the question is only about availability of coal and water. In the next few decades, we hope to have enough of both these materials. We have enough reserves of coal, much more than what we need, and we have also quite a large number of hydro-electric projects. Therefore, I do not think there will be any difficulty for the next few Plans with regard to designing the types of equipment based on coal or water.

SHRI NAWAL KISHORE SINHA: In view of the fact that electricity is the most important infra-structure for the development of industry and agriculture in our country, is the hon. Minister prepared to assure the House that no physical constraints like supply of generators etc., in respect of the indigenous manufacturers will be allowed to stand in the way of achieving the fifth Plan target and in whatever way possible it may be, the present target of the fifth five year plan which, I believe, is 40 million kilowatts, will be achieved at the end of the Fifth Plan period?

DR. K. L. RAO: It is a very important question, but I am afraid that I would not be able to give an elucidation on it till I get the report of the Committee and till further discussions are held with the indigenous manufacturers. But I agree with the hon. Member that power projects are more important than the question whether we should buy indigenously or from outside.

SHRI R. S. PANDEY: In order to get the equipment indigenously, we do spend a good lot of money on the Bhopal Heavy Electricals. May I know whether the performance in re-

gard to the supply of the equipment which are needed for the power projects like turbines, etc., is satisfactory in respect of the Bhopal Heavy Electricals, and what are those kinds of equipment which you are getting from Bhopal Electricals?

DR. K. L. RAO: So far as the Bhopal Heavy Electricals are concerned, I answered to an earlier question.

As far as the quality of the equipment from the Bhopal Heavy Electricals is concerned, it is quite good. It is only a question of some delay in delivery, because we have to import some of the components such as castings, forgings, and so on. We have got to overcome these difficulties, because it is a very capital-intensive industry, and one has to avoid loss. But if we want to avoid such delay, we have to buy equipment from outside also. In that context, we have to give full support to indigenous manufacturers but not to the exclusion of not having sufficient amount of power in this country. So, in that context, I would submit to the hon. Member that the exact assessment will be known only after the Committee's report is received.

SHRI R. S. PANDEY: Sir, I seek your protection. I put this very precise and specific question; that we spend a good lot of money. The hon. Minister said, delay, delay, delay. Sometimes, he says it is due to the dearth of money. Sometimes, it is delay. May I know, since we are spending a good lot of money, why the performance of the Bhopal Heavy Electricals is not good?

DR. K. L. RAO: As far as this question is concerned,—

MR. SPEAKER: Will the Minister kindly attend to me?—He is not attending. I think the Minister needs protection from you, because this question did not arise out of that and you are pressing it.

डा० गोबिन्द दास रिद्धारिया : मैं यह जानन चाहता हूँ कि क्या उत्तर प्रदेश

गवर्नमेंट ने भी केन्द्रीय सरकार से बाहर से मशीनें इम्पोर्ट करने की प्रार्थना की थी; अगर हाँ, तो क्या मंत्री महोदय ने उसकी स्वीकृति दे दी है।

DR. K. L. RAO: It is true that the Uttar Pradesh Government asked for the import of machines—

MR. SPEAKER: I gave the ruling so far as the Bhopal Heavy Electricals is concerned. Now, he is coming to his State. I am very helpless because the Minister has such a wide knowledge that he does not refuse. But I have to see to the relevancy.

SHRI P. VENKATASUBBAIAH: May I know whether the Government is prepared to import the machinery in such of these instances where the projects have been held up and that is causing great scarcity of power and also retarding the growth of both industry and agriculture? For instance, the completion of the lower Sileru projects is being held up for want of turbines. May I know, in this case, whether the Government, as they have been doing in the case of the import of fertilisers where there is a scarcity, will come to a decision to import the equipment and see that such projects are completed?

MR. SPEAKER: Kindly be brief.

DR. K. L. RAO: What is happening in lower Sileru is the difficulty due to want of finance. The Andhra Government has not enough funds to complete the work in time. The machinery is at site. While the machinery is at site, there is not enough money to proceed with the civil works, and we are trying to find ways by which we can assist the State Government for this project.

श्री फूलचन्द वर्मा : क्या मंत्री महोदय को इस बात की जानकारी है—इस बारे में श्री माननीय सदस्य, श्री राम महाय पांडे ने भी कहा है—कि जब कि हैवी इन्डस्ट्री-

कलज, भोपाल, की लागत-पूँजी 56 करोड़ रुपये है, उस का घाटा 70 करोड़ रुपये है? क्या यह सत्य नहीं है कि देश में इस प्रकार के विद्युत उपकरणों का निर्माण करने वाले कल कारखानों में निरन्तर घाटा होने की वजह से भी विद्युत उपकरण समय पर सप्लाई नहीं हो पाते हैं; यदि हाँ, तो सरकार इस विषय में क्या करने जा रही है ?

DR. K. L. RAO: I have submitted already that this question has to be referred to the Ministry of Industrial Development as it is under their administrative control. We take machines supplied by them and I am afraid I may not be able to answer this question.

Proposal regarding provision of concrete sleepers on Railway Track

*513. SHRI NAWAL KISHORE SHARMA:
SHRI B. K. DASCHOW-DHURY:

Will the Minister of RAILWAYS be pleased to state:

(a) whether Government propose to replace the present wooden sleepers on the Railway lines by concrete sleepers;

(b) the extent to which concrete sleepers on Railway tracks will be helpful in running the trains at faster speed;

(c) the expected durability of the concrete sleepers; and

(d) the line on which the first experiment will be made?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) Concrete Sleepers are proposed to be used in some sections on Broad Gauge System only. Wooden Sleepers also will be used to the extent they are available.

(b) Use of Concrete Sleepers on the Railway track can permit running of

trains, from track point of view at speeds upto about 160 kms.

(c) and (d). Life of concrete sleepers has generally been assessed as 50 years. Concrete sleepers are proposed to be laid on trunk routes connecting Delhi, Bombay, Madras and Calcutta.

श्री नवल किशोर शर्मा : मंत्री महोदय के जवाब से ऐसा लगता है कि लकड़ी के स्लीपर्स की कमी के कारण कानक्रीट स्लीपर्स इस्तेमाल करने का फैसला किया गया है। इस संदर्भ में मैं यह जानना चाहता हूँ कि क्या कानक्रीट स्लीपर्स की लागत लकड़ी के स्लीपर्स के मुकाबले में सस्ती होगी। मंत्री महोदय सब रेलवे लाइन्ज, या कुछ रेलवे लाइन्ज, पर कानक्रीट स्लीपर्स डालना चाहते हैं। देश में सीमट की पहले से ही कमी है। इस लिए क्या मंत्री महोदय ने कानक्रीट स्लीपर्स के लिए सीमट की ऐविलेबिलिटी की एशोर कर लिया है ?

THE MINISTER OF RAILWAYS (SHRI T. A. PAI): The cost of wooden sleeper is Rs. 16,800, that is the annual cost per kilometre, whereas the annual cost of concrete sleeper is Rs. 17,500. We are short of both wood as well as cement. One is not a substitute for the other. Concrete sleepers last nearly fifty years as against 12-15 years for wooden sleepers. Again, if we have to modernise our tracks and develop our speed we may have to go in for concrete sleepers but there is no danger of this replacement in the near future, as fast as one would wish.

SHRI B. K. DASCHOWDHURY: Concrete sleepers are costlier though legitimately they can be regarded as durable to the extent of fifty years or so. In view of the fact that there is shortage of cement, may I know from the hon. Minister what will be the cost, if instead of concrete sleepers it could be done through steel sleepers or has it been examined?

SHRI T. A. PAI: Steel sleepers annual cost per KM is Rs. 16,800 as

against Rs. 17,500 for concrete sleepers. But we have not been able to get as many steel sleepers—hardly five or six lakhs per year, I think. For certain reasons steel sleepers are not also suitable where electric insulation is resorted to.

SHRI VASANT SATHE: Will the minister be pleased to state whether they have any positive time-bound programme to convert any particular tracks, say, Bombay-Poona or Delhi-Bombay or Delhi-Calcutta into concrete sleepers? Any concrete programme about concrete sleepers?

SHRI T. A. PAI: The conversion of 16,000 KM of trunk routes—Bombay-Delhi, Delhi-Calcutta and Calcutta-Madras and also some other important main lines of 8,000 KM would cost us Rs. 480 crores and it is not possible to take up this work all of a sudden. When renewals are made, we replace the existing sleepers with concrete sleepers. But we would like to take up certain tracks like Delhi-Howrah to begin with on a priority basis, so that other developments may be taken up on those tracks for speeding up the trains, etc.

SHRI VASANT SATHE: By what time will you be able to do it?

SHRI T. A. PAI: Delhi-Howrah line could be done in the next five years. It is not possible to do the other lines.

SHRI THA KIRUTTINAN: May I know how much money is proposed to be spent in the first instance for this purpose and whether orders are placed with private concerns or departmental production will be taken up?

SHRI T. A. PAI: At present four firms in Gaya, Jhansi, Delhi and Madras and one in Bombay are supplying these concrete sleepers. The total quantity supplied is 10 thousand. We propose to increase the number of centres and the department is going to open one itself in Nagpur.

श्री कल्याणदास बाबूसाहू: अध्यक्ष महोदय, मैं क्षमा चाहता हूँ, मंत्री महोदय आर्थिक मामलों में जरूर विशेषज्ञ हैं लेकिन इंजिनियरिंग के मामले में विशेषज्ञ नहीं हैं। ये इंजीनियर लोग कोई न कोई तरीका खाने का और करप्शन का हर जगह निकाल लेते हैं। क्या इस के बारे में वे गारंटी के साथ कह सकते हैं कि इस सीमेंट में कोई करप्शन नहीं होगा और यह काले बाजार में नहीं बिकेगा? आज राजस्थान में जो सीमेंट 12 रुपये बोरी की है वह जहाँ पर राजस्थान नहर का काम हो रहा है वहाँ सारी की सारी सीमेंट ब्लैक में बिक रही है और सिवाय करप्शन के वहाँ और कोई धन्धा नहीं है। मैं चाहता हूँ कि देश में आज भी सीमेंट की कमी है तो यहाँ भी ऐसा नहीं होना चाहिए। क्यों कि ऐसा लगता है कि इस के अंदर भी करप्शन फैलेगा और सारा माल ब्लैक मार्किट में जायगा। (अवधान)... सीमेंट गलत लगेगी तो वह स्लीपर टूटेंगे और रेल गिरेगी जिस से आदमी मरेंगे।

श्री मुहम्मद शफी कुरेशी: रेलवे का महकमा जो है वह तो कांक्रिट स्लीपर खरीदेगा और उस स्लीपर को पूरी तरह से टेस्ट किया जायगा कि इसमें सीमेंट, रोड़ी और लोहे की बाकायदा मात्रा पड़ी है या नहीं। बाकायदा टेस्ट करने के बाद ही स्लीपर लिया जाता है।

भारतीय रेलवे में काम कर रहे पाकिस्तानी राष्ट्रिक

* 514. श्री एम० एस० पुरती: क्या रेल मंत्री यह बताने की कृपा करेंगे कि:

(क) क्या अधिनियम में रेलवे में किसी भी पद पर पाकिस्तानी राष्ट्रिकों की नियुक्ति न होने देने को सुनिश्चित करने के लिए नियमों में कुछ परिवर्तन करने का सरकार का विचार है; और

(ख) यदि हाँ, तो प्रस्तावित परिवर्तनों का व्यौरा क्या है?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). No, Sir. The existing railway rules are adequate.

श्री एम० एस० पुरती: क्या मंत्री महोदय यह जानकारी दें कि ऐसा कौन सा नियम है जिस के आधार पर पाकिस्तानी राष्ट्रिकों को रेलवे के पद पर नियुक्त न किया जा सके और क्या सरकार के पास ऐसी कोई सूचना है कि अभी भी रेलवे के पदों पर कुछ पाकिस्तानी राष्ट्रिक कार्य-रत हैं? यदि हाँ तो इस पर सरकार की क्या प्रतिक्रिया है?

THE MINISTER OF RAILWAYS (SHRI T. A. PAI): The applicant has to declare his nationality and, after that, the police verification and verification through civil agencies are also made before the appointment is made. As far as we know, the present position is that we have two persons who are considered Pakistani nationals. One is from Bangladesh and, therefore, his nationality is not very certain. The other is a Christian who has applied to the Home Ministry for regularisation of citizenship. If the hon. Member has any more information, I would like to have it.

MR. SPEAKER: About the Bangladesh one, Bangladesh nationality is sure, not uncertain. Next Question.

SHRI G. VISWANATHAN: He was not sure about the answer that he gave us. So, I would like to get a categorical answer from him.

MR. SPEAKER: About Bangladesh, it is sure, not uncertain. I have already corrected him.

Technical Assistance obtained from Japanese firms for building four Fertilizer Plants by Engineers India Limited

+

*516. SHRI RAJDEO SINGH:
SHRI M. S. SIVASWAMY:

Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether Government have authorised the Engineers India Limited, a public sector design undertaking, to explore the possibilities of obtaining technical assistance from some Japanese firms for building four fertilizer plants in the country;

(b) if so, whether having been in business for nearly two decades, the Engineers India Limited still lacks in technical know-how to fabricate a fertilizer plant; and

(c) whether these four plants will be of some special kind for which foreign know-how is sought?

THE MINISTER OF LAW AND JUSTICE AND PETROLEUM AND CHEMICALS (SHRI H. R. GOKHALE): (a) to (c). A statement giving the required information is laid on the Table of the Sabha.

Statement

The Engineers India Ltd., a public sector engineering organisation has submitted proposals for the construction of five fertilizer plants at suitable locations in association with a Japanese firm. This is on the basis that the requisite credit assistance would be available from Japan to meet the external financial requirements of these plants. The offer envisages construction of two plants each of 1300 TPD ammonia at coastal locations and three plants of 900 TPD ammonia each at inland locations. All the five plants would

be based on fuel oil as the feed-stock.

The collaboration assistance of the Japanese firm is being sought in consideration of (a) the plant sizes involved, (b) the technology that would be adopted, and (c) the tight time-schedule envisaged for project completion. The *modus operandi* that would be adopted is by and large similar to that already in vogue in respect of the plants under construction in India.

Since its inception in 1965, the E.I.L. has been functioning basically in the fields of detailed design, engineering and procurement for process plants. Their responsibility in regard to the present plants would also be of a similar nature. In all such cases, the fabrication of equipment and procurement of supplies is always obtained from other vendors or manufacturers in conformity with detailed design/specifications furnished by the engineering company.

SHRI RAJDEO SINGH: May I know whether due to the availability of requisite credit assistance from Japan, the Japanese collaboration is sought?

SHRI H. R. GOKHALE: I would not say "availability" but the feasibility of Japanese credit is there. That is one of the reasons why we are considering these proposals.

SHRI RAJDEO SINGH: May I know whether the location of all the five plants has been finalised and the period for tight time-schedule envisaged for their completion?

SHRI H. R. GOKHALE: That has not been finalised. If these proposals are accepted they are based on the basis that they will be completed within 30 months.

Insurance Scheme for the Users of Railways

*517. SHRI S. C. SAMANTA: Will the Minister of RAILWAYS be pleased to state:

(a) when the proposal regarding the introduction of insurance for the users of the Railways, particularly the passengers will take effect; and

(b) at what stage the proposal stand at present and the salient features thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI): (a) and (b). Sir, the proposal for introduction of insurance for the passenger is under consideration.

SHRI S. C. SAMANTA: May I know from which quarter this proposal came and whether the opinion of the Passengers' Association has been taken into account?

THE MINISTER OF RAILWAYS (SHRI T. A. PAI): The proposal originated from the Ministry itself. We have not consulted the Passengers' Association. We have to finalise what exactly the details would be.

SHRI S. C. SAMANTA: May I know which other institutions will be consulted in the matter?

SHRI T. A. PAI: This is a matter which perhaps would confer considerable benefit to the passengers. Insurance benefits only those who get involved or take a risk of getting involved. Therefore, it is very difficult now to consult anybody on this question.

SHORT NOTICE QUESTION

Cricket Match on T.V.

+

S.N.Q. 1. SHRI SHASHI BHUSHAN:
SHRI FATESINGHRAO
GAEKWAD:

Will the Minister of INFORMATION AND BROADCASTING be pleased to state:

(a) whether Government have taken a decision to show on T.V. the

first official cricket test match between India and M.C.C. to be played in Delhi from 20th December, 1972; and

(b) if not, the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF INFORMATION AND BROADCASTING (SHRI DHARAM BIR SINHA): (a) Yes, Sir.

(b) Does not arise.

MR. SPEAKER: Now, no supplementary should arise out of this.

श्री शशि भूषण : अध्यक्ष महोदय, सब से पहले मैं क्रिकेट-फैन्ज की तरफ से सरकार को धन्यवाद देना चाहता हूँ। लेकिन मैं जानना चाहता हूँ कि पिछली बार सैन्ट्रल हाल में सदस्यों को मैच दिखलाने के लिये टी० वी० लगाने का इन्तजाम किया गया था, क्या इस दफा भी उस की व्यवस्था करेंगे ?

SHRI DHARAM BIR SINHA: We will be too happy to do it.

अध्यक्ष महोदय : सैन्ट्रल हाल के बारे में हम से वहाँ—मिनिस्टर से नहीं, अगर उन को रिक्वेस्ट करेंगे तो नहीं मानूँगा।

श्री शशि भूषण : मैं आप का भी धन्यवाद देता हूँ, आप हमारे लिये इतना ख्याल करते हैं।

अध्यक्ष महोदय : अब भी जरूर कहूँगा कम से कम इसका इतना फायदा तो होगा कि आप वहाँ बैठेंगे।

AN HON. MEMBER: There will be no quorum in the House.

SHRI S. M. BANERJEE: On 20th, 21st and 22nd, we shall be attending Parliament and will not be able to witness the Test Match. At least, we can see in the T.V.

श्री इन्द्रजीत गुप्त : सैन्ट्रल हाल में दिखलाने के लिए आप की परमीशन की जरूरत है।

* **श्री धरम बिर सिन्हा :** परीक्षण की क्या जरूरत है, आप वहां लगाइये, हम बहुत बैलकम करेंगे। हो सके तो हर कमरे में लगा दीजिये।

श्री क्षति भूषण : मैं जानना चाहता हूँ कि टी० बी० पर प्रसारण के लिए आप क्रिकेट कन्ट्रोल बोर्ड को किजनी रायलटी दे रहे हैं ?

SHRI DHARAM BIR SINHA: In the beginning, the Delhi Cricket Association, which is the controlling authority, feared that the gates would be affected, but now they have sportingly agreed. Thanks to the President of Delhi Cricket Association, Mr. Ram Prakash Mehra, they have agreed to the telecasting of the Test and we have agreed to pay them Rs. 25,000.

SHRI FATESINGHRAO GAEKWAD: I would like to know from the hon. Minister whether this payment has been effected only for this Test series or as a permanent arrangement.

SHRI DHARAM BIR SINHA: This arrangement is only for this particular Test in Delhi.

SHRI VASANT SATHE: Will you extend that to Bombay also?

SHRI DHARAM BIR SINHA: We will consider that.

SHRI SAMAR GUHA: I just want to point out that this is the only Short Notice Question that has been admitted during this Session—this is so important, so vital, so serious!

श्री सुकन चन्द कल्याण : इस में भी अधिक महत्व के सवाल किये जाते हैं, लेकिन उनको नहीं लिया जाता।

MR. SPEAKER: Now we take up the call-attention.

WRITTEN ANSWERS TO QUESTIONS

Increase in freight and passenger traffic

*501. **SHRI P. M. MEHTA:**
SHRI K. LAKKAPPA:

Will the Minister of RAILWAYS be pleased to state:

(a) whether freight traffic and passenger traffic have doubled during the last twenty years;

(b) whether in spite of the increase in Rail traffic, the profit of the Railways has not increased proportionately; and

(c) if so, the reasons therefor?

THE MINISTER OF RAILWAYS (SHRI T. A. PAI): (a) Yes, Sir.

(b) and (c). The Railways continued to show profit upto 1965-66 after paying dividend at the prescribed rates on the Capital-at-Charge. In the subsequent five years, the results of working showed a deficit after the payment of the dividend. This trend has been reversed in 1971-72.

The reasons for the deterioration in the financial position of the Railways since 1965-66 are as under:—

(i) Increases in rates and fares had not kept pace with the steadily mounting costs of operation, arising out of increases in the wages of staff and cost of fuel and Railway stores and equipment.

(ii) The quantum of Freight traffic was not increasing to the extent anticipated after 1965-66.

Delay involved in setting up Haldia Fertilizer Complex

*504. **SHRI SAMAR GUHA:** Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

(a) whether Government failed to decide promptly the issues involved.

in setting up the Haldia Fertilizer complex in West Bengal;

(b) if so, the reasons therefor and when the fertilizer plant is likely to be commissioned for production; and

(c) whether foreign exchange allocated for the Haldia Fertilizer project had to be surrendered?

THE MINISTER OF LAW AND JUSTICE AND PETROLEUM AND CHEMICALS (SHRI H. R. GOKHALE): (a) and (b). No, Sir; the time taken in sorting out the various issues involved in setting up of the Haldia project was mainly due to the complicated pattern of production and large investment of public funds involved. The plant is expected to go into commercial production in early 1976.

(c) No, Sir.

राज्यों द्वारा पांचवी योजना में अतिरिक्त विद्युत उत्पादन के लक्ष्य

* 506. डा० गोविन्द दास रिछारिया : क्या सिंचाई और विद्युत मंत्री यह बताने की कृपा करेंगे कि :

(क) निम्न राज्यों ने पांचवी योजना में अतिरिक्त विद्युत उत्पादन के क्या लक्ष्य निर्धारित किए हैं और उनमें जल तापीय तथा आनविक विद्युत उत्पादन का अलग अलग कितना भाग होगा ; और

(ख) केन्द्रीय सरकार के अधीन कितनी परियोजनाएँ स्थापित की जानी हैं और उनके प्रस्तावित लक्ष्य क्या हैं ?

सिंचाई और विद्युत मंत्री (डा० के० एल० राव): (क) और (ख) . पांचवी पंचवर्षीय योजना के दौरान अतिरिक्त विद्युत उत्पादन के लिए विभिन्न राज्यों द्वारा निश्चित लक्ष्यों को अभी अन्तिम रूप नहीं दिया गया है। केन्द्रीय सिंचाई और विद्युत मंत्रालय ने पांचवी पंचवर्षीय योजना के लिए एक विद्युत विकास कार्यक्रम तैयार किया है जिसमें समस्त देश के

लिए योजना विधि के दौरान 21.8 मिलियन किलोवाट विद्युत उत्पादन क्षमता बढ़ाना परिकल्पित है।

अलग-अलग जल-विद्युतताप और परमाणु क्षमताओं को दिखाते हुए राज्यवार-क्षेत्रवार प्रस्तावित वृद्धि सभा पटल पर रखे गये विवरण में दी गई है। [संसद भवन में रखा गया देखिये संख्या LT—4074/72]। केन्द्रीय सेक्टर के अंतर्गत शुरू की जाने वाली परियोजनाएँ भी उसमें दिखाई गई हैं। जून, 1972 में हुए सिंचाई और विद्युत राज्य मंत्रियों के छठे सम्मेलन ने इस विद्युत-विकास योजना का समर्थन किया है और इसके कार्यान्वयन की सिफरिस की है। जबकि पांचवी योजना में शामिल करने के लिए विशिष्ट परियोजनाएँ पहले ही समलित की जा रही हैं, पांचवी योजना के लिए इस प्रकार के लक्ष्यों को अभी तक योजना आयोग द्वारा अन्तिम रूप नहीं दिया गया है।

Shifting of Railway Office from Pathankot to Jammu

* 510. SHRI VIKRAM MAHAJAN: Will the Minister of RAILWAYS be pleased to state:

(a) whether the Railway Sectional Headquarters are being shifted from Pathankot (Punjab) to Jammu; and

(b) if so, the reasons therefor and the expenses likely to be incurred due to the shifting?

THE MINISTER OF RAILWAYS (SHRI T. A. PAI): (a) No, Sir.

(b) Does not arise

Recommendation of Power Economy Committee

* 515. SHRI C. K. CHANDRAPPA: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether the recommendations of the Power Economy Committee constituted by the Central Government have been implemented; and

(b) if not, the reasons therefor?

THE MINISTER OF IRRIGATION AND POWER (DR. K. L. RAO):

(a) and (b). Yes, Sir. The recommendations of the Power Economy Committee are being implemented.

(1) The Ministry of Irrigation & Power has acted upon the important recommendations, viz:

(i) Long range power planning has been taken up and Decade (Generation) Plan for 1971-81 has been prepared.

(ii) For benefits on a regional basis, Centre has taken up the execution of three Hydro-electric projects namely Salal, in Jammu & Kashmir, Baira-Suit in Himachal Pradesh and Loktak in Manipur. More such projects are envisaged in the Fifth Plan.

(iii) Steps have already been taken for accelerating the integrated operation of regional grid networks which will ultimately lead to the formation of a National Power Grid.

(iv) The question of revitalisation of Central Electricity Authority on a full-time basis and, in fact restructuring the power supply industry is being actively considered.

(v) Investigations of the Schemes identified in the Decade Plan 1971-81 have been taken up.

(vi) Stress is being laid on hydro-electric power development. A number of hydro-electric projects are proposed to be taken up in the Fifth Plan which will make substantial additions to the hydel installed generating capacity in the restructuring the power supply in Fifth and Sixth Plans.

(vii) Training facilities for operation and maintenance personnel are being created/expanded.

(viii) Design & Engineering Organisation in Central Water and Power Commission is being strengthened.

(2) The recommendations relating to improvement in economy and efficiency of Hydro and Thermal Power Stations and those pertaining to reliability of power Supply and transmission and distribution losses have been referred to State Governments State Electricity Boards etc. for implementation.

(3) Some of the recommendations relating to fuel availability, utilisation of by-products from coal washeries and pricing thereof, introduction of unit-trains for transport of coal to Thermal Power Stations are under examination in consultation with the concerned Ministries.

गण्डक, कोसी तथा अन्य नदी घाटी परियोजनाओं से सिंचाई किए जाने वाले क्षेत्र

* 518 : श्री मधुकर : क्या सिंचाई और बिद्युत मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या गण्डक, कोसी तथा अन्य नदी घाटी परियोजनाओं के, जिन पर काम अभी चल रहा है, पूरा हो जाने के बाद भी बिहार के कुछ ऐसे क्षेत्र रह जायेंगे जिनमें नहरों के माध्यम से सिंचाई नहीं हो सकेगी ;

(ख) यदि हां, तो कितने एकड़ भूमि रह जायेगी ; और

(ग) इन क्षतों की सिंचाई के लिए सरकार ने क्या योजना बनाई है ?

*519. SHRI K. SURYANARAYANA: Will the Minister of RAILWAYS be pleased to state:

(a) whether the reservation of accommodation by Rail has now been

advanced by 30 days instead of 10 days as before;

(b) if so, the reasons therefor and the trains in respect of which this has been done;

(d) whether Government are aware that a good chunk of the accommodation is cornered by the Travel Agencies and Railway Pass-Holders in advance; if so, the measures which Government propose to take to ensure that the bonafide paying passengers get accommodation when they ask for it within a reasonable period like 10 days as was in vogue before?

THE MINISTER OF RAILWAYS (SHRI T. A. PAI): (a) and (b). Yes, Sir. The time limit for advance booking was extended from 10 days to 30 days in Second, Third and Third A/C Chair Car Classes and from 20 days to 30 days in First Class A/C upto 640 Kms. and First Class for a period of one month commencing from 15th November 1972 since the Committee on Reservations and Bookings, headed by Shri Krishna Kant, M.P., wanted a study to be made in this direction by the Railways. (c) and (d). The results of the experiment are yet to be studied and the result of the study will be communicated to the Committee on Reservations and Bookings. There have been some complaints about cornering of berths and seats by unrecognised travel agencies and other anti-social elements. These complaints will also be brought to the notice of the Committee on Reservations and Bookings. This experiment was discontinued on 14th December 1972 and the passengers are allowed to make their reservations on trains in advance as per the rules i.e. as existed prior to 15th November 1972.

ट्रेन एंजिनियरों का वेतनमान बढ़ाया जाना

*520. श्री रामाबतार शास्त्री : क्या रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या रेलवे बोर्ड ने ट्रेन एंजिनियरों के प्रारम्भिक वेतनमान बढ़ाने के बारे में 30 अक्टूबर को जोनल रेलों के जनरल मैनेजर्स को एक परिपत्र भेजा था ; और

(ख) यदि हां, तो उसका सारांश क्या है और वेतनमान बढ़ाये जाने के क्या कारण हैं ?

रेल मंत्री (श्री टी० ए० पाई) : (क) जी हां ।

(ख) यह परिपत्र इस विनिश्चय को लागू करने के लिए है कि गाड़ी परीक्षकों का निम्नतम श्रेणी 180-240 रुपये का ग्रेड समाप्त कर दिया जाये और उक्त ग्रेड में काम कर रहे वर्तमान कर्मचारियों को 1-11-1972 से सामूहिक रूप से 205-280 रुपये के ग्रेड में रख दिया जाये ।

1-4-1966 से गाड़ी परीक्षकों के संवर्ग के पुनर्गठन के फलस्वरूप 180-240 रुपये का ग्रेड केवल शिल्पियों के पदों से प्रोन्नति पाने वाले कर्मचारियों के लिए रखा गया था । इन प्रोन्नति कर्मचारियों ने बार-बार यह अभ्यावेदन किया कि चूंकि वे भी वही काम करते हैं जो अन्य गाड़ी परीक्षक करते हैं, उन्हें निम्नस्तर ग्रेड में रखकर उनके साथ अन्याय किया गया है । इस तथ्य को ध्यान में रखकर कि माल डिब्बों और सवारी डिब्बों की पुरानी किस्में अब अत्यधिक परिष्कृत हो गयी हैं, यह सहस्र किया गया कि इन लोगों की 205-280 रुपये के ग्रेड में रखना औचित्यपूर्ण है । इससे गाड़ी परीक्षकों

का मूल वेतनमान स्वाभाविक रूप से तकनीकी शाखाओं के अन्य पर्यवेक्षक कर्मचारियों के मूल वेतनमान के बराबर हो गया ।

4856. SHRI N. K. P. SALVE: Will the Minister of PETROLEUM AND CHEMICALS be pleased to state:

Further, under the newly framed rules of the Delhi High Court, the posts of Readers, Private Secretaries and Junior Translators in the High Court are to be normally filled by selection for which employees of the Civil & Sessions Courts possessing the requisite qualifications are as much eligible as the employees of the High Court having similar qualifications.

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI B. N. KUREEL): (a) and (b). The Centre has no scheme for providing assistance directly to the State Electricity Boards to enable

them providing electricity at reduced rates in drought prone areas. However, the Rural Electrification Corporation provides funds to the State Electricity Boards for the purpose of rural electrification in backward areas under concessional terms. Susceptibility to drought is one of the criteria for classifying the area as 'backward area'.

In most of the States relief in the minimum consumption guarantee charges is given when drought conditions occur and enough water in the wells is not available for the consumer to utilise the pumping sets to the extent of minimum consumption guarantee.

Wastage of Hydro-Carbon Gases in: Assam and Gujarat

4904. SHRI SAMAR GUHA: Will
the Minister of PETROLEUM AND
CHEMICALS be pleased to state:

(a) whether highly concentrated
hydro-carbon gases are wasted by
burning at the exist-end of the wells
in the oil fields of Assam and
Gujarat;

(b) if so, the amount of the gas
wasted annually and its value;

(c) whether these gases can be used as raw material for fertilizers production; and

(d) if so, whether Government have formulated any plan to utilize these natural hydro-carbon gases?

THE DEPUTY MINISTER IN THE MINISTRY OF PETROLEUM AND CHEMICALS (SHRI DALBIR SINGH): (a) and (b). A certain percentage of the total production of natural gas is being flared, the quantity of which varies from year to year. During the year 1971-72, the flaring of ONGC's gas was approximately 151 million cubic metres valued at about Rs. 100 lakhs. Similarly, in the calendar year 1971, OIL flared about 594 million cubic metres valued at about Rs. 81 lakhs. (Values have been computed on prices currently being charged from consumers).

(c) Yes, Sir.

(d) In Assam, most of the production of natural gas is by O.I.L. and the quantity available is committed to meet the anticipated increase in the requirements of various consumers, particularly the Fertilizer Corporation of India. O.I.L. is also examining the feasibility of extracting LPG from this gas before supplying it to the consumers. Out of the small quantity of gas produced by the ONGC in Assam, most of it is already committed for sale and some quantity is used for ONGC's own operations. The balance has to be flared for want of industrial consumers, ONGC, is, however, negotiating with some prospective consumers in the nearby areas for the supply of gas.

In Gujarat, O.N.G.C. is already supplying gas to meet the requirements of the Gujarat State Fertilizer Company and have also committed 7.5 lakh cubic metres per day for future manufacture of fertilizers by the Indian Farmers Fertilizers Co-operative Limited. The gas which is being flared by ONGC in Gujarat is largely of low pressure and the Commission is making arrangements to install

compressors for compressing this gas for supply to potential consumers. Certain quantities of gas are also being flared at fields which are presently in an initial production stage. As these fields are still in the process of development, the full potentialities of gas from these fields are not yet known. As ONGC makes an assessment of these potentialities, they would be in a position to commit this gas for sale to various consumers.

THE MINISTER OF RAILWAYS (SHRI T. A. PAI): (a) Yes, trade test for Master Craft Fitter (Train Lighting) grade Rs. 175—240 conducted was cancelled before finalisation as syllabus was not available with the subordinates.

(b) Non-provision of syllabus with subordinates was not known to the Divisional Superintendent, Ajmer.

रतलाम डिब्बीजन के खण्डवा-अजमेर सेक्शन पर मास गाड़ी का चलाया जाना

4915. डा० सद्मीनारायण पांडेय :
क्या रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या रतलाम डिब्बीजन के खण्डवा अजमेर सेक्शन पर कोई मेल गाड़ी नहीं है तथा वर्तमान में चलने वाली यात्री गाड़ियों की संख्या इतनी कम है कि यात्री बसों द्वारा भारी संख्या में यात्रा करने को बाध्य होते हैं ;

(ख) क्या उक्त सेक्शन पर नीमच-महू तथा नसीराबाद आर्मी सेन्टर व सी० आर० पी० सेन्टर स्थित हैं और क्या इस मार्ग पर मेल ट्रेन चलाने के संबंध में सरकार को अभ्यावेदन प्राप्त हुए हैं ; और

(ग) यदि हां, तो उन पर सरकार की क्या प्रतिक्रिया है ?

रेल मंत्री (श्री टी० ए० पाई)

(क) पश्चिम रेलवे के रतलाम मंडल के खण्डवा-अजमेर मीटर लाइन खण्ड पर कोई मेल गाड़ी नहीं चल रही है इस समय इस खण्ड में सीधी जाने वाली दो गाड़ियां हैं अर्थात् 71 अप/72 डाउन जो अजमेर और रतलाम के बीच एक्सप्रेस गाड़ीज और रतलाम और खण्डवा के बीच तेज सवारी गाड़ी के रूप में चलती है और 69 अप/70 डाउन गाड़ियां जो अजमेर और रतलाम के बीच तेज सवारी गाड़ी के रूप में और रतलाम और खण्डवा के बीच साधारण सवारी गाड़ी के रूप में चलती हैं। इनके अलावा, इस मार्ग पर बहुत सी खण्डीय गाड़ियां भी उपलब्ध हैं। इस

मार्ग पर यातायात की वर्तमान मात्रा की दृष्टि से ये गाड़ी सेवायें पर्याप्त समझी जाती हैं।

(ख) जी हां।

(ग) वर्तमान गाड़ियों में से किसी भी गाड़ी को कुछ वर्तमान ठहरावों को समाप्त करके उस गाड़ी को तेजगाड़ी में बदलना वांछनीय नहीं होगा क्योंकि वर्तमान रेल उपयोगकर्ता इसे नापसन्द करेंगे सोध यातायात के औचित्य के अभाव के अलावा, खण्डवा-अजमेर खण्ड पर एक नयी तेज सवारी गाड़ी चलाना परिचालन दृष्टि से भी व्यावहारिक नहीं है क्योंकि मार्गस्थ खण्डों पर अतिरिक्त लाइन क्षमता उपलब्ध नहीं है।

(ग) यह विस्तार कार्य कब तक पूरा हो जायेगा और इस के परिणाम स्वरूप मध्य प्रदेश में विद्युत उत्पादन में कितने प्रतिशत वृद्धि होगी?

सिबाई और विद्युत मंत्रालय में उपमंत्री (श्री बाबूनाथ कुरील) (क) योजना आयोग ने, अभी हाल में, मध्य प्रदेश में कोरबा और अमरकण्टक विद्युत केन्द्रों के प्रत्येक केन्द्र का 120 मेगावाट की एक यूनिट द्वारा विस्तार करने के लिए अपनी स्वीकृति

दे दी है। कोरबा में यह यूनिट उस 120 मेगावाट की एक यूनिट के अलावा होगी जिसकी स्वीकृति अगस्त, 1971 में दे दी गई थी और जिसपर पहले से ही कार्य आरम्भ कर दिया गया है।

(ख) कोरबा और अमरकण्टक विद्युत केन्द्रों के वर्तमान विस्तार के लिए क्रमशः 1835.95 लाख और 1861.47 लाख रुपए की लागत अनुमानित की गई है। कोरबा में हाथ में लिए गए विस्तार कार्य की अनुमानित लागत 1822.42 लाख रुपए है।

(ग) इन केन्द्रों के चालू होने की अनुसूचित तिथियां इस प्रकार हैं :—

(1) कोरबा में पहला 120 मेगावाट सेट—1974-75

(2) कोरबा में दूसरा 120 मेगावाट सेट—1976-77

(3) अमरकण्टक में 120 मेगावाट सेट—1977-78

(ग) क्या इस समय कण्डक्टर का कार्य परिचारक (मटेडेंट) करता है जो कि इस कार्य के लिए सर्वथा अक्षम है ; और

(घ) इस कमी को कब तक दूर किया जायेगा ?

रेल मंत्री (श्री टी० ए० पाई०) : (क) और (ख) डिब्बा परिचरों की व्यवस्था केवल पहले दर्जे के गलियारेदार डिब्बों में की जाती है, न कि पहले दर्जे के सभी डिब्बों में । अजमेर-खण्डवा खण्ड पर चलने वाले पहले दर्जे के गलियारेदार डिब्बे में डिब्बा परिचरों की व्यवस्था उपलब्ध है ।

(ग) डिब्बा परिचर अपने डिब्बे के यात्रियों को आवश्यक सहायता देते हैं । केवल महत्वपूर्ण डाक और एक्सप्रेस गाड़ियों पर डिब्बा परिचरों के अलावा कंडक्टरों की भी व्यवस्था है ।

वर्तमान व्यवस्था १ पर्याप्त समझा जाता है ।

STATEMENT

Pursuant to recommendations made by the High Power Committees which had gone into the problem of corruption, fullfledged Vigilance Organisations are functioning on each of the Zonal Railways and in the Railway Board. Measures and procedures have been evolved over a period of years for investigations by the Vigilance Organisation into complaints of corruption and malpractices and for surprise preventive checks by the Organisation with a view to unearthing malpractices. The Vigilance Organisation conducts such checks individually as well as jointly with the Special Police Establishment with which it maintains liaison. Annual programme of anti-corruption work by the Vigilance Organisation is laid down by the Central Bureau of Investigation of the Department of Personnel. More than 12,000 Preventive Checks were conducted during the year 1971-72. These have resulted in appreciable saving by alerting the staff or plugging the loopholes in the prevailing procedures and practices. Sustained and organised preventive checks will continue to be made at all vulnerable points susceptible of corruption with a view to plugging the loopholes in the rules and regulations, detected during the course of such checks. All complaints made bonafide and information given bonafide about corruption and malpractice are taken up for investigation by the Vigilance Organisation irrespective of the rank and status of the official complained against and irrespective of the status of the complainant.

2. Cooperation of workers and employees in tracking down corruption is always welcome. With a view to minimise thefts and pilferages, all the Railway Administrations had been given instructions sometime back to enlist the co-operation of employees and workers.

(ख) क्या कैंसर जैसी बीमारियों के इलाज में प्रयुक्त होने वाली किसी भी औषधि का भारत में उत्पादन नहीं होता और ये हर वर्ष आयात की जाती है ; और

(ग) यदि हाँ, तो सरकार इन देश में बनाने के प्रयत्न कब तक कर सकती है ?

प्रोडिक्शन और प्रोडक्शन में उपलब्ध (बी बलवीर सिंह) : (क) एक विवरण, जिस में 1971-72 के दौरान आयात की गई महत्वपूर्ण औषधियों के नाम तथा उनके मूल्यों का उल्लेख किया गया है, सभा पटल पर रखा गया है।

(ख) जबकि अधिकांश एंटी-कैंसर औषधियों का इस समय आयात किया जा रहा है तथापि आयातित प्रमुख औषधियों पर आधारित कुछ ई०जी० एण्डीक्शन का देश में उत्पादन किया जा रहा है।

(ग) दो एंटी-कैंसर औषधियों के मूल निर्माण के लिये प्रस्ताव प्राप्त हुए हैं और उनकी जांच की जा रही है। आशा है कि निकट भविष्य में उन प्रमुख औषधियों का निर्माण स्थानीय तौर पर किया जायेगा।

रेलवे स्टेशनों पर नलकूपों से पेयजल का प्रबंध

5043. श्री हुकम चन्द कश्यप : क्या रेल मंत्री यह बताने की कृपा करेंगे कि :

(क) भारतीय रेलों के ऐसे स्टेशनों की संख्या कितनी है जिन पर नलकूपों से शुद्ध पेय जल की सप्लाई की कोई व्यवस्था नहीं है; और

(ख) इस बारे में सरकार की क्या योजनाएं हैं ?

रेल मंत्री (श्री टी० ए० पाई) : (क) और (ख) पीने के पानी की सप्लाई की व्यवस्था मौलिक सुविधाओं में से एक है जिसकी व्यवस्था भारतीय रेलों के सभी स्टेशनों (हाल्ट स्टेशनों को छोड़ कर) पर रहनी चाहिए और यह व्यवस्था ऐसे सभी स्टेशनों पर मौजूद है। पानी के सप्लाई की व्यवस्था केवल नल-कूप से नहीं बल्कि अन्य साधनों से भी की जा सकती है।

फिर भी 3270 स्टेशनों पर (दक्षिण मध्य और पश्चिम रेलों को छोड़ कर जिनकी सूचना तत्काल उपलब्ध नहीं है) पानी की सप्लाई नल कूपों से भिन्न अन्य साधनों से की जाती है। जहां कहीं भी आवश्यक हो पानी सप्लाई की वर्तमान व्यवस्था में वृद्धि करना एक निरंतर प्रक्रिया है।

Operational Registration and Infringement of priority in wagon booking (Allahabad Division)

5044. SHRI AZIZ IMAM: Will the Minister of RAILWAYS be pleased to refer to the reply given to Unstarred Question No. 947 on the 21st March, 1972 regarding Operational Registration on and infringement of priority in

wagon booking (Allahabad Division) and state:

(a) whether the required information has been collected, if so, the salient features thereof; and

(b) if not, the time by which it will be collected and laid on the Table of the House?

THE MINISTER OF RAILWAYS (SHRI T. A. PAI): (a) and (b). Only Manzurgashi station of Allahabad Division is reported to have booked 315 wagons in 1970-71 against operational restrictions without proper sanction.

Special pay taken into account while fixing up in higher grades F.T.A. Office, Delhi (Western Railway)

5045. DR. KARNI SINGH: Will the Minister of RAILWAYS be pleased to state:

(a) whether the special pay of Rs. 15 which is given to comptometer machine operators in Foreign Traffic Accounts Office, Western Railway, Delhi for working on machine, is taken into consideration for the fixation of pay in the higher grade;

(b) if so, the number of comptometer machine operators who have been given the above benefit at the time of fixation of their pay in the higher grade i.e., Clerk Grade I, and the total number of Clerks grade I who were adversely affected as a result of the erroneous fixation of pay of their juniors; and

(c) the steps Government propose to take to remove the hardships done to the Clerks Grade I consequent on the anomalous fixation of the pay of their juniors as per Railway Board's letter No. PC-60/PP-1 dated 19th March, 1966?

THE MINISTER OF RAILWAYS (SHRI T. A. PAI): (a) Special pay of Rs. 15 p.m. granted to Clerks Grade II for working as Comptometer Machine Operator was taken into account for fixation of their pay on promotion to Clerk Grade I posts during the period from 1-4-61 to 9-4-63. From

10.4.63 onwards, however, the rules were changed and this special pay is only protected to the extent of the difference between the pay fixed (without taking into account the special pay) on the date of promotion to the higher grade to Clerk Grade I posts and the pay plus special pay drawn in the lower posts of Machine Operators as personal pay to be absorbed in future increases of pay.

(b) There are 3 Comptometer Machine Operators in the Foreign Traffic Accounts Office, Western Railway, Delhi who have been given the benefit of fixation of pay taking into account the special pay of Rs. 15 as their cases arose during the period from 1-4-61 to 9-4-63. Since the fixation of pay of these 3 Comptometer Machine Operators was done in accordance with the rules in force during above-mentioned period, the fixation of their pay cannot be treated as erroneous. However, there were 72 Clerks Grade I who were drawing pay at stages higher than the stages which the 3 Clerks Grade II working on the Comptometer machines were drawing but the latter happened to draw pay at a higher stage than the pay drawn by their senior Clerks Grade I due to special pay of Rs. 15 being taken into account for fixation of pay.

(c) Does not arise because firstly, as started in reply to part (b) above, there is no erroneous fixation of pay in this case and secondly, as the condition stipulated under para 3(c) of Board's letter No. PC-60/PP/1 dated 19th March, 1966 is not fulfilled, no stepping up of the pay of the senior Clerks Grade I can be done.

Confirmation of Clerks, Grade I, Accounts Department, Western Railway.

5046. DR. KARNI SINGH: Will the Minister of RAILWAYS be pleased to state:

(a) the number of vacancies in the grade of Rs. 130-300 filled in substantively by confirming officiating
3002 LS.—7

Clerks Grade I in the Accounts Department of Western Railway from 1st April, 1968 onwards;

(b) whether the above vacancies have been filled in the ratio of 3:1 between App. 2-A Qualified and Senior-cum-suitable staff in accordance with the Justice Sankar Saran Award accepted by Government; and

(c) if not, the steps taken to rectify the irregularity?

THE MINISTER OF RAILWAYS (SHRI T. A. PAI): (a) 362.

(b) No; the ratio of 3:1 does not apply for confirmation.

(c) Since there is no irregularity in this case, the question of rectification does not arise.

Representation for Change of Sites for Rengali and Bhim Kund Projects in Orissa

5047. SHRI CHINTAMANI PANIGRAHI: Will the Minister of IRRIGATION AND POWER be pleased to state:

(a) whether Government have received any representation for change of sites for Rengali and Bhim Kund Projects in Orissa; and

(b) if so, the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTER OF IRRIGATION AND POWER (SHRI B. N. KUREEL): (a) Yes, Sir.

(b) The project reports of the Rengali and Bhimkund Dams have been finalised by the State Government of Orissa after the consideration of alternatives, the storage requirements, costs and benefits.

5048. SHRI P. GANGA REDDY: Will the Minister of IRRIGATION AND POWER be pleased to state the number of villages which have been sanctioned for rural electrification by Rural Electrification Corporation in Andhra Pradesh and how much loan has been sanctioned to Andhra Pradesh so far?

THE DEPUTY MINISTER IN THE MINISTRY OF IRRIGATION AND POWER (SHRI B. N. KUREEL): The Rural Electrification Corporation since its inception in July, 1969, have so far sanctioned 22 rural electrification schemes, including one for Pilot Co-operative Project, for Andhra Pradesh envisaging loan assistance of Rs. 1553.550 lakhs for the electrification of 1438 villages, energisation of 35,248 pumpsets and power supply to 2144 small scale and agro industries.

CALLING ATTENTION TO MATTER OF URGENT PUBLIC IMPORTANCE

REPORTED MURDER OF A HARIJAN STUDENT IN HATHRAS (UTTAR PRADESH)

श्री शंकर बयाल सिंह : (चतरा) : अध्यक्ष महोदय, मैं अविलम्बनीय लोक महत्व के निम्नलिखित विषय की ओर माननीय गृह-मंत्री जी का ध्यान दिलाना चाहता हूँ और प्रार्थना करता हूँ कि वे इसके बारे में अपना वक्तव्य दें—

“हाथरस, उत्तर प्रदेश में एक हरिजन छात्र की हत्या के सम्बन्ध में।”

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS AND IN THE DEPARTMENT OF PERSONNEL (SHRI RAM NIWAS MIRDHA): On the 13th December, at about 7.00 p.m. some Scheduled Caste students of the Murlidhar Gajanand Technical Institute, Hathras, who were staying at a place called Radhaswami Bagichi were assaulted by some other students of the same Institute. On receipt of information regarding the incident the local police reached the site of occurrence and found one wounded Scheduled Caste student, Rajen Singh by name, lying unconscious. Shri Rajen Singh was admitted in the Civil Hospital, but he did not regain consciousness throughout and expired in the morning of the 14th December.

Two of the persons who had been named in the report lodged with the police have been arrested; two others are still reported to be absconding. Ten students suspected of being a party to the assault have also been arrested. Further, on receipt of complaints from some Scheduled Castes students apprehending breach of peace, seventy five students were arrested under Sections 107/117/151 Cr. P. C. as a preventive measure. The Principal, the Proctor and the Warden of the Institute were also arrested, in connection with alleged offences under Sections 5/7 of the Untouchability (Offences) Act, 1955 and were later released on bail. Senior officers, including the Commissioner and the D.I.G. have visited Hathras and the situation is reported to be under control.

श्री शंकर बयाल सिंह : मान्यवर, यह जो खून हुआ है, मैं समझता हूँ कि किसी विद्यार्थी का खून नहीं बल्कि सारी मानवता का खून है और हमारे सामाजिक जीवन का खून है। इस तरह की घटना केवल हाथरस में नहीं घटी है, बल्कि कल भी इसी सदन में गाजिआबाद जाने की घटना को लेकर हम बहुत कुछ विचार कर चुके हैं। इस तरह की घटनाएँ किसी एक हिस्से

में नहीं घट रही है, बल्कि कभी बिहार में कभी उत्तर प्रदेश में, कभी गांधी में, कभी गुजरात में, कभी देश के किसी प्रान्त में, कभी किसी प्रान्त में, घटती है । जब हम ने यह माना है, अपने संविधान में यह अधिकार दिया है और आजादी के बाद इस बात पर सब से अधिक महत्व दिया है कि हर व्यक्ति समान है, हरिजनों को भी समान रूप से रहने का अधिकार है, मन्दिरों में जाने का अधिकार है, पाठशालाओं में पढ़ने का अधिकार है, स्कूल कक्षाओं में पढ़ने का अधिकार है, छात्रावास में रहने का अधिकार है, तो फिर क्यों नहीं सरकार अमल में लाने के लिये कड़ाई से इन बातों पर कदम उठाती ?

मान्यवर, हमारे सामने जो कुछ भी बातें आई है—अखबारों द्वारा—सब को ज्ञात है कि किम तरह की शर्मनाक घटना पिछले तारीख 13 को हाथरस में घटी । उस के पहले भी उत्तर प्रदेश के कई हिस्सों में इस तरह की घटनाएँ घट चुकी हैं, जिन को सूचना सरकार को मिली थी और गदन भी इन बातों पर विचार कर चुका है । मैं तो आप के माध्यम से केवल यह कहना चाहूंगा कि जब सरकार इस बात को मानती है कि यह अपराध हमारे सामने है तो इस के खिलाफ कड़ाई से कदम क्यों नहीं उठाती । गांधी जी ने कहा था कि स्वराज्य लाने और उस को वास्तविक स्वराज्य में बदलने के लिये हरिजनों को बराबरी का दर्जा देना होगा और सरकार इस बात को मानती है तो क्या मंत्री महोदय अपने कलेजे पर हाथ रख कर सफाई के साथ इस बात को कह सकेंगे कि आजादी के 25 सालों के बाद भी उन को बराबरी का दर्जा दिया है ? हम ने उन को जनभाषा में हरिजन और आदिवासी जरूर कहा है, कानून की भाषा में अनुसूचित जाति तथा जनजाति कहा है, लेकिन व्यवहार की कसौटी पर वे अभी भी बहुत दलित हैं, लांछित हैं

और उन के प्रति घृणा व्यक्त की जाती है । मैं मानता हूँ कि यह सामाजिक अपराध है, समाज को सुधारना होगा, इसमें जवाब देनी केवल सरकार की नई है, बल्कि हमारे सभी राजनीतिज्ञ नेताओं की भी जवाबदेही है, हमारे सामाजिक ढाँचे की जवाबदेही है इस लिये सरकार जब भी देखेगी कि इस तरह की घटनाएँ देश के किसी हिस्से में घट रही हैं तो न केवल उसी हिस्से में बल्कि देश के दूसरे हिस्सों में भी कड़ाई से कदम उठाना होगा । अस्पृश्यता निवारण कानून, 1955 में बना था और इस में लिखा है कि इस के अन्तर्गत हम अधिक से अधिक कड़ाई से काम ले सकते हैं, मैं जानना चाहता हूँ कि 1955 से लेकर 1972 तक हम मामले में कितनी अधिक कड़ाई सरकार ने की है, कौन कौन से कदम उठाये हैं ?

पिछले दिनों तारीख 15 को श्री मिर्धा ने राज्य सभा में एक प्रश्न के उत्तर में खुद यह स्वीकार किया था कि 1969-70 में देश में पाँच हरिजनों की जिन्दा जलाया गया, 83 हरिजनों के घरों को जलाया गया और लगभग डेढ़ हजार मुकदमे अभी भी विचारार्थीन है । जब आप के पास ये आंकड़े मौजूद हैं तो क्या आप भारत की जनसंख्या की तरह से इन आंकड़ों को बढ़ाने में गौरव समझते हैं । हमारे लिये यह बहुत चिन्तनीय विषय है । अस्पृश्यता उस सामाजिक बीमारी का लक्षण है, जिस ने भारतीय समाज को ऊँच-नीच और वर्गभेद में बाँटा है । उस से हमारा मस्तक हमेशा नीचा होता रहा है । अस्पृश्यता वह बीमारी है जिस का खून चाहे हाथरस में गिरे, चाहे गाजियाबाद के किसी थाने में गिरे, लेकिन उस खून की छिंटें हम सब के शरीर पर गिरते हैं, जिस को हम कभी भी हटा नहीं सकते और इस में सरकार बहुत बड़ी जवाबदेही है ।

इन बातों की ओर ध्यान दिलाते हुए मैं सरकार से मुख्य रूप से दो तीन बातें पूछना चाहता हूँ और मैं आशा करता हूँ कि माननीय गृह मंत्री जी उस पर ध्यान देंगे जिससे

[श्री शंकर बहाल सिंह]

भविष्य में इस तरह की लज्जाजनक बात देश के किसी हिस्से में न हो। मैं जाना चाहता हूँ कि समाचारों के अनुसार 11 दिसम्बर से ही सवर्ण और हरिजन छात्रों में मुर्लीधर गजानन्द टेक्निकल इंस्टीट्यूट हाथरस में जो तनातनी चल रही थी सरकार ने क्यों नहीं उसी समय से उचित कदम उठाए और सावधानी बर्ती ताकि किसी छात्र का खून नहीं हो पाता ?

दूसरे—अस्पृश्यता निवारण कानून 1955 में सरकार ने पास किया लेकिन अभी तक उसे पूर्णतया व्यावहारिक रूप में नहीं लाया जा सका तो इसके सम्बन्ध में सरकार क्या कर रही है ?

तीसरे—इस प्रकार की दुखद घटनाएँ जहाँ कहीं होती हैं उनकी पृष्ठभूमि में सरकार और स्थानों में क्यों नहीं सुदृढ़ कदम उठाती है ?

चौथे—राजेन्द्रसिंह जो छात्र था जिसकी हत्या की गई है उसके परिवार की स्थिति अब क्या है उसके सम्बन्ध में सरकार ने कौन से कदम उठाए हैं ?

अन्त में मैं सरकार से अनुरोध करूंगा कि इस घटना की जांच के लिए संसद की एक छोटी सी कमेटी बने जिसका नेतृत्व माननीय अध्यक्ष महोदय स्वयं करें ताकि उसकी रिपोर्ट जब हमारे सामने आये तो उसका एक ग्रहण महत्व हो और उसके परिप्रेक्ष्य में हम कुछ कदम बढ़ा सकें। मैं चाहूंगा कि गृह राज्य मंत्री महोदय इन बातों को स्वीकार करें और उचित उत्तर दें।

श्री राम निवास मिश्रा : श्रीमन्, यह बहुत ही खेदजनक बात है कि इस प्रकार की घटनाएँ होती हैं और सदन को भी इस समस्या पर चिन्ता प्रकट करने और उसकी गम्भीरता की ओर संकेत करने को समय समक्ष पर बाध्य होना पड़ता है। छुआछूत कानून है और उसका पालन भी किया जा रहा है। भारत सरकार हमेशा राज्य सरकारों

से इस बात को कहती रहती है कि हरिजनों को जो भी सांविधानिक संरक्षण और सुविधायें मिली हुई हैं वह पूर्ण रूप से उनको मिल सकें इस प्रकार की व्यवस्था की जाए। छुआछूत के सम्बन्ध में भी जो कानून है उसके बारे में भी समय समय पर राज्य सरकारों से हम सम्पर्क स्थापित किए रहते हैं, उनसे आंकड़े मंगवाते हैं और उनको सुझाव देते हैं कि किस प्रकार कड़ाई से इस कानून का पालन किया जाये और सारी व्यवस्था को किस प्रकार से ठीक रखा जाये।

इस घटना के सम्बन्ध में कुछ जानकारी माननीय सदस्य द्वारा चार्ज गई हैं। 11 दिसम्बर को कुछ घटनाएँ हुई और उसके फलस्वरूप कुछ हरिजन विद्यार्थी हाथरस हास्टेल छोड़ कर अलीगढ़ चले गए और कुछ हाथरस में अन्य स्थानों पर चले गए। 13 तारीख को कुछ विद्यार्थी जो अलीगढ़ चले गए थे वहाँ से वापिस आये और उन्होंने जाकर पुलिस में यह रिपोर्ट की कि दूसरे दिन यानी 14 तारीख को विद्यार्थी वापिस आने वाले हैं इसलिए उनको पूर्ण रूप से संरक्षण दिया जाये। इस प्रकार यह जो वमत चल रही थी जो कुछ विद्यार्थी वापिस अलीगढ़ चले गए और कुछ विद्यार्थी राधा-स्वामी बागीचे में ठहर गए। उसी शाम को यह घटना हुई कि कुछ विद्यार्थियों ने जाकर उन विद्यार्थियों पर राधास्वामी बागीचे में हमला किया और जिसके फलस्वरूप श्री राजेन्द्र सिंह की हत्या हुई और दूसरे व्यक्ति भी घायल हुए। इस संबंध में जो जिला प्रशासन है उसने काफी कदम उठाये। जैसा मैंने निवेदन किया प्रिवेंटिव जो प्राविजनस हैं उनके अन्तर्गत 75 विद्यार्थियों को गिरफ्तार किया गया और प्रिंसिपल, प्राक्टर और बार्डन जो उस उस संस्था के हैं उनको भी... (व्यवधान).....

SHRI R. D. BHANDARE: (Bombay Central): After the event preventive measures were taken.

श्री राम निवास सिन्हा : पुलिस का यह कहना है कि 13 तारीख को जो विद्यार्थी अलीगढ़ से हाथरस आये उन्होंने कहा कि 14 तारीख को परीक्षा में बैठने के लिए अलीगढ़ से विद्यार्थी आ रहे हैं और हमें अवेगना है कि संस्था में शायद न जाने दें तो हमें संरक्षण दें और यह बात कहकर वे वापिस चले गए। कुछ तो अलीगढ़ वापिस चले गए और कुछ उस बगीचे में ठहर गए। ... (व्यवधान)। 14 तारीख तो आई ही नहीं। 13 तारीख की रात को ही यह सारा झगड़ा हो गया। (व्यवधान)..... इसमें किसी को बचाने या प्रोटेक्ट करने का सवाल नहीं है। मेरे पास जो सूचना है, राज्य सरकार की पुलिस ने क्या कार्यवाही की है वह मैं बता चुका हूँ। इसमें किसी तरह से भी किसी को बचाने या रफा दफा करने की कोई मंशा नहीं है और जो भी तथ्य है मेरे पास उनको मैंने प्रस्तुत करने का प्रयत्न किया है।

श्री शंकर बहाल सिंह : सभी दलों के संसद सदस्यों की एक समिति माननीय अध्यक्ष महोदय की अध्यक्षता में बनाई जाये जो इसकी जांच करे, उसके सम्बन्ध में आपने नहीं कहा है।

श्री राम निवास सिन्हा : इस समय इस सम्बन्ध में कानूनी कार्यवाही चल रही है। ऐसी स्थिति में यहां संसद की कोई समिति बने अध्यक्ष महोदय की अध्यक्षता में—यह जो सुझाव दिया गया है वह उचित नहीं होगा।

अध्यक्ष महोदय : इस तरह का यहां कोई रिवाज भी नहीं है।

श्री एस० एम० बनर्जी (कानपुर) : अध्यक्ष महोदय, मंत्री महोदय, ने अभी जो बयान दिया है, उत्तर प्रदेश के अखबारों में देखें तो शायद ही कोई अखबार हो जिसने बैनर हेडलाइन्स में इसके बारे में न लिखा हो—

Attacked by fellow boarders; one harijan student fatally stabbed.

कहा जाता है—'बाई कास्ट हिन्दू स्टूडेंट्स'। मेरी गर्दन शर्म से झुक जाती है जब मैं देखता हूँ कि उत्तर प्रदेश में इस प्रकार की एक घटना के बाद दूसरी घटना घटने में ज्यादा समय भी नहीं लग रहा है। कल इस सदन में गाजियाबाद की बात आई थी और उस वाक्य के सम्बन्ध में श्री नूरुलहसन साहब ने जो बयान दिया था उस पर विश्वास करने में काफी तकलीफ होती है क्योंकि कहा यह गया कि उस लड़के ने तेल छिड़क कर, माचिस लगाकर आपने आप को जला दिया। आप सोच सकते हैं कि पुलिस लाक-अप में पुलिस के सामने एक आदमी खुदकशी कर ले यह मुमकिन नहीं हो सकता है। मैं समझता हूँ उस लड़के को पुलिस वालों ने पेट्रोल छिड़क कर या मिट्टी का तेल छिड़क कर शायद मार डाला जिसकी अदालती जांच होनी चाहिए। इस हाथरस की घटना के पहले बलिया डिस्ट्रिक्ट में एक गांव है जहां पर एक हरिजन महिला का रेप किया गया और उसके बाद हमारे हरिजन ने उसको बचाने की कोशिश की तो उसको इतना मारा गया कि हॉस्पिटल में जाकर मर गया। मेरे मित्र चन्द्रिका प्रसाद जी मौजूद हैं, उनका नाम बदकिम्मी से नहीं आया इस घटना की जांच वे खुद कर चुके हैं और हाथरस में मेरे मित्र गलानी जी और तीन मेम्बर पार्लमेन्ट खुद देख कर आये हैं, क क्या तांडव कहां पर किया गया है हरिजन बच्चों के साथ।

अध्यक्ष महोदय, मैं कहना चाहता हूँ कि जब हरिजन कल्याण की बात आती है तो हमारे देश के तमाम मान्य व्यक्ति चाहे वह राष्ट्रपति जी हों, प्रधान मंत्री हों, या कोई अन्य हों, हरिजन की आंखें मुखातिब होकर कहते हैं कि तुम देश के निर्माता हो, देश में जो नई इमारत

[श्री एस० एम० बनर्जी]

बनेगी तुम उसकी ऐसी बुनियाद हो जो कभी नजर नहीं आयेगी लेकिन तुम्हारे कंधों पर वह आलीशान इमारत खड़ी रहेगी। मुझे नहीं मालूम कि यह बात उनसे अभी भी कही जाती है या नहीं लेकिन आज आप उत्तर प्रदेश या दूसरे प्रदेशों के गांवों में चले जाइये तो आपको बखूबी पता लग जायेगा कि आज भी हरिजन लोगों के प्रति सवर्ण जाति वालों का क्या व्यवहार होता है। कोई गांव आपको ऐसा नहीं मिलेगा जिसके पनघट पर कोई हरिजन महिला जाकर बिना रोकटोक पानी ले आ सके। हरिजन महिलाएँ आज भी गांव के पनघट पर पानी लेने नहीं जा सकती हैं। मुझे दुःख के साथ यहां बतलाना पड़ता है कि उन्नाव जिले के रीपलखेरा गांव में जहां केवल हरिजन लोग ही रहा करते थे वह दूसरी जगह जमीन लेने की कोशिश कर रहे थे लेकिन उन्हें दूसरी जगह जमीन लेने नहीं दी गई।

मैं उत्तर प्रदेश की सरकार की टिप्पणी नहीं करना चाहता हूं और यह अपनी जांच करे। लेकिन पुलिस ने जो बतवि किया है बलिया के मामले में, हाथरस के मामले में अथवा गाजियाबाद के मामले में जिस तरीके से उनका हाथ नजर आता है, उसमें चाहे सीधे तरीके से हो या दूसरे तरीके से हो, मैं समझता हूं कि हरिजन सदस्यों को उत्तर प्रदेश की पुलिस द्वारा जांच पड़ताल करने पर बिलकुल विश्वास नहीं रहा है। मेरी समझ में हमारे मित्र श्री शंकर दयाल सिंह ने जो यह मांग की है कि अध्यक्ष महोदय की अध्यक्षता में एक पार्लियामेंटरी कमेटी वहां पर जानी चाहिये तो मैं समझता हूं कि इसमें कोई ऐतराज की बात नहीं होनी चाहिये। इसके लिये उत्तर प्रदेश के मुख्य मंत्री जी जो श्री ऐतराज नहीं करना चाहिये और वह यह ऐतराज की तो अच्छी बात है। इसकी

सारी जांच पड़ताल एक सेंट्रल एजेंसी से करवाई जाय।

जिस तरह का व्यवहार आज देश के अनेक भागों में हरिजनों के साथ हो रहा है उसके कारण हरिजनों का विश्वास हमारे द्वारा विगत में की गई घोषणाओं और वायदों पर से उठता जा रहा है। आज भी उनका शोषण चल रहा है और उन पर अत्याचार हो रहे हैं और उनके जायज हकों से उनको महरूम रखा जा रहा है। जब सोशल स्टेट्स की बात होती है तो उनको अलग रखा जाता है। मैं इसलिये आपसे निवेदन करना चाहता हूं कि इसके लिये एक हाई पावर कमीशन नियुक्त किया जाये। मैं चाहता हूं कि एक कमीशन जिसका कि अध्यक्ष सुप्रीम कोर्ट का अथवा हाईकोर्ट का जज हो, मैं रिटायर्ड जज की बात नहीं कह रहा हूं, वह सर्विग जज होना चाहिये जिसकी कि अध्यक्षता में वह जांच कमेटी बनाई जाये और उसके द्वारा तमाम मामले की जड़ में जाकर छानबीन की जाय और यह जानने की कोशिश की जाय कि क्या यह मामूली विद्यार्थियों विद्यार्थियों का झगड़ा है, क्या यह मामूली मोहल्ले मोहल्ले के लोगों का झगड़ा है, गांव गांव वालों में झगड़ा है या इसके पीछे कोई जबरदस्त हाथ है जो कि देश में एक अशान्ति का वातावरण पैदा करना चाहता है और हरिजनों के प्रति कास्ट हिन्दूज में एक विद्वेष की भावना फैलाना चाहता है ?

पार्लियामेंटरी कमेटी द्वारा जांच अगर मंत्री महोदय को मंजूर नहीं है तो क्या उत्तर प्रदेश की सरकार से वह बातचीत करेंगे, वहां के मुख्य मंत्री से बातचीत करेंगे कि वह इसके लिये एक हाई पावर कमीशन नियुक्त करने को तैयार हैं ? मैं अभी जब वहां देखने गया था और उनसे बातचीत की थी तो उन्होंने कहा था कि भाई सन्न की भी कोई इन्तिहा होती है। उनका

कहना है कि हम हमेशा सहते जायेंगे लेकिन अगर सहते सहते परेशान होकर कहीं एक दफे हमारे इन हरिजन भाइयों ने अंगड़ाई ली, इन करोड़ों लोगों ने अंगड़ाई ली तो मुझे मालूम नहीं कि तब क्या बनेगा। मैंने मैं नहीं चाहता कि इस तरह की कोई गड़बड़ देश में पैदा हो लेकिन उनका सब इतिहास पर है और वह चाहें तो एक दफे मुकाबला करने के लिये खड़े हो सकते हैं अगर उनकी अवतरी और उन पर होने वाला जुल्म बंद नहीं होता है तो उन्हें खड़े होना चाहिये। वह हमारे हरिजन भाई सच्चे मायनों में इस धरती के लाल हैं और इस धरती को खुशहाल बनाने के लिये उन्होंने अपना खून बहाया है। मैं चाहता हूँ कि इस मामले को लेकर जल्द से जल्द समुचित कार्यवाही की जाये और एक हाई पावर कमिशन नियुक्त किया जाय ताकि उनका भरोसा और ऐतमाद सरकार पर कायम हो जाये। केवल सन्दर्भ उगा ऐश्वर्य दे दे अथवा घोषणा करने कि हम उनका उत्थान करें इससे कुछ नहीं होने जा रहा है। मैं इन दो सवालों का जवाब मंत्री महोदय से साफ तोर पर चाहता हूँ।

If they do not accept a Parliamentary Committee going there, let them appoint a Commission of Inquiry presided over by a High Court—or Supreme Court—Judge, to allay the fears in the minds of crores of Harijans in the country. There is a fear in the minds of the Harijans that they are not safe in this country.

श्री राम निवास मिर्धा : श्रीमन्, एक माननीय सदस्य का सुझाव था कि कोई एक केन्द्रीय एजेंसी हो जो कि इन सारी इस प्रकार की घटनाओं की जांच करे। केन्द्रीय एजेंसी इन घटनाओं की जांच इसलिये नहीं कर सकती है कि कानून की व्यवस्था और ऐसे मुद्दों की जांच करने का अधिकार हमारे संविधान में राज्य सरकारों को प्राप्त है और राज्य सरकारें और उनकी पुलिस ही इस प्रकार की जांच कर सकती है। इसलिये

केन्द्रीय एजेंसी को कोई अधिकार हो, वहां पर जांच कर सकें, ऐसी स्थिति नहीं है। अतः केन्द्रीय एजेंसी से जांच करवाने में असमर्थता है।

माननीय सदस्य का सुझाव था कि एक कमिशन नियुक्त किया जाय। किसी सुप्रीम कोर्ट के जज की अध्यक्षता में जो कि इन सारी घटनाओं और इनसे सम्बन्धित सारी बातों की जांच करे। श्रीमन्, मेरा कहना है कि पेरूमल कमेटी के बारे में माननीय सदस्यों का अच्छी तरह से मालूम है। उस कमेटी ने इन सारी बातों की जांच की है कि किस तरीके से छुआछत के कानून को अमली रूप दिया जा सके और जो हरिजनों को अग्न्य प्रकार की असुविधायें व दिक्कतें पेश आती हैं उन पर क्या कार्यवाही की जाय, पेरूमल कमेटी ने बहुत विस्तार से जांच की है और जो भी उनके सुझाव व रिफरिण्डें थीं उन पर अमल भी किया जा रहा है। ऐसी स्थिति में कोई एक नया कमिशन बनाने की आवश्यकता प्रतीत नहीं होती है।

SHRI S. M. BANERJEE: I wanted an answer regarding my suggestion for an enquiry into this specific incident. I never wanted a clarification.

श्री राम निवास मिर्धा : माननीय सदस्य ने बनिया जिले के छारा गांव में हुई घटनाओं के संबंध में उल्लेख किया। वहां पर जो घटनायें हुई उस के संबंध में सत्यदेव पांडे और वशिष्ठ पांडे और जो दूसरे मुल्जिम हैं उन के विरुद्ध कार्यवाही की जा रही है। उन को गिरफ्तार किया गया है। वहां का हैड कांस्टेबल था जोकि कोतवाली पुलिस थाने में काम करता था जिसकी कि उसमें जवाबदेही पाई गई उस को भी निलम्बित कर दिया गया है। उसी सम्बन्ध में यह सब कार्यवाही की गई है।

गाजियाबाद के संबंध में भी इस मदन में चर्चा हो चुकी है। इस घटना के सिलसिले में भी वह जो चार कांस्टेबल व उन को गिरफ्तार

[श्री चन्द्र शैलानी]

किया गया है और उनके ऊपर मुकदमा चलाया जा रहा है। उन को भी निलम्बित कर दिया गया है।

जहां तक माननीय सदस्य का यह सुझाव कि संसद सदस्यों की एक समिति इन सारी घटनाओं की जांच करने के लिए मौके पर जाय और पूरी जांच पड़ताल करे मैं पहले ही निवेदन कर चुका हूं कि इस प्रकार की समिति से कोई फायदा होने वाला नहीं है। इन सारी बातों पर कानून की व्यवस्था के अनुसार कार्यवाही हो रही है और कानूनी व्यवस्था के अनुसार उम में जांच भी हो रही है। अब जांच कार्य पूरा हो जाने के बाद ही पता चल सकता है कि किन किन व्यक्तियों पर क्या कार्यवाही की जा रही है और क्या हम उस में और कर सकते हैं... (व्यवधान)

श्री चन्द्र शैलानी (हाथरस) : अध्यक्ष महोदय, गत 13 तारीख को शैड्यूल्ड कास्ट के एक विद्यार्थी के कत्ल की हृदय विदारक दुर्घटना घटित हुई है। वह मेरे निर्वाचनक्षेत्र के शहर हाथरस में हुई है। मैंने और इस सदन के 4-5 माननीय सदस्यों ने पर्सों मौके पर जाकर घटनास्थल को देखा है। वह विद्यार्थी जहां रहा करते थे वहां मौके पर जाकर देखा व इनकवायरी करके वहां से हम लौंग वापिस आये हैं।

मंत्री महोदय ने जो अपने बयान में कहा है उस संबंध में मैं केवल इतना ही कहना चाहूंगा कि उन्होंने अपना यह बयान जिला अधिकारियों के कहने पर और उन की सूचना के आधार पर दिया है जबकि मैं इस सदन में स्वयं अपनी आंखों से देखी हुई बात कहूंगा। वह मेरा निर्वाचन क्षेत्र है और उस आधार पर मैं आप से निवेदन करना चाहूंगा कि यह जो 13 तारीख को जघन्य अपराध हुआ है उस की जड़ आज से 5 महीने पहले पड़ चुकी थी। जुलाई के महीने में जबकि कालिज का

सेशन खुलता है, वहां भी कालिज हले और वहां पर पोलिटेक्निक में विद्यार्थियों को दाखिला हुआ तो वहां पर स्वर्ण जाति के विद्यार्थियों के साथ कुछ शैड्यूल्ड कास्ट के विद्यार्थियों ने भी दाखिला लिया। अब जिस तरह की होस्टल में परम्परा है कि इंट्रोडक्शन नाइट मनाई जाती है उस होस्टल में भी इंट्रोडक्शन नाइट मनाई गई। वहां पर जब शैड्यूल्ड कास्ट के विद्यार्थियों का नम्बर आया तो स्वर्ण जाति के विद्यार्थियों के इंट्रोडक्शन नाइट के अन्दर याद राम नामक एव शैड्यूल्ड कास्ट के विद्यार्थी से उसका परिचय पूछा। उस ने अपना नाम बतलाया। इस पर उन को तसल्ली नहीं हुई। उन्होंने कहा कि तुम्हारी कौम क्या है। उस ने जवाब दिया कि मैं जाटव जाति का हूं। अब मैं वह शब्द जोकि उस हरिजन विद्यार्थी के लिए इस्तेमाल किए गए उन शब्दों का मैं इस माननीय सदन के समक्ष इस्तेमाल नहीं करना चाहता। लेकिन मैं आपको बतलाना चाहता हूं कि काफी अपमानजनक शब्दों में गाली देते हुए उन्होंने उस हरिजन विद्यार्थी से कहा कि चमरे, तेरा काम जूते गांठना और पालिस करना है। तुम यहां अवर ओवरगिथर बनना चाहते हो, भागो यहां से, लो जूते और पालिश करो और जबरदस्ती उम हरिजन लड़के से पालिस कराई गई। वहां पर उस को इस के लिए मजबूर किया गया कि वह होस्टल को छोड़ दे। याद राम ने उस होस्टल में रहने वाले सिंघा राम और दूसरे शैड्यूल्ड कास्ट के विद्यार्थियों से शिकायत की कि उनके साथ ऐसा अपमानजनक घटना हुई है। उस ने अपने शैड्यूल्ड कास्ट के दूसरे छात्रों से विचार विमर्श किया कि भाई इस मामले में क्या किया जाय। उन्होंने कहा कि इस की रिपोर्ट वार्डन को की जाय, तुरन्त वार्डन को रिपोर्ट की गई लेकिन वार्डन और प्रिंसिपल ने इस बारे में कोई भी कार्यवाही नहीं की। नतीजा यह निकला कि याद राम विद्यार्थी को होस्टल छोड़ने पर मजबूर होना पड़ा और उसने उन्ही दिन होस्टल छोड़ दिया।

वहाँ पर अगस्त के महीने में शैड्यूल्ड कास्ट के विद्यार्थी खाना खाने के लिए हाथरस शहर बाजार में जाया करते थे। एक दिन एक सिनेमा हाल के सामने कुछ शैड्यूल्ड कास्ट के विद्यार्थियों को उसी होस्टल में रहने वाले क्षत्रण जाति के विद्यार्थियों ने पकड़ कर बुरी तरह से पीट दिया। जब वह पुलिस की सहायता से रात को छात्रवास में पहुँचे तो उन्होंने तमाम रिपोर्ट बार्डन और प्रिंसिपल को दी लेकिन प्रिंसिपल और बार्डन ने उस पर कोई तवज्जह नहीं दी।

मैं आप से निवेदन करना चाहूँगा कि यह मेरे निर्वाचन क्षेत्र की घटना है वाकी इस तरह की घटनाएँ पूरे मुन्क में हो रही हैं। मैं आप से निवेदन करना चाहूँगा कि 24 नवम्बर को जो सलाना फंक्शन हुआ और उस अवसर पर कालिज में एक टो पार्टी का आयोजन हुआ था तो उस में शैड्यूल्ड कास्ट के विद्यार्थियों को बैठने को कुर्मी नहीं मिली तब उस ने खड़े हो कर एक प्लेट में से डिस्कुट उठा लिया। वहाँ पर दूसरे क्लाम के विद्यार्थियों ने उस को पीटा, वहाँ गटाफ के सब लोग मौजूद थे, और कहा कि तेरी इतनी हिम्मत हुई कि हमारी प्लेट से उठा कर खड़े ? जब प्रिंसिपल और बार्डन ने इस की शिकायत की गई तो उन्होंने कहा कि तुम नीचे हों, तुम को इसी तरह से रहना चाहिए, तुम को ज्यादा आगे नहीं बढ़ना चाहिए, किमी तरह से अपनी पढ़ाई पूरी करो, और अगर नहीं पढ़ना है तो यहाँ से चले जाओ।

अब मैं 11 तारीख में आता हूँ। शैड्यूल्ड कास्ट का एक लड़का था। जब वह मेस में खाना खाने जा रहा था तब उस को पकड़ लिया और बुरी तरह से पीटा। रात को 10 बजे शैड्यूल्ड कास्ट के विद्यार्थी प्रिंसिपल के पास गए और कहा कि हम होस्टल छोड़ कर जाते हैं, इतना अपमान हम से बढ़ाई नहीं होता। तब प्रिंसिपल ने कहा कि तुम टी० सी० ले जाओ, और अगर तुम को पढ़ना है तो यह

जुल्म और अत्याचार सहना पड़ेगा नहीं तो चमारों का कालेज खुलवा लो और वहीं पढ़ा। यह 11 तारीख की बात है और 12 तारीख को मजबूर होकर शैड्यूल्ड कास्ट के लड़कों ने होस्टल जाली कर दिया। संरक्षण के लिए वह अपने बड़े भाई के पास गए, जो यूनिवर्सिटी में पढ़ते थे। उन से कहा कि हम होस्टल जाली करना चाहते हैं या फिर हम को किसी कालेज में दाखिल दिला दो, हम वहाँ पर एक मिनट भी नहीं रह सकते हैं तब उन के अभिभावकों ने कहा कि हम हाथरस चलेगे और प्रिंसिपल साहब से प्रार्थना करेंगे कि इस्तहान दे लेने दें। 13 तारीख की पुलिस कोतवाल से मिले, उस के बाद शाम को 4 बजे प्रिंसिपल से मिले। प्रिंसिपल ने कहा कि लड़कों को इस्तहान दे देने दीजिए। इस की कोई व्यवस्था कीजिए। प्रिंसिपल ने कहा अच्छा, तुम इन की हिमायत करने आये हो। शाम को जब वे प्रिंसिपल से मिलने के बाद लौट रहे थे तब 6 बजे गश्ताम्वामी बकरीची में रात को सोने के लिए रह गए।

मैं गृह मंत्री महोदय से कहना चाहता हूँ कि अलीगढ़ में जो लड़के गए थे उन की जानकारी केवल हाथरस के पुलिस कोतवाल की थी या केवल प्रिंसिपल की थी, दूसरे किसी आदमी को नहीं थी। मैं जानना चाहता हूँ कि पार्लियामेंट के सत्रण विद्यार्थियों को कैसे पता चला कि अलीगढ़ के विद्यार्थी वहाँ पर आए हुए हैं। 6 बजे जिस लड़के का कत्ल हुआ है वह पार्लियामेंट का विद्यार्थी नहीं था, वह सरस्वती कालेज में बी० एस० सी० का विद्यार्थी था और छोटी सी दूकान में रह रहा था। आप को सुन कर ताज्जुब होगा कि वह दाल पका रहा था अपना पेट भरने के लिए, विद्यार्थी वहाँ पर आये लाठी ले कर, भाले ले कर, साइकिल की चेन ले कर, रिवाल्वर ले कर, स्टिक ले कर और उस से पूछा कि क्यों बे राजन, बता अलीगढ़ से जो दादा लोग आये हैं वह कहाँ पर हैं। मैं जानना

[श्री चन्द्र शैलानी]

चाहता हूँ कि जो दादागिरी करना चाहेंगे क्या वह प्रिंसिपल से मिलेंगे ? जब उन्होंने पूछा कि अलीगढ़ से जो दादा लॉग आए हुए हैं वह कहाँ हैं, तो उस ने कहा मुझे पता नहीं, मैं तो अपना खाना पका रहा हूँ। उन विद्यार्थियों ने फौरन उस की पर्तली उठाई और गर्म दाल उस पर डाल दी। उस को बाहर खींच कर ले आए और वहाँ चाकुओं से गोद दिया। मैं निवेदन करना चाहता हूँ कि आज भी वहाँ की जमीन खून से रंगी हुई है, मैं अपनी आँखों से देख कर आया हूँ। वहाँ पास में एक चक्की लगी हुई है। रामसिंह आटे की चक्की चलाता है। उस ने पुलिस को इन्फार्मेशन दी। तब केवल दो सिपाही वहाँ पर आये और उस को रिकशे में ले गए। मैं हृदय विदारक घटना सुनाना चाहता हूँ। जिस समय रिकशे में ले गए, उस को अस्पताल में इस तरह से डाल दिया जैसे कुत्तों और बिल्लियों को डाल दिया जाता है। आप देखिए कि प्रशासन कैसा है, वह कितना दोजी है कि अस्पताल के लोग उस की जान बचा सकते थे, लेकिन उस ठिठुरन की सर्दी में सारी रात तड़पता रहा, कराहता रहा। डाक्टर उस के पास नहीं आया। न उस को कम्बल दिया गया, न चारपाई दी गई और उस ने अपना दम तोड़ दिया।

मैं वहाँ के कलेक्टर के बारे में आपको बतलाना चाहता हूँ। अगर मेरा कथन गलत साबित हो तो आप मुझ को चौगाहे पर खड़ा कर के गोली मार दें। वहाँ का कलेक्टर रात को दो बजे तक जुआ खेलता है, शराब पीता है और दिन के दस बजे तक सोता है। वह किसी से मिलता तक नहीं है। 14 तारीख की शाम को चार बजे वह बयान देता है कि :

"Still his condition is serious; I think he cannot survive"

वह जीवित नहीं रह सकता जब कि उस के प्राण पक्षेय मुँह सात बजे ही उड़ चुके थे।

मैं जानना चाहता हूँ कि उस का डाइंग डिक्लेरेशन क्यों नहीं हुआ। प्रशासन के लोग कहते हैं कि वह अनकाशस था, अस्वस्थ था, उस को होश नहीं था, लेकिन प्रशासन का जिम्मेदारी है कि जिस आदमी पर कातिलाना हमला हुआ हो अगर वह अचेत अवस्था में पड़ा हुआ है तो किसी मजिस्ट्रेट को भेज कर वह उस का बयान दिलवाने और उस की स्थिति से लोगों को अवगत कराये। वहाँ पर कोई विटेनस मौजूद थे। जिस समय कातिलाना हमला हो रहा था उस कालेज के प्रिंसिपल भटनागर और वार्डन जगमोहन लाल गुप्ता फटक के किनारे खड़े थे और लोगों को इन्सिस्टेंट कर रहे थे। वह कह रहे थे कि मारों सालों को। उन को मजे चखा दें। इस तरह के लोगों को आप अनटचेबिलिटी अफेसेज ऐक्ट में गिरफ्तार कर के छोड़ देते हैं। क्या यही आप का इन्फाफ है ? उन को 302 में गिरफ्तार क्यों नहीं किया गया ? मैं माँके के गवाह दे सकता हूँ। उस ने आँखों से देखा है कि एम जी पालिटेकेनिक के प्रिंसिपल और वार्डन ने अपने सामने सब कुछ करवाया है। आखिर उन को 302 में गिरफ्तार क्यों नहीं किया गया और डाइंग डिक्लेरेशन क्यों नहीं हुआ ?

SHRI BHAGWAT JHA AZAD (Bhagalpur): He has got more information than the Government. Let him speak.

श्री चन्द्र शैलानी : यह केवल हाथरस का सवाल नहीं है, यह पूरे देश का सवाल है। जब से हिन्दुस्तान आजाद हुआ है इस तरह की घटनाएँ घटती चली जा रही हैं और दिन पर दिन बढ़ती जा रही हैं। सरकार इस के लिए क्या कर रही है। जो सरकार की रोड की हड़्डो शोषित और सर्वहारा वर्ग के लोग हैं, मिलमालिक और पूँजीपति लोग नहीं हैं, उन की बुनियाद पर... (व्यवधान), उन शीश महलों का क्या होगा ? मैं जानना चाहता हूँ कि आखिर उस का डाइंग डिक्लेरेशन क्यों नहीं हुआ, क्यों कोई मजिस्ट्रेट

नहीं गया और बयान नहीं लिया ? इस के पीछे क्या कारण है ?

जब उस को रिक्शा में डाल कर ले जाया गया तो वहां क्यों कोई डाक्टर नहीं था ? क्यों कोई कम्बल नहीं दिया गया, क्यों चारपाई नहीं दी गई और उस ने अपने प्राण छोड़ दिए ? यह कहां का ईसाई है ? उस का क्या इलाज किया गया इस के बारे में सरकार के पास क्या रिपोर्ट है ?

मैं आप के माध्यम से इस देश की लोक-प्रिय सरकार से चन्द सवाल करना चाहता हूं। डाक्टर और प्रिंसिपल के खिलाफ 302 का मुकदमा क्यों नहीं कायम किया गया, जब कि इस तरह की मिसाल दिन्नी के प्रेमलता काण्ड की है ? प्रिंसिपल पुष्पा गुप्ता को अनटचेबिलिटी अफेन्सेज ऐक्ट में गिरफ्तार कर लिया गया था और आज वह किस सेशन को कमिट कर दिया गया है और उस पर 307 का मुकदमा दायर किया गया है। सरकार से मेरा अनुरोध है कि वह तुरन्त शोषित और संहारा वर्ग के लोगों में थोड़ा सा धैर्य पैदा करें। उन्हें आज सन्तोष नहीं हो रहा है। वहां के प्रिंसिपल और वार्डन को तुरन्त गिरफ्तार कर के जेल भेजा जाय।

दूसरा सवाल यह है कि जिन लोगों का नुस्खाना हुआ है उन को सरकार क्या कम्पेन्सेशन देने जा रही है ? तीसरा सवाल यह है कि शेड्यूल्ड कास्ट्स के जो लोग भयभीत हैं, जिन के दिल में डर घुसा हुआ है उन के डर को दूर करने के लिए सरकार क्या करने जा रही है ? इस तरह की घटनायें पूरे देश में होती हैं, जो लोग इस काण्ड में दोषी हैं क्या सरकार उन पर कोई कलेक्टिव फाइन लगाना चाहती है ?

इस के साथ मेरे चन्द सुझाव भी हैं, जिन को बतलाने की मैं समझता हूं आप अवश्य इजाजत देंगे। कुछ समय पहले जब अजीमगढ़ में राजनीतिक हत्यायें हुआ करती

थी तब वहां पर एक स्पेशल इन्वेस्टिगेशन ब्यूरो कायम किया गया था। मेरा सरकार से कहना है कि जहां पर इस तरीके से शेड्यूल्ड कास्ट्स के लोगों का कत्ल किया जा रहा है, उन की मांगों और बड़ों की असमत् लूटी जा रही है, उनके ऊपर जघन्य श्रव्याचार किए जा रहे हैं, मायूम होता है कि इस के पीछे ीछे आर० एस० एस० की मनोवृत्ति काम कर रही है। (ध्वजध्वनि) जब इस देश की जनता ने श्रीमती गांधी के नेतृत्व में (ध्वजध्वनि) बड़ी प्राप्ति ली है। जब से जनता ने इनके ऊपर अपना विश्वास प्रकट किया है तब से इनकी गतिविधियां और बढ़ गई हैं। लोक-प्रिय सरकार को बदनाम करने के लिए आर० एस० एस० के लोग इस तरह के कार्य कर रहे हैं। जो लोग आर० एस० एस० से संबंधित हैं, प्रिंसिपल, वार्डन तथा पूरे दूसरे स्टाफ के लोग उनकी संख्या क्या है (इंटर-प्रॉज) और क्या आप इन तमाम बातों की जांच करावेंगे ?

श्री अटल बिहारी वाजपेयी : (गालियर) : पहले तो आप सरकार के खिलाफ बोल रहे थे, कलेक्टर को गालियां दे रहे थे, बीच में आर०एस०एस० कैसे आ गया ?

श्री शशि भूषण : (दक्षिण दिल्ली) : इसकी भी जांच कराई जाए।

श्री हुकम चन्द कछवाय : (मुरैना) : जांच करवाओ, हम तैयार हैं। कौन मना करता है सरकार को जांच कराने से। जांच करवालो। हमें कोई आपत्ति नहीं है। आर०एस०एस० के बारे में जांच कराने के लिए हम तैयार हैं।

अध्यक्ष महोदय : पहले तो आप बड़े ध्यान से सुन रहे थे। अब थोड़ा सा कह दिया तो आप गुस्से हो गए। आप प्रोटैस्ट लाज कर सकते हैं। शाउट न करें। इतने इन-टालरेंट न हुआ करें।

श्री हुकम चन्द कछवाय : हम जांच के लिए तैयार हैं। कौन मना करता है? हम पीछे हटने वाले नहीं हैं?

श्री जगन्नाथ राय जोशी : (गाजापुर) : आपको विलिंगडन अस्पताल में किस ने पीटा था? क्या वे भी आर०एस०एस० के लोग थे?

श्री हुकम चन्द कछवाय : वहां आपको किस ने मारा था। मन्त्री महोदय साफ करें कि आर०एस०एस० का इससे कोई सम्बन्ध नहीं था। माननीय सदस्य बिदड़ा करें। (इंटर-ऑज) आप सरकार को आदेश दें कि कमेटी बनाए। हम जांच के लिए तैयार हैं। तुम पिट कर आए थे। किस ने मारा था तुम को।

अध्यक्ष महोदय : इस तरह से कैसे चल सकता है।

श्री हुकम चन्द कछवाय : यह गलत आरोप लगाया गया है कि हमने मारा। जांच करवा लो। अगर सही है तो सजा दो।

SHRI K. S. CHAVDA (Patan): A Committee headed by the Supreme Court judge should be appointed. Serious charges have been made (Interruptions).

श्री हुकम चन्द कछवाय : हम जांच के लिए तैयार हैं। सब चीज सामने आ जाएगी। तुम नहीं करवाते हो।

श्री शशि भूषण : ये ठीक कह रहे हैं कि जांच कराई जाए। मैं इससे सहमत हूं। इसमें दो रायें नहीं हैं। मिर्घा साहब इसकी जांच कराएं।

श्री हुकम चन्द कछवाय : उनको कहो।

श्री शशि भूषण : मैं आपकी तरफ से कह रहा हूं।

श्री हुकम चन्द कछवाय : यह पार्लियामेंट है। ये शब्द निकाले जाएं या कमेटी बनाने की घोषणा की जाए। दो में से एक बात होनी चाहिये।

अध्यक्ष महोदय : आप जो इतनी जोर से बोलते जा रहे हैं, आपको क्यों न निकाल दिया जाए?

श्री हुकम चन्द कछवाय : जनता ने मुझे चुन कर भजा है। आपकी कृपा से नहीं आया हूं।

MR. SPEAKER: He has got the right to express himself in this House. Everybody has the right to express himself in the House.

श्री अटल बिहारी वाजपेयी : अध्यक्ष महोदय, आप स्वीकार करेंगे कि सदन एक गम्भीर मामले पर बहस कर रहा है, जो भी घटनाएं हो रही हैं उन्हें राजनीतिक रंग देने की आवश्यकता नहीं है, किसी पार्टी का यह मामला नहीं है। मैं बड़ा अफसोस है कि आर एस एस का नाम अनावश्यक रूप से घसीटा गया है। अगर उनके पास आर० एस०एस० के विरुद्ध कोई ठोस आरोप है तो उन्हें जांच के लिए पेश किया जा सकता है। मैं मन्त्री महोदय से कहूंगा कि या तो वह इस विचार का खण्डन करें या जांच की मांग को स्वीकार करें ताकि दूध का दूध और पानी का पानी हो सके। इस तरह से आरोप लगाना मामले की गम्भीरता को कम करना है, अगर कोई रहस्य है तो उस पर पर्दा डालना है। जांच के घर में बैठ कर किसी पर पत्थर फेंकने की गलती नहीं करनी चाहिये।

SHRI JYOTIRMOY BOSU (Diamond Harbour): On a point of order. You have failed to bring the House to order. Why is it? It is because you could not give a clear ruling at a point of time. Let me say, Sir, that I was one of those who

elected you to the Chair. The suggestion that has been made is very reasonable. Why do Government not constitute a Commission of Inquiry—this is very important—to go into the matter of repression and atrocities committed on Harijans throughout the country and also on tribals and minorities....

MR. SPEAKER: You have not been called. The Minister will reply.

SHRI JYOTIRMOY BOSU: You are not trying to understand what is being said....

MR. SPEAKER: You have no business to talk like this.

श्री फूचन्द वर्मा: (उज्जैन) : या तो आप मन्त्री महोदय को समिति गठित करने का निर्देश दें और मन्त्री महोदय इसकी घोषणा करें और कहें कि सारे मामले की जांच होगी वर्ना जो आर एस एस का नाम लिया गया है और जो आरोप लगाया गया है, उसको कार्रवाई से आप निकाल दें। मैं चाहता हूँ कि आप इस पर अपना रुलिंग दें।

MR. SPEAKER: I am not sitting here for that. It is for the Minister to inquire into it.

SHRI R. S. PANDEY (Rajnandgaon): Mr. Shailani deserves to be congratulated for the manner in which he has put the case. We have every sympathy for the person who was killed. If the Government has failed to protect that person who was killed, it deserves complete condemnation. They were all enjoying when he condemned the Government. But when Mr. Shailani said about RSS, they are getting excited. (Interruption)

श्री हुकूम अहमद कदमा : अध्यक्ष महोदय, इस तरह से कार्रवाई नहीं चल सकती है। बिल्कुल नहीं चलेगी.. (इंड. प्र.)

MR. SPEAKER: I am not here to inquire into the allegations. I am just presiding over the House. I am not to enquire whether it is a fact or not.

इक्वायरी अब चल रही है, उद्घुष्टिशन इक्वायरी तो उम्र में यह बात आ सकती है। अगर ऐसी बात है तो शैलानी जी ने जो यहाँ कहा है वहाँ भी उनको कहना चाहिये।

SHRI SAMAR GUHA (Contai): On a point of submission. I do not want to raise a point of order. The matter is very serious to all of us, to the whole nation. When the demand is made that the matter should be inquired into, it is wrong to make certain allegation against a certain party. I would make this submission to you, Sir. A parliamentary Committee has to be set up to go into the whole matter. You may please direct them, seeing the whole sentiment of the House. The truth must be found out. These things are going on almost everyday and all over the country. The whole matter should come to end. Where do we stand, Sir?

MR. SPEAKER: The Member has said something and the Minister will reply to it. I am not here for inquiring into it.

श्री राम निवा. मिश्रा : माननीय सदस्य, श्री शैलानी, ने कई घटनाओं का उल्लेख किया है। ऐसा प्रतीत होता है कि हरिजनों तथा अन्य विद्यार्थियों में काफी असें से एक तनाव चल रहा था और उस तनाव का नतीजा यह हुआ कि ये सारी घटनाएँ हुई। उन्होंने कहा कि प्रिंसिपल, वाडर और प्रोफेसर का, जिन को केवल छुआछूत के मामले में ही गिरफ्तार किया गया है, इस काल के मामले, या विद्यार्थियों पर हमले, से सम्बन्ध है। इस सम्बन्ध में हम उत्तर प्रदेश सरकार को कहेंगे कि इस मामले की पूरी जांच की जाय और अगर उन लोगों का इन मामलों से किसी प्रकार का सम्बन्ध पता चलता है, तो कानून के अनुसार उन के खिलाफ सबूत से सज्जु कार्यवाही की जा सकती है। (व्यवधान)

श्री पीलू मोदी (गोधरा): चोरू क्या चोर को पकड़ेगा? (व्यवधान)

SHRI SAMAR GUHA: It is the responsibility of the Central Government to institute an inquiry.

SHRI PILOO MODY: Charges are made against the State Government, charges are made against the Central Government.....

SHRI SAMAR GUHA: Why should it be discussed on the floor of the House? Let an inquiry be instituted.

SHRI PILOO MODY: Is the centre a post office?

श्री राम निवास मिश्र: सदन में यह विवाद कई बार उठता है कि राज्य सरकारों पर सारी बात न छुड़ कर केन्द्रीय सरकार इन मामलों में दखल दे। मैं बहुत ही गम्भीरता से आप से और सदन से निवेदन करूंगा कि अगर आपके निर्देशों के अनुसार इस सम्बन्ध में कोई मीटिंग हो सके, जिसमें विरोधी पक्ष और सरकार के वाक्ता भी शामिल हों और हम सब बैठ कर यह तय कर लें कि इन सब मामलों में (व्यवधान) हमें यह कहा जाता है कि राज्य सरकार ने ठीक नहीं किया, हम केवल पोस्ट आफिस हैं, हम केवल राज्य सरकार की हिमायत करते हैं। हमें देश के संवैधानिक परिधि में रह कर काम करना पड़ता है। अगर माननीय सदस्यों की मंशा है कि केन्द्रीय सरकार को इस सम्बन्ध में ज्यादा अधिकार दिये जायें, तो इस पर भी परस्पर बैठ कर गम्भीरता से विचार किया जा सकता है। लेकिन आज की परिस्थिति में यह सवाल उठाना कि हम राज्य सरकार पर बिल्कुल विश्वास नहीं करते हैं, राज्य सरकार की बात बिल्कुल गलत है, (व्यवधान)

श्री हनुमान कछुवा: राज्य सरकार स्वयं दोषी है। उस पर विश्वास कैसे किया जा सकता है? (व्यवधान)

SHRI K. S. CHAVDA: What about this incident?

SHRI PILOO MODY: He is misleading the House. The Constitution is quite clear on the subject.

SHRI S. M. BANERJEE: I rise on a point of order, Sir....

SHRI SHYAMNANDAN MISHRA (Begusarai) rose.—

अध्यक्ष महोदय: जब ऐसे गम्भीर मसलों पर, जो कानूनी तौर पर हैं, बहस चल रही हो, तो ऐसी परम्परा बनानी चाहिए कि एक दूसरे पर पार्टियों का नाम लेकर हमला न किया जाये, बल्कि पालिसीज पर एतराज किया जाये। मुझे पता नहीं कि मिनिस्टर साहब ने इस बारे में क्या कहा है, इस में कौन इनवाल्ड है और कौन नहीं है। श्री शैलानो ने अच्छे ढंग से मसल को रखा, लेकिन बाद में इसको ऐसी बातों में डाल दिया, जिससे सारा मामला बिगड़ गया। आप कोशिश किया करें कि एक दूसरे पर ऐसे इल्जाम न लगायें। जुडिशियल एन्क्वायरी चल रही है। उसमें सारी बातें आ जायेंगी। लेकिन इस हाउस के माहौल, बनावरण, को क्यों बिगाड़ने हैं? आखिर यह हाउस देश की सब से बड़ी पार्लियामेंट है। (व्यवधान)

श्री के. एस. चावड़ा: यह सब से बड़ी पार्लियामेंट है, लेकिन हरिजनों के बारे में वह कुछ नहीं कर पाती है। (व्यवधान)

अध्यक्ष महोदय: इस शोर-शराबे से कोई अच्छा असर नहीं पड़ता है, न वहां और न बाहर। यह हमारे लिये क्रेडिट की बात नहीं है। (व्यवधान)

SHRI K. S. CHAVDA: What is the alternative for the scheduled caste people?

अध्यक्ष महोदय: आप सगले इन्वेन्शन में दुगुनी ताकत में आ जायें। (व्यवधान) अगर आप इस बार नहीं आये, तो वहां पर

गलत ढंग से काम करना चाहिए। इस तरह करना गलत है। (अवधान) और कोई तरीका निकालिये, लेकिन जब तक देश में यह तरीका बना हुआ है, इसको ठीक ढंग से चलाना चाहिए। (अवधान)

SHRI SHYAMNANDAN MISHRA (Begusarai): I rise on a point of order. It is for the Chair to give us guidance in the matter. The hon. Minister has stated that he wants to convene a meeting, he would like to have a meeting with all sections of the House to decide which part of the responsibility lies on the Centre and which part of the responsibility lies on the State Government. My submission is this. Of course, in this particular field, the responsibility converge; but the House would like to know which part of the responsibility the Central Government is performing just at the moment. There are certain responsibilities of the Central Government. Let us first know what are the responsibilities which are being discharged by the Central Government, before we proceed with the analysis or the demarcation of responsibilities. So far as we are concerned, we have given notice of this Call Attention Motion, and we are concerned with the question whether the responsibility which is there has been discharged by the Central Government or not. That is what we want to know at the moment.

SHRI FRANK ANTHONY (Nominated—Anglo-Indians): I rise on a point of order. This is in the nature of an exercise, I am sorry to say, in disingenuousness. You know that this Congress Government has invariably turned down the demand for protection of minorities. The States Reorganisation Commission had recommended.. (Interruption) Please listen; Government has taken powers to protect the minorities. In the deliberations of the Joint Committee on the States Reorganisation Committee Report, I suggested that there should be a 'Statu-

tory Minorities Board.' Government rejected that suggestion. The States Reorganisation Commission said that the minorities had complained that they are inferior citizens in the country. You have got now under Article 339, special powers, for the President to issue directives so far as the Scheduled Castes are concerned. What is it that you are doing in the matter? There is a Constitutional provision in this regard. I say: Minorities are being destroyed in this country. (Interruption) They are being destroyed in this country.

SHRI RAM NIWAS MIRDHA: Completely wrong and baseless.

MR. SPEAKER: It is no point of order, Mr. Anthony.

SHRI S. M. BANERJEE: Sir, my point of order is this. The hon. Minister did not agree to our demand saying that this is a State subject. You, in your wisdom, admitted this Calling Attention Motion. According to the Constitution, there is a certain amount of responsibility on the part of the Centre also. We demand that the Centre should intervene, because the Harijans in UP have no faith in the police there. It is most unfortunate but that is the reality. When the Centre is involved in the matter, why should they not intervene to give them protection?

13.00 hrs.

MR. SPEAKER: There is no point of order.

SHRI S. M. BANERJEE: I want a ruling from you on my point of order.

MR. SPEAKER: I have already said that there is no point of order involved.

SHRI SAMAR GUHA: The hon. Minister of State had objected to the critical observations made about the failure of the Government of Uttar Pradesh in dealing with the offences

[Shri Samar Guha]

committed against the Harijans. He said that it was exclusively within the jurisdiction of the State Government. But I want to draw the attention of the hon. Minister to the fact that we are already having a Bill pending with the Joint Committee, namely the Untouchability Offences (Amendment) Bill, and I am also a member of that Joint Committee. If it is exclusively a State matter, how is the Central Government competent, and how is Parliament competent to deal with the problems of offences committed against the Scheduled Castes? How have the Government and Parliament constituted a Joint Committee on a Bill brought forward for that purpose? So, what the hon. Minister has stated is contrary to the rights and privileges given to Parliament. Therefore, I submit that the Central Government and Parliament have got concurrent jurisdiction to deal with the problems of untouchability.

SHRI R. D. BHANDARE: On a point of order. Shri Chandra Shailani had raised the question whether the principal and the proctor were arrested under the Untouchability Offences Act and he had asked why they were not roped in under sec. 302, IPC. The answer given by the hon. Minister was that the matter would be referred to the State Government. What I have been watching in this House is this. When the atrocities and harassments and heinous crimes committed on the members of the Scheduled Castes and Scheduled Tribes are raised here, why is it that Government are not having some sort of mechanism, say, by appointing a committee, to find out the safeguards for the members of the Scheduled Castes and Scheduled Tribes....

SHRI PILOO MODY: Because their hands are dirty.

SHRI R. D. BHANDARE: ...so that these people can get some sort of security of life. It is no use transferring the matter again to the State.

I know that the State Government have failed and the police have failed. I also note that there is no mechanism through which the Central Government can make the necessary inquiries.

SHRI PILOO MODY: Of course, they can.

SHRI R. D. BHANDARE: Therefore, there are two ways open, namely that the Central agencies should either make inquiries in such matters, or institute an inquiry or send their Central Intelligence to find out to what extent the State authorities and the police have failed in giving the necessary protection. Why is such a mechanism not being suggested by the Central Government? These points are raised time and again, and the usual reply is given that they would make inquiries through the State Government. When the State police have already failed, the Central Government should find out some mechanism whereby protection could be given.

MR. SPEAKER: There is no point of order in it.

SHRI RAM NIWAS MIRDHA: It was exactly with a view to finding some mechanism and some method of dealing with these things that I had suggested that under your auspices or in some other way, if the Opposition parties and the Government side could meet and see how we could proceed in these cases, it would be better....

SHRI SHYAMNANDAN MISHRA: What are they doing now except communicating some information to us? They have got certain responsibilities. What are they doing in this regard?

SHRI K. S. CHAVDA: They are acting as a post office.

SHRI JYOTIRMOY BOSU: Every day this raping, burning or beating of Harijans is going on. Yesterday we had one. Today we have another

This Government should resign. It is not good enough for the job.

SHRI RAM NIWAS MIRDHA: I will reply to a couple of points raised by Shri Shailani. He asked if the dying declaration was recorded. We have been informed that the person who died was all along unconscious and, therefore, it was not possible to have any dying declaration recorded. That was the situation.

As to whether he was properly attended to in the hospital or not, I am not in a position to say.

As for imposition of a collective fine, this is a suggestion which is in front of the UP Government and I think they will take appropriate action in this respect.

SHRI PILOO MODY: What sort of reply or what manner of reply was this?

श्री कन्न शैलानी : अध्यक्ष महोदय,
 मैं जानना चाहूंगा कि जब एक आदमी मृत्यु
 क्षण पर पड़ा हुआ है, अन्तिम साँसें गिन रहा
 है, उस समय मैजिस्ट्रेट को क्यों नहीं भेजा ?
 (स्वर्णन)

MR. SPEAKER: Please sit down.

SHRI KARTIK ORAON (Lohardaga): I am grateful to you for having allowed this call attention motion. I am also thankful to Shri Shailani who not only briefed me yesterday about this but has also narrated the incident here in the House which is now fully seized of this matter.

I can understand the sentiments with which he narrated the incident. I had the sad luck in this very House of narrating a harrowing tale of the famous Purnea Santal murder case. This House has had the sad task of discussing atrocities of various types for the last five years. I have been here. In June 1970 reference was made to the atrocities on and killing of Harijans and tribes. There were

93 reported cases. The unreported cases may be many more. Many things are happening which do not see the light of day.

SHRI PILOO MODY: Thousands.

SHRI KARTIK ORAON: May be thousands.

I would like to say one thing: there is definitely a case of administrative failure. There is no doubt about it. If we add the hundreds of killings, looting, plundering, butchering and burning of the Adivasis and Harijans, I think every year it would come to a minimum of 500.

My Point is this. It is not a question of the smallness of the number of crimes or the intrinsic seriousness of it; it is also not relevant whether the victims are Scheduled Castes or others. What is relevant bear in mind is that in broad daylight a human being has been killed like a cat. That we have to take note of. I am sure if we have not been able to protect these people for the last five years or more, the time is not very far when we may come to a stage when there may be a universal malice and there may be indiscriminate massacre of Scheduled Castes and Scheduled Tribes. What are you going to do about it?

Therefore, it is a very serious matter. As regards the report that has been obtained and which has been placed before the House, I am not sure how far it is correct, because the report has been sent by the officers who may be directly or indirectly, express or implied, involved in this case. What the eye does not see, the heart does not grieve about.

We have seen so many cases. I have one case of whipping of tribes. They were whipped 87 times in Katni in Madhya Pradesh. Everyday it is happening. In some cases the press is co-operating. Sometimes, the press is not co-operating. Therefore, we have to take a very realistic approach

[Shri Kartik Oraon]

of the problem. I should say that I am happy that at least this House is very much agitated. Let us see that the whole country is agitated about these things. No punishment will be greater for the loss of national character, which this country has been witnessing. It is a shameful thing, and we should all hang down our heads in shame for matters of this nature.

I must say one thing. If we get a report from the Deputy Commissioner or the Superintendent of Police, the Govt. are getting a report that they have to defend. Therefore, we are asking the accountant to be the auditor. That is the position. Therefore, I would like to say that the Home Ministry should have no fire brigade to have an independent assessment of the whole situation. On that basis, Government can place the matters before this House.

Now, there has been no action. If there has been any action, in that case, we would have been competent enough to prevent a recurrence of these things. We have not been able to do this. Therefore, I must say that this Home Ministry has been doing nothing.

SOME HON. MEMBERS: Shame, shame.

SHRI KARTIK ORAON: I am ashamed to say that they are doing nothing. (Interruption) Sir, the greatest danger to this country, to have a continued good government, is the friction between different classes of people; the actions and inter-actions between different classes of people. Therefore, about five years ago I was saying that our country was going to the dogs. Why? (Interruption) I know that no State Government was in a position to have a stable government. The Centre was the stabiliser. Therefore, you have to give credit to the Prime Minister who had provided the necessary leadership and stable governments. (Interruption).

SHRI K. S. CHAVDA: When murders are committed?

SHRI KARTIK ORAON: Please sit down.

MR. SPEAKER: Order, order.

SHRI KARTIK ORAON: This Government has been a very powerful government. It has all powers, and it has the undefined pressure of public opinion behind it. Even then, they are not in a position to do anything. I am afraid we are thinking that we have no cause to serve. Even the autocrats have the welfare of the people in their hearts. (Interruption)

SHRI K. S. CHAVDA: The hon. Minister is requesting him not to say anything against the Government.

MR. SPEAKER: Order. order.

SHRI JYOTIRMOY BOSU: The Minister, Shri K. C. Pant, is passing on a chit to him. It is the visibility of all of us.

SHRI KARTIK ORAON: By shouting you are trying to show you are a powerful person.

SHRI JYOTIRMOY BOSU: What is happening there, Sir?

SHRI KARTIK ORAON: Please sit down. (Interruption)

SHRI K. S. CHAVDA: The Minister told him not to say anything against the Government. (Interruption)

SHRI JYOTIRMOY BOSU: What is that slip of paper that was given to him? It should be laid on the Table of the House. (Interruption).

MR. SPEAKER: Order, order. It is his own paper. Please conclude now.

SHRI KARTIK ORAON: I would like to know what the Government have done. I want to say that they are trying to support the administration. But then what are they doing?

The authorities could not protect the poor Harijans. The police officers could not protect them. I would like to know from the hon. Minister whether it is within his knowledge that amongst constables there is discrimination against the Scheduled Castes and the Scheduled Castes are made to remain outside. Do you know that? The worst type of colour bar exists in our country. We are talking of colour bar in other countries; the most reprehensible form of colour bar is in our country. We are not able to overcome it. The Commissioner of Scheduled Castes has made a public statement about this. What has the Government done about it? Such a responsible person has come out with a statement. Yet the Government have done nothing.

MR. SPEAKER: Please conclude.

SHRI KARTIK ORAON: Finally, I should like to say one thing. The law must be changed and stringent punishment must be given to persons who are found guilty. If the police officers and other authorities do not function properly, they should be held responsible for this and charged with complicity in the murder. They cannot be made to escape. The public and the Government should condemn them. It is not a question of murder of one person; it is a question which concerns the entire nation. Public participation is required; people must be awakened and exhorted to come to their senses and the Government must come to front. Then only you can stop these things.

I want to repeat that the law must be changed to such an extent that the compensatory payment for fines and other things must be replaced by very deterrent punishment, even by death if necessary. If some authorities do not follow the spirit of the laws, they will have to be sent away lock, stock and barrel within 24 hours. If nothing is going to be done today, nothing will be done tomorrow. It is time the Government take stock of the situation and sorted things out.

I would request the hon. Minister that he must satisfy himself about the statement that he has given and the CBI must be brought into the picture. Let them report and let us punish the wrong doers. I would again request the hon. Minister to take this as a warning from the country, from the Parliament. It is not a question of one Member. It is for the Government and the people of the country. We are looking forward to see what this Government is going to do. The wrong doer should be punished.

SHRI RAM NIWAS MIRDHA: I share the deep concern, agony almost, with which the hon. Member has spoken. I wish the Members of the House would not laugh it away.... (Interruptions).

SHRI PILOO MODY: What sort of reply is this—laugh it away? It is we who have been castigating this Government for their complete callousness on a matter like this. He says that the Opposition is trying to laugh it away.

DR. KAILAS (Bombay South): You make a mockery of Parliament, sitting and laughing.... (Interruptions)

SHRI RAM NIWAS MIRDHA: The hon. Member mentioned that the law should be strengthened and made more stringent so that such cases could be dealt with in a severe way. The House is aware that the Untouchability Offences Amending Bill is before it and provisions have been made on the recommendations of the Elayaperumal Committee.

श्री हनुमान (सैदपुर) : अध्यक्ष महोदय, मेरा प्वाइंट ऑफ ऑर्डर है । मंत्री महोदय ने अनटचेबिलिटी आफेंस एक्ट का हवाला दिया है, उस का इस मर्डर से क्या ताल्लुक है? यह तो सीधी सी बात है (व्यवधान)

अध्यक्ष महोदय : आप इस तरह से मंत्री को क्यों इन्टरप्ट करते हैं ?

श्री शम्भूनाथ : इसका मतलब यह नहीं है कि इतने ग्रहण सवाल को अनटचेबिलिटी एक्ट की बात कह कर छोड़ दिया जाये।

MR. SPEAKER: He said, change the law and the minister is replying to it.

SHRI RAM NIWAS MIRDHA: I am merely trying to say that this is the law under which the persons concerned in this incident have also been arrested. I was merely trying to reply so far as the legislation is concerned. The Government is trying to strengthen this law.

श्री हुसैन चन्द कछवाय : 302 में कितनों को अरेस्ट किया गया है? (व्यवधान)
. आप इन्क्वायरी क्यों नहीं बिठाते हैं? सरकार इस बात को मानने के लिए तैयार नहीं है कि इन्क्वायरी बिठानी चाहिए। मंत्री जी सदन को गुमराह कर रहे हैं।

प्रधान मंत्री, परमाणु ऊर्जा मंत्री, इलेक्ट्रानिक्स मंत्री, गृह मंत्री, सूचना और प्रसारण मंत्री तथा अग्नि मंत्री (श्रीमती इन्दिरा गांधी) : कोई गुमराह नहीं कर रहा है, आप जरा बैठ कर सुनिये।

SHRI RAM NIWAS MIRDHA: Reference was made to the Commissioner of Scheduled Castes and Scheduled Tribes. He is a functionary created under the Constitution. He enquires into individual cases and he also makes reports about the progress of various protections available to the backward classes. He makes a report to the House and the House also discusses it. About what he said in this particular context, I would further enquire into it and if there is anything further to be done regarding that, Government will do it.

श्री हुसैन चन्द कछवाय : रोख घटनायें हो रही हैं। सरकार एक ऐसा कमीशन नियुक्त करे जो कि उन सभी घटनाओं को

जहां पर भी मर्डर्स होंगे, जांच करेगा। यह बड़ा चिन्ता का विषय है, प्रधान मंत्री ने बड़े-बड़े आश्वासन दिए थे, वे इस प्रकार की घोषणा यहां पर करें। (व्यवधान)

SHRI PILOO MODY: May I ask the Prime Minister, is it below her dignity to reply to this?

SHRIMATI INDIRA GANDHI: Not in the middle of what somebody is trying to say.

SHRI RAM NIWAS MIRDHA: About the demand for a committee of enquiry, I would like to say that a committee of enquiry will not be able to go into these cases which are already registered and which are being investigated. This is a case of murder and it is being investigated by the concerned authorities. I cannot understand what this committee would do so far as this case is concerned.

श्री रामकंवर (टीक) : अध्यक्ष महोदय, हाथरस, उत्तर प्रदेश में हरिजन छात्र की जो हत्या की गई है उसके लिए मैं सरकार की निन्दा करता हूँ। इसमें केवल उत्तर प्रदेश का ही सवाल नहीं है बल्कि पूरे देश में इस प्रकार की घटनायें आये दिन हो रही हैं। राजस्थान में दोसा संस्कृत कलेज में एक हरिजन चपरासी झीलपुर से ट्रांसफर होकर आया। जिसके स्थान पर वह ट्रांसफर होकर आया उसके द्वारा उसको धमकी दी गई कि यदि तुम यहां से नहीं चले गये और यहां पर ड्यूटी जवाइन की तो तुम्हारे लिए खतरा हो जायेगा। उसके बाद प्रिंसिपल ने दो रोज तक उसकी हाजिरी नहीं लगाई और बाद में उसका गला घोट कर, फांसी लगा कर और उसको मार कर कुएं में फिरा दिया गया। उन मुलजिमों का आज तक कोई पता नहीं लग सका है। मेरी मान्यता है कि उस प्रिंसिपल को फिरकस्तार करना चाहिए।

यहाँ पर पार्लियामेंट में हम सदस्यगण जो बोलते हैं तो सरकार समझती है कि इनको सभिपात का रोग हो गया है, वे तो ऐसे ही बकते हैं लेकिन इन पापों का बड़ा भ्रम भर चुका है।

इसी प्रकार से मिर्चा साहब की कांस्टी-टुएन्सी में छोटी खाटू में भी हरिजनों को मार दिया गया। राजा महाराजाओं के जमाने में भी इस प्रकार हरिजनों का खुले आम मर्डर नहीं होता था जैसे कि प्रधान मंत्री श्रीमती इन्दिरा गांधी के राज्य में हरिजनों की खुली हत्या हो रही है। आजकल निबल बर्ग के नाम पर सरकार रेडियो पर, ग्राम पंचायतों, पंचायत समितियों और जिला परिषदों में हरिजनों के उत्थान के लिए बयान देती है लेकिन देती लेती कुछ नहीं है। गांव के लोग तो समझने हैं कि सरकार बहुत कुछ दे रही है लेकिन वास्तव में देना लेना जोरो के बराबर है। (व्यवधान) मैं माननीय गृह मंत्री जी से जानना चाहता हूँ कि हाथरस में जो हरिजन छात्र की मृत्यु हुई है क्या उसका मारने में ब्रह्मण छात्र का हाथ नहीं था और क्या उत्तर प्रदेश के मुख्य मंत्री श्री कमनापति त्रिगठी अपनी बिरादरी को कलंकित होने से बचाने के लिए सहायक नहीं हो रहे हैं? मैं गृह मंत्री जी से यह भी जानना चाहूँगा क्या सरकार इस घटना की जांच करने के लिए एक संसदीय समिति का गठन करने के लिए तैयार है और भविष्य में भी इस प्रकार हरिजनों पर जो निर्दोषपूर्ण आक्रमण किए जायें उनकी जांच करके जो तथ्य हों उनको वह सागने रख सकें। प्रधान मंत्री जी ने गरीबी मिटाने के नाम पर वोट लिए थे लेकिन मैं निवेदन करना चाहता हूँ कि गरीबी हटाना तो दूर रहा उन गरीबों को ही मिटाया जा रहा है। तो क्या गृह मंत्री जी इस बात का आश्वासन दें कि एक संसदीय समिति का गठन किया जायेगा जो कि हरिजनों के अधिकारों की रक्षा कर सकेगी तथा ठीक

प्रकार से ऐसी घटनाओं की जांच कर सकेगी

श्री राम निवास मिर्चा : माननीय सदस्य ने कई घटनाओं की ओर संकेत किया है। यदि इस सम्बन्ध में वे पहले नोटिस दे देते तो उनके बारे में भी तथ्य सदन के समक्ष उनकी जानकारी के लिए मैं प्रस्तुत कर सकता था।

अन्त में उन्होंने जो सुझाव दिया है कि एक संसदीय समिति बनाई जाये जो जाकर इसकी जांच करे कि 302 का मुकदमा चल सकता है या नहीं, मैं पहले ही निवेदन कर चुका हूँ कि इस प्रकार की समिति आज की स्थिति में उचित नहीं होगी क्योंकि मुकदमे की जांच जायदाद फौजदारी के अन्तर्गत हो रही है और उसको चलने देना चाहिए। मुझे पूरा विश्वास है कि यदि जांच के द्वारा पाया गया कि प्रिंसिपल और दूसरे लोग भी इस मामले से सम्बन्धित हैं तो उन पर भी कठोर कार्रवाई की जायेगी—ऐसी हमारी

MATTER UNDER RULE 377

U.S. BOMBING IN NORTH VIETNAM

THE MINISTER OF EXTERNAL AFFAIRS (SHRI SWARAN SINGH) rose—

MR. SPEAKER: Please wait. Let him first raise it. Mr. Indrajit Gupta.

SHRI INDRAJIT GUPTA (Allahabad): I want to draw the attention of the Government and of the House to the fact that just a few days after the External Affairs Minister has publicly gone on record declaring that we are sharing the same ideals and aims as the United States, we find that the American Government have, in the

[Shri Indrajit Gupta]

most cynical and brutal manner, resorted, after declaring it publicly, to a full scale bombardment on North Vietnam. Everybody was hoping that a peace settlement was in the offing. Mr. Kissinger was going hither and thither. This was a smoke-screen, we find, for the Presidential Election. I would like to know the Government's reaction to it. (Interruption) Will we continue to hear about the 'Indian love-call' and are these the ideals and aims that you share with the United States who are carrying on this type of barbarous aggression? (Interruption).

MR. SPEAKER: The Minister.

SHRI SWARAN SINGH: At the end of October this year, substantial accord had been reported at the Paris Peace Talks and high hopes were raised of an early peaceful settlement of the Vietnam question. These hopes were further strengthened by the resumption of the talks in the month of November and with a prolonged second round which began on the 4th of December. The whole world was waiting for the good news of restoration of peace to this war-torn land when suddenly the news of the fresh deadlock was received. It has given a serious setback not only to the settlement of the Vietnam problem but also to the problem of restoration of peace in the entire Indo-China. Even more distressing is the news of the resumption of massive U.S. bombing raids on the Vietnamese territory and mining of the DRVN territorial waters. While the world was waiting for Christmas to bring cheer and news of peace, it has brought news of renewed destruction and bitterness.

The Government of India feels sorely disappointed at the tragic turn of events and hopes that wiser counsels will prevail, that there will be immediate stoppage of all bombings and acts of war, that there will be no shifting of positions likely to retard the progress of Paris Talks which, we believe, have not been called off, and

that an early accord on peace settlement in Vietnam would be signed without any more delay.

SHRI INDRAJIT GUPTA: Are you neutral between the bomber and the bombed? I want to know what is this kind of pious neutrality. The Government of North Vietnam has charged that all the terms of the agreement have been agreed to, that only the Americans have to sign and then, they backed out under the pressure of President Thieu. You have got nothing to say about them? You say that you share the aims and ideals. About these butchers of Vietnam, you have no word of condemnation? We do not want to hear these pious moralizations. Is this the role of India?

..... (Interruptions).

MR. SPEAKER: Mr. Indrajit Gupta, please resume your seat. Now, Papers to be laid—Shri Dalbir Singh.

श्री तुल्लू चन्द खन्ना (मुरैना) :
अध्यक्ष महोदय, दो मेम्बरों ने पन्द्रह दिन पहले 115 के मातहत नोटिस दिया था क्योंकि मंत्री महोदय ने गलत उत्तर दिया था। उसका उत्तर दिलवाया जाय।

अध्यक्ष महोदय : वह आपको भेज दिया जायेगा। अनुवाद में कुछ गलती हो गई थी।

SHRI S. M. BANERJEE: (Kanpur) Sir, I rise on a point of order....

RE. BUSINESS OF THE HOUSE

SHRI SHYAMNANDAN MISHRA (Begusarai): I have sought your permission to raise a question of privilege with regard to allotment of time for the non-official business. It relates purely to the matter of procedure and practice which is of the highest importance in a parliamentary democracy.

There are certain issues, Mr. Speaker, which remain unresolved after all the discussion that had taken place yesterday. My submission to you is that you must give a clear ruling as to what happens to an admitted motion, to a motion which has been admitted by the Chair. Does it naturally die or is there somebody to look after it?

(2) Then, who allots the time for the discussion of such a non-official motion which has been admitted by the Chair?..

MR. SPEAKER: You raised it yesterday and I have given my ruling.

SHRI SHYAMNANDAN MISHRA: Yesterday, you were pleased to say that it is none of the Chair's concern to see what happens to it later on.

My submission is that it is exactly the first concern of the Chair and nobody else's, because Rule 190 says that it is the Chair which allots the time and not the Government..... (Interruptions) That is the view. There are only two conditions attached to it. One, the Chair has to consult the Leader of the House and (2) the Chair has to take into consideration the state of business in the House. Otherwise, the allotment of time has to be made by the Chair. So, the Chair may kindly revise its opinion about this—that the time has to be allotted by the Government:

Thirdly, I would like to ask you— (Interruptions) That is the view. (Interruptions) These are the issues of the highest importance. When there are a number of motions, naturally, the question that arises is: who selects the motion which should come up for discussion. You have now suspended the Sub-Committee which used to be there. Would you leave it to the Minister and the Government to select the business which should be taken up for discussion here?

— These are some of the important which have to be clarified by

the Chair because, yesterday, whatever fell from the lips of the Chair has confused the issues, if I can use that word.

Lastly, is it open to the Government to squeeze a motion out of the agenda?

I do not know where do we stand after having spent so much labour on our motions I would like you to give your considered opinion on all the issues.

SHRI S. M. BANERJEE (Kanpur): I am not saying about this item. Let them have a discussion if they want. My submission is: after the statement of the hon. Minister for External Affairs....

MR. SPEAKER: That is over now.

SHRI S. M. BANERJEE: You allow us a call attention motion and give us an opportunity.

SHRI SHYAMNANDAN MISHRA: What is your ruling on the above issues I have raised? I will go on pursuing those issues because they relate to parliamentary practice and procedure. These are not issues which should remain in a confused state. We would like to have a clear guidance from the Chair.

SHRI JYOTIRMOY BOSU (Diamond Harbour): My Motion on Maruthi Limited was dated the 11th of November and you found it in order and admitted it.. Shri Raj Bahadur has not found time for it. (Interruption)

MR. SPEAKER: I fail to understand all this.... (Interruption)

SHRI JYOTIRMOY BOSU: They want to shield malpractices..

SHRI SHYAMNANDAN MISHRA: Why don't you give time to the Chair to pronounce its verdict on the issues which I have raised?

SHRI PILOO MODY (Godhra): When you keep on saying that I have given my ruling, do we take it that you have abdicated the powers given to you by the rules and have now permitted the Government.. (Interruption) I am sorry my throat is bad..

MR. SPEAKER: It is working very well.

SHRI PILOO MODY: Do we take it that you have abdicated all the powers to the Government and that henceforth all Motions that are admitted by you will only be discussed at the pleasure of the Minister of Parliamentary Affairs? If he wants he will say, yes, this can be discussed, and if he does not want, he can say, no, I will not. Am I to understand it in this way?

THE MINISTER OF PARLIAMENTARY AFFAIRS AND SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): We have never questioned, we shall never and we cannot, question your wisdom on the admission of Motions. There are various Motions moved under Rule 184 and Rule 193. As the hon. Members know we got as many as about 50 Motions under Rule 184. In the first meeting of the Business Advisory Committee, about 8 or 10 subjects were chosen. I could accommodate seven of them. We have got the rule. There was a Sub-committee which used to select subjects on the basis of urgency and importance of the subject. You know that we have already allowed many subjects on this basis and we have discussed also many subjects like C.I.A., the S.T.C., the Student Unrest and so on. We have said that we would like to have a discussion on the Plan also, when it comes as a subject of Motion. Merely vague motions will not do. My objection is two-fold, one is regarding paucity of time and the other is vagueness of the subject.

SHRI PILOO MODY: You cannot say that something is vague. I say this is a correct subject.

MR. SPEAKER: It had already been discussed and I gave my ruling on it yesterday. Now I find this is again being repeated. I may tell you that whenever any business comes, which are submitted by the Government or the Private Member, the procedure is this. They are laid before the concerned Committees. In the case of Private Members' Motions, the Private Members' Committee goes into them. There are no-day-yet-r Motions. There is Government ness, for which Motions are received, and they are also put before the Business Advisory Committee which allocates time.

In the case of no-day-yet-named motions, all of them go to a sub-committee known as No-day-yet-named motions subcommittee. When I was going to send them to the sub-committee, all the hon. Members who were present asked me why when the main committee or the whole committee was there, I was going to appoint a sub-committee.

What does consultation with him mean? It means that we all consult each other. Hon. Members sit on one side, and the Government people sit on the other side, and then the time is fixed. So, where is the question of my abdication?

SHRI PILOO MODY: This is evading the main issue.

MR. SPEAKER: There is a practice that in the case of all these motions under rule 193 or rule 184, they all go to that sub-committee and they choose the motions....

SHRI JYOTIRMOY BOSU: We had chosen this motion.

MR. SPEAKER: Even though there was no rule regarding this in the rules relating to the Business Advisory Committee, we followed the practice set up in the last two Lok Sabhas, therefore, I had allowed it....

SHRI JYOTIRMOY BOSU: You are not saying the correct thing. I am very sorry to say this.

MR. SPEAKER: The Committee then selected a few motions. The normal practice has been that the hon. Minister finds time for them.

SHRI PILOO MODY: Has to find time.

MR. SPEAKER: So far as consultation by the Speaker is concerned, the Speaker consulted him in the presence of both sides....

SHRI SHYAMNANDAN MISHRA: It was the Chair's responsibility.

MR. SPEAKER:and selected some of them, and then it was for the hon. Minister to fix the time for them.

SHRI PILOO MODY: When you say that the Minister has to fix the time, it means that the Minister has to find time.

MR. SPEAKER: I cannot fix any business unless the time is available for it. It is for the hon. Minister to say whether time is available or not.

SHRI PILOO MODY: When you say that the hon. Minister has to find time, it does not mean that he may not find the time for it; he has to find the time for it.

SHRI SHYAMNANDAN MISHRA: Rule 190 is very clear. You have to allot the time.

SHRI INDRAJIT GUPTA (Alipore): Whatever processes may be gone through, whether we set up sub-committees or constitute other committees and so on, which are not explicitly provided for in the rules and which we do by convention, ultimately the matter is decided quite clearly by rule 190 which says:

"The Speaker may, after considering the state of business in the House and in consultation with the

Leader of the House, allot a day or days or part of a day for the discussion of any such motion."

MR. SPEAKER: The hon. Minister was consulted in the very presence of the hon. Members, in the Business Advisory Committee.

SHRI JYOTIRMOY BOSU: Do not shield the Government.

MR. SPEAKER: Let him not say such things.

SHRI INDRAJIT GUPTA: When the discussions took place in the Business Advisory Committee, Shri Jyotirmoy Bosu was pressing for time for discussion on Maruti Ltd., and I was pressing for time for discussion on the approach to the Fifth Plan....

SHRI PILOO MODY: So do I.

SHRI INDRAJIT GUPTA: But there was no agreement reached. Government's stand and our stand were not one of agreement. Then, the meeting of the Business Advisory Committee was over. Then, the matter is left to you under rule 190. Now, you have to decide....

SHRI SHYAMNANDAN MISHRA: the Leader of the House.

SHRI INDRAJIT GUPTA:and it cannot be left to Shri Raj Bahadur.

SHRI RAJ BAHADUR: I have already said that we are prepared for a discussion on the Plan.

SHRI SHYAMNANDAN MISHRA: We would like to know if you have conducted all the consultations that are required by rule 190, what is the child of your consultations? Have the consultations produced something or have they proved to be sterile or barren?

MR. SPEAKER: This is not something new. All these years, these have been put before the Business Advisory Committee, and consultations are held in the very presence of

[Mr. Speaker]

hon. Members. There is no private chamber where I take the Minister and consult him or hold consultations with him. It is done in the presence of Members.

SHRI PILOO MODY: I am prepared to get you legal opinion on the rules as they are written, to say that the Minister has no option in the matter except to find time.

MR. SPEAKER: Everything does not go by legal opinion. We are bound by the conventions and practices of this House.

SHRI PILOO MODY: The hon. Minister cannot deny us of the right to have the discussion.

SHRI SEZHIYAN (Kumbakonam): Since the issue has now come up before the House, I want you to decide this matter. There are two aspects. One is to admit the motion, and see in what form it can come, and when it is to be taken up in the House. Another aspect of it, as rightly pointed out by Shri Indrajit Gupta is that rule 190 clearly gives you the option that you should consult....

MR. SPEAKER: I cannot do it alone.

SHRI SEZHIYAN:and then fix the time. As regards the question of admissibility, in which we are interested, the hon. Minister of Parliamentary Affairs has been saying repeatedly that he will decide whether it is a proper motion or not to come up before the House. I say emphatically that it is not his function. It is for the Speaker to decide in what form the motion should come. Therefore, the hon. Minister should not interfere with that....

MR. SPEAKER: What is happening now? It never arose all these years.

SHRI SEZHIYAN: He may be asked to find time, but it is for you, Sir, to decide which motion should come up. Therefore, it is not for the

Minister to say which motion can come. He cannot say that. It is for the Speaker to say which motion can come and it is for the Minister to find the time.

MR. SPEAKER: Let him find the time and I will allow it.

SHRI JYOTIRMOY BOSU: So far as the motion regarding Maruti is concerned, he is not willing. He could find time for discussion of a motion regarding cyclones and flood, even in regard to a place where there is no cyclone. But when it comes to Maruti, he wants points. When I give him points, he says there is no time. When we say we will forgo the lunch hour, he says 'We cannot do it'. It is a shame on them—cowards.

SHRI RAJ BAHADUR: I will quote from our own precedents in this regard. I am trying to help, not hinder.

"Previously, the question as to which of the admitted motions should be brought before the House for discussion was left to Government. The members were not satisfied with such a procedure....

Nor are they now—

"The matter was raised in the Business Advisory Committee at its sitting held on November, 14, 1960 which then appointed a sub-committee to select such motions".

The motions are selected by the BAC according to the urgency and importance of the subject matter. Out of five or six of these, the sub-committee chose one or two notices and the Government provided time for discussion of the same in the House during the following week. Discussion on no-day-yet named motions is arranged in such a way that no member can move more than one motion during a session. Here I may submit that Shri Jyotirmoy Bosu who had given notice of such motions has had his name in four such motions, three under rule 193 and one under another. I can read out those

motions. The motion regarding the STC was in his name. The discussion on the student unrest was in his name. The discussion on the Delhi University was in his name. Today the discussion on the GGS Medical College at Faridabad is in his name also.

Some hon. members rose—

MR. SPEAKER: I am afraid we cannot discuss it in the House. It is for the Minister to find time. The Speaker cannot find time. Either the Business Advisory Committee should do it or the Minister is asked to provide time for it.

SHRI PILOO MODY: He must be instructed to provide time.

SHRI SEZHIYAN: We can forgo lunch hour for three days.

MR. SPEAKER: No, no question of forgoing lunch hour.

SHRI SEZHIYAN: It is a suggestion to Government to consider.

SHRI INDRAJIT GUPTA: If we are forgoing lunch hour, what about the discussion on the Plan. I will insist on that.

MR. SPEAKER: We are not forgoing the lunch hour.

SHRI PILOO MODY: Shri Raj Bahadur has just misled the House.

SHRI JYOTIRMOY BOSU: I have not moved a single motion this session (*Interruptions*).

MR. SPEAKER: Do not make this a fish market.

SHRI SHYAMNANDAN MISHRA: The Chair should recognise that it is the deciding authority in this matter.

MR. SPEAKER: I asked the Government to find the time. When they find the time, I will fix it.

SHRI JYOTIRMOY BOSU: Sir—

MR. SPEAKER: No, No. Shri Dalbir Singh.

SHRI A. P. SHARMA (Buxar): I beg to move:

[Shri A. P. Sharma]

RE: BUSINESS OF THE HOUSE—
contd.

SHRI JYOTIRMOY BOSU (Diamond Harbour): The Minister of Parliamentary Affairs **** (Interruption)**.

SEVERAL HON. MEMBERS *rose*—

MR. SPEAKER: It will not form part of the record. Everyday he is taking too much liberty.

SHRI SHYAMNANDAN MISHRA: (Begusarai): Sir, on a point of order. If the Minister has made an incorrect statement, the hon. Member has every right to contradict it.

MR. SPEAKER: I will see to it.

SHRI SHYAMNANDAN MISHRA: So, kindly ask him whether he sticks to his statement.

MR. SPEAKER: I will get the information from him.

SHRI SHYAMNANDAN MISHRA: Kindly ask him.

SHRI JYOTIRMOY BOSU: Let it go on record that I have not moved a single motion this session, and Mr. Raj Bahadur is deliberately misleading the House.**

I am telling so.

THE MINISTER OF PARLIAMENTARY AFFAIRS AND SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): I have not said anything without consulting the record. I have

consulted the record before saying that.

SHRI JYOTIRMOY BOSU: I have not moved any such motion. You should resign. **(Interruption)**

MR. SPEAKER: When I say I am going to find it out, why are you still interrupting?

SHRI JYOTIRMOY BOSU: You should name the Minister. He is misleading the House. He is misleading you. ****He should go out from the House. You are a Minister of Parliamentary Affairs; you must quit. You, Sir, should name him. (Interruption)**

MR. SPEAKER: Order, order. There is no question of naming him. You must sit down. I am getting the information.

SHRI RAJ BAHADUR: Along with four or five Members who are responsible for the motion on STC, his name appears. His name appears along with four or five others on the motion regarding the student unrest in Delhi. His name appears on all these motions. The record will show that.

SHRI JYOTIRMOY BOSU *rose*—

MR. SPEAKER: He says it is in that motion. You sit quiet.

SHRI INDRAJIT GUPTA (Alipore): He has made a factually incorrect statement.

SHRI SHYAMNANDAN MISHRA: Let him express regret for that. He has given a wrong impression to the House that the hon. Member had moved some motions.

THE PRIME MINISTER, MINISTER OF ATOMIC ENERGY, MINISTER OF ELECTRONICS, MINISTER OF HOME AFFAIRS, MINISTER OF INFORMATION AND BROADCASTING AND MINISTER OF SPACE (SHRI MATI INDIRA GANDHI): Why don't you check it?

*Expunged as ordered by the Chair.

SHRI JYOTIRMOY BOSU: **

(Interruption)

SOME HON. MEMBERS rose—

MR. SPEAKER: What is this? Everything must be expunged—what he has said. It will be expunged. He is taking too much liberty. If a Minister says something, the hon. Member can repudiate it in a polite language. They must not use this language. He is taking too much liberty. *(Interruption)*.

SHRI VASANT SATHE (Akola): He must withdraw what he has said. We cannot stand this any more.

MR. SPEAKER: Order, order. Item No. 7.

14.00 hrs.

MOTION RE: TWENTY-FIRST REPORT OF BUSINESS ADVISORY COMMITTEE

THE MINISTER OF PARLIAMENTARY AFFAIRS AND SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR): I beg to move:

"That this House do agree with the Twenty-first Report of the Business Advisory Committee presented to the House on the 18th December, 1972."

MR. SPEAKER: I shall now put this motion to the vote of the House.

SHRI FRANK ANTHONY (Nominated—Anglo-Indians): There was a consensus in the Committee that the Criminal Procedure Code should not be taken up in this session. Let me at least say what happened there. First of all, only four hours had been allotted; then it was raised to 8 hours.

MR. SPEAKER: You cannot divulge what took place in the Committee.

SHRI FRANK ANTHONY: But they are proposing to take it up. I am opposing it because in the Committee the opposition representatives said that eight hours would be totally inadequate. It is a crucial Bill.

MR. SPEAKER: It was 8 hours. They left two hours with me.

SHRI SHYAMNANDAN MISHRA (Begusarai): I would like you to reconsider this. There was a consensus in the Business Advisory Committee that this subject should not be taken up during this session.

SHRI JYOTIRMOY BOSU (Diamond Harbour): I have written to you in this regard. Yesterday in the Business Advisory Committee it was clearly understood by all of us that this Bill would not come up in this session. Today we see it has been included. This is another gimmick of this Government; you cannot rely on them about anything.

MR. SPEAKER: The question is:

"That this House do agree with the Twenty-first Report of the Business Advisory Committee presented to the House on the 18th December, 1972."

Those in favour will say 'Aye'.

SOME HON. MEMBERS: Aye.

MR. SPEAKER: Those against may say 'No'.

SOME HON. MEMBERS: No.

MR. SPEAKER: I think the 'Ayes' have it.

SOME HON. MEMBERS: No, the 'Noes' have it. *(Interruptions)*.

SHRI RAJ-BAHADUR: I said in the Committee that we were keen to take up this Bill. We proposed four hours.

****Expunged as ordered by the Chair.**

You said: six hours. Then the suggestion was for two days. The time was allotted in the Business Advisory Committee—two days, eight hours, not by me. Therefore, I have included it. The main question is whether time was allotted or not allotted.

SHRI SHYAMNANDAN MISHRA: They are subverting everything. We shall have to take a firm line.

SHRI PILOO MODY (Godhra): We should not have him in that Committee because every decision made there is gone back on, and he comes and defends it.. (Interruptions).

MR. SPEAKER: If you are in doubt, I shall see the proceedings. So far as I remember, when they allotted six hours, the Members said there should be more time and then I observed: let it be two days.. (Interruptions). I shall see the proceedings.

SHRI JYOTIRMOY BOSU: You have clearly said that it can come in the next session, if I can rely on my memory.

MR. SPEAKER: So much was discussed: some people said: next session and some said this session. So far as the allotment of time was there, time was allotted.

SHRI PILOO MODY: May I make a submission? When it was being argued that there was no time for these motions, we kept counting on the paper and said: you have only got 6—8 hours business, how are you going to employ the rest of the week, particularly after this Bill has been put off to the next session? Even then nothing was said.

SHRI RAJ BAHADUR: We said that we would not take up the Education Bill and we should not take up other Bills.

MR. SPEAKER: I will see the proceedings.

इसका मतलब तो इसका बहुत हुआ और इसके बाद 6 घंटे के बजाय मैंने सजेस्ट किया

दो दिन रखे जायें। यह आया था। उसके बाद यह आया कि आज लेना है कस लेना है। टाइम एलीकेट किया कि इट विल टेक सो मच टाइम।

SHRI INDRAJIT GUPTA (Alipore): We take it that although this item appears in this printed list and time has been allocated for it, it does not mean that this will be necessarily taken up this session.

MR. FRANK ANTHONY: Made a special plea that it is a complicated Bill which will require several hours to go through the clauses; The whole Criminal Procedure Code is being revised. It cannot be dealt with so easily.

[श्री अटल बिहारी वाजपेयी : (गालियर): क्या अगली बैठक के लिए भी अभी से समय दिया जा रहा है? क्या अगली बैठक के लिए भी अभी से समय तय किया जा रहा है? यह इसमें रखने की जरूरत क्या थी?]

SHRI RAJ BAHADUR: So far as this Bill is concerned, time was allotted. I did not submit to my friends—they might perhaps in the heat not remember that—that we are very keen to put through this Bill. (Interruptions). If you want to discuss it again in the Business Advisory Committee, I have no objection.

SHRI JYOTIRMOY BOSU: Two things were quite clearly registered and recorded yesterday: The Criminal Procedure Code Bill will not be taken up this session and the Mulki Rules Bill will not be introduced in this session.

MR. SPEAKER: No. Don't put it in my mouth. You do not spare anybody.

SHRI SEZHIYAN (Kumbakonam): For the Mulki Rules Bill, no time has been allotted here. What does it mean?

MR. SPEAKER: I did not say anything. After you asked for my ruling yesterday, the Government then came and said they are very keen to introduce this Bill. So, I am giving my ruling today.

PROF. MADHU DANDAVATE (Rajapur): Many of us in this House have been feeling that these of us who want to raise certain basic issues before the country, because of these procedural wrangles, never get any time, because we do not hold the House to ransom. You yourself should evolve some machinery to see that all these procedural wrangles are decided outside the House first and then it should come before the House, so that the time of the House is not wasted.

14.10 hrs.

MULKI RULES BILL

MR. SPEAKER: Normally I give my ruling orally, but this time I have got it in writing, to be more precise.

Yesterday, after Shri Ram Niwas Mirdha moved for leave to introduce the Mulki Rules Bill, several Members opposed it on legal and constitutional grounds. The legislative competence in regard to the subject matter of the Bill was also challenged by some Members. Shri Atal Bihari Vajpayee sought to move that the Attorney General might be invited to give his opinion on legal aspects of the Bill. He has subsequently tabled a motion also.

I have since considered the matter and looked up the precedents. So far as the question of legislative competence of the House is concerned, it is the accepted practice in Lok Sabha that the Speaker does not give any ruling on whether a Bill is constitutionally within the legislative competence of the House or not. The House also does not take a decision on the specific question of vires of a Bill. It

is open to Members to express their views in the matter and to address arguments for and against the vires for the consideration of the House. The Members take this aspect into account in voting on the motion for leave to introduce the Bill or on the subsequent motions on the Bill.

As regards calling the Attorney General, I had referred the matter to the Minister, Shri R. N. Mirdha. I am informed by him that the Government have no doubt about the competency of the House to take up this legislation and, therefore, the Government do not feel any need to call the Attorney General before the House.

I therefore, hold that the motion for leave to introduce the Bill should be put to the vote of the House.

14.12 hrs.

MINES (AMENDMENT) BILL— Contd.

EXTENSION OF TIME FOR PRESENTATION OF REPORT OF JOINT COMMITTEE

MR. SPEAKER: Shri A. P. Sharma moved the motion for the extension of the time for the presentation of the Report of the Joint Committee on the Bill further to amend the Mines Act, 1952.

The question is:

"That this House do further extend upto the 9th March, 1973, the time for the presentation of the Report of the Joint Committee on the Bill further to amend the Mines Act, 1952."

The motion was adopted.

MOTION RE: TWENTY-FIRST REPORT OF BUSINESS ADVISORY COMMITTEE—Contd.

MR. SPEAKER: Now, about the B. A. C. Report, I am going to put it again....

SHRI G. VISWANATHAN (Wandiwash): Sir, when you said that you are going to see the proceedings of the B.A.C., why are you putting it to the vote of the House?

MR. SPEAKER: So far as this Report is concerned, I think, it is complete. We can meet later on.... (*Interruptions*).

SHRI SHYAMNANDAN MISHRA (Begusarai): The entire opposition seems to be opposed to its being taken up in the current session. The business of the House has to be in consultation with the Opposition. The Opposition to a man is opposed to it. And yet you want it to be put to the vote of the House.

SHRI INDRAJIT GUPTA (Ail-pore): Sir, I suggest, particularly since you have yourself said that you will look into the proceedings again of the B.A.C., that you send this matter back to the B.A.C. There is no doubt that as far as the Code of Criminal Procedure Bill is concerned, we were all unanimous that it should not be rushed through and that it should be held over to the next session.

MR. SPEAKER: So far as the time allotted to the Code of Criminal Procedure Bill is concerned, I think you can take it out. The rest of the B.A.C. Report may be passed. There are your other decisions that have come in the final shape. If you are doubtful about that, I said, I shall see the proceedings of the B.A.C.

SHRI G. VISWANATHAN: Can the Speaker move an amendment to the B.A.C. Report?

MR. SPEAKER: Don't be too technical and too touchy about everything.

I am putting it to the vote of the House in the light of the observations I have made.

The question is:

"That this House do agree with the Twenty-first Report of the Business Advisory Committee presented to the House....

SHRI JYOTIRMOY BOSU (Diamond Harbour): I want to speak on it. I wrote to you....

MR. SPEAKER: No please; I did not get it.

SHRI JYOTIRMOY BOSU: That is not my fault. I have written to you.

MR. SPEAKER: Normally, the procedure is that when the business of the House for the next week is announced, the Members speak. We have settled that on B.A.C. Report the Members will not speak.

SHRI JYOTIRMOY BOSU: I want to get certain clarifications.

MR. SPEAKER: Clarifications about what?

SHRI JYOTIRMOY BOSU: What happened to the Provident Fund (Defaulters) Bill, the Diffusion of Press Ownership Bill, the Anti-Defections Bill, the Urban Property (Ceiling) Bill, the Inflow of Foreign Money into Political Parties Bill? What happened to all those things? (*Interruptions*).

MR. SPEAKER: Order, Order. This is very improper. You were a part of the Business Advisory Committee.

SHRI JYOTIRMOY BOSU: I want to make a submission. I have written to you and I am entitled to make a submission. 'Submission' is the word that I am using. I am not saying that 'I must'....

MR. SPEAKER: Those who are members of the Business Advisory Committee should not speak. It is against the propriety.

14.17 hrs.

MULKI RULES BILL—Contd.

MR. SPEAKER: I have given my ruling already on this. (Interruption) So far as this is concerned, the motion will come. If you want to discuss it before its introduction...

SHRI JYOTIRMOY BOSU: Yesterday immediately after the Business Advisory Committee meeting was over, Mr. Raj Bahadur, in a hurry, had given this statement, and we had no time to know what it was. We find that these are not listed—Provident Fund (Defaulters) Bill, Diffusion of Press ownership Bill, Anti-Defection Bill, Urban Property (Ceiling) Bill...

SHRI M. SATYANARAYANA RAO (Karimnagar): Have you consulted the legal experts on this issue, whether this House is competent... (Interruption).

MR. SPEAKER: Order, please. If you want to speak here, you should not sit in the Committee....

PROF. MADHU DANDAVATE (Rajapur): On a point of clarification....

SHRI JYOTIRMOY BOSU: Why are you interrupting me, Sir?

MR. SPEAKER: No question of clarification.

MR. SPEAKER: I am not allowing you....

PROF. MADHU DANDAVATE: I had challenged the legislative competence and on that point you have given the ruling. I want to seek a clarification for guidance. You have permitted the others, who hold the House to ransom, to speak, but when I want to seek clarification on your ruling, you are not permitting me.

MR. JYOTIRMOY BOSU: Why do you want to protect the Government?

MR. SPEAKER: I am not going to tolerate it.

MR. SPEAKER: No question of clarification. I have given the ruling.

SHRI JYOTIRMOY BOSU: I have given written notice. You may kindly sit down, Sir....

MR. SPEAKER: Will you please sit down? I must say that we will have to take action against this member. What is this? He has reached a stage which is intolerable.

श्री बदल बिहारी बाजपेयी (गालियर): अध्यक्ष जी, आपकी रूलिंग को चुनौती देने का कोई इरादा नहीं है, लेकिन मेरा निवेदन है कि आप इस बात पर फिर से गौर कर लें—क्या सरकार का इतना कहना कि एटार्नी-जनरल की राय की कोई जरूरत नहीं है, काफी है? सदन को इस बात पर सहमत होना पड़ेगा कि इस बारे में हम एटार्नी-जनरल की राय सुनना चाहते हैं या नहीं। अगर सरकार को कोई शक होता तो वह इस बिल को नहीं लाती।

The question is:

"That this House do agree with the Twenty-first Report of the Business Advisory Committee presented to the House on the 18th December, 1972, subject to the modification that item (c) of para 2 of the Report regarding the Code of Criminal Procedure Bill, 1972, be deleted."

The motion was adopted.

MR. SPEAKER: The question of Attorney-General does not arise. I was very clear even yesterday. I thought, some time should be given for some thought over it. I told the Minister: 'Do you want some time to consider about this?' and then all of

[Mr. Speaker]

you said 'Yes'(Interruptions) For me, so far as this ruling is concerned, to go into the constitutional or other objections, the Speaker cannot go. But he can listen to them, you can speak on it. But this cannot debar the Bill, if the Government is insisting on it....

SEVERAL HON. MEMBERS rose—

MR. SPEAKER: I do not think so many of you had ever been so cruel to me as to-day. You are so many, but I am only one.

SHRI SHYAMNANDAN MISHRA (Begusarai): I have to make a submission only on two points.

You are pleased to say yesterday that you would like to go into the legality of the matter....

MR. SPEAKER: I did not say anything. Do not put anything into my mouth. I did say that I would take sometime to study it.

SHRI SHYAMNANDAN MISHRA: Let me interpret what I have heard..

MR. SPEAKER: Do not do it. This is a very bad habit.

SHRI SHYAMNANDAN MISHRA: I may be wrong, but let me interpret what I have heard....

MR. SPEAKER: I just said, 'I postpone the consideration for some time.' That is all.

SHRI SHYAMNANDAN MISHRA: Then, I come to another point. My submission is.... (Interruptions)

SHRI K. D. MALAVIYA (Domariaganj): May I raise a point of order, Sir? Once a final ruling is given by the Speaker, after considering all the facts, is it open to the House....

MR. SPEAKER: No. It is not open to the House.

SEVERAL HON. MEMBERS rose—

MR. SPEAKER: Do not keep all the time standing.

SHRI SHYAMNANDAN MISHRA: My submission is: if the Speaker was only pleased to go into the precedents, then, of course, the matter was different, and you have done that.

What I want you to consider is: whether it is for the Government to say whether the presence of the Attorney-General is required in the House or not, or is it for the Chair to say?

MR. SPEAKER: So far as help to me is concerned about this matter, I do not need the Attorney-General.

AN HON. MEMBER: What have the Government got to say on this?

SHRI INDRAJIT GUPTA (Ailpore): About your ruling, there is no question of disputing your ruling. But, Members, on this side, to-day and yesterday, have expressed their opinion, which the Government has rejected....

SHRI SHYAMNANDAN MISHRA: Without any reason.

SHRI INDRAJIT GUPTA: Doesn't matter. Now, if the Government is determined to go ahead with this introduction of the Bill and they do not consider it necessary to take the advice of the Attorney-General, it is their look-out. It is their responsibility. Whatever consequences may follow, the responsibility will lie with them.. (Interruptions) But I would only say: let the Prime Minister say one thing.

The proceedings of the House are being followed by millions of people outside who are vitally involved in this Mulki issue. Therefore, I would request the Prime Minister to consider one thing: that if they are determined to go ahead with this introduction—they have a majority and they can do it—and if they do not think it necessary to consult the Attorney-General, whatever legal consequences

may follow, that will be their responsibility. At least, along with the introduction of the Bill, that part of the formula which is not embodied in the Statute, that should also be stated afresh in the House. There are certain parts of the five-point formula which are not included in the statute. They are outside the statute and when you are bringing the Bill which is confined to two or three points only, the remaining part of your policy should be clearly stated so that the people outside should know what is the entire formula and the entirety in which you are trying to put it.... (Interruptions).

MR. SPEAKER: Now the question is:

"That leave be granted to introduce a Bill to provide for certain amendments to the Mulki Rules so as to limit their operation for the validation of certain appointments and for the repeal, in a phased manner, of the said rules and for matter connected therewith."

Those in favour may please say 'Aye'.

SOME HON. MEMBERS: Aye.

MR. SPEAKER: Those against may please say 'No'.

SOME HON. MEMBERS: No.

MR. SPEAKER: The 'Ayes' have it.

SOME HON. MEMBERS: The 'Noes' have it.

MR. SPEAKER: Division. Let the lobby be cleared. (Interruption) Nothing will go on record when the bell is going on—the lobby has been cleared.

Now, I will put it again for the vote of the House.

The question is:

"That leave be granted to introduce a Bill to provide for

certain amendments to the Mulki Rules, so as to limit their operation, for the validation of certain appointments and for the repeal, in a phased manner, of the said rules and for matters connected therewith."

The 'Ayes' have it, the 'Ayes' have it. The motion is carried.

The motion was adopted.

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS AND IN THE DEPARTMENT OF PERSONNEL (SHRI RAM NIWAS MIRDHA): I introduce the Bill.

SHRI INDRAJIT GUPTA: Now that the Bill has been introduced, let the Prime Minister consider my suggestion, because there is a certain situation outside also, after all. We have to explain to the people. Why do you encourage separatist tendencies in both the camps?

MR. SPEAKER: As and when there is a discussion, everything can be discussed....

THE PRIME MINISTER, MINISTER OF ATOMIC ENERGY, MINISTER OF ELECTRONICS, MINISTER OF HOME AFFAIRS, MINISTER OF INFORMATION AND BROADCASTING AND MINISTER OF SPACE (SHRIMATI INDIRA GANDHI): I have told the Member that we will do so, but this is not the opportune time.

MR. SPEAKER: Do you want to go for lunch or keep on sitting?

SOME HON. MEMBERS: We may adjourn for lunch.

MR. SPEAKER: All right. We adjourn for lunch to reassemble at 3-30 p.m.

14-30 hrs.

The Lok Sabha adjourned for Lunch till Thirty Minutes past Fifteen of the clock.

The Lok Sabha re-assembled after Lunch at Thirty-three Minutes past Fifteen of the Clock.

[MR. DEPUTY-SPEAKER in the Chair]

SHRI JYOTIRMOY BOSU: (Diamond Harbour) I would crave your indulgence for a minute....

MR. DEPUTY SPEAKER: He had raised so much of storm in the morning. Again, he wants to raise something?

SHRI JYOTIRMOY BOSU: You were not here, Sir, in the morning. I only want to bring to the notice of the House a matter which is of serious importance. It is a very serious matter, because it infringes the rights of the Members and of the House. On the 4th instance, we had a discussion on the rags scandal which was a very long and an exciting debate. After the debate was over the Minister and his VIP officials had started shoning up the different newspaper offices to underplay the report. It was not that every newspaper had acceded to that request. But it has become scandal in the press world that the rags scandal debate was underplayed.

MR. DEPUTY-SPEAKER: I do not think we can do anything about it?

SHRI JYOTIRMOY BOSU: Pardon, Sir....

MR. DEPUTY SPEAKER: We cannot do anything about it.

SHRI S. M. BANERJEE (Kanpur): I crave your indulgence to mention just one very small point. 25 workers from Jamshedpur, who were retrenched or dismissed from TELCO and the Indian Tubes Co. have come here to meet the Members of Parliament and the Speaker of the Lok Sabha. An assurance had been given in the House by Shri Bhagwat Jha Azad when he was the Minister in the Ministry of Labour, and that was taken note of, but still nothing has been

done. These workers are just rotting in the streets. I would request you, and through you, the Minister of Parliamentary Affairs and also Shri L. N. Mishra, who knows the case, and whom also they would be meeting, to see that the Labour Minister makes a statement in this regard, because these workers are facing starvation actually.

SHRI JYOTIRMOY BOSU: They had also come to see me. They are in great distress. Something should be done for them. They cannot go on starving.

SHRI INDRAJIT GUPTA (Alipore): Government can make a suggestion to Shri Kedar Pandey, the Chief Minister of Bihar to see that these unfortunate dismissed workers are taken back.

14.35 hrs.

RICHARDSON AND CRUDDAS LIMITED (ACQUISITION AND TRANSFER OF UNDERTAKINGS BILL)*

THE MINISTER OF INDUSTRIAL DEVELOPMENT AND SCIENCE AND TECHNOLOGY (SHRI C. SUBRAMANIAM): I move for leave to introduce a Bill to provide for the acquisition and transfer of the undertaking of the Richardson and Cruddas Limited, for the reconstruction of the register of its members and for matters connected therewith or incidental thereto.

MR. DEPUTY-SPEAKER: The question is:

"That leave be granted to introduce a Bill to provide for the acquisition and transfer of the undertaking of the Richardson and Cruddas Limited, for the reconstruction of the register of its members and for matters connected therewith or incidental thereto."

The motion was adopted.

SHRI C. SUBRAMANIAM: I introduce the Bill.

MYSORE STATE (ALTERATION OF NAME) BILL*

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS (SHRI K. C. PANT): I move for leave to introduce a Bill to alter the name of the State of Mysore.

MR. DEPUTY-SPEAKER: The question is:

"The leave be granted to introduce a Bill to alter the name of the State of Mysore".

The motion was adopted.

SHRI K. C. PANT: I introduce the Bill.

14.7 hrs.

SICK TEXTILE UNDERTAKINGS (TAKING OVER OF MANAGEMENT) BILL—Contd.

MR. DEPUTY-SPEAKER: We now take up further clause-by-clause consideration of the Bill to provide for the taking over, in the public interest of the management of the sick textile undertakings, pending nationalisation of such undertakings, for the expeditious rehabilitation of such undertakings so that such rehabilitation may subserve the interest of the general public by the augmentation of the production and distribution, at fair prices, of cheaper varieties of cloth and for matters connected therewith or incidental thereto together with further consideration of amendment No. 1 to the First Schedule moved on 18 December, 1972.

Yesterday we disposed of all the clauses and we were discussing the First Schedule to which only one member moved his amendment. I would like to ascertain from the others. Shri H. M. Patel.

*Published in Gazette of India, Extraordinary, Part II, section 2, dated 19-12-1972.

/Introduced with the recommendation of the President.

MR. DEPUTY-SPEAKER: Your name is not there.

SHRI PILOO MODY: Kindly hear me.

MR. DEPUTY-SPEAKER: I am on my legs. Both of us cannot be standing together. He will resume his seat. Now what does he want?

SHRI PILOO MODY: We had written to you that because Shri H. M. Patel was unfortunately taken ill, my name was substituted. This was notified well ahead of time.

MR. DEPUTY-SPEAKER: I do not think it can be done under the rules.

SHRI PILOO MODY: This was done at least 24 hours of 36 hours before.

SHRI B. R. SHUKLA (Bahraich): I beg to move:

Page 10,—

omit lines 45 and 46. (16).

SHRI P. G. MAVALANKAR (Ahmedabad): I beg to move:

Page 10—

omit lines 42 to 44. (20).

SHRI NATWARLAL PATEL (Mehsana): I had moved my amendment and I want to speak.

MR. DEPUTY-SPEAKER: I had already said that one member had moved his amendment. His amendment has been moved.

If only members will listen to what I say, much of the confusion will disappear. His amendment is there. Does he want to speak?

SHRI NATWARLAL PATEL: Yes.

MR. DEPUTY-SPEAKER: Please do.

SHRI NATWARLAL PATEL: My amendment is a very simple one. Yesterday, in my speech I had requested the hon. Minister to accept this amendment and include that particular mill in the Schedule in the interest of the labourers who are jobless since the last 8 years. This unit is a very nice unit with good machinery. According to my authentic information, 1,200 looms and 25,000 spindles are there. It is a great tragedy in this industry that this mill has been closed for the last 8 years. Nobody has bothered to run it. Nobody has bothered to look into it from the production point of view. Nobody has worried about it from the unemployment point of view. So far as the 1,500 labourers are concerned, each labourer represents a family of 4 persons so that really speaking, the closure has affected 6,000 people who are in my constituency.

I would request the hon. Minister to accept the amendment from the human point of view, for giving jobs to those labourers who are suffering for want of jobs. I am speaking from the depth of my inner soul when I plead for these sufferers. Some of them have already passed away due to unemployment and for want of adjustment.

Mr. Deputy-Speaker, you very well know that so far as the poor people are concerned, their assets are also poor. Generally, after they are made unemployed, it is very difficult for them to find another employment. Yesterday, as I said in this hon. House, the position is that out of 1,500 labourers, a majority of them are people who belong to the Harijan community. We know what is the position of Harijans in this country. Many times, we are speaking for them and we are passing so many rules and regulations and giving so many Directives to the

concerned States to provide facilities for them, but still, a majority of these people are without land and they have no source to maintain themselves. So far as this Bill is concerned, those who are working in this establishment, the Harijans, are without any land. They have no source to maintain themselves.

So, I would like to request the hon. Minister again to accept this simple amendment which I have moved on the floor of this hon. House from a humanitarian point of view. I have given my reasons and expressed my feelings in my speech yesterday. Nothing more is required to be said now on this amendment. This is a very simple amendment which is concerned with the poor people. That is why I again draw the attention of the hon. Minister to this aspect. and I again request him to accept my amendment.

Shri P. G. MAVALANKAR (Ahmedabad): Mr. Deputy-Speaker, Sir, I am in broad agreement with this Bill, and I understand from the hon. Minister's statement yesterday in reply to the points raised in the general discussion that this Bill does not seek to nationalise the textile industry as such, but that it is a measure meant for taking over all those textile units which are sick, so that production is not hampered and unemployment is not increased and the hardships to the working classes are eliminated. I do concede that these are good and laudable objectives.

My amendment is very simple. I want the Fine Knitting Mills in Ahmedabad—item No. 13 in the First Schedule—to be omitted from this list of sick mills. I say this because this particular mill, the Fine Knitting Mills, is not a textile unit at all. This Bill is concerned with the sick textile mills. The point is that this particular company, the Fine Knitting Mills, is not a textile unit, but it is a hosiery unit, and this was started in 1908, and spinning was started in 1924 with a view to

strengthening and feeding up their own establishment for knitting. Later on, it was found that 9,000 spindles with which the spinning Department started remained stationary from 1924 to 1966. Then, after 1966, there were some difficulties, and the machinery became out-of-date, and the spindles were not found useful for fulfilling the original purpose, namely, hosiery.

Then, in 1967, this company applied for a permit for scrapping the spinning department, and as late as in November, 1971, this scrapping permit was granted by the Government, and accordingly, spinning was stopped. The old machinery was disposed of by about March, 1972. The position now is that only 9,000 spindles in 24 ring frames are lying, in a empty shed and the total value of that is roughly Rs. 50,000 as scrap. If these were to be used again and made into a working unit, I believe and I understand that not less than Rs. 30 lakhs to Rs. 40 lakhs extra machinery will be needed. This is not really doing something with a view to helping the sick units to become healthy. It is almost like giving birth to a new child. This Bill is concerned with sick and not with newly established units. I feel that this unit which was originally started as a hosiery unit and today also is only a hosiery unit should not be included in the list of sick textiles mills.

The Supreme Court also in its judgment on three specific issues and in one of them in particular has said with regard to this particular company that "If that is so, industrial activities of this appellant in relation to the hosiery industry must be recognised separately from the textile industry." So, my submission is that the Minister should kindly accept this amendment and remove this mill from the list of sick textile mills.

The workers in this particular unit who were in the spinning department numbered about 125. When

this department was abolished, from 19 March, 1971 they were paid bonus and all their other dues and no dues are payable to them. In view of this fact and also the fact that all outstanding payments such as electric bills, wages, P. F., E. S. I., material bills, etc. have already been honoured and cleared, I am making this plea that this particular mill be omitted from the list. This mill paid the 1971 bonus in August 1972 whereas other units in Ahmedabad paid it, I understand, in October 1972. This is no longer a textile unit it has paid all its dues, it is no longer sick. In these circumstances I see no reason why this particular unit should be considered as a sick unit.

The present hosiery unit is working well and has turned the corner. However, since the hon. Minister has included it in the sick list the skilled workers who are fit for a particular job of hosiery are leaving this mill because they are not sure whether it will remain independent as a hosiery or it will go into the sick list. What is more important this hosiery unit has also started exporting and it has got several lakhs rupees worth of export orders from foreign countries. Why should we allow this good working mill to be included in the sick list and put it in the hands of Government for incurring greater liability? I have therefore moved the amendment and I hope the hon. Minister will in view of what I have said kindly accept my amendment.

SHRI S. M. BANERJEE (Kanpur): I support the amendment moved by my friend Shri Patel, unconditional-ly. I would like to utilise this opportunity to mention two other textile mills which require to be taken over under the national textile corporation or by the Government.

MR. DEPUTY-SPEAKER: If they are not in the list, how can you speak on them?

SHRI S. M. BANERJEE: This is an amendment to the list they have submitted. The Minister assured the House yesterday that he would consider....

MR. DEPUTY-SPEAKER: It is not quite relevant.

SHRI S. M. BANERJEE: He can move an amendment.

MR. DEPUTY-SPEAKER: He cannot move any amendment now; I have to accept it.

SHRI S. M. BANERJEE: Subject to your acceptance. My fear is that if I move an amendment you may not accept, but if he moves an amendment you may say, I am going to accept it. Shri Indrajit Gupta and I have both mentioned one of the textile mills, Lakshmi Ratan Cotton Mills of Kanpur. An investigation was made and a central team went to Kanpur and it came to the conclusion that it was utterly mismanaged and the report was finalised and direction was issued by the Centre to the State Government that the Lakshmi Ratan Cotton Mill headed by a notorious business man, Shri Ram Rattan Gupta should be taken over by the U.P. Government or by the Centre. I plead for taking over of this mill for three reasons.

SHRI PILOO MODY: That notorious businessman was a Congress Member of Parliament.

SHRI S. M. BANERJEE: They have not paid bonus for the last three years. They have not paid, for years together, the ESI dues, income-tax arrears to the tune of Rs. 31 lakhs. They have also not paid provident fund to the tune of 4-5 lakhs; they have also not paid sales-tax which also runs into some lakhs. They have not paid the freight for the railway siding. They do not pay anything; still they are able to run. We want this mill to be taken over. The hon. Minister assured yesterday

(Takeover of Manag.) Bill

that he would reply to the debate. This particular mill should be taken over....

MR. DEPUTY-SPEAKER: He cannot do it by this Bill at least.

SHRI S. M. BANERJEE: He is capable of doing it. I want an assurance from him; the amendment can be moved later on. The second point is about Hindustan Embroidery Mill, Chaharta, Amritsar. Investigations were made.

MR. DEPUTY-SPEAKER: Why don't you take the trouble of sending an amendment proposing the inclusion of these mills?

SHRI S. M. BANERJEE: This actually substitutes the Ordinance and I thought that amendments might not be accepted and only an assurance would be given.

I want that the Lakshmi Rattan Mills, Kanpur and Hindustan Embroidery Mills, Chaharta, Amritsar should also be taken over.

SHRI B. R. SHUKLA: I have moved an amendment to the effect that item 14 relating to Gaya Cotton and Jute Mills Ltd. included in the schedule should be deleted from that schedule. Although this concern has been running on unsound lines and at one stage it was deemed fit to be included in the category of sick mills subsequently the proprietors leased it out to some lessees and the lessees have invested a considerable amount of money to make it a going concern. So, they should be given an opportunity to run it properly. In case they also fail to run it properly, then Government under the provisions of this Bill has power to take it over. Therefore, if this mill is excluded from the schedule, justice would be done to the lessees and there would be no harm to the public. The ultimate aim of the Bill is to boost up production and that can be achieved in this way.

श्री सत्यनारायण प्रसाद (ललितपुर) :
उपाध्यक्ष महोदय, यह मिल बहुत दिनों से
बन्द थी। मेरी सूचना है कि गया डिस्ट्रिक्ट
के एसेम्बली और पार्लियामेंट के सब मेम्बर
इस बारे में एकमत हो कर बिहार सरकार से
मिले और एक दूसरी पार्टी से एक एग्रीमेंट
किया गया। उसके बाद उस पार्टी ने इस
मिल पर लाखों रुपये व्यय किये हैं और वह
मिल चलने की हालत में हो गई है। गवर्नमेंट
ऑफ इंडिया को यह सूचना नहीं है कि वह
मिल चलने की हालत में है। एसी सूरत में
उस मिल को सिक मिल मान लिया गया,
जो कि फ्रीट नहीं है।

मैं यह भी निवेदन करना चाहता हूँ कि
इस विधेयक में जोजिज हो सकते हैं। राज्यपालों
और राष्ट्रपति द्वारा इसमें किये गये बहुत से
आर्डिनेन्सों में परिवर्तन हुए हैं। बैंकों के
राष्ट्रीयकरण से सम्बन्धित आर्डिनेन्स में भी
परिवर्तन हुआ था। इसी तरह इस में भी
परिवर्तन हो सकता है।

मेरी मंत्री महोदय से प्रार्थना है कि
वर्तमान स्थिति को देखते हुए इस मिल को
चलाना उचित है। अगर सारी मिलों का
राष्ट्रीयकरण करना है, तो मुझे कोई एतराज
नहीं है। मैं उसका समर्थन करता हूँ। मेरा
निवेदन है कि मंत्री महोदय इस मिल को
सुचारु रूप से चलने का अवसर दें।

श्री चन्द्रिका प्रसाद (बलिया) : उपाध्यक्ष
महोदय, नोटिफिकेशन निकलने से पहले यह
गया काटन एंड जूट मिल चल रही थी।
इस लिए इसको सिक मिल कहना तर्कसंगत
नहीं है। जब वह सिक मिल नहीं थी, तो
उसको लेने की बात कहाँ आती है? मेरा
निवेदन है कि इस मिल को छोड़ दिया जाये।
अगर मंत्री महोदय इस समय ऐसा नहीं कर
सकते हैं, तो वह आश्वासन दें कि वह इस बारे
में विचार करेंगे।

THE MINISTER OF FOREIGN
TRADE (SHRI L. N. MISHRA) : Sir,
I have looked into the various amend-
ments carefully....

MR. DEPUTY SPEAKER: A num-
ber of mills have been made healthy
by your Bill.

SHRI L. N. MISHRA: The list men-
tioned in the scheduled has been
drawn up after careful consideration.
As a matter of fact, we have been
working over this Bill for the last
six months. A number of representa-
tions had been made to us and we
re-examined them also. Here also,
some hon. Members have raised the
questions about some mills. About
the Gaya Cotton and Jute Mills, the
question was raised and the hon.
Member, Shri Tarkeshwar Pandey,
has said about it. I come from Bihar.
As a matter of fact, when the Bill
was drafted in my Ministry, I was
very keen that this Mill should be
taken over because for the last 10
years the Mill has not been working.
I had been to Gaya only 3½ months
ago along with the Prime Minister
to see the drought situation. I want-
ed to know from the people whether
this Bill was working. The people
there told me that this Mill was clos-
ed for the last 10-11 years. Now,
some people have taken it on lease
from the original owner and they
want to run it. They have invested
some money. But I cannot do it at
this stage. It will be difficult for me
to do it. I am also advised by the
Law Ministry that it will not be pos-
sible or advisable to drop any Mill at
this stage.

About the Kadi Durga Cotton Mills
Ltd., the hon. Member, Shri Nafwar-
lal Patel wants that this Mill should
be included. Today I cannot include
it. But there is a provision in clause
4 of the Bill that if we find that some
Mill has fallen sick, we can take over
that Mill after going through the drill.
I can assure him that after the Bill is
passed, if we really feel that that Mill
is sick, that it cannot be run properly,

[Shri L. N. Mishra]

we will try to take over that. I have nothing more to say.

MR. DEPUTY-SPEAKER: Now, I put all these amendments....

SHRI S. M. BANERJEE: He has said that this Mill cannot be taken over. Therefore, I never move an amendment. I knew that it was not going to be accepted. About the Laxmi Rattan Cotton Mills, Kanpur and the Hindustan Embroidery Mills, Chahatra.... (Interruptions)

SHRI P. G. MAVALANKAR: The Minister has not replied to my amendment.... (Interruptions)

MR. DEPUTY-SPEAKER: Order, please. He has replied to all that. I put all the amendments together to the vote of the House.

Amendments Nos. 1, 16 and 20 were put and negatived

MR. DEPUTY-SPEAKER: There is no other amendment. I will put the Schedules and the rest of the Bill to the vote of the House.

The question is:

"That the First Schedule, the Second Schedule, Clause 1, the Enacting Formula and the Title stand part of the Bill"

The motion was adopted.

The First Schedule, the Second Schedule, Clause 1, the Enacting Formula and the Title were added to the Bill.

SHRI L. N. MISHRA: I move:

"That the Bill, as amended, be passed."

MR. DEPUTY-SPEAKER: Motion moved:

"That the Bill, as amended, be passed."

SHRI JYOTIRMOY BOSU (Diamond Harbour): This Government never forgets politics. They do politics in food; they do politics in everything. Similarly, in the matter of take-over of textile mills, where the union is controlled by a party which is opposed to the Congress party, the ruling party, they are having a different standard. It is a double-standard policy.

I give one example in support of what I have said. About the Arati Cotton Mills in Howrah, because the union is controlled by a party which is Congress-opposed, you are not taking over the Mill. As a result, the Mill which is in good shape is getting ruined and 106 workers are on the street. I made representations to the hon. Minister. He did not even bother to give a full-fledged reply. I got only a stereotyped acknowledgement. Then, when I went to Howrah and visited the Arati Cotton Mills, a particular person told me that Mr. L. N. Mishra cannot take over this Mill because he has been advised by the West Bengal Government that this union is controlled by Congress-opposed forces and, therefore, let the workers suffer. The attitude is, either come into INTUC and join the Congress Union or else let them starve in the streets. I only want to point out the class character of this Government: on the one side they go and lick the feet of the monopolists and on the other, they make the workers starve.

16.00 hrs.

MR. DEPUTY-SPEAKER: Mr. S. M. Banerjee. May I draw your attention to the rule that you cannot repeat the same argument? If you are going to say the same thing, better you do not speak. I would not allow repetition.

SHRI S. M. BANERJEE: I shall abide by what you say. But, if I am not satisfied with the reply or if my point has not been replied to, I can repeat it....

MR. DEPUTY-SPEAKER: I will make your job easier. Will the Minister reply to his points?

SHRI L. N. MISHRA: Yes; I will.

MR. DEPUTY-SPEAKER: He will reply to your points.

SHRI S. M. BANERJEE: I am not going to say anything unless you permit me. But may I say that all these years, if a particular point has not been replied to satisfactorily or has not been replied to at all right from the first reading to the last reading, it can be repeated. I would only mention the names of two mills. He has not taken note of them..

MR. DEPUTY-SPEAKER: Have you got the names of the mills?

SHRI L. N. MISHRA: I think, I have..

SHRI S. M. BANERJEE: I want to know whether he is going to take over Lakshmi Rattan Cotton Mills in Kanpur and the Hindustan Embroidery Mills, Chaharta. I know he will favour the idea.

SHRI PILOO MODY (Godhra): The Government is welcome to take over sick mills because, after all, the treatment that they may give to those mills will make them sicker and they are welcome to it. But I strongly object to Government taking over healthy mills because the inevitable is bound to happen and the healthy mills are going to become sick. Therefore, I cannot say that I agree with the manner in which the Schedules are drawn up. There have been cases that have come to my notice where without investigation, without anybody having gone to see whether the mill is sick or healthy or working or not working, and in some cases whether the mill is there or not, they have put them on the Schedule in their own fashion and, therefore, I can come to the conclusion that this is Mr. Lalit Narayan Mishra's private little inquisition in which he goes

around witch-hunting and trying to get certain mills which he threatens with take-over. I have here the example, which was tabled by way of an amendment which unfortunately Mr. H. M. Patel was not in a position to place before the House, of Bijli Cotton Mills, Hathras. This mill is not a sick mill. The techno-economic survey which was carried out has certified that it is an economic unit and not a sick one. The reason why it had to be shut down was non-supply of power by the U.P. State Electricity Board. The Board finally agreed to supply the power in September after a prolonged correspondence, and notice to re-start the mill was put up on the 21st October before the Ordinance came.

SHRI S. M. BANERJEE: Your information is very poor.

SHRI PILOO MODY: The management is ready to discharge all the obligations as far as I have heard. I do not know, but they are prepared to discharge all the obligations and they are prepared to maintain the specific level of production. Assuming what I have stated is correct, in spite of what Mr. Banerjee may say—he may correct it if it is wrong—but, assuming that what I have said, is correct, is the Government justified to take over a unit like that? Does it come within the purview of this Bill? Is this why this Bill has been brought forward? And, if it does, I think he will have to make out a better case than what he has done hitherto?

SHRI K. S. CHAVDA: Regarding Mr. Mavlankar's amendment..

MR. DEPUTY-SPEAKER: There is no question of amendment now.

SHRI K. S. CHAVDA (Patan): My point was that he has not replied to that amendment at all. I would like to know his views regarding the amendment moved by Mr. Mavlankar. He has not said anything. He was rising repeatedly but as you were standing, he sat down.

SHRI L. N. MISHRA: I might say a word about Mr. Jyotirmoy Bosu. He said politics has dominated in considering and taking over of these mills. No politics has dominated in the selection of these mills.

Bengal Mill—it is not that we have not taken it earlier. Last year, when, just after the elections, Mr. Sidhartha Shankar Ray, the Chief Minister asked me to take over some of the sick mills or help him to re-open those mills because labourers were not getting jobs and they were unemployed, at the instance of Mr. Sidhartha Shankar Ray, we took over six mills last year and thousands of workers got jobs and these mills are not only working but they are making profits also. There are six other mills in this Schedule also.... (Interruptions) Therefore, in Bengal,...

SHRI JYOTIRMOY BOSU: I made a specific case seeking clarification from the hon. Minister. He is taking me for a ride. I do not want to go for a ride.

SHRI L. N. MISHRA: Who can take the hon. Member for a ride? Nobody can take him.

Then, there is no politics at all. They were asking me to mention....

SHRI JYOTIRMOY BOSU: Are you going to take it over?

SHRI L. N. MISHRA: I would say—I cannot promise—I will also look into this mill as I have given an assurance in the case of my hon. friend there.

Shri S. M. Banerjee also raised the question of two mills. One is the Laxmi Ratan Mills.... (Interruptions) I am not giving an assurance. I said, I will get it examined. I did not say that I will take it over.

SHRI JYOTIRMOY BOSU: The Union is controlled by your Party.

SHRI L. N. MISHRA: There is no question of Union there. The question is: whether it is a sick mill, whether it is a closed mill or whether it is an uneconomic mill or not. I will come to these later.

Shri S. M. Banerjee raised that point. He knows about the Laxmi Ratan Mills. We have discussed it earlier also. We had investigations made and it was in an advanced stage of take-over. But, somehow or the other, it could not be taken over because 49 per cent of the financial responsibility had not come from the State Government. I will look into it again. Same is about the other mill.

Shri Piloo Mody raised the matter of Bijli Cotton Mills saying that I am going on witch-hunting. I will be the last person to go on witch-hunting....

SHRI PILOO MODY: I have not said that. On this issue, I merely said that this is not a sick mill. On your total bill, I have said that you go witch-hunting.

SHRI L. N. MISHRA: On the total Bill also. Mr. Piloo Mody said that the sick mills will get sicker. I will only ask him to go through the report of the National Textile Corporation. We have taken over 57 mills in the course of two years. Most of these mills have started making profits and one lakh of workers got new jobs and production of Rs. 200 crores worth of textiles was made by the National Textile Corporation.

SHRI PILOO MODY: You should not hide behind the back of the textile industry. The textile industry has been going through a boom last year and any mill could have made profits this year.

SHRI L. N. MISHRA: None. Out of these 48 mills—may be one or two—all are sick.

I will say that there is no question of witch-hunting in making the selection. Do not think like that, I am very much against this idea of witch-hunting. Please, I may tell you as a friend also....

MR. DEPUTY-SPEAKER: You please tell me also.

SHRI L. N. MISHRA: Sir, I am putting it in inverted commas and you will understand what I mean by it.

Regarding that closed mill, I will only say, if this was so, it was because of the fact that it was closed for more than 3 months or so. Maybe, there was power failure. I will look into it.

SHRI S. M. BANERJEE: I come from U.P. and I know this is utterly mismanaged.

SHRI L. N. MISHRA: I can only say that I will look into all these things.

I beg to move:

"That the Bill, as amended, be passed."

MR. DEPUTY-SPEAKER: What about Mr. Mavalankar's point?

SHRI L. N. MISHRA: No, Sir, I am not going to accept it.

MR. DEPUTY-SPEAKER: Now, the question is:

"That the Bill, as amended, be passed."

The motion was adopted.

14.12 hrs.

INDIAN TARIFF (AMENDMENT) BILL

MR. DEPUTY-SPEAKER: We will now take up the Indian Tariff (Amendment) Bill. Shri L. N. Mishra.

THE DEPUTY MINISTER IN THE MINISTRY OF FOREIGN TRADE (SHRI A. O. GEORGE): On behalf of Shri L. N. Mishra....

SHRI JYOTIRMOY BOSU (Diamond Harbour): Sir, when the Minister is present in the House, how can anybody else move the Bill, on his behalf? How can anybody else be delegated like this, when he is actually present in the House? (Interruption)

MR. DEPUTY-SPEAKER: Order please. I would expect that you treat this Chair and House with a little respect. If you or somebody else handles the baby, I have no objection, but you should have informed me.

THE MINISTER OF FOREIGN TRADE (SHRI L. N. MISHRA): I am so sorry, Sir, I sent a letter. I should have gone away because Iraq Minister is coming; I have other engagements; that is why I asked him..

MR. DEPUTY-SPEAKER: If the Minister is not serious about it, we will skip it over and go on to the next item. I am not saying anything else. I have just now been informed from the Table that the letter is not there.

SHRI L. N. MISHRA: I beg to move.....

SHRI JYOTIRMOY BOSU: The hon. Minister has said this. He has confessed that he had other engagements including meeting the Minister of Iraq and therefore, he would not be able to attend the House. What he is saying is thoroughly unconvincing, because he is still sitting in the House. How very genuine was he in his expression! Sir, this should be considered very seriously.

MR. DEPUTY-SPEAKER: Let us not argue about this. A Minister can delegate his authority to his junior. Even if he is in the House, another Minister can move it. But the only

[Mr. Deputy-Speaker]

thing I expect is this. The Chair should be informed. But in this case, I have not been informed.

In any case, as a special case, you can move it.

SHRI JYOTIRMOY BOSU: Don't go to the Press again....

SHRI A. C. GEORGE: Mr. Deputy-Speaker, Sir, I beg to move:

"That the Bill further to amend the Indian Tariff Act, 1934, be taken into consideration."

As the hon. Members may be aware, protection to the dye intermediates industry is due to expire on 31-12-72. The Tariff Commission has reviewed the performance of this industry and has submitted its report thereon. Government's resolution containing their decisions on the report together with copies of other connected papers have been laid on the Table of the House.

I shall now refer very briefly to the dye intermediates under consideration. This is a good example of an Indian industry which has developed greatly under protection. Starting with the finished dyestuffs, we have moved on to the manufacture of the intermediates from which the dyestuffs are made.

Protection to three intermediates was granted in 1964 and to 50 in 1968. Before the period of protection of 53 dye intermediates was due to expire by 31st December, 1971, the commission reviewed the progress of the development of the industry and submitted an interim report, recommending the continuance of the protection granted to the industry beyond 1971 and till the end of 1974.

Hon. Members will recall that on the basis of the interim report of the commission and pending the receipt of its final report, protection granted to 53 intermediates was extended last year only by one year up to the end

of the current year, that is, 31st December, 1972. In the present report, in deciding the level of protective rates of duty on various intermediates, the Tariff Commission has taken into consideration all relevant factors such as the existing installed capacity of the industry, its tendency or otherwise to meet the present and anticipated demand, the need of imports and the degree of foreign competition as also the overall requirements of the particular dye intermediates where such requirement is substantial.

In this connection, the Tariff Commission has also borne in mind the rationalised pattern of rates of duty in the Indian Customs Tariff. After careful examination of all these factors, the commission recommended, and the Government have accepted: the following, namely (1) continuance of the protection, until 31st December, 1974, on (a) 31 dye intermediates at the existing rate of protective duty, (b) two intermediates at the enhanced rates of duty and (c) four dye intermediates at the reduced rate of duty, (2) withdrawal of tariff protection from and levy of revenue rates of duty after 31st December, 1972 on (a) 15 dye intermediates at the existing rates and (b) one dye intermediate at the reduced rate and (c) grant of protection to 19 fresh items on dye intermediates till 31st December, 1974.

Details of these dye intermediates and the level of protection will be found in the note already circulated to hon. Members as also in the Bill. The commission has also made a number of other recommendations in its report. The decisions taken on these recommendations have been announced in the resolution which has been placed on the Table of the House. Necessary action is being taken by the Ministries concerned for their implementation. The Bill incorporates the decision of the Government referred to earlier. I do not want to take any more time. I beg to move that the Bill further to amend the Indian

Tariff Act, 1934, be taken into consideration.

MR. DEPUTY-SPEAKER: Motion moved:

"That the Bill further to amend the Indian Tariff Act, 1934, be taken into consideration."

SHRI JYOTIRMOY BOSU: This Tariff Commission is a quasi-judicial body for what it is worth. As far as we are concerned, we have known it to be a body, through its recent activities, for the monopolists, by the monopolists and of the monopolists. The functions of the commission as defined in the report of the Tariff Commission Reviewing Committee are:

"Inquiries into initial grant of protection, inquiries into matters relating to prices of specific commodities, whether protected or not, on reference to it by Government as well as under its *suo motu* powers, inquiries into the question of continuance of protection of an industry..".

There is thus a series of matters which come under its purview. But the Tariff Commission by its activities has created a sheltered market for the monopolists, and thereby the monopolists have greatly gained. Here is one quotation from the *Hindustan Times* dated the 15th December, 1972, which says:

"Indiscriminate protection: It has little surprised that the chairman of the Planning Commission should express concern over the price-fixing policies of the Tariff Commission. Addressing a seminar in New Delhi, Prof. D. R. Gadgil...."

—now, late D. R. Gadgil; may his soul rest in peace:—

"...is reported to have stated that the static-view cost taken by that body had contributed to recent price increases. The tariff commission came into

being in the thirties, when the slogan of the day was discriminating protection. Much has happened since that time; Indian industry has undergone a complete transformation, but the Tariff Commission does not appear to have moved with the times."

Most uncomplimentary remarks. It has become in fact a government department.

Here is another clipping from the *Indian Express* dated March 20, 1970:

"In recent years, the quality of the Tariff Commission's studies of industrial cost structure etc has not been such as to inspire confidence. In fact, the Tariff Commission does not seem to function as a quasi-judicial body but as a government department.

In 1967, the Tariff Commission Review Committee Report, with which Dr. V. K. R. V. Rao was associated, has said things of importance and value. They said:

"We would, therefore, suggest that since our economy is passing through a phase of inflationary pressure, provision for contingency allowance should be avoided while fixing prices in the industry which should be able to absorb a small increase in costs".

Then:

"In the Committee's view, it is necessary to take immediate steps to inquire into the actual degree of protection enjoyed by different industries at present with a view to determining the extent of over-protection or under-protection that obtains in respect of each of them."

"The Committee is of the view that these matters require to be examined with a measure of urgency so that the allocation of investments in the domestic economy is not adversely affected. The Committee

[Shri Jyotirmoy Bose]

recommends that the Tariff Commission should be asked by the Government immediately to undertake an assessment of the extent of protection available to (i) industries which continue to be protected industries; (ii) industries which in the recent past have been de-protected...."

This is the position.

The Commission have claimed that wherever they have recommended price fixation, they have brought about stabilisation. This is not a reality. Look at the case of sugar, the case of tyre, that of vanaspathi and of motor car. They have, in fact, helped monopolists to grow, prosper and fatten themselves.

The case of dyestuffs is very interesting. It is a monopoly control affair. The Monopolies Inquiry Commission have this to say in their report, on p. 22:

"Group XIII—Dyes, Explosives, Coke-oven by-products and coal tar distillation products:

Amar Dye took the second place in Naphthols with Atul Products Ltd. leading with 53.3 per cent. In Vat Dyes, Indian Dye Stuff Industry Ltd. was the leading producer with 51.4 per cent, Atic Industries (an associate of Atul Products) following with 44.5 per cent"

Now the firm of Kasturbhai Lalbhai which controls both Atic Industries and Atul Products controls over 65 per cent of the Indian dye-stuff industry and is one of the 75 large business houses. The continuance of protection to the industry is unwarranted. Prices have shot up by 133 per cent. This is what the report says:

"The prices of dyes in 1965 and 1967 are shown in Appendix XVI. Although the prices of dyes went up in some cases by as much as 133 per cent, there were also noteworthy instances of a significant fall...."

This is the position.

"Several other consumers have also stated that prices of Indian dyestuffs are very high as compared to imported dyestuffs".

A worker abroad gets 7-20 times the wages of a worker here. Still their dyestuffs cost much lower than ours. This is brought out on page 83. They go on to say:

"One cotton mill has pinpointed the high prices of naphthols AS-LB while another has said that the prices of vat dyes are on the high side. Some consumers have qualified complaints by saying that the prices of indigenous dyes are higher having regard to their quality".

So, in quality it is inferior and in price it is much higher.

Sir, I want to say this. The work should be reviewed. It has been said in the Tariff Commission's review of the work as follows:

"The combined capacity utilisation in case of the 53 protected intermediates and 18 groups of Dye-stuffs, however, declined by 17 per cent and eight per cent respectively. Since the capacities of some of the producers are common for a number of sub-groups of the Dye-stuff industry and are interchangeable among different groups, the capacity utilisation in case of these groups is not strictly comparable."

Therefore, it is not even making the fullest utilisation of the built-in capacity. I feel that the Government is trying to do something for the monopolists, by the monopolists and of the monopolists who are collecting money for its elections. That is what they have been doing.

SHRI K. BALADHANDAYUTHAM (Coimbatore): Sir, this amending Bill has been brought forward on the report of the Tariff Commission. As Mr. Jyotirmoy Bose pointed out, the

Tariff Commission has come under a lot of criticism in the past and the protection that is being given does not seem to be a protection for the consumer but it has always become a protection not only for the monopolists but also for producing sub-standard products. Most of the goods produced which are sheltered under this protection have been sub-standard and they do not compare with foreign products. As such, when they bring an amending Bill to extend the protection for another two years, the Government has to examine whether they are in a position to guarantee lower prices and also the standard quality. If the Government is not in a position, and if the Tariff Commission does not help them in this matter, there is no point in going on extending protection. I am not against extending the protection but it must go hand in hand with the authority of the State to ensure quality as well as cheaper prices, because the consumer is hard hit. This prolonged protection and non-utilisation of capacity even with regard to the dyestuff intermediates show that in ensuring protection to the consumer the Government must take more serious steps and see that, as Shri Jyotirmoy Bosu said, the Tariff Commission does not act hand in glove with the monopolists.

*SHRI J. MATHA GOWDER (Nilgiris): Mr. Deputy Speaker, Sir, I rise to say a few words on the Indian Tariff (Amendment) Bill, 1972 on behalf of my party, the Dravida Munnetra Kazhgam.

Sir, I am very glad that the Ministry of Foreign Trade has circulated a note on the Indian Tariff Amendment Bill, which gives a detailed background and the necessity for bringing forward this legislation. This Note is very helpful for all the Members to understand the provisions of the Bill and I wish to pay my compliments to the hon. Minister of Foreign Trade. I wish that the other Ministries also

emulate this worthy example and circulate a Note giving the background and other relevant information in regard to the Bills that they may move in this House. I need not say that such a note will enable the hon. Members of this House to participate actively and interestingly in the discussion on such legislative measures.

In the note, 18 dye-intermediates units are in the large scale sector and a few in the small-scale sector are mentioned under item 2, Number of existing units. When the Government can give the exact number of dye-stuff units in the large scale sector, they have stated as 'a few' in the small scale sector. I would like to know from the hon. Minister how many units are there in the small scale sector, which are manufacturing dye-intermediates.

Here, I would like to refer to another connected issue. It is stated that 14 dye-intermediates have been given certain concessions in the customs duty. I would like to know from the hon. Minister whether these 14 dye-intermediate enjoying concessional customs duty are in the large-scale sector or the concessions are being enjoyed by the small scale units. If the units in the large scale sector are given this concession in customs duty, I wonder whether it is at all necessary for the Government to give such a protection to the units in the large scale sector. It is axiomatic that the small scale units should get maximum incentives possible so that they become established. I do not approve that the Government should in any manner try to give tariff protection and concession in the customs duty to the units in the large scale sector. I would like the hon. Minister to inform the House whether the concession in the customs duty is being enjoyed by the units in the large scale sector.

Sir, for the purpose of continuing the protection to dye-intermediates upto 31st December, 1974, this Bill

*The original speech was delivered in Tamil.

[Shri J. Matha Gowder]

has been introduced by the Government. On the basis of the recommendations made by the Tariff Commission as a result of frequent reviews, the protection to dye-intermediates is extended every two years. The Tariff Commission conducts a detailed review frequently to find out whether the protection to the dye-intermediates should be continued or it should be discontinued and also whether any new dye-intermediates should be given protection. After that the Commission submits its Report to the Government. As a thorough study has already been made before the recommendations are forwarded to the Government, it is incumbent on the Government to accept the recommendations of the Tariff Commission in full and formulate suitable legislative proposals to give effect to those recommendations. But I find that the recommendations of the Tariff Commission are not accepted *in toto* by the Government. In 1968, the Tariff Commission in its report recommended that 23 dye-intermediates should be given concession in customs duty. But the Government gave this concession in customs duty only to 18 dye-stuffs. If the Government were to implement the recommendations of the Tariff Commission only partially, then there would be no need for the Tariff Commission at all. There would also be no need for the kind of frequent reviews as are now being conducted by the Tariff Commission. The tariff protection and the concession in customs duty are required by the dye-intermediates because the units are still in the infant stage and the Tariff Commission has convinced itself that they do require Government's assistance. I would like to suggest that the Government should not in any case alter the recommendations made by the Tariff Commission. I do not think that the Government on their own conduct a survey again on the recommendations made by the Tariff Commission. I would like to appeal to the Foreign Trade Ministry that wherever the Tariff

Commission recommends tariff protection and customs duty concession, the Government should incorporate all the recommendations in full in the legislative measure formulated by them.

With these words, I conclude...

MR. DEPUTY-SPEAKER: The hon. Minister.

SHRI JYOTIRMOY BOSU: We cannot understand this. Decadence has set in. On a debate like this, there is not a single person to speak on such an important economic issue, with the massive mandate and the majority they talk about. I see eminent men like Shri K. D. Malaviya present; we should like to hear their views.

MR. DEPUTY-SPEAKER: It is up to them.

SHRI K. D. MALAVIYA (Domariaganj): Shall I answer this one point? The principle of giving protection is a sound one. The Tariff Commission recommends for certain transitional period.

MR. DEPUTY-SPEAKER: Therefore, it does not need....

SHRI K. D. MALAVIYA: Why should I stand up and say and repeat the thing.

SHRI A. C. GEORGE: My job in a nutshell has been made easier.

SHRI JYOTIRMOY BOSU: No nutshell business here. Do not go to the press after speech-making; your Ministry is known for this.

SHRI A. C. GEORGE: These amendments were discussed and hon. Members touched on the functioning of the Tariff Commission. Reference was made to the merit of including or excluding various items. I do not want to go into the definition of the basic concept behind the Tariff Commission. Just before I spoke the learned Member Shri Malaviya explained it.

SHRI JYOTIRMOY BOSU: Where is the office of the Tariff Commission? Do you know?

SHRI A. C. GEORGE: How is it relevant here?

SHRI JYOTIRMOY BOSU: I am asking you.

SHRI A. C. GEORGE: I am answering you.

It is a well accepted principle that in a developing economy tariff protections are given according to the regulations made in that behalf and are used in a discriminatory way so that at some particular point when the industry attains age and stands on its own, and comes to its take off stage, it is left off like this or if the industry is still suffering from early difficulties, definite protection is given. For this purpose quite often variations are made and things are reviewed. In the present stage of development in our country, I need not reiterate what I said earlier. As I pointed out in the beginning we were importing dye-stuff.

Now we are in a stage where we are manufacturing dye intermediaries and we can almost completely eliminate import of dyestuffs. At this stage the necessary tariff protections review periodically is absolutely essential.

The point made by Shri Matha Gowder is well met in the explanatory note attached to the Bill itself. It is our intention that these industries which need sophistication and skill are well protected and every effort will be made to see that the onslaught of the imports does not retard their progress.

SHRI JYOTIRMOY BOSU: Why is it dearer than the imported stuff and poorer in quality?

SHRI A. C. GEORGE: This is a vicious circle. At one stage we make a demand that every encouragement

must be given to the indigenous industry. Unless we give sufficient protection to our indigenous industry, we would not be able to reach the standard we expect. So, it is a vicious circle. Unless we give protection, the industry will not grow. Unless the industry grows, we will not be able to take off the tariff barriers. (Interruptions). Sir, will you protect me from this running commentary?

MR. DEPUTY-SPEAKER: It is part of the parliamentary game, unless it goes beyond limits.

SHRI A. C. GEORGE: At any point of time in the process of protection, anybody can point out that the product has not reached the stage of high standard. But to disparage the Indian product as sub-standard may not be highly to the advantage of the industry to grow. In this process of protection, I admit that in a developing economy, at one point of time our standard may not be according to the international standard. That is why we give protection to the child to grow. In the meanwhile, you cannot ask him to run. (Interruptions).

I think Mr. Bosu is convinced about my arguments and I would conclude by thanking the members who participated in the discussion.

MR. DEPUTY-SPEAKER: The question is:

"That the Bill further to amend the Indian Tariff Act, 1934, be taken into consideration."

The motion was adopted.

MR. DEPUTY-SPEAKER: We take up clause-by-clause consideration. There are no amendments. The question is:

"That clause 2, clause 1, the Enacting Formula and the Title stand part of the Bill."

The motion was adopted.

Clause 2, clause 1, the Enacting Formula and the Title were added to the Bill.

SHRI A. C. GEORGE: I beg to move:

"That the Bill be passed".

MR. DEPUTY-SPEAKER: The question is:

"That the Bill be passed."

The motion was adopted.

RESOLUTION RE: RECOMMENDATIONS OF RAILWAY CONVENTION COMMITTEE

MR. DEPUTY-SPEAKER: We take up the next item—Resolution by Shri T. A. Pai.

THE DEPUTY MINISTER IN THE MINISTRY OF RAILWAYS (SHRI MOHD. SHAFI QURESHI) rose—

MR. DEPUTY-SPEAKER: You are holding the baby? You should have informed me earlier.

SHRI MOHD. SHAFI QURESHI: Sir, on behalf of Shri T. A. Pai, I beg to move:

"That this House approves the recommendations made in paras 1.1, 2.31, 3.18, 3.19, 3.27, 3.28, 4.12, 4.13 and 5.11 of the Report on Accounting Matters of the Committee appointed to review the rate of dividend payable by the railway undertaking to General Revenues as well as other ancillary matters in connection with the railway finance vis-a-vis the General Finance, which was presented to Parliament on the 15th December, 1972.

That this House further directs that the action taken by Government on the other recommendations made in

the Report should be reported to the next Parliamentary Committee which may be appointed to review similar matters."

At this stage, I would only move the resolution. After the hon. members have spoken, the minister would give the reply.

***SHRI JAGADISH BHATTACHARYYA (Ghatal):** Mr. Deputy-Speaker, Sir, we are discussing the report of the Railway Convention Committee. The report of the Committee contains many recommendations but the motion that is now being discussed in the House has given stress to only a few recommendations. I feel Sir that a report of this nature should be discussed along with the discussion on the Budget provisions of railways because if such discussions are held separately then due to the paucity of time we are unable to have a proper discussion of the recommendations of the report.

We have noticed that payment of dividend forms one of the most important subjects of all the reports of the Railway Convention Committee. But in actual practice this payment of dividend is nothing but a paper transaction because we find that payment is made from the General revenue and dividend is not paid in the true sense of the term. Last year when the report of the Convention Committee was discussed in this House, the then Minister of Railways Shri Hanumanthaya had stated that in Socialistic countries of Europe, the practice of paying dividend to the general revenue from the earnings of the public sector undertakings existed. We also want this Sir, the Railways are the biggest public sector undertaking in the country and a huge sum of public money has been invested into it. It would be indeed good if we are able to give a part of the profit of the railways to the general revenue. This will on the one hand facilitate undertaking many projects for

*The Original speech was delivered in Bengali.

the good of the people and on the other it will help to lessen the tax burden of the tax payer. Unfortunately most of the public sector undertakings in our country are running into losses and as a result we are not able to divert the profits from these organisations to the general revenue nor we are able to utilise it for public welfare.

Sir, during the pre-independence era as also for quite some years during the post independence period the railways were earning profits but for the last few years it is always in the red. What are the factors that have turned profits into losses? We have on many occasions in the past discussed this subject in this House and without going into the details it would be sufficient to say that if we could plug the loopholes that are causing losses to the Railways we could have transferred the profits of the Railways for better utilisation. Only to mention a few such loopholes I would like to mention that the losses to Railways mainly arise from wastage, theft, top heavy administration and ever capitalisation.

Now, Sir, I would like to highlight some of the points that have been referred to in this report. It has been stated in the report that as many as 35,000 different items are stored in the railway godowns and during 1970-71, the total value of the store was Rs. 363.7 crores. In this connection the Committee have observed and I quote:

"The Committee need hardly emphasise the imperative need of reducing the excessive inventories held by the Railways to the minimum extent possible as a commercial organisation like the Railways can hardly afford to block much needed capital on this account."

In this way we find Sir, that huge sum of money remain locked up while on the other hand amenities for the travelling passengers are not being created in the same proportion.

In fact the amenities that are now available to the passengers are only very meagre and I feel that something should be done drastically to improve the present state of affairs.

One thing that once attracts our notice is the shortage of coaches for the passenger trains. The report states that ICF and Jessops & Co. were given orders for the manufacture of 443 and 347 coaches respectively but against this they could make a supply of 171 and 122 coaches respectively. The report further states that these organisations have not only to clear the back log but they will also have to produce their existing quota. I would therefore strongly urge upon the hon. Minister to ensure that these manufacturing units do clear the back log and also are able to produce their existing orders because only when more coaches are available to passenger trains the passenger can get some real relief. From my personal experience I can say that only a few days back while I was travelling from New Delhi to Howrah in a first class compartment which had the capacity to accommodate four, two more passengers with first class ticket had entered into the compartment. These passengers had to be accommodated because they were holding the tickets. In this way while passengers are paying fare for the first class they are compelled to travel on the floor of the compartment. Sir, we have stated on many occasions and the report also says that the number of third class sleeper coaches should be increased and I once again stress this point for the consideration of the hon. Minister. I would also like to mention in passing about some of the difficulties being experienced by the travelling passengers. The first class coach in the Vestibule is not linked with the dinning car while this facility is available to the passengers of air-conditioned chair car train travellers. The result is obviously that when one places an order for tea, he has to wait till the train reaches the next station. Thus the first class passenger of a

[Shri Jagadish Bhattacharyya]

vestibule train who pays nearly three times the fare does not get this benefit which is available to other trains.

Sir, in regard to sharing of passenger fare, the report has stated that it is not possible to increase the State's share but I feel that the matter merits reconsideration. Whenever we make a plea for running the Martin railways we are told that it is not a profit making organisation. I would only submit in this connection Sir, that if the State's share of passenger fare earning could be augmented we could very easily solve this problem ourselves.

I hope the hon. Minister will consider the different points that I have raised during the course of my speech and with this I conclude, Sir.

श्री श्रीकार लाल बेरवा (कोटा) :
उपाध्यक्ष महोदय, रेलवे कानवेन्शन कमेटी की रिपोर्ट को देखते हुए ऐसा मालूम होता है कि उसमें जो कुछ लिखा है, उस पर रुपये में एक चौथाई भी काम नहीं होता है और बाकी को घटा-बढ़ा कर काट दिया जाता है।

जहां तक यात्रियों की फ़ैसिलिटीज का सम्बन्ध है, डाइनिंग कारों और रिफ़्रेशमेंट रुम्ब को हटा कर सरकार की तरफ से स्टेशनों पर थालियों की व्यवस्था कर दी गई है। उनके रेट भी बढ़ा दिये गये हैं। जब सरकार ही रेट बढ़ा देती है, तो फिर महंगाई की कोई हद नहीं रहती है। जो खाना मिलता है, वह बाजार से कई गुना बढ़िया होता है। आइव्हर तो काफ़ी अच्छे होते हैं—प्लास्टिक के ग्लास, चमच और प्लेटें होती हैं, लेकिन खाने का सामान रुपये में चार छः आने ही मिलता होगा। ब्रिस्टन रेलवे में कुछ रिफ़्रेशमेंट रुम्ब बीस-बीस साल से एक ही स्टेशन पर बने हुए हैं, अगर उनको बन्द नहीं किया गया है। जो लोग अच्छा काम करते रहे हैं, उनको हटा दिया गया है और उनको कोई सुझाव आदि नहीं दिया गया है।

गुजरात मेल और सौराष्ट्र मेल जैसी लम्बी गाड़ियों में भी कन्डक्टर की कोई व्यवस्था नहीं होती है। उसमें एटेंडेंट की व्यवस्था है, जो कि ग्रहमदाबाद वाले डिब्बे में रहता है। ग्रहमदाबाद में वह डिब्बा कट जाता है और फिर उसको दूसरी गाड़ी में लगा दिया जाता है। जो द्वारिका के तीन डिब्बे फर्स्ट क्लास के होते हैं, उनमें एटेंडेंट होता है, लेकिन कन्डक्टर की कोई व्यवस्था नहीं है।

बड़ी लाइन पर देहरादून एक्सप्रेस जैसी गाड़ियां काफ़ी लम्बी होती हैं, जिनमें अठारह-उन्नीस डिब्बे रहते हैं। लेकिन प्लेटफ़ार्म इतना छोटा होता है कि जब गाड़ी किसी स्टेशन पर ठहरती है, तो पिछले डिब्बे तो जंगल में अंधेरे में खड़े होते हैं और इंजिन के साथ वाले डिब्बे प्लेटफ़ार्म से आगे निकल जाते हैं।

जहां तक शेडों का सम्बन्ध है, उनका क्षेत्र एक पैसेंजर के लिए एक फुट या सवा फुट निर्धारित किया गया है, लेकिन इसको कहीं लागू नहीं किया जाता है। देश की जनसंख्या 32 करोड़ से बढ़ कर 55 करोड़ हो गई है, लेकिन शेडों को बढ़ा नहीं बनाया गया है। इससे यात्रियों को बड़ी असुविधा होती है।

कोटा से बीना तक फर्स्ट क्लास के एल० आर० सी० के ऐसे डिब्बे चलते हैं, जो खुलते नहीं हैं। अगर किसी यात्री ने बारां स्टेशन पर उतरना हो, तो डिब्बा खुलेगा नहीं और गाड़ी अटल स्टेशन तक पहुंच जायेगी। स्टेशनों पर लोग खटखटाते रहते हैं, लेकिन डिब्बा खुलता नहीं है। टूटे-फूटे डिब्बे बैस्ट्रन रेलवे से निकाल कर कोटा-बीना लाइन पर डाल दिये जाते हैं। उन डिब्बों की कोई मरम्मत नहीं होती है। उनमें तकियों में डमलपिसी तो है नहीं, उनमें जो नारियल का जूट भरा जाता है, वह भी नहीं होता है। जहां तक नलों का सम्बन्ध है, अगर वे चलते रहें, तो चलते रहें और अगर उनमें कमी नहीं है, तो कोई नहीं सुनता है।

रेलवे पर इतना बड़ा खर्चा होता है, लेकिन यात्रियों की कंफर्टिटीज के लिए कुछ नहीं किया जाता है। मंत्री महोदय की रिपोर्ट में न्यू वर्क्स और न्यू लाइन्स आदि का जिक्र होता है, लेकिन जहां नई लाइनों की बहुत आवश्यकता होती है, उनकी तरफ कोई ध्यान नहीं दिया जाता है। उदाहरण के लिए 22 मील का एक छोटा सा टुकड़ा कोटा को बूंदी से मिलाता है। वहां पर पंद्रह पंद्रह मिनट के बाद यात्रियों से भरी हुई बसें चलती हैं, लेकिन रेलवे की तरफ से कहा जाता है कि वह लाइन प्राफ़िटेबल नहीं है।

अहमदाबाद की तरफ जो छोटी लाइन को उखाड़ा जायेगा, उसको इस 22 मील के टुकड़े पर डाल दिया जाना चाहिए। अगर वहां घाटा होगा, तो सरकार हम से वसूल करे या राज्य सरकार से वसूल करे। लेकिन यात्रियों की सुविधा के लिए यह लाइन जरूर बिछाई जानी चाहिए। हम देखते हैं कि जहां हड़तालें और तोड़-फोड़ होती हैं, वहां तुरन्त लाइन को डबल करने का स्टेशन आदि बनाने के आर्डर दे दिये जाते हैं।

डी० आर० यू० सी० सी० में मेरी कांस्टीट्यूएन्सी कोटा में पचास हजार रुपये की लागत से एक ओवरब्रिज बनाना मंजूर किया गया। डी० एम० साहव ने कहा कि वह ओवरब्रिज बना दिया जायेगा। लेकिन अभी तक ओवरब्रिज का नाम तक नहीं है। अभी तक फुटपाथ भी नहीं बना है। यह पुल बनाने से मना कर दिया गया है।

जहां तक शिड्यूल्ड कास्ट्स के कर्मचारियों का सम्बन्ध है, कर्मचारियों के क्वार्टरों की एलाइमेंट में उनका तम्बर ही नहीं है। शिड्यूल्ड कास्ट्स के लोगों को न अर्से किया जाता है और न उन्हें प्रोमोशन दिया जाता है। लक्ष्मी वर्कशाप और जयपुर में क्लबस्टोर्स आदि की बँकन्सीज हुई थीं, लेकिन वहां भी शिड्यूल्ड कास्ट्स के लोगों

को बिल्कुल नहीं लिया गया। अगर हम शिड्यूल्ड कास्ट्स का कोटा भरने के बारे में पूछते हैं, तो हमें 1967 के आंकड़े दिखा कर बताया जाता है कि उनका कोटा भर दिया गया है। कंजुमल लेबर और अन्य छोटे पदों को भर कर दिखा दिया जाता है कि उनका कोटा पूरा हो गया है। जब कोई बँकन्सीज होती है, तो नीचे के अधिकारी कामजात को दबा देते हैं। अगर कोई उनके खिलाफ लिखा-पढ़ी करता है, तो उसका बायकाट किया जाता है, उस बेचारे को हैरासमेंट किया जाता है, उसकी रिपोर्ट खराब करके उसको निकाल दिया जाता है।

आगरा में शिड्यूल्ड कास्ट्स के दो टी० सी० की जगह पर बंगाल के दो व्यक्तियों को लगा दिया गया और उनको वहां से हटा कर कोटा भेज दिया गया। उनकी कनफर्मेशन और प्रोमोशन का नम्बर आना चाहिए था, लेकिन वह नहीं आया। फिर उनको कोटा से भी हटा दिया गया। वहां पर दो टी० सी० चौदह चौदह साल से जमे हुए हैं, लेकिन उनको ट्रांसफर नहीं किया जाता है, जब कि शिड्यूल्ड कास्ट्स वालों को दर-दर भटकाया जा रहा है। हम ने इस बारे में मंत्री महोदय से मिलना चाहा, लेकिन वह व्यस्त रहने के कारण समय नहीं दे पाये।

हम ने कई दफा कहा है कि हमारे यहां बैंगन वर्कशाप के सारे साधन मौजूद हैं, बिजली और पानी है और मजदूर भी बहुत हैं। लेकिन अभी तक उस लोको शेड में रिपेयरिंग का काम हो रहा है और नये डिब्बे बनाने शुरू नहीं किये गये हैं। डिब्बों की मरम्मत और रंग-रोगन करके लाइन पर खड़ा कर दिया जाता है।

हम ने मांग की है कि बारां से कोटा तक गटल चलाई जाये, लेकिन रेलवे विभाग ने कहा कि हमारे पास पैसा नहीं है। जिन लाइनों से दो राज्यों को मिलाया जा सकता है, उनकी तरफ भी ध्यान नहीं दिया जाता है।

[श्री भोंकार लाल बरेवा]

संसदीय दल ने सिफारिश की थी कि निवाई से टोंक और देवली होते हुए बूंदी तक और टोडा रायमिह से टोंक और देवली होते हुए बूंदी तक रेलवे लाइन बिछाई जाये। मैं पूछना चाहता हूँ कि मंत्री महोदय राजस्थान के बारे में क्या सोच रहे हैं। क्या उन्होंने राजस्थान के अकालप्रस्त क्षेत्रों में अनाज पहुंचाने के बारे में भी कुछ सोचा है या नहीं?

जहां तक रेलवे का सम्बन्ध है, राजस्थान का एरिया समुद्र में टापू की तरह लगता है। सवाई माधोपुर तक बड़ी लाइन है और उसके आगे छोटी लाइन है। जयपुर जाने वाला माल सवाई माधोपुर में कट जाता है और बैगन न मिलने के कारण महीनों वहां पड़ा रहता है। इसी तरह रतलाम तक बड़ी लाइन है और रतलाम से नसीराबाद वगैरह तक छोटी लाइन है और इस कारण माल रतलाम में पड़ा रहता है। जो माल बम्बई से आता है, वह बड़ी लाइन पर मारवाड़ जंक्शन पर रुक जाता है। क्या मंत्री महोदय राजस्थान को एक टापू की तरह रखना चाहते हैं या वहां पर रेलवे लाइनों बिछा कर उसका विकास करना चाहते हैं? अगर रेलवे चाहे, तो वह पिछड़े से पिछड़े क्षेत्र को भी ऊपर उठा सकती है।

६.

बैगनों का यह हाल है कि बेचारे जानवर वालों को बैगन नहीं मिलते हैं, जबकि पत्थर वालों को मिल जाते हैं। कोटा में अनाज वाले भी बैगनों के लिए तरसते रहते हैं।

रेलवे ने पत्थर भरने वालों को पांच सौ या एक हजार रुपये साल के हिसाब से प्लॉट दिये हैं। जिन पत्थर वालों के पास पहले से प्लॉट मौजूद हैं, उन्हीं को और प्लॉट दे दिये गये हैं। इसके पीछे क्या रहस्य है? जो आदमी महीने में साठ बैगन भरता है, उसके पास एक भी प्लॉट नहीं है और केवल दो-चार बैगन भरने वालों को दो प्लॉट और दे दिये गये हैं। कहा जाता है कि वह जायंट कम्पनी

है। लेकिन इनकम टैक्स वाले कहते हैं कि वे लोग अलग-अलग टैक्स देते हैं।

यह डी०एम० और डी०सी०एस० साहब न जाने क्या गोगाल करते रहते हैं। 18 प्लॉट डाडा देवी स्टेशन पर थे। उनको वहाँ से खत्म कर दिया गया और उनकी जगह पर कोटा में नये प्लॉट बना कर बांट दिये गये। ये प्लॉट उन्हीं को दिये गये जिनके पास आलरेडी थे। वह साल का एक हजार रुपया देते हैं। मेरा सुझाव है कि आप एक हजार रुपये महीने पर आक्शन कीजिये। जिसको जरूरत होगी वह लेगा जिसको जरूरत नहीं होगी, नहीं लेगा। रेलवे को इनकम होगी। लेकिन आप यह नहीं करना चाहते। यह सब डी०एस० और डी०सी०एस० की मिली भगत है। आप सोशलिज्म की बात करते हैं, गरीबों को ऊपर ले जाने की बात करते हैं। लेकिन यह सब देखने से ऐसा प्रतीत होता है कि सोशलिज्म आप ला नहीं सकते।

इन शब्दों के साथ मैं यह निवेदन करना चाहता हूँ कि ये जो सुझाव मैंने दिये हैं उनको यदि आप स्वीकार करेंगे और उसके अनुसार कार्य करेंगे तो रेलवे में बहुत कुछ सुधार आप कर सकते हैं।

DISCUSSION ON GURU GOBIND SINGH MEDICAL COLLEGE AT FARIDABAD

MR. DEPUTY-SPEAKER: We shall now take up the discussion on the statement made by the Minister of Works and Housing and Health and Family Planning in the House on the 30th November, 1972 regarding the Guru Gobind Singh Medical College at Faridabad.

Before we begin the discussion, I would like to dispose of a matter that is connected with this discussion. Shri

Jyotirmoy Bosu may kindly listen to me till the end, without interruption, and I think you will be satisfied after hearing me through.

Shri Jyotirmoy Bosu has sent a letter to the Hon. Speaker today, which was received at 12.32 p.m., in which he has mentioned certain names that he would like to refer to in his speech. A similar situation had occurred a few days ago in connection with the debate on the rags scandal. It was ruled by the Speaker at that time that it was not enough just to send the names but it was also necessary that the matter should be mentioned, so that the Minister would have an opportunity of making inquiries into the matter and to make the discussion meaningful.

In this case, only the names were sent, and the copy of that letter was forwarded to the Minister for inquiry. But, here there is a little difference. It is not a new question. The hon. Minister in his statement on the 30th November, 1972 had made certain remarks which go to confirm that there are a number of irregularities in the establishment and the administration of this college, and, therefore, it is not as if an inquiry has not been made into this matter.

All that Shri Jyotirmoy Bosu said on the last occasion had gone on the record, and they remain on the record. So, I do not see how I can prevent the mere mention of these names which are connected with alleged irregularities which *prima facie* had been confirmed by the Minister in his statement on the last occasion. I do not see that I can prevent him from mentioning these names....

SHRI JYOTIRMOY BOSU (Diamond Harbour): On a point of submission....

MR. DEPUTY-SPEAKER: Now, he should be satisfied....

SHRI JYOTIRMOY BOSU: I am very much satisfied; I am grateful to

you for a change. Of course, I have very clearly mentioned the names, and I have said:

"In the context of mismanagement of Guru Gobind Singh Medical College, Faridabad, and due to their misdeeds, more than 200 boys have become...."

So, I have given the points also. I am more than happy that you have given me permission.

डा० रक्ष्मी नारायण पांडेय (मंदसौर) :
उपाध्यक्ष, महोदय, गुरु गोविन्द सिंह मेडिकल कालेज के बारे में सदन में पहले भी चर्चा हुई है। सदन में चर्चा के समय इसके बारे में कुछ तथ्य भी सामन आये हैं कि किस प्रकार से श्रद्धय गुरु गोविन्द सिंह का नाम ले कर गुरु गोविन्द सिंह विद्या सेवक सोसायटी ने मेडिकल कालेज और उसमें प्रवेश देने के नाम पर मेडिकल कालेज का एक भव्य चित्र उपस्थित कर काफी रुपया एकत्र किया।

जहां तक मेरी जानकारी है प्रति छात्र 10 हजार रुपया यदि कैपिटेशन फीस के नाम पर और 10 हजार रुपये दूसरे न म पर लिया गया और 210 के लगभग छात्रों की संख्या है तो लगभग 40 लाख रुपये इस सोसायटी ने एकत्र किये हैं। यह एकत्र करने की बाद में भी जो कालेज की दशा है वह किसी से छिपी नहीं है। मैंने स्वयं कालेज को देखा है और यह कहा जा सकता है कि किसी भी मेडिकल कालेज के लिए जो सामान्य से सामान्य अथवा न्यूनतम आवश्यकताएं हो सकती हैं उनकी पूर्ति भी यह कालेज नहीं करता। मंत्री महोदय ने 30 नवम्बर को जो वक्तव्य दिया उससे कुछ आभास मिलता है कि हरयाणा गवर्नमेंट भी कुछ इसके अन्दर लिप्त है। उसका भी इस सारी गड़बड़ी में एक प्रकार से हाथ रहा है। हरयाणा गवर्नमेंट ने एक प्रकार से इस कालेज की स्वीकृति दी है और उसने एक बात इसके बारे में कही है कि कालेज के बारे में मेडिकल

[डा० लक्ष्मी नारायण पांडेय]

कौंसिल से स्वीकृति प्राप्त करना चाहिये और विधिवत पंजाब यूनिवर्सिटी से स्वीकृति प्राप्त करना चाहिये, लेकिन कालेज नहीं खोला जाय ऐसा नहीं कहा गया है। अपितु, उन्होंने कहा है कि कालेज खोला जा सकता है। इस प्रकार का कालेज करनाल में खोले जाने का प्रस्ताव था और जब इस सोसायटी ने करनाल में स्थान बदल कर दूसरे स्थान पर ले जाने की बात कही तो भी हरयाना गवर्नमेंट ने कोई बात उसके बारे में नहीं की। मंत्री महोदय ने 30 नवम्बर को जो वक्तव्य यहां दिया उसमें लिखा है :

"It appears that the Guru Govind Singh Vidya Sevak Society had sought the permission of the State Government of Haryana sometime in 1971 for setting up a medical college, at Karnal".

यह मंत्री महोदय का वक्तव्य है और वह यह भी स्वीकार करते हैं कि इसके अन्दर :

"...the situation that has occurred at Faridabad where a sub-standard medical college is alleged to have been opened last year by a private management. ..."

वह इस बात को भी स्वीकार कर चुके हैं कि उसका स्टैण्डर्ड ठीक नहीं है। वह सब-स्टैण्डर्ड का है। लेकिन वह सब स्टैण्डर्ड से भी गिरे हुये स्टैण्डर्ड का है। लाइब्रेरी को देखा जाय तो 40 पुस्तकें भी वहां नहीं हैं। किसी भी मेडिकल कालेज के अन्दर 40 पुस्तकें हों और मेडिकल कालेज जर्नल के नाम पर पूछा जाये कि कितनी पत्रिकायें आती हैं तो एक भी नाम नहीं बताया जा सकता है। एक भी पत्रिका वहां मिली नहीं। थोड़ा और आगे चल कर दूसरी सुविधाओं की ओर देखें तो एक भी सुविधा वहां नहीं माने में नहीं है। मुझे बड़ा आश्चर्य लगा हरियाणा गवर्नमेंट ने किस प्रकार से अपने एक दूसरे प्रादेश के द्वारा वहां पर एक बाकीज को खोलने की आज्ञा दी कि डेड बाकीज वहां

दी जा सकती है जब कि केन्द्र सरकार ने राज्यों को स्पष्ट निर्देश दिया था कि प्राइवेट मेडिकल कालेज न खोले जायें। इस कालेज के बारे में माननीय दंडवते जी के पत्र का जो उत्तर मंत्री जी ने दिया वह मेरे पास है। उसमें साफ लिखा है :

"It is true that the private medical college at Faridabad referred to by you is not yet recognised by the Punjab Government or the Medical Council of India. However, no permission was required or was accorded by the Government of India since establishment of under-graduate medical colleges is a State subject".

स्टेट सबजेक्ट की बात अवश्य कही है लेकिन आपने ऊपर कहा है—स्टेट गवर्नमेंट को किस प्रकार से कालेज न खोला जाय। मैं उद्धृत करना चाहता हूं :

"The policy of the Government of India is to discourage the setting up of a medical colleges in the private sector".

यह साफ बात कही गई है स्टेट गवर्नमेंट से। आपका यह आदेश है या इसको आदेश कहना ठीक नहीं है तो आपके इस निर्देश का हरियाणा सरकार ने उल्लंघन किया है और उसके बाद उसने इस बात की स्वीकृति दी है यह जानते हुए कि इस प्रकार का मेडिकल कालेज खोलना ठीक नहीं है और यह भी जानते हुये कि गुरु गोविन्द सिंह विद्या सेवक सोसायटी की फाइनेंशियल कंडिशन अच्छी नहीं है और मैनेजमेंट ठीक कदम नहीं उठा सकता। फिर भी स्वीकृति दी यह आश्चर्य की बात है। इसी सोसायटी ने पटना में भी एक कालेज खोलने की बात कही है। वहां कंपिटेशन भी भी ली गई। वहां पर विद्यार्थियों के जीवन को खतरे में डाला गया, उनका स्वास्थ्य भविष्य अंधकारमय है, वहां भी हड़ताल चल रही है, लड़के मारे मारे फिर उठे हैं, न राज्य सरकार अपना दायित्व निभा रही है और न केन्द्र सरकार, न गवर्नमेंट के विरुद्ध किसी प्रकार का आन्दोलन चल रहा है।

रहा है। मंत्री जी ने यह प्रश्न अपने वक्तव्य में कहा है।

जो वक्तव्य वहां पर दिया गया है, उसमें लिखा है :

"I have spoken to the Chief Minister again a few days ago. He told me that he had entrusted the matter to the vigilance authorities for a detailed enquiry."

मैं चाहता हूं कि माननीय मंत्री जी जब उत्तर दें तो बतायें कि इनकी डिटेल्ड एन्क्वायरी हुई है या नहीं हुई है, इस मामले में कौन कौन लोग इन्वोल्व्ड हैं, इसके संचालक कौन कौन हैं, क्या एक ही परिवार के सदस्य तो नहीं हैं जो कि मिल कर सारे का मारा घोटाला कर रहे हैं, जो लाखों रुपया बनाकर इसके मैनेजमेंट को ठीक व्यवस्थान कर के विद्यार्थियों के जीवन के साथ खिलवाड़ कर रहे हैं :

मैं आपका ध्यान हरियाणा के मुख्य मंत्री जी के संदेश की तरफ भी दिलाना चाहता हूं, उन्होंने इस कालेज के ओपनिंग के समय दिया था—

"I send my good wishes on the occasion of the inauguration of the Guru Gobind Singh College and Hospital at Patna. I am sure that with the setting up of the medical college, the problem of the shortage of doctors which the country is facing at present will be solved to some extent. Such a project is a fitting memorial to Guru Gobind Singh who was much concerned with the uplift of the downtrodden and the common man."

इस तरह से उन्होंने इस कालेज के लिये अपना आशीर्वाद दिया था। मैं समझता हूं कि हरियाणा गवर्नमेंट भी इसमें एक पार्टी है जिसने जमाने-बूझते ऐसे कालेज के खुजने के समस्त मांसपत्ति नहीं की, बल्कि जो सुविधाएँ एक मेडिकल कालेज को मिलनी चाहिये

व सुविधाएँ भी दीं—जैसे शासकीय हॉस्पिटल, में जाकर जिसकी प्रैक्टिकल स्टडी करना चाहें करें, प्रैक्टिस करें।

उपाध्यक्ष महोदय, इस गरु गोबिन्द सिंह विद्या सेवक सोसायटी ने भी अपना एक लम्बा चौड़ा विस्तृत विवरण दिया है, जिसमें उन्होंने कहा है कि हमने 4.4 लाख रुपया इकट्ठा नहीं किया है, बल्कि 26 लाख रुपया इकट्ठा किया है। जिस प्रकार के आंकड़े उन्होंने दिये हैं, पता नहीं ये कहाँ तक ठीक हैं, लेकिन मैंने उस कालेज को देखा है। उनका एक प्रासैक्टस भी है, जिसमें उन्होंने लिखा है कि कालिज की एक बहुत अच्छी बिल्डिंग हांगो, बड़ा अच्छा वातावरण होगा, लेकिन उसे देखने के बाद मैं समझता हूं कि वहां ऐसी चीज नहीं है। एक रेन्टेड बिल्डिंग है, जिसमें लकड़ी के ढांचे खड़े करके, पार्टीशन करके, बड़े पिंजरों जैसा बना दिया है। वहां पर 210 स्टूडेंट्स हैं लेकिन उनके लिये किसी उत्तम प्रकार की लेबोरेटरी की कोई व्यवस्था नहीं है, डिसेक्शन में कितने लड़के खड़े होंगे, डेड-बाडीज पर एक साथ कितने लोग डिसेक्शन करेंगे, कितनी डेड-बाडीज को वहां रखा जा सकता है—इन सब चीजों की भी वहां सुविधा नहीं है।

कालिज की कैंटीन को भी मैंने देखा है—सड़कों पर जो गन्दी मे गन्दी कैंटीन हो, उससे भी बदतर उस कैंटीन की हालत थी। लेकिन इसके बावजूद भी राज्य सरकार ने कोई कदम नहीं उठाया और जिन्होंने इतना बड़ा स्कैण्डल किया, लड़कों के जीवन के साथ खिलवाड़ किया, उनके खिलाफ कोई कार्यवाही नहीं की। सरकार कोई आदेश निकाल कर उस कालेज की अव्यवस्था रोक सकती थी—लेकिन सरकार ने ऐसा कुछ नहीं किया। सिर्फ एक बार ऐसा कहा कि इस प्रकार के कालिज में अगर छात्र प्रवेश लेंगे तो हमसे कोई उम्मीदारी नहीं होगी—लेकिन किसी भी तरह से उनको बांधा नहीं।

[डा० लक्ष्मी नारायण पांडेय]

मैं चाहता हूँ कि आप इसके बारे में शीघ्रता से कार्यवाही करें। जो लोग इसमें इन्वाल्ड हैं, उनके खिलाफ कड़ी से कड़ी कार्यवाही की जाये। जो पैसा उन्होंने कपिटेशन फी की शक्ल में वसूल किया है, उसको अपने कब्जे में लें। विद्यार्थियों का भविष्य अन्धकार में जाये, इसके लिये उन्हें किसी दूसरे मेडिकल कालेज में दाखला दिलवाने का प्रयत्न करें।

श्री पीलू मोदी (गोधरा) : दिल्ली यनिवर्सिटी की भी यही हालत है।

डा० लक्ष्मी नारायण पांडेय : मैं जानना चाहता हूँ कि क्या आप इस कालिज को अपने हाथ में लें जिससे कि उन विद्यार्थियों का भविष्य सुधर सके, ताकि उनमें से जो मेवा की इच्छा रखते हैं, जो पैसा खर्च करके वहाँ आये हैं, उन्हें आगे बढ़ने का मौका मिल सके। मैं यहाँ पर यह भी निवेदन कर दूँ कि इस सोसायटी ने यहीं पर नहीं, पटना में भी इसी तरह का घुटाला किया है। इस सोसायटी ने एक बहुत बड़ा पर्चा निकाला है जिसमें इसने कहा है कि हमारे पास बड़ा स्किल्ड स्टाफ है लेकिन वहाँ रजिस्ट्रार भी नहीं है। उनके इस वक्तव्य में यह भी कहा है कि माननीय मंत्री जी ने जो वक्तव्य दिया है, वह ठीक नहीं है। उन्होंने कहा है —

"The Minister has subsequently stated that the Haryana Government were not a party to the plan to start a college. That is not correct; as has been mentioned in para 6."

यहाँ पर उन्होंने आपके बारे में भी कह दिया है कि आपने जो कुछ कहा है, वह ठीक नहीं है, मुझे दुःख है कि उसके बाद भी आपने उनके खिलाफ कोई कार्यवाही नहीं की है।

इन शब्दों के साथ मैं यही कहना चाहता हूँ कि वहाँ पर जो हुआ है, वह एक फ़ाड़ है, धोखा है। सरकार इस मेडिकल कालिज को अपने हाथ में ले और जो ऐसा कालिज ने इकट्ठा किया है, उसको सरकार अपने कब्जे में ले तथा विद्यार्थियों का भविष्य सुधारने में मदद करे। पंजाब यूनिवर्सिटी ने एफिलिगेशन नहीं दिया है—आप इस मामले में शीघ्र कार्यवाही करें तो हालत सुधर सकती है। इस मैनेजमेंट के खिलाफ कड़ी से कड़ी कार्यवाही करें जिससे कोई दूसरा इस प्रकार का व्यवहार या ठगी न कर सके।

श्री सतपाल कपूर (पटियाला) : डिप्टी स्पीकर साहब, मैं एक दरखास्त करना चाहता हूँ। श्री ज्योतिर्मय बसु जी ने यह कहा है कि वे कई नाम इस मामले में मेन्शन करना चाहते हैं और उनपर कुछ रोशनी डालना चाहते हैं। मैं चाहता हूँ कि आप मुझे बाद में बोलने का मौका दें—क्योंकि मुझे इसके बारे में जानकारी है कि यह कालिज कैसे बना है, इसमें क्या घपला है। उनके भाषण के बाद मुझे उनकी बातों का जवाब देने का मौका मिलेगा। मैं चाहता हूँ कि श्री ज्योतिर्मय बसु पहले बोल लें, उसके बाद मैं बोलूँ।

MR. DEPUTY-SPEAKER: This is a most unusual request. But I do not want to be rigid. If the hon. Members feel that it is all right to accede to his request I have no objection.

SHRI R. V. BADE (Khargone) My name is No. 2 in the list.

MR. DEPUTY SPEAKER: We do not go by No. 2 or No. 3. After the motion has been moved, we go by the party. This is a most unusual request when an hon. Member says: Give me a chance later on. It is not usual; it is not normal. If the hon. Members do not have any objection, I shall accede to his request. Shri Jyotirmoy Bosu.

SHRI JYOTIRMOY BOSU: As an opposition Member I politically differ with Shri Uma Shankar Dikshit and I am critical of many of the things that he does. But I never thought that his own party Members did not have confidence that he could represent the party. Anyway we live to learn. And that is a good thing.

Trading in education in the regime of the Congress during the last 25 years has been a very profitable proposition and people who have been trading in education are doing quite well. At the same time they are very successful, in collaboration with the people in power, in ruining the future of thousands of young boys and girls. At the same time the standards in teaching, because of bungling, are going down day by day. You can give a degree or diploma to anybody and also thrive and not endanger yourself individually for the time being then and there. But as far as doctors and drivers are concerned, if you give something which they do not deserve you may become the victim yourself anytime.

Guru Gobinda Singh College affair is one of the worst scandals. They had one last year. Mr. Dikshit had a lot of features on his cap. There was the Patliputra Medical College where they had collected nearly 60 lakhs of rupees, mostly in the hands of Congress men.....

AN HON. MEMBER: Rs. 80 lakhs.

SHRI JYOTIRMOY BOSU: My friend says Rs. 80 lakhs—collections by people in the ruling party, swallowed and digested, no digestion, no prosecution, no trouble at all.

THE MINISTER OF WORKS AND HOUSING AND HEALTH AND FAMILY PLANNING (SHRI UMA SHANKAR DIKSHIT): This reference to Rs. 80 lakhs by the ruling party..

SHRI JYOTIRMOY BOSU: People who were connected with the ruling party.

SHRI UMA SHANKAR DIKSHIT: Let him explain how they were connected.

SHRI JYOTIRMOY BOSU: I require some time to collect these materials. I shall make a statement within 7 days. Your chief whip in the Punjab Legislative Council is connected with that.

Coming to the history of the college, the Guru Gobind Singh Vidya Sewak Society which is registered under the Societies Registration Act 1860 sponsored a first rate medical college in Faridabad in December, 1971 and invited applications from all over India and abroad to the aforesaid medical college by advertisements. According to the salient feature of the prospectus all the necessary requirements of a medical college were offered to the prospective candidates. We must mention here that the essential criterion for admission for those who have a minimum of 45 per cent marks was the payment of Rs. 20,000 in a lump sum by each student. Out of this amount Rs. 10,000 was just donation and Rs. 10,000 was to be adjusted towards fees for full course. We want to know where is this money.

Under the notification number S.O. 62/P.A. 14/63/S. 272, dated the 19th April 1972 regarding approval of Guru Gobind Singh Medical College, Faridabad under section 2 of the Punjab Anatomy Act, 1963....449, the establishment of Guru Gobind Singh Medical College was approved. They say, "We enclose herewith a true copy of this notification. Sir, may I hand it over to you for laying a true copy of the notification on the Table? I shall authenticate it as soon as you have had a look at it.

Who are they? The Guru Gobind Singh Vidya Sewak Society which sponsors this college comprises of only brothers, sons, sisters and brothers-in-law of Mr. Gian Singh Purewal, who is the secretary of the aforesaid.

[Shri Jyotirmoy Bosu]

registered society. We are giving below the names of the members of the Guru Gobind Singh Vidya Sewak Society:

1. Lakhjit Singh Purewal—Chairman.
2. Gian Singh Purewal—Secretary.
3. Jagtar Singh Purewala treasurer.
4. Piara Singh Attwal.
5. Surjit Singh Attwal—MLC. I think he is now MLA. Mr. Surjit Singh Attwal is the Chief Whip of your party in the Punjab Legislature. Therefore, let us not go much deeper into the matter. When you are trying to find it out, you might get a snake.

What is said in the prospectus? A rosy picture was given. According to Mr. Dikshit's department's requirements, for full-fledged medical college, they must have enough money of their own, building of their own, adequate apparatus and equipment. But there is not even a minimum fulfilment. The deficiencies were severe. The college has no building of its own and the classes were held in a concrete shed like building, which was previously used by a small radio-assembling industrial unit. The dissection hall which in a way forms part and parcel of the first M.B.B.S. course is situated in a small gallery on one side of the building. The physiology laboratories are too inadequate in all respects. The same tragic state prevails also in the Biochemistry Laboratory. The fact that an anatomy museum is essential in a medical colleges, we think, is still unknown to the management. For the study of social and preventive medicine, the students are to go to rural health centres and have to get practical knowledge. The college has no qualified Principal. Even the existing Principal is not allowed by the management to do anything even for the betterment of the students. The college has no Registrar. Though the

college is in Haryana, the hostels are situated very far away, 15 miles; boys hostel in Faridabad and girls hostel in Delhi. That is the position. The only way to save the career of students is that the Government should take it over. I shall come to that later on.

Coming back to that, Mr. Attwal happens to be very close friend of the present Chief Minister of Haryana, Shri Bansi Lal, against whom there are serious charges of corruption. Mr. Dikshit is fond of him, he has been protected and has been given a clean chit. That is a matter of regret. The inquiry is going on. It is highly improper, motivated and unwarranted. Therefore, this thing is moving so well in Faridabad and nothing is happening. The Government is hand in glove with the miscreants and making money and sharing the booty of each other.

I again quote:

"That the Guru Gobind Singh Vidya Sewak Society has collected Rs. 20,000 from each candidate and has thus collected about Rs. 44 lakhs in total and has the moral and legal duty and liabilities to honour their assurances given in the prospectus which are the absolute requirements for a Medical College which now they have callously and indifferently ignored in spite of our repeated demands....

Affiliation to a University is an essential requirement for any Medical College and which was guaranteed to us before the end of one year of our admission. But so far, Punjab University to which our college has to be affiliated has not given affiliation....

That the 221 students who have taken admission into this college did so in the belief that there would be no difficulty in affiliation of this college with the Punjab University and in its recognition by the

Haryana Government because important persons "like S. Surjit Singh Attwal, M.L.A., Punjab and S. Gian Singh Purewal, Ex-President of Gurdwara Parbandhak Committee were associated...."

They were involved and, therefore, the boys were taken for a ride.

Mr. Dikshit, I regret to say, did not give us correct picture. I have given the document by which the Punjab Government has granted some sort of recognition to this Medical College. The Haryana Government has given some sort of recognition.

Further, I quote:

"Subsequently, it came to the notice of the State Government that the society had unilaterally decided to open a medical college at Faridabad and had issued a prospectus inviting applications by November 10, 1971.... The State Government issued a press note on November 5, 1971, in which they declared that they had not approved of the setting up of a private medical college at Faridabad...."

I have given you, Sir, a true copy of the notification of the Punjab Government which approves, affiliates, in a way, and recognises this College. I want to know why is it that Mr. Dikshit did not clarify it. When there is a serious situation about doctors in the country, why is it that these chaps have not been prosecuted so far? It is because they have been protected by the people in power.

This is one part of the story. The other part of the story is that there is a gloomy picture in the country and there is perpetual Government failure in this regard. It says:

"While students clamour for seats in medical colleges and the majority of population in the country goes without doctors, there are over half a dozen medical teaching shops

which charge a capitation fee ranging from Rs. 5000 to Rs. 13,000 from each student in return for unsatisfactory facilities for imparting medical education...."

Then, another report says:

"It is shocking that the country simultaneously faces a shortage of doctors and a large number of unemployed doctors. According to Dr. Sinha, the number of unemployed doctors at present is 15,000 to 20,000 and this number is expected to go up...."

At the same time, they say, there is a huge number of unemployed doctors and there is a great shortage of doctors in certain areas. Northern India comes within that category.

There is another quotation which says:

"Recently, a large number of first division pre-medical student could not get admission to the medical colleges in Delhi because there were no seats. The Union Health Minister advised the students to abandon their medical course and instead complete their B.Sc. course."

After that, what did they do? Did they hang themselves or do they loiter on the streets of Delhi to starve themselves? So, I say, this is one of the root causes for the student unrest and frustration—they have been maltreated and defrauded. They have been given the worst deal by this Government. They talk of linking education with productivity. But no action has been taken. Nothing has been done about it. There are no MBBS seats for 180 students. There is another clipping here. About shortage of doctors, I have already said.

Finally I want to appeal to Mr. Dikshit not to be guided by political considerations, not to be guided by considerations of giving protection to those who are dishonest, who are bad, who are anti-social, who have cheated

[Shri Jyotirmoy Bosu]

the students. Please take drastic action against them, and it must be immediate. You take over the institution at once, inquire into it and prosecute the offenders. And, for the time being, put those boys and girls in a different Medical College. I want to clear and categorical assurance on this here and now.

Thank you, Sir. I also thank Mr. Dikshit,

MR. DEPUTY SPEAKER: Mr. Vasant Sathe. I will draw the attention of the hon. members to the fact that only one hour is allotted. Kindly be brief.

SHRI VASANT SATHE (Akola): How much time can I take?

MR. DEPUTY-SPEAKER: Five minutes.

SHRI VASANT SATHE: Please give me seven minutes, Sir.

As has been pointed out earlier in the statement of the Minister and also in the speeches made here, this is one of the serious instances where a society, formed by a family, has exploited the names of Guru Gobind Singh, Sardar Swaran Singh and Shri Gurdial Singh Dhillon. Speaker, to set up a so-called Medical College which is housed in a rented building, a shed, 60 x 200, in which the entire College including canteen, the anatomy and lecture halls—all there are partitioned by wooden partitions—is located and 200 boys are supposed to be taught.

When this fraud was brought to notice here, protection was taken under this. May I say, to begin with, that these boys have been agitating in a most peaceful, disciplined and decent manner uptill now. Normally we know whom students become restive, how the unrest erupts. But here it must be said to the credit of the boys that, although some of them were in dharna in front of the Minister's house, yet..

AN HON. MEMBER: Boys and girls.

SHRI VASANT SATHE: Yes, Yet, by and large, their agitation has been most peaceful, although the women students, as has been stated even in the report to the Police, were harassed and threatened by certain hired agents of the management here. That is the seriousness of the situation.

Last time when the Minister made a statement here, the Management had come out with a booklet which has been sent to all Members of Parliament—we have received it—and also to the Minister, and they have tried to deny these things. Let us take them at their own statement and see how they expose themselves completely through their own pamphlet. Now what do they say in this? They began by saying that the Minister of Health made a wrong statement. They charged the Chair also. This is what they said in para 3:

"You have observed subsequently from the Chair that you sent your message of good wishes as a matter of routine and you were subsequently shocked to learn that your message and photograph have been attached to the prospectus."

Thus you have been misled.

Here is the book, Sir.

All that the students had stated in their Memorandum was:

"It also deserves to be mentioned that the prospectus of the Society for its Guru Gobind Singh Medical College, Patna, contained messages of good wishes and appreciation of work done by society by highly praised persons like Sardar Swaran Singh, Minister for External Affairs, S. Gurdial Singh Dhillon, Speaker, Lok Sabha, Shri Bansi Lal, Chief Minister of Haryana and Maharaja Patiala, Shri Yadvinder Singh."

This is what the students had stated. All these people say that, in their

Memorandum, the students had misled.

Here is the Prospectus with the photograph of Guru Govind Singh on it, and inside the very first page is the message by Sardar Gurdial Singh Dhullen, saying, 'I am very glad that the Guru Gobind Singh Vidya Sewak Society has decided to start an institution... at Faridabad....' Next is Sardar Swaran Singh's message. It is all in the prospectus. The third is from Mr. L. N. Mishra. The fourth is by Mr. Bansilal and the fifth is from the Maharaja of Patiala.

Sir, if this is not exploitation of big names, what else can it be called? An exploitation of the most cheap type, trying to exploit big and respected names of the country for a very derogatory and cheap method of appropriating money from poor students.... (Interruptions.)

Now, Sir, kindly see this....

MR. DEPUTY SPEAKER: All that shows that you have to be very careful when you are asked to send messages.

SHRI VASANT SATHE: Last time, the Speaker said that we used to send messages in good faith.....

MR. DEPUTY SPEAKER: We have become wiser now.

SHRI VASANT SATHE: They have charged Rs. 20,000 from every student and they have the check to say this in this statement. Sir, last time the hon. Minister stated that it has been the declared policy of the Government which has also issued a directive to the State Governments that no capitation fee should be charged or even donation be taken. Here, what does the management say in their reply? This is what they say:

"The Minister makes a mention of the capitation fee. We have undoubtedly charged Rs. 20,000 from some of the students...."

SHRI JYOTIRMOY BOSU: From all of them.

SHRI VASANT SATHE: They have illegally collected Rs. 20,000—Rs. 10,000 as capitation fee and Rs. 10,000 tuition fee and other charges for the entire period of 4½ years. Then they say—you kindly see how they contradict themselves:

"We are enclosing a copy of the prospectus...."

SHRI JYOTIRMOY BOSU: It is all Congressmen.

SHRI VASANT SATHE: Do not detract the seriousness of the debate. Otherwise, we will not be helping the students.

SHRI K. D. MALAVIYA (Domariaganj): It is a political buffoonery in which Mr. Jyotirmoy Bosu is indulging.

SHRI VASANT SATHE: They say:

"You have been supplied with wrong information by somebody.."

And then they say:

"As you will see from para 2. the Minister of Health, Shri Uma Shankar Dikshit has not given the correct information....."

That means that they are alleging that he said the incorrect thing when he said that the Society unilaterally decided to open a Medical College at Faridabad. This is obvious from the order of the Government of Haryana passed on 19th April 1972 and subsequently by the Deputy Commissioner, Gurgaon. Then they ask: 'How can we unilaterally start a Medical College when the purpose was not simply to start a college but to impart proper medical education to the students which can only be possible with due prior clearance.....' Mind you—"With due prior clearance of the Haryana Government, the Medical Council and the Punjab University". What a cheating is it. The Punjab University till

[Shri Vasant Sathe]

this day have not given them affiliation. The Medical Council till this date has not given them sanction that is required under the Medical Council Act. Then, in the next para they say....

SHRI ATAL BIHARI VAJPAYEE (Gwalior): What about the Haryana Government?

SHRI VASANT SATHE: They come only under the Anatomy Act. Haryana Government is nobody to give sanction for starting a Medical College. They come under the Anatomy Act and the permission they have given is for dissecting the dead-bodies. That is a different thing.

SHRI JYOTIRMOY BOSU: Is it not inter-related?

SHRI ATAL BIHARI VAJPAYEE: How can you dissect the dead body when there is no Medical College?

SHRI VASANT SATHE: In that sense, the Haryana Government is involved.

I am saying that this statement is not correct. They say in para 7:

"From the very start we established contact with the Punjab University so that the college could be affiliated to University For reasons known only to the University, the affiliation has not been given."

Then comes the most shocking thing Sir. They denied the Minister's statement. See what a bogus statement they are making.

"The students in their Memorandum have contended, a point which was subsequently supported by Mr. Piloo Mody and the Health Minister, that the Society has appointed only a few teachers and the number is hardly adequate for teaching. They also stated that the college has no

Principal. We have 23 professors and other members of the teaching staff who are well qualified and can secure such a position in any medical college. The principal of the college is Mr. so and so.... A copy of the list of names of Professors etc. is enclosed for your kind information."

Here is that list, Sir, In this list only one person is a Professor. All the rest are lecturers or demonstrators. The total number in the list is 17. Where are the '23 professors'? Even Mr. Piloo Mody could have been a Principal. Because, this College, to begin with, had only a B.Com. who continued to be Principal and also Registrar at the same time. Now the person who is the Principal is not qualified even under the Indian Medical Council Rules or even the University rules, because he has only one year's experience in teaching. So Sir, this college has a staff which is not qualified at all. Also, it has a Library, as they say. But do you know the number of books they have? They have 30 books! Yet, they say, they have a "Well-equipped library". This is what they say, although the library has only 30 books. And they charge fees for that. How can they say "The Society has also provided a very well-equipped library for reference of students"? The Minister's statement has mentioned that the Management closed down the college indefinitely from 25th October and they deny and say that this is not correct. You will therefore see from their own statement what a wrong statements they are making. The memorandum of the students is fully proved by their own statement.

Now, Sir, what is it that we are going to do about it? Are we going to say, after all, this is a State subject? I beg of you to consider this situation....

SHRI UMA SHANKAR DIKSHIT: This is a State subject, fortunately or unfortunately.

SHRI VASANT SATHE: Under the Indian Medical Council Act and Rules thereunder, the Centre is having this power.

SHRI ATAL BIHARI VAJPAYEE: Dikshitji is not a State leader.....

SHRI UMA SHANKAR DIKSHIT: I am servant of the people and member of the party....

SHRI VASANT SATHE: This institution should be taken over with all the land, with the money it has, (Interruptions) with the money it has collected by fraud, whatever may be available now. If the State Government has to take it over, they always get grants from the Centre. Is he going to take it over and run it as proper medical college and see that it fulfils the requirements of affiliation to Punjab University? There are 200 boys. There are boys who have come from abroad. Their careers should not be ruined. This is the minimum requirement that has to be met. It is not enough saying—punish them for fraud. It is a matter of law and that can be pursued and the law will take its own course. But as far as students' future is concerned—we are mainly concerned with that—there is no use making a political capital out of this issue; these boys have had no political angle in their agitations. We from all sections support their cause. let Government look at the issue in the larger context and see that this college is immediately taken over and run as Government Medical College. Thank you.

PROF. MADHU DANDAVATE (Rajapur): You have announced only that we are going to have this discussion only up to 6 p.m. I suggest that we should extend the time. In fifteen minutes from now, how do you propose to complete the discussion?

MR. DEPUTY SPEAKER: I suppose it has to be extended. It cannot be finished in 15 minutes.

श्री रामलाल शर्मा (पटना):

गुरु गोबिन्द सिंह कालेज फरीदाबाद को संपन्न लक्ष्मी मंडल में जो सम्पत्ति है उनके बारे में कभी ध्यान देने का है। वह सम्पत्ति प्रोपर्टी नहीं है और अगर उन्हें उनके की सम्पत्ति नहीं जाने तो कोई कतिपयकाल नहीं होगी। सम्पत्ति को छोड़ा देकर, विद्यार्थियों को सम्पत्ति देकर, सरकार का बरक हस्त हस्तिल करके करीब-बाद में ही नहीं पटना में भी जैसे कालेज कारनामे इस तरह के लोग कर चुके हैं, इसकी जानकारी हिन्दुस्तान के लोगों को पूरी तरह से है।

[**SHRI K. N. TIWARY** in the Chair]

श्री दीक्षित जी ने बीस नवम्बर को अपने बयान में कहा था कि फरीदाबाद में जो गुरु गोबिन्द सिंह मेडिकल कालेज है, उसे हरियाणा की सरकार ने स्वीकृति नहीं दी है, उसे मंजूरी नहीं दी है। लेकिन इनके इस कथन के बावजूद हरियाणा सरकार के स्वास्थ्य विभाग के मंत्री श्री बी०एल० ग्रहण ने जो कहा था, जो बयान दिया था, उसको मैं उद्धृत करना चाहता हूँ। वह इस प्रकार है:

"In exercise of powers conferred by clause 1 of section 2 of the Punjab Anatomy Act, 1963, the Governor of Haryana hereby approves Guru Gobind Singh Medical College, Faridabad, for the purposes of the said Act."

मंत्री महोदय यहां बार-बार कहते रहे हैं कि फरीदाबाद गुरु गोबिन्द सिंह मेडिकल कालेज, पटना के गुरु गोबिन्द सिंह मेडिकल कालेज और पटना के पाठशाला मेडिकल कालेज या और भी निजी क्षेत्र में जो मेडिकल कालेज काम कर रहे हैं, उनको सरकार स्वीकृति नहीं देती। लेकिन हरियाणा सरकार के अधिकारी इस तरह का बयान निकालते हैं।

आपने अभी सुना, साठे सप्ताह में कहा है और श्री कृष्ण ने भी कहा है कि अधिकारों का प्राप्ति प्राप्त जाता है, प्राप्ति प्राप्त करके

[श्री रामावतार शास्त्री]

ये ठगों की जमायतें विद्याभियों को भ्रम में डालती हैं और विद्याभियों को भरोसा दिलाती हैं कि मंत्रियों का उनको समर्थन प्राप्त है, उनका वरय हस्त प्राप्त है। जब ऐसी बात होती है तो विद्यार्थी बर्ग समझने लग जाता है कि यह मैडिकल कालेज जरूर सही होगा और इसलिए वे वहां पढ़ने के लिए चले जाते हैं। यहां केवल हिन्दुस्तान के छात्र-छात्राएं ही नहीं बल्कि देश के बाहर के लोक भी पढ़ रहे हैं। गुरु गोबिन्द सिंह कालेज पटना में भी पढ़ रहे हैं

सभापति महोदय: अब आप समाप्त करें।

श्री रामावतार शास्त्री : श्रीरों को आप ने पंद्रह-पंद्रह मिनट दिये हैं

सभापति महोदय : आप सुनिये। पीछे आप ने चार घंटे ले लिये थे। इसके लिए एक ही घंटा है। इस वास्ते आप जल्दी समाप्त करें। जितना शार्ट हो सकता है करें।

श्री रामावतार शास्त्री : भ्रम में फंस कर 221 छात्र छात्राएं फरीदाबाद में पढ़ने आ गये। अब उनके साथ जैसा व्यवहार हो रहा है उसे आप और हम देख ही रहे हैं। आप ने सुन ही लिया है कि पढ़ने के लिए वहां कोई सुचारु व्यवस्था नहीं है, मकान नहीं है, पुस्तकालय नहीं है, प्रैक्टिकल ट्रेनिंग के लिए जो सामान होता है, वह भी नहीं है। तब वहां पढ़ाई कैसी होती होगी, इसका आप अनुमान स्वयं लगा सकते हैं।

जैसा कि अभी बताया गया है, वहां पुस्तकालय में केवल बीस किताबें हैं, जब कि एक-एक छात्र से पुस्तकालय के नाम पर दो-दो सौ रुपये वसूल किये गये हैं। आप भ्रमवादा लगा सकते हैं कि 221 छात्र-छात्राओं से कितना इपया वसूल किया गया होगा। मंत्री महोदय की नीति कुछ भी क्यों न हो, लेकिन वह इन ठगी करने वालों को

प्रोत्साहित करने वाली है। अगर मंत्री महोदय उनको प्रोत्साहित न करते, तो एम०एल०एच० उन ठगों की कमेटी के मेम्बर न होते और यह स्थिति भी पैदा न होती।

इस स्थिति में हम यह पसन्द नहीं करेंगे—और मंत्री महोदय भी पसन्द नहीं करेंगे—कि इतने छात्र-छात्राओं का जीवन बर्बाद हो। उनके लिए कोई न कोई व्यवस्था करनी ही चाहिए।

सभापति महोदय माननीय सदस्य अब समाप्त करें।

श्री रामावतार शास्त्री : आप ने अन्य सदस्यों को पंद्रह-पंद्रह मिनट दिये हैं।

सभापति महोदय: आप ने काफी टाइम ले लिया है।

श्री एस० एम० बनर्जी (कानपुर) : सभापति महोदय, आप को शुरू से ही यह व्यवस्था करनी चाहिए थी कि सदस्य ज्यादा टाइम न लें।

श्री रामावतार शास्त्री ! अगर आप मुझे और समय नहीं देते हैं, तो मैं विरोध में नहीं बोलूंगा।

सभापति महोदय: नहीं, आप बोलिये।

श्री रामावतार शास्त्री : मैं चाहता हूं कि गुरु गोबिन्द सिंह शिक्षा सेवक सोसायटी में जो मैनेजिंग कमेटी के मेम्बर हैं, सरकार उन सबके खिलाफ कार्यवाही करे। उन्हें गिरफ्तार करके जेल में डाल दिया जाये, जिस तरह बिहार में पाटलिपुत्र मैडिकल कालेज के अध्यक्ष को, जो भूतपूर्व मुख्य मंत्री थे, जेल में डाला गया और अन्य लोगों को भी जेल में डाला गया।

छात्र-छात्राओं से जो कैपिटेशन की गी गई है, उस राशि को ले कर उन्हें वापिस किया जाये। हरियाणा सरकार को कहा जाये कि वह इस कालेज को अपने हाथ में ले

ले और अगर वह समर्थ न हो, तो भारत सरकार इसको अपने हाथ में ले ले, ताकि उस कालेज के छात्र-छात्राओं का जीवन बर्बाद न होने पाये।

जहां-जहां निजी मेडिकल कालेज खोले गये हैं, उन सबको सरकार अपने हाथ में ले ले और किसी को निजी मेडिकल कालेज खोलने की इजाजत न दी जाये। जिन लोगों ने ठगने का पेशा अपनाया है, उनको माफ करना महा-पाप होगा। उनको माफ करके मंत्री महोदय पाप के अधिकारी होंगे। वह उन लोगों के खिलाफ कार्यवाही करें। सारे देश में ऐसी व्यवस्था की जाये, जिससे इस तरह की ठगने वालों की जमायत को रोका जा सके, जो पैसा कमाने के लिये सब जगह धूम रही है। सब मेडिकल कालेजों में पढ़ाई निर्धारित स्टैंडर्ड के मुताबिक होनी चाहिये और मेडिकल कौंसिल की सिफारिशों को ठीक तरह से लागू किया जाये।

अगर मंत्री महोदय इन तमाम बातों को तरफ ध्यान नहीं देंगे, तो हमारे देश के नौजवानों का जीवन बर्बाद होता रहेगा। हम और वह समाजवाद का नाम लेते रहेंगे, लेकिन उसका कोई लाभ नहीं होगा।

मैं निवेदन करूंगा कि मंत्री महोदय आज ही ऐसी कार्यवाही की घोषणा करें, जिससे छात्र-छात्राओं को सन्तोष हो और हमें भी यह सन्तोष हो कि सरकार ने सही दिशा में सही कदम उठाया है।

SHRI PILOO MODY (Godhra): I am thankful to you for calling me. I will not repeat what has been said. Every bit of what has been said is true except perhaps that nobody knows that out of the 17 teachers they say have been employed, 2 are non-existent, another 5 were appointed in the last 15 days or month and, therefore, the statement that has been made in this booklet as shown by Shri Sathe because of its inaccuracy can only

lead us to the conclusion that even in the defence of an organisation like this, there is a considerable amount of *golmal*.

Sir, the very fact that somebody has to go through the trouble of building up a defence like this, substantiated with a sheaf of papers in which he even gave how many kilos of a particular chemical he has in his cupboard, leads me to believe that the whole thing is a farce. I have already initiated this matter in this House a few days ago, and I want that the Minister should see it through today. I would like to hear the Minister, but unfortunately I will not be here to listen to his reply because I have to go somewhere. (Interruption)

MR. CHAIRMAN: Let him finish.

SHRI PILOO MODY: What I would like the Minister to satisfy us about today is that he will take certain positive steps to take over the institution lock, stock and barrel. I am not interested in the constitutional niceties that he will bring forward between the Central Government and the State Government. I am just not interested in excuses. I am only interested in performance.

SHRI UMA SHANKAR DIKSHIT: But they are facts.

SHRI PILOO MODY: I want the Health Minister to perform; not to give us reasons why he cannot perform. Therefore I would like to hear from him that he has either taken it over lock, stock and barrel—

SHRI AMRIT NAHATA (Barmer): For once at least he is for State take-over.

SHRI PILOO MODY: But he is unfortunately a little hesitant. Secondly, I would like that a greater assessment of the institution and its existing management be made immediately. If necessary, outside managers or whatever it is should be inducted into the institute; to get a

[Shri Piloo Mody]

categorical assurance from the All India Medical Council of what are the requirements that are needed to put this college on its legs; an assurance from Punjab University that they will recognise it provided the following conditions are fulfilled, and the Government must take upon itself the responsibility of seeing, like a wet nurse if necessary, that these requirements are fulfilled by the existing management.

Because I want to take a constructive attitude, there is no point in saying: "Take it over." I am interested to see that the study of these boys is not in anyway interrupted even by a day and that they will get their degrees in time as advertised and stated. These responsibilities I charge on the Minister of Health this evening, and I hope that he will be man enough to accept them.

DR. KARNI SINGH (Bikaner): Mr. Chairman, Sir, there is absolutely no doubt that a sub-standard college has been started and unfortunately it has resulted in an absolute fraud on the student community of our country. I have had occasion to meet many students from this Faridabad college and I can only say this much, that it is a heart-rending story, and as Mr. Sathe has very correctly put it, it is a human matter and it must be dealt with as a human matter and solved as such.

These boys and girls are going to lose one year, and it should be the attempt of all of us in this House now and the hon. Minister opposite to see that the students under no circumstances lose one year, because in this highly competitive life that we are living in, one year lost means they lose a great deal of seniority in the future years in the competitive examinations.

So much has been said about the angry youth and youth in revolt. I

feel that with the dismal future that there is before India's youth, this fraud adds further insult to injury.

श्री सतपाल कपूर : राज्यों का फ्यूचर डार्क है, यूथ प्रीर स्टुडेंट्स का नहीं।

MR. CHAIRMAN: Let him speak.

DR. KARNI SINGH: It is a dark future. I repeat I feel that there is a dismal future before the students for the reason that there are not enough jobs or openings for the number of boys coming out from the colleges. I am trying to finish my speech in three minutes. I feel that the hon. Minister cannot stand purely on legal niceties. A situation has been created and I feel either that this particular college can be given temporary affiliation to the Delhi or the Punjab University; or, alternatively, these students can be absorbed by the medical colleges of Punjab, Delhi and Rajasthan until such time as this college is put on its feet. We are far more concerned at this stage to see that those students under no circumstances lose one year, and if they lose one year they are going to put them at a disadvantage with other students in the country.

18.00 hrs.

SHRI A. P. SHARMA (Buxar): This is another disgraceful incident in the country that has taken place in our educational institutions, the first being in the same name, in the Magadh Medical College in Bihar, Patna. From the statement it is quite clear that about 221 boys and girls not only from our country but from some foreign countries also have come to this college by paying a capitation fee of Rs. 20,000. It is no fault of these boys and girls that they have been invited to join and take admission in this Medical College. We also find that there has been a Gazette Notification of the Haryana Government to this effect. Therefore I suggest, as other hon. Members

have said, that alternative arrangements should be made for continuing the education of these boys and girls. Whether it is a States subject or Central subject, an enquiry should be instituted into the whole affair of this college and the people who have behaved in this manner should be punished.

MR. CHAIRMAN: The hon. Minister.

PROF. MADHU DANDAVATE (Rajapur): I have been one among those who have demanded this discussion. I have given my name in time and I have been in correspondence right from the beginning and I want to know whether I shall have an opportunity to say something on this matter.

MR. CHAIRMAN: It is not necessary that on every subject the representatives of all parties should speak.

श्री सतपाल कपूर : प्रोबलम इसमें केवल इतनी है, श्री बसु ने जितने इसमें इलजाम लगाये हैं, वे सब बे बुनियाद हैं और गलत हैं। जहां तक सम्बन्ध इस बात का है कि इस मैनेजमेंट ने स्टुडेंट्स के साथ फ्राड किया है, या नहीं किया है, चीटिंग की है या नहीं की है, मैं बिल्कुल श्री बसु, से, साठे से, श्री पीलू मोदी से और डा० पांडेय से इतिफाक करता हूँ कि इस मैनेजमेंट ने एक प्रकार का कैमो-फ्लेज किएट करके धर्म के नाम पर और लीडरों के नाम पर उनके मैसेज मगवा कर स्टुडेंट्स का एक्स्प्लायट किया है। अब सवाल यह है कि इस मामले में किया क्या जाये। सरकार कहती है कि हम टेक ओवर करने के लिये तैयार नहीं क्योंकि दो करोड़ रुपये खर्च इसके ऊपर आता है। मैं तजवीज यह देना चाहता हूँ कि इस मामले को पोलिटिकल इश्यू बनायें तो इससे स्टुडेंट्स का भरोसा हल नहीं हो सकता। या इसको सेंटर और स्टेट की प्राबल्य बनाये और कहें कि यह स्टेट गवर्नमेंट की जिम्मेदारी है, सेंटर बखल नहीं दे सकता, मैडिकल काउन्सिल को प्रोबली कम्प्लीकट रिजल्ट करने को तैयार

नहीं है तो इससे समस्या हल नहीं होती। स्टुडेंट्स की जिन्दगी इस तरह से जाया जाए व इस तरह से सफर करते रहें और चीटिंग के शिकार हों जो मैनेजमेंट कर चुका है यह ठीक नहीं है। यह स्टेट गवर्नमेंट का काम है कि वह उन लोगों पर मुकदमें चलाये और उनसे रुपया बकूल करे। लेकिन अगर गवर्नमेंट मैनेजमेंट को प्रन्वर भी कर दे तो भी मैडिकल कालेज के स्टुडेंट्स की जिन्दगी का क्या होगा? मेरी तजवीज है कि फौरी तौर पर गवर्नमेंट इस कालेज को टेक ओवर कर ले। यह ठीक है कि इसमें बहुत बड़ा एमाउन्ट इन्वाल्व्ड है। लेकिन फरीदाबाद में पांच सौ स्टुडेंट्स का एक अस्पताल सरकार खोलने जा रही है। उसको इससे प्रटेक्ट करना चाहिये। इससे एक करोड़ रुपये आपके बच जाते हैं जो आलरेडी स्टेट गवर्नमेंट ने फरीदाबाद में हास्पिटल खोलने के लिये अपने बजट में एलाट किये हुये हैं। दूसरी तजवीज है— बाकी एक करोड़ रुपये सरकार के पास कहां से आये? मुझे पूरा यकीन है कि यह मैनेजमेंट जिन्होंने कहा है कि हमने 27 लाख रुपये इकट्ठा कर लिया यह 27 लाख रुपया भी ये नहीं देंगे। यह चीट है, फ्राड है। इसके लिये मैं तजवीज यह पेश करना चाहता हूँ कि अगर सेंट्रल गवर्नमेंट रेस्पॉसिबिलिटी ले और हरयाना गवर्नमेंट इसमें कुछ पैसा दे तो गुरु गोविन्द सिंह के नाम पर ऐसे लोग भी इस देश में हैं, मैं कहता हूँ कि अगर गवर्नमेंट यह रेस्पॉसिबिलिटी ले तो 25 लाख रुपये मैं इकट्ठा करके गवर्नमेंट को दूंगा, गवर्नमेंट इस कालेज को टेक ओवर करे। इसलिये मैंने यह कहा था कि इस मामले पर गुरु गोविन्द सिंह का नाम बदनाम किया जाय, लीडर का नाम बदनाम किया जाय और बंशी लाल को क्लीन चिट दे दी या नहीं दे दी इससे इसका कोई ताल्लुक नहीं है। हर मामले में पालिटिक्स ले आए इससे कुछ होने वाला नहीं है। मेरा कहना है कि सेंट्रल गवर्नमेंट इसको टेक ओवर करे तो 25 लाख रुपये पंजाब

[श्री सतपाल कपूर]

के लोगों से झगड़कर के मैं लाने के लिये तैयार हूँ। मैं अपनी रेस्पॉसिबिलिटी लेता हूँ इतना ही मैं कहना चाहता हूँ।

PROF. MADHU DANDAVATE: Sir, there are occasions when the debate must not be converted into a debate between the ruling party and the opposition. This is an occasion on which members belonging to both sections of the House must think of some constructive way to rehabilitate the 221 students back in their educational institution. Unfortunately, in the statement made by the Health Minister last time, he took a certain position which may be correct from a legalistic and technical angle. But life is something more legalism and technicalism. For instance, he did indicate on the floor of the House that Haryana State Government had issued a press note on November 5, 1971 saying that they have not approved the setting up of a private medical college at Faridabad. It may be technically correct, but it completely conflicts with what was stated by Mr. B. L. Ahuja, Secretary of the Medical and Health Department of Haryana Government on 19th April 1972 which was published in a Gazette Extraordinary, namely,

"In exercise of the powers conferred by clause (I) of section 2 of the Punjab Anatomy Act, 1936, the Governor of Haryana hereby approved Guru Gobind Singh Medical College, Faridabad....8" etc.

This particular statement was seen by the teachers and students. I am personally involved because many of my students in Bombay University are today students of this medical college. I have therefore a personal stake in it. These students told me that after this statement, they were convinced that there would be protection given by the au-

thorities and that is why they continued to be students in that college. Therefore, I appeal to the House that priority should be given to rehabilitating the students. I do not want to make reference to the fact that some prominent personalities were involved and their messages were read by the students.

MR. CHAIRMAN: Please conclude now.

PROF. MADHU DANDAVATE: Yes, Sir. The difficulty is technical. Again and again the minister says education is a State subject and this institution cannot be managed by the Central Government. I suggest a *via media*. Fortunately we have the UGC which gives grants from time to time for the operational work of various institutions. This can be considered as a critical situation and if the Central Government and the Health Ministry at the Centre use their good offices, the UGC can be contacted and adequate grants can be given and this institution can be built up.

What is the *modus operandi* of the building of the institution can be left to the U.G.C., can be left to the Central Government and can also be left to the State Government. I make this concrete and constructive proposal which can be explored. The U.G.C. authorities can be contacted. They have also acted in certain situations in an identical manner. I am sure, the Health Minister will not take shelter behind the technicality that this is a State subject.

On behalf of the students and the teachers involved, I would again appeal to them that they should not take a legalistic and a technical view but to see that all the 221 students are completely rehabilitated.

Lastly, the management has come out with a Memorandum which has been circulated to all the Members

of Parliament. To say the least, I am not accustomed to use such a phraseology—after carefully going through the management's Memorandum which has been circulated amongst the Members of Parliament, all that I can say is that the Memorandum is the greatest fraud that has been perpetrated and that should be thrown away into the waste paper basket.

I would once again appeal to them to see that all the 211 students are completely rehabilitated.

SHRI R. D. BHANDARE (Bombay Central): Mr. Chairman, Sir, I am not going to make a speech. I would like to bring two facts to the notice of the House. Ever since the students have been duped, the students are wandering from place to place, from the MPs' houses, from their own houses, and, therefore, they are passing through a mental agony. How to remove that mental agony is a question to be answered by the hon. Minister.

Then, the mental agony through which the hon. Minister is going is that some of the students are having a *dharna* in front of his house. When ever we pass by that road, it is really a sight not to be seeable—I do not say, an ugly sight—the student having a *dharna* in front of the house of the hon. Minister. So, I would appeal to the hon. Minister to remove his own mental agony also by coming to the rescue of students.

Having dealt with this point, the question is: What should be done with the fate of the students who have been duped? This is a question to be answered by the hon. Minister, by the Central Government, from a parents' position. As a number of hon. Members have suggested and pleaded with the hon. Minister, it should not be a legalistic or a constitutional view which ought to be taken. Both the Central Government and the State Government must come to the rescue

of the students. Various ways have been suggested by the hon. Members who have preceded me. I need not repeat them.

Another question is: What should be done with the management? I think, it should be charged for committing a fraud on the students. The students have been duped. Prosecution must be launched against the management. These are the points that I have made. Thank you.

THE MINISTER OF WORKS AND HOUSING AND HEALTH AND FAMILY PLANNING (SHRI UMA SHANKAR DIKSHIT): Mr. Chairman, Sir, I have carefully listened to the observations made by the hon. Members. So far as the feeling over the irresponsible action of the board of management of the Guru Gobind Singh Medical College is concerned and the unfortunate, distressing, situation in which the students have been placed, in both these respects, feel myself entirely one with all the Members in the House.

I was very pained to find that Mr. Jyotirmoy Bosu was very eager to convert this question into a political issue. It is not a political issue. Both the first speaker and the second speaker brought in Haryana Government. Mr. Jyotirmoy Bosu referred to what I said about the Chief Minister of Haryana. It is very unfortunate and it also makes one feel that when important matters of social significance are brought before the House, the responsible, the leading, Members of the House should try to present them as political issues. It has nothing to do with politics at all. (Interruption). I do not quarrel with his statement. This is precisely what he said. This completely conforms my impression and the point I was making.

Now, let us look at this in a correct perspective. I agree with the members who have said that we must not take a purely technical or legalistic view of the situation. I entirely agree

[Shri Uma Shankar Dikshit]

with them in this. But the question is what kind of view are we going to take. Are we going to take an irresponsible, general and sympathetic attitude saying 'We are all with you', 'We have sympathies for you', 'We wish you well', 'We wish the best of luck to you', etc.? We have to find funds. The Committee that was appointed for meeting the requirements of admission of about 130 students, the first divisioners, with over 60 per cent marks and some of them with even much higher percentage, suggestions that it would require Rs. 4½ crores for both non-recurring and recurring expenses. My friend, Mr. Kapoor, has assured us that he is willing to raise donations amounting to Rs. 25 lakhs. It is good, if a trust can be registered or constituted and if charitable and public-spirited gentlemen interested in education of students in Punjab and Haryana and perhaps also in Delhi because the Head Office of that Society is in Delhi—combine together, then sufficient, initial funds can be raised, in my opinion, and then perhaps some way can be found. Let us see the picture and the issue in a correct perspective.

So far as Haryana Government and Mr. Bansil Lal are concerned, I have nothing to do with that. This matter, as I have said, has no political overtone at all. He said that I gave a clean chit to Mr. Bansil Lal. I am glad that he has given me the opportunity to make the position clear. Newspaper men came to me late in the evening after the function there had concluded and said, 'There are speculations here to the effect that the Chief Minister of Haryana is being dismissed. What have you got to say about it?' I said, 'These are speculations'. They said, 'No' and went on probing. Finally I said that 'the president of the Congress has made a forthright statement which has been published in the Delhi newspaper this morning; that

the position straight. So far as any decision about dismissal, etc., was concerned, I said, the matter had not even been discussed. This is what I said. I do not know how such a statement can be regarded as giving a chit to anybody. I do not think that he needs it, and even if he needs it, is none of my business to go about doing that sort of thing. (Interruption) That is why I said that his was very unfortunate. Then I also get the feeling that it is not merely on humanitarian grounds or for honest students that this matter has been raised, but it has been raised by those who taken initiative with a political motive with a politically motivated. (Interruption) That is what I am trying to express, I hope that such matters will be understood and approached correctly in future. I do not think that this will have much effect on my hon. friend, Mr. Jytirmoy Bosu.

So far as the Society is concerned, as far as we have obtained the information after I made the statement of 30th November, the position is like this. I have received a copy of the reply which the University in Punjab has to this institution, to this Society. They have definitely said that one year before the starting of a college like this applications should have been made to the University, and 'as you have not done so, there is no question of our granting affiliation'. Similarly, the Medical Council also has said something to the same effect. It is true that the Haryana Government which under the Anatomy Act is required to give its permission, did issue a notification. There is no doubt about it. But subsequently, after the matter was raised in the Parliament, they have withdrawn that notification also.

So far as these people are concerned, I called the Chairman and he has not turned up. I called the Secretary. He also has not turned up. They sent one Office Superintendent. This man has given three names of a single family and he told our officers that they are

Management Board. These three people are there. There is a society also. Part of the funds have been kept in the name of the society and part of the funds is in the name of the college for reasons best known to them which are very difficult to appreciate.

Then he says that there are other people whose names they have not given. The students, in their memoranda, have mentioned two or three other names also and they also said that they are members of the society.

What are we to do about it? It has to be understood that except for the Post-graduate teaching the Government of India cannot use their funds except to the extent that it is permissible under the law and where the question of provision for maintenance or raising of the academic standards are concerned, there, the Government of India does come in. But the Government of India is not in a position to pass any regulatory legislation. I consulted the Law Ministry and the Law Ministry has advised me that under the Constitution, it will be difficult for us to issue either an ordinance or being a Bill straightaway taking over the matter or punishing the people.

So far as inquiry into the case is concerned, as I said last time, that is, on the 30th November, the Chief Minister he said, and their Government has subsequently informed me in writing, that they have appointed a high-level officer to inquire into the case. Now, in this matter, the advice of the Law Ministry is that if the facts are as they appear in the memorandum of the students and as they have come from the University and the Haryana Government and if these facts are correct more or less, then, this would be a cognizable offence. We do not know whether it is so or not. But if it is so, it will be possible for the Government of Haryana to start proceedings, prosecution proceedings *suo motu*. But I will go into the matter further and if this opinion is confirmed, we will take up the matter immediately this evening or sometime tomorrow

with the Haryana Government so that legal proceedings can be started, if they are permissible under the law.

As I said on the 30th of November, I received their memorandum on the 15th and on the 16th I wrote to them after taking a legal view of the matter suggesting that they should file the First Information or a complaint in Faridabad or some suitable place as advised by lawyers so that the Haryana Government can start proceedings immediately. But, to this day, none of the students has taken any such step. Therefore, I asked the Law Ministry whether without the students going and lodging such a complaint, the State Government is in a position to take such a measure and they have said that, subject to the case being as it has been stated, it should be possible for them to do so. After ascertaining the facts, I shall immediately take up the matter with the Government of Haryana so that action can be taken.... (Interruptions).... regard to the UGC business raised by the hon. Member, this is the position.

This question can arise only after the Punjab University is satisfied. Only if the Punjab University is fully satisfied that the minimum requirement under the University Act for affiliation is met can this be done. So far they have not been satisfied. Several hon. Members have pointed this out. There is hardly even the minimum of minimum, there is hardly anything at all. There is one large godown which is converted into a college. They may call it by all manner of names which are not really substantial or tenable. Then, about professors and teachers, the information given by hon. Members is quite correct. The situation must be worse, it cannot be better than what has been stated here, I am sure about it.

When some of our people went round, the place was locked. There was nobody around. The Secretary lives here somewhere in the city; he does not even come to give the information to us. He even avoids writing detailed particulars in reply to questions asked; this is the position.

[Shri Uma Shankar Dikshit]

So far as funds are concerned, they say funds had been charged from 181 students..

AN HON MEMBER: 180 students..

SHRI UMA SHANKAR DIKSHIT:
Although they had 180 students, they have got money from a reduced number. About 20 students have been admitted by them without charging them anything. The money collected is also not standard. The rate varies as Rs. 10,000 15,000, Rs. 12,000, Rs. 5,000 etc. etc.

According to the Audited Accounts that they have produced before us, peculiarly-enough, it is signed only by the Secretary, Mr. Gian Singh, the Accountant, Mr. Inderjit Singh and Mr. Hingorani, Chartered Accountant. According to this statement, the amount now left with them is Rs. 14.45 lakhs. Rs. 9½ lakhs are in banks and 5 lakhs money is deposited with a private limited company. It is not possible to say whether that money will be realisable or not. They give other particulars where they say: Prospectus fees Rs. 70,17,955; registration fees, Rs. 14,900; fees and other charges, Rs. 4,44,900 and donations Rs. 4,49,000 etc. etc. From 89 students they charged Rs. 20,000 each, from 22, Rs. 15,000, from 1, Rs. 18,000; from 2, Rs. 16,500; from 1, Rs. 14,500; from 1, Rs. 16,000, from 6, Rs. 12,000, from 29, Rs. 10,000; again from 1, Rs. 13,000; from 2 Rs. 8,000; from 6 Rs. 5,000 and from 1, Rs. 2,500, each. There is hardly any rule or norm or standard either in the matter of admission or in the matter of capitation or advance fees collected. Suppose they had done that, the position would not have so bad, although it was undesirable in all respects. But even that has not been done.

So far as action is concerned, we shall pursue this matter with all seriousness and vigour.

So far as dealing with the students is concerned, let us understand that this seems to be something in the nature of a fraud. Fraud is going on

in the country; there are cheats in the country; there are pickpockets; there are thieves. Now, if we are going to take over the financial and managerial and other responsibilities from people who defraud other persons, there will be no end to this matter. Let us understand this. There are a large number of boys who want to enter the medical career. Earlier, the craze was for the engineering career, but now it has shifted to the medical career, for obvious reasons. I can fully understand this and sympathise with this. But, of course, it is not possible to admit every boy who passes PMT or Inter (Science). Last year, as I had pointed out, 130 students with first division could not be selected, because we could not find Rs. 4½ crores straightway. These people have taken Rs. 20,000 or Rs. 10,000. It was calculated a couple of years ago that the amount spent on one boy per year was not less than Rs. 80,000. If they had committed this wrong but had collected the full amount, they would have been able to run the college, but they have taken only one-fourth of the amount from eighty students.

Now, it has been suggested to us that we should help this college to come up and so on. I am willing; if a charitable trust is constituted, I can contact the Punjab Government, because the Punjab University is there, and quite a large number of the boys are from Punjab, and there may be some from Haryana and there may be some from elsewhere. If some such trust is willing to come forward, we can help, and I shall lend my good offices informally and even formally, necessary, with the two Governments in order to see if something like that can be done. But I have already given you an instance of a case relating to a Union territory where we have direct responsibility. The Planning Commission said that there would be ten medical colleges during this period. All these ten have been established. One was offered to the Haryana Government

two years ago, and they said that they had not got the funds, and their priorities were different, and they would not be in a position to start the medical college. Out of the ten colleges, one is in NEFA and another is elsewhere and so on. Under the plan, it is not possible to find Rs. 4 crores straightway. When we sent 50 boys to the medical college at Meerut, we paid to the UP Government about Rs. 80 lakhs. If we are going to ask any State Government to take over the students, they will calculate at the rate of Rs. 80,000 per student and ask us to shell out the money. If it is the opinion that all the functions or all the main functions, that is, health and education, the main social welfare functions of the State Governments are to be taken over by the Central Government, the method would be different. I would advise that the matter should be given more careful consideration. Immediately, it is not possible for me on behalf of the Government of India, to undertake either to take over this college or to run it.

SHRI VASANT SATHE: May I suggest that....

SHRI UMA SHANKAR DIKSHIT: Whatever suggestions hon. Members may have, I would invite them to come and give me all their constructive suggestions, and I shall consider them with all sympathy....

SHRI VASANT SATHE: Under the Societies Act, the management can be taken over....

SHRI UMA SHANKAR DIKSHIT: No, the Union Government is not in a position to take over an undergraduate medical college. It is only post-graduate colleges that can be taken over by the Union Government.

SHRI VASANT SATHE: Under the Societies Act, the State Government authorities can take over the management.

SHRI UMA SHANKAR DIKSHIT: Of course, they can take over....

SHRI VASANT SATHE: It can be taken over....

MR. CHAIRMAN: If I allow the hon. Member, how can I not allow the Members on the other side? Let him not interrupt the hon. Minister.

SHRI UMA SHANKAR DIKSHIT: This is not the only instance. This is the worst instance of this kind. We treat it as a warning. I would say once again that it is a final warning. We have already taken up the matter with all the State Governments, and I have said in answer to a question either in this House or in the other House that we have already asked all the State Governments immediately to stop admission or permission or approval to any such college in future.

श्री रामावतार शास्त्री : बिहार गवर्नमेंट ने निजी मेडिकल कालेजों को पांच वर्षों तक कंपिजेशन फीस वसूल करने की अनुमति दे दी है ।

SHRI UMA SHANKAR DIKSHIT: Particularly, where there is no capitation fee or no advance, they may permit, but there also, unless and until prior permission is given, they will not be allowed. As the hon. Member has said, the Bihar Government has started it. In Bihar, there are four other colleges. There are colleges in Maharashtra, Mysore and Madhya Pradesh also, and some of these colleges are running well. It is no use saying that we should stop it from the beginning. Somebody said 'Why do you not stop it?' Is it implied that Government should keep some sort of spying system to find out who is starting and who is not starting? No, let us not be frivolous about it. It was not possible for us to stop it in advance.

[Shri Uma Shankar Dikshit]

Let me make this statement in all seriousness. As soon as the Government of India came to know about this, we took every possible, legitimate, reasonable and proper action in the matter. If a trust can now come about, if at least enough funds are there to ensure observance of minimum standards—it should be more than minimum standards—we

will try to help informally with the State Government. If such a college comes, I will take up the matter here also with the sister governments. This is all I can say.

18.36 hrs.

The Lok Sabha met at Eleven of the

[MR. SPEAKER in the Chair]

ORAL ANSWERS TO QUESTIONS

Crisis in Film Industry

*523. SHRI D. K. PANDA: Will the Minister of INFORMATION AND BROADCASTING be pleased to state:

(a) whether the film industry is facing an acute crisis;

(b) if so, the nature and extent thereof; and

(c) whether Government have received any representation from the film producers in this regard?

THE DEPUTY MINISTER IN THE MINISTRY OF INFORMATION AND BROADCASTING (SHRI DHARAM BIR SINHA): (a) to (c). No, Sir. It would not be correct to say that film industry is facing an acute crisis though it has its own recurring problems. Lately, Government had also received some representations in regard to proposed rise in prices of cine raw films and inclusion of cinemas in the proposed Urban Property Ceiling Bill.

SHRI D. K. PANDA: The Minister has given an evasive reply because it has been reported in all the papers that the film industry has been passing through an acute crisis. This crisis has been reported in the *Hindustan*

Times dated 22nd October, 1972, under the caption "Unhealthy trends Indian cinema", which has also been reported in other papers and it refers to the non-projection of the export needs of the film industry and paucity of raw stock and non-availability of certain items. It also says that there has been no study of technological media in planning. There are 7,400 theatres in the country and every year 400 to 500 are added to them. The industry is facing a crisis and yet the answer is in the negative. Therefore, I want to know from the hon. Minister whether the Khosla Committee's recommendations have been implemented and, if not, within what period they are going to be implemented to overcome the crisis.

THE MINISTER OF STATE IN THE MINISTRY OF INFORMATION AND BROADCASTING (SHRI I. K. GUJRAL): So far as the Khosla Committee report is concerned, as my hon. friend would recall it deals primarily with censorship; it does not deal with the film industry in its totality. All the same, about the Khosla Committee's recommendations, a Bill would be brought before the House in the next session.

So far as the other things mentioned about the film industry are concerned, it does call for a comprehensive film policy which the Government is now undertaking to formulate. Among the many measures that we are thinking of, one is a Bill for the setting up of a statutory film council; also

we propose to bring another Bill before Parliament for the regulation of the service conditions of the low-paid employees in the film industry. We also propose to discuss in this House, when the Bills come up, the situation regarding the finances in the film industry. All these measures taken together, I think, will give a fillip to the film industry as such.

SHRI D. K. PANDA: Is it fact that Mr. Tariq, the Chairman of the Indian Motion Picture Export Corporation charged the producers in the film industry that out of the sum of Rs. 150 crores which is at present circulating, half of it is black money, and may I know whether the Government is taking any steps to check such a thing?

MR. SPEAKER: You are now switching away to some other question.

SHRI D. K. PANDA: The question is about the crisis in the film industry. Therefore, I asked the hon. Minister whether it is a fact that Rs. 150 crores of black money are now in circulation especially when such a charge is made by Mr. Tariq, the Chairman, against the very vested interests and producers in the film industry, and what steps the Government have taken in respect of it.

SHRI I. K. GUJRAL: I have seen a press statement made by Mr. Tariq. But since I neither deal with black money nor deal in black money in my Ministry, I think the proper Ministry should be asked this question.

SHRI VAYALAR RAVI: Considering the fact that this crisis has been created by the Censor Board itself, especially in the south, will the Government see that the crisis created by the Censor Board in respect of the Malayalam films is settled?

MR. SPEAKER: I am sorry. This is quite an irrelevant question. Mr. Shankar Dayal Singh.

श्री शंकर दयाल सिंह : भारतीय फिल्म उद्योग का स्थान विश्व में दूसरा है। यह सही है कि फिल्म उद्योग इस समय संकट की स्थिति में है। मैं मंत्री महोदय से यह जानना चाहता हूँ कि क्या पिछले हफ्ते सुप्रसिद्ध फिल्म अभिनेता, श्री दिलीप कुमार, इस सम्बन्ध में प्रधान मंत्री से मिले थे और उन्होंने इस सम्बन्ध में कोई चर्चा की थी; यदि हाँ, तो कौन से मुद्दों पर चर्चा हुई थी और प्रधान मंत्री ने इस सम्बन्ध में उन्हें क्या कहा।

SHRI I. K. GUJRAL: So far as Mr. Dilip Kumar's meeting with the Prime Minister is concerned I think Mr. Dilip Kumar primarily met the Prime Minister to request her to give some time to a defence committee which the film industry had set up for the collection of money for the defence personnel, and I think they have been given time, when they will come and present a purse to the Prime Minister.

So far as the difficulties of the film industry are concerned, we are conscious of them, and that is why we are taking many measures to meet their difficulty.

SHRI S. A. SHAMIM: Is it a fact that the Government have received a memorandum from the film producers levelling charges against the Chairman, Mr. Tariq, and is it also a fact that Mr. Tariq has stated publicly that most of the film producers who have submitted the memorandum owe money worth lakhs of rupees to the Government?

MR. SPEAKER: That is what the other hon. Member asked.

SHRI G. VISWANATHAN: This question was about white money.

SHRI S. A. SHAMIM: This relates to the crisis in the film industry.

There is a crisis in the film industry, and charges and counter-charges have been levelled.

SHRI I. K. GUJRAL: It is a fact that charges and counter-charges have been made but the Ministry of I&B does not deal with them. In fact, it is under the charge of the Ministry of Foreign Trade. So, I am not in a position to reply to this question.

श्री अटल बिहारी वाजपेयी : अध्यक्ष महोदय, एक फिल्म कौंसिल बनाने का प्रश्न कई वर्षों से सरकार के विचाराधीन है, उस पर अन्तिम निर्णय कब तक हो जाने की आशा है? क्या यह सच है कि सरकार फिल्म कौंसिल बनाने का विचार त्यागने जा रही रही है ?

श्री आई० के० गुजराल : मैंने अभी अर्ज किया कि इस के संबंध में हम एक बिल लाने वाले हैं और उम्मीद है कि अगले सेशन में मैं यह बिल ले आऊंगा ।

श्री राजेन्द्र प्रसादयादव : क्या सरकार को इस बात की जानकारी है कि बड़े प्रोड्यूसर्स अपनी फिल्म के द्वारा जितने सिनेमा हाउसेज हैं सब बुक किए होते हैं और छोटे प्रोड्यूसर्स को हाउस नहीं मिलते जहां वे अपनी फिल्मों का प्रदर्शन कर सकें ? क्या सरकार इस दिशा में कोई कदम उठा सकेगी ?

SHRI I. K. GUJRAL: What he stated is correct. If at all there is a crisis, it is in the exhibition sphere. There are much fewer houses in India for exhibition of films than there should be. In all we have about 4500 regular cinemas and 3000 touring talkies. This is very low compared to the entire population. That is why we have been suggesting that more cinemas should be there. One such step being taken by the Film Finance Corporation is to set up a chain of film art theatres. In the last conference of Information Ministers, it was recommended that every State should examine the possibility of setting aside

10 per cent of their income from entertainment tax for building cinemas in those States.

SHRI SAMAR GUHA: The West Bengal film industry which has produced many films which received international awards is facing a serious crisis. A committee was constituted to go into that crisis. May I know what were the recommendations of that committee and the concrete steps taken to implement them?

SHRI I. K. GUJRAL: A committee under the chairmanship of Mr. Dutt was set up to go into the problems of the film industry in West Bengal. Their report has been placed on the Table of the House and the hon. member would have seen it. Some of the recommendations made by that committee to relieve the situation in West Bengal are being examined in detail and we propose taking steps very expeditiously.

SHRI MANORANJAN HAZRA: In view of the crisis in the film industry in Bengal, do Government wish to abolish the house protection system?

SHRI I. K. GUJRAL: We are not aware of any protection system.

SHRI MANORANJAN HAZRA: When the producer exhibits some film to the owner of the house, they take a huge sum of money. It is a loss to the producer and this is one of the reasons of the crisis. Do you want to abolish this system?

SHRI I. K. GUJRAL: As I said, the real difficulty is paucity of cinema halls. That is why the exhibitor is in a position to almost dictate terms to the producers and distributors. The remedy is to have more cinema houses. That is what we are trying to encourage.

श्री कृष्ण चन्द्र पंडित : मैं माननीय मंत्री जी से जानना चाहता हूँ कि सिनेमा उद्योग पर जो संकट आया हुआ है उस का कारण क्या यह नहीं है कि भावसीन और भद्दी फिल्में बनाई जा रही हैं ? क्या यह भी इस संकट का एक कारण है ?

SHRI I. K. GUJRAL: I would not say that is a rule. Sometimes, vulgar films are made and we try to put our hand strongly through the Censor Board. We have already declared that neither a vulgar film nor a film which projects violence will be tolerated. In the past the Censor policy was to offer a few cuts but, now the instructions are that, particularly, for violence; whenever such films come, the whole film should be banned.

SHRI KRISHNA CHANDRA HALDER: Is it a fact that India is losing Rs. 4 crores foreign exchange every year because of the smuggling of films? The country is at present earning Rs. 6.5 crores foreign exchange in the export of films. I want to know how they are going to check smuggling due to which the film industry is facing a crisis.

SHRI I. K. GUJRAL: It is a fact that films are smuggled out of India and the country loses foreign exchange. It is very difficult for anyone to say how much foreign exchange is lost because no record is kept. But one thing is certain that smuggling is there. That is why we are trying to take steps to check smuggling through Customs authorities. Now, I think, the recent measure for the channelisation of exports through the S.F.C. may have to an extent good effect so far as smuggling is concerned.

राजस्थान में कोटा और जयपुर में डाक के वितरण में विलम्ब

*527. श्री श्रीकार लाल बेरवा : क्या संचार मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या कोटा की डाक की छंटनी जयपुर में और जयपुर की डाक की छंटनी सबाई माधोपुर में होने से कोटा और जयपुर में डाक देर से मिलती है ;

(ख) यदि हाँ, तो इस के क्या कारण हैं; और

(ग) गन्तव्य स्थानों पर ही डाक की छंटनी करने में सरकार को क्या कठिनाई है ? -

संचार मंत्रालय में उप-मंत्री (श्री जगन्नाथ पहाड़िया) : (क) जी नहीं ।

(ख) प्रश्न ही नहीं उठता ।

(ग) जिन बड़े शहरों में डिलीवरी के क्षेत्रीय कार्यालय होते हैं, वहाँ के डाक की छंटाई उन स्थानों के रेल डाक सेवा कार्यालयों में की जाती है । डाक की छंटाई इस बात पर निर्भर करती है कि डाक किस समय और किस माध्यम से प्राप्त होती है । शहर में वितरित की जाने वाली डाक की छंटाई दूसरे डाक-कार्यालयों/रेल डाक सेवा सेंटरों में भी की जाती है । डाक की छंटाई में जिस खास बात का ध्यान रखा जाता है वह यह है कि डाक की डिलीवरी अपने वस्तुस्थिति पर यथाशीघ्र कर दी जाये । छंटाई कार्यालय के पास जितना समय होता है और जितनी मात्रा में डाक आती है, और उसे का निपटारा करना होता है और रेल, सड़क या हवाई परिवहन के अन्य साधनों की जैसी सुविधाएँ होती हैं, उन्हीं के आधारे पर छंटाई के कार्य के लिए स्थान का निर्धारण होता है ।

श्री जगन्नाथ पट्टाभ्या : श्री जयपुर, अभी मंत्री महोदय ने बतलाया कि डाक की छंटाई का कार्य इन के मुख्य कार्यालय में होता है। मैं पूछना चाहता हूँ कि कोटा के सबर और एम एस आफिस है, जयपुर के सबर और एम एस आफिस है, फिर भी जयपुर की डाक सबरमाधोपुर में छंटती है और वहाँ से बंटती है, वहाँ पर एक डाक है छोटी सी, अर्थात् पोस्ट आफिस का काम तीन जगहों पर होता है, डाकखाने से तो चिट्ठियाँ बंटती हैं, और एम एस के आफिस में वह छंटती है और रेलवे के द्वारा दूसरी जगह ले जाई जाती है। तो उस के लिए उन को कोटा की डाक कोटा में छंटने में क्या आपत्ति है? क्या इन के पास स्टाफ कम है? जयपुर में इतना बड़ा और एम एस आफिस है तो वहाँ पर छंटने में क्या आपत्ति है? मैं यही इन से पूछना चाहता हूँ कि इसमें इनको क्या आपत्ति है कि यह वहाँ नहीं छंट सकते?

श्री जगन्नाथ पट्टाभ्या : मैंने निवेदन किया कि आपत्ति हम को कोई नहीं है। हम यह चाहते हैं कि इन की डाक जल्दी से जल्दी कोटा की जयपुर में पहुँच जाय, जितना समय हम को जहाँ पर भी मिल जाना है हम उसे छंटते हैं। हम जयपुर की डाक इस तरह से छंटते हैं कि कोटा का बैग जयपुर में ही छट कर के सीधे कोटा पहुँच जाय और सबरमाधोपुर में हम को समय मिल जाय तो उस की वहाँ छंटाई कर देते हैं जिस से कोटा जा करके वह डाक वहाँ न पड़ी रहे। वरना तो उन की डाक कोटा जायगी और कोटा के डाकखाने में फिर छंटाई होगी। छट कर के फिर बटगी। उस में देर हो जायेगी।

श्री श्रीकार लाल बेरवा : यह इन्होंने बिल्कुल बोनस जवाब दिया है। जब इन को कोई आपत्ति नहीं है तो फिर वहाँ क्यों नहीं छंटते हैं? यही तो मैं पूछ रहा था।

श्री जगन्नाथ पट्टाभ्या : मैंने देखा, आप के सच में छंटाई होनी चाहिए।

श्री जगन्नाथ पट्टाभ्या : श्रीमान, ऐसी छंटाई जनहित में करते हैं, जिस में जनता को ज्यादा सुविधा हो।

श्री श्रीकार लाल बेरवा : जयपुर से डाक लेकर जो गाड़ी आती है, वह फ्रिड्रियर मेल के बाद आती है, इसलिये वह डाक रात भर वहीं पड़ी रहती है, और दूसरे दिन फ्रिड्रियर मेल से भेजी जाती है। 2 घंटे तक गाड़ी का मिलान न होने के कारण सेट होती है—क्या गाड़ियों के मिलाने की ठीक व्यवस्था नहीं हो सकती?

श्री जगन्नाथ पट्टाभ्या : गाड़ी अगर देर से आती है तो वह हमारे हाथ में नहीं है, जैसे ही रेल का कनेक्शन मिलता है, डाक भेज दी जाती है?

Seminar on City Police Administration

4

*528. SHRI JAGANNATH MISHRA:

SHRI S. C. BESRA:

Will the Minister of HOME AFFAIRS be pleased to state:

(a) whether a seminar on the City Police Administration was held recently; and

(b) if so, the recommendations made at the seminar and the Government's reaction thereto?

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS (SHRI K. C. PANT): (a) and (b). A statement is laid on the Table of the House.

Statement

The Centre for Training and Research in Municipal Administration of the Indian Institute of Public Administration New Delhi, had organised a seminar on 'City Police Administration' on September 29/30th 1972. The Seminar has not made any specific recommendations on which action is to be taken by the Government. The Indian Institute of Public Administration propose to publish the proceedings of the Seminar in due course.

However, the following salient issues were discussed therein:—

- (i) Urban Challenge to City Police Administration.
- (ii) Review of Micro-organisation.
- (iii) Evaluation of Internal Organisation.
- (iv) Relationship of City Police Organisation with other Urban Local Authorities and Institutions.
- (v) Areas of Specialisation in City Police Administration.
- (vi) Reorganisation of the Police Stations in the Cities.
- (vii) Separation of Law and Order—Evolving a separate Investigation Wing.
- (viii) Personnel problems and training.
- (ix) Public relations and redressal of Public grievances against the Police.

The Government of India have already set up a Committee on Police Training, the recommendations of which are expected shortly. The points made at the Seminar would also be considered while examining the recommendations of the said Committee.

SHRI JAGANNATH MISHRA: In view of the statement given by the hon. Minister, may I know from him what incentives Government propose to offer to attract the best talents into the police profession and for the amelioration of their existing service conditions.

SHRI K. C. PANT: This is a very broad question. It is true that one of the points that came up in the Seminar was that more talented and better educated persons should be attracted

to the police services and the points of entry should be less than what they are just now.

The particular question of incentives has to be considered in the light of the need of the moment. These things are continuously reviewed. I do not think I can give a general answer, but we will consider the recommendations made by the Seminar while we consider the report, as I have said, of the Committee on Police Training which has been set up.

SHRI JAGANNATH MISHRA: Is it a fact that the image of the police has deteriorated in the recent past and the police rules, Acts, laws and regulations have become outdated and if so, what steps have been or are proposed to be taken for updating the police administration?

SHRI K. C. PANT: The need to modernise police forces the need to keep up the pressure for constant improvement, is accepted. But it would not be correct to go away with the impression that nothing has been done to improve the police force, to modernise it, to make it more responsive to the changes that are taking place in our society and to improve the investigation of crimes. For instance, I will just tell you the kind of institutions that have been set up over the years. In the technical field, Central Detective Training School, Central Forensic Science Institutes and Laboratories, Finger-print Bureaux, etc., have been set up by the Central Government. A Bureau of Police Research and Development has been set up to conduct research and studies of the various problems relating to the Police Administration in the country. An Institute of Criminology and Forensic Science where training courses are being conducted on various matters like juvenile delinquency police-community relations and research methodology, etc., is also being run. Therefore, the various institutions that have been set up are going into it. A Committee on Police

Training has been set up; one of the areas which we want the Training Committee to go into is the attitude of the police and the relations between police and the public. We are awaiting the report of this Committee.

SHRI S. M. BANERJEE: Apart from the recommendations of the Seminar which the hon. Minister has assured us to consider to streamline the police administration, I would like to know what concrete steps have been taken to improve the service conditions and working conditions of the policemen and whether all the recommendations of the Khosla Committee have been implemented and if not, the reasons therefor.

SHRI K. C. PANT: I cannot say off hand about the Khosla Committee's recommendations because this Question related to the Seminar on City Police Administration.

But I do know that a large number of those recommendations have been accepted and have been implemented. This is a fact.

श्री बिभूति मिश्र : क्या यह सच है कि आजकल की पुलिस के पास मोडर्न व्हीकल्ज नहीं हैं, वायरलेस नहीं हैं, मोडर्नाइज्ड हथियार नहीं हैं ? मैं जानना चाहता हूँ कि जब हम उनको मोडर्न व्हीकल्ज और माडर्न वेपन्स नहीं देंगे तो वे मामलों को कैसे ठिकटे करेंगे ? इस सम्बन्ध में सरकार क्या उपलब्धि कराने जा रही है ?

श्री अदल बिहारी बाजपेयी : यह लाठी मार-मार कर ठीक करती है ।

श्री कृष्ण चन्द्र पास्त : अध्यक्ष जी, यह प्रश्न बिल्कुल ठीक है, इस पर हमने काफी ध्यान दिया है । पुलिस बैज्ञानिक ढंग से काम करे—इसके लिये केन्द्रीय सरकार ने पिछले वर्षों में एक आधुनिकीकरण की

योजना बनाई है । इसके लिये राज्य सरकारों की मदद भी ली जाती है— 7.5 प्रतिशत सौल की प्रकल्प में और 25 प्रतिशत ग्रांट-इन-एड की मदद में, जिससे कि उनकी मोबिलिटी ज्यादा बढ़ सके, जीप्स मिल सके, वायरलेस इक्विपमेंट्स मिल सके तथा साइन्टिफिक चीजें उनको मिल सके, फाइन्स रिकार्ड का मोडर्नाइजेशन हो सके तथा ट्रेनिंग का मोडर्नाइजेशन हो सके । इन सब चीजों के लिये अब तक 1970 से 14 15 करोड़ रुपया उनको दिया गया है और इसी बीच में 914 जीप्स दे चुके हैं, साइन्टिफिक इक्विपमेंट्स दे चुके हैं, वायरलेस इक्विपमेंट्स दे चुके हैं ।

राजस्थान का औद्योगिक विकास

*532. श्री मूल चन्द्र ढाया : क्या औद्योगिक विकास मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या केन्द्रीय सरकार राजस्थान राज्य को औद्योगिक विकास के लिये पिछले दस वर्षों से आवश्यक सहायता और सहयोग नहीं दे रही हैं;

(ख) क्या राज्य सरकार ने केन्द्रीय सरकार से इस बारे में कोई शिकायत की है; और

(ग) यदि हां, तो उस पर सरकार की क्या प्रतिक्रिया है ?

औद्योगिक विकास मंत्रालय में उपमंत्री (श्री सिद्धेश्वर प्रसाद) : (क) और (ख) जी नहीं ।

(ग) प्रश्न ही नहीं उठता ।

श्री मूल चन्द्र डागा : अध्यक्ष महोदय, मेरा मतलब कोई कम्प्लेंट से नहीं है, अगर शिक्षावत की है तो सुधार की भावना से की है। सवाल यह है कि आपकी जो ऐनुअल रिपोर्ट है उसमें आपने बताया है कि जो 565 प्रोजेक्ट्स स्वीकृत हुये हैं उनमें आपने 357 करोड़ रुपये की धन-राशि की मदद की है, लेकिन राजस्थान को केवल 14 प्रोजेक्ट्स के लिये 17 करोड़ रुपये दिये गये हैं। आप यह कहते हैं कि आप बराबर मदद देते हैं—लेकिन मैंने आपकी अपनी रिपोर्ट से बतलाया है कि 357 करोड़ रुपये की धनराशि में से राजस्थान को केवल 14 प्रोजेक्ट्स के लिये 17 करोड़ रुपये दिये गये हैं और आपने इस बात को माना भी है कि राजस्थान को सहायता कम दी गई है।

श्री सिद्धेश्वर प्रसाद : राजस्थान की ओर से जो प्रोजेक्ट्स हमारे सामने रखे गये उनमें से जिन प्रोजेक्ट्स को स्वीकृति दी गई, उनके लिये हमने धनराशि की व्यवस्था की। इसी तरह से राजस्थान के जो और प्रोजेक्ट्स आयगे और जिनको स्वीकृति मिलेगी, उनके लिये भी धनराशि की व्यवस्था की जायेगी।

श्री मूल चन्द्र डागा : राजस्थान में नये यूनिट्स लगाने के लिये कितने लाइसेन्स की एप्लीकेशन आपकें पास पेडिंग हैं, कब से पेडिंग हैं और क्यों पेडिंग हैं ?

श्री सिद्धेश्वर प्रसाद : यह बिल्कुल अलग सवाल है, इसके लिये सूचना दी जायेगी तो उत्तर दिया जायेगा।

श्री मूल चन्द्र डागा : आप कह रहे हैं कि 10 साल से बराबर मदद दे रहे हैं, लेकिन मैंने आपके आंकड़ों से ही आपको बताया है कि आप राजस्थान के मामले में सतर्क नहीं हैं और न जागरूक हैं।

श्री सिद्धेश्वर प्रसाद : तीसरी योजना का राजस्थान को केन्द्रीय प्रोजेक्ट्स के लिये

केवल 12 करोड़ रुपये दिये गये हैं, लेकिन चौथी योजना में सरकार राजस्थान के लिये 93 करोड़ रुपये की व्यवस्था की जा चुकी है। जैसा मैंने अभी बताया इस प्रकार के कोई प्रोजेक्ट्स हों प्राइवेट सेक्टर या पब्लिक सेक्टर में तो उसकी ओर भी सरकार पूरी तरह से ध्यान देगी।

श्री एम० रामगोपाल रेड्डी : अध्यक्ष जी, राजस्थान में रेगिस्तान ही रेगिस्तान है और वहाँ पर लाइसेन्स लेने वाले भी कम हैं इसलिये क्या सेन्ट्रल गवर्नमेंट अपनी तरफ से वहाँ पर बड़े-बड़े कारखाने कायम करने का खयाल रखती है या नहीं ?

अध्यक्ष महोदय : यह सवाल पैदा नहीं होता है।

श्री श्रीकिशन मोदी : मैं माननीय मंत्री जी से पूछना चाहता हूँ कि आई० एफ० सी० की बाँध भी राजस्थान में खोलने का विचार है। यदि हाँ, तो कब तक है और उसकी क्या योजना है ? यदि नहीं, तो क्यों ?

अध्यक्ष महोदय : पहले प्रश्न पढ़कर देखिये कि यह उठता भी है या नहीं। अपनी मर्जी से हर वक्त हर सवाल न उठा लिया करें।

मि० कछवाय तो हर वक्त खड़े हो रहते हैं। हाउस आफ कॉमन्स में मेम्बर हूँ तो एक या दो बफ उठते हैं और जिससे कन्सन्स हो वही उठते हैं, ऐसा नहीं कि हर वक्त कोई मेम्बर खड़े हो रहे हैं। यह अच्छा नहीं है।

Production of Fanta and Coca-Cola from Imported Raw Material.

*533. SHRI S. A. MURUGANANTHAM: Will the Minister of INDUSTRIAL DEVELOPMENT AND SCIENCE AND TECHNOLOGY be pleased to state:

(a) how many of Fanta and Coca-Cola crates can be produced from the imported raw materials given to Coca-Cola Export Corporation for Rs. 1,95,200 as per A.U. licence;

(b) the production of Coca-Cola and Fanta (in crates) during the financial year 1971-72 and 1972 till today;

(c) if the actual production is more than what can be produced from the imported raw material under A.U. licence, how Coca-Cola Export Corporation has managed to procure additional imported raw material; and

(d) whether Government propose to institute a judicial enquiry in this regard?

THE DEPUTY MINISTER IN THE MINISTRY OF INDUSTRIAL DEVELOPMENT (SHRI SIDDHESHWAR PRASAD): (a). Aproximately 3.9 million crates.

(b) The estimated production of Coca-Cola and Fanta in 1971-72 and 1972-73 (1st April to 30th November) was 31.87 million crates and 23 million crates, respectively.

(c) and (d). Apart from raw materials imported against the actual users licence, the Coca-Cola Export Corporation have also had carry over stocks from licences obtained under the export promotion policy. Upto 31st March 1971 they were allowed an import replenishment quota against exports of 20 per cent which has been reduced from 1971-72 to 4.5 per cent. Since the export promotion quota is now no longer available to feed the bottling plants, an ad-hoc allocation of Rs. 7 lakhs has also been given for

the bottling plants in 1972-73 in addition to the normal actual users licence in accordance with the policy in force. In the circumstances, the necessity for instituting a judicial enquiry does not arise.

SHRI S. A. MURUGANANTHAM: No supplementary, Sir.

SHRI K. S. CHAVDA: I would like to ask one supplementary question.

MR. SPEAKER: Only one.

SHRI K. S. CHAVDA: May I know whether the various small traders and manufacturers who produce sherbat and syrup will be adversely affected by this production of Coca-Cola and Fanta and if so what steps the Government proposes to take to protect the small traders?

MR. SPEAKER: This is about some factual information. You are going into adverse effects and so on.

SHRI K. S. CHAVDA: It is the same company, Sir. No reply is coming from the Government.

MR. SPEAKER: What is your question?

SHRI K. S. CHAVDA: May I know whether Government is aware of the fact that various small traders and manufacturers who produce shorbat and syrup will be adversely affected by the production of Coca-Cola and Fanta?

अध्यक्ष महोदय : जिसे कोका-कोला पीना है वह कोका कोला ही पियेगा और जिसे फेन्टा पीना है वह फेन्टा ही पियेगा ।

SHRI K. S. CHAVDA: I want to know what steps Government are going to take. It is not for you to reply to this question, but it is for the hon. Minister to reply.

MR. SPEAKER: I am not allowing this question. It does not arise out of the main question.

और ध्यान दिलाने के बाद भी, किन कारणों से केन्द्रीय सरकार की ओर से अभी तक उस कमी की पूर्ति नहीं हो पाई है ताकि बिहार में लघु उद्योगों के विकास में सुविधा हो सके? उन कारणों को सरकार ने नहीं बताया है जिन्हें कि वह बतलाए:

श्री सिद्धेश्वर प्रसाद : श्रीमन्, जैसा कि मैंने मूल प्रश्न के उत्तर में बताया है, भारत सरकार की यह कोशिश रही है कि बिहार को निरन्तर कच्चे माल की सप्लाई में वृद्धि की जाए और पिछले वर्षों में उसके लिए बराबर वृद्धि होती रही है। अभी हमने बिहार सरकार को या जो स्टेट इन्डस्ट्रियल डेवलपमेंट कारपोरेशन या उसको हिन्दुस्तान स्टील के माध्यम से कच्चा माल दिया था लेकिन वह अपनी आवश्यकता के अनुरूप और जो उसे दिया भी गया वह उसे उठा नहीं पाया। उसे प्राप्त करने में सफल नहीं रहा है हमने हिन्दुस्तान स्टील को इस बारे में फिर कहा है कि वह उनकी ओर मदद करें।

श्री लक्ष्मणकर : क्या सरकार ने इस बात का पता लगाने का प्रयत्न किया है बिहार में लघु उद्योगों के लिए कच्चे माल की कितनी आवश्यकता है और उसके कितने प्रतिशत हिस्से की आप पूर्ति करने जा रहे हैं?

श्री सिद्धेश्वर प्रसाद : श्रीमन्, अभी तक बिहार में जो लघु उद्योग हैं उनकी क्या क्षमता है इसके बारे में जांच नहीं की गई है। मैंने बिहार सरकार का ध्यान आकृष्ट किया है कि बिहार में जितने लघु उद्योग हैं उनके सम्बन्ध में पूरी तरह से पता लगाए कि उनकी क्या क्षमता है। उसके बारे में वह जानकारी इकट्ठा करें। ऐसी उम्मीद की जाती है कि अगले साल के अन्त तक बिहार सरकार यह सारी जानकारी उपलब्ध कर देगी। अन्य राज्यों को भी इसके सम्बन्ध

में कहा गया है। उसके बाद इस सम्बन्ध में नीति निर्धारित की जाएगी और इस बात की पूरी कोशिश की जाएगी कि लघु उद्योगों को भी पूरा कच्चा माल मिल सके।

SHRI R. S. PANDEY : Apart from Bihar which is facing a crisis in the small scale industry due to shortage of raw materials, the very concept of having small scale industry to promote decentralisation of industry is getting defeated due to the dearth of raw materials to feed the industry. How are Government going to feed the small scale industry not only in Bihar but in those States where they are committed to supply raw materials to this industry?

श्री सिद्धेश्वर प्रसाद : माननीय सदस्य ने जो बात कही है वह सही नहीं है। मैंने अभी जो पूरक प्रश्न पूछे उनके उत्तर में बताया कि हमने लघु उद्योगों को जो कच्चा माल देने का काम किया है उसमें पिछले वर्षों में निरन्तर वृद्धि होती रही है और इस सम्बन्ध में विभिन्न राज्यों को कच्चा माल उपलब्ध करने में वृद्धि होती रही है अभी भी भारत सरकार की यही कोशिश है कि हमारे लघु उद्योगों को जो कच्चा माल मिलना चाहिए और उनकी जो कठिनाई है उसको दूर करने के लिए आवश्यक कदम उठाए जाएंगे।

श्री रामावतार शास्त्री : क्या सरकार का ध्यान बिहार के अखबारों में प्रकाशित इस बात की ओर गया है कि कच्चे माल की कमी की वजह से बहुत सारे छोटे छोटे उद्योग बन्द हो गए हैं, यदि हाँ तो इस संकट का हल निकालने के लिए मन्त्री यहोदय फौरन कौन सी कार्यवाही करना चाहते हैं?

श्री सिद्धेश्वर प्रसाद : मैंने अभी बताया कि कच्चे माल की कमी की वजह से जहाँ भी कठिनाई पैदा हुई है हम वहाँ यह कोशिश कर

ये हैं कि इन उद्योगों के लिए ज्यादा से ज्यादा कच्चा माल उपलब्ध कराया जाय। मैं केवल एक ही मास का उदाहरण देता हूँ। यह है इस्पात और लोहा का कि 1969-70 में बिहार को 4483 टन इस्पात और लोहा मिला था जो 1971-72 में उसको बढ़ाकर 6956 टन कर दिया गया है। उसी प्रकार से और अन्य कच्चे माल की सप्लाई में भी हमने बुद्धि करने का काम उठाया है।

श्री रजिन्द्र प्रसाद यादव : बिहार कितना पिछड़ा हुआ प्रदेश है यह सब लोग जानते हैं लेकिन उसके बावजूद भी मंत्री महोदय ने बताया कि जो भी कच्चा माल उन्हें दिया गया, यों तो उससे उसकी सारी रिक्वायरमेंट पूरी होती नहीं है और जो देते भी हैं वह उठा नहीं पाते हैं तो क्या सेंटर इस बात को देखेगी कि यदि बिहार सरकार उस को नहीं उठाती है जितना वह देते हैं तो उसके लिए कोई कार्यवाही की जाय ?

श्री सिद्धेश्वर प्रसाद : माननीय सदस्य ने एक सुझाव दिया है इस ओर मैं बिहार सरकार का ध्यान आकर्षित करूंगा।

अध्यक्ष महोदय : इतना काफी है। अब मैं अगला सवाल ले रहा हूँ।

U.N. Seminar in India on application of Satellites for instructional T.V.

*535. SHRI M. KATHAMUTHU:
SHRI SHRIKISHAN MODI:

Will the Minister of SPACE be pleased to state:

(a) whether the United Nations propose to hold a Seminar in India on the application of satellites for instructional television;

(b) if so, when;

(c) how many countries could participate therein; and

(d) who will represent India?

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS (SHRI K. C. PANT): (a) and (b). A United Nations Panel meeting on Satellite Instructional Television System is being held in India between the 12th and 20th of December, 1972.

(c) Participants from the following countries have been included by the U.N. for the Panel meeting:

Australia, Indonesia, Iran, Ivory Coast, Japan, Kenya, Malaysia, Mongolia, Morocco, Nigeria, Philippines and Thailand.

In addition, individual experts from Canada, Germany, U.K. and U.S.A. are also attending the meeting.

(d) India is represented at the meeting by officers of the Department of Space and the Ministries of Information and Broadcasting, Agriculture, Communications, Education, Health and Family Planning.

SHRI M. KATHAMUTHU: May I know from the Minister why the socialist countries are not attending the seminar?

SHRI K. C. PANT: The Soviet Union was invited; they could not send a representative, nor could the USA. But these panel meetings are held from time to time in various countries, and this time it was thought that especially for the developing countries a meeting would be held in an area where pioneering work has been done in the field of satellite communication and the use of television system. Therefore, this was held in India. Earlier, the idea was to limit the countries who are attending this to the ECAFE countries. Later on, the countries which belong to the African region—the Economic Commission for Africa—were also included. Therefore, the countries are from Asia and Africa by and large.

MR. SPEAKER: Shri Shrikishan Modi.

SHRI SHRIKISHAN MODI: No supplementary.

श्री प्रदत्त बिहारी बाजपेयी : क्या यह सच है कि उपग्रहों के द्वारा जो प्रचार होगा उसको रोकना किसी देश के लिए सम्भव नहीं होगा और क्या यह सच है कि संयुक्त राष्ट्र संघ की बैठक में भारत ने कहा कि जो देश इस तरह का प्रचार नहीं चाहते उन्हें उससे मुक्त रखने के लिए अनुमति दी जाय या उसके बारे में प्रबन्ध किया जाय ।

श्री कृष्ण चन्द्र पन्त : यह सबाल एक पेचीदा सबाल है । यह सही है कि माननीय सदस्य ने कहा कि हमारी राय यह है कि जो देश नहीं चाहता किसी प्रोग्राम को उसको जबरबस्ती उस प्रोग्राम को देखना पड़े, सुनना पड़े या लोगों को देखना व सुनना पड़े तो यह सही नहीं होगा । अब एक युनेस्को में कोड इवॉल्व हुआ है और संयुक्त राष्ट्र में भी उसकी चर्चा हुई थी । हमने अपना अपना जो दृष्टिकोण था वह उनके सामने रखा ।

श्री प्रदत्त बिहारी बाजपेयी : क्या हम वह प्रचार रोक सकते हैं ?

श्री कृष्ण चन्द्र पन्त : वह तो एक कोड इवॉल्व करने की बात है ।

Remittance made by Foreign Controlled Companies

*536. **SHRI JYOTIRMOY BOSU:** Will the Minister of INDUSTRIAL DEVELOPMENT AND SCIENCE AND TECHNOLOGY be pleased to state:

(a) whether a number of foreign-controlled Companies with Offices in India, trade only on their brand names without actually entering into manufacturing activities themselves and the products largely made in factories owned and run by the Indians are often marketed by them;

(b) whether many foreign Companies with a small capital structure and minor investment manage to remit large sums of money because of the vast demands of such consumer goods in the country; and

(c) whether Government are contemplating to put a stop to such practices by the foreign firms?

THE DEPUTY MINISTER IN THE MINISTRY OF INDUSTRIAL DEVELOPMENT (SHRI SIDDHESHWAR PRASAD): (a) and (b). Yes, Sir. A few such instances have come to notice.

(c) The Foreign Exchange Regulation Act is being suitably amended in this regard.

SHRI JYOTIRMOY BOSU: May I know how many international brand names are in use in India and how many of them manufacture their own goods and how many get it manufactured from others including the Indian manufacturers?

SHRI SIDDHESHWAR PRASAD: The cases which have come to our notice are: 1. Singer Sewing Company, 2. Chessborough Ponds Ltd. 3. Firestone Tyre and Rubber Company. 4. Union Carbide. 5. Colgate Palmolive and 6. Bata Shoe Company.

SHRI JYOTIRMOY BOSU: My question was very specific. How many international brand names are in use in India now—their total number—and how many of them have their own manufacturing arrangements and how many get their goods manufactured by other including Indian companies? Will Mr. Subramaniam get up and answer it?

MR. SPEAKER: Don't direct them like that. Leave it to them.

THE MINISTER OF INDUSTRIAL DEVELOPMENT AND SCIENCE AND TECHNOLOGY (SHRI C. SUBRAMANIAM): I cannot immediately give the number of foreign patents in India.

SHRI JYOTIRMOY BOSU: Not patents; brands.

SHRI C. SUBRAMANIAM: My colleagues has given the names of the firms which are using brand names

for distribution of various materials. For the total number, etc., he may put a separate question.

SHRI JYOTIRMOY BOSU: May I know the amount remitted during the last three years and what are the particular economic and growth benefits that we derived out of these companies?

SHRI C. SUBRAMANIAM: These are historical relics; they have come into the picture in the past and some of them—particularly two of them are even without a manufacturing programme, they have only a distribution programme. The other companies are largely manufacturing companies and in addition to that, they also undertake distribution of goods manufactured by others. Some of them have certainly contributed to the growth of the economy and at the same time they have also benefited. Now we are in a stage to take further measures to see that these are restricted in their operations. That is why the amendment of Foreign Exchange Regulation Act is being contemplated.

SHRI JYOTIRMOY BOSU: I asked, what is the amount permitted during the last three years by them.

SHRI C. SUBRAMANIAM: I do not have the figures. That question should be put to the Finance Ministry.

SHRI S. M. BANERJEE: Is it a fact that some of the foreign controlled companies have recently taken a decision to convert themselves into Indian companies and if so, the number of such companies and whether permission has been given to them to have this sort of conversion?

SHRI C. SUBRAMANIAM: We have a guideline with regard to the foreign-owned companies that progressively they should reduce their foreign equity. Whenever they come up for expansion or for production of new articles, we insist that the foreign equity base should be further reduced. This is being done progressively.

3019 LS-2.

SHRI K. S. CHAYDA: May I know whether the government propose to reduce foreign equity to 26 per cent and, if so, when?

SHRI C. SUBRAMANIAM: Now the base we have fixed is 40 per cent. Every foreign equity company should reduce its base to 40 per cent. But, in some cases, we are allowing them to retain 51 per cent because of the various taxation complications in both the countries.

Development of Kerala during Fifth Plan

*537. **SHRIMATI BHARGAVI THANKAPPAN:** Will the Minister of PLANNING be pleased to state:

(a) whether any special measures are proposed to be taken in the Fifth Five Year Plan for industrial development in comparatively lesser developed areas like Kerala; and

(b) if so, the main points thereof?

THE MINISTER OF STATE IN THE MINISTRY OF PLANNING (SHRI MOHAN DHARIA): (a) and (b). The strategy and dimensions for the development of industrially backward areas in the country during the Fifth Five Year Plan, together with other related questions, are still under consideration.

SHRIMATI BHARGAVI THANKAPPAN: May I know whether the State Government has approached the Central Government with specific schemes for starting new industries and, if so, what steps have been taken by the Central Government in that direction?

SHRI MOHAN DHARIA: As I said, the formulation of the Fifth Plan is in process. At the time of the formulation of the Plan, we shall take into consideration all such requirements of the Kerala Government.

SHRIMATI BHARGAVI THANKAPPAN: In view of the fact that the State of Kerala is facing unemployment in a very acute form, will the

Central Government take steps to establish more job-oriented industries in Kerala?

SHRI MOHAN DHARIA: Yes, Sir.

SHRI M. K. KRISHNAN: May I know whether the government would establish a steel plant in Kerala, making use of the iron ore found in Kozhikode?

SHRI MOHAN DHARIA: As I said, the Fifth Plan is in process. It shall be our endeavour to exploit all possible natural resources that exist in Kerala, including iron ore, according to the requirements of Kerala, subject of course to our capacity.

Grant of Pension to Freedom Fighters on Recommendations of Members of Parliament

*539. SHRI RAMAVATAR SHASTRI: Will the Minister of HOME AFFAIRS be pleased to state:

(a) whether the Minister of State in the Ministry of Home Affairs had made an announcement in the last Budget Session that the cases of such freedom fighters whose jail records are not traceable would also be considered for grant of pension in case they are recommended by the Members of Parliament;

(b) if so, the number of Members of Parliament who have recommended the names of such freedom fighters as also the number of freedom fighters whose names have been recommended by them;

(c) the number and names of those among them, who have been granted pension, State-wise; and

(d) the reason for not granting pension to all those whose cases were recommended by the Members of Parliament?

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS (SHRI K. C. PANT): (a) to (d). A statement is placed on the Table of the House.

Statement

An announcement was made in the last monsoon session and not in the Budget session to the effect that if certificates of imprisonment were not available from jail authorities or the District Magistrate, the freedom fighters could be considered for grant of pension on the basis of certificate issued by a M. P. or Member of State Legislature or Ex-M. P. or ex-Member of State Legislature who had been in jail with the applicant, further supported by an affidavit of imprisonment by the applicant. More than 1,10,000 applications have been received and it is not possible to indicate the number of Members of Parliament who have recommended the pension to freedom fighters nor it is possible to give the names and number of such freedom fighters who have been so recommended.

2. Similarly, over 6,000 cases have been approved for grant of pension. These have been sanctioned on the basis of the certificates issued by the jail authorities, District Magistrates and also by M. P./ex-M. P., Members of State Legislatures/ex-Members of State Legislatures. Because of the large number of cases approved, it is difficult to say which of these cases were approved on the basis of the recommendation of a M. P. However, unless a Member of Parliament or for that matter an ex-M. P. has been a co-prisoner with the applicant, any recommendation made in such cases, cannot be considered as a valid proof of imprisonment. It is also not possible to indicate the number of cases in which the recommendation of the Member of Parliament could not be accepted due to his not being a co-prisoner.

श्री रामावतार शास्त्री : वक्तव्य को पढ़ने के बाद मैं इसी निष्कर्ष पर पहुँचा हूँ कि जो स्वतन्त्रता सेनानी संसद सदस्यों के साथ छः महीने से अधिक जेलों में रह चुके हैं उनमें से बहुत कम लोगों को पेंशन दी गई है। मैं

जानना चाहता हूँ कि संसद् सदस्यों के द्वारा इस बात की सिफारिश करने के बावजूद कि अमुक-अमुक स्वतन्त्रता सेनानी उन के साथ छः महीने से अधिक समय तक जेलों में रह चुके हैं क्या गृह विभाग के सचिव ने उन्हें यह लिख भेजा है कि वे किसी एम पी या भूतपूर्व एम पी से पत्र लिखवा कर भेजें ? यदि हाँ, तो इस प्रक्रिया को चलाने का कारण क्या है ?

श्री कृष्ण चन्द्र पन्त : जहाँ पर एम पी ने सर्टिफिकेट दे दिया है और इस बात की पुष्टि की है कि उनके साथ कोई स्वतन्त्रता सेनानी जेल में थे, तो हमारे नियमों के अनुसार उस चीज को मान लिया जाता है। अगर माननीय सदस्य की नजर में कोई ऐसी बात आई हो जैसा वह कह रहे हैं तो वह हमारे पास भेजें क्योंकि जो हमारे नियम बने हैं इस के सम्बन्ध में, या जो हमारी योजना बनी है उसके अन्तर्गत चूँकि सारे रेकार्ड मिलते नहीं हैं इस लिये हम उस सर्टिफिकेट को मान लेते हैं उन लोगों के बारे में जो किसी एम पी या एक्स एम पी अथवा एक्स एम एल ए के साथ रहे हों।

SHRI INDRAJIT GUPTA: How can people always have such company?

SHRI K. C. PANT: There are some people. Particularly on this side we have got such a large number of applications.

एक चीज मैं और स्पष्ट कर दूँ कि ऐसी भावना बिल्कुल नहीं होनी चाहिये कि इन लोगों को कम दिया जा रहा है। लेकिन यह जरूर है कि क्रमानुसार दिया जा रहा है, उनको तरबीह भी नहीं दी जा रही है। जिन्होंने पहले अर्जी दी है उन्हें पहले दिया जा रहा है और जिन्होंने बाद में दी है उनको बाद में।

श्री रामाधरार 'मालवी : क्या ऐसे स्वतन्त्रता सेनानियों के विषय में संसद्-सदस्यों की सिफारिश होने के बावजूद राज्य सरकारों से पूछा जाता है; यदि हाँ, तो क्यों ? फिर

संसद्-सदस्यों की सिफारिशों का क्या महत्त्व है ? क्या सरकार ऐसे स्वतन्त्रता सेनानियों के आवेदनपत्रों को छांट कर उन्हें शीघ्र पेंशन देने की व्यवस्था करेगी ?

श्री कृष्ण चन्द्र पन्त : पहले तो एक अर्जी राज्य सरकार को जाती है और केन्द्र के पास जाती है, जिस पर जांच होती है। दूसरे, बहुत से एम० पी० ने यह लिखा है कि अमुक व्यक्ति जेल में मेरे साथ थे, लेकिन वह कितनी देर जेल में थे, यह नहीं लिखा है और इसलिए यह बात स्पष्ट नहीं हुई है कि वह जेल में दो महीने तक थे, चार महीने तक थे या छः महीने तक थे। हो सकता है कि ऐसे केसिज में एनक्वायरी की जरूरत पड़े कि वह जेल में छः महीने से ज्यादा थे या कम। एम० पी० का पुष्टीकरण जेल के सिलसिले में था, लेकिन और जिन बातों की जरूरत होती है, उन का पुष्टीकरण एम० पी० नहीं कर सकते हैं और इसलिए उनके लिए जांच की जाती है। हो सकता है कि ऐसी बातों की जांच करने के लिए राज्य सरकारों से पूछा गया हो।

WRITTEN ANSWERS TO QUESTIONS

Restructuring of Administrative set-up for achieving Plan Targets

*521. SHRI DINESH CHANDRA GOSWAMI: Will the Minister of PLANNING be pleased to state:

(a) whether Government have a proposal to restructure the administrative set-up of the planning machinery to achieve full implementation of the plan targets; and

(b) if so, the salient features thereof?

THE MINISTER OF STATE IN THE MINISTRY OF PLANNING (SHRI MOHAN DHARIA): (a) and (b). The Planning Machinery at the centre, viz. the Planning Commission has recently been reorganised on the following basis:—

(1) a more coherent grouping of the Divisions in the Commis-

sion with a clear delineation of (a) line divisions dealing with various sectors and their inter-relationship, (b) plan formulation and coordination divisions and (c) Servicing divisions;

- (ii) strengthening of the line divisions so as to equip them fully to undertake (a) long term sectoral planning, (b) preparation and ex-ante evaluation of projects and programmes, (c) monitoring of plan performance and (d) improvement to the information content in their work;
- (iii) creation of necessary expertise in the servicing divisions to provide back up support for project appraisal, monitoring and evaluation and information; and
- (iv) creation of additional posts for new areas of work and/or areas which required greater attention, study and research.

As regards the Planning Machinery at States level, a general review of the organisational structure and functioning of the Planning Departments of the States was made and it was felt that the Planning set up as existing in the States neither incorporated adequate technical expertise nor secured popular participation. On the basis of these conclusions as well as the recommendations of the Administrative Reforms Commission, the Planning Commission has recommended to the States to (a) set up apex Planning bodies and (b) strengthen the State Planning Departments. Specific recommendations in this behalf are the following:

- (a) There should be an apex body at the State level with the Chief Minister, the Finance Minister, the Planning Minister and technical experts representing various departments and disciplines.

(b) The work of the apex bodies should be supported by steering Groups set up under the Chairmanship of technical experts preferable from outside the Government in the fields of agriculture, industry, irrigation and power, social services, transport, manpower and employment and other important functional fields. The Chairmen of these Steering Groups should be the members of the apex planning bodies at (a) above.

(c) To ensure that the apex planning body is effective in guiding plan formulation as well as the monitoring of plan implementation, a non-official full time Deputy Chairman should be appointed incharge of the apex body. The Deputy Chairman will operate through the State Planning Departments which should function as the Secretariats of the apex planning bodies.

(d) In order to enable the Planning Departments to adequately discharge their secretarial functions for the apex planning bodies, their strength should be suitably augmented with experts drawn from various disciplines and these should also be functionally reorganised into different units which should mainly be the following:

(1) *Perspective Planning Unit*—dealing with preparation and updating of Resource Inventories, and preparation of long-term perspective plans;

(2) *Monitoring, Plan Information and Evaluation Unit*;

(3) *Project Formulation Unit*.—To assist various Departments in the preparation of projects for investment projects and also to conduct their ex-ante evaluation;

(4) *Regional/district Planning Unit.*—To provide guidance and technical back-up to the regional and district planning authorities; and

(5) *Plan Coordination Unit.*—To assess the existing/anticipated level of development, determine inter se priorities within an integrated strategy for the next five/one year(s) ascertain the availability of manpower, material and financial resources and synthesise spatial and sectoral plans into a balanced and operational plan.

Discussions with Representatives of Labour Unions on Approach to Fifth Plan

*522. SHRI MUHAMMED SHERIFF:

SHRI RAMSHEKHAR PRASAD SINGH:

Will the Minister of PLANNING be pleased to state:

(a) whether any discussions were held with the representatives of the organised labour on the approach to the 5th Plan with special reference to the policies on industrial relations including workers' participation in management; and

(b) if so, the outcome of the discussions held?

THE MINISTER OF STATE IN THE MINISTRY OF PLANNING (SHRI MOHAN DHARIA): (a) In September 1971, a discussion was held with the representatives of organised labour on matters like improvement of industrial relations, particularly in the public sector and the feasibility of evolving a wages-prices-income policy. No discussions, however, have been held in regard to the approach to the Fifth Plan. This matter is under consideration.

(b) Does not arise.

Planning Commission's discussion with State Governments on Annual Plan for 1973-74

*524. SHRI K. LAKKAPPA: Will the Minister of PLANNING be pleased to state:

(a) whether there is a controversy going on in the National Physical Laboratory since 1968 with regard to an application for a patent on the development of Phosphors for the Cathode Ray tube;

(c) if so, the reasons therefor?

THE MINISTER OF INDUSTRIAL DEVELOPMENT AND SCIENCE AND TECHNOLOGY (SHRI C. SUBRAMANIAM): (a) to (c). During the year 1966-67, for Scientists of the National Physical Laboratory (NPL) started work on phosphor for Cathode Ray Tubes. In 1968, partial success was achieved. This phosphor, however, depended on imported raw material and even under ultra-violet light did not have the required luminous out put and spectral response as compared to imported phosphors. It was also not profitably suitable for production.

The leader of the team, however sought permission to file a patent for this phosphor which was granted. He resigned in September, 1969

purely on personal and domestic grounds and left for U.S.A. The other scientists were requested to write up the patent, but they have not yet given any write up so far.

The work on indigenous and more versatile phosphor useful for Television tubes and other purposes is in progress at National Physical Laboratory (NPL). This phosphor is likely to save considerable foreign exchange when it goes in production.

- (iv) Investigation of national highways;
- (v) Setting up of design units for Rural Water Supply;
- (vi) Promotion of self-employment through provision of seed capital, hire-purchase facilities and functional industrial estates.

During the current year, a scheme for the employment of engineers and diploma-holders by small indu-

tries with Government subsidy to the extent of 50 per cent has also been introduced.

At the meeting of State Ministers of Industries convened in Delhi in September 1972, the Minister for Industrial Development and Science & Technology, had advised the State Ministers to formulate schemes for employment of engineers, scientists and technicians and submit them to the Central Government by end of December, 1972. These schemes are awaited by the Ministry of Industrial Development.

State Governments have been requested to formulate schemes for conducting natural resources surveys with a view to exploiting natural resources and to providing employment opportunities to engineers and scientists. Schemes have been received from a number of State Governments and they are under examination. For schemes of this nature and others intended for scientists and highly-qualified technicians, an allocation of Rs. 20 crores has been made in the Central Budget for the current year.

In 1972-73, a total amount of Rs. 27 crores has been allocated among the State Governments and the Union Territories to finance special employment programmes which have a considerable content of engineering and other technical manpower.

No specific guidelines have been issued by the Government to the State Governments and Union Territories in respect of employment of doctors. However, during the Annual Plan discussions with the State Governments, it has stressed that expeditious steps should be taken to fill up all existing vacancies and create more posts for doctors where possible.

The nationalised Banks have been specifically instructed by the Government to actively promote self-employment of technical entrepreneurs and doctors.

The Annual Plan for 1973-74 is at present under discussion. During the discussions, State Governments and Central Ministries are being advised to pay special attention to schemes that would generate increasing employment opportunities for engineers and technologists. It will be the endeavour of the Government to pursue a policy aimed at the absorption of all unemployed engineers and highly qualified technologists by the end of the Fourth Plan period both through direct employment and through self-employment opportunities.

(c) if so, the reaction of Government thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF HOME AFFAIRS (SHRI F. H. MOHSIN): (a) Shri Sangram Singh the then Director, City Palace Museum, Jaipur sold 37 paintings to Mr. Oscar Leneman who arranged to send these paintings to New Jersey, U.S.A. These paintings were, however, recovered in transit.

Interview of Section Officers for Promotion to the Grade of Under Secretary

5074. SHRI B. K. DASCHOWDHURY: Will the PRIME MINISTER be pleased to state:

(a) whether an interview has been prescribed for selection of Section Officers of Central Secretariat Service for promotion to the grade of Under Secretary;

(b) whether no such interview is held while making similar selection for the post of Under Secretary in other Secretariat Services;

(c) whether standing instructions of Ministry of Home Affairs exist that personal interview is not regarded as necessary for selecting candidates for promotion and that panels of Officers

for promotion should be prepared on the basis of their record and conduct; and

(d) if so, the reaction of the Government?

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS AND IN THE DEPARTMENT OF PERSONNEL (SHRI RAM NIWAS MIRDHA):

(a) Yes, Sir.

(b) The other Secretariat Services are (i) the Railway Board Secretariat Service and (ii) the Indian Foreign Service (B). No interviews are held for selection to posts of Under Secretary and equivalent in those Services.

(c) and (d). Appointments to Grade I of the Central Secretariat Service (Under Secretary) are made in accordance with the Central Secretariat Service (Promotion to Grade I and Selection Grade) Regulations, 1964. Under the Regulations, the Selection Committee constituted for the purpose, with a Member of the Union Public Service Commission as its Chairman, is required to classify the officers in the field of consideration on the basis of merit. The Regulations do not provide for an interview of the concerned officers, nor do they preclude such an interview being held if the Selection Committee so decides. Unlike posts in the Railway Board Secretariat Service and the Indian Foreign Service (B), Grade I of the Central Secretariat Service is centralised with several Ministries/Departments participating. The field of consideration accordingly covers Section Officers working in different cadres. It was decided on the advice of the Union Public Service Commission that in addition to the assessment of the Confidential Reports, the candidates should be interviewed so that, *inter-alia* any marked variations in the standard of recording Confidential Reports could thereby be corrected. The standing instructions referred to are presumably those contained in Ministry of Home Affairs O. M. No. 17/4/48-Estg, dated 16th April, 1952. Even those

instructions leave it to each Departmental Promotion Committee to settle matters of procedure in consultation with the Union Public Service Commission, where that body is associated with it.

Promotion of Section Officers to the Grade of Under Secretary

5075. SHRI B. K. DASCHOWDHURY: Will the PRIME MINISTER be pleased to state:

(a) whether the rules framed by Government in 1962 for selection of Section Officers for promotion to the grade of Under Secretary do not provide for holding of an interview for the purpose; and

(b) if so, whether Government will do away with the system of interview for selection of Section Officers of Central Secretariat Service for promotion to the grade of Under Secretary with a view to remove the discrimination existing at present?

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS AND IN THE DEPARTMENT OF PERSONNEL (SHRI RAM NIWAS MIRDHA):

(a) and (b). Appointments to Grade I of the Central Secretariat Service are made in accordance with the Central Secretariat Service (Promotion to Grade I and Selection Grade) Regulations, 1964. Under the Regulations, the Selection Committee constituted for the purpose is required to classify the officers in the field of consideration on the basis of merit. The Regulations do not provide for interview of the concerned officers nor do they preclude such an interview being held if the Selection Committee so decides. Grade I of the Central Secretariat Service is centralised with several Ministries/Departments participating. The field of consideration accordingly covers Section Officers working in different cadres. It was decided on the advice of the Union Public Service Commission that in addition to the assessment

of the Confidential Reports, the candidates should be interviewed so that any marked variations in the standard of recording Confidential Reports could hereby be corrected. Moreover, Grade I of the Central Secretariat Service carries responsibilities of a distinctly higher order, and suitability for it can not be properly adjudged without assessing the personality, breadth of vision, general knowledge and powers of expression, etc. of candidates which only an interview can reveal.

Draft Job Qualification, for the Officers from the rank of Under Secretary to Joint Secretary

5076. KUMARI KAMLA KUMARI: Will the PRIME MINISTER be pleased to state:

(a) whether the 'draft job qualifications' for officers from the rank of Under Secretary to Joint Secretary prepared by the various Ministries/Departments are required to be referred to the Career Management Division of the Department of Personnel for scrutiny before these are authorised for finalisation and if so, the reasons for adopting such a procedure;

(b) the status of the officers who initially scrutinise such 'draft job qualifications' and the training and experience undergone by them prior to their present assignment; and

(c) the status of the Officers in the career Management Cells in the Departments/Ministries who initially prepare the 'draft job qualifications' and the training and experience undergone by them in details?

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS AND IN THE DEPARTMENT OF PERSONNEL (SHRI RAM NIWAS MIRDHA):

(a) Yes. The draft job qualification standards are scrutinized by the C. M. Division of the Department of Personnel with a view to ensure uniformity

in the style and format of the job qualification standards and accuracy of the functional fields and the codes referred to therein.

(b) The draft job qualification standards are initially scrutinized by a Research Officer and a Senior Research Officer. The Research Officer has received training in the technique of job qualification standards in the IIPA and possesses practical experience of over two years in the application of these techniques as a member of a team deputed by IIPA on a Consultancy Assignment. The Senior Research Officer also has about 6 months on the job training in this field.

(c) Draft Job Qualification Standards are prepared on the basis of replies given by the officers themselves in the Questionnaire prescribed for this purpose. Depending on the actual number of Job Qualification Standards to be finalized, the initial preparation of the Draft Job Qualification Standards is undertaken by Section Officers/Research Officers and in a few cases by Under Secretaries. These officers concerned have been suitably briefed by discussions and meetings and thus trained for undertaking this work, by the Career Management Division of the Department of Personnel.

5077. SHRI SUDHAKAR PANDEY: Will the Minister of COMMUNICATIONS be pleased to state:

There are already two Pillar letter Boxes at Jaidev Park and Rampura-Chowk at a distance of about 1/2 KM. from both the localities. Post Offices at Ganeshpura, Punjabi Bagh and Power House are quite close from these localities.

To improve these facilities further, a few more letter boxes are being planted in these localities. A proposal for opening a post office in this area is also under examination.

Post of Research Officers in Cabinet Secretariat

5078. SHRI YAMUNA PRASAD MANDAL: Will the PRIME MINISTER be pleased to state:

(b) whether some posts of Research Officers (Career Management) Reserved for Scheduled Castes and Scheduled Tribes were not given to Scheduled Castes and Scheduled Tribes candidates but given to non-Scheduled Castes;

(c) whether some candidates belonging to Scheduled Castes and Scheduled Tribes were available there, if so, the reasons for not giving chance to Scheduled Caste and Scheduled Tribe candidates, and

(d) whether before filling the vacancies of Research Officers (Career Management) the posts were notified to all Ministries; if not, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS AND IN THE DEPARTMENT OF PERSONNEL (SHRI RAM NIWAS MIRDHA): (a) Three.

(b) and (c). Yes. Two of these posts were advertised by the Union Public Service Commission as reserved for Scheduled Tribes candidates but no candidate belonging the Scheduled Tribes was available hence these two posts were filled on an ad hoc basis.

(d) One post was filled after advertisement by Union Public Service Commission from a non-Scheduled Castes/Tribes Officer. Out of the remaining two, one post was circulated to all Ministries and the other post was filled up by promotion. These ad hoc arrangements have been continued pending finalisation of the Recruitment Rules, which are still under consideration of the Union Public Service Commission. As soon as the Recruitment Rules are finalised, action would be taken to fill in these posts on a regular basis in accordance with the provisions made in the Recruitment Rules and the orders in regard to reservation of posts for Scheduled Castes and Scheduled Tribes.

(b) if so, the steps taken against the Director?

THE MINISTER OF INDUSTRIAL DEVELOPMENT & SCIENCE AND TECHNOLOGY (SHRI C. SUBRAMANIAM): (a) Government have seen a Press Report.

(b) The views expressed in the Assam Assembly were presumably the personal views of the Members concerned. The points raised mainly relate to the recruitment policy of the laboratory. The appointments in the Regional Research Laboratory (RRL), Jorhat are made in accordance with the rules and procedure prescribed in the Rules and Regulations and Bye-laws of the CSIR, a copy of which is available in the library of Parliament. The position has been explained to the Chief Minister of Assam.

**Preferential weightage being given to
I.A.S. Officers over other Central

5080. SHRI S. C. SAMANTA: Will the PRIME MINISTER be pleased to state:

(a) whether a preferential weightage of two years is being given to I.A.S. officers over other Central Service Officers for posting as Deputy Secretaries, Directors and Joint Secretaries; if so, the basis for this;

(b) whether a copy of the order will be laid on the Table; and

(c) whether representations have been received against this discriminating practice; if so, the action taken or proposed to be taken on those representations?

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS AND IN THE DEPARTMENT OF PERSONNEL (SHRI RAM NIWAS MIRDHA): (a) to (c). Appointments to posts of Deputy Secretary, Director and Joint Secretary are made on the recommendation of the Central Establishment Board/Senior Selection

Board. Whilst there are no formal orders to this effect, the Boards have since 1968, been observing this criterion as a working rule in making recommendations for appointments under the Central Government. THE PRIME MINISTER, MINISTER OF ATOMIC ENERGY, MINISTER OF ELECTRONICS, MINISTER OF HOME AFFAIRS, MINISTER OF INFORMATION AND BROADCASTING AND MINISTER OF SPACE (SHRIMATI INDIRA GANDHI): (a). The FAO and IAEA organised an International Symposium on Food Irradiation during November 13-17, 1972 at Trombay, in which over 100 scientists from several countries including India, engaged in researches on various aspects of the subject participated. This was followed by a Panel Meeting of Experts from 21 countries, also convened by the FAO/IAEA, specifically to review the problems concerning developing countries in adopting food irradiation.

(b) The meetings discussed various aspects of radiation preservation of food, including the status of the programme on radiation preservation of various commodities and the technological, economic and wholesomeness aspects.

(c) The conclusions arrived at were that (i) on the basis of extensive feeding studies with experimental animals, irradiated foods have been shown to be wholesome; (ii) the need for application of food irradiation practices is more in developing countries with their adverse climatic conditions and other factors conducive to losses in foods during storage, as compared to the developed countries with their more favourable climatic conditions, as well as alternate methods of food preservation like freezing, canning, etc.; (iii) a number of countries have cleared a variety of foods for human consumption on the basis of exhaustive testing procedures and developing nations should stress these for obtaining public health clearances for food irradiation; and (iv) developing countries should collaborate, preferably on a regional basis, to promote practical introduction of food irradiation into their economies.

**केन्द्रीय सरकार के कार्यालयों में फालतू
कर्मचारियों की छंटनी**

5095. श्री महावीर सिंह शास्त्री :
क्या प्रबन्ध मंत्री यह बताने की कृपा करेंगे
कि :

(क) क्या केन्द्रीय सरकार के कार्यालयों
में कुछ कर्मचारी फालतू हैं ;

(ख) यदि हाँ, तो क्या सरकार उन
की छंटनी कर रही है ;

(ग) क्या अनुसूचित जातियों के लिए
कोटा 18 प्रतिशत होना चाहिए, यदि हाँ,
तो अनुसूचित जाति के कितने कर्मचारियों
की छंटनी की गई है जहाँ उनका यह कोटा
18 प्रतिशत से कम है; और

(घ) ऐसे कार्यालयों के नाम तथा
स्थान क्या हैं और उन अनुसूचित जातियों
के कर्मचारियों की छंटनी किए जाने के क्या
कारण हैं ?

गृह मंत्रालय और कामिक विभाग में
राज्य मंत्री (श्री रामनिवास मिर्षा) :
(क) और (ख). कामिक विभाग के
केन्द्रीय (अधिशेष कर्मचारी) कक्ष द्वारा
केन्द्रीय सरकार के विभागों/कार्यालयों में
निम्नलिखित कारणों के परिणामस्वरूप
कभी-कभी छंटनी किए गए कर्मचारियों
को फिर से नौकरी में लगाने की सहायता
की जाती है (i) अधिक अच्छी कार्यप्रणाली
एवं पद्धति के विकास के लिए अतिरिक्त
सुधार विभाग द्वारा समय-समय पर कार्य-
अध्ययन (ii) वित्त मंत्रालय की स्टाफ
इन्स्पेक्शन यूनिट द्वारा सामयिक कार्य-
अध्ययन (iii) कार्य-माप का सम्बन्धित
मंत्रालय द्वारा स्वयं पुनरीक्षण अथवा अन्य

प्रशासनिक सुधारों या सुधारों या हीन-
कालीन संघटनों को समाप्त किए जाने के
कारण भी (iv) एक निश्चित प्रयोजन
के लिए स्थापित अस्थायी संघटनों की
समाप्ति वगैरह कि इस प्रकार का संघटन
15 वर्ष से अधिक अवधि के लिए अस्तित्व
में रहा हो और छंटनी किए गए कर्मचारियों
ने उस संघटन में 5 वर्ष से कम लगातार
सेवा नहीं की हो। ऐसे अधिशेष कर्मचारी
उपरोक्त कक्ष की पंजिका में अधिक से
अधिक छह महीने की अवधि तक रखे जा
सकते हैं। उक्त अवधि में कक्ष उन अधिशेष
कर्मचारियों को अन्य विभागों/कार्यालयों
द्वारा सूचित उपलब्ध रिक्तियों में खराने का
हर संभव प्रयत्न करता है। उनमें से केवल
ऐसे कर्मचारी ही अन्त में सामान्य नियमों
के अधीन छंटनी किए जाने के लायक होते
हैं, जो अपनी इच्छा से सेवानिवृत्ति नहीं
चाहते और जिन्हें यथोचित रिक्त स्थान की
अनुपलब्धता के कारण उपर्युक्त छह महीने
की अवधि के अन्तर्गत कोई अन्य नौकरी
नहीं दी जा सकी हो और लीयन न रखने
के कारण जो अपने मूल विभाग को वापिस
नहीं भेज जा सके हों अथवा जिन्होंने उप-
र्युक्त अवधि के अन्तर्गत कक्ष द्वारा नियुक्त
किए गए पद पर कार्यभार ग्रहण नहीं किया
हो। इसी प्रकार के नियमों के अनुसार रोज-
गार तथा प्रशिक्षण महानिदेशालय (विशिष्ट
कक्ष) चतुर्थ श्रेणी के वर्गों के अधिशेष कर्म-
चारियों को पुनर्नियुक्त कराने का प्रयास करता
है। चालू वर्ष के अन्तर्गत कामिक
विभाग के अधिशेष कर्मचारी कक्ष अथवा
रोजगार तथा प्रशिक्षण महानिदेशालय के
विशिष्ट कक्ष की पंजिका में दर्ज किए जा-
एंगे और अधिशेष कर्मचारी की छंटनी नहीं की
गई है।

(ग) और (घ). अनुसूचित जातियों
के लिए पदों का अनुपात 15 प्रतिशत है
न कि 18 प्रतिशत। पिछले वर्ष जनवरी,
1967 में सरकार द्वारा सामान्य अनुदेश

जारी किए गए थे कि जब किसी भी कांड के किसी बर्ग विशेष में व्यक्तियों को अधिशेष घोषित किया जाय तो अधिशेष सूची में उस बर्ग के अनुसूचित जातियों तथा अनुसूचित आदिम जातियों के कर्मचारियों के नाम तब तक सम्मिलित नहीं किए जाने चाहिए जब तक कि उक्त ग्रेड में अनुसूचित जातियों तथा अनुसूचित आदिम जातियों के लिए क्रमशः निश्चित प्रतिशत आरक्षण तक उनकी संख्या न पहुंच गई हो। इन अनवशों को ध्यान में रखते हुए किसी भी विभाग/कार्यालय द्वारा किसी भी अनुसूचित जाति/अनुसूचित आदिम जाति के कर्मचारियों को तब तक अधिशेष घोषित किए जाने का प्रश्न नहीं उठता जब तक कि सम्बन्धित ग्रेड / कांडर में उनके लिए निर्धारित अनुपात के अनुसार उनकी संख्या पूरी न हो।

देश की सभी भाषाओं के लिये वैकल्पिक

(क) क्या देश के प्रथम प्रधान मंत्री श्री जवाहरलाल नेहरू, ने उस समय श्रीनगर में हुए मुख्य मंत्री सम्मेलन में देवनागरी लिपि को देश की सभी भाषाओं की वैकल्पिक लिपि बनाने का सुझाव दिया था जिस का सर्व-सम्मति से समर्थन किया गया था ;

(ख) क्या इस दिशा में अनुकूल वातावरण बनाने के लिए सरकार ने कोई विशेष कदम उठाए हैं; और

(ग) यदि हाँ, तो सरकार द्वारा अब तक किए गए प्रयासों के क्या परिणाम रहे हैं ?

गृह मंत्रालय और कानून विभाग में राज्य मंत्री (श्री राम लाल मिश्रा) :

2019 LS-4.

(क) अगस्त, 1961 में हुए मुख्य मंत्रियों के सम्मेलन में एक सिफारिश की गई थी कि एक समान लिपि भारत की विभिन्न भाषाओं के बीच एक शक्तिशाली सम्पर्क लिपि होगी और इस प्रकार एकता लाने के सम्बन्ध में बड़ी सहायक होगी। भारत में इस प्रकार की समान लिपि वर्तमान परिस्थितियों में केवल देवनागरी ही हो सकती है। जबकि निकट भविष्य में एक समान लिपि अपनाना कठिन हो सकता है, तो भी इस उद्देश्य को ध्यान रखना चाहिए और कार्रवाई करनी चाहिये।

(ख) उपरोक्त सिफारिश के अनुसरण में निम्नलिखित कार्यवाहियों की गई हैं :

(i) विभिन्न आधुनिक भारतीय भाषाओं में विशेष ध्वनियों पर सावधानी पूर्वक अध्ययन किया गया है ; और इस पर आधारित उप-युक्त चिन्ह-स्वरभेद चिन्ह देवनागरी लिपि में, जिसे अब 'परिवर्धित देवनागरी' के रूप में जाना जाता है, जोड़ दिये गये हैं। इस संशोधित लिपि की एक पुस्तिका प्रकाशित की गई थी और इसे सभी राज्य सरकारों, विश्वविद्यालयों तथा अन्य संस्थाओं को व्यापक रूप से परिचालित किया गया था।

(ii) शिक्षा तथा समाज कल्याण मंत्रालय ने केन्द्रीय हिन्दी निदेशालय के माध्यम से परिवर्धित देवनागरी लिपि का प्रयोग करते हुए क्षेत्रीय भाषाओं में कविता की कुछ पुस्तकें निकाली हैं।

(iii) उपरोक्त के अतिरिक्त, भारत सरकार ने हिन्दी में अनुवाद के साथ देवनागरी लिपि में क्षेत्रीय भाषाओं में पुस्तकों के प्रकाशन के लिए स्वैच्छिक संगठनों को वित्तीय सहायता देने के लिए भी व्यवस्था की है।

(iv) देशभर में देवनागरी लिपि को लोकप्रिय बनाने के लिए एक दृढ़ नीति अपनाया गया है।

(ग) इन उपायों के परिणाम सम्बन्धित राज्य सरकारों से मालूम किये जा रहे हैं।

Request for fixation of Reserved Quota for Scheduled Castes/Tribes in Appointment of Vice-Principal in Delhi Higher Secondary Schools through U.P.S.C.

5105. SHRI AMBESH: Will the PRIME MINISTER be pleased to state:

(a) whether the Chairman of the Union Public Service Commission has received a complaint from the General Secretary, Delhi Scheduled Castes and Scheduled Tribes Association in respect of the fixation of reserved quota for the Scheduled Castes and Scheduled Tribes in the appointments of Vice-Principals in the Higher Secondary Schools in Delhi Administration against the 100 per cent promotion on the basis of seniority in the Department;

(b) the action taken on the above request; and

(c) the reasons of giving approval by Union Public Service Commission for appointments made previously by the Delhi Administration against the rules and regulations prescribed by the Minister of Home Affairs?

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS AND IN THE DEPARTMENT OF PERSONNEL: (SHRI RAM NIWAS MIR-DHA): (a) and (b). The Union Public Service Commission received a letter from the General Secretary, Scheduled Castes/Scheduled Tribes Teachers' Association, Delhi to the effect that vacancies of Vice-Principals in the Delhi Administration should be filled 50 per cent by direct recruitment and 50 per cent by seniority so that Scheduled Castes could get 15 per cent reservation against the direct recruitment quota. According to the statutory Recruitment Rules, the posts of Vice-Principal are to be filled 100 per cent by promotion

from amongst (i) Post Graduate teachers with 5 years service in the Grade (50 per cent); (ii) Assistant District Inspectors of Schools/Assistant Social Education Officers with 7 years service in the Grade (10 per cent); and (iii) Trained Graduate Teachers with 10 years service in the Grade (40 per cent). No action can be taken by the Union Public Service Commission on the request made by the General Secretary, Scheduled Castes/Scheduled Tribes Teachers' Association, Delhi to change the method of recruitment, because before the request of the Association is considered, it is necessary to amend the Recruitment Rules. The recruitment rules in this case were framed in consultation with the Union Public Service Commission and notified on 1st June, 1968. While framing the recruitment rules of service due care is taken, *inter alia*, to provide reasonable prospects of promotion to the persons in the lower grade(s) and also to ensure that the posts in the higher grade are filled by persons of the requisite qualifications and experience. All these factors were taken into consideration while finalising the recruitment rules in this case, and it is not considered advisable to amend those rules at this stage. However, according to the orders issued by the Department of Personnel in O.M. No. 27/271-Est(SCT), dated the 27th November, 1972, reservation for Scheduled Castes and Scheduled Tribes has also been provided in posts filled by promotion on the basis of seniority-cum-fitness.

(c) The reference is perhaps to the vacancies in the grade of Vice-Principals which arose consequent on the appointment of the regular incumbents in this grade to the posts of Principals, Government Higher Secondary Schools, which were filled *ad hoc* basis. The Commission had agreed to the appointment of officers as Vice-Principals, Government Higher Secondary Schools on an *ad hoc* basis and not on a regular basis for a specified period till the posts of

Vice-Principals were filled on a regular basis in accordance with the Recruitment Rules.

THE DEPUTY MINISTER IN THE MINISTRY OF INDUSTRIAL DEVELOPMENT (SHRI SIDDHESHWAR PRASAD): (a) An Import licence for Rs. 4 lakhs for import of raw materials was issued to M/s. (a) the names of the Branches of foreign companies which are operating in India in priority sector along with the names of countries and remittances made abroad from 1968 to 1971; and

(b) the names of Branches of foreign Companies operating in India in non-priority, non-essential sector along with the names of countries and their remittances abroad from 1968 to 1971?

THE DEPUTY MINISTER IN THE MINISTRY OF INDUSTRIAL DEVELOPMENT (SHRI SIDDHESHWAR PRASAD): (a) and (b). Branches of foreign companies in India have been historically operating in a wide range of industries. Though certain items are accorded priority in respect of import of capital goods, the foreign companies cannot be strictly divided as priority and non-priority companies, as many of them manufacture more than one item. Remittances attributable to individual products, classed as priority or non-priority, are also difficult to arrive at. The remittances made on account of profits by the branches of foreign companies during the years 1968-69 to 1970-71 are as under:—

Year	(Rs. in lakhs)
1968-69	1714.41 (+)
1969-70	1737.45 (+) and @
1970-71	2046.82 (+).

Note: (+) Out of this, Rs. 580.98 lakhs, Rs. 569.13 lakhs and Rs. 733.17 lakhs during the year 1968-69, 1969-70 and 1970-71 respectively represent the amount transferred on account of "Gross Remuneration", which includes net profits, depreciation, tax provision and transfers from reserves.

The names of these 156 Indian branches of foreign companies were given in a statement laid on the Table of the Rajya Sabha by the Minister of Finance in answer to Unstarred Question No. 561 on the 23rd May, 1972.

(a) how 'Orange Special' was sold in Calcutta by Pure Drinks till February, 1971, when they did not produce any "Orange Special" concentrate from 1969 to 1971;

(b) the reasons why an Indian product viz. Orange Special was stopped to facilitate Fanta enter the Indian market;

(c) whether a foreign brand name was allowed to kill Indian brand name and whether it is against our policy of self reliance; and

(d) the value of the sale of "Orange Special" during last three years?

THE DEPUTY MINISTER IN THE MINISTRY OF INDUSTRIAL DEVELOPMENT (SHRI SIDDHESHWAR PRASAD): (a) and (b). Messrs Pure Drinks had not been themselves manufacturing the concentrate for "Orange Special". They were, however, making the soft drink, 'Orange Special' by purchasing the ingredients for the concentrate from different indigenous sources. With the shifting of the source of supply and purchase instead of 'Fanta' flavour from M/s. Coca-Cola.

@ Out of this, Rs. 33.49 lakhs during the year 1969-70 represents the amount deductible from profits transferred earlier adjusted (as receivable) against remittable balances.

Export Corporation, which is also produced in the country although with a small import content, Fanta drink was marketed by M/s. Pure Drinks.

(c) It has been Government's policy to exploit national resources and become self-reliant. Necessary research for development of flavours etc. is being sponsored through the Central Food Technological Research Institute, Mysore.

(d) Such sales figures are not maintained by Government.

A copy of the article contributed by the Minister of State in the Ministry of Information and Broadcasting to the October issue of the WORKING JOURNALIST, journal of the Indian Federation of Working Journalists and of the editorial published in the same issue is laid on the Table of the House. [Placed in Library. See No. LT-4096/72].

Expansion of Hindustan Photo Films Mfg. Co.

5121. SHRI RAM BHAGAT PASWAN: Will the Minister of INDUSTRIAL DEVELOPMENT AND SCIENCE AND TECHNOLOGY be pleased to state.

(a) whether expansion programme of the Hindustan Photo Films Mfg. Co. is underway; and

(b) if so, the justification for such an expansion in view of the fact that 50 per cent of its present capacity remains still un-utilised?

THE DEPUTY MINISTER IN THE MINISTRY OF INDUSTRIAL DEVELOPMENT (SHRI SIDDHESHWAR PRASAD): (a) and (b). During the year 1971-72 M/s. Hindustan Photo Film Mfg. Co. Ltd., have achieved a capacity utilisation of 54 per cent. With the various steps taken to overcome the technical problems and for improving managerial efficiency, the utilisation of capacity has been steadily improving and it is expected to be substantially higher during 1972-73. They have presently an installed capacity of 1.0 m. sq. m. for the manufacture of X-ray films and their production during the current year is estimated at 0.689 m.sq.m. As the demand for X-ray films at the end of the Fifth Five Year Plan is estimated at 5.0 m.sq.m. per annum, HPF have initiated proposals for expansion of their capacity for the manufacture of X-ray Film.

औद्योगिक विकास मंत्रालय में उपमंत्री (श्री सिद्धेश्वर प्रसाद) (क) से (घ). दक्षिण बिहार से उत्तर बिहार औद्योगिक दृष्टि से अपेक्षाकृत अधिक पिछड़ा हुआ है। औद्योगिक दृष्टि से इसके पिछड़े होने के कारण बाढ़ का बार बार आना, अवस्थापना सुविधाओं का अभाव तथा विशेषकर डेरी विकास, वस्त्र उद्योग और आधुनिक कृषि पर आधारित लघु उद्योगों सम्बन्धी औद्योगिक विभव का विदोहन न किया जा सकता है। यद्यपि राज्य सरकार को इस सम्बन्ध में विशेष रूप से नहीं कहा गया है फिर भी उत्तर बिहार कृषि, सिंचाई और ग्रामीण विद्युतीकरण पर आने वाले नियोजित व्यय का अधिकांश भाग पहले से ही प्राप्त कर रहा है।

ट्रैक्टर के मूल्य में वृद्धि

5134. श्री लालजी भाई : क्या औद्योगिक विकास मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या दिनांक एक दिसम्बर, 1972 के नवभारत टाइम्स में छपे समाचार के अनुसार हिन्दुस्तान और 'एसकोर्ट्स' ट्रैक्टरों की कीमतें पिछले वित्तीय वर्ष में दो बार बढ़ाई गईं जिस के कारण किसान ट्रैक्टर खरीदने में संकोच करने लगे हैं ;

(ख) क्या पचास हार्स पावर के "हिन्दुस्तान" ट्रैक्टर की कीमत सितम्बर, 1971 में 24,900 रुपये से बढ़ कर फरवरी, 1972 में 32,900 रु० हो गई है और इसी प्रकार 'एसकोर्ट्स' ट्रैक्टर की कीमत 19,930 रु० से बढ़कर 25,200 रु० हो गई है; और

(ग) यदि हां, तो किसानों की क्रय-शक्ति से बाहर इस मूल्य वृद्धि के क्या कारण हैं और ट्रैक्टरों की कीमतों में कमी करने के लिए सरकार क्या कार्यवाही कर रही है ?

औद्योगिक विकास मंत्रालय में उपमंत्री (श्री सिद्धेश्वर प्रसाद): (क) से (ग): ट्रैक्टरों के विषय मूल्य औद्योगिक लागत तथा मूल्य ब्यूरो द्वारा लागत की विस्तृत

जांच करने के बाद की गई सिफारिशों पर सितम्बर, 1971 में बढ़ाये गये थे। दूर ने ट्रैक्टर निर्माताओं द्वारा प्रस्तुत किये गये अभ्यावेदनों को ध्यान में रखकर पुनः जांच की एवं फरवरी, 1972 में फिर मूल्य बढ़ाये गये थे। प्रश्न के भाग (ख) में दिये गये हिन्दुस्तान 50 ट्रैक्टर तथा एस्कोर्ट ट्रैक्टर के मूल्यों के आंकड़े सही हैं।

विक्रय-मूल्य में वृद्धि के निम्नलिखित कारण हैं :—

- (1) देशी ट्रैक्टर बनाने में काम आने वाले आयातित पुर्जों की कीमत बढ़ जाना।
- (2) देशी कच्चे माल तथा खरीदे गये पुर्जों की कीमतों में वृद्धि;
- (3) सीधे मजदूरों की मजदूरी तथा ऊपरी खर्चों का बढ़ जाना (इसमें निरीक्षणकारी श्रमिकों पर होने वाला व्यय भी सम्मिलित है), बेतन-वृद्धि तथा मंहगाई भत्ते आदि का बढ़ जाना;
- (4) आयातित पुर्जों पर सीमा-शुल्क तथा तैयार ट्रैक्टरों पर उत्पादन शुल्क लगाया जाना।

ट्रैक्टरों की बिक्री में कमी मुख्य रूप से निम्नलिखित कारणों से आई है :—

- (1) वित्तीय संस्थानों द्वारा ऋण सुविधाओं में कड़ाई बरतना तथा ऋणों की मंजूरी में विलम्ब होना;
- (2) प्राप्त भूमि सीमा विधान से उत्पन्न अनिश्चय की स्थिति; तथा
- (3) कृषि-उद्योग नियमों द्वारा किसान-खरीद की

सुविधाओं को समाप्त कर दिया जाना।

ट्रैक्टर निर्माताओं को ट्रैक्टरों का उत्पादन बढ़ाने हेतु प्रत्येक संभव सहायता दी जाती है। आशा है कि उत्पादन में वृद्धि होने तथा ट्रैक्टर-निर्माताओं के बीच परस्पर प्रतिद्वंद्विता होने से उनके मूल्य वृद्धिसंगत स्तर पर आ जायेंगे।

**Demonstration by Shiv Sena men
outside Air India Office**

5137. SHRI D. K. PANDA: Will the
Minister of HOME AFFAIRS be
pleased to state:

(a) whether Government's atten-
tion has been drawn to the news that
Shiv Sena staged a violent demonst-
ration in front of the Air India Office,
Bombay demanding "Jobs only for
Marathi-speaking people"; and

(b) If so, the facts thereof and the
reaction of Government thereto?

3019 LS-5.

THE DEPUTY MINISTER IN THE
MINISTRY OF HOME AFFAIRS
(SHRI F. H. MOHSIN): (a) and (b).
Government have seen a report that
had appeared in the *Statesman* dated
20th November, 1972, regarding an
alleged incident involving the Shiv
Sena in Bombay. According to the
information received from the Gov-
ernment of Maharashtra on 16th No-
vember, 1972, the Shiv Sena organised
a procession to the Air India Office at
Bombay to protest against the alleged
attitude of the Air India authorities
in not giving preference to Maha-
rashtrians in the matter of recruit-
ment. The procession was stopped at
some distance from the Air India
building. The officers of the Air India
agreed to meet a delegation consisting
of Shri Bal Thakre and six others.
The delegation was taken by the Air
India officers to the office of the
Secretary, Air India, on the 21st floor
of the building. The delegation
wanted to discuss matters with the
Chief Personnel Manager, who was
not available in that building. He
came after about two hours and went
to the room inside the building where
the members of the delegation were
waiting. It is alleged that he was
manhandled by some members of the
Shiv Sena and given fist blows, outside

DEVELOPMENT AND SCIENCE
AND TECHNOLOGY be pleased to state:

(a) the number of firms which ap-
plied for Licences for setting up in-
dustries in Gujarat during 1970-71 and
1971-72;

(b) how many have been permitted; and

(c) the number of applications rejected and the reasons therefor?

THE DEPUTY MINISTER IN THE MINISTRY OF INDUSTRIAL DEVELOPMENT (SHRI SIDDHESHWAR PRASAD): (a) to (c). Between 1-1-1970 and 30-9-1972, 406 applications for industrial licences were received for setting up new undertakings in the State of Gujarat, against which 58 letters of intent and 8 industrial licences have been issued upto 30-11-72. 95 applications have been rejected for various reasons as were appropriate in each case, as for example reservation for the small scale sector; scarcity of raw materials; no scope for creation of additional capacity; disproportionately heavy expenditure on the import of capital goods; public sector angle; exemption under or non-applicability of the Industries (D&B) Act 1951 etc.

5139. SHRI BHOGENDRA JHA: Will the Minister of HOME AFFAIRS be pleased to state:

5140. SHRI CHIRANJIB JHA: Will the Minister of COMMUNICATIONS be pleased to state:

(a) whether his Ministry has discontinued purchase of Khadi cloth; and

(b) if so, the reasons therefor?

THE MINISTER OF COMMUNICATIONS (SHRI H. N. BAHUGUNA): (a) and (b). The khadi cloth is being used for the Ministry and the monitoring Organisations. The mill-made cloth has, however, been allowed to be used as a purely *ad hoc* measure for fabrication of uniforms for the P. & T. and OCS staff. This has been done due to persistent demand from the beneficiaries that the uniforms made out of Khadi cloth get quickly soiled and do not stand the strain of hard wear besides being less durable.

Payment of Salary and Allowances to the Employees whose Services were terminated after 1968 Strike

5141. SHRI INDRAJIT GUPTA: Will the PRIME MINISTER be pleased to state:

(a) whether a number of Central Government employees, particularly of the P. & T. and Railway Departments were arrested and dismissed in connection with the September 1968 strike, have subsequently been reinstated with pay and allowances for the period they were out of employment;

(b) if so, the reasons for not giving equally favourable consideration to those employees whose services were terminated but who were not arrested nor proceeded against departmentally; and

(c) whether this later category will also now be granted their pay and allowances for the period they were out of employment?

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS AND IN THE DEPARTMENT OF PERSONNEL (SHRI RAM NIWAS MIRDHA):

(a) to (c): Though no exact information is readily available about the number of Central Government employees particularly in the P. & T. Department and the Railways who might have been arrested and dismissed in connection with their participation in the last strike of September, 1968 and might have been re-instated later with pay and allowances, the general position in this regard is as follows:—

In the case of employees dismissed from service, on their re-instatement in service as a result of appeal or review or as a result of Court decisions, the competent authority, who orders such reinstatement, is empowered to determine, after taking into account the merits and circumstances of each case and the orders of the court, if any, in this regard, the quantum of pay and allowances to be allowed to each such employee for the period intervening between the date of dismissal and reinstatement.

In regard to temporary Government employees, under Rule 5(1) of the Central Civil Services (Temporary Service) Rules, 1965, the services of a temporary Government servant are liable to termination at any time by a notice of one month given either by the Government servant or by the appointing authority. If, however, the services of such an employee are terminated immediately, he is to be paid a sum equivalent to the amount of his pay plus allowances for the period of notice at the same rates at which he was drawing them immediately before the termination of his service, or as the case may be, for the period by which such notice falls short of one month. In the case of temporary employees, whose services had been terminated at the time of the Central Government employees' strike in September, 1968, Government had, as a measure of liberalisation, decided that such employees, should be taken back

in service without prejudice to their liability for appropriate disciplinary Government servants after the termination of their services, the question of allowing them pay and allowances for the intervening period prior to their being taken back in service could these employees had ceased to be action under the service rules. As not arise.

THE DEPUTY MINISTER IN THE MINISTRY OF INFORMATION AND BROADCASTING (SHRI DHARAM BIR SINHA): (a) and (b): Public undertakings make their own arrangements for releasing advertisements to newspapers to meet their publicity requirements. The information sought is not available with the Ministry of Information and Broadcasting since the functioning of these enterprises comes under various Ministries.

Public undertakings have been advised to make increasing use of small and medium newspapers for their advertising.

(a) On the basis of weighted mean of relevant economic indicators the districts of Bidar, Gulbarga, Raichur and Bijapur have been classed as least developed, Bihar being the most backward district. Efforts are being made in all sectors to bring the backward areas on par with the rest of the State.

Further, a subsidy upto Rs. 5 lakhs would be given by the Central Government on the fixed capital investment of new units to be started in the district of Raichur, Dharwar and Mysore. In these backward districts the down payment for land allotted by the Mysore State Industrial Areas Development Board, will only be 10 per cent as against 20 per cent in the case of other districts, sales-tax will be exempted in the case of capital goods purchased within the State and the Mysore State Finance Corporation will accept equitable mortgages in cases not covered by Government exemption from stamp duty.

A demand projection study conducted by All India Radio in 1969 had assessed the total requirement of TV sets for the period up to the end of the Fourth Five Year Plan as 3.7 lakhs sets, for TV sets priced at Rs. 2,000 which is the current price range. To meet the demand an annual capacity of over 2.8 lakh sets has been sanctioned. THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS AND IN THE DEPARTMENT OF PERSONNEL (SHRI RAM NIWAS MIRDHA): (a) and (b). The decisions taken so far on this report are included in the statement which is proposed to be laid on the Table of the House on the 20th December, 1972. The ARC's recommendation referred to by the Hon. Member is contained in its report on "The Machinery of the Government of India and its Procedures of work" and reads as follows:—

"There should be set up a council on administrative reforms to advise the central reforms agency on the planning of its programme of work, to review progress, to help induct fresh thinking into its working, and to co-ordinate the activities of the different professional organisations engaged in research on problems of public management. The council should consist of eight members, drawn from Members of Parliament, experienced administrators and eminent scholars interested in public administration. It may be presided over by the Deputy Prime Minister."

The Government's decision on this recommendation is indicated below:—

"The ARC has conducted a major probe into administration and put forward a number of new ideas in its various reports. What is now required

at least for some time to come, is assimilation of the ideas already received. Government, therefore, feel that it would be premature to set up the council proposed by the ARC".

This decision was included in the statements laid on the Table of the House on 11th August, 1971 and 17th November, 1971, respectively.

used in the TV sets. BEL either im-
port the picture tube or the glass

envelope which is then made into a picture tube by BIL; in either case the import involved is about Rs. 100 per piece. Government are making efforts to reduce this import content progressively, by setting up indigenous manufacture of the imported components, including the glass envelopes. For the manufacture of 'deflection components' which constitute a significant part of the import content, industrial licence has been granted to one firm in the organised sector and a letter of intent has been issued to a unit in the public sector. In addition, twenty five units in the small scale sector have been given approval for the manufacture of TV components.

Two applications for the manufacture of TV components were referred to the Licensing Committee during the last six months; one of these was from a public sector unit to whom a letter of intent has been given and the other was from a firm with foreign equity which was rejected. Four other applications are being processed.

A technical panel has examined the question relating to the manufacture of glass shells required for TV picture tubes. Its report is under consideration. This manufacture will become necessary when the production of TV sets becomes large during the 5th plan period running into many lakhs per annum.

In granting licences/approvals preference is given to Indian entrepreneurs who possess requisite technical background and can provide the necessary technical input required for the manufacture of quality products.

SOME HON. MEMBERS rose—

MR. SPEAKER: I am not calling any Member.

SHRI PILOO MODY (Godhra): Sir, I had written to you about a matter concerning the breach of privilege against Dr. Karan Singh. I have documents here to show that the Minister has misled the House on several points. You have not permitted me to raise the issue....

MR. SPEAKER: I have referred it to the Minister.

SHRI PILOO MODY: I want to know what I have to do. Have I to wait for a reply?

MR. SPEAKER: You have to wait.

SHRI PILOO MODY: The other thing that I wanted to raise is that there is a very serious drought situation in Gujarat which we all know

and I have tabled a Calling Attention Notice on it. I have not been informed that it has not been admitted....

MR. SPEAKER: You will be informed if it is admitted.

SHRI PILOO MODY: I think, I should be informed if it is not admitted. If it is admitted, I will find out from my papers.

MR. SPEAKER: We allowed a discussion on drought.... (Interruptions) I have not called any Member. (Interruptions)

जिस सदस्य को मैंने काल नहीं किया है, वह बड़े न हों।

Nothing will go on record. They are all speaking without my permission. (Interruptions)*

I am not listening to anybody.

जिस मेम्बर को मैंने काल नहीं किया है, अगर वह बोलेंगे, तो वह रिकार्ड पर नहीं जायेगा।

SHRI DINEN BHATTACHARYYA (Serampore): We demanded in the House that a parliamentary Delegation should be sent to Assam. It was not accepted by the Government. Mr. Pant himself went there. We want a statement on the situation in Assam after Mr. Pant's visit.

MR. SPEAKER: He will make a statement.

श्री प्रदल बिहारी बाजपेयी (मालियर): अध्यक्ष महोदय, आप आसाम की स्थिति के बारे में एक ध्यानाकर्षण प्रस्ताव स्वीकार कर लीजिए। वहाँ अभी तक स्थिति सामान्य नहीं है। जब पन्त जी वहाँ गये थे, तो मैं भी वहाँ था। वहाँ अभी तक इकानोमिक बायकाट हो रहा है और विद्यार्थियों में असुरक्षा की भावना है। पन्त जी की यात्रा का प्रच्छा परिणाम हुआ है, लेकिन अभी कुछ और करने की जरूरत है। मैं चाहूँगा कि श्री पन्त इस बारे में बक्तव्य दें।

अध्यक्ष महोदय: जब कार्लिम स्टेशन नोटिस आवेगा, तो उन का स्टेटमेंट होगा।

*Not recorded.

...(Interruptions) I am not listening to anything.

Will you please sit down—all of you?... (Interruptions) It is to come up tomorrow.

SHRI S. M. BANERJEE (Kanpur): I wrote to you a letter also...

MR. SPEAKER: I am sorry I am not listening to any Member. I am asking you to please sit down.... (Interruptions) All of you are speaking at the same time.

Nothing will go on record unless I call you.

SHRI S. M. BANERJEE: Why don't you give us a chance for two minutes?

MR. SPEAKER: I think we have disposed it of—Mr. Piloo Mody.

SHRI PILOO MODY: Not completely, Sir. You will never be able to dispose of with me completely.

MR. SPEAKER: Partially we have disposed of and, you are enough not to be disposed of in a single transaction.

SHRI PILOO MODY: One little point, Sir. we had two days without any call attention. There are so many problems that we want to discuss.

MR. SPEAKER: All right. I allow two of you to say whether there any call attention motions.... (Interruptions)

SHRI PILOO MODY: This, at any rate, was a very innocuous one, nothing that will embarrass the Government. They have arbitrarily cut off the food supplies to Gujarat....

MR. SPEAKER: I am not here to listen to arguments whether to admit a call attention or not.

SHRI PILOO MODY: Two of us cannot talk at the same time. If I may be permitted to say only one sentence, I will say that the food supplies to Gujarat have been arbitrarily cut off without any reasons or anything, in an area where there is drought and I

[Shri Piloo Mody]
had asked for a call attention to discuss why this arbitrary cut-off of food supplies when there is drought there. We do not have any statement, we do not have any reason.

MR. SPEAKER: Now this is not one sentence.

SHRI PILOO MODY: That is why it was necessary to discuss this call attention.

SEVERAL HON. MEMBERS rose—

SHRI K. S. CHAVDA (Patna): Please allow Mr. Piloo Mody's call attention regarding Gujarat.

SHRI PILOO MODY: Arbitrarily, the Food Minister makes an announcement that the supplies will be cut short.

MR. SPEAKER: I have already said that the Minister will either make a statement or we can admit a call attention motion.

SHRI SHYAMNANDAN MISHRA: (Begusarai): I have written to you about two other matters...

MR. SPEAKER: I have not allowed....

SHRI SHYAMNANDAN MISHRA: You have not, but it is a matter of great constitutional importance that the Comptroller and Auditor General is being involved in giving a clearance certificate to the Chief Minister of Haryana....

MR. SPEAKER: Please do not bring it up every day.

SHRI SHYAMNANDAN MISHRA: We are very much concerned.

MR. SPEAKER: No, please.

SHRI SHYAMNANDAN MISHRA: Please listen to me. This is a matter of the gravest constitutional importance. Here is the Chief Secretary of Haryana writing to the Comptroller and Auditor-General to ditto whatever the Vigilance Department headed

by the DIG of Police has done in that matter. Now, I have got...

MR. SPEAKER: I am not allowing anything on it.

SHRI SHYAMNANDAN MISHRA: Can we allow the Auditor-General to go out of bounds of his duty? That is the main question.

MR. SPEAKER: There is nothing before this House so far as this matter is concerned.

SHRI SHYAMNANDAN MISHRA: The expenditure on the administrative set up of the Comptroller & Auditor-General is charged on the Consolidated Fund of India, and, we, the Members of Parliament, have to look into it, for here are limits to the competence of the Comptroller and Auditor-General to go into these matters.

MR. SPEAKER: I am not allowing it.

SHRI SHYAMNANDAN MISHRA: Any Chair anywhere would have taken the most serious notice of the matter that I am raising before you..

MR. SPEAKER: If some inquiry is going on somewhere, how do we come in?

SHRI SHYAMNANDAN MISHRA: Why do you not listen to me, to the point of order I am raising just now?

MR. SPEAKER: There is no point of order.

SHRI SHYAMNANDAN MISHRA: Have you gone through the letter?

MR. SPEAKER: How can I.... (Interruptions)

SHRI SHYAMNANDAN MISHRA: The House has a duty in this matter. The point is: whether the C & A G can be allowed to go out of the limits of his competence and duty. Here the House is involved.

MR. SPEAKER: There is no subject before the House. You cannot get up

abruptly and say that this is a matter for the House.

SHRI SHYAMNANDAN MISHRA: You kindly listen. We have spent some time. We have also a duty as Members of Parliament...

MR. SPEAKER: There is no matter before the House....(Interruptions) I am sorry I cannot allow it.

SHRI SHYAMNANDAN MISHRA: Here is a letter written by him.

MR. SPEAKER: I have no notice about it. You abruptly get up. I cannot allow matters like this when somebody gets up like this. (Interruption) No notice was given.

SHRI SHYAMNANDAN MISHRA: I wrote to you.

MR. SPEAKER: It is not before me.

SHRI SHYAMNANDAN MISHRA: I have written to you about the great impropriety of involving the Comptroller and Auditor General.

MR. SPEAKER: You are shouting at the top of your voice. I am not going to be cowed down like this....

SHRI SHYAMNANDAN MISHRA: I have a duty as a Member of Parliament....

MR. SPEAKER: No, you cannot do this; I cannot be coerced like this.

SHRI SHYAMNANDAN MISHRA: I will go on doing this.

MR. SPEAKER: If you go on doing it, we have also certain remedies. Don't compel me to use certain remedies.

SHRI SHYAMNANDAN MISHRA: Why do you use such language, Sir?

MR. SPEAKER: Behave properly, I tell you.

SHRI JYOTIRMOY BOSU (Diamond Harbour): You are shielding the Government.

MR. SPEAKER: I may tell the House, I am not going to hear this

type of language. Now, I put it to the House. Am I shielding the Government? If I am not shielding the Government, in the opinion of the House, I will have to take action against the Member. I put it to the House. I cannot be coerced like this.

SHRI INDRAJIT GUPTA (Alipore): If it is your opinion that Mr. Mishra has not followed the correct procedure, you can very well ask him to give the document and you can look into it. If necessary, he can bring it up here later.

MR. SPEAKER: If he wanted to quote he should have sent it.

SHRI SHYAMNANDAN MISHRA: I have got every right. You do not even permit a Member to make certain points for your consideration.

श्री अटल बिहारी वाजपेयी : हरियाणा के मुख्य मंत्री के खिलाफ गंभीर आरोप लगाए गए हैं। उन की जांच करने के बजाय अब यह कोमिश हो रही है...

अध्यक्ष महोदय : हरियाणा के मुख्य मंत्री के खिलाफ आरोप लगाए गए हैं तो इस हाउस ने थोड़े ही डिस्कस करना है। बेयर शुड बी ए प्रोसीजर। अगर आप मुख्य मंत्रियों के खिलाफ चार्ज एक दफा यहां लाएंगे, एक के खिलाफ लाएंगे तो दूसरे के खिलाफ भी आएंगे यहां.. (व्यवधान)...

If this goes on, the House will have to evolve a procedure. I will ask the House to evolve a procedure. But, as far as the rules are concerned, there is no provision, we cannot discuss such matters. Hon. Members cannot just bring up anything that they like and say that we are concerned with it....

SHRI SHYAMNANDAN MISHRA: You have not even allowed me to

[SHRI SHYAMANANDAN MISHRA:]

make the point fully for your consideration. You do not exercise the necessary patience. That is our difficulty.

MR. SPEAKER: I know that the hon. Member is putting me to the limit of my patience. I know how much patience he has got....

SHRI SHYAMNANDAN MISHRA: I have patience. Therefore, we are putting up with all the injustices to which we are subjected.

SHRI A. K. GOPALAN (Palghat): It is very difficult for a person like me to understand this. When a Member of this House says that he has sent a thing to you and you say that you have not got it, at least you must see that you get it and then give a reply tomorrow.

MR. SPEAKER: He can send it to me. Actually, he should have sent it to me.

SHRI SHYAMNANDAN MISHRA: That would have ended the matter.

MR. SPEAKER: He should have sent it to me.

SHRI SHYAMNANDAN MISHRA: How many documents do you want me to send you? I have got a sheaf of documents.

MR. SPEAKER: I cannot allow any discussion on an individual here with whom the House is not concerned.

SHRI SEZHIYAN (Kumbakonam): Shri Shyamnandan Mishra has raised a very important point. He has referred to a letter written to the Auditor-General. It is for you to decide whether it is proper or not.

MR. SPEAKER: I shall go through the document and find out. The proper procedure that we follow in such cases where the Auditor-General or somebody like that is concerned is this; if the hon. Member could have given me advance information, we could have enquired from him....

SHRI SEZHIYAN: Now, you can take the document and enquire.

SHRI SHYAMNANDAN MISHRA: The letter is with me, and I am not raising other points just now. I am not even referring to the point that certain matters had been referred to four Cabinet colleagues by the Prime Minister and she has given a verdict on the matter. To this we take serious objection though not raising all that just now. But I am only raising a limited constitutional point for the moment. I am going to raise that point tomorrow. I would like to know why the matter was not referred to the Attorney-General and why it was referred to four Cabinet colleagues, because there are very serious charges.

DR. KAILAS (Bombay South): I would submit that the expression and words used by Shri Jyotirmoy Bosu against you, Sir, may be expunged.

MR. SPEAKER: I shall have to get the opinion of the House and then take action. It has become a habit with him. I am not going to tolerate it every day.

SHRI SHYAMNANDAN MISHRA: I have another point to raise about the satyagrahis....

MR. SPEAKER: I have not allowed that. That was something which happened in a State.

SHRI SHYAMNANDAN MISHRA: Please hear me, Sir. It relates to satyagraha....

MR. SPEAKER: Because it is a State matter, I am not going to allow it.

SHRI SHYAMNANDAN MISHRA: The satyagraha is against the Central Government. Do you want the satyagrahis to be treated as non-political prisoners?...

MR. SPEAKER: I am not allowing it. So many satyagrahas are taking place.

SHRI SHYAMNANDAN MISHRA: An M.P. and some MLAs are also involved. You yourself had read out the other day an intimation regarding the arrest of a Member of Parliament....

MR. SPEAKER: I have not allowed it. I am not calling the hon. Member to raise this.

SHRI SHYAMNANDAN MISHRA: This is a matter which ought to receive your consideration. It is this kind of attitude which exasperates us.

SHRI S. M. BANERJEE: Parliament is going to be adjourned on the 22nd instant. There are hardly two days left. I have already written to you regarding one serious and very important matter. Before the session ends, I want to have a statement from the Finance Minister regarding the Pay Commission's Report. You may ask the hon. Finance Minister to make a statement as to when the Pay Commission is going to submit its report..

SHRI SHYAMNANDAN MISHRA: You are giving so much time, to him, but you are denying me of the same right....

SHRI S. M. BANERJEE: You may give even two hours to Shri Shyamnandan Mishra, if you like. I have no quarrel over that.

SHRI JYOTIRMOY BOSU: The other day, you expelled me for saying 'double standard'.

SHRI SHYAMNANDAN MISHRA: I do not mind your giving time to the hon'ble Member, Shri S. M. Banerjee. But I also demand the same consideration from you.

SHRI S. M. BANERJEE: I have written to you repeatedly

SHRI JYOTIRMOY BOSU: The House is not being managed properly....

MR. SPEAKER: I am not going to tolerate such remarks from Shri Jyotirmoy Bosu. He did it yesterday. He has repeated it today.

3019 LS—8.

SHRI SHYAMNANDAN MISHRA: What is that remark?

MR. SPEAKER: What did he say?

SHRI JYOTIRMOY BOSU: I said the House is not being managed properly.

MR. SPEAKER: May I know who is responsible for that mismanagement? Should we not take action against that person responsible for it?

SHRI DINEN BHATTACHARYYA: If you put this question, I will say this Government is responsible for this state of affairs. It is their policy which is responsible for all this.

MR. SPEAKER: Do not take undue advantage of my leniency.

SHRI JYOTIRMOY BOSU: You have said something which is not parliamentary, that no remarks of mine will be tolerated by you.

MR. SPEAKER: If you go on doing like this, I will have to take it up with the House and put it before the House which is the master.

SHRI S. M. BANERJEE rose—

MR. SPEAKER: I have told him that it has been sent to the Finance Minister and he will come out with a statement.

SHRI S. M. BANERJEE: He should make a statement before we adjourn.

MR. SPEAKER: I am going to the next item. No more discussion on this. (*Interruptions*).

SHRI G. VISWANATHAN (Wandiwash): The Business Advisory Committee rejected Shri Raj Bahadur's request that time should be allotted for the Mulki Rules Bill. Then how is it being put on the agenda for tomorrow?

SHRI INDRAJIT GUPTA: When was this?

MR. SPEAKER: They have adjusted time among themselves. Time was allotted.

SHRI PILOO MODY: No time was allotted by the Business Advisory Committee for the Mulki Rules Bill. Then how can it come first here?

MR. SPEAKER: Let the House decide whether time should be allotted. This came later on. At that time, it was not before the Business Advisory Committee. Now a Bill was introduced yesterday.

SHRI G. VISWANATHAN: It was not on the agenda.

MR. SPEAKER: The Business Advisory Committee was not seized of it then. I can go before the Committee.

SHRI PILOO MODY: What is happening in this House?

SHRI INDRAJIT GUPTA: A number of items were placed before the Business Advisory Committee by the Minister of Parliamentary Affairs for allocation of time. On that list, there was separately pasted a typed slip later on for the Mulki Rules Bill. At that time, the Bill had not been introduced. It is true that in that meeting different opinions were expressed. Shri Parthasarathy was certainly very emphatic that the Bill should not be brought up and so on. But that does not mean that everybody shared his opinion. Subsequently the Bill has been introduced. Now the question is whether by allotting time for that Bill, which was not before us at that time, any other business which we are very keen to dispose of is not going to be elbowed out. We do not know what is their programme.

MR. SPEAKER: It is for the Minister to look into that. As for this, the House can take a decision on it or it can go to the Business Advisory Committee.

SHRI G. VISWANATHAN: It will be proper to refer it to the Committee.

THE MINISTER OF PARLIAMENTARY AFFAIRS AND SHIPPING AND TRANSPORT (SHRI RAJ BAHADUR):

It may go to the Business Advisory Committee. But in this matter, the Government has to dispose of its business, and it has discretion to select its own business. We may relegate Bills. (*Interruption*). The other legislative programmes might be affected, but we would like to give this the precedence.

MR. SPEAKER: The position is that time was allotted to various Bills and various items. The point raised by Mr. Indrajit Gupta is whether you are going to adjust this within the same time or withdraw some of the business and adjusting it, or you want to have a meeting.

SHRI RAJ BAHADUR: We can withdraw some of the Bills that we initially intended to pass and accommodate this Bill. But we had provided for discussion, one on the University Grants Commission report and the other on the Faridabad College.

SHRI SHYAMNANDAN MISHRA: We cannot settle it across the table here.

MR. SPEAKER: Call a meeting this afternoon, say, at about 4 O'clock. Would it be enough for the Members of the Business Advisory Committee to take this at short notice, as a short notice for the meeting. I am sorry for the short notice of the meeting.

SHRI SAMAR GUHA (Cortai):
rose—

MR. SPEAKER: Now, professor, what is it that is in your mind?

SHRI SAMAR GUHA: Sir, what is in my mind is this. As he rightly pointed out, the discussion of the report of the University Grants Commission was in the list of business for three weeks. Now, it has been shelved somehow or other. As you know, there have been these regional passions. There are many aspects of it. This time, it was in Assam, and it may happen in any other place. Therefore, we were waiting for the

opportunity to discuss the report. It was in the list of business for the last three weeks. It was going on like that. Today it is not there. (*Interruption*).

SHRI R. P. ULAGANAMBI (Vellore): The Pay Commission's report should be submitted immediately. (*Interruption*).

MR. SPEAKER: Order, order. There is nothing now before the House.

SHRI K. S. CHAVDA: Regarding the letter written by me to you on 18th December about the matter, namely, that the hon. Minister of Foreign Trade has given an incorrect information—

MR. SPEAKER: I have no information yet. When it comes, I shall let you know.

SHRI JYOTIRMOY BOSU: Within two minutes, I shall submit one thing. Yesterday, during the zero hour, Mr. Raj Bahadur said that I had moved four motions. I have given notice of a privilege motion; you have turned it down, but I will take it up again. Now, when I read the debate, I am sorry to say that I see there is no mention about that. That shows that the debate has been tampered with. It is a very serious matter. Mr. Raj Bahadur had said clearly that I had moved four motions in this session, and I said I have not moved even one motion.

MR. SPEAKER: Is it not in the proceedings?

SHRI JYOTIRMOY BOSU: It is not in the proceedings. This shows how the proceedings of the House are conducted.

SHRI RAJ BAHADUR: Regarding the allegation made, I have absolutely no hand in this. The tape-recording is there. The tape-record can be played. I do not know what is there in the tape-record. But I only said that Mr. Jyotirmoy Bosu's name is there in four motions.

SEVERAL HON. MEMBERS: No, no.

MR. SPEAKER: Order, please. These are matters where sometimes such things arise; just a slip of the tongue. But do not prolong such matters. What I found was—(*Interruption*)—this. If he said four motions, his name was included in the four motions or that he had moved. I think he has made clear what he has meant. He has made it clear. He immediately met me after that.

SHRI ATAL BIHARI VAJPAYEE: He corrected himself then. The hon. Member says that the record has been tampered with. We would like to hear the tape-record. (*Interruption*).

MR. SPEAKER: Over these things, what he meant was that his name was included in the motions moved.

SHRI JYOTIRMOY BOSU: I am surprised. (*Interruption*).

MR. SPEAKER: Do not be so much over-sensitive. (*Interruption*). I am sorry.

SHRI SEZHIYAN: He said he had moved four motions.

SHRI JYOTIRMOY BOSU: Let the tape be played. If somebody has committed a fraud, let the man be punished. That is my submission. (*Interruption*).

MR. SPEAKER: He said your name was among the motions which were moved.

SHRI JYOTIRMOY BOSU: I have given a privilege motion.

SHRI INDRAJIT GUPTA: I fail to understand why Mr. Raj Bahadur is behaving like this. If he made a statement here which was heard by everybody and which was factually incorrect, he can easily say that he meant something else, which you are now saying.

MR. SPEAKER: He explained to me in my room also.

SHRI SEZHIYAN: He can explain it to the House also.

SHRI RAJ BAHADUR: There is not the slightest thing to say that I can ever tamper with the record or I have anything to do with the tampering of the record. The record is there. I only quoted the rules and made my statement. I never misled the House.

SHRI INDRAJIT GUPTA: To move a resolution is very different from having one's name amongst several other names. He said he moved. That does not appear in the record.

SHRI JYOTIRMOY BOSU: I demand that the tape-recorder be played.

SHRI INDRAJIT GUPTA: May I refer to page 15157? This is what Shri Raj Bahadur has said which has gone into the record:

"Here I may submit that Shri Jyotirmoy Basu who had given notice of such motions has had his name in four such motions, three under rule 193 and one under another. I can read out those motions."

But earlier to this, there had been some exchange here because he had said that he had moved no less than three or four motions. That portion is missing from the record.

SHRI RAJ BAHADUR: I never said it... (*Interruptions*).

MR. SPEAKER: There is a difference between what the Minister says and what the opposition says. The Minister has very emphatically denied it.

SHRI SAMAR GUHA: I am suggesting a solution. Let the tape recorder be played in the Business Advisory Committee room, instead of killing the time of the House. (*Interruption*).

MR. SPEAKER: I have heard what the opposition has got to say and also what Shri Raj Bahadur has to say.

I will see what is the exact position.

SHRI SHYAMNANDAN MISHRA: My humble submission is that the whole perspective goes wrong because the Chair was pleased to expunge certain remarks of the hon. Member later. They were a sequel to some hot exchanges that had taken place earlier. What I am submitting for your consideration is that the hot exchanges took place because certain strong remarks were made by the hon. Member and in exchange the hon. Minister made certain remarks. Here I would not even insist on hearing the tape-recorder; I would not. I would only submit for your consideration whether the whole perspective should not be put right? For anyone reading the records would come to a wrong conclusion about it and he would have a very uncharitable impression about what the hon. Member had said, if you permit the hon. Minister to get away by removing some of his remarks in the way he has done.

SHRI INDRAJIT GUPTA: Sir, you were good enough to say that the remarks made by Shri Jyotirmoy Basu should be expunged. But, along with that, they have expunged even the earlier remarks.

MR. SPEAKER: It is true that I have expunged some remarks. But that did not help Shri Raj Bahadur because, even though I have said "these remarks are expunged", they appeared in the press. Perhaps, it was not verified by the press. I had clearly stated in this very House that words like those will be expunged because such words should not be used. Whatever happened yesterday was very sad. After all, when something happens, more polite language can be used. We should avoid getting heated up all the time. If we have to run parliament, we cannot run this like this, having heated exchanges every day.

SHRI SEZHIYAN: Of course, we know what took place in the House. The proceedings do not show any

portion having been expunged. There is no mark put there to indicate that.

MR. SPEAKER: Now I am passing on to the next item.

SHRI G. VISWANATHAN: What is the decision?

SHRI JYOTIRMOY BOSU: Shri Raj Bahadur has gone by whatever has been recorded in the proceedings. My humble submission to your good self is, because your name has been dragged and the name of the Lok Sabha Secretariat has been involved...

MR. SPEAKER: You need not worry much about my name. If you were not here, no such thing would have happened. Don't be so much worried about myself. Look at this gentleman who is so much worried about me.

SHRI JYOTIRMOY BOSU: Sir, I want the tape-recorder to be heard because your name has been dragged in.

MR. SPEAKER: Don't worry; I will look after myself.

SHRI JYOTIRMOY BOSU: I allege now that Shri Raj Bahadur with the help of the Lok Sabha Secretariat has removed this with a purpose in mind(interruptions)

MR. SPEAKER: You will be held responsible for this statement I will look into it.

SHRI PILOO MODY: I have brought this matter to your notice in the past also. But I would not go into that. I want now to bring here a slightly different matter. I understand that Shri Jyotirmoy Bosu provoked you quite a bit. But it is very unfortunate that you have allowed one member to get under the skin in this fashion which, of course, is human to a great many people. But, then, I have seen you twice today get up and say "I will put it to the House".

MR. SPEAKER: I have to put it, if this goes on; it is a fact.

SHRI PILOO MODY: For the sake of peace, both of us will have to let the other fellow complete his sentence.

MR. SPEAKER: I wish you could learn.

SHRI PILOO MODY: At that time I could out-shout you and I did not complain. Now I have a complaint. When you get up and say "I will now put it to the House", I think you are indulging in very.....

MR. SPEAKER: When it comes to the last resort I have no other way. I tell you, please do not take it that way....(interruptions)

श्री प्रहलद विहारी बाजरेवा : अगर आप स्वयं किसी मेम्बर के खिलाफ कार्य-वाही कर सकते हैं तो फिर यह हाउस में रफ़ेडम कराने की क्या जरूरत है? क्या इन का भी फैसला आप बहुमत के आधार पर करायेंगे।

अध्यक्ष महोदय : अगर हम और आप सब अपनी जगह सही सही समझें तब तो ठीक यहां का काम चल सकता है बाकी अगर ऐसे चलाएंगे तो मुझे भी अपने आप को प्रोटेक्ट करना होगा। यह एक साइडिड नहीं चलेगा।

Now, I pass on to the next item. Papers to be laid. (Interruptions)

SHRI PILOO MODY: Please let me finish. I want to end up by saying this, you are giving evidence to various charges that have been made in this House and you are taking the aid of the ruling party to vote for you against the minority Opposition.

MR. SPEAKER: Don't overdo it. Papers to be laid.

SHRI JYOTIRMOY BOSU: What is your ruling?

MR. SPEAKER: I will examine it.

SHRI JYOTIRMOY BOSU: I want to hear the tape.

MR. SPEAKER: I cannot fix any time-limit.

STATEMENT CORRECTING ANSWERS TO U.S.Q. NO. 2206 AND REVIEW AND ANNUAL REPORT OF INDIAN RARE EARTHS LIMITED, BOMBAY

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS (SHRI K. C. PANT): I beg to lay on the Table—

(1) A statement correcting the answer given on the 29th November, 1972 to Unstarred Question No. 2206 by Shri Hukam Chand Kachwai.

Statement

Unstarred Question No. 2335 which was put on the 29th November, 1972 and the original version of which was in English language, had sought information as to whether the Nagar Tatha Gram Nivesh Adhyadesh had been received from Madhya Pradesh for prior approval of the President and if so, whether approval had been accorded to it. It had been stated in reply to that Question that the Adhyadesh had been received and that approval had been accorded to it. The Hindi version of the Question also referred to the Nagar Tatha Gram Nivesh Adhyadesh and sought the same information as the English version. The Madhya Pradesh Government in their correspondence described this Ordinance in English as

Madhya Pradesh Town and Country Planning Ordinance. The reply given to the Question in Hindi was the same as the reply given to the Question in English. The reply given was factually correct.

2. Unstarred Question No. 2206 which was also put on the same day and the original version of which was in Hindi; also sought information as to whether the Madhya Pradesh Government had submitted the Nagar Tatha Gram Nivesh Adhyadesh which has been described by them as Town and Country Planning Bill for the prior instructions of the President and if so, whether approval had been accorded to it. The English version of the Question, however, sought information as to whether the Urban and Rural Investment Ordinance had been submitted by the Madhya Pradesh Government for the prior approval of the President and if so, whether the requisite approval had been accorded. On the basis of the English version of the Question, the reply given was that no such Ordinance had been received and the question of according approval to it did not arise. The reply given to the English version of the Question is factually correct. The reply given to the Hindi Version of the same Question is, however, not correct.

The correct reply to Unstarred Question No. 2206 should be as follows:—

- (a) If the English version of the Question is correct, no Ordinance/Bill called the Urban and Rural Investment Ordinance/Bill has been submitted by the Government of Madhya Pradesh for the prior approval of the President. If, however, the Hindi version of the Question is correct, the Nagar Tatha Gram Nivesh Adhyadesh has been received for the prior approval of the President.

(b) If the English version of the Question is correct the question of approval being accorded to the Urban and Rural Investment Ordinance/Bill does not arise. If the Hindi version of the Question is correct, approval has been accorded to the Nagar Tatha Gram Nivesh Adhyadesh.

(c) Does not arise.

(2) A copy each of the following papers (Hindi and English versions) under sub-section (1) of section 619A of the Companies Act, 1956:—

SHRI JYOTIRMOY BOSU (Diamond Harbour): On a point of order, Sir I see a statement correcting his answer being laid by Shri K. C. Pant against item No. 4(1). Under the Rules, he has to read it out..... (Interruptions).

MR. SPEAKER: That has been laid on the Table.

SHRI JYOTIRMOY BOSU: This is improper and irregular.

श्री हुकम चन्द कछवाय : अध्यक्ष महोदय आपने ही नियम बताया है और आप ही उनको खत्म करना चाहते हैं ।

अध्यक्ष महोदय : माननीय सदस्य यह लगातार इस तरह उठकर क्यों बोल जा रहे हैं । उनके घुन के लीडर इन माननीय सदस्य को समझाते क्यों नहीं हैं ।

RE. CORRECTION TO UNSTARRED QUESTION NO. 2206—contd.

श्री अटल बिहारी वाजपेयी (ग्वालियर):
डायरेक्शन 115 के मातहत कछवाय जी ने एक नोटिस दिया। आपने उस की स्वीकृति दे दी। मंत्री महोदय ने एक सवाल का एक ही दिन परस्पर विरोधी जवाब दिये तो अब यह सदन जानना चाहेगा कि यह परस्पर विरोधी जवाब उन्होंने क्यों दिये और असली जवाब क्या है।

अध्यक्ष महोदय : माननीय सदस्य को मैंने यह कहा है कि जब मंत्री महोदय अपना स्टेटमेंट हाउस की टेबल पर रखते हों तो उस मौके पर वह यहां मत बोलें बल्कि मुझे लिख कर वह बतला दें कि उन्हें इस के बारे में क्या ऐतराज है।

I will ask the Minister to explain it in the House.

अब कोई एक प्रोपर प्रोसीजर तो होना चाहिए।

वह इस को समझते नहीं हैं।

श्री हुकम चन्द कछवाय : इस में समझने की क्या बात है? सीधी सादी बात है। एक ही प्रश्न के दो उत्तर दिये हैं। मैंने नोटिस दिया है। मैंने यह भी कहा था कि जब मंत्री महोदय बोलने खड़े होंगे तब सवाल पूछे जायेंगे।

अध्यक्ष महोदय : आप को लिख कर भेजना चाहिये था। चूंकि आप का नाम नहीं है...

श्री हुकम चन्द कछवाय : मैंने लिख कर दिया है।

अध्यक्ष महोदय : अगर आपने लिख कर भेजा है तो मैं उस को देख लूंगा और इजाजत दे दूंगा।

श्री हुकम चन्द कछवाय : अब वह कब आयेंगा? सेशन तो खत्म होने वाला है मैं कब पूछूंगा?

अध्यक्ष महोदय : जब मैं बुलाऊंगा तब। आप इस तरह से बीच में मत आइये।

श्री हुकम चन्द कछवाय : पहले मंत्री महोदय यह तो बतलायेंगे कि जो वक्तव्य रखा गया है वह क्या है?

अध्यक्ष महोदय : मंत्री महोदय बतलायेंगे कि वह क्या है।

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS (SHRI K. C. PANT): The statement has been laid on the Table of the House. If you desire, I can read it however, you want me to give the essence of the matter, it is like this. Two questions were tabled on the same day—Unstarred Questions. The Hindi versions are the same. In

translating one of those Questions, the Lok Sabha Secretariat translated a word as 'investment'. The word can also be translated as 'investment', but in this context it was not investment; it really should have been 'development' or 'planning'. The Madhya Pradesh Government had sent an Ordinance which was Town and Country Planning Ordinance.

हिन्दी में वह है "नगर तथा ग्राम निवेश अध्यादेश"। हिन्दी तो ठीक है लेकिन अंग्रेजी में दो अलग अलग मवाल हो गये। निवेश शब्द का जो अनुवाद हुआ लोक सभा में वह इन्वेस्टमेंट हो गया और हिन्दी में जो था उस को उन्होंने वैसे का वैसे रहने दिया। इस लिये जहां तक इन्वेस्टमेंट आर्डिनेन्स के बारे में सवाल था उस के लिये "नहीं" कहा था, दूसरा प्रश्न जो अंग्रेजी में आया था वह उसी रूप में आया, इस लिये उसके उत्तर में मैंने 'हां' कहा था। जो मैंने जवाब दिये हैं अगर उन को मैं पढ़ दूं तो स्थिति साफ हो जायेगी :

"(a) If the English version of the Question is correct, no Ordinance/Bill called the Urban and Rural Investment Ordinance/Bill has been submitted by the Government of Madhya Pradesh for the prior approval of the President. If, however, the Hindi version of the Question is correct, the Nagar Tatha Gram Nivesh Adhyadesh has been received for the prior approval of the President.

(b) If the English version of the Question is correct, the question of approval being accorded to the Urban and Rural Investment Ordinance/Bill does not arise. If the Hindi version of the Question is correct, approval has been accorded to the Nagar Tatha Gram Nivesh Adhyadesh.

(c) Does not arise."

So, this was where the confusion arose. There was no intention to mislead; there can never be. Since both the Questions happened to be on the same day, the inference was that they were probably two different questions. This is how this has happened.

अध्यक्ष महोदय : ट्रांसलेशन में गलती हो गई होगी।

श्री हुकम चन्द कछवाय : ऐसी गलती नहीं होनी चाहिये। आखिर मंत्री महोदय ने दोनों प्रश्नों को अपनी आंखों से देखा था या नहीं? मंत्री महोदय स्वयम् कितने लापरवाह थे कि उन्होंने इस को देखा भी नहीं कि इस में दोषी कौन है? सारे देश में इस से भ्रम फैलता है कि एक ही प्रश्न का जवाब मंत्री महोदय अलग अलग दे रहे हैं। इस से सारे देश को पता लगता है कि हमारे मंत्री कितने योग्य है। प्रश्न एक हैं और उस के अलग अलग दो उत्तर हैं। जब वह प्रश्नों के उत्तर देते हैं तब उन को देखना चाहिये कि आखिर क्या चीज है और क्या गड़बड़ है।

अध्यक्ष महोदय : मंत्री से भी ट्रांसलेशन में गलती हो सकती है।

SHRI K. C. PANT: I did look at both the Questions. The English versions came to me. I did look at both the Questions. I had approved the reply on the basis of the English version that came to me. There is no doubt about it. It is wrong of my friend to say that I do not look at the Questions. I do.

योग्यता की माप दूसरी होती है, मगर इस को मैं ने देखा है।

अध्यक्ष महोदय, कुछ भी हो, गलती सब से हो सकती है।

NAM AND STOPPAGE OF BOMBING
IN VIETNAM BY U.S.A.**

SHRI A. K. GOPALAN (Palghat): I beg to present a petition signed by Shri P. Ramamurti and others regarding recognition of Provisional Revolutionary Government of South Vietnam and stoppage of American bombing of North and South Vietnam.

I am presenting only one copy of the petition, the other copies will be presented at 4 O'clock at the Reception Office.

MR. SPEAKER: There is no need. When it is presented to the House, they need not be presented to me.

SHRI SEZHIVAN (Kumbakonam): What he meant was that the other copies will be given in the Reception and in course of time it will come to you.

SHRI JYOTIRMOY BOSU (Diamond Harbour): One crore of people have signed the petition, Sir.

MR. SPEAKER: When it has been presented to the House, the copies may be sent to my office.

SHRI S. M. BANERJEE (Kanpur): May I have your guidance, Sir, on this? The present practice is that when such a petition is presented, it goes to the Petitions Committee. But it should be circulated to the Members.

MR. SPEAKER: No new practice please.... (*Interruptions*)

SHRI S. M. BANERJEE: Sir, when you hear many irrelevant things, kindly hear some relevant things. I want your guidance in this matter.

MR. SPEAKER: No guidance is necessary. It has been presented...

SHRI S. M. BANERJEE: Should not the Government come forward and recognise the Provisional Revolutionary Government of South Vietnam? What can the Petitions Committee do? Can it take any action in this matter?... (*Interruptions*) Sir, we demand the immediate recognition of the PRG.

Let the Government announce and let them also condemn the American bombings. Otherwise, what can the Petitions Committee do.... (*Interruptions*) I have never seen a Government more indifferent, cold and callous regarding such a big problem.

SHRI DINEN BHATTACHARYYA (Serampore): But no government is sitting there. Yesterday, Mr. Indrajit Gupta raised it and to-day a petition has been presented. The Government should make an immediate announcement....

MR. SPEAKER: No, please. This cannot go on like this.

श्री हुकम चन्द कछवाय (मुरेला) : मैं समझता हूँ कि इस प्रकार से आप और लोगों को भी रखने की अनुमति देगे।

अध्यक्ष सहीदय: अगर पिटिशन की डेफिनिशन में आवेगा तो दी जायेगी।

श्री एस.एम.बनर्जी : आप ने अनुमति दी इन के बिना मैं बधाई देना चाहता हूँ क्योंकि आप इस को अहमियत को समझते हैं।

अध्यक्ष सहीदय : अपोजीशन का मगड़ा मेरे सामने क्यों लाते हैं। श्री किरटिनन।

SHRI JYOTIRMOY BOSU (Diamond Harbour): Sir, in the UNI, the journalists are on strike and the work is paralysed there. This is an institution which is financed by the Government. We want to know what is being done about it. We cannot afford to allow this institution to go on like this when the staff are on strike and the work is paralysed. I request you to be good enough to ask the Minister to make a statement, for resolving this dispute and helping to arrive at a settlement.

SHRI S. M. BANERJEE (Kanpur): Shri Khadilkar had made a statement in the other House. Let him make a statement here. I am connected with the UNI also as President of the Union there. This matter has to be settled. As the Parliament is being adjourned, he should make a statement regarding settlement of the dispute.

SHRI S. M. BANERJEE: Kindly direct the Government to make a statement.

श्री हुकम चन्द बख्शबाब : (गुदेना) : उपाध्यक्ष महोदय, मैं निवेदन करना चाहता हूँ कि जो क्रिकेट का खेल हो रहा है, उस के लिये हिन्दी संवाद समितियों—हिन्दुस्तान समाचार, समाचार भारती आदि—और हिन्दी समाचारपत्रों के प्रतिनिधियों को प्रवेशपत्र नहीं दिये गये हैं। इस बारे में न शिक्षा मंत्रालय और न सूचना और प्रसारण मंत्रालय जवाब देती लेने के लिये तैयार हैं। यह भेदभाव नहीं होना चाहिये। इस में सब की रूचि है। जानबूझ कर हिन्दी के प्रति भेदभाव किया जा रहा है। मेरा निवेदन है कि हिन्दी संवाद समितियों और समाचारपत्रों के प्रतिनिधियों को प्रवेशपत्र दिये जाने चाहिये।

श्री रामावतार शास्त्री : सब संवाद समितियों और समाचारपत्रों को यह सुविधा दी जानी चाहिये।

RESOLUTION RE: RECOMMENDATIONS OF RAILWAY CONVENTION COMMITTEE—contd.

*SHRI THA KIRUTTINAN (Sivaganga): Mr. Deputy-Speaker, Sir, I rise to say a few words on behalf of my party, the Dravida Munnetra Kazhagam, on the Resolution moved by the hon. Minister of Railways, which incorporates certain recommendations of the Railway Convention Committee, 1971.

At the very outset, I would like to object to the method of selecting only a few recommendations of the Railway Convention Committee in such a Resolution for which the approval of the House has been sought. It is also stated in the Resolution that the action taken by the Government on the other recommendations made in the

[SHRI THA KIRUTINAM]

Report would be reported to the next Parliamentary Committee, which may be appointed to review similar matters. Here, I would like to know from the hon. Railway Minister whether the other recommendations of the Railway Convention Committee should be given such a low priority as for the next Parliamentary Committee to review whether they have been implemented by the Railways or not. The proper procedure would be that this House should have been asked to approve of a Resolution incorporating all the recommendations made by the Railway Convention Committee. After appointing such a high-power Railway Convention Committee and after the Committee have gone into these questions in great detail, I do not approve of the shoddy treatment meted out to the recommendations of the Committee.

I would now like to express my views about the payment of dividend by the Railways to the General Revenues. The Railway Convention Committee has recommended that dividend of 6 per cent should be paid by the Railways to the General Revenues on the capital invested after 31st March, 1964. I have been repeatedly pleading in this House, on several earlier occasions, that there should be no contribution from the earnings of Railways to the General Revenues. If the Central Government have invested some money in the Railways, then a certain percentage of dividend, depending upon the rate of profits made by the Railways every year, can be given by the Railways to the General Revenues. If the Central Government have given loans to the Railways, then interest at an agreed rate can be charged from the Railways. I do not know under what category the amounts given by the Central Government to the Railways fall and on what basis the Railways are to contribute to the General Revenues from their earnings every year and why should the Railways be compulsorily

asked to do so. I would request the hon. Minister of Railways to clarify this point.

I have also been witnessing that the Railway earnings are manipulated in such a way that ultimately the workers, whose major contribution in the railway earnings cannot be denied by anyone in this House, are denied of their rightful and legitimate share in such earnings. The Railways, apart from contributing 6 per cent dividend to the General Revenues, have got the Depreciation Reserve Fund, Revenue Reserve Fund, Development Fund, and any number of such funds, which take away in some proportion or the other all the earnings. This has led to the inevitable consequence of the Railway workers not being paid adequate emoluments in proportion to their labour. I would like to draw the attention of the hon. Railway Minister to the imperative necessity of paying adequate remuneration to the workers so that the railway earnings can substantially go up. I hope that the new Railway Minister will bear this in his mind and take steps to remunerate the railway workers adequately.

The Railway Convention Committee has pointed out that contribution to the Depreciation Reserve Fund is at present not related to the amount of depreciation calculated as accruing on the wasting assets of the Railways year by year. Whether an asset like railway carriage has depreciated every year at a certain rate or not, the allocation to the Depreciation Fund is not done at the rate at which the asset has depreciated. For example, a certain depreciated value is shown on the house constructed for a railway worker. In the course of years, the cost of construction of the house has been wiped out by the depreciated value shown every year. Simultaneously, the Depreciation Reserve Fund is also getting swelled by regular yearly allocation and the money remains unutilised. In this connection, the Railway Convention Committee has made certain import-

tant observations. Whether it is a house, engine, carriage or rails, the depreciation implications of these assets should be specifically mentioned in the Budget papers. The Committee has also pointed out that the wasting assets of the Railways are, not being replaced, with the consequence of heavy accruals in the Depreciation Reserve Fund. I request the hon. Minister of Railways to look into this and do the needful.

There is the Railway Safety Works Fund, out of which only a sum of Rs. 1.24 crores has been utilised, though during the years 1966-67 to 1971-72 the total contribution to this Fund has been of the order of Rs. 10.80 crores. The State Governments have spent substantial sums under this head 'safety', but they have not yet been reimbursed though the Safety Works Fund has got Rs. 10.80 crores. Sir, you will not under-rate the need for wider bridges over level crossings on account of density of traffic, the need for over-bridges and under-bridges in many parts of the country. According to the existing rules, the expenditure on these items is shared between the Railways and the States on 50:50 basis. The States are finding it difficult to spend moneys on these items from their slender resources. That is why the Safety Works Fund has not been utilised properly. I would plead with the Railway Minister that the Railways should bear 75 per cent of the expenditure on these items and the remaining 25 per cent should be borne by the States. Then only the much-needed over-bridges and under-bridges will come about in the country.

Sir, the hon. Minister of Railways will not dispute the fact that there are lakhs and lakhs of unmanned level crossings throughout the country, and that too predominantly in the rural areas. 10 per cent of the amount in the Railway Safety Works Fund should be earmarked for manning or

upgrading of unmanned level crossings and that the Zonal Railway Managers should be authorised to draw directly the amount from this Fund with a view to expediting these works.

There is persistent shortfall in expenditure in the matter of providing quarters for Class III and Class IV staff, though there is acute shortage of residential accommodation in the country. It is really surprising that the sums allocated for this purpose from the Development Fund remain underutilised. The Railways should give due priority to the provision of quarters to all the Class III and Class IV staff of the Railways.

The Study Team of the Administrative Reforms Commission has also made important recommendations in regard to Railway Accounts. They have not been brought before this House and the Railways have also not implemented those recommendations. By implementing all the recommendations of the Railway Convention Committee, the problems besetting the Railways can be solved to some extent. That is why I pointed out in the beginning of my speech that a Resolution containing all the recommendations of the Convention Committee, not merely a few of them, should have been brought before this House.

Reverting back to the contribution of Railways to the General Revenues, you may feel that my suggestion that the Railways should not contribute anything to the General Revenues is somewhat novel. Some months back there was a farmers' agitation in the State of Tamil Nadu sponsored by the Ruling Congress Party here and the Communist Party of India. The main plank of the farmers' agitation was that the loans obtained from the World Bank, from the Reserve Bank and from other foreign countries and given to the farmers through the co-operative societies should be revoked and the agitation was directed against the State Government. I have referred

[Shri Tha Kirutinam]
to this because here the Central Government is demanding dividend from the Railways on the capital invested 20 or 22 years before. I am sure, Sir, you will now appreciate my contention that the payment of contribution by the Railways to the General Revenues must be stopped at once. I also hope that the hon. Minister of Railways will appreciate that this is a valid argument in view of what I have stated in my speech and ensure that the Railways do not pay any dividend to the General Revenues at least for two decades to come so that the development of Railways in all sectors is assured within this period.

With these words, I conclude.

SHRI K. S. CHAVDA (Patan): I would like to bring to the notice of the hon. Minister one point regarding manning of sleeper coaches on the Rajkot Division between Ahmedabad and Palampur. Because, between Ahmedabad and Palampur, 26 sleeper coaches are manned by the Rajkot Division also, though the number of TTEs in the Rajkot Division is 102 and the kilometreage is 1,510 while in the Ajmer Division, the total kilometreage is 1,290 and the strength of the TTEs is 106. Therefore, the comparative figures will convince the Minister that more passenger trains run on the Rajkot Division, nearly 167, and only 58 trains run on the Ajmer Division. Though a greater number of passenger trains run on the Rajkot Division covering a larger kilometreage than on the Ajmer Division, the sanctioned strength of the ticket-checking staff is less on the Rajkot Division which in turn provides a lesser number of posts of senior TCS/TTEs and TCS/CTIs as based on the percentage of the strength of the checking staff. This is the dispute between the two divisions—Rajkot Division and Ajmer Division—which is not settled by the administration.

On 24th June, 1972, I met the General Manager and discussed it with him

and brought to his notice that the railway is incurring excess expenditure because the staff of the Rajkot Division and the staff of the Ajmer Division are manning 26 sleeper coaches attached to the Delhi Mail, Delhi Express, Janata Express and 31 UP and 32 Down between Ahmedabad and Ajmer. These trains terminate at Ahmedabad and start from Ahmedabad, and still, this injustice is done to the Rajkot Division staff. My demand is that justice should be done to these people. That is the only point which I wanted to bring to the Minister's notice, because this has resulted in over-expenditure of the railways, and there is discontentment among the staff of the Rajkot Division because they say that this position has deprived the Rajkot Division of its rightful cadre strength of TCS/TTEs and in turn the posts of STCs/STTEs and HTCs/CTIs. It is a sad plight of TCS/TTEs of the Rajkot Division that they are thus deprived of their chances of promotion in higher grades. That is why I request the hon. Minister to look into the matter and do justice to these people.

श्री रामचन्द्र कस्तुरी : (पटना) :

उपाध्यक्ष महोदय, रेल मंत्री जी ने रेलवे कन्वेंशन कमेटी की कुछ सिफारिशों को मंजूर करने के लिये यहां प्रस्ताव पेश किया है। इस क्रम में मैं यह कहना आवश्यक समझता हूं कि रेलवे कन्वेंशन कमेटी ने अपने कार्य की परिधि को, स्कोप को बढ़ाने का निश्चय किया है ताकि जहां से आय अधिक हो सके उन बातों का पता लगाया जाय तो मैं उस के इस निश्चय का स्वागत करता हूं। यह जरूरी है कि रेलवे की आय को बढ़ाया जाय और किस तरीके से रेलवे में गोलमाल हो रहा है, गड़बड़ी क्या रही है, वैसे को पकड़ा जा रहा है और देश को नुकसान पहुंचाया जा रहा है, इस की रोक

जाय और इस के लिए यह जो फैसला किया गया है कि इस के स्कोप को बढ़ाया जाय, मैं समझता हूँ यह उन्होंने सही किया है।

आंकड़ों को देखा जाय तो यह पता चलता है कि निर्माण के काम और रेल कर्मचारियों के ऊपर जो खर्च होता है दोनों में काफी काफ़ी फर्क है। जरूरत इस बात की है कि अगर कहीं फिजूलखर्ची है और रेलवे के अंदर फिजूलखर्ची तो उस को रोका जाय। तभी हम राजस्व के ग्राम खाते में पैसा चुका सकेंगे। अगर सरकार का इरादा यह हो कि मजदूरों को, कर्मचारियों को सहायित न दे कर पैसा बचा लें और उमी को राजस्व खाते में डाल दे तो यह मुनासिब न होगा। रेल मजदूर इस को कभी स्वीकार नहीं करेंगे और मजदूर आन्दोलनों में काम करने वाले लोग भी इसे स्वीकार नहीं करेंगे। जहां जहां रेलवे का पैसा अटका पड़ा है, बरबादी हो रही है, रेलवे में जैना अष्टाचार है, सब को गालूम है चोरी किस तरह से होती है सब को मानूम है, स्टोर के रख-रखाव पर क्या खर्च होता है, लाइनों की मेन्टेनेन्स पर क्या खर्च होता है—जब तक इन तमाम बातों की तरफ आपका ध्यान नहीं जायगा, वहां से पैसा निकालने की कोशिश नहीं करेंगे, तो जाहिर बात है कि जैनरल रेवेन्यू में, ग्राम-राजस्व में पैसा नहीं दे सकेंगे। इस लिये मैं चाहता हूँ कि कर्मचारियों को आपने जो सहायित दी है कागज पर तो बहुत सारी सहायितें हैं लेकिन तमाम सहायितें कार्यान्वित नहीं हो रही हैं, उन्हें कार्यान्वित कीजिये। लोगों के पास रहने के मकान नहीं हैं, कई बार इस

विषय पर इस सदन में हम लोग बहस कर चुके हैं, दिल्ली के बारे में बहस हो चुकी है, आप ने 20 लाख के करीब मजदूरों में से केवल 5 लाख को मकान दिये हुए हैं—उन की तरफ सरकार का ध्यान जाना चाहिये।

इसी तरह से जनता को सहायितें मिलनी चाहियें। तीसरे दर्जे के यात्रियों की क्या स्थिति है—इस का बयान न करना ही अच्छा है। उनकी बहुत दयनीय स्थिति है। गरमी के दिनों में तो और ज्यादा हालत खराब हो जाती है। पंखे नहीं हैं, बिजली नहीं है, पानी नहीं है—इस लिये तीसरी श्रेणी के यात्रियों की सुविधाओं की तरफ भी सरकार का ध्यान जाना चाहिये।

इसी सन्दर्भ में एक बात मैं यह कहना चाहता हूँ कि आप रेल मजदूरों से काम लीजिए हम भी उन के बीच में काम करने की हैमियत से उन को कहते हैं कि काम करो, साथ ही साथ पूरे दाम भी मांगों, उन को पूरी मजदूरी मिले और वे काम भी करें। यह मुल्क किसानों, मजदूरों और गरीबों का मुल्क है, केवल शासन करने वालों का मुल्क नहीं है और न यह मुल्क टाटा, विड़ला और दालमिया का मुल्क है यह 75 इजारेदारों का मुल्क नहीं है, गरीबों का मुल्क है इस लिये उन की तरफ सरकार का ध्यान जाना चाहिये। अभी कुछ दिन पहले 15 दिसम्बर को आप ने देखा कि यहां पर कितने लोग आये थे। मजमा के बारे में अखबारों ने 30 से 50 हजार लिखा है लेकिन उस से कहीं ज्यादा रेल मजदूर यहां आये थे और उन्होंने यह मांग की थी कि उन्हें बीनस

[श्री रामाधत्तार शास्त्री]

मिलना चाहिये। अगर इन 15-20 लाख रेल मजदूरों को आप बोमन नहीं दोगे तो उन की कठिनाइयां हैसे दूर होंगी। महंगाई बढ़ रही है—उस का फायदा उन्हें मिलना चाहिये। आप महंगाई को रोक नहीं सकते, इस लिये उस का यही इलाज है कि उन की तनख्वाहों में द्रव्योत्तरी कीजिये, उन्हें बोमन दीजिये। उन के लिये पे कमीशन की रिपोर्ट जल्दी प्रकाशित हो और उस को लागू करवाइये ताकि हमारा मजदूर यह समझे कि यह हमारा देश है, हम जो उत्पादन करते हैं उस का हिस्सा हम को भी मिलता है। बोमन हमारा हक है। इस लिये उन की सुविधाओं की तरफ आप का ध्यान जाना चाहिये, तब ही हम सही मायनों में उन का कोआपरेशन ले सकेंगे।

रेलवे के अन्दर जो अष्टाचार व्याप्त है, जो चोटियाँ होती हैं, इस में बड़े बड़े अफसरान शामिल हैं। मैं सब के लिये नहीं कह रहा हूँ, लेकिन बहुत से लोग इस में शामिल हैं। मैं जानता हूँ कि मतवाद के अन्दर जो रेलवे इम्प्लाइज कोअर्डिनेशन कमेटी है उस ने कई चिट्ठियाँ आप को लिखीं, वे अष्टाचार के विरुद्ध सरकार से कोआपरेट करने को तैयार है, लेकिन अफसरान तैयार नहीं है। वे कहते हैं कि यह रिकगनाइज्ड यूनियन नहीं है। मैं कहना चाहता हूँ कि आमदनी बढ़ाने के लिये ताकि जनरल रेवेन्यू में आप पैसा दे सकें, आप तबाम मजदूरों का कोआपरेशन लीजिये, चाहे वह रिकगनाइज्ड हो या अनरिकगनाइज्ड हो और साथ ही साथ जनता का भी सहयोग लीजिये लेकिन जनता का सहयोग तभी मिलेगा जब आप उन के लिये काम करेंगे।

इस समय हमारे देश में बैंगन की बहुत शार्टेज है। आप कहते हैं कि शार्टेज नहीं है। मैं बिहार से आता हूँ। बिहार धन-धान्य से परिपूर्ण राज्य है, जमीन के अन्दर सम्पत्ति भरी गड़ी है। जोयला निकाल कर रखा

हुमा है, लेकिन उसे ले जाने के लिये कोई व्यवस्था नहीं है। कभी बिजली की काइसेज आ जाती है, कभी थर्पन पावर स्टेशन, पतरात और बरौनी को कोयला नहीं पहुँचता। क्या हमारे यहां कोयले की कमी है? कोयले की कमी नहीं है, बैंगन की कमी है। मैं चाहूँगा कि आप का ध्यान इन तरफ भी जाय।

इन सब बातों का ध्यान रखते हुए, यदि आप के पास फाजिल पैसा बचता है तो आप जनरल रेवेन्यू में ले जाएँ, हमें कोई एतराज नहीं है। लेकिन जनता की सहूलियतों को पहले देखना होगा, मजदूरों की सहूलियतों को देखना होगा, ओवर ब्रिज बनवाइये, बेंटिंग रुम्ज बनवाइये, पीने के पानी का इंजाम कीजिये, उस के बाद कुछ बचे तो उस तरफ ले जाइये—हमें कोई एतराज नहीं है।

टिकट-लेस ट्रेवलिंग के बारे में आप कई दफा कह चुके हैं—जुझे भी तकलीफ होती है, क्योंकि उसमें हमारे सूबे का नाम भी है। इस को रोकने के लिए सब का सहयोग लीजिए। यह काम केवल अफसरों से नहीं होगा, अफसर सहयोग करें, जनता सहयोग करें, मजदूर यूनियन्ज सहयोग करें तो टिकट-लेस ट्रेवलिंग जरूर खत्म होगा।

मुझे उम्मीद है कि सब बातों की तरफ सरकार ध्यान देगी ताकि जनता, रेल मजदूर और रेलवे अधिकारी सब मिलकर रेलवे की आमदनी बढ़ा सकें।

THE MINISTER OF RAILWAYS (SHRI T. A. PAI): Sir I am grateful to the hon. Members who have given me very useful suggestions. Whenever there is a debate on railways, I have heard off repeated complaints about bad catering, lack of amenities or third-class passengers, corruption, theft and ticketless travelling, which seem to be the perennial state of affairs. I would point out that there are greater things involving the railways

in this country, which require the attention of this House. I would require the help and assistance of this House to see that this organisation, which is the biggest public sector undertaking in this country and which is the lifeline of the communication and transport system in this country, is managed efficiently and much more efficiently.

I am grateful to the Railway Convention Committee for taking up four important subjects involving the management of the railways, namely, accounting, sub-urban services, commercial and allied matters and requirement and availability of wagons.

Coming to Accounting, though the book value of the assets of the railways would represent Rs. 3,500 crores, we may make a claim that the present market value of the assets are much more. But when a government undertaking owns immovable property, which has market value over the book value, it does not mean anything because we are not going to sell our assets. If all these years, up to the end of the year 1965-66, the railways have contributed substantially to the general revenues in this country, it is because half the total capital assets of the railways were valued at pre-war rates. This state of affairs could not permanently continue because every new asset at the present market rate is going to make the capital value of our assets more and more. A four-wheeler wagon, which ten years ago used to cost Rs. 16,000, now costs about Rs. 35,000. But it can convey only the same kind and amount of commodities; perhaps, a bit more with better designing. So, ultimately, it is the optimum use of these assets that may perhaps increase our profitability, and nothing else. In fact, it is not that we have been doing a lesser job. In 1951-52 we were moving 1,208 million passengers. In 1971-72 we moved 2,536 million passengers. Nearly 253 crores of passengers have moved by our trains in one year. As

against 215 million people, upto November this year, the figure is 233 million people. The number of passengers travelling by our trains is on the increase.

It is not only that. While in 1951-52, the passenger kilometre were 63,072 millions, in 1971-72, they are 125,033 million kilometres. So, they are covering larger and larger distances also. As regards the freight, while in 1951-52 it was 98.3 million tonnes, in 1965-66, it rose to 203 million tonnes. Of course, it came down in 1971-72 to 197 million tonnes. It is now moving up again. During the Fifth Plan, we expect to move at least about 300 million tonnes. It is nearly 50 per cent of what we did this year. So, the Indian Railways are getting in to an era of mass-transportation of both the commodities and the people of this country.

I know, I am bound to listen to all the complaints that have come to me regarding catering. But the quality of food cannot be maintained throughout 365 days in a year. It varies from place to place. With the rise in prices, sometimes even adulteration could take place and we require continuous watch over the state of affairs. But the real thing is how to meet the problem of mass-catering. Formerly, it was only a problem of catering to the First Class passengers who form only 8 crores out of 253 crores of my passengers.

When we decided to abolish the Second Class in the Indian Railways, it was not a question of trying to do it on any ideological basis. Only 0.4 per cent of the people were traveling by Second Class. Today, the problem of Indian Railways is to look after the main cream of our business, that is, the Third Class passengers. In order to reduce overcrowding in the trains, in order to provide greater and greater passenger amenities, we may have to sacrifice even the classification. Here again, our society is so

[Shri T. A. Pai]

stratified, unfortunately, and we are after perquisites and privileges. The first protest that I have received from some of my employees is that they are being deprived of the chance of travelling by Second Class and that this decision has been taken by me unilaterally.

Ultimately, what I would like to point out is this. The question before the House is: Have we not lived too much on the assets that we have had? If we have contributed surpluses to the General Revenues in the past, have we or have we not provided sufficient depreciation in view of the fact that every time we have to go in for new rolling-stock or wagons, we may have to do it at a much higher cost? I am afraid these questions have not received enough attention.

I am glad, for the first time, the Convention Committee has raised these questions and have asked us to make a more effective study than what we have been able to do. It is absolutely necessary that the country must know how its large assets the Railways have, are being used.

Again, once the Indian Railways were considered the milch cow for the General Revenues. The moment you stop contributing to the general revenues, there is the criticism against the Railways that inefficient management has taken place overnight. They condemn the railways. Wherever condemnation is due, condemnation has to be there. But wherever appreciation is due, appreciation should be there. Unless appreciation is also mixed along with criticism even condemnation will not go fairly well. I would like to see, ultimately, how do you judge it.

One hon. Member of the House asked: Why do you contribute any surplus to the General Revenues? Why do you pay even the interest on the capital that you borrow from the Government? Whether I pay or not, if

the Government of this country has to borrow at 5½ per cent and it is not made good by somebody who uses that money, it is the poorest man in this country who will be called to pay more excise on kerosene or match box or sugar. So, ultimately if we are asked to contribute at least six per cent on this, it is logical. You have to see that your capital is most effectively used. Again, whenever any surplus is produced, let us not say that everything should go to the employees. Even the employees may not desire it. I quite agree that the employees should be looked after because management of railways is a service industry; management of men is also equally important as management of our resources. But if we get into a philosophy that, whenever an undertaking makes a profit, the general community in this country is not entitled to their share but whatever profits are generated in any undertaking should be distributed among the employees and the management, I think that would be a dangerous sort of thing...

SHRI K. S. CHAVDA: Not by increasing fares and freights.

SHRI T. A. PAI: You are complaining about fares and freight rates. Is there any railway system in the whole world which is called upon to bear social burdens as the Indian Railway system? The loss on unremunerative branch lines comes to about Rs. 8 crores. Any other country would have dismantled them, but we are required to keep them because where certain amenities were provided to the travelling public, I am not able to dismantle them, now I would like to go into it and see how to reduce the expenses on them without reducing the facilities provided to the general public who have been making use of them.

I am very glad that these questions have been asked. Let the House raise these issues. They may tell me,

"You put a stop to ticketless travel; you will get Rs. 20 crores". On passenger traffic in this country we lose Rs. 61 crores per year. Out of that, Rs. 12 crores represent loss on suburban traffic in Bombay, Calcutta and Madras, the three cities of India. I am not saying, 'What to do with this?' Let the fact be appreciated that the Indian Railway system today, so far as passengers are concerned, is incurring a loss. The passenger traffic is being subsidised by freight in this country. But for the profits that we make by moving goods traffic, we would not be able to move even these passengers. So, do not say that we are unnecessarily raising the passenger fares or freights. I may tell you that, in India, the average rate charged per passenger kilometre in 1969-70 was 2.46 paise. Ours is the lowest in the whole world. Even Burma charged 2.98 paise; Ceylon charged 2.62 paise, while it was 13.31 paise for U. K. . . .

SHRI K. S. CHAVDA: What is the *per capita* income in U.K.

SHRI T. A. PAI: What you pay for travelling is not based on *per capita* income. If I have the means of charging based on *per capita* income, this argument is quite valid. But there are millions of people in this country who do not travel by train and the loss is being borne by them also and not by the people who travel. So, let us not say that. I know, the burden of high passenger fare or freight cannot be borne by our country-men. I know they are poor. But this does not mean that wherever some adjustments are called for should not be made. If we want our people to go free, have everything free, how is that possible? Even the most affluent country in the world has not been able to provide it. Even those countries where there are more opportunities for better living, do not permit free movement of people from place to place on a mass scale as we do

SHRI K. S. CHAVDA: Ten per cent of the traffic travel free. Reduce it by 25 per cent.

SHRI T. A. PAI: About the people who travel free namely, ticketless travellers, on an analysis it has been found that 10 per cent of them are students, 12 per cent are beggars, 23 per cent are small business-men and small scale industrialists and 30 per cent are small farmers—socially weaker sections of the society whom we are encouraging through the banking system to build themselves up. I am not saying that they should travel free. But these are the facts of life in this country. Where do we go away from it? I would rather prefer to see how we go in for the maximum utilisation of the resources that we have, catering to the needs of the maximum number of people moving about and also moving the largest quantity of goods. That is the problem we have.

I am glad that the question of suburban traffic was raised. Sir, on the suburban traffic we are losing Rs. 12 crores. It is not because the fares are not paid by everyone, that we lose. On the monthly passenger tickets that we have issued at a fare of practically ten trips, people can travel any number of times for the whole month. All this has been responsible for our getting into losses. But, what I say is that if we have another index of measuring the performance of the Railways, not in terms of rupees and paise, but what is the economic contribution, what is the contribution the Indian Railway system has made, for the economic growth of the country, I think that should be a more positive way of evaluating our performance.

33 per cent of the goods we transport like foodgrains, coal, fruits and vegetables, fire-wood, are carried at a low cost of transportation. 75 per cent of what we transport like coal, iron ore or steel or cement as also

[Shri T. A. Pai]
the bulk commodities is being transported at a concessional rate. In prices, I would like you to know—during a period of six years, we have paid very heavily for the increase in the price of coal and some of the things. If the Indian Railways have to be managed economically, it can be done only provided the things that it uses very heavily, like the fuel or the iron and steel, are priced reasonably.

On coal, over a period of 20 years, from 1950 to 1971-72, we are paying 142 per cent extra. On Mineral oils we are paying 120 per cent extra. For electricity, we are paying 93 per cent more. For iron and steel we are paying 217 per cent more and cement 164 per cent.

Our performance, so far as our employees are concerned, cannot be considered to be something of which we have to be ashamed. In fact, I think we have to be proud. In 1950-51 what was the army of people working for the Indian Railways? Hardly nine to ten lakhs. Now, their number has doubled, including the casual labour; from 10 lakhs in 1951, to 18 lakhs in 1972.

Is there any undertaking in India which has increased its man-power two-thirds? It was the Railways that was considered to be one of the main institutions that could provide employment—I am not sorry that we have provided employment to so many people—but I want this to be appreciated that this public sector undertaking is employing the largest number of people. But for this. . . .

SHRI M. KALYANASUNDARAM: (Tiruchirapalli): You have also the largest number of casual labour.

SHRI T. A. PAI: Yes, we have the largest number of casual labourers. In this country, the working man is defined as the man who works. The man who has not got the work and is unemployed does not deserve the sympathy of any one. 3½ lakhs of casual labour. I wish I had the

strength to absorb them. But the fact is that we are trying to absorb them as and when vacancies arise. The alternative is not to employ these people at all. The alternative is to keep these people unemployed. It looks as if all of us are behaving sometimes like what people do in the third class carriages. I know I was also one of them. Once we got into it, we feel that we should close the door and do not permit anybody to come in, stretch ourselves as if it is all reserved for us. Similarly, if people who have jobs in this country think that it is all their preserve and that those who are unemployed do not matter, then we may have to see sympathetically, because the problem before this country is whether it should widen the base of employment or try to do its utmost for those who have. Both are equally important.

My friend, Mr. Kalanasundaram will agree with me that while we must consider their cases sympathetically, it will not be possible for me to absorb them. Let me not condemn 3½ lakhs workers. Let it be appreciated that we have 3½ lakhs of casual labourers for whom jobs have been provided by the Indian Railways system.

Sir, the per capita cost of an employee in 1950-51 was Rs. 1263 and in 1971-72 it is Rs. 3546. Another contribution that the Indian Railway system has been making is that it is losing Rs. 54 crores on low-rated freight traffic. There are various freight concessions on export trade also. There are certain relief measures undertaken. All these are to be taken into account. We had to remove even fodder from one part of the country to another at concessional rate. All these would account for some Rs. 1.25 crores. In a year now, Rs. 125 crores is the contribution that we make on our social burdens, which this Commercial Undertaking is taking up. I hope that this aspect will be duly taken note of. Our contribution to the welfare of our employees is also

not a small one. We contribute something like Rs. 20.18 crores on health, medical and welfare services; Rs. 8 crores on educational assistance to railway employees' children and Rs. 10.6 crores by way of subsidised housing of the employees.

As the single largest employer, the Railways have the right to feel legitimately proud that they have provided the maximum number of housing facilities. Hon. Members drew my attention and asked why I am not referring to some of the recommendations of the Convention Committee. Some of the recommendations are of immediate concern and some of the recommendations may be requiring that I should appoint some committees to go into depth in respect of certain matters, to look at the problem of the Railways in several respects. Some of them would relate to where the Railways have failed to do a job. For example, this relates to a sector where money was allotted for social welfare or welfare activities like housing but which has not been utilised. I give an undertaking that wherever this money is provided, it will be fully utilised. I don't think there should be any laxity in this matter.

Within our resources whatever welfare measures are needed by the employees are being attended to. We give this top priority because we know that time and again the Indian Railwaymen have risen to the occasion to bear burdens, next only to the defence personnel in this country. They have borne many burdens which should be fully appreciated.

Several hon. Members drew my attention to corruption. When I hear all that, it looks as if we have become a nation of corrupt people. I am not prepared to accept it. It would be only a small percentage; they misbehave; they do all these things. But, it is the system that permits such things. It is better to change that system rather than change men. Given opportunity, many people would like

to be corrupt. So, it is better to see that the system itself does not permit it. Whatever such instances are brought to my notice, I shall certainly see that we take immediate action and we will try to improve the system to the maximum extent possible.

The Committee has taken a great deal of trouble. They have examined in depth the various financial and accounting problems of the Railways. They have gone into various procedures, in depth.

The Committee is currently holding a number of sittings to go into commercial and allied matters and availability of wagons. They have also completed their sittings in respect of suburban services. I look forward to receiving valuable suggestions from the Committee for the improvement of all these important sectors of Railway operation.

Hon. Members have brought various points to my notice. I can certainly assure them that I will look into those points, as it is not possible for me to deal with all the points here. With these words, I commend the Resolution for the acceptance of the House.

MR. DEPUTY-SPEAKER: Now, the question is:

"That this House approves the recommendations made in paras 1.1, 2.31, 3.18, 3.19, 3.27, 3.28, 4.12 4.13 and 5.11 of the Report on Accounting Matters of the Committee appointed to review the rate of dividend payable by the railway undertaking to General Revenue as well as other ancillary matters in connection with the railway finance *vis-a-vis* the General Finance, which was presented to Parliament on the 15th December, 1972.

That this House further directs that the action taken by Government on the other recommendations made in the Report should

[Mr. Deputy Speaker]

be reported to the next Parliamentary Committee which may be appointed to review similar matters"

NATIONAL LIBRARY BILL

THE MINISTER OF EDUCATION
SOCIAL WELFARE AND CULTURE
(PROF S NURUI HASAN) I beg to move

That the Bill to provide for the administration of the National Library and certain other connected matters be taken into consideration"

As the House is aware there has been a great deal of dissatisfaction expressed about the functioning of this premier library of our country the National Library. It was as a result of this that a committee was appointed as the House would recall under the chairmanship of Dr V S Jha to go into the different aspects of the functioning of the library. The committee has made an extremely valuable report

Broadly the recommendations of the report may be classified under the following heads firstly a better scheme of management secondly reorganisation of the various divisions and units of the library and particularly the appointment of various committees of experts to go into the different functions of the library thirdly in consequence of these proposals of reorganisation additional staff and lastly more money partly for capital expenditure and partly for the acquisition of books and periodicals and other equipment

I shall take up the first two points in a few seconds with your permission. But I would make a submission that although it has not been

possible for Government to provide all the posts that the committee visualised, some considerable progress has already been made, 25 class I and class II technical posts have already been provided, one Ministerial class II post has been provided 62 class III technical posts have been provided 45 Ministerial class III posts have been provided and 50 class IV posts have been provided that is to say a total additional staff of 163 persons has already been sanctioned

Furthermore Government have sanctioned a Xerox machine and an offset duplicator which was among the very important recommendations of the committee

Unfortunately it has not been possible for the Government due to paucity of funds to provide for all the money that a national library should be getting for the acquisition of books and journals and the present amount that is placed at the disposal of the library is I confess inadequate for it to discharge the responsibilities of a national library. We however hope that in the Fifth Plan it will be possible for us to rectify at least part of this major deficiency

So far as the problem of management is concerned the recommendation of the committee was far-reaching. The committee took the view that the advisory council of the national library should be replaced by a governing council, and eminent persons from the universities, distinguished educationists and administrators of proved worth and academic bent of mind scientists of repute and achievement should be the members of the council. But at the same time, the committee recommended that the council should be instituted by a resolution of the Government and not by a statute. At the same time, the committee was of the opinion that a director should be appointed who should also be the ex-officio chairman of the governing council, and his

*Moved with the recommendation of the President

able with that of the Vice-Chancellor of a Central university.

In regard to the creation of the post of Director, Government have been able to accept this important recommendation of the Commission, and the salary proposed for the Director is the same as is being paid to the Vice-Chancellor of a central university. The difficulty, however, arose that a Governing Council cannot be established without a statute. A resolution of the Government can create a body which is advisory in nature, but then legally the status of the Library remains that of a subordinate office. I am convinced that no educational or academic or scientific institution can easily be managed by the secretariat because of various obvious difficulties. If the Governing Council is to be a real Governing Council, then it can only be established by this Parliament and not by a Resolution of the Government, because a body created by a resolution of Government cannot absolve Government of its direct responsibility in regard to all the normal procedures of Government regarding appointment, recruitment, provision of funds etc. If the Governing Council is to be a Governing Council and is to govern, then it can only be established under an Act of Parliament.

There are other libraries much lesser in significance than the National Library for which the Government have proposed and Parliament has been gracious enough to accept, that they be governed by Act of Parliament. Therefore, it was our feeling that we should come before this august House with a Bill, and perhaps that National Library should also be governed by an autonomous body which will have the power of administration over the Council and which will be given its due status, having been established under an Act of Parliament.

As regards the various schemes of reorganisation, most of these are

entirely different from the National Library and stand in broad agreement with most of them except with one, and that is the recommendation that inter-library loan be discouraged. I would like to make a submission here. A national library, to be truly a national library, should make its services available to the rest of the country and it should not always be necessary for a scholar doing his research work in one part or the other part of the country to go to the national library itself and spend a lot of time and money, if the reference that he may wish to check up is fairly small. However, this is an academic matter on which a difference of opinion is possible and I would not like to interfere very much with the new organisation that we would like to be set up under this Bill. I would like this body to take a decision on this and on the other matters. The whole difficulty of the national library has been that expert guidance has not been fully made available to it, and various administrative procedures have stood in the way of that expert guidance being availed of. Therefore, I have come before this House with a Bill which proposes the establishment of a board for the administration of the library and vesting in the board the property of the library. Secondly, the existing staff of the library is to be transferred to the board. Thirdly, it will be possible for the Government to issue directions to the board on questions of policy. This is necessary because the accountability of the Minister to this House remains. Then the various financial procedures about the annual budget estimates, deposit fund in the Reserve Bank, annual audit of accounts of the board by the Comptroller and Auditor-General of India—all these provisions have been included in the Bill.

15 hrs.

The composition of the board deserves to be considered carefully by Parliament. The board will have the Secretary of the Ministry concerned and the Secretary of the Ministry of

[Prof. S. Murul Hasan]

Defence. These will be ex-officio members. Then, there will be six persons to be nominated by the Central Government of whom four shall be persons who, in the opinion of the Central Government, are distinguished educationists or have special knowledge and experience in matters relating to the administration of libraries. One shall be a representative of any of the universities in India. The other shall be from among the persons who, in the opinion of the Central Government, have knowledge of and experience in science and technology and one person to be nominated by the Chairman of the University Grants Commission, and the Director of the Library shall be ex-officio Member-Secretary. It will thus be seen that this is a board which, except for two persons who represent the administration, is composed entirely of experts. Further more, it has been made possible for the board to establish an executive council consisting of such number of members as the board may think fit. The Director of the Library shall be the Chairman of the executive council and the other members shall be appointed from among the members of the board or from outside or partly from among the members of the board and partly from outside.

To these may be given such duties as may be prescribed or delegated by the board, subject to such conditions which the board may prescribe; that is to say, while the overall control is vested in the board it is visualised that the executive committee will be a body which may or may not consist of the members of the board but which will have only or mainly the experts, which will be dealing with the organisation and the upkeep of the library. As for the director, the Central Government shall appoint a person who in its opinion possesses academic qualifications of distinction or is a distinguished librarian. The term of the director shall be for a period of five years provided that the

Central Government may extend such term for such further period as it may deem fit.

This is broadly the scheme of the administration of the national Library. I realise that merely handing over the administration of the library to competent experts is not going to solve the problem. The responsibility of the Central Government would still remain but that would be principally to provide adequate funds to the library, and to ensure that the broad wishes of this House are implemented, so that this national library is able to acquire in fact what it is supposed to enjoy in theory already, the status of a national library. Sir, I commend this Bill to the House.

MR. DEPUTY SPEAKER: Motion moved:

"That the Bill to provide for the administration of the National Library and certain other connected matters, be taken into consideration."

I have before me an amendment given notice of by Shri H. N. Mukerjee. Because the amendment was submitted after the time fixed for the receipt of such amendments was past, it has not been possible to circulate it. But Prof. Mukerjee is generally a stickler to the rules of procedure of this House and if he has not been able to send it in time there must have been good reason for it. In consideration of that I shall, therefore, admit it. But I would like to request the Members that they should co-operate with us by sending these amendments in time. In this connection, I would like to say that the Rules Committee in September last had decided that amendments should be sent two days in advance—it was of the last Lok Sabha and this is only a reminder of the decision taken by the last Lok Sabha that amendments should be sent two days before, so as to facilitate typing, printing them and circulation. I shall read out Prof. Mukerjee's amendment. "That the National Library Bill of 1972 be circulated for

elicitation of public opinion thereon by 31st March, 1973.' I shall admit this.

SHRI H. N. MUKERJEE (Calcutta-North-East): I beg to move:

"That the Bill be circulated for the purpose of eliciting opinion thereon by the 31st March, 1973."
 (24)

SHRI SAMAR GUHA (Contai): I have given so many amendments. What about them?

MR. DEPUTY SPEAKER: I really wonder that you raise them now. This amendment is to the motion for consideration. The amendments could be only that this goes to the Select Committee or it goes for elicitation of public opinion. If there are other amendments to the clauses, they will be taken up when the clauses come up for discussion.

SHRI SOMNATH CHATTERJEE (Burdwan): This Bill is a very important Bill because it deals with the future administrative set-up of the National Library which we all want should be a unique seat of research and reference in this country. But from the provisions of the Bill we find that they do not seek to achieve what we ought to. Before going further into the matter, I should strongly support the motion which had been submitted by Prof. Mukerjee for eliciting public opinion thereon. Even today we have got a telegram from the employees association of the national library expressing serious misgivings about the provisions of this Bill. They want to have the matter considered and discussed with the appropriate authorities to see that the maladies which have been prevailing in this institution should no longer continue and what real steps can be taken to rectify it. I am sorry to say that except for setting up two bodies, this Bill really does not deal with the subject-matters which are to be tackled properly. From the statement of objects and reasons, it is clear that this Bill has been brought for the purpose of giving

effect to the recommendations or it is drawn upon the basis of the recommendation of the Jha Committee appointed by the Government of India in 1968. It is a completely misleading statement because none of the major recommendations of this committee has been accepted except that there should be a Director of the library. The minister was at pains to show that the Governing Council could not be set up by resolution otherwise than by statute. That is a matter of procedure. But even the other major recommendations do not find a place in the Bill. It is supposed to be left to the rule-making or regulation-making power of the Central Government.

Unfortunately during the last few years, this library has become the hotbed of intrigues and there have been feuds between the librarian and the deputy librarian. Serious charges and allegations have been made against the management by the employees' association which, I believe, really promoted the Government to set up the Jha Committee. There has been a very unfortunate deterioration in the standard of the services rendered by this library. There have been repeated complaints of books being piled up and not taken care of, books being stolen and no real, effective steps were taken.

If you go through the report of the Jha Committee and the minute of dissent, you will find that a very sorry state of affairs was prevailing. We have to see how far that state of affairs can be changed by the method that is sought to be adopted by setting up a board or committee. With your permission, I would like to read from pages 95 and 96 of the Jha Committee report:

"We are anxious that sanity and understanding should be restored to enable proper functioning of the library and one important step towards this end is to create conditions which will enable dialogue between members of the staff or."

(Shri Somnath Chatterjee)

all important issues. We understand that Joint Staff Council comprised of the representatives of the staff and the Librarian has already been constituted and that it has been working since May 1968. The necessity of such Joint Staff Councils is a recognised need in any large organisation....” etc.

Therefore, the position of the library has almost reached a scandalous state of affairs. There is an elaborate reference to the disputes and feuds that have been going on between the different staff.

One of the major recommendations of the committee has been the setting up of a Governing Council or Executive Council. The recommendation is to leave the matters to the Governing Council with the requisite membership and persons of accepted merit and ability with proficiency in this branch of learning, i.e. library science, should be taken into it. But kindly see what has been provided in this Bill. A two-tier system of administration is set up. Really, dyarchy is being introduced here. When previously it was seen that the management by the Government and the Advisory Council did not bring about a smooth state of affairs, now why is this dyarchy being introduced one can understand that the board is being given the powers to look after the management. The Executive Council is not now being again proposed to be put up. Kindly see clause 10. It gives completely undefined powers. The Bill does not say what will be the functions of this Council. First of all, it does not say who will appoint this Council. I believe it is a drafting lacuna, for which I have given notice of an amendment. Clause 10(3) says:

“The Executive Council shall exercise such of the powers and perform such of the duties of the Board as may be prescribed or as the Board may delegate to it subject to such conditions as the Board may deem fit.”

So far as Parliament is concerned, it is not laying down the real duties and functions of the Executive Council. Nowhere is it stated as to what will be the duties and functions of the Executive Council, who will be the members and why is it necessary to set up another body consisting of persons different from the Board. I could have understood some principle being laid down as to who are eligible to be the members of the Board. No such provision has been made. May be, a representative of the employees' association will be a member of the Executive Council. But even that is not made clear. May be, the Executive Council will look after the day to day affairs of the National Library, but by going through the Bill you will not find what are the purposes and duties of the Executive Council.

Merely the setting up of some committees or boards will not solve the problem. If Parliament wants to lay down the criteria, if we have to sanction the Executive Council, then we must draft the constitution. Merely saying some members may be taken into it, without laying down any guiding principle as to what type of persons would be taken in, what would be their duties and functions, what would be the ambit of their power, that will not be acting on the recommendations of the Jha Committee.

I did not hear the Minister saying anything in justification of the setting up of the Executive Council, though he had taken great pains to say that the Governing Council could not be formed by resolution. This requires to be clarified. On this matter there are some apprehensions in the minds of the employees. They have made a representation on the Jha Committee Report. I want to know whether their genuine apprehension in that representation has at all been considered by government.

Everybody wants that this should be a premier institution of which we should be proud, which should discharge its expected role in the development and progress of learning in this country. But when we are framing the legislation for such a body, we are not able to lay down the guiding principles even for the management and administration. We do not want to interfere in the day-to-day affairs of this institution or the library. But Parliament should lay down the general guiding principles, the constitution of the staff committees and councils.

The hon. Minister stated that the very welcome recommendations made by the Jha Committee with regard to the formation of the various committees have been accepted. Where does that find a place in the Bill? You will not find any reference to any power being given, either to the Board or the Council, to form committees or sub-committees, as recommended by the Jha Committee, or as suggested by the employees' association. They have submitted a lengthy memorandum and I would request the hon. Minister to go through it. The very constructive suggestions given by the Jha Committee and repeated by the employees' association have not been implemented here.

Even the rule-making power, which is contained in clause 29, giving certain rights to the Central Government to frame rules, do not visualize the formation of committees or sub-committee. The regulation-making power, which has been conferred on the Board under clause 30, is equally lacking in that respect. Therefore, we wonder whether any real thought has been given to these aspects. The hon. Minister may be in sympathy with some of the recommendations made by the Committee. Does the Bill give effect to those recommendations?

You will find no provision has been made here. The committees or the

sub-committees may be formed. The hon. Minister will say that the Board can form some committees or sub-committees. But they will not have the requisite legislative sanction behind them. Those committees or sub-committees will be just mere certain bodies of the Board. They can only be committees or sub-committees of the Board consisting of same members as the Board. They will not have any statutory competence or statutory position with regard to the discharge of various duties and functions. If you go through the major recommendations, you will find various committees and sub-committees have been suggested to be formed for the purpose of working of the National Library.

Then, with regard to various technical services which have been recommended by the Jha Committee, they do not find any place in the Bill. I find, from p. 102 or 103 of the Committee's Report, various suggestions have been made and they do not find any place in the Bill.

So far as the staff relations are concerned, this is a very important aspect. You will find from the Report of the Committee as also from the representations submitted by the Employees' Association that this is a matter which has created such a state of affairs that the proper functioning of the National Library has come to a stand-still. There are allegations against successive Librarians, Deputy Librarian making charges against the Librarian, that appointments and requirements, were being made without following any basis or system. There are charges of nepotism; there are charges of corruption and there are charges of mal-functioning of the Library. These are all the charges made. The Committee went through them also. That aspect is dealt with in the Committee Report as well.

[Shri Somnath Chatterjee]

I would like to read one part of the Report, p. 87:

"The Staff Association's catalogue of allegations against successive Librarians is long and discursive. The members of the Association met the Committee and discussed in great detail the various points raised in the memorandum. Their grievances range over a wide field and make allegations against the manner in which the Librarians functioned. Complaints of nepotism, favouritism, negligence of duty, harassment and various other acts of omission and commission are freely made. For example, allegations of negligence, unfairness and nepotism are made against the ex-Librarian, Shri Y. M. Mulay."

It goes on. The charges have been made against the then Librarian, the Member-Secretary who was the Librarian at that time. The charges and allegations have been made against him also.

We find, so far as this aspect is concerned, really no proper thought has been given to it. The approach is nothing but a bureaucratic approach. The only suggestion that has been accepted is to have a Director of this Library who will be a distinguished Librarian. But so far as the Director's functions are concerned, you will find no provision has been laid down. What will be the functions of the Director? He shall be the Chairman of the Executive Council. Apart from that, what will be the functions of the Director? Nowhere it has been laid down. That is not provided at all. Vague powers are being conferred on the Executive Council. Nobody knows what will be their powers. The Board is being given certain general powers. Director is being appointed but his powers are not being defined under the Act. Various difficulties and defects in the functioning of the Library have been pointed out earlier. They

have not been taken note of. Therefore, I submit, this Bill requires greater consideration and that merely substituting a Board consisting of nominees of the Government will not solve the problem. We shall have the Secretaries of the two Departments here, then we shall have the Director, etc., in the Board. But that will not necessarily solve the problem. We want all the aspects to be properly gone into. The matter should receive the most serious attention of the Government.

So far as two other aspects are concerned, I wish to make my submissions, i.e., how in the past it has been functioning and what should be done in the future, namely, with regard to supply of publications to the National Library. Under an appropriate statute, we all know, all publications have to be supplied to the National Library. I am reading from page 96 of the Jha Committee Report which says in paragraph 163:

"Four librarians, at Calcutta, Executive Council. Nobody knows Delhi, Madras and Bombay, are entitled, under the law, to the delivery at their door of every book printed in India, but the behests of the law are quite often unheeded, lacunae in the legislation assisting the default. Of them, the National Library at Calcutta the premier institution of its kind in the country, as its nomenclature indicates collects the maximum number of such books. Even so, it has fairly gaping gaps and has, over the years, suffered such vicissitudes that, though by a long chalk the largest library in India, it compares so poorly with corresponding institutions in advanced countries that at least a few witnesses before the Reviewing Committee have been constrained to call it 'a misnomer'.

This is a matter which is already being complained of by persons who go to the National Library to use its

reference section or use the books there that all the publications which, under the Statute, have to be supplied to the National Library are not available there. Apart from the way they are kept—they are kept in the most uncared-for manner, not properly arranged or stacked—books have been stolen; no proper attention is being given. The Librarian, the Deputy Librarian and other important staff are fighting among themselves. That is the position there. This has to be looked after. No provision has been made here to remove the lacunae which are there in the previous Act. The opportunity could have been taken, through this Bill, to remove those lacunae.

The other point is about Central assistance. The hon. Minister has said that we cannot make provision of as much funds as are required. But we would like to know what is the estimate, according to the Government, of the requirement of funds, how much is made available and what is the proposal, in future, to make larger resources available to the National Library. Merely saying that we have the greatest support for the National Library, we want it to develop and progress, will not do. We want to know whether any assessment has been made by Government with regard to these aspects—What are the requirements according to the Government? Has any estimate been prepared or has any estimate been submitted? How much funds have been made available or will be made available in the Fifth Plan, of which we do not know the shape, or what is the proposal of the Government.

There are certain drafting anomalies which I would like to point out to the hon. Minister. I will make my submissions in greater detail on some of the amendments that I have given when clause-by-clause consideration is taken up.

I would like to speak about Clause 10. Clause 10, sub-clause (1) says:

"There shall be an Executive Council of the Board consisting of such number of members as the Board may think fit."

How many members will there be on the Executive Council, i.e., the numerical strength, will be decided by the Board. Sub-Clause (2) says

"The Director of the Library shall be the Chairman of the Executive Council and the other members thereof shall be appointed from among the members of the Board or from outside..." etc.

But by whom? No thought has been given to it. Who will appoint them, nowhere has it been stated. There are some other aspects also which I shall deal with when we come to the amendments.

Before I conclude, I would like to make my submission on the staff position, the relation between the authorities and the staff. Under the Bill provision is being made for the transfer of services of the existing employees to the Board. But the provision is made that unless and until his employment in the Board is terminated, he will continue.

Or, until such tenure, remuneration and terms and conditions are duly altered by the Board, their present terms and conditions will remain. There is a proviso no doubt, which says that they shall not be altered to the disadvantage of the employee without the previous approval of the Central Government. Kindly see the attitude. Therefore, any and every employee of the Board, when his service is statutorily transferred to the Board, remains completely at their mercy because his employment may be terminated. On what basis his employment can be terminated has not been laid down. It may be at the sweet will of the Board because except for the purposes of remuneration or terms of employment no approval of the Central Government is necessary. If only his terms and conditions are altered to his disadvantage, the

[Shri Somnath Chatterjee]

approval of the Central Government is necessary. So far as termination is concerned, there is no provision made. We want to make this submission. So far as the facilities which are being utilised by the employees are concerned, their service conditions, their channels of promotion, their recruitment rules should otherwise be operative, and they should continue. Therefore, with regard to this alteration of the tenure, remuneration and terms and conditions, why should even the Central Government take the power to alter them to the disadvantage of the employees? No rationale has been given. Why should the employees now be left completely at the mercy of the Central Government? Now they lose the protection of what is known as protection under Art 311 of the Constitution of India. Once they cease to be employees of the Central Government or of any Government, they become employees of the statutory Board and the law as laid down now by the Supreme Court repeatedly is that the employees of the statutory corporations and statutory bodies like the one proposed to be set up under this Bill will not be civil servants. They will not be holding civil posts. They will not get the benefit of Art. 311 of the Constitution of India which safeguards the employment conditions of Government employees. Now they do not enjoy any longer or they would not enjoy any longer the protection of the Constitution of India, the safeguards that are provided and they become completely at the mercy of the Central Government. The Central Government now can change the terms and conditions if the Board approaches them and they may very well say, 'We approve of the terms and conditions' or may change them. Therefore, we want whatever has so far been enjoyed by them apart from the grievances, their grievances ought to be looked into expeditiously and they should be rectified and remedied should remain.

Why should the terms and conditions of the employees be left at the mercy of the Government?

There are various aspects of this Bill which we consider, require a deep consideration, and, above all, the viewpoints of the employees should also be taken into consideration. We have grave doubts whether they have at all been considered before this Bill has been framed. Therefore, we support Prof. Mukerjee's amendment to have the Bill circulated for eliciting public opinion.

SHRI H. N. MUKERJEE (Calcutta-North-East): I am distressed that in spite of my partiality to the Minister of Education, I am driven to have to criticise him very strongly in respect of repeated legislation which he has brought before this House, legislation which is generally brought in a hurry so that the Minister might report at leisure, legislation which perhaps makes it a point of excluding consultation with the House by way either of reference to the Select Committee or by circulation for eliciting public opinion or anything. Perhaps, being in an avuncular position I have to speak to him like what the Europeans say, a 'Dutch uncle', but I do not enjoy the experience. I have also to say the reason why I could put in my motion regarding eliciting of opinion so late was because I was out of town for three or four days and I discovered that this motion was right there for discussion yesterday and I had no other option but to send a belated notice.

I have heard from the Minister that he has at last condescended to give his attention to the Jha Committee's recommendations and bring up this legislation. I have had the privilege, or I do not know what, of having been a Member of the Jha Committee, and, because of that, I have desisted on so many occasions from asking questions in this House

about the National Library because I was waiting to see what the Government proposes to do about that Institution. From what I have seen so far, Sir, I have a feeling that—the idea which Jawaharlal Nehru had about the National Library, and Maulana Azad had when he inaugurated the ceremony of the acquisition of the Belvedere premises, the former residence of the Viceroy of India for the National Library, the dream which Abdul Kalam Azad had given expression to in those days,—has vanished a long time ago in the arid wastes of the Secretariat and the Jha Committee report and the earlier report to which I also happen to be a party are awaiting what Karl Marx once said, “the gnawing criticism of mice” and not the civilised consideration of a really perceptive Government. In regard to this institution, the National Library, this Bill has been formulated. As Mr. Chatterjee said, it is a bureaucratic measure, a piece of desk-work by a few people who happen to have no idea, no interest, in regard to a thing like the National Library.

And, that is why the first legislation that we are going to have on our statute-book on the National Library is what it is and the Minister proposes to rush it through this House. We do not know why the Minister comes at the fag end of the session with this kind of legislative measure. It is something which passes comprehension; but the way things go on in Parliament, it is better we give up trying to comprehend what happens and why it happens in this country.

The Minister has said, for instance, in regard to the two points which he pressed, that he has tried to follow the Jha Committee's recommendations and he has given an autonomous Board. Sir, the Jha Committee was composed of humble people, laymen, who may not have known all the intricacies of law. When they talked about autonomy, they only

intended that a national centre of scholarship should have the opportunity of autonomous functioning and that should be made sure of by Parliament. If we made a statement which was contradictory it might have rejoiced the hearts of the law advisers of the Ministry, but it is neither here nor there.

What the Jha Committee wanted was that this National Centre of Scholarship should be looked after properly. And, to have it done, it is necessary to have a Director of the proper character, the proper status and the proper calibre and a body which would look after it without being treated as a pettifogging Government Department, Supervised from Delhi or its hangers-on in different parts of the country. That was the idea with which this Committee asked for an autonomous body and they have now given us an autonomous body in this sort of sophisticated legislation which they consider to be right, which the Jha Committee had not thought of. At least one Joint Secretary of his Ministry functioning at that time had been a Member of this Committee and he had not pointed out that this anomaly or this contradiction was likely to arise out of the report. But, let us forget that. The Minister in his wisdom has given the National Library an autonomous body and he says: ‘I am following the dictates of the Jha Committee’. But what has he done? I am quoting from page 21 of this cyclostyled report. The Jha Committee's report has not even been printed, as far as I know. The Jha Committee's report has not even been supplied in its entirety to Members of Parliament or even to a former Member of the Committee itself. The Member Secretary of the Jha Committee who happens to be a favourite employee of this Ministry signed the report in front of all of us and he never indicated that he would give a note of dissent, but taking advantage of the generosity of Mr. Jha—a genuine gentleman of the old brand,—gave a

[Shri H. N. Mukerjee]

note of dissent, made fantastic statements in that note of dissent to an extent that the Chairman Mr. Jha had to write a special note in order to correct the misunderstandings created by the Member Secretary, and then the Member Secretary had the gumption to produce another counter-note to Chairman Jha's report, which document has not been made available to us, let alone Members of Parliament or the members of the public. That is how the Jha Committee is treated. But let that apart, we are perhaps having to get used to this kind of activity on the part of certain busy-bodies in the administration.

The Jha Committee wanted a governing council exercising real authority, and they wanted eminent professors from universities, distinguished educationists and administrators of proved worth and of an academic bent of mind and scientists of repute. It is not merely that people who hold positions should be members of the council. This governing council should meet at least thrice a year. A third of the members should be replaced every year by the principle of rotation, allowing for regional and other representation. They should have the fullest liberty to function within the budget allotted. The selection should be made in such a manner that the various regions of the country and various interests are represented in the council with no preponderance given to any particular region. This was a very clear formulation by the committee in regard to what this autonomous body should be like. They have given us a body consisting of ten people, that is, the Secretary in the Ministry of Culture or whatever it is, the Secretary in the Ministry of Finance, six persons to be nominated by the Central Government of whom four shall be academicians of some sort, and one shall be a representative of the universities, and the other shall be from among persons who in the

opinion of the Central Government have knowledge of and experience in science and technology, one person to be nominated by the chairman of the UGC and the director of the library. Out of ten persons, three are more or less likely to be Government nominees of the usual brand who would just go to supervise things, just go to make sure that some rule or other in their book is observed, and seven other people would be there. How are they going to function? How can they run a library with a national character?

Sometimes, I have heard the allegation which is absolutely rotten and unfounded that because the National Library has been in Calcutta, some of these Calcutta people want to monopolise the show, and they want not only to retain the national library there but also they want to continue control of it. But that sort of slander passes muster in the corridors of Delhi. I know also how schemes have been prepared from time to time to shift the National Library altogether from Calcutta and to have it somewhere else, obviously in Delhi, where crores are there for the asking and you can spend millions of money for all sorts of projects. But at any rate, I am glad that Government says now that the National Library shall be at Calcutta.

But we have tried—and the committee was composed of not merely the Bengalis living in Calcutta, but people representing all parts of the country and the committee wanted to make sure that the library should be run by a representative council representing all the regions of the country and representing the totality of intellectual life of our country.

If we want the national library to be what it ought to be, and surely I expect Prof. S. Nurul Hasan to recognise and try as much as it lies in his power to see to it that we do have a national library as a proper centre for research and intellectual guidance then surely this national library requires not a committee con-

sisting of ten people of whom three are obviously Government people and seven are nominated, who have other assignments and who never know how and when to attend meetings. You cannot have a body consisting only of ten people who can run, for the purposes that you intend, the National Library. That is why we have got the executive council which they are going to have, formed in a completely indeterminate manner, and that would be done according to the behest not of Prof. S. Nurul Hasan as an academician, but at the behest of his advisers who want to keep things entirely under their thumb, things they do not know a thing about, things that they can never dream about, things of an intellectual nature of which they have not the slightest little apprehension; those things are now going to be controlled by people in Government who bring out this sort of legislation.

In regard to autonomy, this is what the Bill tries to do, distorting entirely the recommendation of the Jha Committee. In regard to the Director, my hon. friend, Shri Chatterjee, even though he is a trained lawyer, unfortunately failed to see how the Government have decided—and they are free to do so—to play a trick, a fraud, upon the Jha Committee's recommendation. Ostensibly claiming to satisfy the Jha Committee's desire, they have now given us a Director. And what does it say about the Director? This is in clause 13.

"The Central Government shall appoint a person, who in its opinion possesses academical qualifications of distinction or is a distinguished Librarian, as the Director of the Library".

The Jha Committee had said—I am quoting its own words, page 22, paragraph 41:

"The Committee recommends the appointment of a Director of the National Library who should also be *ex-officio* Chairman of the

Governing Council. The Director should be selected from amongst distinguished scholars with administrative competence. Professional librarians who have reached outstanding status and who command respect in the academic world should also be eligible for appointment to the post. His salary and status should be comparable with those of Vice-Chancellors of Central Universities".

The stress here—I wish the Minister takes note of it; you will understand the distinction—is on the fact that we need for an institution like a National Library a Director who should be academically acceptable, who should be eminent, as a person who would be consulted respectfully by members of the academic world from different parts of the country. The Director of the National Library is one of the leaders of the intellectual life in this country, while we have seen what has happened. The rot in the National Library began when instead of comparatively imaginative people of intellectual stature and spiritual attainments, we got people belonging to a completely different mettle.

There was Mr. Chapman in the old British days who, at any rate, had the kind of width of mind to translate the Shakta and Vishnav lyrics into English, who had a sort of understanding and sympathy for Indian culture. We had the great Harinath De in the old days who died very young, who was the first Indian Librarian of this institution, who was a stupendous scholar, not only a linguist but a really encyclopaedic scholar. Since those days we got appointments of footing little people who, if they have got a certificate from a Library Association, imagine they know all the tricks of the library trade and, therefore, they can be head of an institution like the National Library.

That is why I was constrained to say during the Jha Committee proceedings that Moolay who came as Librarian was a misfortune and Shri Kalia who

[Shri H. N. Mukerjee]

followed was a calamity. This kind of thing went on because people with no real understanding of library problems, no perception of the intellectual life of this country, no stature, personal or intellectual, which would be respected by people who come to consult the Library—these were ruling the roost. They want to come back by the back-door, these miserable people; the Member—Secretary, against whom things have had to be said in spite of the politeness we could muster in the Jha Committee's report, basking in the sunshine of the favour of Delhi bureaucrats, drawing the same pay and that sort of thing and hopes to come back, I expect, as Director of the Library with a heightened status..

That is why it merely says 'or':

"The Central Government shall appoint a person, who in its opinion possesses academical qualifications of distinction or is a distinguished Librarian, as the Director of the Library".

We have had distinguished Librarians. We wanted that to be a distinguished Librarian is no bar to be at the same time a very distinguished academician. Only the other day the Government had appointed—I do not want to name the persons—as Director of an institution high up in the hills, in the Himalayas, who was a distinguished Librarian as well as a distinguished academician. This country is not so poor in talent that we cannot have people who are good in both jobs, librarianship as well as academics. But there might be occasions when you do not get a purely technically qualified librarian, but you get a very wonderful person. The Library of Congress in Washington once appointed a poet called Archibald McLeish as Librarian of the Library of Congress, and he did a great deal to revolutionise the entire functioning of the Library of Congress. Do we not have any idea about the perspective of the development of our national library?

What is Prof. Nurul Hasan, if he has not entirely said good-bye to all his past accomplishments and aspirations, doing? What is he doing in regard to the development of the national library? Why is he a party to this kind of legislation which can come from the deadwood of the desks behind which sit all his minions but which has nothing whatever to do with the intellectual life of the country, which does not care to take note of all the ardour and the desire of the members of the Jha Committee who wanted to see in this national library a new movement? Why is there no mention of what the Jha Committee has said over and over again—that we want in this country a full-fledged effort to have national libraries where we would find the collections in all our regional languages? There is no reference in the Bill to the idea that the national library at Calcutta should be at the apex of the pyramid, so to speak, and there will be regional and national libraries. We are a large country which cannot be served perhaps by only one national library. There has to be a national library; one is there already; you need not dismantle it; you need not push it out. We can have the apex; we can have the different regional national libraries. But here there is nothing at all.

Mr. Chatterjee complained very rightly; where is any reference to what is to be done by these people? The Jha Committee tried to supply a few things; collect everything published in India. Nowhere is in this Bill any directive that all efforts should be made provided, of course, that it is within the range of possibility to collect everything published in India under one roof. Then we have to collect everything on India published abroad in different languages. We shall have to make special efforts to collect and preserve the valuable books, manuscripts and treasures of similar description which are in different places. We have not got anything like the Historical Records Commission in Britain, where they

go and collect these things from the treasure-houses of the different aristocratic families. We do not do these things.

We suggested also that the Indian National Bibliography has to be taken care of, which was neglected all the time. Only recently for a flare-up period, the Indian National Bibliography again began to be looked after, but for years the Indian National Bibliography which at one time won the applause of the UNESCO and other international organisations was just given the go-by. We have suggested at the Committee that the specialists should be assisted in their research work and for that provision has to be made. We have suggested the task of reprinting the valuable material and the acquisition of micro-films and other kinds of photo-copies of material from different countries abroad. We have wanted this library to be developed as an international publications exchange centre which every other country, every other mentionable country, has, but this—very large country with so much intellectual resources is not able to do so. There is no mention of anything of that sort here.

The Minister would not even send the Bill for elicitation of public opinion; he would not even send it to the Select Committee. The Minister would not like to consult anybody in regard to legislation which he,—God knows for what reasons—wishes to push through. Would the Heavens fall if this legislation is not passed by this House and the other House before you rise for Christmas? What happens? For more than three years they sat tight on the Jha Committee's report. Even now, the Jha Committee's report is rotting in the archives. Who would lose if you wait a little longer and bring up something which is different? But this sort of legislation is terrible. I do not understand. This Government is a peculiar kettle of fish. It is most queer and unintelligible. Have not they got other jobs

to do? What is their idea? If they wanted to do something about the national library, why not do it more sensibly or do other things, Mulki or anything you like? Do those things which to you seem to be more urgent. But if you are going to deal with the national library, deal with it in a circumspect, thoughtful fashion.

Sir, I am concluding.

I am concluding; perhaps I am taking too much time. I feel something very rotten is the situation of things in the National Library and this Government and its bureaucracy is absolutely incapable and unwilling to look after it; there is no doubt about it in the last few years. The Jha Committee reported in 1969. In 1969-70 the new acquisitions to the National Library according to the report which I have seen were 19,302. In 1970-71 that figure came down to 18,305 and in 1971-72 it came down further to 17,557. Books are multiplying and the Parliament Library under your direction is having to buy so much because so many more books are coming out these days but the National Library acquires less. Old and valuable acquisitions are going waste. The newspaper section in Esplanade, five kilometres from Belvadere, where most valuable material, brittle material, is there, is absolutely going to waste because people do not look after it. No attempt is made to look after it of course there is the question of employees being at logger heads; it needs sympathetic treatment. The joint council between employees and others is not being worked properly. There are so many other things that could be said but I would not try your patience any longer.

I would say with every emphasis at my disposal that if this Government has the slightest little interest, seriously speaking, in the National Library it should look after it properly and not deal with it in a lackadaisical, bureaucratic manner. It has given

[Shri H. N. Mukerjee]
 the Jha Committee a slap in the face by interpreting its recommendations for autonomy and the appointment of an intellectually capable director by giving it a twist and turn which is entirely dishonest and it has done great disservice to Indian scholarship by making of the National Library Bill a putrid and bureaucratic document that it is. It is something which should be withdrawn by the Minister unless he can give an undertaking to the House that he is going to accept my motion for circulating this Bill for eliciting public opinion in the next three or four months or he agrees to a Select Committee of Members of the House who are good enough for any job of work to sit down with him during January and produce a Bill which could be passed into law in February. But this legislation which with any understanding of the intellectual requirements of our country. I cannot for one fraction of a moment persuade myself to be a party to, and that is why I am entirely opposed to the Bill as it has been formulated.

MR. DEPUTY-SPEAKER: There are some other names and I shall call them later.....(Interruptions). I am not shutting out anybody. The Minister would like to intervene just for a little while; perhaps he has something to say in response to what Prof. Mukerjee has said.

SHRI SAMAR GUHA: I submit to you that if the Minister makes his intervention now, how are we to say something?

MR. DEPUTY-SPEAKER: You may say something later on.....(Interruptions). I am not shutting you out.

SHRI SAMAR GUHA: It is not the usual procedure; the Minister wants to make certain observations or changes the piloting of the Bill; it can be after other Members have spoken.....

MR. DEPUTY-SPEAKER: I have understood you. The Minister is not going to reply now. It is within

Parliamentary practice, I think, even for Members to intervene in the midst of another Member's submission. He could have got up and intervened while Prof. Mukerjee spoke. Now, before somebody else is called he has something to say and I have allowed him.

डा० लक्ष्मीनारायण पांडेय (मंदसौर) :
 उपाध्यक्ष महोदय, स्पष्टीकरण करना हो तो दूसरी बात है लेकिन रिलाई देना हो तो सभी सदस्यों की सुनने के बाद मंत्री महोदय को ऐसा करना चाहिए ।

PROF. S. NURUL HASAN. I am not going to venture a reply to any of the points that have been made in this debate, although I would have had to offer at least some observations. I would like to accept the point that has been so forcefully made by the two hon. members. I seek your indulgence to move that the debate on this Bill be adjourned and tomorrow I shall bring before the House a motion for referring the Bill to a Joint Committee of the two Houses.

16.00 hrs.

I beg to move:

"That the debate on the Bill be adjourned".

SHRI SAMAR GUHA: Now tell me whether I was justified in raising it or not.

MR. DEPUTY-SPEAKER: Justified in what?

SHRI SAMAR GUHA: If a motion comes tomorrow for reference of the Bill to a Joint Committee, naturally it is not desirable that any member should take part in the discussion. You know I have raised innumerable questions in relation to this Library.

MR. DEPUTY-SPEAKER: Even when a motion to refer a Bill to a Joint Committee is brought before the House, that does not prevent members from making observations and those observations will go to the Joint Committee for the guidance of the Committee. If your worry is that you are being debarred from making

Your observations, it is unfounded.

SHRI SAMAR GUHA: The motion is to adjourn the debate.

MR. DEPUTY-SPEAKER: Adjourn it till tomorrow.

SHRI SAMAR GUHA: The practice in this House has been, whenever a motion is brought to refer a Bill to a Joint Committee, no member speaks. It is adopted in a minute.

MR. DEPUTY-SPEAKER: This is a wrong understanding of the procedure. If your worry is that you are being debarred from making your observations, I say your worry is unfounded. Kindly cool down. You will notice very often when the report from the Business Advisory Committee comes before the House, whenever a question arises that a Bill should be referred to a Joint Committee, there is always a note "May be disposed of without discussion". Why? It is because normally discussion takes place even on the motion to refer the Bill to a Joint Committee. That is the practice. (Interruption). Order please. This is my ruling. Because this is the practice, it is necessary to add a note that it may be disposed of without discussion. Very often it is the practice here and I know members do make observations on the motion and those observations go to the Joint Committee when it is appointed, for the guidance of the Joint Committee. I do not see how your worries are founded on anything. If this is your worry, it is baseless, when it comes up, I will assure you, you will be given full opportunity to make your observations.

SHRI SAMAR GUHA: Whenever such motions come, it takes away the whole zest from the speaker to put forth his points. Neither the House takes it seriously nor the members can speak seriously. Therefore, my humble submission is that at least half an

hour or 45 minutes should be allotted for this and then it should be referred to a Select Committee.

MR. DEPUTY-SPEAKER: When there is a motion for reference to the Select Committee, I think your speech would have added importance both for the House and also the Select Committee. Therefore, you should be able to speak with more vigour.

SHRI SAMAR GUHA: Even when the discussion on a motion is adjourned, members should be allowed to express their mind. How can you suddenly adjourn discussion like this? Such a thing never happened. As soon as a motion is moved that it should be referred to a Select Committee, no member speaks; that is the convention.

MR. DEPUTY-SPEAKER: You can take it as my ruling that this is not the practice and you will not be debarred from speaking. I think you should be satisfied with this.

SHRI SAMAR GUHA: If a motion is brought forward that it has to be referred to a Select Committee, no sensible member of the House should take the time of the House in making suggestions. That is not the practice. So, I would humbly request you to give at least half an hour or 45 minutes for this discussion.

MR. DEPUTY-SPEAKER: I have accepted this motion of the hon. Minister. The question is whether it should be put to vote or not. In response to the criticism made by Professor Mukerjee and other speakers, the hon. Minister desires to bring a motion to refer the Bill to a Select Committee. The motion before the House is whether the debate on this motion be adjourned or not. If he wants to speak on that he is at liberty to do that, but not on the main Bill.

SHRI SAMAR GUHA: I am happy to note that the hon. Education Minister has agreed to refer the Bill to a Select Committee. But, as I have already said, as soon as that motion is brought before this House, no sensible member should try to speak on it. It should be adopted in a minute.

I raised innumerable questions in relation to the National Library on the floor of this House during the last Parliament and also this Parliament. There is some kind of hush-hush discussion going on as though some people want to use the National Library in Calcutta as a provincial library. It is not a fact. Although the National Library is located in Calcutta, it is the national library, the premier library in the whole of this country. This library was established in 1903 as the Imperial Library. In 1948 it was converted into National Library. It has a collection of 50 lakhs of books and manuscripts out of which about 2 lakhs of volumes were contributed by Asutosh Mukerjee, Ramdas Sen and others. This library was established by the citizens of Calcutta in 1836. It is a matter of tragedy, intellectual tragedy, that during the last 25 years of our independence only one public library has been established by the Central Government, and that is in Delhi. In Madras, in Bombay, there is no such kind of public library. Although, under the Delivery of Books Act, thousands of books are being submitted to the Government, to Bombay and Madras also, there is no such library, in the sense of National Library either in Bombay or in Madras.

In 1959, the Library Advisory Committee was set up. Though they submitted a report, the Government did not care to go through the report and implement its recommendations. No attention has been given to the institution of library in our country. We talk of net-work of libraries; we talk of education, research work and

scholarships; we talk of many things; we talk of intellectual equipment; we talk of intellectual development. But for any kind of intellectual development, it is absolutely essential that the network of such libraries should be there in different regional areas. Except the National Library in Calcutta and a recent one, public library, in Delhi, there is no National Library worth the name in any part of the country. For the last 25 years, we have neglected the intellectual development of the country. No research work can be properly done without such libraries.

I want to make one observation here. As my hon. friend, Prof. Mukerjee has said, it fails my comprehension as to how could such a Bill which is hybrid in concept, which is ill-drafted in most of the provisions adumbrated in the body of the Bill, be brought before the House. The governing body of the National Library has been conceived as an autonomous body. But out of 10, 9 persons will be nominated. The management will be worse than what my hon. friend, Prof. Mukerjee has said. That is also my apprehension. Mr. Kalia may be the controlling agent....

PROF. S. NURUL HASAN: Sir, I would request the hon. Member through you that the names may not please be mentioned in connection with the consideration of the motion as to whether the debate should be adjourned or not.

SHRI SAMAR GUHA: I never mention any name of any particular person. But the name of Mr. Kalia, from 'A' to 'Z', is there in the Jha Committee's Report.

PROF. S. NURUL HASAN: If any of my officers is named like that, I would have to come to you to seek your protection because it is very embarrassing for me to sit here and listen to observations being made on a very simple motion which seeks to adjourn the debate till tomorrow morning.

MR. DEPUTY-SPEAKER: In the first place, it is the question of whether the debate on the Bill should be adjourned or not. That is a limited question. Even so, you have gone out of the way. Knowing your pent-up feelings, I listened to you. Secondly, it is never the practice to mention names of officers in the House. We shall bring down the prestige, the dignity of the House if we drag the officers into the floor of the House. I think, you should avoid doing that. Kindly don't mention any names. This House is too important to mention any name of a particular officer.

SHRI SAMAR GUHA: He is holding the key to the administration of the National Library even now. That is the whole problem....

MR. DEPUTY-SPEAKER: The Minister is answerable to this House. Let him deal with the officer. Let us not elevate the officer to such an extent that he is so important that his name should be dragged into the floor of the House.

SHRI SAMAR GUHA: May I put one question to him? Whether the awareness of the hon. Minister was there when my hon. friend, Prof. Mukerjee, categorically mention "Mr. Kalia is a calamity" or it was in hibernation?

MR. DEPUTY SPEAKER: Kindly don't proceed further.

SHRI SAMAR GUHA: Let me say, Mr. 'X' or Mr. 'K'. But neither Mr. 'X' nor Mr. 'K' will explain the whole thing. Then, the Khosla Committee was appointed on the basis of the Jha Committee's recommendations. The credit goes to that gentleman, Mr. Keshvan who succeeded in revealing the National Library and, after him, another Librarian came, Mr. Mulay.....

AN HON. MEMBER: He is repeatedly mentioning the names.

श्री केशवन् गुहा (बनौलाबाद) :
सभापति महोदय, मूलनीय सदस्य बार बार एक प्रकार का नाम सदन में ले रहे हैं। सदन की मर्यादा कैसे रहेगी यह हम जानना चाहते हैं।

MR. DEPUTY-SPEAKER: Order, please. Whatever has gone on record has gone. Please do not proceed further with it. Avoid mentioning names.

SHRI SAMAR GUHA: All right, Sir. I shall use 'X', 'Y', 'Z'. To whom the credit goes, even for that I will not be able to mention the name. To Mr. Kesavan goes the credit for having revealed the whole structure and the functioning of the National Library. After that one 'X' came, but he was most of the time absent. (Interruption) After 'X', came 'Y' and he created all the troubles in the National Library. Thousands of books were lost. It was the Deputy Librarian who pointed out to 'Y' that these thefts and pilferage of books should be stopped, certain mal-administration should be stopped, vindictiveness should be stopped, the bitter relations that 'Y' had developed with the employees should be stopped. There was trouble in the National Library. (Interruption). But when 'Y' was relieved of the post of Librarian according to the recommendations of the Khosla Committee and was kicked upstairs and made Librarian of the Central Government Library, the post of Librarian was left vacant. National intellectuals, national professors like Shri Suniti Kumar Chattopadhyaya, Shri Sathyen Ghosh, the Vice-Chancellors of the Calcutta University, Jadavpur University and Ravindra Bharati, eminent historians like Dr. R. C. Majumdar, the Chief Justice of Calcutta, all of them said that the Deputy Librarian is a 'living bibliography'—these are not by words; these are their words—and that he should be made the Librarian. Some of them said that such a scholar was rare in the National Library. But, unfortunately....

MR. DEPUTY-SPEAKER: You are not speaking on the Bill. You are speaking on the working of the Library.

SHRI SAMAR GUHA: Injustice has been done to him, Sir. I want to put it on record. I am speaking consciously. I want to put it on record.

MR. DEPUTY-SPEAKER: But that should be relevant to the Bill.

SHRI SAMAR GUHA: A great injustice has been done to that gentleman.

PROF. S. NURUL HASAN: If the hon. Member is canvassing for the appointment of a particular individual, he might do it privately and might not take the time of the House for that.

SHRI SAMAR GUHA: This Memorandum was sent by all national professors, eminent Vice Chancellors, and eminent scholars to the Education Minister—and not to me—but he did not take care. That gentleman, an erudite scholar, a 'living bibliography', was shunted out—not for his own fault—to become the Librarian of the Central Reference Library, with an equivalent status of Librarian. There was no library there, there were no books, no readers, no scholars; it was only a body for compilation....

MR. DEPUTY-SPEAKER: Which Library you were referring to?

SHRI SAMAR GUHA: Central Reference Library.

MR. DEPUTY-SPEAKER: We are not talking of that Library; we are talking of some other Library.

SHRI SAMAR GUHA: The Deputy Librarian of the National Library was shunted out—not at all for his fault—to that place, although, as I mentioned

earlier, so many eminent, national scholars and professors made a request to the Central Government to make him the Librarian....

MR. DEPUTY-SPEAKER: This is very much like, as the Minister said, canvassing for a particular individual. This House should not be used for that purpose.

SHRI SAMAR GUHA: I am not canvassing for anybody. A great injustice has been done to this scholar. Certainly, that is not my habit. Do you mean that all these scholars, all these National Professors, all these Vice-Chancellors were making propaganda for his appointment? They had not sent the memorandum to me, but to the Education Minister. Is this canvassing?

MR. DEPUTY SPEAKER: Here, you are talking about one particular officer, what has been done to him and what he has done and so on.

SHRI SAMAR GUHA: It is these eminent people who sent a memorandum requesting the Government to utilise the services of this erudite scholar.

Then, Sir, this is a measure which, as Prof. Mukerjee, said, is like certain bureaucrats functioning, certain bureaucrats deciding the fate of the National Library and the erudite scholar like the Deputy Librarian who was shunted to a place where he has no function to do....

SHRI VAYALAR RAVI (Chirayinkil): Only last week, this question was raised and the Minister replied to it.

PROF. S. NURUL HASAN: If the proposal of the hon. Member is that appointments be made by this hon. House then it would be entirely in order for a Member to say that so and so is a very deserving person.

SHRI SAMAR GUHA: I want to draw the attention of the House. This House is the house of justice. This House is the house of the national forum. This House is the house of the national conscience and national weal. It is the duty of every Member to voice the injustice, if any, done against any eminent scholar.

SHRI VAYALAR RAVI: Not an individual case.

SHRI SAMAR GUHA: I am recording my protest against the injustice done to an erudite scholar.

SHRI VAYALAR RAVI: It is against the interests of the House. It is a shameful thing.

MR. DEPUTY SPEAKER: Please conclude.

SHRI SAMAR GUHA: In conclusion, I will make a submission that if this Bill is referred to a Joint Select Committee, then the views of these scholars, readers and other educationists, the researchers and also the employees of the National Libraries could also be taken into consideration and the opinion of the Library Association of India, the opinion of the Asiatic Societies of Calcutta and Bombay and similar other organizations and institutions that are dealing with library affairs all over the country should be taken into consideration.

डा० लक्ष्मी नारायण पांडेय : उपाध्यक्ष महोदय, मन्त्री महोदय द्वारा जो बिल को प्रवर समिति को सौंपने का प्रस्ताव आया है उस से मुझ को एक कहावत याद आती है कि देर आयेद दुरुस्त आयेद । देर में आये, ठीक आये । अगर सुबह का भूला शाम को भर आ जाये तो भूला नहीं कहलाता । लेकिन यह बात जरूर है कि इतने बड़े और महत्वपूर्ण पुस्तकालय के बारे में, जिस को राष्ट्रीय

पुस्तकालय की संज्ञा दी जाती है, बिना सोचे विचारे जो विधेयक लाया गया है उस सृष्टि को ठीक करने के लिये यह विधेयक प्रवर समिति को सौंपा जा रहा है ।

प्रो० एस० नुरुल हसन : उपाध्यक्ष महोदय, मैं यह अर्ज करना चाहता हूँ कि अगर अपोजीशन के मेम्बरों की खातिर कोई चीज मंजूर की जाय और उसके ऊपर यह इल्जाम लगाया जाय तो मैं भी पूरा बक्त लूंगा और हर एक बात का जवाब दूंगा ।

डा० लक्ष्मीनारायण पांडेय : मैं एक संरक्षण चाहूंगा कि जो सदस्य इस विधेयक पर अपने विचार व्यक्त करना चाहें, उन्हें चूंकि यह विधेयक प्रवर समिति को सौंपा जा रहा है, इस लिये उम से रोका न जाये । उन्हें अपने विचार व्यक्त करने का पूरा अवसर मिलना चाहिये । कई बार हमने इस प्रकार की प्रैक्टिस देखी है कि जब कोई विधेयक संयुक्त प्रवर समिति को सौंपा जाता है तो इस सदन में उम पर विचार व्यक्त नहीं होते । मैं चाहूंगा कि सभी सदस्यों को इस के बारे में अपनी राय देने का अवसर दिया जाये । मैं चाहूंगा कि माननीय सदस्य इस पर पूरा विचार विनिमय कर सकें और अपनी राय व्यक्त कर सकें ।

MR. DEPUTY SPEAKER: As I said, there is nothing to bar Members from making observations even when a motion to refer a Bill to the Select Committee is there. As a matter of fact, very often Members express their views and they are referred to the Select Committee for its consideration. I have said so when I replied to Mr. Samar Guha's objection.

[Mr. Deputy Speaker]

Now, the question is:

"That the debate on the Bill be adjourned".

The motion was adopted.

**RICHARDSON AND CRUDDAS
LIMITED (ACQUISITION AND
TRANSFER OF UNDERTAKING)
BILL**

THE DEPUTY MINISTER IN THE
MINISTRY OF INDUSTRIAL DEVELOPMENT
(SHRI SIDDHESHWAR PRASAD): I beg to move:*

"That the Bill to provide for the acquisition and transfer of the undertaking of the Richardson and Cruddas Limited, for the reconstruction of the register of its members and for matter connected therewith or incidental thereto, be taken into consideration."

16.26 hrs.

[SHRI R. D. BHANDARE in the Chair]

Richardson and Cruddas Ltd. is an old engineering Company which was established as a partnership firm in 1858 in Bombay. It has at present three workshops—in Bombay, Madras and Nagpur—employing a large number of skilled workmen. As an established engineering company, it has done valuable work for the construction of steel plants, thermal power stations, heavy engineering workshops and railway bridges and for the supply of railway points and crossings and machinery for the rubber and sugar industries.

The partnership firm was acquired by Shri Haridas Mundhra in 1947 and converted into a Limited Company in 1949. One of the Private Limited Companies of Mundhra Group was appointed as Managing Agents. Since

1956, there were complaints of mismanagement and in 1957, it was found that the Company had not held any general meeting for a long time and the filling of the accounts with the Registrar of Companies was in arrears. Several shareholders had not been paid their dividends and share certificates submitted by the Company for registration had not been returned to the persons concerned. The L.I.C., one of the major shareholders, applied to the Calcutta High Court in December, 1957 for the removal of the Directors and Managing Agents and for the appointment of a Special Officer to manage the affairs of the Company and make full enquiries into its affairs. The Special Officer was appointed on the 9th December, 1957.

Subsequent enquiries by the Special Officer revealed financial irregularities resulting in losses to the Company of more than Rs. 40 lakhs. It was also found that there were several claims for the same shares. Against a paid-up capital of Rs. 100 lakhs, shares to the value of Rs. 2,08,56,750 were produced to the Special Officer. The Special Officer rejected a large number of these claims and prepared a provisional register of shareholders. The holders of share certificates, whose claims were rejected, have filed suits against the Company for rectification of the Register and payment of damages by the Company in the alternative. These proceedings are still pending before the Calcutta High Court.

As the Company was doing valuable work for various Government projects, it was necessary for Government to extend from time to time assistance to the Company to meet its financial requirements. Government have up-to-date guaranteed loans given by the State Bank of India to the Company for the value of Rs. 217 lakhs and have also granted direct loans to the Company for

*Moved with the recommendation of the President.

Rs. 160 lakhs. It would not be in Government's interest to continue these facilities without making proper arrangements for the Company's long-term management as would ensure Government control over its operations.

Any arrangements for proper management can be made only after the disputes between the various shareholders are settled. These cases have been pending before the Calcutta High Court for a very long time and all attempts made by the Special Officer to arrive at a settlement have been infructuous. It is, therefore, expedient in the public interest to acquire the undertaking of the Company with its liabilities.

The Bill provides for the acquisition of the undertaking of the Company with its liabilities by the Government and the vesting of the same in a wholly Government-owned Company to be formed for the purpose. The Company has important orders on hand and in spite of the difficulties generally faced by the Industries since the recession, it has been able to improve production. The proper development of the Company would require substantial modernisation of its facilities. The take over of the undertaking of the Company and its vesting in a new Government company will help in the development, modernisation and expansion of the undertaking to meet priority production requirements.

It is necessary to ensure that the disputes between the shareholders are settled expeditiously. It is clear from enquiries made by the Special Officer that claims for more than Rs. 2 crores of shares had been received by him against only Rs. 1 crore received by the Company as contribution to its capital. It is, therefore, in the fitness of things that genuine shareholders whose share represent the contribution to the capital of the company

should not be made to suffer. Hence, it is proposed to establish a Tribunal Government and they shall continue which will settle disputes regarding the shares expeditiously. It is also proposed that persons whose claims for shares are not accepted will have no claim against the Company, the Government or the new Company, but will only be free to proceed against the persons from whom they had acquired these documents for valuable considerations. It is necessary that the Tribunal is given proper assistance in its task of settling the shareholders' provided that a Custodian will be appointed for receiving the amount payable by the Government for the acquisition and reconstructing the share register under the orders of the Tribunal.

Sir, I move:

MR. CHAIRMAN: Motion moved:

"That the Bill to provide for the acquisition and transfer of the undertaking of the Richardson and Cruddas Limited, for the reconstruction of the register of its members and for matters connected therewith or incidental thereto, be taken into consideration."

SHRI SOMNATH CHATTERJEE (Burdwan): Generally, the provisions of this Bill are welcome, but I wish to draw the attention of the hon. Minister to some of the features of the Bill.

The main provision is for acquisition of the undertaking, as the title itself suggests. But if you would kindly see clause 3 of the Bill you will find that it provides for the vesting on the appointed day. The appointed day will be such date as the Central Government may by notification appoint. Before the vesting takes place, not only has a notification to be issued, but the old company's affairs have to be sorted out as it appears now.

[Shri Somnath Chatterjee]

The main stumbling block so far as this company is concerned is the issue of the various types of shares; some are described as spurious shares or fictitious shares. As a result of it, several proceedings have been pending in the Calcutta High Court, and a special officer had to be appointed. Until that matter is solved and until a list of real shareholders is prepared, there cannot be any question of the vesting because vesting here provides for payment of compensation.

Now, kindly come to clause 8. Therefore, the real object of this Bill at this stage seems to be to decide the disputes about the shareholders, which are there, and not for the vesting. Vesting cannot be done until that is resolved.

So far as compensation is concerned, which is now being described as amount clause 8 provides that:

"For the transfer, under section 3, of the undertaking of the company to the Central Government, there shall be paid by the Central Government to the Custodian an amount of Rupees thirty lakhs."

Now, kindly come to clause 10 which says:

"The affairs of the old company shall be managed by a Custodian to be appointed by the Central Government in this behalf."

This refers to the old company.

MR. CHAIRMAN: Clause 8 speaks of security.

SHRI SOMNATH CHATTERJEE: I was reading from clause 10. So far as clause 8 is concerned, this amount is being given in the hands of the custodian, to be utilised in a certain specified manner, namely in such manner as the shareholders may decide. That is what is provided in sub-clause 2 of clause 12 which says:

"The Custodian shall receive the sum referred to in section 8 and shall deal with the said sum for meeting any liability which is incurred by the old company after the commencement of this Act, and the balance, if any, left after meeting the said liability, in accordance with the wishes of the members of the old company, expressed in a general meeting convened by the custodian, and the provisions of the Companies Act, 1956, shall, so far as may be, apply to such meeting."

"(3) The Custodian may, if the members of the old company so desire, distribute the balance referred to in sub-section (2) amongst such members in accordance with their rights and interests and thereafter apply to the court for the winding up of the old company by the court."

Therefore, until these disputes are resolved and the proper list of shareholders ascertained, the money will not be distributed. But money has to be distributed for payment of the liabilities. What are the liabilities? Under cl. 4 the Government are taking over all the liabilities. First of all, my question is: why are Government taking over the liabilities of the company? In the case of coal nationalisation, the law did not provide for taking over of the liabilities. Why in this case when there are genuine doubts about the regularity or method by which these liabilities were incurred? Without going into all that, why are Government taking over the liabilities?

A provision is being made for meeting these liabilities out of the funds of Rs. 30 lakhs, a huge sum, which is being given for meeting these liabilities. Secondly—and very important—this is for distribution or to be dealt with in a manner to be decided by the shareholders. Who are these shareholders? In this process, will the money go back to the old management.

What is the assurance that can be given by Government that by some circuitous process, by this shareholding—I do not know who are the shareholders—the money will not go back to the old management? I would request the Minister to deal with this in his reply.

16.35 hrs.

[SHRI K. N. TIWARI in the Chair]

The other point is about the employees. I find unfortunately this has become almost a standard practice with Government nowadays in such legislation to include a clause like cl. 7. They say in this clause that the employees will become the employees under the new company under Government and they shall continue in employment until their services are terminated or until the remuneration, terms or conditions of service are duly altered etc. etc. This power is being taken. Although the employees benefit by becoming employees under the new company and their services are better secured, why should this power be always taken to change the terms and conditions of their employment? Such changes can be made without consultation with anybody. Therefore, the Central Government are nowadays taking this power to bring the employees completely under their control so far as the terms and conditions, salary, emoluments etc. are concerned. No statutory protection is being given to them to ensure that their jobs will be continued. We submit this is a matter on which the attitude should be altered. In any case, such legislation should not be invoked for the purpose of dealing with the employees.

Otherwise, we are in agreement with the general objects of the Bill which we support, subject to the provision for payment of compensation which we say should not have been made. In the absence of a statutory provision ensuring directly that the money will be utilised for genuine purpose, money may go back to the

shareholders of whose identity we are not aware. This will really amount to improper use of this money.

श्री आर० बी० बड़े (खरगोन) : सभापति महोदय, हाउस के सामने जो रिचर्डसन एंड क्रुडस लिमिटेड (उपक्रम का अर्जन और अन्तरण विधेयक रखा गया है, वह बिल जो बहुत अच्छा है और मैं उसका समर्थन करता हूँ। लेकिन इसके साथ मैं कहना चाहता हूँ कि हमारे शासन की नींद पंद्रह साल के बाद खुली है। दिसम्बर 1957 में लाइफ इनशोरेंस कारपोरेशन ने कलकत्ता हाई कोर्ट में एक एप्लीकेशन दी थी जिसमें इस कम्पनी पर मिसमैनेजमेंट का आरोप लगाया गया था। उस एप्लीकेशन पर कलकत्ता हाई कोर्ट ने कम्पनी का काम काज चलाने के लिए श्री इररेगुलेरिटीज और मिसमैनेजमेंट की जाँच करने के लिए एक स्पेशल आफीसर एपॉइंट किया।

वहाँ पर इतना बड़ा फाँड था और सन् 57 से शासन को मालूम होत हुए भी पन्द्रह साल तक शासन की नींद नहीं खुली। आज जा कर उन की नींद खुली है और यह बिल सामने आया है। फिर इस के साथ मैं जो हमारे पूर्व बक्ता ने कहा था 30 लाख रुपये के बारे में, उस के बारे में फाइनेशियल ममोरेण्डम में लिखा है :

"Clause 8 of the Bill provides for the payment of an amount of Rs. 30 lakhs by the Central Government for the acquisition of the undertaking of Richardson and Cruddas Limited. The Bill, if enacted, would thus involve a non-recurring expenditure of Rs. 30 lakhs on this head."

अब मेकजम 8 में उन्होंने इस का अर्थ अर्थानियत दी है :

"For the transfer, under section 3 of the Undertaking of the old company to the Central Government there shall be paid by the Central Government to the Custodian an amount of Rupees thirty lakhs."

[श्री आर० बी० बड़े]

ये 30 लाख रुपये काहे के लिये हैं? जो स्पूरियस शेरस होंगे या शेयर्स के जो झगड़े पड़े होंगे उस के वास्ते ये 30 लाख रुपये हैं क्या? और अभी श्री सोमनाथ चैटर्जी ने जो बातें कहीं उस से भी मैं सहमत हूँ क्योंकि क्लॉज 12 में दिया है:

"On the appointment of a Custodian, every person holding office, immediately before such appointment, as director or manager of the old company shall, notwithstanding anything contained in any other law for the time being in force or in any decree or order of any court or tribunal, vacate such office."

एम्प्लाइज के बारे में मुझे कहना है कि उन के लिये कोई प्राविजन इस में नहीं है। जो प्राविजन है वह यह है:

"Notwithstanding anything contained in the Industrial Disputes Act, 1947, or in any other law for the time being in force, the transfer of the services of any officer or other employee from the old company to the Central Government or the new company shall not entitle such officer or other employee to any compensation under that Act or other law, and no such claim shall be entertained by any court, tribunal or other authority."

इस के द्वारा वहां के जो कर्मचारी हैं उन के वास्ते कोर्ट के दरवाजे बन्द कर दिए गए हैं। उन के जो क्लेमस होंगे या इंडस्ट्रियल डिस्प्यूट्स ऐक्ट के मातहत जिस के लिये उन्हें कोर्ट में जाने का अधिकार था, वह अधिकार उन का समाप्त कर दिया है और कोर्ट के दरवाजे उन के लिए बन्द कर दिए हैं। मैं मंत्री महोदय से पूछना चाहता हूँ कि ऐसा करने का कारण क्या है। शेयर्स वगैरह के मामले में जो फ्राइ किया इस कम्पनी ने उस को भुगतेंगा कौन यह भी इस में नहीं बताया है। जो वहां के कर्मचारी लगे हैं इंडस्ट्रियल डिस्प्यूट्स ऐक्ट

के मातहत जो उन्हें रिलीफ मांगने का हक है वह हक भी इस सेक्शन के अंदर बन्द कर दिया है। तो मैं माननीय मंत्री महोदय से कहता हूँ कि इस प्रकार का प्राविजन आप ने क्यों किया? रिचर्डसन कम्पनी द्वारा इतना फ्राइ किए जाने के बाद भी कर्मचारियों के लिये कोर्ट का दरवाजा बन्द करने का कारण क्या है? इस के बाद जो कोर्ट में पैडिंग कसेज हैं उन का निपटारा कौन करेगा?

"On and from the date on which the Tribunal is constituted, on suit or other legal proceeding shall be commenced, or if pending at the date of such constitution, shall be proceeded with, against the old company except with the leave of the Tribunal and subject to such terms as the Tribunal may impose."

यह प्रोविजन इस में नहीं है कि इस का निपटारा रिचर्डसन कम्पनी करेगी या कस्टोडियन करेगा या उस को पैसा कौन देगा?

कर्मचारियों के बारे में यह इतना हार्श सेक्शन इस में रखा है कि मैं इस सेक्शन का पूरी तरह से विरोध करता हूँ।

इस के साथ एक बात इस के उद्देश्य में यह लिखी है कि जो मिसमैनेजमेंट हुआ है उस के लिये स्पेशल आफिसर नियुक्त हुआ है लेकिन जो कसेज कोर्ट में पैडिंग हैं उन का क्या होगा? जो आलरेडी कोर्ट में चल रहे हैं उन के बारे में क्या होगा? उस के बारे में कुछ नहीं दिया है। केवल यह लिखा है कि कस्टोडियन नियुक्त होगा वह इस का निर्णय करेगा। तो मैं यह समझता हूँ यह जो बिल आप लाए हैं इस में जो कर्मचारियों के विरुद्ध सेक्शन रखा है कि वह ट्रिब्यूनल में नहीं जा सकते हैं या कोर्ट में नहीं जा सकते हैं, तो इस सेक्शन का आप खुलासा करें कि वह जा सकते हैं या नहीं जा सकते हैं। क्लेमस वगैरह जो होंगे उन का निर्णय कौन लगा? इस का आपने अपने भाषण में खुलासा नहीं किया है, इस का भी खुलासा करें।

इन लोगों के साथ मैं इस बिल का समर्थन करता हूँ क्योंकि इस के अन्तर्गत कम्पनी के वित्तमैनजमेंट को दुरुस्त करने के लिये प्राविजन किया गया है।

SHRI TEJA SINGH SWATANTRA (Sangrur): Sir, on a point of order. There is no quorum; not even a fraction of the quorum.

MR. CHAIRMAN: Let the quorum bell be rung. -- Now there is quorum. Shri E. R. Krishnan.

***SHRI K. R. KRISHNAN** (Salem): Mr. Chairman, Sir, I thank you for giving me an opportunity to say a few words on the Richardson and Cruddas Limited (Acquisition and Transfer of Undertaking) Bill on behalf of my party, the Dravida Munnetra Kazhagam.

When I saw the name of Richardson and Cruddas, I was immediately reminded of the exit of the Central Minister hailing from Tamil Nadu, Shri T. T. Krishnamachari, from the Central Council of Ministers. It was alleged at that he was indirectly responsible for different malpractices indulged by this firm. Since this Bill stands in the name of another Central Minister hailing from Tamil Nadu, Shri C. Subramaniam, the Minister of Industrial Development, I would like to caution him that this should not bring his downfall also. As he is trying to give a new lease of life to this dying concern, I take the liberty of saying these words of warning.

Clause 8 of the Bill provides for the payment of an amount of Rs. 30 lakhs by the Central Government for the acquisition of the undertaking of Richardson and Cruddas Ltd. I would like to know from the hon. Minister to whom this amount of Rs. 30 lakhs would be given. It does not end here. This company has been subjected to voluminous litigation arising out of

the issue of duplicate shares and claims of over Rs. 1 crore towards damages are pending. This amount of Rs. 1 crore is also to be paid by the Central Government after acquiring this company. An investment of Rs. 1.50 crores is also proposed to be made in the share capital of the company for the purpose of working capital, modernisation of the unit etc. When such huge amounts are involved in re-vitalising this unit, naturally I would like to know to whom Rs. 30 lakhs, as provided for in this Bill, would be given. I hope the hon. Minister will clarify this point in his reply.

The very name of this unit reeks with all kinds of mismanagement and malpractices. In regard to certain issues connected with the Hindusthan Steel, some strictures were passed against Shri C. Subhamaniam by the Public Accounts Committee of this House. I would therefore like to take this opportunity to warn him that he should be very cautious in implementing the provisions of this Bill.

When I see huge sums provided for in this Bill, I am reminded of a popular Tamil Saying, *Andai Veetu Neive En Pendatti Kaiye*, which in essence means "Rob Peter to pay Paul". I have stated this because large amounts of public money are going to be invested in this unit known for all sorts of malpractices. Before I conclude, I would say that the Government should be extra cautious in bringing back to life this concern.

SHRI SIDDHESHWAR PRASAD: Sir, I do not know why the hon. member who has just spoken has unnecessarily dragged in the names of Mr. T. T. Krishnamachari or Mr. C. Subramaniam. I think the hon. members have not gone into the clauses very carefully. This Bill has been introduced for three purposes. This matter has been pending in the High Court for quite a long time. We feel this

[Shri Siddheshwar Prasad] is a company which has been doing something very important. Secondly, it has been providing employment to roughly 2500 people. Thirdly, if we want that the affairs of the company should be managed properly, there is no other way except to take it over and from a new company. Therefore, these are the objectives of the Bill. Hon. Members have supported this Bill unanimously. I would make it clear that on the one hand Government is going to appoint a tribunal which will go into all such matters which are pending since long. At the same time, Government is also having a Custodian to look into the affairs of the old company because of the controversial matter about the shares. Mr. Haridas Mundhra who was managing the affairs of this company issued certain spurious and duplicate shares. After this is determined, we will see that the genuine shareholders of the company are not punished. The Custodian is being given the necessary powers so that he may be in a position to take care of the claims of the genuine shareholders. There may be small shareholders also. I do not know.

SHRI SOMNATH CHATTERJEE: This amount of Rs. 30 lakhs will be utilised for payment of the liability. What is the amount of liability, we do not know. We do not know whether the bulk of this money will go back to the majority shareholders who have been in control of the company all along.

SHRI SIDDHESHWAR PRASAD: All the suggestions made by hon. members will be taken care of by the Government at the appropriate time. There is an apprehension in the minds of hon. members that there may not be proper job security for the employees. It is the other way round. We have come forward with this Bill because we are very keen about the job security of the employees. Otherwise, we know that in the case of many other companies which were

mismanaged, they were closed and the fate of the workers, we know.

SHRI H. V. BADE: Under clause 7(3), the employee is not authorised to have any compensation and the doors of the courts are also closed to him.

SHRI SIDDHESHWAR PRASAD: I have made it very clear that all these things will be taken into consideration at the appropriate time.

MR. CHAIRMAN: The question is:

"That the Bill to provide for the acquisition and transfer of the undertaking of the Richardson and Cruddas Limited, for the reconstruction of the register of its members and for matters connected therewith or incidental thereto, be taken into consideration."

The motion was adopted.

MR. CHAIRMAN: We will now take up clause by clause consideration. There are no amendments. The question is:

"That clause 2 to 31 stand part of the Bill."

The motion was adopted.

Clauses 2 to 31 were added to the Bill. Clause 1, the Enacting Formula, the Preamble and the Title were added to the Bill.

SHRI SIDDHESHWAR PRASAD: I move:

"That the Bill be passed"

MR. CHAIRMAN: The question is:

"That the Bill be passed".

The motion was adopted.

ALL INDIA SERVICES REGULATIONS (INDEMNITY) BILL

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS AND IN THE DEPARTMENT OF PERSONNEL (SHRI RAM NIWAS MIRDHA): I beg to move:

"That the debate on the motion 'that the All-India Services Regulations (Indemnity) Bill, 1972, as passed by Rajya Sabha, be taken into consideration' which was adjourned on the 5th December, 1972, be resumed now."

As hon. Members would recall, there was a debate on this motion and various legal and other points were raised. In deference to the wishes of the hon. Members, the consideration of the Bill was postponed so that in the meanwhile the matter could be examined in greater detail.

As my colleague, Shri Mohsin, had explained that day, the Bill seeks to fill in a legal lacuna. Some doubts were raised that the Bill seeks to change or regularise the old actions of persons and indemnifies those actions of the individuals which are not before the House. What we are doing is not indemnifying or regularising any action that was taken. We are merely regularising the fact that they were not placed before the House. No action which was taken is being regularised and no one is being indemnified as a result of that. It you kindly see clause 2 of the Bill, a part of it reads:

"...against all consequences whatever, if any, incorporated or to be incorporated by them, or the Central Government or any such officer, by reason of any omission in this behalf to lay such regulations before Parliament."

This is all it seeks to do. Because we did not lay it before Parliament, only this omission has to be regularised.

SHRI SOMNATH CHATTERJEE:
By indemnification.

SHRI RAM NIWAS MIRDHA:
Indemnification takes place when you take a wrong action.

We are not indemnifying any action, wrong or improper or anything that was one by any person but the mere omission of not putting regulations on the Table of the House. Even this omission is not very material because it has been very rightly held by the court that this direction to put them

on the Table of the House is not mandatory. None of these regulations is illegal or does not have the force of law, merely because it was not put on the Table of the House.

17 hrs.

It is not that we are compelled to put them on the Table of the House. But as a matter of abundant caution, we have brought forward this Bill. Even if we do not put them on the Table of the House, they are valid even now.

On the last occasion, when this Bill was being discussed, it was thought that we were indemnifying or excusing all actions taken by persons under these regulations. It is not so. It is just for not laying them on the Table of the House. Nothing more.

SHRI R. V. BADE (Khargone): On that day, the Deputy-Speaker adjourned the debate on the Bill simply because the House does not know what are those regulations.

श्री राम निवास मिर्धा : उसके लिए हमने सारे रेगुलेशंस जो ग्राज फॉर्स में हैं उनको सकुलिट कर दिया है माननीय सदस्यों को ताकि वे देखें कि किस प्रकार के रेगुलेशंस हैं उनका क्या विषय है और उनके बारे में अपना मत बना सकें कि किस प्रकार के रेगुलेशंस हैं जिनको इस विधेयक के अन्तर्गत लाना चाहते हैं। इसलिए यह प्रस्ताव रख दिया जाये।

SHRI S. M. BANERJEE (Kanpur):
Sir, the other day, we raised certain objections. We would like to speak now.

On that day, when the Bill was before the House, we raised certain objections. One is about any regulation that is deemed to have been laid on the Table of the House. Supposing any particular officer has misinterpreted or by mistake or, has deliberately, utilised certain rules after which a person has gone to a court of law and

[Shri S. M. Banerjee] has won, naturally, if that is to be indemnified, that aggrieved person can never sue him in a court of law and he can never get justice.

I give another instance, where a particular decision of the Kerala High Court regarding certain Central Government employees who participated in the strike was in favour of the employees. Then, the Government went in appeal to the Supreme Court. The Supreme Court also in its wisdom upheld the decision of the Kerala High Court. But still after the Supreme Court Judgement, the Government amended the Government Service Temporary Rules respectively from 1965. We really wanted to know whether this was a fact and the hon. Minister said that he was not prepared. Certain officers out of vengeance did not implement them ...

MR. CHAIRMAN: You put a question; don't make a speech.

SHRI S. M. BANERJEE: Why?

MR. CHAIRMAN: Because the Members have already spoken on the Bill.

SHRI S. M. BANERJEE: On that day, we never spoke and we raised only objections....

MR. CHAIRMAN: I am not allowing anybody to speak now. I am only allowing Members to put questions.

SHRI S. M. BANERJEE: Sir, on that day, perhaps you were not present in the House...

MR. CHAIRMAN: I was present in the House. The Members have already spoken on the Bill and the Minister wants to reply to it. You only ask a question.

SHRI S. M. BANERJEE: I want to know what is the utility of this Bill. Let him explain.

SHRI SOMNATH CHATTERJEE (Burdwan): Kindly see the title of

the Bill—All India Services Regulations (Indemnity) Bill. The hon. Minister has said today that, for the purpose of giving validity to the regulations that have been framed under the All-India Services Act, 1951, it is not necessary to place the rules before parliament because it is not mandatory. If that is the legal advice Government has got so far as the validity of the rules is concerned, then nobody is concerned whether the rules have been placed before parliament or not. If that is so, who are being indemnified against and for what? The hon. Minister took great pains to say that they were indemnifying only against some omissions, they were trying to cover up the omissions that had been made. But that is not the correct interpretation of this Clause. This Clause is seeking to indemnify, not only as the name suggests, but also as the language suggests, the Central Government and all officers responsible for laying the regulations and who have not done so. Therefore, it is not only trying to give regularity or validity to the regulations which, according to the Minister himself, do not require validity because they were already valid, but they are indemnifying the Central Government and all officers responsible for not doing something....

SHRI RAM NIWAS MIRDHA: For not placing them on record.

SHRI SOMNATH CHATTERJEE: By not placing them on record, have the Central Government or their officers incurred any liability? If they have not incurred any liability, what are you indemnifying them against? This is an exercise in futility. If that is not required, why are you having this Bill passed? It is self-contradictory of the Minister to say on the one hand that it is not necessary but at the same time to try to have this bill.

SHRI RAM NIWAS MIRDHA: As regards Mr. Banerjee's point, what he mentioned does not concern this Bill at all. The Supreme Court judgement, which he referred to, pertains to a case which does not arise out of the All-India Services Regulations Bill. It has nothing to do with the Bill that is before us...

SHRI S. M. BANERJEE: Rule 5 of the Temporary Services. (Interruption)

SHRI RAM NIWAS MIRDHA: That was not under this Act.

MR. CHAIRMAN: Mr. Daga. Only put a question.

SHRI S. M. BANERJEE: Why, Sir?

MR. CHAIRMAN: Members have already spoken on this. Only the Minister was to reply.

SHRI S. M. BANERJEE: On that day when Mr. Deputy-Speaker accepted the motion moved by Shri Mohsin, the discussions were adjourned.

MR. CHAIRMAN: Mr. Daga.

श्री मूलबन्ध डाला (पाली) : जो रेगुलेशन या रूल आपने बनाए हैं जिनको कानून के अन्तर्गत मदन की टेबिल पर रखना चाहिए, आप कहते हैं कि रखने की जरूरत नहीं है। मैं समझता हूँ जो रूल बनाए हैं या रेगुलेशन बने हैं उनपर आपके डिपार्टमेंट, आपके आफिसर्स ने ऐक्ट अपना लिया है, उनको काम में लिया है और उसके बाद आप चाहते हैं कि उनको इन्डेम्नीफाई किया जाये तो यह कैसे हो सकता है ?

MR. CHAIRMAN: Does the Minister want to give any reply?

SHRI RAM NIWAS MIRDHA: Regarding the observation of Mr. S. M. Banerjee, I would like to submit that the action that was taken in that case does not arise out of this because these regulations were not made under the All India Services

Act. It is completely a different matter. He may raise it; but that is a different matter and we can reply to him on some other occasion. (Interruption)

MR. CHAIRMAN: The question is:

"That the debate on the motion 'that the All-India Services Regulations (Indemnity) Bill, 1972, as passed by Rajya Sabha, be taken into consideration' which was adjourned on the 5th December, 1972, be resumed now."

The motion was adopted.

MR. CHAIRMAN: Now, we take
 up the further consideration of the
 following motion moved by Shri F. H.
 Mohsin on 5th December, 1972, name-
 ly:

"That the Bill to grant indemnity
 in respect of the failure to lay
 before Parliament certain regula-
 tions made under the All-India Ser-
 vices Act, 1951, and for certain other
 matters connected therewith, as
 passed by Rajya Sabha, be taken
 into consideration."

SHRI S. M. BANERJEE: I would
 like to speak.

MR. CHAIRMAN: You have spoken already. You have spoken last time. I will not allow it. I will not allow a second time.

SHRI S. M. BANERJEE: But this is coming up again..

MR. CHAIRMAN: Those hon. Members who have spoken once will not be given a second chance.

SHRI S. M. BANERJEE: The Minister has also spoken.

MR. CHAIRMAN: That does not apply to the case of the Minister.

SHRI S. M. BANERJEE: The Minister spoke on the last occasion.

MR. CHAIRMAN: Any other Member who has not spoken may speak.

SHRI SOMNATH CHATTERJEE: My submission is this, Sir. This Bill is wholly necessary, on the Minister's own statement. He himself said while we were discussing the last motion that this Bill is not intended for the purpose of validation of any regulation. I believe, I have rightly understood him. According to him, without the regulations having been placed before the House, the regulations are valid regulations. Therefore, this is not a validating Bill. Now, Sir, we wanted to have certain clarifications and there was no reply to them. What are the consequences from which now the Central Government and the officers are being shielded or being absolved? Kindly see the language. It says:

"The Central Government and all officers responsible for the laying of any regulation made before the commencement of this Act under or in pursuance of any rule..and each of them, is hereby freed, discharged and indemnified from and against all consequences, whatsoever, if any, incurred or to be incurred by them or the Central Government or any such officer by reason of any omission in this behalf

to lay such regulation before Parliament and every such regulation shall for all purposes be deemed to have been duly laid before Parliament."

So far as the first part is concerned, this is a provision for giving indemnity to those officers who had to take up this job namely, that of laying down all the regulations on the Table of the House. We want to know as to what the obligations are. We want to know as to what the consequences are. We want to know what their liabilities are. And, without knowing what are their liabilities, we are absolving them of something. And what is it against which we are absolving them? After all what are the consequences which will flow from them? Without knowing all these, we are giving them indemnity. If they do not require indemnity, why is it that you want to bring this Act into the statute book. Therefore, the real purpose is only to give something like a blanket charter to whatever has been done. The Central Government and other officers cannot be called into question. There can do whatever they like. For all these years, since 1955 onwards not a single explanation has been given why this has not been laid. Nobody has looked into this matter. Nobody has considered this matter.

If they are relying on the Supreme Court's decision, as the hon. Minister referred to, namely that they are not mandatory provisions and therefore they need not follow them, then why they are giving this indemnity. kindly see the All India Services Act, 1951, under which regulations are supposed to be framed. This is under Sub-section (2) of Section 3 of those Rules. It says that the rules made under this section shall be laid before Parliament within such and such time, in such and such manner. But, that has not been done. Why have they not done? No explanation was given. The only explanation given in the Statement of Object, and Reasons is on the point whether the regulations come within the definition of rules or

[Shri Somnath Chatterjee]

not—there were some doubts expressed. On those very points, they had some doubts. I would like to know as to when those doubts were resolved, and who resolved them. It is as if we are here only to 'ditto' what the Government wants.

Therefore, Sir, I would like to submit that this Bill is wholly an unnecessary Bill according to the Minister's own admission. The House should be taken into confidence at least to this extent of saying as to what are the liabilities which are being incurred by the Central Government and what are the consequences that are following from them. Without knowing that, I think the House should not be asked to pass this measure, which in future may be used for what purpose we do not know.

So far as the last part is concerned, the hon. Minister, if I may say so, was not wholly correct in his reading of the Bill. The last part of clause 2 says:

"Every such regulation shall, for all purposes be deemed to have been duly laid before parliament and shall have effect and shall be deemed to have had effect accordingly."

Therefore, we shall be going 17 years back, and these regulations from 1955 onwards would be deemed to have been placed on the Table of the House as and when they were framed. Why does the hon. Minister want this? No explanation is forthcoming from the hon. Minister. If they have nothing to do with the validity, then why do they want to put it on the statute-book that they will be deemed to have been validly laid before Parliament? Therefore, let us not try to surrender ourselves to bureaucracy. Let the hon. Minister

at least point out the real object of this Bill and why this Bill has become necessary. According to the hon. Minister's own statement, I submit that this is a wholly unnecessary Bill and the House should not be a party to this.

SHRI RAM NIWAS MIRDHA: The question has been put why this Bill has been brought forward. I have already said that it was thought at one time that only the rules made under the All India Services Act, 1951 were to be laid. Then, at a certain stage, it was thought that not only the rules but the regulation made under those rules also should be laid. That was the difficulty that was experienced.

SHRI R. D. BHANDARE (Bombay Central): That was because of the Supreme Court judgement which had removed the distinction between rules and regulations.

SHRI RAM NIWAS MIRDHA: That was the difficulty....

SHRI SOMNATH CHATTERJEE: Somebody has pointed that out. But what is Government's reaction?

SHRI RAM NIWAS MIRDHA: To put everything beyond any shadow of doubt, we have been advised that we should in future make it clear that the regulations are also to be laid on the Table of the House

SHRI S. M. BANERJEE: Who has advised?

SHRI RAM NIWAS MIRDHA: That is the main reason why this Bill has been brought forward here. There are precedents when such Bills had been brought....

SHRI S. M. BANERJEE: Which are those precedents? Let him please tell us.

SHRI SOMNATH CHATTERJEE: We are supporting the good measures, but we cannot support all measures.

SHRI S. M. BANERJEE: Which are the precedents?

MR. CHAIRMAN: Let the hon. Minister reply to his question. Let him not interrupt so often....

SHRI S. M. BANERJEE: You may be tired, Sir, but I am not tired. He said that there were precedents. I want to know what those precedents are.

SHRI RAM NIWAS MIRDHA: There are old precedents of the British law as well as our Indian law....

SHRI S. M. BANERJEE: What were the precedents in our Parliament? I am not concerned with the British law. We are not the British Parliament here.....

SHRI RAM NIWAS MIRDHA: I have explained the purpose of the Bill and I have nothing more to add.

MR. CHAIRMAN: Does it look nice on the part of the hon. Member to speak in this manner? He has put the question, and the hon. Minister is replying....

SHRI S. M. BANERJEE: Then, I rise on a point of order. There is no quorum in the House.

MR. CHAIRMAN: I shall see if there is quorum or not, and if there is no quorum, I shall have the bell rung. The hon. Member has put the question, and the hon. Minister is replying. He should not get up again and again and put obstructions....

SHRI S. M. BANERJEE: The hon. Minister said that there were certain precedents. I asked him what those precedents were. What is the obstruction in this matter?

MR. CHAIRMAN: Why should the hon. Member say that I am feeling tired? If he is feeling tired, he may

not sit beyond 5 p.m. But I am not at this command. Does he want that I should not be here after 5 p.m.?

SHRI S. M. BANERJEE: I never said so. I said that you might be tired....

SHRI DINEN BHATTACHARYA (Serampore): If the Bill is passed under your chairmanship, what will the people say afterwards?

SHRI RAM NIWAS MIRDHA: I have already explained the purpose of the Bill, and I have nothing more to add.

MR. CHAIRMAN: "Let the lobbies be cleared." The question is:

"That the Bill to grant indemnity in respect of the failure to lay before Parliament certain regulations made under the All-India Services Act, 1951, and for certain other matters connected therewith, as passed by Rajya Sabha, be taken into consideration."

HALF-AN-HOUR DISCUSSION REVISION OF PAY-SCALES IN KHADI GRAMODYOG BHAWAN NEW DELHI

श्री चन्द्रिका प्रसाद (बलिया) : सभापति महोदय, प्रश्न संख्या 3293 के संदर्भ में मंत्री महोदय को वास्तविकता से परिचित नहीं कराया गया था जिससे कि उनका जवाब आधार-रहित और तथ्य-रहित है। पहला प्रश्न था कि क्या खादी भवन के कर्मचारियों को 30 और 40 रुपये बेसिक सेलरी मिल रही है? आपने कहा कि—नो सर। मेरे पास पन्द्रह आदमियों का नाम है जो कि मैं सभा पटल पर रखने की तैयार हूँ जिनको कि 30 से लेकर 35 और 36 रुपये तक की तनखाह मिलती है। दूसरा प्रश्न था कि खादी कमीशन के ट्रेडिंग विभाग में सेक्रेड पे कमीशन की सारी सुविधाएं

उनको दी गई हैं, लेकिन यह भी तथ्य-रहित है। वहां पर डीयरनेस पे एलाउंस उनको नहीं दिया गया है और सेक्रेड पे कमीशन की रिपोर्ट 1963 से लागू है, अब तक यह नहीं दिया गया। खादी कमीशन के अन्दर कमीशन का कहना है कि हमारे यहाँ दो तरह के कर्मचारी हैं—एक ट्रेड ऐक्टिविटीज में और एक रेगुलर। ट्रेड ऐक्टिविटीज में वह कर्मचारी हैं जो कि बीड़-धूप करते हैं, बिक्री करते हैं, रंगाई का काम करते हैं, उत्पादन के केन्द्रों में जाते हैं और उनकी मेहनत और उनकी कमाई पर खादी भवन कई लाख का फायदा करता है। तो जो काम करने वाले हैं, जिन के धर्म, जिनकी मेहनत और जिनकी बुद्धि से लाभ होता है उनको कम दिया जा रहा है, उन्हें नुकसान पहुंचाया जा रहा है और जो लोग कुछ काम नहीं करते हैं उनको रेगुलर किया गया है। 1963 से सेक्रेड पे कमीशन की रेकमेंडेशन लागू है। हमारा कहना है कि जब कि पे स्केल रेगुलर एम्प्लॉईज का 30 रुपये से 70 रुपये कर दिया गया तो खादी कमीशन द्वारा उनका स्केल जो ट्रेडिंग ऐक्टिविटी में है 30 से बढ़ाकर 70 कर दिया जाना चाहिए और उनको रेगुलर एम्प्लॉयी मानना चाहिए। साथ ही डीयरनेस पे एलाउंस भी उनको मिलना चाहिए।

दूसरी बात यह है कि यहां पर आपके खादी भवन में एक ऐडवाइजरी कमेटी बनाई गई है। हमारी सरकार का मंशा है कि वर्कर्स का पार्टिसिपेशन मैनेजमेंट में दिया जाना चाहिए, प्रबन्ध समिति में कर्मचारियों को रखा जाना चाहिए। वहां पर एक सवाल था कि ऐडवाइजरी कमेटी में कौन-कौन लोग

[श्री चन्द्रिका प्रसाद]

हैं तो उसमें सिर्फ एक नाम आया—युद्धवीर सिंह कोई हैं जो उसके चेयरमैन हैं और बाकी और किसी मेम्बर का नाम नहीं दिया गया और न कभी उसकी मीटिंग होती है। दुनिया भर के हर एक कामों में वह बाधा डालती है। कर्मचारियों का कोई प्रतिनिधि उसमें नहीं है। खादी भवन में एक बार 21 हजार की चोरी हुई। फर्स्ट मई, 1972 को 21 हजार रुपये गायब हुए, तब से आज तक सोए हुए हैं तो यह हालत है कि जो मजदूर काम करने वाला है, श्रम करता है, बुद्धि लगाता है उसको तो कोई देखने वाला नहीं है, उसका कोई ठिकाना नहीं है, उसे क्लास फोर एम्प्लॉई करके रखा गया है। (ध्यवधान) मैं . . . में खत्म कर रहा हूँ।

सभापति महोदय : इसमें केवल तीन ही प्वाइंट्स हैं। पे स्केल हैं, डीअरनेस एलाउंस है, नान-पेमेंट आफ ग्रेच्यूटी है। उसी पर आप बोलिए। ज्यादा आगे मत जाइए।

श्री चन्द्रिका प्रसाद : सेकेंड पे कमीशन की बात को ही मैं ला रहा था। यहां पर कहा है :

"The Commission has decided to adopt different scales of pay in respect of staff engaged in trading activities but allowances and other benefits are the same as admissible to regular employees of the Commission to whom the recommendations of the Second Pay Commission have been made applicable except in the case of contributory provident fund."

तो हमारा वह कहना है कि सेकेंड पे कमीशन ने जो कहा है कि अदर बेनीफिट देने हैं वह भी उन को नहीं दे रहे हैं और ट्रेडिंग एक्टिविटीज में जो काम करने वाले हैं उन के स्केल

में तथा रेगुलर जो हैं उनके स्केल में जमीन आसमान का अन्तर है जब कि काम करने वाले वही हैं। तो हमारा यही कहना है कि सेकेंड पे कमीशन की रिपोर्ट 1963 से लागू है, उसमें रेगुलर एम्प्लॉईज के लिए 30 से 70 रुपये हुआ वह इनको भी मिलना चाहिए और डियरनेस इनको 1963 से मिलनी चाहिए। इसके अलावा जो करप्शन है, भ्रष्टाचार है, उसके अन्दर जो वर्कर्स का पार्टिसिपेशन मैनेजमेंट में नहीं है उसके लिए एक पालियामेंट्री कमेटी बनाई जाय जो सारी चीजों की जांच करे, कर्मचारियों को न्याय दिलावे और सेकेंड पे कमीशन की सिफारिशों को इम्प्लीमेंट करावे।

SHRI ARJUN SETHI (Bhadrak): I want to seek the following clarifications, from the hon. Minister: Why the Commission has decided to pay different pay scales in respect of the staff engaged in trading activities and why they are not being considered at par with other employees although they belong to the same institutions? What are the difficulties of the Government to treat these employees as regular employees and make their service conditions similar to the other employees of the Commission? These are clarifications that I seek from the hon. Minister.

डा० लक्ष्मीनारायण पांडेय (मंदसौर) :

सभापति जी, खादी ग्रामोद्योग भवन के या खादी ग्रामोद्योग कमीशन के कर्मचारियों के लिए विभिन्न प्रकार के बतनमान हैं, विभिन्न प्रकार की उनकी श्रणियां हैं जो मंत्री महोदय ने प्रश्न के उत्तर में स्वयं स्वीकार किया है। वहां पर एक तो ट्रेडिंग में काम करने वाले हैं, दूसरे रेगुलर हैं। मैं जानना चाहता हूँ कि खादी ग्रामोद्योग भवन एक व्यापारिक संस्था

है, उनका सारे का सारा कार्य एक दूध है। रेगुलर कर्मचारियों में और ट्रेडिंग कर्मचारियों में यह भेद क्यों है? और रेगुलर को अधिक और ट्रेडिंग में काम करने वालों को कम वेतनमान दिया जाना कहाँ तक संगत है?

दूसरे, क्या यह सही है कि अब तक वहाँ पर इस प्रकार के कर्मचारी हैं लगभग 41 जिनकी संख्या है जिन्हें आज भी 30 और 40 रुपये के बीच में ही वेतन मिलता है? उनको न्यूनतम वेतन की जो सुविधा मिलनी चाहिए वह नहीं मिल रही है।

एक और प्रश्न मैं करना चाहूंगा कि क्या खादी ग्रामोद्योग भवन के तथा खादी ग्रामोद्योग कमीशन से संबंधित कर्मचारियों के लिए क्या वे सभी इंडस्ट्रियल लाज लागू हैं क्योंकि यह एक इंडस्ट्री है, जो इंडस्ट्रियल वर्क्स के लिए लागू होने चाहिए और वे सभी सुविधाएं ग्रेज्युटी, प्राविडेंट फंड और बोनस इत्यादि की सुविधाएं क्या उन्हें मिल रही हैं और नहीं मिल रही हैं तो शासन द्वारा सहायता या अशुभान प्राप्त इस संस्था के अन्दर ये सभी सुविधाएं मिलें, असमानता समाप्त हो इसके बारे में शासन ने कौन से कदम उठाए हैं और क्या कार्यवाही की है? आज भी इस संस्थान से सम्बन्धित कर्मचारियों की स्थिति अत्यन्त दयनीय है।

श्री मूलचन्द डागा (पाली) : अपने खादी घर के अन्दर यह गड़बड़ कैसे चल सकती है क्यों कि सारा हमारा सामान ही खादी घर से शुरू हुआ। सवाल यह है कि आज भी क्या वहाँ के कर्मचारियों को 60 रुपये मासिक वेतन मिलता है।

एक सदस्य : 40।

श्री मूलचन्द डागा : 40 से शुरू किया है 60 तक मिलता है.... (धमकाते हुए).... 30 भी मिलता है। तो क्या यह न्यूनतम वेतन आज के जमाने में जीवन निर्वाह के लिए काफी है?

दूसरा मेरा प्रश्न है कि यह आप के यहाँ पर ट्रेडिंग स्टाफ कितने घरों से रेगुलर काम कर रहा है और फिर भी आप उस को रेगुलर स्टाफ की तुलना में कम क्यों देते हैं और उनसे उन को अलग क्यों किया हुआ है?

दूसरी बात यह है कि वेतन आयोग की सिफारिशों के आधार पर आप उन को पगार और अन्य सुविधाएं क्यों नहीं देते हैं?

तीसरा सवाल—जो भी वहाँ पर एल डी सी, यू डी सी की तनख्वाहों में और रेगुलर स्टाफ की तनख्वाहों में बहुत बड़ा अन्तर है वह अन्तर कैसे कम किया जा सकता है और यह क्यों नहीं किया जाता है?

इसके अलावा ऐडवाइजरों कमेटी जिस के अन्दर मजदूरों का प्रतिनिधित्व न हो, कर्मचारियों का प्रतिनिधित्व न हो वह कैसे चल सकती है?

श्री हुकम चन्द कछवाय : (मुरैना) मैं मंत्री महोदय से जानना चाहता हूँ कि क्या ये जो कर्मचारी काम करते हैं। इन्होंने कोई शापन आप को दिया है और यदि दिया है तो उस की मुख्य मुख्य मांगें क्या हैं?

दूसरे मैं जानना चाहता हूँ कि समान वेतन हो आज की महंगाई को देखते हुए सारे देश भर में क्योंकि खादी ग्रामोद्योग को आप बहुत बड़ी मात्रा में पैसा देते हैं लेकिन हर एक प्रदेश

[श्री हुकम चन्द कछवाय]

में बेतन अथवा अलग स्तर का है तो सभी प्रदेशों के अन्दर बेतन ठीक प्रकार का हो, समान बेतन हो जैसे अन्य जगहों में है, उस के लिए क्या कोई ऐसी पालिसी निश्चित करना चाहते हैं? यदि कमीशन नहीं मानता है तो उन को दी जाने वाली जो मदद है उसे आप बन्द करने को तैयार हैं जब तक वे इस बात को पूरा नहीं करते हैं?

तीसरी बात—यहां दिल्ली का जो खादी भवन है, उस में प्रशासन व्यवस्था के लिये एक कमेटी बनाई गई थी, उस में किसी भी कर्मचारी को नहीं लिया गया, जब कि ऐसा बचन दिया गया था।

सभापति महोदय : आज के सवाल में यह सवाल नहीं है।

श्री हुकम चन्द कछवाय : फिर अंत में आयेगा।

सभापति महोदय : जब भी आये, लेकिन इस में नहीं है।

श्री हुकम चन्द कछवाय : मैं निवेदन कर रहा था कि इस कमेटी में हर प्रकार की कठिनाई पर विचार करने के लिये कितां भी कर्मचारी को नहीं लिया गया।

खादी ग्रामोद्योग करीगन एक परिवारिज खाता है, जिस में सब से अधिक अंशधार और बेईमानी है। केन्द्र सब से अधिक पैसा इस को देता है, देश को सारी सम्पत्ति इस में खत्म होती है लेकिन यहां के जो कर्मचारी हैं उन को ठीक प्रकार का बेतन नहीं मिलता। ऐसी स्थिति में क्या सरकार इस के लिये कोई कदम उठावगी, यदि हां, तो कब तक इस का निर्णय लेगी?

औद्योगिक विकास मन्त्रालय में उपमन्त्री (श्री सिद्धेश्वर प्रसाद) : माननीय सभापति महोदय अभी माननीय सदस्य श्री हुकम चन्द कछवाय ने खादी ग्रामोद्योग कमीशन में जो कर्मचारी काम कर रहे हैं उन के ऊपर जो आरोप लगाया है, वह सर्वथा निराधार है। खादी ग्रामोद्योग कमीशन के कार्यकर्ता बड़ी निष्ठा और कठिन परिस्थितियों में काम कर रहे हैं ...

श्री रामाबतार शास्त्री : (प्रटना) : इन्होंने वहां के व्यवस्थापकों के लिये कहा है।

श्री हुकम चन्द कछवाय : चुनाव में काम करने वाले वहां घस जाते हैं—वह परवरिश खाता है।

सभापति महोदय : सभी मंत्रियों ने एक एक ही सवाल पूछा है—आप उन की पे के बारे में कहिये।

डा० लक्ष्मीनारायण पाण्डेय : क्या यह व्यापारिक संस्थान है? यदि व्यापारिक संस्थान है तो वहां पर दो प्रकार की श्रेणियां क्यों रखी हैं? और दो प्रकार के भिन्न बेतनमान हैं जिसके कारण एक प्रकार के कर्मचारियों को न्यूनतम बेतन भी नहीं मिलता है।

श्री रामाबतार शास्त्री : मजदूरों के बारे में कहिये, लेकिन प्रबंधक मजदूर नहीं हैं..... व्यवधान....

श्री सिद्धेश्वर प्रसाद : अभी आपने श्री कछवाय जी को ध्यान से सुना होता तो इस प्रकार की चर्चा नहीं होती।

मैं निवेदन कर रहा था कि जहां तक खादी तथा ग्रामोद्योग भवन, दिल्ली का सवाल है, इस में जो कर्मचारी काम करते हैं—प्रश्न उन के बेतन के सम्बन्ध में था

वेतन-मान के सम्बन्ध में नहीं था। उन्होंने पूछा था कि उन को उतना वेतन नहीं है, जिसका कि मैंने प्रश्न के उत्तर में कहा था वहां जो कर्मचारी काम करते हैं उन को सब मिला कर न्यूनतम 147 रुपये 50 मिलते

श्री मूलचन्द डागा : यह मंहगाई भत्ता समेत है, वेतन नहीं है। उन का वेतन क्या है ?

श्री हुकम चन्द कड़वाय : उन का मूल वेतन क्या है। इस में मंहगाई भत्ता जोड़िये। उन को इतना कम वेतन मिलता है, कि आप का कुत्ता भी उस से ज्यादा खा जाता है। सभापति महोदय, ये सदन को गुमराह कर रहे हैं, मंहगाई जोड़ कर बना रहे हैं, इस से लोगों में भ्रम फैलेगा।

श्री सिद्धेश्वर प्रसाद सभापति जी, मैंने आंकड़े दिये हैं

श्री हुकम चन्द कड़वाय : उन को 40 रुपये से भी कम मूल वेतन मिल रहा है।

श्री सिद्धेश्वर प्रसाद : यहां पर प्रश्न कुल वेतन का है। यदि प्रश्न वेतन-मान का भी हो तो भी यदि आप मेरी बात सुन लेंगे तो यह प्रश्न पैदा नहीं होगा। यह सही है कि वहां जो कर्मचारी काम करते हैं, उन का वेतन-मान 30 रुपये 50 पैसे है, लेकिन इस के अनावा कर्मचारियों को जो राशि मिलती है, वह सब मिला कर न्यूनतम वेतन, पूरा पै-पैक 147 रुपये 50 पैसे होता है।.....

डा० लक्ष्मी नारायण पांडेय : जो ट्रेडिंग कर्मचारी मान जाते हैं, आज उन को भी कम से कम 170 रुपये मिले इस हेतु कौन सी कार्यवाही कर रहे हैं, ? आज उन्हें बहुत ओझा भौतन मिल रहा है।

श्री सिद्धेश्वर प्रसाद : आप मेरी बात सुन लीजिये। दूसरी बात जिस की तरफ मैं माननीय सदस्यों का ध्यान आकृष्ट करना चाहता हूं वह यह है कि खादी कमीशन और खादी भवन दोनों एक ही चीज नहीं हैं। वहां जो काम करने वाले लोग हैं उन का काम दूसरे ढंग का है। खादी भवन एक ऐसी संस्था है जो दूसरी व्यापारिक संस्थाओं से भिन्न है। उन का काम करने का ढंग दूसरा है, वहां जो कर्मचारी चुने जाते हैं वे दूसरे आधार पर चुने जाते हैं—इसलिये उन का अलग वेतन-मान है . . .

..... (व्यवधान) जहां तक खादी कमीशन का सवाल है . . .

श्री चन्द्रिका प्रसाद : खादी कमीशन में दो तरह की कैटेगरी बना दी है, वहां भ्रम-भाव हो रहा है।

श्री सिद्धेश्वर प्रसाद : जहां तक भवन का सवाल है—खादी भवन के कर्मचारियों का वेतन-मान होना चाहिये, इसके लिये खादी कमीशन ने एक कमेटी बनाई थी, उस कमेटी ने अपनी रिपोर्ट दे दी है। मुझे पूरा विश्वास है कि सदन में जो चर्चा हुई है और अभी जो परिस्थिति है, इन सारी बातों को ध्यान में रख कर खादी भवन में जो कर्मचारी काम करने हैं, उन के वेतन-मान के सम्बन्ध में उचित और उचित फैसला शीघ्र से शीघ्र किया जायेगा :

श्री मूल चन्द डागा : सभापति जी, ये प्रश्न का उत्तर नहीं दे रहे हैं। ट्रेडिंग स्टॉक और रेगुलर स्टॉक में फर्क है।

श्री सिद्धेश्वर प्रसाद : जहां तक वेतन आयोग की तिकारियों का सवाल है—खादी कमीशन एक ऐसी संस्था है जो मुनाफे के लिये काम नहीं करती है। मुनाफे के लिये काम करने वाली संस्थाओं पर जो नियम लागू होते हैं, वे इस पर लागू नहीं होते हैं।

[श्री सिद्धेश्वर प्रसाद]

आप को पता है कि खादी कमीशन में काम करने वाले लोगों में—जो सब से ज्यादा वेतन दिया जाता है और जो सब से कम वेतन दिया जाता है, उस में कम से कम फर्क रखने की जाती है।

श्री सिद्धेश्वर प्रसाद : जीव में इन्टरलैट मल कीजिये ।

श्री हुकम अम्ब कछवाय : आदरणीय सभापति जी, ये खान-बूझ कर सदन को भ्रमराह कर रहे हैं ।

श्री सिद्धेश्वर प्रसाद : इन सब बातों को ध्यान में रख कर खादी कमीशन ने जो फैसला किया है, उस का उल्लेख मैंने अभी किया है—खादी भवन में काम करने वाले कर्मचारियों के वेतन मान के बारे में रिपोर्ट आ चुकी है और इन सारी बातों पर फैसला किया जायगा ।

जहां तक दूसरा प्रश्न उठाया गया है—जिसकी ओर माननीय सदस्यों ने अभी ध्यान आकृष्ट किया है—जब तीसरे वेतन आयोग

की रिपोर्ट मिलेगी तो हम उम्मीद करते हैं खादी कमीशन उन सारी बातों को ध्यान में रख कर और माननीय सदस्यों ने जो बातें उठाई हैं, उन को भी ध्यान में रखकर उन सिफारिशों पर भी विचार करेगा । जो कभी इस समय उठाई गई है जो कि सम्भव है कि उस के बारे में हमारे पास कोई भी जानकारी नहीं है, उसे भी विचार में लाया जा सकता है ।

के कर्मचारी सही ढंग से और संतुष्ट हो कर काम कर सकेंगे । यदि ऐसी कोई और शिकायत माननीय सदस्य हमारे ध्यान में लायेंगे तो मैं खादी कमीशन से उन पर विचार करने के लिये कहूंगा ।

LOK SABHA DEBATES

1

LOK SABHA

Thursday, December 21, 1972/

Agrahayana 30th 1894 (Saka)

The Lok Sabha met at Eleven of the
Clock.

[MR. SPEAKER in the Chair]

ORAL ANSWERS TO QUESTIONS

MR. SPEAKER: Dr. H. P. Sharma.

DR. H. P. SHARMA: Q. No. 541.

THE MINISTER OF STEEL AND MINES (SHRI S. MOHAN KUMARAMANGALAM): Sir, may I submit Q. No. 541 and Q. No. 547 may be taken up together because both these Questions cover the same subject?

MR. SPEAKER: Yes, Shri Mukhtiar Singh Malik—not here. I find so far as Q. No. 547 is concerned, both the Members, Shri Mukhtiar Singh Malik and Shri Birender Singh Rao, in whose name the Question stands are not present. Both of them are absent.

Decision to set up Mini-Steel Plants in Public and Joint Sectors

*541. DR. H. P. SHARMA: Will the Minister of STEEL AND MINES be pleased to state: —

(a) whether Government have finally decided to license five mini-steel plants in the public and joint sectors, rather than in the private sector; and

(b) if so, the decisions taken and the capacity of the steel plants?

THE MINISTER OF STEEL AND MINES (SHRI S. MOHAN KUMARAMANGALAM): (a) and (b). No final

decisions have been taken on the pending applications received for setting up of scrap-based electric-furnace cum continuous-casting units for manufacture of steel ingots/billets.

DR. H. P. SHARMA: Sir, when the question of this inordinate delay in coming to a final decision about pending applications for setting up of these mini-plants came up before the Estimates Committee last year, the Government went on record to say that there has been a delay, of long as a year and a half. But when a pointed question was put to the Government, why such a long delay has been there, the Government came out with the answer that the question of development of this industry has been under consideration from the policy point of view.

Now, another year has gone by and the answer of the Government is that no final decision has been taken about it. The Government should decide one way or the other. This answer that no decision has yet been taken really controverts the evidence given before the Estimates Committee also.

SHRI S. MOHAN KUMARAMANGALAM: The letters of intent in relation to applications that have been made much earlier, that is, 22 applications in all excepting one in respect of which questions have been answered both in this House and in the Rajya Sabha, were granted in the year 1971 and 72. The question is that there were subsequent applications, a large number, as many as 103 such applications, and we had to determine the amount of scrap available before coming

to a decision about the grant of licences. We set up a Working Group on the availability of ferro-scrap and it has made its recommendations that licences should be granted to the extent of the production of 200,000 tonnes a year. That is to say, the amount of scrap available would only satisfy or rather would meet the needs of producing units to produce 200,000 tonnes a year. Having received the report of that Working Group, we are now taking a final decision as to whom such licences should be granted.

DR. H. P. SHARMA: Do I understand Government's position correctly that all the pending applications have been processed and a decision has been taken and that the pending decision refers only to subsequent applications?

Again, in regard to part (b) of the Question, regarding the time when the units will go into production to which they have already granted letters of intent, the Government's reply was—I am quoting from the 20th Report of the Estimates Committee—that electric furnaces have already been ordered and will be commissioned mostly in 1972, in earlier part of 1972. Can the Government give a factual position as to whether the assurance that they will be commissioned by 1972 has been implemented and, if so, what is the actual position today?

SHRI S. MOHAN KUMARAMANGALAM: Regarding that, I will have to ask the hon. Member to put a separate Question, or, if he writes to me, I can give him the reply. I am not sure what stage they have reached. The hon. Member may remember, earlier, in this House as well as in the other House, the question has been answered that these plants have been permitted to import continuous-casting units from outside. They will come into production at the earliest. At the moment, I do not have the facts with me as to how many have actually come into production. If the hon. Member would put a separate Question, I can give that information.

MR. SPEAKER: Mr. Mukhtiar Singh Malik, your name was called to put your Question along with this Question but you

were not present at that time. Your Question is also linked with this Question. You can put it now.

SHRI MUKHTIAR SINGH MALIK:
Q. No. 547.

Applications for Grant of Licences for Mini Steel Plants

***547. SHRI MUKHTIAR SINGH MALIK:**

SHRI BIRENDER SINGH RAO:

Will the Minister of STEEL AND MINES be pleased to state:

(a) the number of applications, state-wise, received by the Government during the last one year for the grant of licences for setting up Mini-Steel Plants in the country; and

(b) the names of firms who have applied for such plants?

THE MINISTER OF STEEL AND MINES (SHRI S. MOHAN KUMARAMANGALAM): (a) and (b) A statement indicating applications (state-wise) received from December, 1971 up-to-date for setting up electric-furnace cum continuous-casting plants for manufacture of steel ingots/billets has been laid on the Table of the House. [Placed in Library. See No. LT-4112/72.]

SHRI MUKHTIAR SINGH MALIK: The Minister has already informed the House that action is being taken on the applications received by the Government. I would like to ask him if he is in a position to fix any date by which these applications are likely to be disposed of.

SHRI S. MOHAN KUMARAMANGALAM: I expect that at the latest within a month, we should be able to take a decision regarding how many of these 103 applications can be granted. But, I think, it would be only proper for me to tell the House that out of these 103 applications, probably, only 4 can be granted this year because the total production which the Committee has advised us for which scrap would be available is 200,000 tonnes. Our policy is to grant licences to units for producing 500,00 tonnes each per

SHRI PRABODH CHANDRA: The Minister in his reply has said that the number of licences cannot be increased because of the scarcity of scrap. Is it not a fact that hundred thousand tonnes of scrap are being exported to Japan while our own plants are starving because of non-availability of scrap?

SHRI S. MOHAN KUMARAMAN-GALAM: The hon. Member is not correctly informed. That was the position earlier. We are not now exporting ferrous scrap.

SHRI K. S. CHAVDA: May I know from the Government whether Government has laid down any definition of mini-steel plants? My question arises because the question refers to mini-steel plants under public and private sectors. There are two questions on this. That is why I am asking this. What is the definition of mini-steel plant?

SHRI S. MOHAN KUMARAMAN-GALAM: Government, to my knowledge, has never used the description of mini-steel plant. Government has always referred to units manufacturing mild steel ingots or billets in electric furnaces through either conventional or continuous casting process, using ferrous scrap as their principal raw material. That is the correct definition according to the Government.

SHRI K. S. CHAVDA: What is the maximum capital investment allowed to be invested in regard to the mini-steel plants?

MR. SPEAKER: Your question should also be a mini-question.

SHRI DINEN BHATTACHARYYA: May I know from the Government whether they are considering this aspect, that is, whether they are considering to increase the existing production of the steel plants that are already in operation, but not fully utilised,....

SHRI S. MOHAN KUMARAMAN-GALAM: I could not follow the question.

SHRI DINEN BHATTACHARYYA: There is a certain complaint that there is large quantity of unutilised capacity in the existing steel plants.

MR. SPEAKER: Ask a question.

SHRI DINEN BHATTACHARYYA: Before considering new applications, I want to know whether Government has any plan to see that there is no unutilised capacity in existing plants.

SHRI S. MOHAN KUMARAMAN-GALAM: With all respect to the hon. Member who put the question, I do not think there is any connection between the question of licensing some of these new plants and under-utilisation in the major integrated steel plants. We consume as much steel as is produced. We want to see that the utilisation in the integrated steel plant is increased, to the maximum extent possible. We would also like to make the maximum use of scrap that is available in order to increase the production of steel.

Setting up of new International Control Commission for Indo-China

542. **SHRI P. *GANGADEB:**

SHRI PURUSHOTTAM KAKOD-KAR:

Will the Minister of **EXTERNAL AFFAIRS** be pleased to state:

(a) whether there is a move for setting up of a new Four-Nation International Control Commission for Indo-China;

(b) if so, the reaction of Government in the matter; and

(c) whether India is still functioning as a Member of International Control Commission for Indo-China?

THE DEPUTY MINISTER IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) Nothing definite is known as yet about the proposed International Control Commission for Vietnam and India has not been formally apprised of the position.

(b) It is a matter to be decided primarily by the consent and agreement of the parties concerned.

(c) Yes, Sir.

SHRI P. GANGADEB: In view of the recent escalation in the Vietnam war, I would like to know from the Minister as to what role the Government is envisaging for the International Control Commission.

SHRI SURENDRA PAL SINGH: As regards India's views on the escalation of the Vietnam war, they are very well-known to the House. The House also knows that the International Control Commission functions for establishing peace. But then when war is going on in Vietnam, there is very little that the ICC can do in that connection.

SHRI P. GANGADEB: I would like to know whether, on the basis of the experience gained by India as member of the ICC for Indo-China, Government proposes to have new ICC with changes and modification in the terms of reference etc. so that they can play an effective role for restoring peace in Vietnam.

SHRI SURENDRA PAL SINGH: This is a matter which concerns the parties concerned. It has nothing to do with India at all. As regards our stand, it is well-known to the House. We can become Member only when there is consent from both the sides.

SHRI PURUSHOTTAM KAKODKAR: If war is going on in Vietnam and that is the reason of the Control Commission not functioning, what is the attitude of our Government vis-a-vis the new proposed International Control Commission, the Four Nation Commission?

SHRI SURENDRA PAL SINGH: First of all, we do not know anything about this new commission, and whether it will be set up or not. It all depends on the negotiations at present being carried on between the two parties. We do not really know what the outcome of those negotiations will be, and so, we cannot really comment at this juncture.

श्री सुदम बिहारी बाजपेयी : हिन्द चीन के बारे में जिस नये कमिशन के निर्माण की

बर्चा हो रही है, उस के सम्बन्ध में अनेक देशों के नाम लिये जा रहे हैं, लेकिन उन में भारत का नाम नहीं है। क्या इस का कारण यह है कि हनोई के साथ अपने कूटनीतिक सम्बन्धों का ऊँचा स्तर दिखला कर हम ने यह भावना पैदा कर दी है कि सारे विवाद में हम तटस्थ नहीं हैं, हम ने एक पक्ष का साथ देने का फैसला कर लिया है ?

श्री सुरेन्द्र पाल सिंह : यह सही है कि हमें अफगानिस्तान मालूम हुआ है कि तीन चार देशों के नाम हैं जो उस के मेम्बर होने वाले हैं और यह भी सही है कि उन में हिन्दुस्तान का जिक्र नहीं है। उस की जो बजह मालूम होती है वह यह है कि हमारे नाम पर कुछ कट्टीबंद को ऐतराज है।

SHRI PILOO MODY: Let them not join it.

SHRI INDRAJIT GUPTA: From the same unofficial sources which have brought to the notice of the Government that there is a proposal under discussion to set up a new commission, may I know whether Government have also learnt that the main opposition to the name of India being considered is coming from the United States of America? Is that the reason why the Government of India are so eager not to come out in condemnation of this escalation of bombing, and they are only expressing distress at the bombing? There were 20,000 tonnes of bombs which have been dropped on Hanoi on one day, namely yesterday, and hundreds of persons have been killed. I want to know whether the present attitude of the Government of only expressing distress has anything to do with their aspirations also to be included in any new commission which may be set up, and the reason that they would not comment on it.

SHRI PILOO MODY: Is India begging to be included in the commission, in other words?

SHRI SURENDRA PAL SINGH: So far, we have not been asked by any

any policy to become a member of this commission.

SHRI INDRAJIT GUPTA: My question was that is this the reason why Government has decided to speak in mute tones about the new bombing? They have not expressed their condemnation or anything of that sort.

SHRI SURENDRA PAL SINGH: About the question of bombing, the House already knows that the Foreign Minister has made a statement in the House. We have expressed our distress and anguish and disappointment. What more do the Members want?

SHRI INDRAJIT GUPTA: What is anguish and distress?

SHRI PILOO MODY: He wants the Government to do it every day.

SHRI P. GANGADEB: May I ask one more question?

MR. SPEAKER: The hon. Member has already gone up to the limit, namely two supplementary questions.

Recognition of Daitary Iron Ore Mines Labour Union

*543. **SHRI D. K. PANDA:** Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether the Daitary Iron Ore Mines Labour Union, Orissa has been recommended by the Labour Ministry for recognition; and

(b) if so, the result thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI BALGOVIND VERMA): (a) Yes, Sir.

(b) The management informed the Government that since two persons have claimed to be the General Secretaries of the Union they should be advised as to with whom they should correspond in the matter. The Registrar of Trade Unions, Orissa as well as the concerned Central Organisation of Workers of the Daitary

Iron Ore Mines Labour Union have been requested to indicate who is the real General Secretary of the Union.

SHRI D. K. PANDA: It has been admitted by the Ministry that the Daitary Mines Labour Union had been recognised by the Central Regional Labour Commissioner nine months ago. The question is whether any recommendation has been made to the management for giving recognition to this particular labour union. The answer is that because there are two general secretaries, therefore they are considering the person with whom they should correspond. But that is not the question, the main point is that the management is now playing the game of divide-and-rule.

MR. SPEAKER: Ask a question.

SHRI D. K. PANDA: I am coming to it. Without explanation, how can I ask a question?

There is also another rival Union headed by a Congress MLA who is hand in glove with the Mahtab group and that group is against the present Ministry. The management wants to create a rift between these two unions....

MR. SPEAKER: I have not been approving of these long preambles and introductions. Ask a straight question seeking information, not giving it.

SHRI D. K. PANDA: Some things have been suppressed. Therefore, I ask the hon. Minister whether any specific steps have been taken to accord recognition to the Daitary Mines Labour Union. If so on what date, and what are the contents of such direction?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI R. K. KHADILKAR): There is no justification in saying that the authorities are interested in dividing the unions and ruling over them.

On the contrary, at the present juncture, unions are dividing themselves by shifting their loyalties. In this case, the same thing has happened. In such a position, the reply has quite clearly indicated that we must ascertain at the present juncture who is the man representing the particular Union, because we had verification before and on that basis we can deal with him.

SHRI D. K. PANDA: Again the main question has been evaded. The question of two General Secretaries has been reported by the management to the Government. I want to know whether that matter has been inquired into, because at the time when the Labour Ministry accorded recognition to the particular Union, they found that a particular General Secretary was there. If there is another report that there is another General Secretary of the same Union, has the Labour Ministry made any inquiry to find out who is the second Secretary who is claiming also to be the General Secretary. I want to know specifically whether any inquiry has been made by the Ministry?

SHRI R. K. KHADILKAR: As I have already indicated, if the loyalties of the Union Secretary shift, we will have to make inquiries. We have made inquiries. On the basis of verification and inquiry, proper action will be taken.

SHRI D. K. PANDA: My question is, who are the two Secretaries? Who is the second Secretary whose name has been submitted and whether the credentials of that particular Secretary have been gone into?

SHRI BALGOVIND VERMA: Two names have been furnished to us. One is Shri C. R. Puruthal and the other Shri R. N. Das, Unofficially. I have come to know that Shri R. N. Das, who was officially Secretary has resigned. Still inquiry is going on. The date for inquiry is 27 December, 1972.

SHRI SHYAM SUNDER MOHAPATRA: Government have to be satisfied

as to which Union carries the majority of workers with it. Now there are two Unions.

MR. SPEAKER: Kindly cut out introductions.

SHRI SHAYAM SUNDER MOHAPATRA: The verification part is the most important. When the verification was made, the Union was an INTUC Union. Now one year has passed. In the meantime, all the workers when they found that the Union has become an AITUC Union, en masse resigned. In the present context of the situation, do Government propose to have any fresh verification to satisfy themselves as to which Union carries the majority of workers.

SHRI BALGOVIND VERMA: Verification has taken place and we do not intend to go in for another verification. We have already passed orders to the management to recognise the Daitary Ore Mines Union.

श्री रामसिंह भाई वर्मा : मान्यता का सवाल यूनियनों के साथ जुड़ा हुआ होता है न कि सेक्रेट्रियों के साथ। पत्रव्यवहार सेक्रेट्रियों के अलावा अध्यक्षों द्वारा भी किया जा सकता है। क्या यह सही नहीं है ?

SHRI BALGOVIND VERMA: Actually, there was inter-union rivalry and, therefore, it was necessary to know as to who is actually the general secretary looking after the affairs of the union. Accordingly, we addressed the letter to the Registrar of Trade Unions and also to the Government.

श्री हुकम चन्द कछवाय : यूनियनों के जो झगड़े होते हैं वे अधिकतर मान्यता के प्रश्न को लेकर ही होते हैं। प्रसन्न बात मान्यता की होती है और इसी कारण से झगड़े प्रारम्भ होते हैं। जिस यूनियन की सदस्य संख्या अधिक है उसको सरकार रखाव में आ कर मान्यता देना नहीं चाहती है यह साफ बात है। ऐसी परिस्थिति में क्या सरकार इस

बात के लिए तैयार है कि किस यूनिन की सदस्य संख्या कितनी है इसकी बैलट द्वारा जांच करवा ली जाए और उसके बाद उस आधार पर मान्यता दे दी जाए ?

सैद्धियों की जो बात है उसके बारे में आपने जो कहा है यह वहाँ की सरकार के दबाव में आ कर कहा है और उन्होंने आपको जानकारी गलत दी है, गुमराह करने लिए दी है। उस में कोई सार नहीं है। जिस यूनिन की सदस्य संख्या अधिक है उसको मान्यता देनी चाहिये। कांग्रेस के एम एल ए जिस यूनिन के प्रधान हैं उसकी सदस्य संख्या कम है, बहुत कम है। क्या उसके दबाव में आकर ऐसा नहीं किया जा रहा है ?

SHRI R. K. KHADILKAR: As Mr. Balgovind Verma just now indicated, we have already passed orders. The hon. Member should remember one thing. If, today, the verification is complete and the next day some people change their loyalties are we to order a fresh verification? We are not going to follow this practice.

श्री हुकम चन्द कछवाय : बैलट के माध्यम से मान्यता मिले क्या इस प्रथा को आप चालू करने वाले हैं ?

MR. SPEAKER: I am not allowing it. Kindly sit down. Next question.

Compulsory Insurance Scheme for all Armed Forces

+

*544. SHRI D. P. JADEJA:

SHRI VEKARIA:

Will the Minister of DEFENCE be pleased to state:

(a) whether there is a proposal to bring all the Armed Forces under the Compulsory Insurance Scheme financed by Government of India; and

(b) if so, the salient features thereof?

THE MINISTER OF STATE (DEFENCE PRODUCTION) IN THE MINISTRY OF DEFENCE (SHRI VIDYA CHARAN SHUKLA): (a) and (b). No. Sir there is no such proposal under examination of Government. However, a draft scheme named "Army Insurance-cum-Savings Fund" for officers and personnel of the Army has been received by Government recently for consideration.

SHRI D. P. JADEJA: As the Government's answer is in the negative, may I know the reasons why such a scheme is not being undertaken, and whether the army insurance-cum-savings fund draft scheme which has just been mentioned will cover all the three wings including the low-paid persons?

SHRI VIDYA CHARAN SHUKLA: I have given the answer in the negative because there is no proposal to bring the armed forces under the compulsory insurance scheme. This scheme that has been received from the army headquarters is related to the army personnel only for the time being, but it is being considered whether the air and naval headquarters will also formulate this scheme, and when such schemes are formulated by them they will also be considered along with this, and I am sure the same kind of decision will be taken on the other two schemes. This scheme which has been received from the army headquarters, as I indicated, is under consideration.

SHRI D. P. JADEJA: May I know how long they will take for the schemes to come into reality?

SHRI VIDYA CHARAN SHUKLA: We realise the importance of this scheme, and therefore we are trying to expedite the consideration of it, but both the Ministry of Finance and the Ministry of Defence have to consider and concur on the subject. Therefore, it will take a little time, but we shall try our best to advance and quickly finalise our views on this.

MR. SPEAKER: Mr. Vekaria—absent. Mr. Sathe.

SHRI VASANT SATHE: What will be the total cost in the form of premium if all the personnel of the defence forces are to be covered by this insurance scheme?

SHRI VIDYA CHARAN SHUKLA: This is exactly what is being worked out. I can give you the figures individually, but if it embraces all the three defence services, then it might be quite a formidable sum. This scheme has been worked out in co-operation with the LIC, and the proposed scheme caters for a contribution of Rs. 30 per month for each officer and Rs. 5 per month for each of the personnel below officer rank, for a life insurance cover of Rs. 30,000 for officers and Rs. 5,000 for the latter.

सरकारी विभागों में ठेका श्रमिक प्रणाली

+

*545. डा० लक्ष्मीनारायण पांडेय :

श्री डी० बी० चन्द्र गोडा :

क्या श्रम और पुनर्वास मन्त्री यह बताने की कृपा करेंगे कि :

(क) क्या सरकार के नियन्त्रण में आने वाले विभागों में श्रमिक ठेका प्रणाली को समाप्त करने की कोई योजना है ; और

(ख) यदि हां, तो उसकी मुख्य बातें क्या हैं ?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI BALGOVIND VERMA): (a) and (b). Under the Contract Labour (Regulation and Abolition) Act, 1970, the appropriate Government may, after consultation with the Central Board or a State Board as the case may be, prohibit employment of contract labour in any process, operation or other work in any establishment. There is however, no separate Scheme for the purpose in respect of Government-controlled Departments.

डा० लक्ष्मीनारायण पांडेय : अध्यक्ष महोदय, 1970 में ठेका श्रम अधिनियम पास होने के बाद आज भी अनेक सरकारी विभागों में ठेका पद्धति चालू है, जिस के अन्तर्गत मजदूरों को न्यूनतम मजदूरी से भी कम मजदूरी दी जाती है। उदाहरण के लिए रेलवेज में बहुत से कान ठेके पर दिये जाते हैं, जहां मजदूरों को न्यूनतम मजदूरी से भी कम मजदूरी मिलती है। मैं यह जानना चाहता हूं कि जो सरकारी विभाग इस कानून का पालन नहीं करते हैं, उन के खिलाफ क्या कार्यवाही की गई है या क्या कार्यवाही करने का विचार है ?

श्री बालगोविन्द वर्मा: श्रीमन्, मेरे ब्याल में माननीय सदस्य ने कानट्रेक्ट लेबर एक्ट को देखा नहीं है। वह एक्ट कानट्रेक्ट लेबर को अवैलिड नहीं करता है। हम ने यह कभी नहीं कहा है कि हम कानट्रेक्ट लेबर को बिल्कुल अवैलिड कर देंगे। हम ने कहा है कि हम उसको रेगुलेट करेंगे। इस के अनुसार जो भी फर्ज या कानट्रेक्टर बीस श्रावमियों को काम पर लगाये हुए हैं और कानट्रेक्ट पर काम करा रहे हैं, उन पर कुछ बन्धन हैं। उन को लाइसेंस लेना पड़ता है और रजिस्ट्रेशन कराना पड़ता है।

डा० लक्ष्मीनारायण पांडेय : अध्यक्ष महोदय, प्रश्न का उत्तर ठीक नहीं दिया गया है। यह साफ है कि सरकार ठेका पद्धति को समाप्त करने जा रही है, लेकिन फिर भी सरकारी विभागों में वह चल रही है और उस के अन्तर्गत मजदूरों को न्यूनतम मजदूरी भी नहीं मिलती है। मैं यह जानना चाहता हूं कि सरकार ने ठेका पद्धति को समाप्त नहीं किया है, इस का क्या कारण है ?

श्री बालगोविन्द वर्मा : इस बारे में एक एक्साइजरी कमेटी बनाई गई थी, जिस की मीटिंग 14 जून, 1972 को हुई थी।

उस ने इस सारे मामले पर विचार किया और उस के बाद यह नोट किया गया कि दो तीन मिलाई स्टील प्लांट के अन्तर्गत राजहारा में और नेशनल मिनरल डेवेलपमेंट कॉर्पोरेशन के अन्तर्गत बैलाडिला आयरन और प्रोजेक्ट में कान्ट्रैक्ट लेबर की व्यवस्था को खत्म कर दिया जायेगा। मिलाई स्टील प्लांट और नेशनल मिनरल डेवेलपमेंट कॉर्पोरेशन उस के अनुसार कार्यवाही कर रहे हैं। वहां जो लेबरजें लगे हुए थे, उन को डिपार्टमेंटलाइज कर दिया गया है। इस के अलावा और भी विचार हुआ था, लेकिन और विभागों तथा प्रतिष्ठानों के बारे में हम जानकारी प्राप्त कर रहे हैं। अगर हमें मालूम होगा कि वहां मजदूरों को वाजिब मजदूरी नहीं दी जा रही है, और वहां समुचित व्यवस्था नहीं है, तो हम कदम उठावेंगे।

डा० लक्ष्मी नारायण पांडेय : मन्त्री महोदय के उत्तर से यह स्पष्ट हो गया है कि सरकारी विभाग आज भी डेका एक्ट को लागू कर रहे हैं। मन्त्री महोदय ने एन०एम० डी०सी० और मिलाई का उदाहरण दिया है। ऐसे और भी विभाग हो सकते हैं जहाँ यह जानना चाहता हूँ कि क्या उन के खिलाफ कोई कदम उठाया गया है या उठाने का विचार है। जो इस अधिनियम का पालन नहीं करते हैं।

श्री बालगोविन्द वर्मा : हमने उन तमाम सरकारी प्रतिष्ठानों से सूचना मांगी है, जहाँ कान्ट्रैक्ट लेबर लगा हुआ है। अगर हमें मालूम हुआ कि कहीं कोई अन्याय हो रहा है, तो हम जरूर कार्यवाही करेंगे।

SHRI D. B. CHANDRA GOWDA: In view of the fact that the contract labourers are at the mercy of the contractors and the present labour legislation like the Minimum Wages Act and the Bonus Act do not attract contract

labour within its purview, is there any proposal in the Ministry to bring the contract labourers within the purview of a comprehensive legislation?

SHRI BALGOVIND VERMA: The Contract Labour Regulation Abolition Act is already there. There is no need for another legislation and therefore we are trying to control the contractors as well as other industries also. So far 1728 principal employers have been registered and licenses have been issued.

अध्यक्ष महोदय : मिनिस्टर साहब लम्बे चौड़े फिगरज में पड़ गये हैं। मेम्बर साहब ने वह नहीं पूछा है। उन्होंने जो सिम्पल सवाल पूछा है, उस का जवाब दे दिया गया है।

श्री भोगेन्द्र झा : क्या मन्त्री महोदय को पता है कि हिन्दुस्तान कन्स्ट्रक्शन लिमिटेड जैसी जमातों में जो काम दिया जाता है, उस के लिए दरअसल ठेकेदारों की पांच सतह, कतारें, बनी हुई हैं—जो काम किसी ठेकेदार को दिया जाता है, वह दूसरे ठेकेदार को दे देता है और दूसरा तीसरे को दे देता है, आदि? क्या सरकार इस पद्धति को बन्द करने के लिए कोई उपाय सोच रही है, ताकि श्रमिकों से उस संस्थान का सीधा सम्बन्ध हो जाये, अन्यथा उस का अस्तित्व क्या है?

SHRI BALGOVIND VERMA: At the present stage of our economy, we do not intend to prohibit contract labour.

SHRI BHOGENDR JHA: I am talking of five layers of contract labour.

SHRI BALGOVIND VERMA: If there are certain conditions under which the contract labour can be employed, we do not intend to prohibit that.

MR. SPEAKER: Some of the contractors employ other sub-contractors. He wants to know whether there is any intention to stop that.

SHRI BALGOVIND VERMA: All the contractors are controlled under this Act. Therefore, there need not be any apprehension on that ground.

SHRI BHOGENDRA JHA: If he does not know the answer, he should ask for time. In Hindustan Construction Limited there are five layers of contractors. Is that going to be ended?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI R. K. KHADILKAR): We have no information on the point how many layers of contractors there are in the Hindustan Construction Company. We will get that information. As my colleague has stated, even if there are sub-contractors, they are covered by this Act. So, regulation is there.

SHRI A. P. SHARMA: The hon. Minister just now said that there are 1,700 contractors in this country. May I know why government departments like railways, defence and P&T employ contractors? Could they not take up the works departmentally? Is it the intention of the government that the workers should be deprived of their rightful wage, because the contractors always pay the workers less?

SHRI R. K. KHADILKAR: Wherever it is possible, the departments have been advised to discontinue the contract system. But it depends on their judgment. As my colleague has said, at the present stage of development, it is not always possible to absorb them and make them departmental workers.

SHRI A. P. SHARMA: Why should government employ contractors? What are the circumstances in which it is not possible to do the work departmentally?

SHRI R. K. KHADILKAR: Even the railways have been advised that they should not get the work done on a contract basis. But it is ultimately their decision and their judgment as to whether they want contract labour or get the work done departmentally.

SHRI DINEN BHATTACHARYYA: Even 25 years after Congress rule there is regular looting and plundering of contract labour. Government have passed an Act for the regulation of contract labour. May I know whether government have even assessed what is the total number of contract labour in the public sector, including railways?

अध्यक्ष महोदय : मेम्बर साहबान शिक्षा-यत किया करते हैं कि फलां पार्टों का नाम लिया गया है। ऐसी बातों से ही भगड़ा होता है। मैं आप को मना नहीं करूंगा, लेकिन बाद में आप यह न कहें कि दूसरी तरफ से किसी पार्टी के बारे में कुछ कहा गया है।

I advise all of you not to mention names of parties in this fashion.

SHRI DINEN BHATTACHARYYA: They say that their policy is to abolish contract labour. Have they made an assessment of contract labour?

SHRI R. K. KHADILKAR: So far as public sector undertakings are concerned, we have no definite figures with us as to who have got themselves registered by them.

SHRI TRIDIB CHAUDHURI: From the figures of registered contractors given by the hon. Deputy Minister, their number does not seem to be very large. The reason is that many contractors' firms have not registered themselves. Is there any proposal under the consideration of the government to advise at least all public sector enterprises to employ only registered contractors so that they may be brought under the purview of the Bill? This has been passed. Otherwise, the Bill would be observed more in breach than in its proper implementation. Is there any such proposal under the consideration of the Government? Have they contacted the public sector authorities? If so, what has been their response in this regard?

SHRI BALGOVIND VERMA: The public sector undertakings have been advised to employ only such contractors who have got themselves registered. But, so far as the private sector is concerned, there is some trouble.

SHRI TRIDIB CHAUDHURI: Are they employing only registered contractors?

SHRI BALGOVIND VERMA: I think they are.

बिहार सरकार को भारत कोकिंग कोल कम्पनी द्वारा देय रायल्टी

* 546. श्री एम० एस० पुरती : क्या उत्पात और खान मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या भारत कोकिंग कोल कम्पनी की ओर बिहार सरकार का 3. 58 करोड़ रु० रायल्टी के रूप में बकाया है ;

(ख) यदि हां, तो क्या बिहार सरकार ने इसके भुगतान के लिए केन्द्रीय सरकार से कहा है, जिससे राज्य की सूखे की स्थिति पर काबू पाया जा सके; और

(ग) यदि हां, तो केन्द्रीय सरकार को इस पर क्या प्रतिक्रिया है ?

THE MINISTER OF STATE IN THE MINISTRY OF STEEL AND MINES (SHRI SHAHNAWAZ KHAN): (a) to (c). A statement is laid on the Table of the House.

Statement

(a) to (c). Bharat Coking Coal Limited has paid the royalty dues to the Government of Bihar from the time of take over of the coking coal mines. Under Section 9 of the Coking Coal Mines (Nationalisation) Act, 1972, every liability of the previous owners of the coking coal mines in relation to any period before the take over is the liability of the previous owners and shall be

enforceable against them and not against the Central Government or Bharat Coking Coal Limited. Section 23 of the Act provides that the sums due to the State Government as royalty, rent, or dead rent shall be given priority over all other unsecured debts, not being the amounts advanced by the Central Government or the Custodian for the management of the coking coal mines. The Government of Bihar had requested that since the ways and means position of the State Government was critical and resources had to be mobilised for development programmes and for meeting the severe drought situation, the Central Government may ensure that all the arrear royalties are paid in this year itself. The State Government's attention has been drawn to the relevant provisions of the Coking Coal Mines (Nationalisation) Act and they have been advised to file their claim for arrears of royalty before the Commissioner of Payments appointed under the Act.

श्री एम० एस० पुरती : अध्यक्ष महोदय : मंत्री के वक्तव्य से ऐसा प्रतीत होता है कि सरकार रायल्टी की प्रदायगी से संबंधित उत्तरदायित्व से बचना चाहती है और जो प्राइवेट माइन ओनर्स हैं उन पर ही उस का भार डालना चाहती है। मैं जानना चाहता हूँ कि जब सरकार कोकिंग कोल माइन्स को अपने हाथ में ले रही थी उस समय क्या उन्हें जानकारी थी कि बिहार राज्य के प्राइवेट माइन ओनर्स के ऊपर रायल्टी की काफी रकम बकाया पड़ी हुई है? अगर जानकारी थी तो क्या उस समय उनका यह दायित्व नहीं था कि प्राइवेट माइन ओनर्स से वह रकम राज्य सरकार को प्रदा करानी ?

श्री शाहनवाज खां : केन्द्रीय सरकार को इस बात का इत्म था कि बिहार सरकार की रायल्टी की रकम बहुत सारी बकाया है। लेकिन जो कोकिंग कोल माइन्स नेशनलाइजेशन ऐक्ट बनाया गया उस में यह बात साफ कर दी गई है कि जिस तारीख से कोकिंग कोल माइन्स ली गई हैं उस से पहले का खितना

बकाया है उस के लिए कमिशनर आफ पेमेंट निकर कर दिया गया है और वह भी पहले से प्रोनर्स माइन्स के हैं वही उस के देनदार हैं। भारत कोकिंग कोल माइन्स उस का जिम्मेदार नहीं है। बिहार सरकार को अगर कोई क्लेम देने है तो वह कमिशनर आफ पेमेंट को दे दें।

श्री एम०एस० पुरती : क्या बिहार सरकार से रायल्टी के दावा फल आ चुके हैं ? यदि हां, तो रायल्टी की प्रदायगी के संबंध में सरकार, कौन सा उचित कदम उठाना चाहती है। भिन्न कि बिहार सरकार जो संकट के जंजाल में फंसी हुई है वह मुक्त हो सके ?

श्री शाहनवाज खां : केन्द्रीय सरकार की पूरी हमदर्दी बिहार सरकार के संकट में फंसे होने के नाते उन के साथ है.... (व्यवधान).... नहीं, केवल जवानी नहीं है। भारत कोकिंग कोल माइन्स ने 50 लाख रुपये जो सावकाश कर्ज के थे वह उन्हें दिए हैं और हाल ही में उन को 2 करोड़ रुपया और दे दिया गया है। हमारी पूरी हमदर्दी उन के साथ है और जो कुछ भी हम कर सकते हैं। वह कर रहे हैं।

श्री शंकर दयाल सिंह : मंत्री महोदय ने अभी अपने उत्तर में कहा कि कोकिंग कोल माइन्स का नेशनलाइजेशन हो रहा था उस समय यह बात कह दी गई थी कि कोल माइन्स प्रोनर्स इस की प्रदायगी करेंगे। मैं जानना चाहता हूँ कि आप ने जब उन फर्मों को कम्पेन्सेशन दिया तो क्यों नहीं उस में से बिहार सरकार की रायल्टी की रकम काट दी और क्यों नहीं डायरेक्ट पेमेंट कर दिया ? इसके साथ साथ क्या यह बात सही है कि बिहार सरकार के माइन्स मिनिस्टर बार बार आपसे मिले हैं और आप ने आश्वासन भी दिए हैं ?

THE MINISTER OF STEEL AND MINES (SHRI S. MOHAN KUMARAMANGALAM) : Whatever assurances that

have been given to the Bihar Government have been fully honoured by Central Government. Not a paise has been paid to any of the mine-owners till now. Whatever amount that was due to the mine-owners as compensation has been assessed, inserted in the Coking Coal Mines Nationalisation Act and deposited to the account of the Commissioner of Payments and it will not be paid to the mine-owners until the total amount due by way of provident fund dues, etc. to the workers and royalty to the Government has been paid...

SHRI SHANKAR DAYAL SINGH : Rs. 3.58 crores....

SHRI S. MOHAN KUMARAMANGALAM : Whatever be the amount, whether it is Rs. 3.58 crores or any other amount, it is for the Bihar Government to assess that amount and make an application to the Commissioner of Payments. The Commissioner of Payments will give a decision as to what is the correct amount and no money will be paid to the mine-owners until whatever amount is due as royalty to the Bihar Government or any other Government is paid.

श्री रामाबतार शास्त्री : अभी मंत्री महोदय ने बतलाया कि जब से आपने भारत कोकिंग कोल को अपने हाथ में लिया है, तब से सरकार ने रायल्टी का पैसा दे दिया है। इसी पृष्ठभूमि में मैं जानना चाहता हूँ कि आप के अपने हाथ में लेने से पहले मालिकों के पास रायल्टी की कितनी राशि बकाया थी और उस में से कितनी राशि आपने बिहार सरकार को दिलवाई है। मैं आप के हाथ में आने से पहले के बारे में पूछ रहा हूँ ?

श्री शाहनवाज खां : भारत कोकिंग कोल की माइन्स का अधिकार अपने हाथ में लेने से पहले 4.34 करोड़ रुपया बकाया था। उस में से 50 लाख रुपया भारत कोकिंग कोल बिहार सरकार को दे चुकी है। बाकी के

लिए, वैसाकि कभी मिनिस्टर साहब ने कहा है—क्या ने किसी भी साइन बोर्ड को कोई मुआवजा नहीं दिया है, जब से तमाम काम-काज इन से ले लिए जायेंगे तब मुआवजा दिया जायगा।

श्री रामावतार झास्त्री : जब पैसा आप के पास है तो उन को दे दीजिए, आप क्यों नहीं देते हैं, इसमें क्या कठिनाई है ?

श्री आहलबाबा सा : कमिश्नर एक्वाइट कर दिया गया है, तमाम कलेम्ब उस के सामने जायेंगे, उसके बाद वह फैसला करेगा।

Ban on Over-Flights of U.S. Army Aircrafts

†

*549. SHRI C. T. DHANDAPANI:
SHRI NAWAL KISHORE
SHARMA:

Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) whether Government of India have imposed ban on over-flights by U. S. Army Aircraft on India;

(b) if so, the reasons therefor;

(c) whether such over-flights have been allowed to other countries; and

(d) if so, to which countries?

THE DEPUTY MINISTER IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) No ban has been imposed by Government on flights by US military aircraft over India. However, the 1949 Agreement between the Government of India and the Government of the United States of America concerning the flights of US military aircraft through India for carriage of goods, mail and personnel connected with the Diplomatic Mission has been terminated.

(b) Under the Vienna Convention on Diplomatic Relations, 1961, there is no obligation on Government to permit facilities for carriage of goods, mail and personnel connected with diplomatic missions.

Government does not normally allow, as a matter of policy, flights by foreign military aircraft over Indian territory, except in very special cases, which are considered on their merits. This rule is applicable to all foreign military aircraft and not only to those of any particular country.

(c) Yes, Sir. Any country which has friendly relations with India may seek permission for its military aircraft to overfly or transit Indian territory.

(d) In the recent past, permission has been given to military aircraft belonging, among others, to the USA, the UK, France, Burma, Canada, Iran, Iraq, Sri Lanka, Singapore, Federal Republic of Germany and Nepal to overfly or transit through Indian territory.

SHRI C. T. DHANDAPANI: In the beginning of his answer, the Minister has stated that it has not been cancelled. But, later on, he says that the 1949 agreement between the Government of India and USA Government concerning flights for carriage of goods, mail and personnel connected with the Diplomatic Mission has been terminated. I cannot understand why it was terminated, what was the reason or are there any political reasons for this termination?

SHRI SURENDRA PAL SINGH: There is no political reason whatsoever for the termination of this agreement. This agreement was entered into in the context of the circumstances that prevailed then, but, in the changed conditions, the Government felt that there was no need to continue this agreement and so terminated it with a view to bring about a uniform policy in regard to all countries.

SHRI C. T. DHANDAPANI: From his answer I understand that under the Vienna Convention on Diplomatic Relations, 1961,

there is no obligation on the part of the Government to permit facilities for carriage of goods, etc. At the same time, in the last part of the answer, he has stated that permission has been given to countries like USA, France, Burma, Canada, Iran, etc. I want to know as to what is the necessity for the Government to permit the USA Government again to over-fly our country.

SHRI SURENDRA PAL SINGH: There appears to be a little confusion in the mind of the hon. Member. We have allowed military aircraft of USA and other countries to overfly our country, but not to service their missions in this country or elsewhere or to carry any goods etc., for them. These were military aircraft passing over this country and we gave them permission on reciprocal basis. What we have banned are military aircraft, coming to India carrying supplies to the missions and other establishments in this country. That was banned. But the over flights are not banned in this country. Any friendly country can ask for such permission and permission is given on the basis of merit.

श्री सारनन्दे राय : क्या यह बात सही है कि पिछले 10 सालों में भारत सरकार ने नार्थ वियतनाम पर बम्बार्डमेंट करने के लिए या हथियार ले जाने के लिए साउथ वियतनाम को अमरीका के जो सैनिक दिमान जाते रहे हैं उन को जाने की आज्ञा दी है ?

श्री सुरेन्द्र पाल सिंह : सब से पहले तो मैं यह बात साफ कर दूँ कि कोई भी मिलिट्री एयर-क्राफ्ट लड़ाई के हथियार ले कर या लड़ाई के लिए सैनिकों को लेकर हमारे मुक्त के ऊपर से नहीं जा सकता। जिन जहाजों को इजाजत दी गई है, ये वे जहाज थे जिन में न मिलिट्री परसोनल थे और न लड़ाई का सामान था।

Return of Former Bangladesh Refugees to India

*550. **SHRI PILOO MODY:** Will the Minister of LABOUR AND REHABILITATION be pleased to state the number of such former refugees from Bangladesh as have returned to India during the last two months?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI BALGOVIND VERMA): According to the information so far received from the State Governments and the rehabilitation projects in India, about 1400 families of migrants, who had come to India prior to the 25th March, 1971 and had gone over to Bangladesh after its liberation have returned to India during the last two months.

Delay in Implementation of Kudremukh Iron Project in Mysore

*551. **SHRI M. RAM GOPAL REDDY:** Will the Minister of STEEL AND MINES be pleased to state:

(a) whether delay has been reported in the implementation of Kudremukh Iron Project in Mysore; and

(b) if so, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF STEEL AND MINES (SHRI SHAHNAWAZ KHAN): (a) and (b). Government have approved the Kudremukh Project, in principle. However, an investment decision and sanction to the project can be given only after satisfactory arrangements are made with regard to the marketing of the iron ore slurry from Kudremukh. The question of delay in the implementation of the project does not arise at this stage.

SHRI M. RAM GOPAL REDDY: What is the total cost of the project?

SHRI SHAHNAWAZ KHAN: Approximately Rs. 174 crores.

SHRI M. RAM GOPAL REDDY: Will it be a Central project or will the State also contribute something?

SHRI SHAHNAWAZ KHAN: It is a Central project with foreign collaboration.

SHRI K. P. UNNIKRISHNAN: Would you link it up with the iron ore reserves in Calicut?

SHRI SHAHNAWAZ KHAN: No, Sir.
Industrial Cables (India) Limited

***552. KUMARI KAMLA KUMARI:** Will the Minister of LABOUR AND REHABILITATION be pleased to refer to the reply given to Unstarred Question No. 778 on the 16th November, 1972 and state:

(a) whether the Office of M/s Industrial Cables (India) Limited in New Delhi has violated the Bonus Ordinance by paying only 4 per cent Bonus for the year ending 31st October, 1971 to its ex-employees; and

(b) whether the Central Government are collecting this information for legal action against this firm?

THE DEPUTY MINISTER IN THE MINISTRY OF LABOUR AND REHABILITATION (SHRI BALGOVIND VERMA): (a) and (b). As already stated in reply to Unstarred Question No. 778 on the 16th November, 1972, the matter falls in the State sphere. It is for the Government of Punjab to verify the complaint and take such action as may be deemed necessary. The matter has been brought to their notice.

कुमारी कमला कुमारी : इनका सारा आफिस दिल्ली में है, लेकिन इसकी जांच करने के लिये हमें राज्य सरकार पर निर्भर करना पड़ रहा है—यह कैसी बात है, मेरी समझ में नहीं आ रही है? जब आप के कर्मचारी जांच के लिये जीवन-तारा बिल्डिंग गये तो उनको खिला पिला कर वापस खीटा दिया गया और उन्होंने यहाँ लिख कर भेज दिया कि यह राज्य सरकार से सम्बन्धित मामला है—यह बात समझ में नहीं आती है। व राष्ट्रपति के अध्यादेश के अनुसार 3020 LS.—2.

उनको 14 परसेन्ट बोनस मिलना चाहिये, तो उनको 4 परसेन्ट बोनस दिया गया, यदि आप चाहें तो मैं उन कर्मचारियों को पेश कर सकती हूँ जिन्हें 4 परसेन्ट बोनस मिला है—यह कैसी बात है?

श्री बालगोबिन्द वर्मा : श्रीमन्, इसमें कम्पनी का हेड आफिस राजपुरा पंजाब में स्थित है इसलिये पंजाब गवर्नमेंट एप्रोप्रिएट एयारिटी होने के नाते से कार्यवाही कर सकती है। हाँ, उनका आफिस एक दिल्ली में है और हमारे मंत्रालय ने दिल्ली एडमिनिस्ट्रेशन से बातचीत की है और उनसे मालूम हुआ है कि मैसर्स इंडस्ट्रियल केबल्स (इंडिया) लिमिटेड ने अपने एम्प्लायर्ज को 4 परसेन्ट के हिसाब से बोनस दिया है और 10 परसेन्ट के हिसाब से एक्सप्रेशिया पेमेन्ट इस साल किया है। बाकी इसके रिकार्ड्स जो है वह राजपुरा में मेनटेन होते हैं इसलिये उसके बारे में कोई सूचना नहीं है, हमने पंजाब गवर्नमेंट को इसके बारे में लिखा है (स्थग-धान)।

कुमारी कमला कुमारी : मैं माननीय मंत्री महोदय से जानना चाहती हूँ कि कितने लोगों को 4 परसेन्ट दिया गया और क्यों दिया गया और अभी तक इसके बारे में आपने पूरी जांच कराई है या नहीं? अगर नहीं कराई है तो क्यों नहीं कराई है?

श्री बाल गोबिन्द वर्मा : मैंने कहा कि 4 परसेन्ट दिया गया है और वर्तमान इम्पलाईज को 10 परसेन्ट एक्स-प्रेशिया भी दिया है। इस के बारे में हमने पंजाब गवर्नमेंट को लिखा है। क्योंकि वह एप्रोप्रिएट गवर्नमेंट है इसलिये उनको चाहिये कि आवश्यक कार्यवाही करें, यदि कोई उल्लंघन किया गया है।

भारत और इसरायल "पड़ोसी" राष्ट्रों के लिए
संभावित शक्तिशाली प्राणविक खतरे

*554. श्री फूलचन्द बर्मा : क्या विदेश
मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या अमरीका और सोवियत संघ के संयुक्त राष्ट्र संगठनों द्वारा दो वर्ष तक किए गए अध्ययनों के बाद दोनों देशों के संयुक्त हस्ताक्षरों से वाशिंगटन में एक रिपोर्ट जारी की गई है कि जिसमें "पड़ोसी राष्ट्रों के लिये संभावित शक्तिशाली खतरों" के रूप में भारत और इसरायल के नामों का उल्लेख किया गया है ; और

(ख) यदि हां, तो इस पर भारत सरकार की क्या प्रतिक्रिया है ?

विदेश मंत्रालय में उपमंत्री (श्री सुरेन्द्रपाल सिंह) : (क) और (ख). अमरीका की संयुक्त राष्ट्र संस्था और सोवियत संघ की संयुक्त राष्ट्र संस्था ने एटमी हथियारों के अधिक उत्पादन के प्रश्न पर समानान्तर अध्ययन का प्रकाशन कर दिया है। ये अध्ययन उन विभिन्न संभव समर्थक उपायों से सम्बन्धित है जिनका उद्देश्य अणु-अस्त्र अनु-त्पादन संधि को सुदृढ़ करने और उस संधि का अधिक समर्थन प्राप्त करना है। अमरीका की संयुक्त राष्ट्र संस्था की रिपोर्ट में भारत तथा इसराइल को अत्यन्त महत्व के दो 'प्रवेशकारी' देश बताया गया है जिन्होंने अणु-अस्त्र अनुत्पादन संधि पर हस्ताक्षर नहीं किये हैं। सोवियत संघ संयुक्त राष्ट्र संस्था की रिपोर्ट में भारत का कोई स्पष्ट उल्लेख नहीं है लेकिन इसराइल के बारे में केवल इतना कहा गया है कि उस पर प्रभाव डालना चाहिये और अणु-अस्त्र अनुत्पादन संधि पर उसका समर्थन सर्वप्रथम प्राप्त करना चाहिये।

भारत सरकार ने बार-बार यह घोषणा की है कि उसकी नीति अणु-शक्ति का केवल शांतिपूर्ण उपयोग करने के लिये है।

Expenditure on Meetings of C.B.T. of E.P.F. Organisation

*555. SHRI BHOLA MANJHI: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether a heavy expenditure is being incurred for holding the C.B.T. meetings of E.P.F. organisation; specially in the places of sight-seeing like Simla Ooty, Goa and Darjeeling;

(b) whether the decisions of this body are only recommendatory and are examined again by the Government; and

(c) if so, the use of holding such meetings and the reasons why these meetings are not being held in Delhi in view of the bad economic problems of the country?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI R. K. KHADILKAR): (a) to (c). The Provident Fund authorities have reported that the meetings of the Central Board of Trustees are normally held quarterly at Delhi or at one of the Regional Headquarters and sometimes in other places also. The venue of a meeting is decided by the Chairman in consultation with the Trustees present at the previous meeting and is fixed having regard to the convenience of the Trustees and the invitations received from various State Government representatives for holding the meeting in their respective States. There would be some economy in expenditure if the meetings are held in Delhi. However, this is an all-India Organisation and holding of Board meetings at State Headquarters (on the invitation of the State Government) does give the Trustees an opportunity of discussing with the State Government and its officials the problems relating to the Organisation in the particular State. The financial economy in holding Board meetings at New Delhi is to be set off against this advantage.

The provisions of the Employees' Provident Funds and Family Pension Fund Act, 1952 and the Schemes framed thereunder specify clearly the powers of the Central Board of Trustees and those exercisable by the Central Government. Certain decisions of the Central Board of Trustees are recommendatory, where the approval of the Central Government is required under the provisions of the Act and the Scheme, but where the Central Board of Trustees is the competent authority to decide certain issues under the powers flowing from the Act and the Schemes, such decisions are not recommendatory in nature. 1

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) and (b). As in other States, the State and District Soldiers', Sailors' & Airmen's Boards in Kerala assist ex-servicemen in securing employment in Government, public and private organisations. The Government of Kerala have sanctioned some concessions in regard to age, education and priority in favour of ex-servicemen securing employment under State Government. The percentage of ex-servicemen employed related to the number registered with Employment Exchanges in Kerala compares favourably with similar figures in other States.

(b) During February-March 1972, it was, however, possible for the camp authorities to locate about 2075 quintals of firewood valued at Rs. 17,969 in possession of the evacuees. This quantity was made good by short issues of firewood to the evacuee families, who were in possession of extra firewood, bringing down the total loss to 4320 quintals valued at Rs. 37,411.

(b) Each case was investigated by the Chief Commandant Mana and orders for termination of the services were issued by him after thorough scrutiny. THE MINISTER OF LABOUR AND REHABILITATION (SHRI R. K. KHADILKAR): (a) and (b). No, Sir. Only 22 per cent of the employees of the Mana Group of camps have completed 8 years service. No employee has been declared quasi-permanent ignoring claims of senior eligible employees.

Some of the employees of the Mana Group of Camps could not, however, be declared quasi-permanent because they do not fulfil certain essential conditions such as satisfactory performance and conduct reports, prescribed educational or technical qualifications, Indian Citizenship Certificate in the case of migrant employees and qualifying in the prescribed type tests, etc.

Besides, cases of some categories of employees could not be considered for quasi-permanency as the Recruitment Rules in respect of the posts held by them could be finalised only recently. Cases of such employees are now being processed and are expected to be finalised shortly.

According to the Government of India policy, 50 per cent of the posts (other than Class IV posts) in non-permanent Departments as have existed for not less than 10 years and are not proposed to be wound up in the foreseeable future may be made permanent provided the posts have been in continuous existence for a

period of 5 years or more and are required indefinitely. The Mana Group of Transit Centres do not yet fulfil these conditions. (ख) यदि हां, तो उसकी मुख्य बातें क्या हैं; और

(ग) इसका वितरण किस प्रकार किया जाएगा और यह रक्षित भण्डार कब तक बना दिया जाएगा ?

इस्पात और खान मंत्रालय में राज्य मंत्री (श्री शाहनवाज खाँ) : (क) से (ग). रक्षित भण्डार बनाने का कोई प्रस्ताव नहीं है लेकिन इस्पात बैंक योजना में प्राथमिक इकाइयों की अत्यावश्यक आवश्यकताओं को उनके बैंड आयात लाइसेंस/लाइसेंस/रिलीज आर्डर पर बैंक से पूरा करने के लिए इस्पात की क्रिटिकल मर्चें का स्टॉक बनाने की व्यवस्था है। यह बैंक हिन्दुस्तान स्टील लि० के परिचालन नियंत्रण में काम करेगा। यह बैंक इस्पात की उन क्रिटिकल श्रेणियों की आवश्यकताओं की पूर्ति करेगा जिनकी सामान्य आयात नीति के अधीन आयात की प्रतीक्षा नहीं की जा सकती और इस प्रकार विभिन्न आयोजनाओं के निष्पादन में होने वाले लम्बे तथा मंहंगे पड़ने वाले बिलम्ब से बचा जा सकता है। चूंकि बैंक इन मर्चों की आपूर्ति आयात लाइसेंस/रिलीज आर्डर पर करेगा अतः बैंक इनका प्रयोग स्टॉक के पुनर्भरण के लिए करेगा। स्टील .

बैंक स्टेट बैंक आफ इण्डिया द्वारा दिये गये 15 करोड़ रुपये के रिबोलिवस क्रेडिट से आयात का प्रबन्ध कर रहा है । सरकार ने इस ऋण की गारंटी दी है । बैंक से सप्लाई प्राप्त करने के लिए पात्र लाइसेंस धारी/रिलीज आर्डर धारी बैंक से सम्पर्क स्थापित कर सकता है ।

Excess Production of Aluminium by Hindalco

5292. SHRI PRABODH CHANDRA: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether Government are aware that the HINDALCO has been producing aluminium in excess of the permissible limits by using a third unit installed against the permitted capacity of two units and thereby evading lakhs of rupees due on account of Central Excise and Sales Tax by showing the production much less than the actual production; and

THE MINISTER OF STATE IN THE MINISTRY OF STEEL AND MINES (SHRI SHAHNAWAZ KHAN): (a) and (b). The Company had operated during the period 25th May, 1969 to 5th August, 1969 the third properzi machine and produced 988 tonnes of aluminium wire rods from the same. The Company had developed the third properzi machine indigenously and had put it on trial runs during the aforesaid period. The production from the third machine had also been included in the production records. They have, however, to get the rail siding at the project site sanctioned by the Railways. Also, the Company apprehends that the projected return on the capital that would have to be invested in the new project would not be adequate and have therefore represented to Government that new aluminium plants set up with larger capital outlay should be given favourable treatment from the point of view of increased selling price and excise duty rebate as compared to the existing units.

देश में लोहे और इस्पात की मांग और सप्लाई

5303. डा० लक्ष्मीनारायण पांडेय :

श्री नवल किशोर शर्मा :

क्या इस्पात और खान मंत्री यह बताने की कृपा करेंगे कि :

(क) देश में लोहे और इस्पात की वर्तमान मांग और सप्लाई कितनी है ; और

(ख) इस अन्तर को समाप्त करने सम्बन्धी योजना की मुख्य बातें क्या हैं और यह योजना कब तक क्रियान्वित की जायेगी ?

इस्पात और खान मंत्रालय में राज्य मंत्री

(श्री शाहनवाज खाँ) : (क) और

(ख) राष्ट्रीय व्यावहारिक आर्थिक अनुसंधान परिषद् ने अनुमान लगाया है कि विक्रय इस्पात पिण्ड की कुल मांग 1973 में 14 लाख टन तथा 1980 में 22 लाख टन होगी । इस समय वार्षिक मांग लगभग 10 लाख टन है । देश में कच्चे लोहे की कोई कमी नहीं है ।

राष्ट्रीय व्यावहारिक आर्थिक अनुसंधान परिषद् के अनुसार तैयार साधारण इस्पात की मांग 1975 में 76 लाख टन तथा 1980 में 129 लाख टन होने का अनुमान है । इस आधार पर 1972-73 में लगभग 62 लाख टन मांग होने का अनुमान है । अभी हाल तक कई श्रेणियों के इस्पात की उपलब्धि मांग से कम थी । स्थिति को सामना करने के लिए किए गए उपायों में प्रौद्योगिकी में सुधार द्वारा देशीय उत्पादन में वृद्धि के प्रयत्न, मालिक मजदूर सम्बन्धों में सुधार, बेहतर रख-रखाव, काफी उदार आयात नीति विशेषकर उन श्रेणियों के बारे में जिनकी सप्लाई अपर्याप्त है निर्यात का विनियमन, वितरण प्रणाली को सुप्रवाही बनाना, इस्पात के आवंटन के दुरुपयोग को रोकना, पुनर्बलन योग्य माल, जो न्यायालय के आदेश के कारण काफी रुका पड़ा था की काफी मात्रा में उपलब्धि तथा विद्युत भट्टियां लगाने के लिए प्रोत्साहन आदि शामिल है । इन उपायों का प्रभाव होना आरम्भ हो गया है । जैसा कि गत कुछ महीनों में जायस्ट, चैनल, एगल आदि

कई श्रेणियाँ के इस्पात के खुले बाजार के मूल्यों में कमी आने से स्पष्ट है । आशा है बोकारो इस्पात कारखाने के चालू हो जाने तथा वर्तमान इस्पात कारखानों को अपनी निर्धारित क्षमता के 90 प्रतिशत तक उत्पादन करने लगने से इस्पात के उत्पादन में आराम निर्भरता लगभग प्राप्त हो जायेगी ।

नट-बोल्ट बनाने वाले कारखानों को इस्पात की सप्लाई

**5304. डा० लक्ष्मी नारायण पांडेय
श्री रामरत्न शर्मा :**

(क) छोटे कस्बों और पिछड़े क्षेत्रों में स्थित नटबोल्ट आदि बनाने वाले लघु कारखानों को आवेदन देने पर आजकल कितने महीनों में इस्पात मिल जाता है ;

(ख) इस सम्पूर्ण प्रक्रिया में यह आवेदन-पत्र कुल कितने कार्यालयों और अधिकारियों के पास कितनी कितनी बार घूमता है ;

(ग) क्या लघु उद्योगों के लिये इस प्रक्रिया को इतना सरल बनाया जाएगा कि जिला उद्योग-अधिकारियों द्वारा मांग स्वीकृत किये जाने के बाद उन्हें 10 दिन में ही कच्चा माल मिल सके; और

(घ) यदि हाँ, तो ऐसा कब तक कर दिया जायेगा, और यदि नहीं, तो इसके क्या कारण हैं ?

इस्पात और खान मंत्रालय में राज्य मंत्री (श्री शाहनवाज खाँ) : (क) से (घ) सम्भवतः अभिप्रायः नट और बोल्ट तैयार

करने वाले लघु उद्योग एककों से है । वर्तमान इस्पात प्रणाली के अन्तर्गत ऐसे कारखानों को इस्पात की सप्लाई या तो अपने-अपने राज्यों के लघु उद्योग निगमों की मार्फत होती है अथवा वे अपने-अपने राज्य के उद्योग निदेशक की सिफारिश पर मुख्य इस्पात उत्पादकों के स्टॉक याडों से होती है । प्रथमतः उनको निगम से सम्पर्क स्थापित करना होता है अन्यथा उन्हें स्टॉकयार्ड से माल लेने के लिये राज्य के उद्योग निदेशक की सिफारिश प्राप्त करनी होती है ।

कोयले का उत्पादन और इस्पात कारखानों को इसका वितरण

**5305. डा० लक्ष्मीनारायण पांडेय :
श्री रामरत्न शर्मा :**

क्या इस्पात और खान मंत्री यह बताने की कृपा करेंगे कि शहडोल जिले में कोयलाखानों का प्रबन्ध सरकार द्वारा अपने हाथ में लेने के बाद से, कोयले के उत्पादन में, इस्पात कारखानों के लिए कोयले के वितरण में तथा खान कर्मचारियों के वेतन आदि की सुविधाओं में क्या सुधार हुआ है या किया जाने वाला है ?

इस्पात और खान मंत्रालय में राज्य मंत्री (श्री शाहनवाज खाँ) : सरकार ने शहडोल जिले में खानों का प्रबन्ध ग्रहण नहीं किया है ।

(ख) यह संस्थान केन्द्रीय तथा राज्य सरकारों और सरकारी क्षेत्र के उपक्रमों इत्यादि में श्रम प्रशासन का कार्य करने वाले अधिकारियों को सेवा में रहते हुए विशिष्ट प्रशिक्षण देता है । प्रशिक्षणार्थी श्रमिक नहीं हैं, और उन्हें प्रोत्साहन प्रदान करने का प्रश्न नहीं उठता ।

(b) if so, the reasons therefor and the arrangements Government of India have made in this regard ?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI R. K. KHADILKAR): (a) Yes, Sir.

(b) It was decided that persons who had migrated to India from the erstwhile East Pakistan before the 25th March, 1971 and had gone back to Bangladesh after its liberation, would not be repatriated to that country as they were not Bangladesh nationals. The Government of India have decided to take back the above mentioned category of refugees after proper verification. Bhilai (1971-72)	76
Durgapur (1971-72)	36
Rourkela (1971-72)	41
TISCO (1971-72)	60

Notes: (1) Information for USSR is not available.

(2) For Japan and USA, ingot production has been divided by the number employed in the Iron and Steel Industry as a whole, including foundry and forge units.

A comparison between Steel Plants in India and abroad in terms of labour productivity is, however, not easy to make because of various differences in respect of equipment and technology, product-mix, capacity utilisation of the production units, state of maintenance of the equipment, extent of work done through out-side agencies, hours of work, leave entitlement absenteeism etc.

(b) if so, the reaction of the Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF STEEL AND MINES (SHRI SHAHNAWAZ KHAN): (a) and (b). The survey carried by the Geological Survey of India during 1965-67 has indicated the presence of about 157 tonnes of Scheelite in the mine dumps and waste rock around Bisanatham mine. As the quantity is too small, it can be obtained only as a byproduct during mining of gold. At present there is no intention to open the defunct Bisanatham mines. If and when gold mining is re-opened at Bisanatham, attention will be given to the recovery of Scheelite as a byproduct.

However a statement showing despatches of finished steel to various States during 1972-73 (April-June '72) by the main Steel Plants is attached.

House Rent for E.P.F.O. Employees

5349. SHRI MADHU DANDAVATE: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether the representatives of Finance Ministry on the Employees Provident Fund Organisation have opposed the unanimous decisions of the Employees Provident Fund Board in respect of the increase in the House Rent Allowance to Employees Provident Fund employees;

(b) whether Government have given instructions to its representatives on various Public Sector organisations to follow a uniform pattern of House Rent Allowance to be paid to employees of Public sector organisation having their offices in cities, and

(c) if so, the reasons for this discrimination in house rent in respect of employees of the Provident Fund Organisation?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI R. K. KHA-DILKAR): (a) Additional House Rent Allowance at 5 per cent over and above the

existing rates at all places, where such allowance is admissible to the Central Government employees in the corresponding categories under the existing rules, has been allowed to the employees of the Employees' Provident Fund Organisation with effect from 1st June, 1972 with the approval of the Government.

Low Output of Mica Mines due to Dwindling Mica Reserves

5350. SHRI RAJDEO SINGH: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether the output of mica mines is gradually dropping after all time peak output of 31,942 tonnes of crude mica in 1968;

(b) whether the reserves of mica are dwindling after being exploited until 1958 and onward;

(c) whether efforts are being made to explore for mica in the adjoining area or some other parts of the country as per Geological Survey;

(d) whether India's mica export after having held a virtual monopoly of world market for a century is gradually falling; and

(e) if reply to (b) and (c) above be in the negative, the main reasons for drop in output and falling in export volume?

THE MINISTER OF STATE IN THE MINISTRY OF STEEL AND MINES (SHRI SHAHNAWAZ KHAN): (a) to (e). India has held a monopoly in the production and supply of mica in the international market for several decades now and still continues to hold a commanding position though, due to several scientific developments, there has been some displacement in the use of mica, as a result the world demand of mica on the whole has fallen down considerably.

There has been some depletion of the reserves of mica due to continued exploitation, but constant efforts are being made by the Geological Survey of India to study occurrences in the principal mica belts of the country, namely, in Rajasthan, Andhra Pradesh, Bihar and also in certain other parts of the country.

In spite of certain fall in the demand for mica in the international market, India has been able to maintain its premier positions as a mica exporter. The main reasons for the fall in the demand for mica are the advent of synthetic substitutes, etc.

Government of India has taken/is taking a series of measures to maintain and improve the position of Indian mica in the export market by giving several concessions in export duty etc.

Demanding Appointment of Third Wage Board and Conversion of P.T.I. into Public Sector Corporation by National Council of I.F.W.J.

(b) if so, Government's reaction thereon?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI R. K. KHA-DILKAR): (a). Yes, Sir.

(b) The demand for constituting a Third Wage Board for working journalists will have to be viewed in the light of the observations of the National Commission on Labour and of the workers and employees on the general question of wage boards. (c) whether the expansion includes production of wagon-axle, wire ropes and expansion of oxygen plant etc., and if so, reasons as to why clearance is being delayed?

THE MINISTER OF STATE IN THE MINISTRY OF STEEL AND MINES (SHRI SHAHNAWAZ KHAN): (a) Yes, Sir.

(b) This is generally the case and would depend on the infrastructure facilities available.

(c) The details of the scheme are yet to be finalised by the Plant and the scheme as such is still to be submitted to Government for approval. There is, therefore, no question of delay in clearance.

(क) क्या आल इंडिया रिजर्व बैंक एम्प्लॉयज एसोसिएशन ने उनको 15 नवम्बर 1971 को और बोनस रिब्यूकमेटी के अध्यक्ष को 10 अगस्त, 1972 को जापन दिए थे ;

(ख) यदि हां, तो उक्त दोनों जापनों की मुख्य बातें क्या हैं ; और

(ग) उन पर सरकार की क्या प्रतिक्रिया है और उन्हें स्वीकार न करने के क्या कारण हैं ?

अब और पुनर्वासि मंत्री (श्री आर० बे० खाडिलकर) : (क) जी नहीं ।

(ख) ऐसा अभिवेदन किया गया है कि रिजर्व बैंक आफ इंडिया के कर्मचारियों को जिन्हें बोनस भुगतान अधिनियम, 1965 की परिधि से बाहर रखा गया है, अधिनियम में उपयुक्त संशोधन द्वारा उसके अन्तर्गत लाया जाना चाहिए ।

Staff Union in Central Office of E.P.F.O.

5355. SHRI RAMAVATAR SHASTRI: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether a handful of staff members working in the Central Office of the Employees' Provident Fund Organisation have been given recognition by the Central Commissioner ignoring a large number of employees who have already got a registered union and represent 90 per cent of staff members;

(b) whether the Association has reduced its strength less than 10 per cent of the total staff members; and

(c) if so, the reasons for not giving recognition to such Association?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI R. K. KHADILKAR): The Employees Provident Fund Authorities have reported as under:—

(a) to (c). Some members of the staff in the Central Office of the Employees' Provident Fund Organisation formed an Association of Employees in March 1972 and sought recognition in accordance with the principles of recognition then applicable. This Association was found to satisfy the eligibility criteria for recognition and was accordingly recognised by the Central Provident Fund Commissioner. The principles of recognition have undergone certain changes since then. The revised principles of recognition as finally approved have been circulated amongst this recognised Association and other unrecognised Federations/Unions. This recognised Association has been asked to furnish further details to consider the question of their continuing as a recognised Association under the revised principles. The revised principles do not rule out the grant of recognition to more than one Association of employees subject to fulfilment of the conditions as specified therein. In view of this, the question of ignoring large number of employees by granting recognition to this Association does not arise.

Payments of House Rent in E.P.F.O. in Maharashtra and Orissa

5356. SHRI RAMAVTAR SHASTRI: Will the Minister of LABOUR AND REHABILITATION be pleased to state:

(a) whether the Central Board of Trustees recommended 10 per cent House Rent Allowance in respect of Maharashtra Regional Office Staff Members and 5 per cent for all employees of the Employees' Provident Fund Organisation;

(c) if so, the reasons thereof?

THE MINISTER OF LABOUR AND REHABILITATION (SHRI R. K. KHADILKAR): The Employees Provident Fund Authorities have reported as under:—

(a) Yes.

(b) and (c). All the employees of the Employees' Provident Fund Organisation are treated at par with Central Government employees in the matter of pay, allowances and other conditions of service. In view of this, the recommendation of the Board regarding enhancement of House Rent Allowance at 10 per cent in respect of Maharashtra Regional Office and 5 per cent at all places other than Bombay had not been agreed to by the Government pending receipt of the report of the Third Pay Commission. However, keeping in view the increase in House Rent in cities where the offices of the Employees' Provident Fund Organisation are located, the Government subsequently decided that all employees of the Organisation may be allowed an increase in House Rent Allowance by 5 per cent of pay over and above the existing levels at all places where the House Rent Allowance is admissible to the Central Government employees under the Central Government rules with effect from 1-6-1972. Accordingly 5 per cent additional House Rent Allowance had been paid to the employees of the Organisation

in Maharashtra region: As regards, Orissa region since Bhubaneswar was not categorized under any class of cities at the time of issue of the Government's orders and no House Rent Allowance was admissible at that place, the employees of the Regional Office, Orissa were not allowed to draw additional 5 per cent House Rent Allowance. As Bhubaneswar city has since been upgraded as Class 'C' city with effect from 1-8-1972, the question of payment of House Rent Allowance for the employees of the Organisation in Orissa region is under consideration of the Government.

(a) whether India raised voice and extended support for the liberation struggle of the people of Angola, Mozambique and other territories against the presence of the Colonial Government of Portugal; and

(b) if so, the reaction of U.N. thereto?

THE DEPUTY MINISTER IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) Yes, Sir. The Government of India has consistently opposed the colonial policies of Portugal and has extended full support to the people of these territories in their legitimate struggle for freedom and independence. The Indian representatives have reiterated this position in the course of discussions in the U.N. General Assembly and Security Council this year also.

India continues to play a leading role in bringing to bear pressure on Portugal in every possible way at the United Nations. India is also in close touch with African countries on this question.

(b) The United Nations has many a time condemned the refusal of the Government of Portugal to grant self-determination in its colonial territories. Recently the United Nations General Assembly adopted a Resolution which once again condemned the persistent refusal of the Government of Portugal to implement earlier UN Resolution calling for its withdrawal from its colonies and demanded the immediate cessation by Portugal of its colonial wars and all acts of oppression against the people of Angola, Mozambique etc. The Resolution also appealed to all Governments and other organizations to render all moral and material assistance necessary for the people of the Portuguese colonies to continue their struggle for the achievement of their inalienable right to self-determination and independence.

5361. SHRI S. M. BANERJEE: Will the Minister of DEFENCE be pleased to state:

(a) whether his Ministry undertook the responsibility to construct accommodation for the Civilian Defence employees of Delhi Cantonment and Shakurbasti and

inspite of repeated representations no progress has so far been made in this respect and the employees are still without any accommodation;

(b) if so, how many quarters have been built by his Ministry for the civilian employees during the last 15 years and a detailed statement of the same may be placed on the table of the House; and

(c) what steps have taken to remove the discrimination between the Civilian Defence employees and other Central Government employees' of Delhi in the matter of allotment of accommodation from Estate Office?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM) (a) and (b). Provision of Government accommodation to civilian employees in Defence Establishments is not a condition of their service. Even so, by way of a facility, Government decided to provide accommodation to Defence civilians at 10 difficult stations to the extent of 15 per cent of their authorised strength, in phases, depending on the availability of funds. Delhi Cantt is one of these 10 stations, but Shakurbasti is not. Information on quarters so far built is being collected and will be laid on the Table of the House.

(c) No steps are required to be taken in this regard as there is no discrimination between the Civilian Defence employees and other Central Government employees in the matter of allotment of accommodation from Estate Office, provided they are entitled to it; employees of offices located in Delhi Cantonment and Shakurbasti are, however, not entitled to such accommodation, since their offices are located outside the jurisdiction administered by the Estate Office.

Bringing Canteens Employees of Defence Establishments at par with Government Employees

5362. **SHRI S. M. BANERJEE:** Will the Minister of DEFENCE be pleased to state:

(a) whether any final decision has since been taken to treat the canteen em-

ployees of the various Defence establishments at par with Government employees; and

(b) if not, the reasons for the same?

THE MINISTER OF STATE (DEFENCE PRODUCTION) IN THE MINISTRY OF DEFENCE (SHRI VIDYA CHARAN SHUKLA): (a) and (b). It is not possible to put the canteen employees at par with Government servants. However, the question of granting them some concessions or allowances is under the active consideration of Government.

5363. **SHRI S. M. BANERJEE:** Will the Minister of DEFENCE be pleased to state:

(a) whether the Casual Leave of the workshop staff of the Railway Department has been increased from 7 to 12 in a year with effect from the 1st September, 1971 as a result of the decision of the Arbitration Board under the Scheme of Joint Consultative and Compulsory Arbitration; and

(b) if so, whether the same benefits have not yet been extended to the industrial employees of the Defence Departments?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) and (b). The workshop staff on the Indian Railways have since been made entitled to 12 days' casual leave in a year. The industrial employees of the Defence Department continue to be entitled to 7 days' casual leave in a year under the "Civilians in Defence Services (Industrial Employees) Leave Rules, 1954."

Implementation of Recommendations of Second Pay Commission

5364. **SHRI S. M. BANERJEE:** Will the Minister of DEFENCE be pleased to state:

(a) whether his Ministry has not yet implemented the recommendations of the

2nd Pay Commission contained at page 425 of this Report in connection with the earned leave of the workshop staff (industrial employees) and no progress has so far been made; and

(b) if so, what steps are being taken to implement these recommendations from the back and extend its benefits to the industrial employees of the Defence Department?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) and (b). The recommendations of the Second Pay Commission regarding leave entitlement of industrial workers in Defence Establishments, except the recommendation relating to 'earned leave', have been implemented. The recommendation regarding earned leave involved slight liberalisation in a few cases. This question was later discussed in the National Council of J.C.M. It was felt that since the question of leave, in all its aspects, was already under the consideration of the Third Pay Commission, any basic changes in the existing conditions of service pertaining to leave could appropriately be considered by that Commission. As an interim measure pending the recommendations of the Third Pay Commission and in pursuance of an agreement reached in the National Council, certain orders were issued by the Ministry of Finance. After careful consideration, these orders have been made applicable to the industrial employees of the Defence Establishments with effect from 1st January, 1973. According to these orders, the maximum limit to which earned leave can be accumulated has been raised from 30 days to 60 days; and such leave may be availed of upto 30 days at a time.

Shortage of Raw Material for Producing Tin Plates

5365. SHRI MUHAMMED SHERIFF: Will the Minister of STEEL AND MINES be pleased to state:

(a) whether there is a shortage of raw material for tin-plate in the country and

(b) if so, the facts in this regard and the steps taken by Government to provide to the factories raw material for manufacturing tin-plate in time?

T.B. Victims Among Army Cooks

5366. SHRI MUHAMMED SHERIFF: Will the Minister of DEFENCE be pleased to state:

(a) whether most of the Army Cooks are the victims of T.B.; and

(b) if so, the facts thereof and the steps taken by Government in this regard?

THE MINISTER OF DEFENCE (SHRI JAGJIVAN RAM): (a) and (b). A survey was carried out covering JCOs and Combatants, including the miscellaneous categories such as Cooks, to investigate and determine the rate of prevalence of Tuberculosis among them. The results were as under:—

Junior Commissioned Officers	.. 3.60 per 1,000
------------------------------	-------------------

Other Ranks	3.31 per 1,000
-------------	----------------

Miscellaneous categories of	
Combatants such as	
Cooks, Sweepers, Washermen, etc.	.. 3.97 per 1,000

Analysis of these results has led to the conclusion that the percentage of incidence of this disease among the category of miscellaneous categories of Combatants which

include cooks is not abnormal as it did not show a statistically significant difference. No special steps for prevention of this disease amongst the army Cooks are, therefore, considered necessary. If, during the routine monthly medical check-up, an army Cook is suspected to be suffering from this disease, he ceases to be employed on cooking duties; his case is fully medically investigated and he is given either "outdoor-patient" treatment or hospitalised, as necessary.

Naming of Disputed Area in Jammu and Kashmir as Thako Chok

5367. SHRI S. C. SAMANTA: Will the Minister of DEFENCE be pleased to state:

(a) whether in the joint statement issued in Lahore (Pakistan) at the conclusion of the bilateral talks between the Chiefs of Army Staff of India and Pakistan in connection with the dispute of the delineation of line of control in Jammu and Kashmir, the disputed piece of land has been referred to as 'Thako Chok';

(b) the original name of the piece of land;

(c) whether the Indian Chief has not accepted the name "Thako Chok" which the Pakistan side has been referring and which appears to be correct; and

(d) the latest developments with regard to the settlement of the dispute?

(b) The original name as mentioned in revenue records is 'तको चक' (Thako Chak)

(c) The Pakistan side initially called the place Tahkho Chak; but in the joint statement the place was referred to as 'Thako Chak'.

(d) The area has already been vacated by Pakistani troops.

THE DEPUTY MINISTER IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): (a) There is no deliberate delay in the appointments of our Heads of Missions, Ambassadors and other senior ranking diplomats to various countries. Disapproval of Comptroller and Auditor General to Purchase of a Defective Locomotive by Rourkela Steel Plant Authorities

5373. SHRI ARJUN SETHI:

SHRI DALIP SINGH:

Will the Minister of STEEL AND MINES be pleased to state:

(a) the reaction of Government to the criticism of the Comptroller and Auditor General of India and his disapproval of the act of Rourkela Steel Plant authorities of buying defective Locomotive from abroad and thus causing considerable loss to the Public Exchequer; and

(b) the measures Government have taken against the plant authorities responsible for the loss?

THE MINISTER OF STATE IN THE MINISTRY OF STEEL AND MINES (SHRI SHAHNAWAZ KHAN): (a) and (b). The observations of the Comptroller and Auditor General of India with regard to the purchase of defective Locomotives by the Rourkela Steel Plant have been noted.

These observations are being brought to the notice of M/s. Hindustan Steel Limited, Ranchi for necessary action.

Steps for Optimum Production at Public Sector Steel Plants

5374. SHRI E. V. VIKHE PATIL: Will the Minister of STEEL AND MINES be pleased to state:

(a) the total annual rated capacity of the public sector Steel Plants for production of steel at present and the total annual production achieved;

(b) the reasons for not-utilising the optimum production capacity of each steel plant; and

(c) the action which Government have taken or propose to take to utilise the optimum production capacity of public sector steel plants?

THE MINISTER OF STATE IN THE MINISTRY OF STEEL AND MINES (SHRI SHAHNAWAZ KHAN): (a) The annual rated capacity of the three public sector steel plants under Hindustan Steel Limited in terms of ingot steel and actual production in 1971-72 and during the period, April—November, 1972, are indicated below:—

(In '000 tonnes)

Plant	Rated capacity	Actual production in 1971-72	Actual production during April—November, 1972
1	2	3	4
Bhilai Steel Plant	2,500	1,953	1,334
Durgapur Steel Plant	1,600	700	460
Rourkela Steel Plant	1,800	823	747

(b) Although the aggregate production of ingot steel from the three steel plants during the period April—November, 1972, exceeded the production in the corresponding period last year by 4,28,000 tonnes, a number of factors continue to affect the build-up of higher levels of production in these plants. Shortage of coke oven gas resulting from the unsatisfactory working of the coke oven batteries is still a constraint on production, though there has been a gradual improvement in this regard, particularly at Bhilai. The production at Rourkela Steel Plant has been affected by the restrictions and failures in the supply of power. Adverse industrial relations continue to be the principal constraint in the Durgapur Steel Plant. D.V.C. power restrictions, gas shortage and equipment troubles are the other main reasons for lower production in this plant.

(c) The management of the Company is making all possible efforts within the limitations imposed by the industrial relations situation, particularly at Durgapur Steel Plant, to step up the tempo of production further. These include specialised repairs of Coke Ovens, use of alternative fuels to supplement gas availability, oil firing in certain furnaces to augment fuel resources, improved maintenance comes at better equipment availability, speeding up of capital programmes required to correct existing imbalance in production facilities and planned procurement of spares, refractories and other essential materials. Recently, a three-tier joint consultative machinery has been set up at Durgapur for speedy settlement of industrial disputes and grievances and to enlist the cooperation of the workers in maximising production. A new rewards scheme has been

introduced in the Rourkela Steel Plant to provide an additional incentive for increasing production progressively. The Government also keep constant watch on the performance of the steel plants through periodical Task Force Meetings and reviews and render all the assistance that is required.

Progress regarding completion of different Units of Bokaro Steel Plant

5375. SHRI R. P. ULAGANAMBI:
Will the Minister of STEEL AND MINES be pleased to state;

(a) the progress made so far in completing the civil engineering works at the Bokaro Steel Project in respect of Blast Furnaces, Coke Oven and By-product Plant, Sintering Plant, Steel Melting Shop, Hot and Cold Rolling Mills and the Refractory Materials Plant; and

(b) whether the progress is being made according to the time schedule drawn for the completion of these items of Bokaro Project, and if not, the causes thereof?

THE MINISTER OF STATE IN THE MINISTRY OF STEEL AND MINES (SHRI SHAHNAWAZ KHAN): (a) and (b). A statement is attached showing the progress made in civil engineering work in these zones of the First Stage of the Bokaro Steel Plant up to the end of November, 1972. The civil engineering work in the Blast Furnace, Coke Oven and Sintering Plant Zones has been nearly completed. There has been some shortfall in the work in the Steel Melting shop, Refractory Materials Plant and Rolling Mill Zones as compared to the time schedule. This has been largely due to failure on the part of Contractors and the large volume of rock excavation.

**CORRECTION OF ANSWER TO
STARRED QUESTION NOS. 541
AND 547 RE. MINI STEEL PLANT**

THE MINISTER OF STEEL AND MINES (SHRI S. MOHAN KUMAR MANGALAM): With your leave Mr. Speaker Sir, I would like to make a small clarification. In reply to a supplementary question today to questions Nos. 541 and 547, I made the statement that the export of ferrous scrap was banned. As the term 'ferrous scrap' is very generic, I would like to make the following clarification. The export of heavy melting scrap is banned, but certain varieties of scrap that cannot profitably or efficiently be used in our country in the existing electric furnace units or are in excess of indigenous off take like cast iron borings and mill scale are allowed to be exported. Whenever indigenous demand for such categories picks up, Government will certainly consider restricting or even banning their export.

**CALLING ATTENTION TO MATTER
OF URGENT PUBLIC IMPORTANCE
SITUATION IN ASSAM**

SHRI SAMAR GUHA (Contai): I call the attention of the Minister of Home

Affairs to the following matter of urgent public importance and request that he may make a statement thereon:—

"The reported tour of riot-affected areas of Assam by Shri K. C. Pant, Minister of State and the latest situation there".

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS (SHRI K. C. PANT): Sir, With a view to making a first hand assessment of the situation in Assam, I visited Silchar, Dibrugarh, Moirabari and Gauhati on the 16th and 17th December. I exchanged views with different sections of the people and also with the Chief Minister and the concerned State officials. The State Government are aware of the need for maintaining vigilance and are earnestly engaged in speedy restoration of cordial relations among different linguistic groups. Measures have been undertaken to provide redress to the victims of the disturbances. A Commission of Inquiry has been appointed to go into two specific incidents resulting in the death of two students. The State Government have also decided to inquire into the adequacy of administrative arrangements made to deal with the disturbances including allegations regarding lapses.

SHRI SAMAR GUHA: I am really surprised to find that the hon. Minister has been so brief in informing the House about the latest situation in Assam. Although he had the pleasure to give more information to the press while he held a press conference at Gauhati on the 16th where he admitted that although the situation was improving, yet the situation in Assam had not been restored to normal conditions, even that has not been admitted here on the floor of the House today.

The situation in Assam should be viewed not in isolation. It is the eighth riot, language riot in Assam, after Indepen-

[Shri Samar Guha]
 dence. This time, the situation turned not only ugly but surpassed all measure of atrocities and barbarities that were committed against not only the Bengalis, but the Biharis, the Marwaris in succession and at different times.

SHRI TARUN GOGOI (Jorhat): Can he cite any examples? He is making a false statement in the House.

SHRI D. BASUMATARI (Kokrajhar): It is a wrong statement.

SHRI B. K. DASCHOWDHURY (Cooch-Bihar): We have read it in the newspapers. Otherwise, why were they creating trouble? (*Interruptions*).

MR. SPEAKER: May I request the hon. Members not to interrupt Shri Samar Guha?

SHRI TARUN GOGOI: Why should he refer to Marwaris and other communities? (*Interruptions*).

SHRI S. A. SHAMIM (Srinagar): He must state his case first. Let the hon. Member have some patience, because he belongs to the ruling party.

SHRI SAMAR GUHA: It is not necessary for me to draw the attention of the hon. Member who is interrupting to what happened in 1968 when the Home Minister, Shri Yeshwantrao Chavan last visited Assam and instituted an inquiry. At that time, against whom was the riot? I do not want to go into all that now. It is also known that there are innumerable Biharis working in the tea gardens and others. They were also subjected to great suffering in the 'Bihari Khedda' which was there; similarly, the 'Bengali Khedda' and 'Marwari Khedda' movements were there. I do not want to go into that situation today. My whole object is not to create an exciting situation but to deal with the problem. I submit that we have to look into the problem from the national perspective.

The issue in Assam is not one of Bengalis versus Assamese. It is a national issue. That was the reason why

I expressed my surprise. I had expected the Home Minister to give us at least some information about the ugly and tragic happenings that overtook Assam during the last two or three months, but he has suppressed that. I do not want to say anything on that. I only want to say that while winding up the debate the other day, Shri F. H. Mohsin had said on the floor of the House that all that had been said on the floor of the House about this matter was exaggerated. I say that that is absolutely wrong. Even a fraction of the incidents that had happened in Assam has not been brought to light. I had said also on the earlier occasion that the national press had completely blacked out the happenings and the incidents in Assam. Our friends from the south were so much agitated about what the happening in U.P. where there were just one or two or three cases and they said that 18 persons had been killed. But that is absolutely wrong. At least a few hundreds of persons have been killed. 35,000 people have become refugees. Not hundreds, but a few thousands of houses have been burnt there. The situation is not normal in the sense that the threat, intimidation and the boycott of the minorities is still going on. The situation is still tense, and normal condition has not been restored there. So, I want to know from the hon. Minister the measures that have been taken. I only want to warn the Government that if this theory of the 'sons of the soil' is allowed to subvert our concept of national integration and our concept of living together, it will set in motion a process of chain reaction, not only in Assam but in other parts of the country, and perhaps it may lead to a blood bath all over the country.

If the 'sons of the soil' theory is allowed to be raised, then what will happen in West Bengal? About 15 per cent of the population in West Bengal are not Bengalis. 75 per cent of the working population in the metropolitan or industrial areas, in the coalfields and in the tea-gardens are not from Bengal. 80 per cent of the trade and big business and big industries

is held not by Bengalis but by non-Bengalis. In Calcutta, the biggest manifestations are not being held by the Bengalis. But we have never raised this question. This question was never raised. Even after the linguistic reorganisation of the States, no State in India is unilingual. Therefore, this problem will remain. If this sons of the soil theory is allowed to subvert the concept of national integration, the concept of living together, the concept of unity in diversity, then, as I have said, and I repeat, it will start the process of chain reaction and ultimately a bloodbath in the whole country. Therefore, the Government should be forewarned.

It was a shocking statement made the other day by Mr. Mohsin in winding up the discussion on the report of the Commissioner for Linguistic Minorities. He said that the Bengalis would try to get themselves assimilated into the Assamese. What a horrible, dangerous theory? It is a theory of annihilation of the linguistic minorities, annihilation of the minorities by the majority. It is a theory of cultural genocide. Only Hitler practised it. It was all the more shocked at his statement because the Prime Minister was sitting by his side but she did not intervene. About this theory of the assimilation of the minorities by the majority, today, it is linguistic, but tomorrow it may be demanded that there should be an assimilation of the religious minorities by the religious majority.

I want to know from the hon. Minister this thing. The immediate task is to restore the law and order situation to normal, to restore normalcy there. The hon. Minister said that certain measures have been taken for the immediate restoration of the normal law and order situation there. I want to know from the hon. Minister whether the Government have taken the following measures or whether the Government will take the following measures. Firstly, whether the powerful radio and press propaganda and printed posters including the appeal of the Prime Minister for peace and amity,

above all, among the linguistic minorities, will be launched in Assam. Secondly, whether a peace and friendship committees will be set up in all educational institutions and in the riot-affected areas; thirdly, all-party committees should be formed for campaigning for peace and normalcy through public meetings and other forums of mass media; fourthly, whether the arrested minorities will be released immediately and the arrest warrants against them withdrawn. Fifthly, whether all the suspended and transferred officers belonging to the minority communities will be restored to their former positions. Sixthly, whether expeditious steps will be taken for rehabilitating all the victims and adequate compensation paid to them and whether proper steps will be taken for the resumption of normal trade, business and other avocations of the minorities and whether stern measures will be taken against those who are still instigating economic boycott of the minorities.

MR. SPEAKER: Only one question. The "whethers" are so many.

SHRI SAMAR GUHA: The Minister said that he has taken certain measures. These issues are very important. Please be merciful to us. Eight, whether the AIR Officers who indulged in vicious language propaganda in the local news bulletins will be immediately transferred from the Gauhati station; nine, whether an ordinance will be promulgated against communal writings and publications of news in local or outside newspapers and the printing of communally instigating things by the printing press. Ten, whether all officers who directly participated in the riots will be arrested and those who abetted the riots will be suspended and all the rioters will be hauled up, if need be, by applying the MISA. Eleven.—(Interruption). The hon. Minister said that adequate measures are being taken. I want to know whether these measures will be taken. It is a constructive suggestion. Eleven, whether, a delegation of Assam leaders including student leaders will be sent to Calcutta, Cachar and other areas to get back the Bengali students to their

[Shri Samar Guha]

homeland. Then, whether a student committee will be formed in each educational institution for safeguarding the minority students and stopping the threat and intimidation against them.

MR. SPEAKER: Every day, I invite your attention that the rule provides for only one question.

SHRI SAMAR GUHA: These are not separate questions.

MR. SPEAKER: You are numbering them. You have gone up to 11.

SHRI SAMAR GUHA: This is tragic.

SHRI S. M. BANERJEE (Kanpur): This is not Calling Attention; this is all in attention.

SHRI SAMAR GUHA: In view of the fact that the present administrative set-up has virtually collapsed or acted in a partisan manner, is the Central Government going to set up a cell of the Home Ministry and also strengthen the CRP force there with a view to assist the administration there?

In this House almost unanimously a view was expressed that a parliamentary delegation should be sent to Assam. The reason was not to reprimand or admonish the people of Assam but to create a sense of amity and understanding and peace and harmony among all the people of Assam and also to explain to them the implications of national integration and also how the people of Assam could live together....

MR. SPEAKER: You are stretching it too far; please conclude.... (*Interruptions*).

SHRI SAMAR GUHA: I want to know from the hon. Minister: what steps are the Government going to take for the solution of the language problem and whether the Shastri formula adopted in 1960 is going to be followed by the Government of Assam and whether they are going to stop the crusade of Assamisation

of the Bengalis there, whether the *status quo ante* will be maintained? Will the Education Ministry evolve a national formula for introduction of the regional language for education in the university level?

Lastly, he has stated that a commission of enquiry has been instituted to go into the incidents resulting in the death of two students? It is a travesty of justice. There have been hundreds of people who died, who were killed and murdered. What about those minorities, not only hundreds but thousands who were victims of the riot, killing, murder, loot and arson, would a judicial enquiry be instituted into that also?

Lastly, I want to warn the Government. Shri Sarat Sinha the Chief Minister had made a statement on the 12th. He said a political group as also foreign agents played a major role in the riots in Assam. It is the Pak-collaborators who were opposed to the Bangla Desh movement who took a major part in this. About eighty per cent of the violent activities were done by them. A dangerous design is still being hatched there, to subvert Bangla Desh elections and create a communal atmosphere there. Unless Government took precautionary measures, there will be more communal riots and attempts to subvert the Bangla Desh elections and compromise the position of Sheikh Mujibur Rahman. Unless Government takes note of the hand of Pak. collaborators in this Assam riot, unless the Government goes in depth, a serious situation will develop not only in regard to the security of the country but also in regard to the secularisation that is being accepted by our neighbour State where election is going to be held and the Pak collaborators, communal collaborators will try to subvert not only our base of secularism but also try to vitiate the whole election atmosphere in Bangla Desh by creating such troubles.

Finally, a Parliamentary delegation should be sent to Assam and a judicial enquiry should also be instituted to go

into the whole thing, including the role played by Pak, collaborators in the last Assam riots.

SHRI K. C. PANT: My hon. friend asked me about the situation there now and asked why I did not deal with all the incidents in the past couple of months in detail. The main reason is: because the situation there has stabilised and in the last few weeks there have been no incidents of violence, any reference to the earlier incidents may not have been conducive to consolidating the forces of peace which certainly are working in Assam today. That is why I made no reference to the earlier incidents. I think in the questions that are put if care is taken to avoid putting them in a manner which will rub anybody the wrong way in Assam or Cachar, that will itself help in this process of normalisation that is taking place.

I have said that the situation has stabilised and there have been no incidents of violence in the last few weeks. But it is a fact that apprehension still lurks in the minds of many among the minorities and it is necessary to see that steps are taken to remove these suspicions and fears. It is for this purpose that the State Government also has taken and is taking various steps. My friend asked me for specific answers to specific questions and I will beg your indulgence to give me some time to answer many of the points he has raised, because it is better the House knows what is being done to tackle the situation. I entirely agree that this is a national question and there can be no two opinions on the fact that every part of India belongs to all Indians. This is basic, fundamental and axiomatic and does not need to be repeated. The concept of unity in diversity and the concept of living together are the very fundamentals of our unity. So, there can be no disagreement on this score and I think nobody in this House including members from Assam will disagree with what Prof. Guha has said. My colleague, Mr. Mohsin, made a statement here which appears to have been misunderstood. He made it in a certain context, but it is

obvious that minorities exist all over the country. There are linguistic minorities in every State and the approach of the Government has always been and is to allow the minorities to develop according to their likes within the framework of the law of the land and also them to develop their personalities and their own way of life and create an atmosphere in which every group of minorities feels perfectly secure and able to develop according to its own likes within the framework of loyalty to the whole country and working to develop the country as a whole. These again are basic concepts which really do not need repetition, except that any reference to the contrary creates a wrong impression. Majorities and minorities in every State have a responsibility in the matter. The majority has to create confidence in the minority and the minority also has to behave in a manner that the majority feels that the minority is cooperating with it in the development of both the majority and the minority in the State. This kind of feeling is necessary. We have to see whether it is Assam or other areas, this problem is tackled in this manner.

He asked me about the language issue in particular. This issue arose because English is being relegated to the background and the regional language is being brought forward. This is not peculiar to Assam. It can happen in other places also. As regional languages come into their own at the primary stage and the secondary stage and then at the college stage and English goes, this sort of problem can arise in other States also. Therefore, we should not take only an Assam view of the problem. We should look at it from a wider angle, understand the repercussions and implications and then find a proper solution.

He made some concrete suggestions about peace committees in different areas. Peace and friendship committees are welcome. Some of the places I visited had such peace committees. In Dibrugarh I met members of the peace committee, who had been doing good work and who

[Shri K. C. Pant]

took me round to see some of the Houses which had been destroyed during the riots. The local Youth Congress President, who I think was an Assamese as far as I remember, had taken it upon himself to give every help to the Bengalis to reconstruct their houses. I found a great deal of goodwill among the people in that particular locality. Of course, all-party committee for peace are most welcome. I am sure same elements in all parties do want to see there is peace and they are working in their own way towards that end. But if a committee can also be formed, I would have no objection to it.

About the question of releasing the minorities, I wish he would put forward a plea to release all those who could be released and who were not engaged in violent activities.

SHRI SAMAR GUHA: Minorities from 80 per cent of the people arrested. Professors, lawyers and others have been arrested. It does not happen in other places. Minorities are the victims.

SHRI K. C. PANT: There are 200 persons in jail in connection with specific cases. Of them 84 are Bengalis and 50 have been arrested in connection with the murder of Anil Bora. So, it is not correct to say that most of the arrested persons belong to the minority community. But I am not looking at it community-wise. I wish he had appealed for all. *(Interruption)*. Sir, this cannot be reduced to a dialogue between us.

MR. SPEAKER: He has taken such a lot of time and he also interrupts in between. Mr. Minister, you kindly address me, not him. *(Interruption)*.

SHRI K. C. PANT: When I say this, I am not saying that if any Bengali has been jailed, he should not be released, if he can be released. It is for the State Government to look into it. I am only saying that majority or minority community should not be brought in here.

As for the officials, as I have already indicated, there were complaints about the behaviour of certain officials. While I was there, the Chief Minister told me he had decided to appoint a high-powered administrative committee to enquire into the allegations of lapses by the administrative machinery and to enquire whether adequate steps had been taken by them or not. This is a positive steps taken by the Assam Government in response to questions raised about the functioning of the administrative machinery.

About rehabilitation, I do not want to go into details. Various measures have been taken to rehabilitate the persons affected by the riots. Gratuitous relief has been given. Rehabilitation assistance has been given. 26 relief camps were opened in which 11,000 Bengali refugees lived. The reconstruction of affected houses has been expedited in many cases.

Here, I have told him about the Youth Congress President in Dibrugarh taking up the matter in his hands. I am happy to tell the House that in Moirabari where a number of houses were burnt, the local MLA persuaded the local people of that region to contribute money, to contribute bamboos, to contribute building material and their labour to construct the houses which had been burnt. This is very good news. I found a very good atmosphere prevailing in the region in spite of the earlier incidents. I think, we should take note of these positive features also.

The State Government has already sanctioned Rs. 7,33,900 for relief and rehabilitation. *Ex-gratia* grant to 13 bereaved families has been made at the rate of Rs. 1000 per family and, in 8 other cases, *ex-gratia* grant has been made at the rate of Rs. 500 per family. It was said that MISA should be used to detain people. MISA has been used and 88 persons have been detained under it.

SHRI SHYAMNANDAN MISHRA (Begusarai): Sir, I quite recognise that the scope of the Calling Attention is limited by two factors, firstly, that the discussion on the subject has taken place earlier and much of the ground had been

covered already and, secondly, that the process of normalisation is under way and that we should try in all possible ways to help this process.

The first question that arises in my mind is this: taking note of the improvement in the situation, we feel satisfied no doubt to some extent but whether this normalisation has been set in motion by any initiative of the Government or whether it is due to the realisation on the part of the people that the state of *fewer in Assam* must end? My submission is that this is not the result of any initiative either on the part of the Central Government or the State Government. We did not find any evidence of any initiative on the part of the Central Government earlier in this regard except that the other day the Minister of State in the Ministry of Home Affairs paid a visit to some of these areas.

The second thing that occurs to me is that although there had been an opportunity offered to the Central Government earlier during the course of debate on linguistic minorities, the Government did not utilise to provide a healing touch to the people of Assam. The Deputy Minister in the Ministry of Home Affairs dutifully read out a draft prepared by the Cabinet. But the Prime Minister who happened to be present on that occasion did not think it fit to speak even a few words which could have provided a healing touch to the people of Assam. In fact, so far, we did not find any authoritative statement coming from the highest quarters, although the situation had been of the gravest nature, to pacify the people in that area.

We have to take into account the fact that Assam has suffered from these troubles in the past too a number of times. What is the way of ending these troubles? Certain parts of Assam have gone off from Assam. Assam is now a badly truncated State. There must be a realisation on the part of all elements in Assam that they have to keep the State together in order to have a viable entity.

Now, what is the way of doing it? If this process goes on, if the discontent continues and troubles erupt from time to time, we may have the bad spectacle in future which had better be not described just now.

So, my submission would be that Government must find a solution, a permanent solution of this problem. What is the way of doing it? Two suggestions have occurred to me. I am not making these suggestions in a spirit of making a speech on this occasion but incidentally asking some questions and whether the Government would take some steps in the required direction.

The office of the Commissioner for Linguistic Minorities must be strengthened in a way as to be helpful on such occasions and be able to give advance intelligence to the Government so that action may be taken in time. Secondly, there must be a round table of all elements in Assam to thrash out this problem and find out a permanent solution. Is the Government thinking in terms of having a round table of all elements in Assam? That is the question which I would like to ask.

A suggestion has been made about a parliamentary delegation being sent from here. We have been making this suggestion but the Government seems to be under the impression that such a delegation, instead of helping the process of normalisation, might accentuate the problems there. Here, with all deference to the Government, I would like to submit that this is a very unfounded apprehension on their part. The Members of Parliament must be credited with at least some sense of responsibility and constructive spirit and if they go there—it is my humble opinion—they would be able to pacify the people there more than any effort that may be made by the Central Government. So, would not the Government accede to the request of the Opposition—and I think that seems to be the unanimous view of the Opposition—that a parliamentary delegation should be sent to Assam? The same was also suggested by no less a person than Shri.

[Shri Shyamnandan Mishra]

Profulla Chandra Sen who wanted to go there with a batch of Satyagrahis to pacify the people. He also seems to think that it would be good if the Government agrees to send a delegation of this House.

Lastly, the question that arises is the one in the context of the measures for rehabilitation—whether the measures that have already been taken are adequate enough. The Government has not given us any account of the people involved and the number of relief camps opened. Therefore, we are not in a position to say whether the measures taken by the Government are adequate for the purpose of rehabilitation.

Lastly, if it appears to the State Government that the administration there has failed signally—although an inquiry is now going to be made, but it is obvious to everybody that the administration there has failed signally—would the State Government also think in terms of making some radical changes in the administrative set up there so that the linguistic minorities have a greater assurance of the protection and safeguards that are enshrined in the Constitution?

SHRI K. C. PANT: I do not know whether it would be right to say that an initiative was taken by the Assam Government.

SHRI SHYAMNANDAN MISHRA:
By both Central and Assam Governments.

SHRI K. C. PANT: ...or the Central Government in the matter prior to my visit to Assam and Cachar. Actually, if the series of incidents is traced back to a few months, it can be traced back longer. You can go back into the past incidents, etc. But I think the immediate agitation started on 5th October, the Assam Bandh, after the Supreme Court had accepted one of the writ petitions.

Now, without going into all that, I would only like to point out that my colleague, Mirdhaji, went with Shri Fakhruddin Ali Ahmed to Assam and met

various people and helped in the normalisation of the situation, and the Prime Minister has been continuously meeting delegations from Assam, including Cachar, and besides, when she went to Shillong, I think—was it NEFA or on her way back?—she again met at the airport people from that region. She has been not only in close touch but has been actively helping this process of normalisation all along. Therefore, it would not be right to say that the Centre has not taken any initiative. The State Government was certainly most deeply concerned about the agitation when it arose and the decision of the State Government to reconsider the Assembly Resolution actually enabled the agitation to be called off. They were certainly groping with the situation and have been trying to take such initiative as they thought desirable to bring the situation to normal.

About the point of Assam being kept intact, I entirely agree with my friend that Assam should be kept intact and we should find a solution to this problem, because, this is not something peculiar to Assam only. Linguistic minorities exist in other States also. We should not be defeated by this problem of linguistic minorities but we should find a way to satisfy the aspirations of the majority community for the regional language and also at the same time give adequate safeguards to the minorities and their language. This is the essence of the problem. A solution has got to be found not only in the interest of Assam, but in the interest of all States of the country.

SHRI SHYAMNANDAN MISHRA:
Are you thinking of a kind of solution which will be available to all the linguistic minorities in the country—of an All-India pattern?

SHRI K. C. PANT: We will have to certainly keep in mind and so far as the Assam Government is concerned, we will advise them to keep in mind the fact that any solution found here is bound to have an impact on the other areas also, and this aspect will have to be kept in mind.

Now, as regards the strengthening of the office of the Commissioner for Linguistic Minorities, I have made a note of the suggestion. Regarding advance information, this is not relevant in this case, because advance information was available. The first Resolution of the Academic Council was in January, 1970. The second one was in February, 1970 and the third one was in June, 1970 and then that Resolution was changed. So, it is a long process which has led up to a certain situation, not for lack of advance information, but because of certain pressures, a new situation developed. Regarding the question of round-table conference, the Chief Minister told me that he is going to discuss this matter with Cachar leaders,—I did not ask him over the shape of the table, I don't think that is relevant also. But he does intend to discuss this with Cachar leaders. In democratic functioning, naturally, solution of this problem will have to be found through talks and discussions and I also promised the Chief Minister that if the good offices of the Centre were recruited in the matter, they would always be available.

On the question of Parliamentary delegation, there is no reflection on the Parliament Members in any way, but if there is perhaps a certain amount of hesitation about the Parliamentary delegation, it is only because, perhaps, at this particular moment, it may not be of that much help when things are setting down. That is the only reason. Otherwise, Sir, there is no question of doubting either the motives or the effectiveness of Parliament Members.

I have already referred to the relief measures that have already been undertaken. I do not think it is necessary for me to go into those details once again. I can give you the number of houses burnt, just to give an idea. 2023 houses, to be exact, were burnt during the period October to December, of which, 1932 houses belonged to Bengalis.

Now, Sir, I have given the details already....

SHRI SHYAMANANDAN MISHRA: Are the measures adequate?

SHRI K. C. PANT: I myself visited the localities where these houses had been burnt or there were other complaints; to the extent I could within the span of two days I visited those places and met some of these people. Wherever anybody wanted to meet me separately, I also met them separately.

Therefore, I told the press that there are still allegations about incidents of intimidation. All this I came to know and I said it quite frankly. But at the same time, I found that the atmosphere there was good. I found the local people helping in the process of rehabilitation and I made a note of this point also. There may be some elements who are still bent upon making mischief, but there are a very large number of persons in Assam who want normally to return and who are actively working for it.

SHRI A. K. GOPALAN (Palghat): It is reported in the press that the Chief Minister of Assam while addressing a public meeting on December 3 and 4 declared that the Assam Government had already decided to introduce Assamese as the medium of instruction through legislation without any round table conference and would introduce Assamese in non-Assamese schools. The Chief Minister of Assam, Shri Sinha, reiterated on 6th December this declaration of 11 November that the Assamese language would be made the sole medium in the whole of Assam State, English, being allowed for the transition-period of ten years as an alternate medium. He also announced that his Government would introduce Assamese as a compulsory subject in all the secondary schools in the State from next January. It is this undemocratic policy of denying linguistic minorities their fundamental right to get education in their own mother tongue that is responsible for the unrest. There is also an attempt to impose Assamese on non-Assamese minorities. This is proved also by the refusal to give adequate protection to the minorities, specially the Bengali-speaking minority in the Brahmaputra-

[Shri A. K. Gopalan]

Valley from the ravages of the reactionary vested interests who are fanning linguistic riots.

There are also reports in the press—as you have stated here—of destruction of houses and killing; many have now become refugees and are not given relief. There is denial of protection.

So I want to know whether the Central Government will ask the State Government of Assam to take necessary steps to protect the minorities. What specific measures are proposed to protect the minorities? I want further to know whether Government will arrange to give to the linguistic minorities the right to get education in their own mother tongue at all levels and said that compulsory learning of Assamese in non-Assamese secondary schools is not enforced. Other questions have been more or less answered. But I want to know this. He said there is no objection to sending a parliamentary delegation, when the time to send such a delegation is ripe, to study the situation there.

SHRI K. C. PANT: I think he has put some words in my mouth. I never said that there was no objection to sending a parliamentary delegation and that I was prepared to indicate a date. But the suggestion has been made. I will certainly discuss it with the Assam Government. I merely said that the situation there was returning to normalcy, has returned very largely to normalcy. Therefore, this may not be a proper moment for that. But I can certainly discuss the suggestion he has made with the Assam Government.

The question of medium of instruction is the precise question which is causing agitation and counter-agitation in the Valley and in Cachar. I have already said that the Assam Chief Minister told me that he proposes to discuss the issue of the medium with Cachar leaders in order to find a solution to the problem. I think it would be proper for me at this stage not to go into the details of this matter, but to leave it to the two parties

directly concerned to thrash out the problem, because ultimately the solution that they find must carry satisfaction to both sections. It must be a solution which large sections of the population accept on both sides. I hope given goodwill, such a solution can be found by the parties concerned. If my good offices are needed, they are always available.

So far as the protection of the minorities is concerned, there is no question of the Centre asking Assam to protect the minorities. The Assam Government has been doing its best to protect the minorities and it has taken various steps. I have spelt out various steps it has taken. I said just now that when I went to those areas which were the scenes of certain incidents, there also I found that the minorities were feeling fairly safe, feeling protected, except that because of stray incidents, there was some apprehension and fear in their minds. This has to be taken note of not as an unsettling factor in the situation, but as a factor which calls for continued vigilance and continued steps on the part of the Assam Government to see that these fears are also removed.

SHRI A. K. GOPALAN: I said that it is because declarations are made by the Chief Minister and the Home Minister that by January next the medium of instruction will be in Assamese compulsorily enforced, that the situation gets aggravated and fear will be there in the minds of the minorities.

SHRI DINEN BHATTACHARYYA (Serampore): He has clearly evaded that.

SHRI K. C. PANT: There is no cleverness in this. This is a situation far too serious to permit of verbal cleverness.

Some friends in Cachar brought this to my notice. I talked to the Chief Minister and the Home Minister in this matter. The Home Minister showed me a paper cutting of an Assam paper where he had given a statement saying that his statement had been distorted and, therefore, he was prepared to explain to the people concerned what he really meant. The Chief

Minister also said that he would be talking to Cachar friends to remove this apprehension in their minds. I think that is all we need go into at this stage so far as this matter is concerned.

श्री अरुण बिहारी बाजपेयी (ग्वालियर) : अध्यक्ष जी, जब पंत जी असम के दोरे पर गये थे, सौभाग्य से कहिये या दुर्भाग्य से कहिये; उन दिनों मैं भी वहीं था। उनकी तरह मैं मुझे वायु-सेना के विमान की सुविधा तो नहीं थी, लेकिन अपने तीन दिनों के असम के दोरे में मैंने जो कुछ देखा और सुना, उस से तो हृदय में बड़ी वेदना होती है। स्वाधीनता के 25 वर्ष बाद भी देश में या देश के किसी भाग में अंग्रेजी चल सकती है लेकिन भारत की भाषा पर आपत्ति की जाती है।

अध्यक्ष जी, मुझे लड़कियों ने रोते हुए बताया कि अगर वह साड़ी पहन कर जाती हैं तो आपत्ति की जाती है, कहा जाता है कि मेखला पहननी चाहिये, लेकिन बेल-बाटन में जाय तो कोई आपत्ति नहीं है।

केन्द्रीय सरकार ने भी इस बात को देखा होगा और सदन भी इस बात को देख रहा है कि जब जब असम में उपद्रव होता है तो शासन कानून और व्यवस्था बनाये रखने में विफल हो जाता है। 1950 से लेकर आज तक जितने भी उपद्रव हुए, चाहे वे किसी के भी विरुद्ध हों, लेकिन शासनतन्त्र उन पर काबू पाने में कामयाब नहीं हुआ। क्या यह केवल असम सरकार की जांच की बात है, क्या केन्द्र को इस सम्बन्ध में चिन्ता नहीं होनी चाहिये। असम सीमावर्ती प्रदेश है, तरह तरह की शक्तियां, तरह तरह के तत्व वहां काम कर रहे हैं, लेकिन हर बार शासनतन्त्र शान्ति को कायम रखने में विफल हो जाता है। मेरा निवेदन है कि इस की जांच केवल अभी जो घटनाएँ हुई हैं, उन्हीं के सन्दर्भ में करना पर्याप्त नहीं है, यह जिम्मेदारी केवल असम सरकार पर भी

नहीं छोड़ी जा सकती, इस जांच में केन्द्रीय सरकार को भी शामिल करना चाहिये और आवश्यकता हो तो सैन्ट्रल ब्यू ऑफ इन्वेस्टीगेशन की सेवारत भी असम को उपलब्ध की जानी चाहिये, जिन से इस बात का पता लग सके कि हर बार शासनतन्त्र के विफल होने के क्या कारण हैं? कभी असम विदेशी आक्रमण का शिकार हो गया और शासनतन्त्र उस समय विफल हो गया तो सारा देश संकट में पड़ जायगा। इस लिये इस सम्बन्ध में केन्द्रीय जांच और प्रभावी-उपाय-योजना आवश्यक है।

दूसरी बात में यह जानना चाहता हूँ—असम सरकार ने दो छात्रों की हत्या की अमानती जांच का आदेश दिया है। उन में से एक छात्र श्री मृजम्मिल—के मकान पर मँ गया था—बड़ा बहादुर लड़का, 15 साल की उम्र और जिन परिस्थितियों में वह मारा गया, वे बड़ी हृदय-विग्नरक है। श्री अनिल बोहरा के सम्बन्ध में यह पता नहीं कि उन की हत्या कहां की गई, किस ने की—इस की जांच आवश्यक है। लेकिन क्या सारे मामले की जांच आवश्यक नहीं है? मंत्री महोदय इस बात को स्वीकार करेंगे—यद्यपि विवाद का विषय भाषा थी, शिक्षा का माध्यम था, जिन को लेकर मतभेद खड़े हुए, लेकिन उपद्रव नगरों में नहीं हुए, उपद्रव ग्रामीण क्षेत्रों में ज्यादा हुए, जहां ऐसे लोग रहते हैं जिन्हें शिक्षा प्राप्त करने का न तो अभी तक अवसर मिला है और न जिन के लिये माध्यम का प्रश्न कभी महत्वपूर्ण होने वाला है। विद्यार्थियों का पहला आन्दोलन शान्तिपूर्ण था, वह आन्दोलन सरकार के खिलाफ था, क्योंकि विद्यार्थियों का मतभेद सरकार की नीति से था। वह आन्दोलन समाज-विरोधी और राष्ट्र-विरोधी तत्वों के हाथ में कैसा गया—इस बात की जांच आवश्यक है। मैं खरपेटिया भी गया था जहां लोगों के घर जला दिये गये। मुझे उन के शिविर में

[श्री अटल बिहारी वाजपेयी]

जाने का मौका भी मिला। जिस भीड़ ने उन के चरों पर हमला किया, उन में बहुत सैं लोग ऐसे थे जो पाकिस्तान जिन्दाबाद के नारे लगा रहे थे। मुझे उन पर अविश्वास करने का कारण नहीं है। अध्यक्ष महोदय, बहुत से रज्जाकार जो बंगला देश से निकाल दिये गये, यहां भाग आये हैं और असम में रह रहे हैं। उन्होंने परिस्थिति का लाभ उठाने की कोशिश की—उन के ऊपर जो रहस्य का पर्दा पड़ा है, उस पर्दे को हटाने की आवश्यकता है। भविष्य में भी कोई गड़बड़ न करे, इस बात पर भी ध्यान देना पड़ेगा और मैं चाहता हूं कि छात्रों का आन्दोलन समाज-विरोधी और राष्ट्र-विरोधी तत्वों के हाथ में कैसे पड़ा—इस की जांच होनी चाहिये।

अध्यक्ष महोदय, भाषा का प्रश्न अभी हल नहीं हुआ है। मंत्री महोदय का कहना है कि वहां शान्ति हो रही है। मेरा निवेदन है कि वह ऊपर की शान्ति है, अभी तक हृदयों में अशान्ति है, लोगों में असुरक्षा की भावना है और कहीं कहीं भाषायी अल्प-संख्यकों का आधिक बहिष्कार हो रहा है। गोहाटी, डिब्रुगढ़ मेडिकल कालिज के छात्र अपने होस्टलों में जा कर पढ़ाई करने के लिये तैयार नहीं हैं। जो गये हैं उन का अनुभव अच्छा नहीं है। दूसरी ओर असमी भाषी शिकायत करते हैं कि सिलचर में जो मेडिकल कालिज है, उस में उन के पढ़ने का वातावरण अभी तक नहीं बनाया गया है। इस के लिये क्या किया जा रहा है? मैंने समाचार पत्रों में पढ़ा है कि हमारे मित्र श्री बलीराम भगत को भेजा जा रहा है—वे छात्रों को वहां ले जायेंगे। भगत जी मेरे मित्र हैं, उन के लिये मेरे हृदय में बड़ा आदर है, लेकिन जो स्थिति पैदा हो गई है उस की सम्भालना केवल भगत जी के बूते की बात नहीं है—मैं पूछना चाहता हूं कि केन्द्र का कोई

मंत्री इस के लिये क्यों नहीं जाता? पंतीजी के जाने का अच्छा असर हुआ। वे पीछे भी जा सकते थे। कोई केन्द्र का मंत्री असम में बैठ सकता है और जिन में असुरक्षा की भावना है उनको साथ लेकर नगरों में, कालेजों में जा सकता है। पंतीजी तो वहां से बहुत से सर्टिफिकेट प्रिंसिपल और विद्यार्थियों से इकट्ठा करके लाये हैं। मेरा कहना है कि इतना काफी नहीं है। विद्यार्थियों के साथ क्या बीता वह यहां सुनाना नहीं चाहता हूं। केन्द्र के स्तर पर प्रयत्न करना होगा, असम की सरकार तो निष्क्रिय है निकम्मी है। जो असम के जन नेता हैं उन्होंने भी अपने दायित्व का पालन नहीं किया है। विद्यार्थियों में सुरक्षा की भावना भरना आवश्यक है या फिर आप उनकी पढ़ाई का प्रबन्ध कहीं और करें। उनका भविष्य खतरे में है। मेडिकल कालेज में अन्तिम वर्ष में पढ़ने वाले छात्र मुझ से मिले और कहने लगे कि हम क्या करें। सिलचर के मेडिकल कालेज का जितना कम वर्णन किया जाये उतना ही अच्छा है। कालेज क्या है, बैरकें बनी हुई हैं लड़कों के रहने के लिए। 500 बिस्तर होने चाहिए, 102 बिस्तर हैं। सिलचर की जो आर्थिक उपेक्षा की गई है वह भी इसका एक कारण बन गया है। लेकिन मैं मानता हूं पहला काम है लोगों में सुरक्षा की भावना लौटे और इसीलिए हमने इस पर बल दिया कि एक पार्लियामेन्टरी कमेटी जायें, वहां लोगों से मिले, उनके बाबों पर महंम रखें, उनके आंसू पोछें और सभी वर्गों से बातचीत करके कोई समाधान निकालें। मुझे बड़ा दुख है कि इस तरह की एक संसदीय समिति के वहां जाने का विरोध किया गया। असम के लोग चाहते हैं कि देश के भाषों से लोग आयें, उनकी समस्याओं को लोग समझें और उनमें एक सुरक्षा की भावना पैदा करें। अभी भी देर नहीं हुई है, मंत्री महोदय एक संसदीय समिति भेजने के प्रस्ताव के बारे

फिर से विचार करें और एक समिति वहां
जें ।

यह कहना ठीक नहीं है कि पुनर्वास की
सारी व्यवस्था की जा रही है । खरपेठिया
में लिबरों में रहने वाले लोगों को अभी मकान
की मरम्मत के लिए धन नहीं मिला है ।
मंत्री महोदय वहां जा नहीं सके लेकिन मैं
वहां गया था । पुनर्वास के कार्य में प्रदेश
की सरकार ढिलाई कर रही है । यह ठीक
है कि प्रदेश की सरकार से हमें काम लेना
होगा लेकिन ऐसा लगता है कि प्रदेश की सरकार
या तो स्थिति की गंभीरता को नहीं समझती
है या उसके अनुसार कदम उठाने का साहस
नहीं जुटा पाती है । प्रदेश सरकार को
इसके लिए प्रेरित करना होगा । इसमें
भी केन्द्र को जोड़ा जा सकता है । इसमें असम
की स्वायत्तता को कम करने का सवाल नहीं
है ।

मुख्य प्रश्न है माध्यम का । अगर सरकार
समझती है कि माध्यम के प्रश्न को टालकर
वह असम में सामान्य स्थिति कायम कर
लेगी तो यह उसका धर्म है । मैं उन लोगों
में से नहीं हूँ जो कहते हैं कि असम को दो
भाषी राज्य घोषित कर देना चाहिए । असम
एक भाषी राज्य रहेगा, असम की राजभाषा
असमिया रहेगी । मुझ सुनकर ताज्जुब हुआ
कि सिल्वर में असमिया को अनिवार्य रूप से
पढ़ाने के लिए व्यवस्था नहीं की गई है । सिल्वर
में भी असमिया अनिवार्य रूप से पढ़ाई जानी
चाहिए लेकिन माध्यम के सवाल पर विद्यार्थी
को छूट दे देनी चाहिए, जो विद्यार्थी बंगला
के माध्यम से यूनिवर्सिटी तक पढ़ते हैं उन्हें
इस बात की इजाजत होनी चाहिए । इससे
असम बाईलिग्वल नहीं बनेगा । बाईलि-
ग्वल असम बनाने का सवाल भी नहीं है ।
लेकिन केन्द्र भाषा के सवाल पर कोई स्पष्ट
नीति निर्धारित करके उसपर दृढ़ता से अमल
कराने में विफल रहा है । ऐसी नीति का

निर्धारण होना चाहिए । जबतक यह नहीं होगा
तबतक वहां सामान्य स्थिति कायम नहीं
हो सकती है । अभी जो शांति हुई है वह या
तो तूफान के पहले की शांति है या मर्बट
की शांति है । असम की कोई भी गसल
घटना बंगलादेश में प्रभाव डाल सकती है
और कुछ तत्व इस बात को लेकर प्रयत्न कर
रहे हैं कि सिल्वर में, कछार में आपस में संघर्ष
हो जाये, संघर्ष साम्प्रदायिक रूप धारण कर
ले जिसकी प्रतिक्रिया बंगलादेश में हो—
ऐसे लोगों के खेल को हमें रोकना पड़ेगा और
शीघ्रातिशीघ्र सामान्य स्थिति कायम करने
के लिए सभी प्रश्नों का निर्णय करना पड़ेगा
मैं जानना चाहता हूँ मंत्री महोदय ने जरूर
भाषा के प्रश्न पर असम में चर्चा की होगी
तो उनकी क्या प्रतिक्रिया है, किस तरह से
इस सवाल को हल करना चाहते हैं और
सामान्य स्थिति लाने के लिए कौन सी प्रभावी
योजना उनके सामने है ?

श्री कृष्ण चन्द्र पन्त : अध्यक्ष जी, सबसे
पहले वाजपेयी जी ने इस बात की ओर ध्यान
खींचा सदन का कि जब वहां असम में दंगे
हुए तो उस समय आमाम का शासन उतना
सफल नहीं रहा उसको काबू में लाने में
जितना कि वे चाहते थे । अब बाद में उन्होंने
खुद ही कहा कि प्रदेश सरकार में इन चीजों
में काम लेना होता है । काम लेना होता है,
मैं नहीं कहूंगा बल्कि मैं कहता हूँ यह उनका
काम है, वे इसको करें और हमारी उनसे कहने
की बात नहीं है उनको खुद करना है । हाँ,
यह अवश्य है कि जब इस तरह के मसले
होते हैं जिनमें भावनाओं का उबाल एकदम
से आ जाता है तो शासन के काबू के बाहर भी
कुछ दिन के लिए स्थिति कभी कभी चली
जाती है । यह और राज्यों का भी अनुभव
है और हमको ऐसी स्थिति में राज्य सरकार के
हाथ मजबूत करने होते हैं ताकि वे उस स्थिति
पर काबू पास करें क्योंकि ऐसी स्थिति में जैसे
उन्होंने स्वयं कहा चाहे भाषा के प्रश्न पर

[श्री कृष्ण चंद्र पन्त]

या माध्यम के प्रश्न पर विद्यार्थियों की तरफ से कोई आन्दोलन हो उसमें जो असामाजिक तत्व हैं या दूसरे तत्व हैं जोकि प्रदेश का भला नहीं करने चाहते वे उसमें कूद कर उसका फायदा उठाकर कुछ तोड़फोड़ करना चाहते हैं और अलग अलग भाषा भाषियों के बीच में एक दीवार खड़ी करना चाहते हैं। तो यह एक ऐसी चीज है जिसमें जबतक संघर्ष के साथ वहाँ के लोग सभी इस बात को न समझे विशेष तौर पर, इसलिए कि वह एक सीमावर्ती क्षेत्र है, तबतक इस तरह की घटनाएँ हो सकती हैं। मेरी आशा है कि आज इस संसद में इस बात की चर्चा के बाद वहाँ इसका यह प्रभाव पड़ेगा कि सीमावर्ती क्षेत्र के लोगों को इसमें बहुत अधिक चौकन्ना होने की आवश्यकता है, इसको वे खूब समझेंगे और जो भी आन्दोलन हों वह नहीं होने देंगे बल्कि आपस में बैठकर इन चीजों का हल निकालेंगे। केन्द्र का जहाँ तक ताल्लुक है, सीमावर्ती क्षेत्र होने के नाते भी और इम नाते भी कि असम पिछड़ा रहा है, कुछ वहाँ के संचार साधन ऐसे रहे हैं कि कम्युनिकेशन वहाँ से अच्छा नहीं रहा इसलिए आवश्यकता है कि उस सारे पूर्वोत्तर क्षेत्र की तरफ विशेष नजर जाये, वहाँ के विकास कार्यों में अधिक गति आये ताकि इन सारी समस्याओं की जो जड़ है विकास की कमी, वहाँ के लोगों के आगे बढ़ने के अवसरों की कमी उसका कोई हल निकले जिनके अभाव में वहाँ कई स्थितियाँ उत्पन्न होती है जो बाद में आन्दोलन का रूप ले लेती है और उसकी जड़ वहाँ का पिछड़पन ही है।

आपने जो इस बात पर जोर दिया कि वहाँ भरोसा वापस आना चाहिए, अलग अलग लोगों में, अलग अलग भाषा भाषियों में, मैं बिल्कुल सहमत हूँ। वह भी एक बुनियादी बात है क्योंकि जबतक भरोसा नहीं होया आसक्त में, तबतक न तो ही स्थिति में कोई अतिक्रम हल निकल सकता है और न उसको कभी हल दिया जा सकता है। आसक्त

विद्यार्थियों की बात कही। मुझे इस बात की खुशी है कि जिन विद्यार्थियों से मैं डिब्रूगढ़ में, गोहाटी में मिला, इसमें उन स्टूडेंट्स यूनियंस के पदाधिकारी भी थे जोकि इस आन्दोलन में अगुवा थे, उन्होंने भी और वहाँ के वाइस चांसलर्स ने वहाँ के जो अभ्यापक हैं उन्होंने तथा टीचर्स एसोसिएशन के जो प्रेसीडेंट हैं उन्होंने, सब ने डिब्रूगढ़ में लिखकर मुझ को दिया कि हम अपील करते हैं बंगाली लड़के वापस आये, हम उनको आशवासन देते हैं कि कैंपस के अन्दर उनकी सुरक्षा की जिम्मेदारी हम लेंगे। गोहाटी में चूँकि समय कम था, लिखकर नहीं लेकिन उन्होंने कहा कि पहले हमने ऐसी अपील इसी की है और मुझ से भी कहा कि आप हमारी तरफ से उन लड़कों से कहिए, हम बचन देते हैं उनकी सुरक्षा का, यहाँ कैंपस में हम उनकी देखभाल करेंगे। और उन को हम वापस बुलाना चाहते हैं। मैं मानता हूँ कि ऐसे वातावरण में उन को वापस जाना चाहिये। उन को कहीं और जाने की जो सलाह है मैं उस को नहीं मानता। मैं समझता हूँ कि उन का हक है, हर विद्यार्थी को हक है कि देश में जहाँ कहीं भी, किसी कालेज में वह हो, उस में उसे पढ़ने दिया जाये और यही स्टूडेंट्स चाहते हैं। मुझे आशा है कि इस बारे में सदन मजबूती से अपनी राय देगा ताकि जो विद्यार्थी, चाहे वह मद्रास का हो, चाहे काश्मीर का हो या असम का हो, आज किसी कालेज में पढ़ता है उस में वह पढ़ सके। उस को हिन्दुस्तान के किसी कालेज में पढ़ने का अधिकार है और उस को वहाँ पढ़ने देना चाहिए। हम सब की जिम्मेदारी है कि वह वहाँ पढ़ सके।

श्री अटल बिहारी वाजपेयी : मगर श्रीों का कर्तव्य है कि उन्हें पढ़ने दें।

श्री कृष्ण चंद्र पन्त : बिल्कुल। यही मैं कह रहा हूँ। मगर ऐसा नहीं होता तो इस चीज को हल करने देखना पड़ेगा।

SHRI DINEN BHATTACHARYYA:
Did you meet any students?

SHRI K. C. PANT: Yes, I met some students. Some of the students complained that after they have gone back, the behaviour was not good to them. I had also met students in hostels who said that the behaviour was all right now.

SHRI ATAL BIHARI VAJPAYEE:
Where?

SHRI K. C. PANT: In Gauhati. I can give the names and figures.

Therefore, I would appreciate if my hon. friends also help in creating that confidence. My hon. friend, Shri Bhagat, is going there against this background, and he is going there to give additional confidence to the boys in Calcutta when they go there so that they can settle down there. The Universities and the State Government have also promised all help.

SHRI S. M. BANERJEE: Shri Bhagat is not a government spokesman.

SHRI K. C. PANT: Government officials will go from Bengal. As a people's representative he should have more faith in his own colleagues.

SHRI S. M. BANERJEE: We have.

SHRI K. C. PANT: There are certain matters in which the government officials are helpless. Only a representative of the people can create such an atmosphere.

SHRI S. M. BANERJEE: Then why not any other representative.... (Interruptions).

SHRI K. C. PANT: The Assam Government has opened liaison office in Gauhati and Dibrugarh to facilitate the return of these students. The Chief Minister and the Health Minister have issued appeals. The State Government has announced *ad hoc* grants for the loss of books and personal belongings of the students. The University of Gauhati and Dibrugarh have agreed to hold annual examinations in the second fortnight of January 1973

to facilitate the students who had earlier gone away. This is the kind of atmosphere that has been created. If you help them, they will go back quicker.... (Interruptions).

Shri Vajpayee told me that he visited a camp where he was told that money had not reached for rehabilitation. I will certainly look into it. I could not visit that camp myself. Therefore, I am not aware of that.

He said that we should not postpone the consideration of the language question and that the peace there is not very stable. I realise it that an answer to the question of language has to be found and till then things have not been settled down completely. But the process of finding an answer must be left to the people of Assam and Cachar, because they alone will understand each other best, with our help wherever necessary.

SHRI SAMAR MUKHERJEE (Howrah): Mr. Speaker, Sir, even from the statement of the hon. Minister, it is clear that the situation has not been normal. I draw his attention to the *bundh* which took place only two days before on the 19th by the Cachar Sangram Parishad, some organisation....

SHRI D. BASUMATARI (Kokrajhar). I know what is the Cachar Sangram Parishad.... (Interruptions).

SHRI SAMAR MUKHERJEE: The Cachar Sangram Parishad is also dominated by the Congress. They have declared and it has appeared in the papers that if by 25th December, the language issue is not settled, they will resort to higher form of struggle. I do not know what is the higher form of struggle in their mind. But this shows that the situation has not become normal. The minorities there are still apprehensive. They are still agitated. Unless the question of language is settled, I fear, there will be another round of explosion and the situation will further worsen.

The appeals have been issued and the Chief Minister of West Bengal issued

[Shri Samar Mukherjee]

an appeal to the students who have come over to Calcutta from Assam to go back. But he also reported that not a single one has come to him who has expressed his desire to go back. This shows that no confidence has been created in the minds of the people here....(Interruptions). ..

SHRI S. M. BANERJEE: Shut up. (Interruptions).

MR. SPEAKER: In the very beginning, I made it very clear that this is a subject on which the sentiments might get aroused. You must avoid it. May I request you not to use such word?

SHRI S. M. BANERJEE: You kindly see the debates. Once Panditji actually went to his seat to stop him....(Interruptions).

MR. SPEAKER: May I request both of you to go outside in the Lobby? Why do you disturb the atmosphere of the House? You go and settle your accounts outside. The word he uttered is unparliamentary.

और आप लोग उन को और चमका रहे हैं। इस का क्या मतलब है ?

श्री अटल बिहारी वाजपेयी : आप उन को कहने के बजाय हम लोगों से कहते हैं।

अध्यक्ष महोदय : आप उन से कहें कि वापस लें।

SHRI K. S. CHAVDA (Patan): He has given so many attributes. He said something that goes against the decorum of the House.

SHRI S. M. BANERJEE: From the very face, he looks like a chauvinist.

SHRI D. BASUMATARI: Why is he attacking me personally, Sir?

SHRI DINEN BHATTACHARYYA: He should withdraw it, Sir.

SHRI S. M. BANERJEE: Sir, he was exactly doing like this during the time of Panditji also and Panditji had to go to his seat and stop him.

SHRI SHYAMNANDAN MISHRA: Sir, I am rising on a point of order. Why do you put up with such utterances as those made by the hon. Member, Shri S. M. Banerjee? Should such statements be made and such words used against an hon. Member of the House,—that he looks like so and so?

MR. SPEAKER: I have already said that, but he does not withdraw....(Interruptions). That is why I said that anybody speaking without my permission will not go on the record.

SHRI S. M. BANERJEE: I am prepared to withdraw if you consider it unparliamentary.

MR. SPEAKER: When I asked you to withdraw, you did not.

SHRI S. M. BANERJEE: I have never said that I would not withdraw. I withdraw that word, but let him also withdraw from the House.

SHRI SAMAR MUKHERJEE: When the situation is not yet normal and from the reports of Mr. Pant it is evident and when some efforts are being made to restore normalcy, it is just at this situation, the Home Minister of Assam Government Shri Hiteswar Saika, in a public meeting said that the Assam Government has already decided to introduce Assamese as the medium of instruction through legislation without any round table conference and that is going to be introduced in January. That will be a further provocation and the situation will further worsen.

The facts are proved that there is a planned conspiracy behind these riots on the issue of the language of the minorities. Also the Government of India, in order to escape its own responsibility, has stated that there may be some hand of a foreign intelligence agency behind all these disturbances.

SHRI FRANK ANTHONY (Nominated Anglo-Indians): They are always finding an alibi.

SHRI SAMAR MUKHERJEE: Yes. There is no doubt that it is the Congress Government of the State as well as the Centre who are responsible and they have proved their total bankruptcy to deal with the situation.

Now, they have set up an inquiry. About what? To inquire into the adequacy of the administrative arrangements made to deal with the disturbances. Now, after the riots have continued for more than three months, the Government is inquiring into whether their machinery is adequate or not. What is this? It is quite obvious that the Government has totally failed and there is the hand behind these riots of the Government and there was a connivance of the Central Government with it.

13.24 hrs.

[**SHRI K. N. TIWARY** in the Chair.]

So, our main point is that unless the question of the medium of instruction and the language of the minorities is settled on the basis of democratic principles, the situation in Assam will not be normal.

Assamese should be the medium of instruction as well as the medium of administration. That is just and we fully support that....

MR. CHAIRMAN: But, Sir, what do you want to know?

SHRI SAMAR MUKHERJEE: Let me finish. Why are you intervening?....
(Interruptions).

MR. CHAIRMAN: No, please. The call attention is meant only for seeking information.... (Interruptions).

SHRI SAMAR MUKHERJEE: It is the accepted policy of the Government that upto the secondary level the minorities should have the right to have instructions through their mother tongue. This should be extended right up to the college

and university level. There is no contradiction between Assamese language becoming the main medium of instruction and the language of administration and the language of minorities being the medium of instruction, both in the primary stage, secondary stage, and other levels. Unless this problem is solved on the basis of democratic principles the basis for these disturbances and riots will not be removed. Already the slogan for a separate State of Cachar has been raised. Already plain tribals have raised the demand for separate autonomous State. When the demand for a separate State for Cachar has already been there, do you want that Assam should be disintegrated as the situation in Andhra is? In Andhra they demand a separate State of Telengana. These demands are being raised because of the policy of the Congress Government. The Central Government has totally failed in this regard. If this situation continues how can the integrity of India be developed? How can the unity of India be developed? Their policy leads to disintegration in Assam, in Andhra, and various other States. It has got repercussions throughout India. It shows the total bankruptcy of the Government at the Centre. The problem of the medium of instruction of minorities should be solved on the basis of democratic principles. There should be guarantee for protection of the lives and properties of these minorities. Those who are affected must be given proper relief and rehabilitation.

13.27 hrs.

[**MR. SPEAKER** in the Chair.]

Sir, we demand that a non-official inquiry should be conducted in these matters. They should find out as to who have been responsible for all these things, and how the situation could be improved and normal situation restored. There should be a deputation from all the parties on behalf of the Parliament. Parliamentary delegation is a 'must', I should say. It must be sent to Assam immediately so

[Shri Samar Mukherjee]

that the situation can be improved and normal situation restored and the fears and apprehensions of minorities removed.

These are very vital matters. The situation is very explosive. The movement is still going on. From January the Assamese language is going to be imposed unilaterally. The Minister should take a serious view of the situation. His attitude reflects a total complacency and lack of proper understanding of the situation. That is why, the first thing should be that we should solve this question of the medium of instruction. We want to know how the Central Government is going to solve this problem and improve relations between different linguistic people.

I would again like to emphasise that a non-official inquiry should be conducted in the matter. A Parliamentary Delegation should be sent there. I want a clear answer from the hon. Minister to all my points raised.

SHRI K. C. PANT: These points have already been raised by other hon. Members and I have attempted to give whatever information I have in my possession. On the question of agitation in Cachar, when I was in Cachar, I met the various sections of the people there, including the members of the Sangam Parishad, the Bar Association, students and others, and my advice to them was that they should call off the agitation, and that agitations were not going to help in finding a solution to a problem like the medium of instruction in higher education. This is a problem which needs calm and peace and an atmosphere of goodwill and confidence for a solution and agitation do not help in any of these.

Therefore, while talking to them, I had suggested to them that the right thing would be to discuss the matter further with the Assam Chief Minister, and they pressed some doubts about the Chief Minister being willing to meet them because of some statement somewhere. There are so many press statements. I would appeal to the press not

only in Assam but elsewhere to be very careful in handling such situations. I would appeal to them to be very restrained. When I raised this matter with the Chief Minister, he readily said 'How can I object to meeting them? I shall certainly meet them and talk to them.' Therefore, that is the right approach.

The hon. Member again referred to the statement of the Home Minister of Assam. I have already said that he has said that it was a distorted statement.

SHRI DINEN BHATTACHARYYA: Why did he not contradict it?

SHRI K. C. PANT: He has contradicted it. He showed me a press statement.

SHRI DINEN BHATTACHARYYA: That did not come in any paper.

SHRI K. C. PANT: The hon. Member has perhaps not read it. I shall accept that, but he showed me the press statement....

SHRI DINEN BHATTACHARYYA: What is his categorical view? Let him answer categorically and say what the position is going to be from January....

SHRI K. C. PANT: I do not answer for all Home Ministers. I can only answer for the Central Government.

SHRI SAMAR MUKERJEE: But a *bandh* had taken place after the hon. Minister had come back.

SHRI K. C. PANT: My hon. friend had said that the Central Government had abdicated its responsibility. I have already indicated that Shri F. A. Ahmed went there, Shri Ram Niwas Mirdha went there, and I went there later, and in this particular type of situation, we would certainly help in every way possible. One concrete help which we can give them and we do give them is the assistance of the CRP. I do not know my hon. friend's attitude to the CRP, but I think he will realise the utility of the CRP in situations like this, and it will help to modify the general impression of the CRP which he has....

SHRI SAMAR MUKHERJEE: The CRP is used against us only and not to control riots.

SHRI K. C. PANT: He made a surprising allegation that the riots had taken place with the connivance of the Centre. It is an amazing statement. It is an irresponsible statement. I would strongly protest against such statements which only tend to exacerbate the feelings that already exist in that area.

SHRI SAMAR MUKHERJEE: That is because there is a general movement against the high prices of foodgrains.

SHRI JYOTIRMOY BOSU: (Diamond Harbour): I had given notices about two things....

श्री अटल बिहारी वाजपेयी : मंत्री महोदय ने पार्लियामेंटरी डेलेगेशन के बारे में कुछ नहीं कहा है। वह कह रहे हैं कि आसाम में स्थिति शान्त है। मੈम्बरों के वहां जाने से स्थिति और भी शान्त हो जायेगी, बिगड़ेंगी नहीं।

SHRI SAMAR GUHA: That has been the demand of the whole House.

MR. SPEAKER: The hon. Minister had made it very clear....

श्री सुमर गुहा : जब एक मैम्बर को वहां भेजा जा रहा है, तो क्या पार्लियामेंट के मैम्बरों को कलेक्टिवली नहीं भेजा जा सकता है। यह सारे आपोजीशन की डिमांड है।

MR. SPEAKER: Usually, we allow only half an hour for the calling-attention notice, and we sometimes take it up to 45 minutes. But today it has taken more than 1½ hours. This is the third time in this week that the calling-attention notice has taken up so much time....

SHRI JYOTIRMOY BOSU: Since the hon. Prime Minister is here, she may make a statement about the feasibility of sending an MPs' delegation to Assam. We have been asking for it for a very long time. You could help us in this regard.

13.35 hrs.

RE. PROCEEDINGS OF THE HOUSE

SHRI JYOTIRMOY BOSU (Diamond Harbour): I had written to you about two things. May I read out? I *suo motu* wish to say the following which I had written to you immediately....

MR. SPEAKER: That is already expunged. Where does his *suo motu* come in now?

SHRI JYOTIRMOY BOSU: I do not want to offend Shri Raj Bahadur and I do not want that he should be left hurt. So, I only want to say that I have my regards for him, and I do not wish to hurt him at all. He is a good man; there is no difficulty in saying that; personally, he is a good man....

MR. SPEAKER: One thing is there that that is already expunged. All that he can safely do now is not to offend him in future.

SHRI JYOTIRMOY BOSU: Ah right, Sir.

But, unfortunately, I have another unpleasant task, and that is in regard to the privilege motion about the four motions that I had moved in this House in this session. That has to be taken up. That is a very unpleasant task. Shri Raj Bahadur had in his speech said—I am told that you, Sir, have already heard the tape-record, and it says that he said—that Shri Jyotirmoy Bosu had moved four motions in this session. That is number one. Number two: on top of this, the record was altered—I would not use the word 'tampering' just now. There are two things. There is a clear case of privilege. Now I seek your permission to allow me to raise this question of breach of privilege.

SHRI S. A. SHAMIM (Srinagar):
Against his respected friend, Shri Raj
Bahadur.

MR. SPEAKER: No, no. I saw the
record. Normally we have the proceed-
ings. I shall make the position very
clear. The proceedings are taken from
the Reporters' copy. In this case in what
had appeared in the proceedings coming
from the Reporters' copy, I do not think
in between there is any tempering. The
tape-recording is there. I think in this
case Shri Jyotirmoy Bosu is correct there
(*Interruptions*).

AN HON. MEMBER: Privilege comes.

MR. SPEAKER: The tape-recording is
there. The Minister explained it (*Inter-
rptions*).

SHRI JYOTIRMOY BOSU: It is a
question of privilege.

MR. SPEAKER: No question of pri-
vilege. Sometimes, when all of you are
speaking, the Reporter takes it wrong.
Tampering comes in if there is some
change in between. Sometimes, when all
of you are speaking, the Reporters do not
catch it. In that case, we leave it to the
Members to correct. They can correct
it. In this case, somehow, unfortunately,
it happened. I have laid the position as
it is before you. I request that this may
be dropped.

SOME HON. MEMBERS: Yes, yes.

SHRI JYOTIRMOY BOSU: As per
your desire that it should be dropped, and
since you have made the position clear
that he had said it, which was incorrectly
put in the proceedings, I drop it on your
request.

But I wish Shri Raj Bahadur.... (*Inter-
rptions*).

SHRI S. M. BANERJEE (Kanpur):
What about my privilege motion against
Shri S. N. Mishra? (*Interruptions*).

MR. SPEAKER: I have got it. I am
waiting for the member. You mean that
matter about the Balayogi?

SHRI S. M. BANERJEE: Yes.

MR. SPEAKER: It is with me. It is
there. I will discuss with him.

There was also a case, similar to this
recording. Some similar sounding words
somehow are mistyped (*Interruptions*).
You are interested in keeping it alive.

SHRI S. M. BANERJEE: Kindly allow
me to make a submission.

MR. SPEAKER: You see me later on.

SHRI S. M. BANERJEE: He may not
attend the House (*Interruptions*). I have
a document which is addressed to the
Prime Minister, copies of which have
been distributed, in which my leader, Shri
Indrajit Gupta, has been attacked.

MR. SPEAKER: I will ask both of you
to see me in my Chamber.

A similar mistake happened yesterday,
to which reference was made by Shri
Kachwai. It is a similar mistake of trans-
lation. They thought this *Nivesh* was
another Bill. But it was some translation
of that.

SHRI S. M. BANERJEE: I rise on a
point of order. The House cannot be
misled like this. It was no question of
translation. This is the letter:

"My dear Mrs. Gandhi, I learnt this
afternoon...."

MR. SPEAKER: No, no. Unless I call
you....(*Interruptions*). Are you listen-
ing to me? So long as I am on my legs,
nothing else will go on record.

SHRI S. M. BANERJEE: Do I take it
that the privilege motion has been
refused?

MR. SPEAKER: I will explain to you
and then refuse it.

SHRI S. M. BANERJEE: When will you explain it?

MR. SPEAKER: I will explain it to you and if you are not convinced then I will think about it. There is nothing in that but I thought it must be brought to your notice. (*Interruptions*). Order, order.

SHRI S. M. BANERJEE: Sir, let the whole thing be laid on the Table of the House. (*Interruptions*). Let me lay it

MR. SPEAKER: Order, please. You are not called by me. Nothing will go on record.

SHRI S. M. BANERJEE: Kindly allow me to say that whatever Mr. Shambu Nath Misra is circulating,* * *

MR. SPEAKER: Order, order. Please do not use such words.

SHRI K. S. CHAVDA: Sir, regarding the reply of the Deputy Minister of Foreign Trade with regard to my letter to you, of the 18th December, I wish to say that this reply says that the Prime Minister's Secretariat as well as the Foreign Trade Ministry have received no complaint, but there is the original copy of the paper....(*Interruptions*).

MR. SPEAKER: Please send it to me. You write to me. Do not bring it here so abruptly.

SHRI K. S. CHAVDA: What should I do?

MR. SPEAKER: I have said that you may send it to me. Whatever is your comment, send it to me..(*Interruptions*).

SHRI K. N. TIWARI (Bettiah): Sir, is it proper? I am referring to what Mr. Banerjee said. Is it permissible?*

MR. SPEAKER: I have not allowed him. I told him that so long as I am ere standing, he cannot speak like that. (*Interruptions*)

Order, order. Mr. Shastri.

SHRI S. M. BANERJEE: Why don't you allow me to read the whole thing.

MR. SPEAKER: I am not allowing.

SHRI S. M. BANERJEE: Why? It is a privilege motion.

MR. SPEAKER: I have not allowed your privilege motion. It is no privilege motion. You want to know why. This is not a privilege motion.

SHRI S. M. BANERJEE: Why should the leader of that party only be the leader? The leader of my party also is a leader.

SHRI S. A. SHAMIM: Even I am a leader of a party! (*Interruptions*).

SHRI S. M. BANERJEE: Today you may laugh it out. But the question is more serious. (*Interruptions*).

MR. SPEAKER: You are disturbing the House. I have not called you. I have not allowed it.

SHRI S. M. BANERJEE: I am not disturbing. (*Interruptions*).

SHRI INDRAJIT GUPTA (Alipore): Sir, may I seek one guidance from you? Am I to take it from your observation—I do not want to bring in any personal element into this—that it is open to any Member of this House to multiply and circulate a document containing palpable falsehood against another Member and there is no remedy for it? That is all I want to know from you. You tell us there is no remedy here; we know how to deal with such people elsewhere. (*Interruptions*).

AN HON. MEMBER: We also know how to deal with you all.

SHRI INDRAJIT GUPTA: These devotees of the Balyogi * * (*Interruptions*).

SHRI S. M. BANERJEE: **

श्री रामाचतार सास्त्री (पटना) : मैं यह निवेदन कर रहा था कि पूरे हिन्दुस्तान के लगभग 30 हजार स्टेशन मास्टर और असिस्टेंट स्टेशन मास्टर असहयोग आन्दोलन कर रहे हैं 16 दिसम्बर से तो मैं चाहूंगा कि उस के बारे में उप-रेल मंत्री जो यहां मौजूद हैं, वह एक ब्यान दें, उन से बातें करें । उन का टैन प्वाइंट डिमांड है और मेरे पास कलकत्ते से चिट्ठी आई है कि ए. आई. सी. सी. के नुमाइंदे उन को वहां जा जा कर टेराइज कर रहे हैं और उन के आन्दोलन करने में दिक्कत पैदा कर रहे हैं । तो इस के बारे में वह एक ब्यान दें कि उन की मांग क्या है ? सरकार की नीति क्या है और उस का हल वह कैसे निकालना चाहते हैं ?

SOME HON. MEMBERS rose.....
(Interruptions).

MR. SPEAKER: All of you please sit down; you are speaking without my permission.

SHRI SAMAR GUHA (Contai): That word** should not be there.

MR. SPEAKER: It will not be there.

SHRI S. M. BANERJEE: I withdraw that word** let only the other remain.

SHRI JYOTIRMOY BOSU: I wrote to you about the Metro Goldwyn Meyer employees. There has been a conspiracy between one set of Indians and another set of Americans....

MR. SPEAKER: By writing you do not get my permission.

SHRI JYOTIRMOY BOSU:@

MR. SPEAKER: I have not allowed you; it will not go on record. There is

**Expunged as ordered by the Chair.

@Not recorded.

no provision in the Rule that I should allow anything to come in this House at any time. You should come through proper channel.

SHRI JYOTIRMOY BOSU: May I make one submission taking only half a minute? I wrote to you.

MR. SPEAKER: No, I have not called you.

STATEMENT RE: EXPULSION OF THE FIRST SECRETARY IN THE HIGH COMMISSION OF INDIA IN KAMPALA

THE DEPUTY MINISTER IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI SURENDRA PAL SINGH): The House will be disturbed to learn of a further incident that has occurred in the last two days concerning our relations with Uganda.

We have received information that our First Secretary in our High Commission in Kampala has been asked to leave the country. Shri N. N. Desai, the First Secretary, was summoned by the Minister of Defence of Uganda at 8.30 A.M. last Tuesday, the 19th of December. Our High Commissioner who had requested that he should be present at the interview was not permitted to do so. At this interview Shri Desai was shown a letter signed by him which he had addressed to the local National Transport Company in which he had made inquiries on behalf of the High Commission about the ownership of certain cars belonging to expelled Asians in order to determine whether their owners were Indian nationals. The Defence Minister of Uganda stated that in addressing a letter to the transport company on this matter, Shri Desai had acted in an improper manner and not in conformity with his diplomatic functions. Shri Desai's explanation that these were normal consular inquiries was summarily rejected. The Minister then informed him that he should leave the country within 48 hours in view of these improper activities.

For the information of Honourable Members, I might explain that a number of cars belonging to those expelled had been taken out of Uganda by the National Transport Company and had reached Mombasa from where the Uganda Government had ordered them to be brought back on the plea that they had been wrongly exported. In making inquiries on this matter, particularly where Indian

nationals were concerned, our High Commission was obviously exercising its legitimate functions of safeguarding the interests and residual assets of Indian nationals. The High Commission in fact had already addressed a similar Note to the Uganda Foreign Office.

Our High Commissioner has lodged a strong protest with the Foreign Office of Uganda and has sought an interview with the Foreign Minister. Similar protests were also made with the Acting High Commissioner of Uganda in Delhi who till yesterday stated that he had no information on this matter.

Yesterday a Note was received by our High Commission from the Uganda Foreign Office reiterating that Shri Desai should leave Uganda by 9.00 A.M. this morning. Shri Desai left Uganda yesterday.

The House is aware of the considerable restraint Government has exercised over the past months in relation to the distressing events that have taken place in Uganda. At this stage I should like to assure the House that we are pursuing this matter and will take whatever action is necessary in our best interests.

श्री अटल बिहारी वाजपेयी (गालियर) : अध्यक्ष जी, बड़े ताज्जुब की बात है, उन्होंने हमारे सैक्रेटरी को निकाल दिया और हम कोई रैसीप्रोक्ल एक्शन नहीं ले सकते, क्यों नहीं उन के सैक्रेटरी को कहें कि देश छोड़ कर चला जाये ? बहुत धैर्य हो गया है, बहुत रेस्ट्रेन्ड की बातें हो गई हैं ।

SHRI G. VISWANATHAN (Wandiwash): What action is the Government of India going to take ?

MR. SPEAKER: It is a very recent matter. I think we will ask him after some time.

**BUSINESS ADVISORY COMMITTEE
TWENTY-SECOND REPORT**

**THE MINISTER OF PARLIAMEN-
TARY AFFAIRS AND SHIPPING AND
TRANSPORT (SHRI RAJ BAHADUR):**
I beg to move:

"That this House do agree with the
Twenty-second Report of the Business
Advisory Committee presented to the
House on the 20th December, 1972."

**SHRI JYOTIRMOY BOSU (Diamond
Harbour):** About this motion, I have my
regrets, because certain Bills which were
listed in the Bulletin Part II like the
Urban Property Ceiling Bill are not
coming before the House.

MR. SPEAKER: He attends the BAC
meeting and then he comes here and speaks
against it. I do not like it. This is an
accepted convention. The question is:

"That this House do agree with the
Twenty-second Report of the Business
Advisory Committee presented to the
House on the 20th December, 1972."

The motion was adopted.

MATTER UNDER RULE 377

**LETTER FROM CHIEF SECRETARY, HARYANA
TO THE COMPTROLLER AND AUDITOR
GENERAL OF INDIA FOR CONDUCTING
INQUIRY INTO THE AFFAIRS OF HARYANA
STATE ELECTRICITY BOARD**

**SHRI SHYAMNANDAN MISHRA
(Bengusarai):** Sir, I want to make a few
submissions which are of great constitu-
tional importance and which relate to the
dignity and impartiality of the exalted
office of the Comptroller and Auditor
General. The proposition I want to make
is that the Government of Haryana has
tried to involve this exalted office in a
function which does not illegitimately
belong to its domain. The relevance of
bringing this matter before this House is
that this is as a sequel to certain charges

of corruption made against the Chief
Minister of Haryana in the first instance
by the legislators of the State and later
supported by no less than 121 Members
of Parliament. It is in that context that
the Chief Secretary to the Haryana Gov-
ernment wrote to the Comptroller and
Auditor General this letter dated the 8th
November, 1972. This is the wording of
the letter which the House must con-
sider.

MR. SPEAKER: Are you sure about
it?

SHRI SHYAMNANDAN MISHRA:
I am prepared to authenticate it.

MR. SPEAKER: Do you take the
responsibility for it?

SHRI SHYAMNANDAN MISHRA:
Yes; complete responsibility. The letter
says:

"I am directed to say that a memo-
randum was submitted to the President
of India by certain M.L.As of the
Haryana Vidhan Sabha in which allega-
tions had been levelled against the Chief
Minister of Haryana. Some of the
allegations in the Memorandum pertain
to certain purchase transactions made
by the Haryana State Electricity Board.
Sometime back the Chief Minister of
Haryana had made a statement on the
floor of Haryana Vidhan Sabha that he
would get these allegations enquired into
and thereafter an enquiry was conduct-
ed by the Director, Special Inquiry
Agency under the Vigilance Department
of the State Government. The finding
of the Director, Special Inquiry Agency,
was that in all these transactions,
prescribed procedure had been followed.
However, the Chairman of the State
Electricity Board has requested that an
inquiry into these all allegations may
also be got conducted through an out-
side and independent agency and the State
Government are in agreement with this
suggestion.

Therefore, I am directed to request
you in this behalf to get a special audit

[Shri Ram Niwas Mirdha]

conducted in respect of the Electricity Board so that the finding arrived at in the enquiry conducted by the Director, Special Inquiry Agency could be further verified...."

"The point to which I want to draw the attention of the hon. House is that this letter gives a lead in the matter and asks the Auditor-General to merely rubber stamp the findings of its vigilance department.

MR. SPEAKER: Let him be brief.

SHRI SHYAMNANDAN MISHRA : Unless we consider the whole matter, how do you expect us to come to proper conclusions ?

The powers and functions of the Auditor-General are defined by the Constitution, and those powers are extremely limited, so long as Parliament does not pass a legislation extending the powers and functions of the Auditor-General. It is only at the instance of the Governor or the President of India that the Auditor-General can conduct an inquiry of this kind. There is no mention in this letter that this has been done with the approval, or at the instance of the Governor, and so on. It cannot be done at the instance of the Chief Minister.

MR. SPEAKER: I allowed him two minutes under rule 377. He can ask the Minister to make a statement.

SHRI SHYAMNANDAN MISHRA : During the Calling Attention I did not take more than five or six minutes. That you do not appreciate. This is a matter which interests the entire House.

MR. SPEAKER: It will not interest many people.

SHRI SHYAMNANDAN MISHRA : The memorandum dated the 24th February 1972 itself makes a specific allegation about an appointment in the office of the Accountant-General. When that is the allegation, how can the office of the Auditor-General take note of it and go into this matter? The specific allegation

"The incharge of accounts being the biggest factor for providing either a great hindrance or a positive help in any attempt or scheme for a huge fraud on Board's funds, the then F.A.M. (Finance and Accounts Member) was decided to be replaced by some positively helpful officer of A.G.'s office. It was so manoeuvred that the present F.A.M. came to be appointed though he did not fulfil the eligibility conditions under the Act."

The name of that person is also mentioned here. This is another specific allegation made in the memorandum, that is, against an appointment in the office of the Accountant-General.

Therefore, my humble submission is that this matter should not be remitted to the Auditor-General. This is intended for getting a blanket clearance certificate from the Auditor-General. It is an attempt to bring down the office of the Auditor-General, to bring about the political contamination of the office of the Auditor-General. It must be decried and we must not allow this procedure to be adopted in the interest of the honour, dignity and impartiality of the office of the Auditor-General.

14 hrs.

THE MINISTER OF FINANCE (SHRI YESHWANTRAO CHAVAN): Mr. Speaker, Sir, this is a matter between the State Government and the Comptroller and Auditor-General. When the State Government decides to take the aid and assistance of the Comptroller and Auditor-General to go into specific charges, certainly, it is for the Comptroller and Auditor General to decide about it. In this particular matter, the C.A.G. has thought, as a specific request has been made to them, though normally it is a matter for the Auditor General of the State concerned to look into it....

SHRI JYOTIRMOY BOSU (Diamond Harbour): You mean the Accountant General?

SHRI YESHWANTRAO CHAVAN: Yes, the Accountant General. Thank you for the correction. Wherever you describe it, I give it.

MR. SPEAKER: Most of the time he does not.

SHRI JYOTIRMOY BOSU: That is a matter of opinion.

SHRI YESHWANTRAO CHAVAN: The C.A.G. has agreed—the Accountant General audits everything—as they have questioned certain specific auditing to be done, to do it on certain conditions. (Interruptions) The C.A.G. certainly is competent to interpret the Act and he has correctly interpreted it. He has agreed that on certain definite conditions. One of the conditions is that the man of the status of Accountant General, as a special officer, will go and look into the matter, only about the specific charges regarding the Electricity Board, not other things. The specific charges about the Electricity Board will certainly be gone into. That will be done by a very independent person of the status of the Accountant General. (Interruptions). What is wrong about it? You want a certain independent authority.

SHRI SHYAMNANDAN MISHRA: That cannot be a substitute for an inquiry committee.

SHRI YESHWANTRAO CHAVAN: That is a matter of opinion. As to what the C.A.G. has done there is nothing wrong about it.

SHRI SHYAMNANDAN MISHRA: What about the constitutional powers or the legal powers of the Comptroller and Auditor General? Would you like him to be brought into the arena of controversy? We will doubt the integrity and findings of such a body in a matter like this. This is a political thing... (Interruptions).

SHRI JYOTIRMOY BOSU: Corrupt persons are being shielded.

SHRI SHYAMNANDAN MISHRA: This is to shield the corrupt Chief Minister of Haryana. The C.A.G. who is an officer for the entire country must not be asked to give clearance... (Interruptions).

MR. SPEAKER: Order, please. We go to the next item now.

MULKI RULES BILL

THE MINNSTER OF STATE IN THE MINISTRY OF HOME AFFAIRS AND IN THE DEPARTMENT OF PERSONNEL (SHRI RAM NIWAS MIRDHA): Mr. Speaker, Sir, I beg to move:

"That the Bill to provide for certain amendments to the Mulki Rules so as to limit their operation, for the validation of certain appointments and for the repeal, in a phased manner, of the said rules and for matters connected therewith, be taken into consideration."

14.04 hrs.

[MR. DEPUTY-SPEAKER in the Chair.]

The Honourable Members are aware of the circumstances leading to the introduction of this Bill. The House has had occasion to discuss the Mulki Rules issue earlier on a call attention motion, and on November 27 the Prime Minister made a statement before the House on the decisions to meet the situation arising out of the Supreme Court Judgment given in October last. I therefore propose to mention briefly only the general scheme of the Bill at this stage.

The Bill is a very short one, consisting of 7 clauses and 2 schedules. The provisions of the Bill fall broadly into three parts. The first part, or the preliminary part, consists of the short title and the definitions clause. The second part relates to the past, and it consists of clauses 3 and 4. The third part relates to future, and it consists of clauses 5, 6 and 7 and the schedules. The provisions relating to the second part, namely, clauses 3 and 4, seek to amend the Mulki Rules for the duration of the period commencing from the formation of the State of Andhra Pradesh and ending with the commencement of the proposed legislation, and

[Shri Ram Nivas Mirdha]
 validate the appointments made during this period in contravention of the Mulki Rules. As the House is aware, there has been considerable doubt and uncertainty during the period to which these clauses relate with regard to the application or otherwise of the Mulki Rules. Right from the coming into force of the Public Employment (Requirement as to Residence) Act, 1957 till the Supreme Court struck down section 3 of that Act by its judgment dated 28-3-1969 in A. V. S. Narasinga Rao's case, it was assumed that section 2 of the Act had operated to repeal the Mulki Rules, and that the only law as to application of requirement as to residence was that provided for by the rules made under the Act. From the decision of the Supreme Court in A. V. S. Narasinga Rao's case till the recent judgment of the Supreme Court also it was assumed that the Mulki Rules were not in force. I need not refer to the various decisions of the Andhra Pradesh High Court on the question as to whether the Mulki Rules were repealed or not. I am referring to these facts only for emphasising the need for having suitable provisions for validation of appointments which were made in the past on the basis that the Mulki Rules were not in force.

Permit me to explain clauses 3 and 4 in a little greater detail. Clause 3, by a temporary amendment, seeks to confine the operation of the Mulki Rules during the period from the formation of the State of Andhra Pradesh till the commencement of the proposed legislation only to these posts in respect of which a requirement as to residence in Telangana was prescribed under the Public Employment (Requirement as to Residence) Act, 1957. It validates appointments to all other posts. Clause 4 makes an amendment to the Mulki Rules for the duration of the period from the formation of the State of Andhra Pradesh till the commencement of the proposed legislation so as to make them directory in their application to the posts to which the residential requirement was applicable under the Public Employment (Requirement as to Residence) Act, 1957. As already explained, there were different judicial decisions holding the field at different times, and there were some cases

in which the residential requirement was not complied with even though the posts were those notified in the 1957 Act. The idea in making the Mulki Rules directory in regard to the various posts for this period is to ensure that while the validity of appointments made in accordance with the residential requirement is not in any way affected, the validity of appointments made without compliance with residential requirement is ensured.

I now pass on to explain the scheme of clauses 5, 6 and 7 of the Bill, that is, the clauses relating to the future. Clause 5 of the Bill seeks to repeal the Mulki Rules in so far as they relate to appointments other than the appointments to posts in respect of which, according to Government's decisions, the residential requirement is to be continued. Sir, these posts will be found enumerated in Schedule I and Schedule II. As a result of clause 5, Mulki Rules will continue in operation only so far as the posts mentioned in the Schedules are concerned. I would like to make it clear at this stage that we are not, by this legislation, prescribing any residential requirement in respect of the posts mentioned in the Schedules. The residential requirement applies in respect of those posts because we have not repealed the Mulki Rules in relation to those posts.

Clause 6 of the Bill seeks to repeal the Mulki Rules in so far as they relate to posts specified in the Schedules and which are located within the capital area, that is to say, the cities of Hyderabad and Secunderabad. The repeal will take effect from the expiration of the 31st day of December, 1977.

Clause 7 of the Bill seeks to repeal the Mulki Rules in their application to the posts specified in the Schedules and which are located in other areas of Telangana. The repeal will take effect from the expiration of the 31st December, 1980.

Sir, an analysis of clauses 5, 6 and 7 would reveal that those clauses adopt the device of a partial repeal of the Mulki

Rules so that what remains after such repeal would be relevant only in respect of the posts for which the residential requirement is intended to be continued.

At the end I may briefly mention that authority for the Bill is derived from Article 35(b) of the Constitution which has continued, after commencement of the Constitution, the residential requirement for Government Employment provided under the Mulki Rules framed by the Nizam, until altered or repealed or amended by Parliament. The Bill does not contravene the provisions of Article 16 of the Constitution as no new requirements as to residence for public Employment is being created.

The Bill only seeks to restrict the operation of such requirement under the Mulki Rules which have continued in force under Art 35(b) and to repeal the rules in a phased manner under powers given to the Parliament under that rule.

I request the House to consider and to adopt the Motion which I have moved.

MR. DEPUTY-SPEAKER: Motion moved:

"That the Bill to provide for certain amendments to the Mulki Rules so as to limit their operation, for the validation of certain appointments and for the repeal, in a phased manner, of the said rules and for matters connected therewith, be taken into consideration."

SHRI J. RAMESHWAR RAO (Mahabubnagar): With your permission, Sir, I rise on a point of order.

MR. DEPUTY-SPEAKER: On what point?

SHRI J. RAMESHWAR RAO: On this Bill which is just now the matter for consideration.

Sir, the Bill which was circulated, has an annexure which contains extracts from the Hyderabad Civil Service Regulations taken from the latest official edition published in 1950 incorporating corrections 3020 LS—8.

and additions upto the end of Azur, 1359 F., viz., October, 1949 in English calendar. I am afraid this annexure is not relevant to the present Bill because the Mulki rules were adapted after 1st November, 1956 by the Andhra Pradesh Government as valid laws and applicable to Telengana region under the provisions of Andhra Pradesh Adaptation of Laws Order, 1957. These rules were continued in their operation by virtue of the provisions of Sections 119 and 120 of the States Reorganisation Act, 1956, read with Art. 372 of the Constitution. What should be included as annexure to this Bill are these adapted Mulki rules and not the present annexure. I wonder how this Bill could be fully considered without the change of annexure.

There is one more point, Mr. Deputy Speaker. The Mulki rules circulated to us does not appear to be complete. I would like to refer to Clause 2(d) (ii) which reads:

"Any post of Police Officer as defined in clause (b) of Section 3 of the Hyderabad City Police Act, 1348: F" Now, Sir, as this is a material part of the Bill, there should have been an annexure giving the Hyderabad City Police Act, 1348 F. This is a State Act. We have not got it....

MR. DEPUTY-SPEAKER: I understand that this one has been put in the Library. This particular Act that you refer to, that is, the Hyderabad City Police Act, has been placed in the Library, for the reference of Hon. Members.

SHRI J. RAMESHWAR RAO: This is a pre-independence Act. It could have been added to the Annexure. This is my submission.

On both these points, the Bill as introduced is incomplete and I request your ruling on this point whether an incomplete Bill can be taken up for consideration.

Thank you.

MR. DEPUTY-SPEAKER: Mr. Mirdha, have you anything to say on this?

SHRI RAM NIWAS MIRDHA: Sir, as you yourself explained, we have put the extracts from the Hyderabad City Police Act (which defines a Police Officer) in the Library and that should meet with the needs of the situation. Actually the annexure is not specifically a part of the Bill as such. It is just there as an information for the guidance and facility of the hon. Members, so that it may serve as a ready reference. We have placed this Act which he has referred to in the Library so that those hon. Members who want may have a look at it and see as to what we want to do.

Also it has been mentioned that the Eighth Edition should have been mentioned and not the Seventh Edition. My reply is very brief. The Eighth Edition does not contain the original concept of the Mulki Rules which is the basis of this Bill. The Eighth edition relates to certain other purposes. Now, our main purpose here in having the extract is to see as to what the concept of the Mulki rule is, which is being sought to be amended under the proposed Bill. It is therefore not the Eighth Edition, but the Seventh Edition which is the proper reference material to fall back upon and this is exactly what we have done.

MR. DEPUTY-SPEAKER: I agree that annexures are not really part of the Bill; they are there only for the reference of the Members. With regard to the particular Act that the hon. Member had referred to, it has been placed in the Library for his reference. If the hon. Minister says that the proposed amendments are in relation to the extracts that are relevant, which have been given at the end of the Bill, I do not see any irregularity in that.

SHRI R. V. BADE (Khargone): Here, annexure is part of the Bill.

SHRI J. RAMESHWAR RAO: With your permission, may I say that under the Andhra Pradesh Adaptation of Laws Order the earlier laws have been adapted, and they are no more valid?

MR. DEPUTY-SPEAKER: The hon. Member can make use of this point in his speech. I see that his name is there on the list. When he speaks, he can refer to this.

PROF. MADHU DANDAVATE (Rajapur): May I seek your guidance regarding the procedure? Already, the motion for consideration of the Bill has been moved here. Some of us have given amendments to this consideration motion, to the effect that the Bill may be circulated for eliciting public opinion.

MR. DEPUTY-SPEAKER: I shall ascertain from him whether he will be moving his amendment.

PROF. MADHU DANDAVATE: I would like to know from you at what stage we can make observations on that. Would you give priority to those who have tabled such amendments, because that is a very basic point?

MR. DEPUTY-SPEAKER: This is a very well known and accepted procedure that soon after the motion for consideration is moved, amendments to that motion are moved. I shall ascertain from the hon. Member whether he is moving those amendments, and then in the course of his speech, he can speak on both the amendments and the motion for consideration. That is the accepted procedure.

PROF. MADHU DANDAVATE: I had raised some other point. It appears to me that the procedure being followed absolutely varies from the general procedure. That was why I was asking for a general clarification. For instance, while moving this particular amendment that the Bill may be circulated for eliciting opinion thereon, if we feel that we can make some observations at the initial stage, if we are allowed to do so, that may help in the discussion. Can that not be done?

MR. DEPUTY-SPEAKER: That is not the practice.

SHRI K. NARAYANA RAO (Bobilli): I have tabled a motion for reference to the Supreme Court....

MR. DEPUTY-SPEAKER: I shall ascertain from him whether he is moving it. We have not come to that stage yet. I am dealing with points of order now.

SHRI SHYAMNANDAN MISHRA (Begusarai): May I make a submission?.....

MR. DEPUTY-SPEAKER: I have already given my ruling on the point of order.

SHRI SHYAMNANDAN MISHRA: I am not referring to that. With your permission, I want to make a submission which will perhaps lessen the burden or pressure on the time fixed for this debate.

Our party has decided to boycott the debate on this subject. We had earlier been opposed to its introduction. We stick to the basic position....

MR. DEPUTY-SPEAKER: The hon. Member needs not make a speech then.

SHRI SHYAMNANDAN MISHRA: Instead of solving the problem....

MR. DEPUTY-SPEAKER: Now, he is making a speech.

SHRI SHYAMNANDAN MISHRA: Instead of solving the problem, it would lead to further accentuation of the trouble. No element in Andhra Pradesh seems to be in support of this measure.

MR. DEPUTY-SPEAKER: The hon. Member is entitled to his opinion.

SHRI SHYAMNANDAN MISHRA: We have also another complaint, against the Chair. Although doubts have been expressed about the legality and constitutionality of the measure, the Chair did not think it fit to give us the benefit of the advice of the Attorney-General.... We, therefore, find ourselves in great difficulty, so far as the legality and constitutionality of this particular measure is concerned....

MR. DEPUTY-SPEAKER: That question had been disposed of already.

SHRI SHYAMNANDAN MISHRA: Government have not been well advised in bringing forward this motion without doing political and human engineering. So, our party has decided to boycott the debate on this Bill.

Shri Shyamnandan Mishra and some other Members then left the House.

SHRI PILOO MODY (Godhra): I would also like to disassociate myself and my party from this Bill. As I had said when the Bill was introduced, this Government with its eyes open is going in for a public blood bath in Andhra Pradesh and Telengana. I cannot see how this Bill is being welcomed by anybody except for Shrimati Lakshmikanthamma. Therefore, I shall not associate myself in any way with this Bill. I feel that the Bill should never have been introduced. I thought that we had succeeded in stopping the Government from introducing it; I thought that we had persuaded them to see the wisdom of not introducing this Bill, but since the Government chooses to ignore all such protests, I and my party cannot associate with this debate.

Shri Piloo Mody and some other Members then left the House.

MR. DEPUTY-SPEAKER: I am sorry in all this confusion I forgot to ascertain from the members who have given notices of amendments to this motion. Shri K. Narayana Rao.

SHRI K. NARAYANA RAO: I move:

"That the President of India may be requested to refer the Mulki Rules Bill, 1972, for the advisory opinion of the Supreme Court under article 143 of the Constitution of India". (1)

SHRI M. SATYANARAYAN RAO (Karimnagar): I move:

"That the President be requested to refer the Mulki Rules Bill 1972, to the Supreme Court, under article 143 of the Constitution for its opinion". (3f)

SHRI JAGANNATHRAO JOSHI
(Shajapur): *My amendment is in list No. 1.*

MR. DEPUTY-SPEAKER: I am going according to the list given here. This must have been rearranged.

SHRI JAGANNATHRAO JOSHI: I move:

"That the Bill be circulated for the purpose of eliciting opinion thereon by the 15th February, 1973". (2)

PROF. MADHU DANDAVATE: I move:

"That the Bill be circulated for the purpose of eliciting opinion thereon by the 4th April, 1973". (3)

SHRI JAGANNATHRAO JOSHI: I move:

"That the Bill to provide for certain amendments to the Mulki Rules so as to limit their operation, for the validation of certain appointments and for the repeal, in a phased manner, of the said rules and for matters connected therewith, be referred to a Joint Committee of the Houses consisting of 30 members, 20 from this House, namely: Shri R. V. Bade, Shri Bhagirath Bhanwar, Shri Jyotirmoy Bosu, Shri Madhu Dandavate, Shri R. N. Goenka, Shri Jagannathrao Joshi, Shri Hukam Chand Kachwai, Shri Mallikarjun, Shri P. G. Mavalankar, Shri Piloo Mody, Dr. Laxminarayan Pandeya, Shri K. C. Pant, Shri Dhan Shah Pradhan, Shri M. S. Purty, Shri Ramkanwar, Shri M. Satyanarayana Rao, Shri Shiv Kumar Shastri, Shri Rana Bahadur Singh, Shri G. P. Yadav, Shri Atal Bihari Vajpayee, and 10 from Rajya Sabha;

that in order to constitute a sitting of the Joint Committee the quorum shall be one third of the total number of members of the Joint Committee;

that the Committee shall make a report to this House by the first day of the next session;

that in other respects the Rules of Procedure of this House relating to Parliamentary Committees shall apply with such variations and modifications as the Speaker may make; and

that this House do recommend to Rajya Sabha that Rajya Sabha do join the said Joint Committee and communicate to this House the names of 10 members to be appointed by Rajya Sabha to the Joint Committee". (4)

MR. DEPUTY-SPEAKER: Everybody is so much confused. Members are confused. The Chair is also confused.

PROF. MADHU DANDAVATE: Distribution of confusion.

MR. DEPUTY-SPEAKER: We are all human beings with all our failings.

SHRI A. K. GOPALAN (Palghat): What about my amendment?

MR. DEPUTY-SPEAKER: Your amendment is to clause 2. This is the motion for consideration. We are all confused.

SHRI G. VISWANATHAN (Wandiwah): At least there is socialism in confusion.

***SHRI B. N. REDDY** (Niryalguda): Mr. Deputy-Speaker, Sir, I am speaking on behalf of the Communist Party of India of which the great Shri P. Sundaraya. Our party lead by Sundaraya struggled hard for the establishment of Andhra Pradesh. In the first place I want to make it clear that it is disgraceful and shameful on the part of the Government to bring forward this Bill before this august House. The Government are reviving their feudalistic tendencies which existed before 50 years. This does not contribute to the unity of India. The Government ignored the opinions of learned jurists and other section of society and brought forward this Bill. The so called socialist Government have ignored everything arbitrarily and compulsorily brought forward this Bill. They have utilised their brute majority for this purpose and actually imposed this Bill on the august House. This is really shameful act on the part of the Government.

*The original speech was delivered in Telugu.

I would like to ask the circumstances in which this Bill has been brought before this House. The Congress Party instead of maintaining the unity and integrity of Andhra Pradesh have thought it fit to disintegrate it. This is regrettable. Let us examine the 5-point formula of the Prime Minister. We all know about the 8-point formula. This 5-point formula has been brought about to satisfy the people of Andhra Pradesh but only to encourage their ruling warring groups of Andhra Pradesh. This 5-point formula has assumed a new form. This formula does not help in solving the problem of unemployment or the backwardness of Andhra Pradesh. (*Interruption*) Let us examine the circumstances under which this Bill has come about. Andhra Pradesh has been called the granary of the South. But today it is effected by drought conditions and threatened famine. It is a very backward State. It occupies the 5th place in the matter of population but in the matter of industry this occupies the 10th place. Among the students lakhs of students are unemployed and there are so many about the streets. For all these things the ruling party is responsible. They run counter to the aspirations of the people of Andhra Pradesh and endanger its unity. This is how this 5-point formula has come about. But we should examine whether this Bill helps in maintaining the integrity and unity of Andhra Pradesh. No, it does not help in it. In one word I can say that this 5-point formula has only enflamed the passions of Andhra Pradesh. Even the State Government were so divided into two warring groups and they are settling it on the streets.

Sir, it is really establishing to find that the Congress Party is saying that 5-point formula of the Prime Minister is a panacea for the ills of Andhra Pradesh. This is a blessing.

It is misleading on the part of the Government to say that this Bill which encouraged regionalism to the worse possible limits is a Bill which will do good to the people of Andhra Pradesh. The Government have only taken an opportunist view of the problem and have utilised to serve its own ends. It is the duty

of the Government to explain us to how this Bill encourage the unity of Andhra Pradesh. It seems to me that this Bill which encourages Mulki and non Mulki in one State is perhaps the socialist view of the Congress party. According to this Bill they have put up another regional Committee in rivalry to already existing regional committee. I could not understand how these two regional committees can help in maintaining the unity of Andhra Pradesh.

The ruling party cries from roof tops that they always want to maintain the unity and integrity of Andhra Pradesh. But judging by the recent disturbances in Andhra Pradesh it is very clear that this Bill did not help in maintaining the unity of Andhra Pradesh. It only helps in disintegrating it.

I want to mention the most shameful and disgraceful act of the Congress Government. What is the source of this Bill. The ruling party always says that it is wedded to socialism but this bill only revives the old feudal tenets of Nizam of Hyderabad. The Congress party have used the Mulki rules which existed 50 years back to suit their own purpose and let us see as to why the Nizam of Hyderabad introduced this Mulki rules. The Nizam introduced these Mulki rules only to accentuate differences between Andhra, Maharashtra, Karnataka. He wanted to stop the migration of the people of Andhra Pradesh to other States. This Congress party have revived these rules only for their own purpose. *Prima facie* this Bill is a out moded Bill. This is a shameful and disgraceful Bill.

Sir, I want to mention the political implications of this Bill. This Bill only encourages the warring groups of the ruling party in Andhra Pradesh. Mrs. Indira Gandhi has brought forward this Bill only to maintain the prestige of the Congress party. This Bill does not help in the unity of Andhra Pradesh but only helps the ruling groups of Andhra Pradesh.

They are setting up one regional committee after another regional committee to suit their own ends. It is really hard to think as to how unity can be brought about as a result of this Bill. Again we

find in this Bill an exception has been in the case of Hyderabad. This does not help in improving the welfare of the people. This Bill only helps in maintaining the power of the ruling party. (*Interruptions*) We have got our own views on this problem but you have got no courage to accept the suggestions offered by us. It is well known that Andhra Pradesh and Telengana are backward States. Some time back I wrote a letter to Mrs. Indira Gandhi asking her whether she is prepared to give all possible assistance to the backward areas of Andhra Pradesh and Telengana. She has replied stating that I need not worry when the Central Government will take all possible steps to remove the backward region of Andhra and Telengana. The Central Government are not prepared to promote the welfare of the 4½ crores of people of Andhra Pradesh and improve the backward regions of the State.

MR. DEPUTY-SPEAKER: Mr. Reddy you please speak on the Bill all generalities.

AN HON. MEMBER: He is speaking on the Bill Sir.

SHRI B. N. REDDY: The Central Government should give liberal assistance and funds for the development of backward regions of Andhra Pradesh. Take concrete steps to remove unemployment, start more industries in Andhra Pradesh. They should take long term steps to remove these problems.

I want to state categorically that the Government of India should faithfully and sincerely implement the 2 : 1 formula in the whole of Andhra Pradesh. If you are really interested in maintaining the unity of Andhra Pradesh you should definitely implement 2 : 1 formula. But today that formula does not suit the purpose. These Mulki rules only suit your purpose. This is a shame on the part of the Government wedded to the policy of socialism.

In conclusion it is my duty to bring to your notice the political game played by the ruling parties in Andhra Pradesh. The Government has been divided into

two warring groups and they have encouraged regionalism and separatism. They are responsible for these disturbances. They want to destroy the unity of Andhra Pradesh.

Sir, Shri P. V. Narasimha Rao, Shri B. V. Subba Reddy is leader of another group. Both of them are faithful allies of the Prime Minister and both of them are still Ministers. They want to create separate States for themselves to suit their own purpose. (*Interruptions*) People who supported separatism some time back have turned integratist and people who supported integration some time back have turned separatists. These tactics are puerly for the sake of power only. For the sake of power these groups are spreading discontent among the people of Andhra and enflame their passions. This political gamble is against all canons of propriety and politics. But Mr. Indira Gandhi has supported this because she belongs to the Congress party which is a ruling party. If I want to say in one word the people of Andhra Pradesh have been held to ransom by these ruling groups in Andhra Pradesh only the people are suffering as a result of this and nobody else. (*Interruption*). I want to state that even ruling party cannot turn back wheels of history. They will get the punishment which is due to them. We all know how the Nizam of Hyderabad has been taught a severe lesson by the people. That State has been broken up. (*Interruption*) I warn that this Congress Government will also be punished in the same way as the Nizam of Hyderabad was punished by the people. I want to emphasise the punishment which will be given to Congress party will be much more severe than that. I want that these white cap Congress men should note this. As a Communist party member who has shed blood for the removal of the Nizam and for the establishment of Vishal Andhra I am issuing this warning. I want to emphasise that this 2 : 1 formula should be faithfully implemented. The Central Government should give all possible assistance to the backward and undeveloped areas and take steps to remove unemployment. Mrs. Indira Gandhi has given two months time to these warring groups to fight among themselves. I want to state

that the 4 1/2 crores of people of Andhra Pradesh will not forgive this Government for their misdeeds and they will throw them in the Indian Ocean. This 5—point formula is like the formula of the monkey settling the disputes of two cats. This is all for the sake of power.

SHRI K. RAGHU RAMAIAH (Guntur): Mr. Deputy-Speaker, Sir, I rise to support this Bill, and I do so with a great sense of responsibility. I will explain one reason why I am supporting this Bill, and that will do away with the arguments of my friend, Shri Reddy, of the CMP straightway. While criticising the contents of the Bill, he has formulated an alternative proposition for the solution of the Mulki problem and that is the perpetuation of the division of the jobs between Andhra and Telengana on a 2:1 basis for all time to come. I ask Shri Reddy: is it a modern conception of Mulki-isation? While the Bill seeks to stop the application of the Mulki rules to Hyderabad city by the year 1977 and to the rest of Telengana by the year 1980, what my learned friend, Shri Reddy, is suggesting is a perpetual reservation of one-third of the seats for all times to come. If this is what you call integration of a State, by socialism, democracy and modernisation, I do not know what you mean by these words. I am only making the point that whether the proposal mentioned in the Bill is satisfactory or not, it is certainly much more satisfactory than the alternative which the CMP has suggested, which means in effect the perpetuation of the Mulki rules for all times to come. I know that some of my friends from Telengana want the perpetual application of the Mulki rules.

SHRI S. B. GIRI (Warangal): We do not want perpetual Mulki rule at all. We do not want a dispute within the State. We want a separate Telengana..... *(Interruptions)*.

SHRI K. RAGHU RAMAIAH: I am not saying that he is in the same box with Shri Reddy.... *(interruptions)*. I am not yielding. Let me finish my speech. The point that I am trying to make out

is this. With the so-called radicalism, Shri Reddy is in the same box, as some friends from Telengana who want a perpetual application of the Mulki Rules, including inferior, superior and all types of jobs.

Why I am supporting this Bill is that I have a moral responsibility to support it. There is a historical reason for it. The question is not whether some of my Andhra friends are satisfied with it. That is not the question. The question is that the Prime Minister left it to us, and to the leaders of Andhra and Telengana, to come to an agreement as to how to solve this problem. We sat for days and days together. I am one of those who urged that the Mulki Rules should stop so far as the capital city is concerned, because we consider it a great anomaly, by the year 1974 by which time the Public Employment Act, had it been in operation, would have ended. We wanted the Mulki Rules application to Hyderabad capital city to be ended by 1974 and to the rest of area a little later, perhaps, according to whatever justiceability of the case may be. But we failed to arrive at an agreement. It is the utmost tragedy that we failed to arrive at an agreement.

Then, all of us went to the Prime Minister and requested her to make an adjudication on the issue. When she has given a decision, whether I may like it or not, whether it is in consonance with what I feel is correct or not, I for one feel morally bound to follow the decision that she has given.

I will say one thing more here. The people who are now asking.... *(interruptions)*. I am the man on whose question Pandit Nehru announced the formation of Andhra State. I have fought many battles—many battles.... *(Interruptions)*. I have faced many battles on my head; I am a fighter and I have fought many battles. I feel this is a case where I must tell the public my point of view boldly and state what it is,

Who has started the ball rolling? The Mulki Rules is a bad thing. But who

[Shri K. Raghu Ramaiah]

started them? I find one of the signatories to the gentleman's agreement is Mr. Latchanna, the leader of the "Separate Andhra" movement. Where was the need? If you say that Mulki Rules is a sin, if you say that reservation of jobs is a sin, what the separatists are saying now, and I agree, I may say it is the same Mr. Latchanna, the leader of the movement who subscribed to the 1956 gentleman's agreement which contains all these things. (Interruptions). I ask: Have you had the courage all these years to condemn all this? Now you want to fish in troubled waters. Have you had the guts all these years to come forward to say what happened in Andhra so far is wrong? You have taken full advantage of it. Now, because we are in difficulty, you want to fish in it.

As I said, I am not one of those who think that this kind of reservation is good. I am of the opinion that it was bad, but it was bad *ab initio*. Now the Bill seeks this reservation by a certain date. Hence my support for the Bill.

At the same time, while supporting the Bill, I say that I am doing it with a heavy heart. I come from an area where only recently 30 innocent lives were lost. There was indiscriminate firing. I would like to pay my tribute to the memory of those innocent lives which were lost only recently. I come from an area where the agitation at the moment is at the highest pitch. The people are very much agitated about it. But I would like to say why. I would explain to you why the people are feeling that something more should be done in order to make this Bill acceptable to the people. I too humbly submit that something more has to be done. It is my duty to place that before this august House. And, what is that something to be done? But before I do so, I would like to make it clear that this kind of agitation in the Andhra State is not caused by landlords as some hon. Members are saying. This kind of a light treatment of the problem is the surest way of accentuating the sorrowful

state of affairs there. If somebody wants to create trouble, that is the best way.

Sir, the movement has spread not only to the villagers but to all the intelligentsia of the Andhra country, the lawyers, the doctors, the engineers, the students and the officers—Gazetted and non-Gazetted. Why has it spread? Let us think it over? Why has it spread? This is where I would like my Telengana friends to ponder over. I would like to have their co-operation in this respect because it is you and I.... (Interruptions.) It is tragic that some of our Telengana friends who were once for integration are now for bifurcation, of course some others who were previously for bifurcation are now integrationists. But, Sir, I have always been for integration. I fought for Andhra, I fought for Visala Andhra and I if I can now save this Visala Andhra, I would like to do so.

Now, the point is: What is the cause for so much agitation in Andhra? And this will give a clue to what more should be done. They feel that they are second-class citizens in their own capital city. I must place it before you. If you ask any Andhra gentleman who is staying in Hyderabad, he will tell you, 'My son can get a job in the Bombay Corporation but not here. My son can get a job anywhere else but not in Hyderabad. My son can get admission into any college in the Madras University but he cannot get admission in the Osmania University at Hyderabad..'

SHRI MURASOLI MARAN (Madras South): We are happy about it.

SHRI K. RAGHU RAMAIAH: ...My son cannot get a job in my own capital city. These are some of the burning issues. It is no use to hide the facts. How long are you going to put up with it? On the top of it, in many of the districts of Telengana, I am sorry to say, feelings are running so high—I do not know if I should do—but I must tell the facts with the hope that my Telengana friends will do everything possible to bring down the temperature there. Sir, in the Telengana districts, there is a virtual social boycott.

of the Andhra people. No peons to help the officers, the clerks do not put up the files. Students go and say, 'Get out of this place. This is not for you.' My Telengana friends, if they want this integrated State to continue....

SHRI S. B. GIRI: We do not want.

SHRI K. RAGHU RAMAIAH: If you do not want, you go away. This is our State and we are going to keep it whether you like it or not and I say.... (Interruptions). Not only that....

SHRI S. B. GIRI: We did not know your attitude at that time.... (Interruptions).

SHRI K. RAGHU RAMAIAH: Better you can walk out. Sir, I have given him an escape.

Sir, besides this now there are certain vestiges of a State within a State. Of course, there may be certain historical reasons. But I am not going into that again. There is a separate Regional Council. There is a separate Budget. Technically you may not call it a separate budget. Actually, there is a separate calculation—for instance milk is produced and manufactured in Vijayawada but because it is sold in Hyderabad the sales tax, paid in Hyderabad goes to the credit of Telengana. There is thus separate accounting—two sheets actually. There are two sheets of paper. Where the electricity is generated the costs of manufacture must go to that account and where it is consumed, it must come into this account. There are so many items like that. This is not a very healthy state of affairs. It is a State within a State to have a separate budget, to have a separate regional council, etc. The Chief Minister is now from Telengana. People say, and justifiably say, in such a situation what is the need for a State within a State. I appeal to the Prime Minister to help us to remove also such last vestiges of a State within a State at her own time, but as quickly as possible, to see that there is only a single Budget for the whole of

Andhra as in the case of Bihar, U.P., Mysore and so many other States. What is the crime which we have committed that for all time to come there must be a State within a State?

About the regional council, whatever may be the origins of the regional council, they have made a great mistake, a tremendous mistake. The other day in the regional council meeting in Hyderabad many of the MLAs met there. They had that forum. The Andhra MLAs had no forum. Of course, you may say, it is a minor matter. It is not minor matter. It is a psychological matter. There is no forum, Sir, for the Andhra Members to meet and express their opinion, to state their point of view on the Bill, to make representations separately while the Telengana Members, could meet in their own forum. Andhra Members could not have even that forum.

I would request the Prime Minister to realise one aspect. I appeal to her in all humility and say that the movement in Andhradesa is not confined to one district; the movement in Andhradesa is not confined to the landlords; the movement in Andhradesa is not confined to one area or district, but it is spread over all the districts of Andhra and they have got their own legitimate grievances. It is not as though they are against an integrated State. If anybody says they are not for integrated State, I am not prepared to accept that. The Ministers who resigned talk of integrated State. In the latest statement they say, if certain conditions are satisfied, if certain clarifications are given, they will stand by the integrated State. We have seen some of the letters by some of my colleagues here. They say, they are for an unconditional integrated State. Certain sections of people treating others as second class citizens. Sir, it is this atmosphere that must be changed. This Bill is a step in the right direction.

You may agree with the date or you may suggest another date. Somebody else may suggest an immediate ending. But in the circumstances in which this Bill has come about, I certainly believe, this is a

[Shri K. Raghu Ramaiah]

step in the right direction. But the other obstacles to integration must go too.

We shall leave it to the Prime Minister to find a way out as to how to remove the other various obstacles also standing in the way of integration. It is true we have waited all these years, for 16 long years, and these are not new things which are there today. These have been there for 16 years. But now we feel that it is high time they go. Now, that the decision has been taken to end some of them, we shall look forward to ending the other too soon. In 1977 the Mulki Rules will end in Hyderabad. In 1980 they will end everywhere. It is our earnest hope that the Central Government will end all the other vestiges that is, separate budget and separate regional council also within that period.

15 hrs.

The point is this that in the separate budget or separate account or whatever you call it, there are certain anomalies, and every Andhra is asking 'How long are we going to tolerate this?'. I shall place before the House these anomalies, and you will see for yourself how far I am right.

The revenues of the Hyderabad city amounting to Rs. 36 crores are *in toto* credited to the Telengana budget or account. It is the revenue of the capital city. How does it arise? It arises out of sales tax, out of excise duty, out of various other incomes that arise in the city, because it is the capital city. Industrialisation is there on behalf of the whole State, and heavy industries are there. There, you will find also mobile population, people coming from the Andhra area and from the Telengana area. They contribute also to sales tax and excise duty. Also the Andhra people in the Hyderabad city, pay their own municipal taxes. There are, I believe, some lakhs of them. Even those are made part of the Hyderabad city revenues, and the entire revenue of the Hyderabad city amounting to Rs. 36 crores is credited to the Telengana fund.

But what happens to the expenditure? That is where I would like you to see the anomaly. If Rs. 36 crores is the expenditure on Hyderabad city, the Andhras bear Rs. 24 crores of the expenditure...

SHRI S. B. GIRI: It is wrong... (Interruptions).

SHRI K. RAGHU RAMAIAH: These are my figures. I am not yielding. I am not going to yield now. The hon. Member may contradict these figures later when he speaks.

2:1 is the ratio of the expenditure in the capital city; out of Rs. 36 crores of expenditure, we pay Rs. 24 crores; the Andhras are paying Rs. 24 crores....

SHRI S. B. GIRI: He is misleading and misguiding the House... (Interruptions).

SHRI K. RAGHU RAMAIAH: Every pie of this total revenue of Rs. 36 crores is being credited to the Telengana fund. My friends say that out of this, they maintain schools, they maintain colleges, and they say, well, the Andhra boys cannot apply here, because their expenditure has come out of the Telengana budget. And what is that Telengana budget or corpus of the Telengana fund except this, apart from other things, which comes from the Rs. 36 crores which is raised in the Hyderabad city?

So, having collected this money, having established or maintained institutions out of it, they say, 'This is not your money, this is not your budget; send your boy to Bombay or Calcutta or Mauritius, but certainly not to the capital city of Hyderabad'. So, you can understand the agony of the Andhra people living there in the capital city itself. Of course, I am not blaming anybody in particular, because we are all responsible for this. It is easy to blame others. For the last seventeen years or so odd years, each one of us has contributed to this deplorable condition. Chief Minister after Chief Minister has made concession after concession....

SHRI S. B. GIRI: By looting the Telengana people....(*Interruptions*).

SHRI K. RAGHU RAMAIAH: You have taken full advantage of this for sixteen years. For this sorry state of affairs, I am not one of those who blame X, Y or Z. I think that every Andhra and every citizen of Andhra Pradesh is responsible for this, and it must be the joint effort of all of us to bring our intelligence together, our brains together, our patriotism together, our sense and love of an integrated State together and see how best, how soon, how quickly and how honourably to end this and to give that sense of equality which the people of Andhra Pradesh so badly need.

In the end, again, I would like to pay in all humility my tribute to those innocent lives which have been lost in the recent scuffle, in the recent firing, unnecessary and unjustified firing by the police. I have asked and other Andhra friends and MPs have asked for a judicial inquiry into it. I hope the Chief Minister of Andhra Pradesh would have the courtesy and the rationality of appointing a high judicial officer to go into these tragic things and see that such a situation does not recur.

***SHRI Y. ESWARA REDDY (Cuddapah):** Mr. Deputy Speaker, this Bill is a belated one. Although this is a belated Bill and that is inexcusable, this Bill is to be welcomed. But it requires some modifications and clarifications. If this Bill has been suitably modified and further improved then it would have been much better. In spite of the fact there is inexcusable delay on the part of the Government to bring forward this Bill, this Bill deserves to be welcomed. This Bill would go a long way to keep the unity and integrity of Andhra Pradesh if some more satisfactory explanations follow it during the discussion.

I am not inclined to agree with Mr. B. N. Reddy, who has just stated before me that this Bill does not help in the unity

of Andhra Pradesh and the solution which he has given for the unification of Andhra Pradesh is not acceptable to me. The 2:1 formula enunciated by Mr. Reddy does not help in the matter. This formula only relates according to population figures but Telengana has got a long history behind it which requires something more. There are certain backward areas in Telengana and therefore it is absolutely necessary to give essential safeguards concessions for those areas. Protection is the method of integration. Hence it becomes necessary in the interest of national integration to give safeguards and protection to all the backward and drought effected areas, scheduled castes and scheduled tribes in this respect. There is no other ulterior motive in giving such safeguards to these classes. I also oppose the Mulki rules as they stand. They are medieval, out dated and obstructionist. But at the time of formation of Andhra Pradesh necessary concessions and safeguards were given by the Andhra leaders although nobody accepted the Mulki rules, to the Telengana area because of its backwardness. It is only with this backwardness in mind the Telengana region was given some concession. In this connection I completely endorse the views expressed by Shri K. Raghu Ramaiah. But in regard to his assessment of the situation in Andhra and the role of landlords I fully disagree with him. I will come to him later on.

During the past 2½ months so much disturbances have taken place in Andhra Pradesh. There has been a spate of agitations, hartals, processions and demonstrations. On November 21, 25 to 30 innocent persons were killed as a result of police firing. I take this opportunity to offer my heartfelt condolences to them. I also request the Andhra Pradesh Government to institute a judicial inquiry into the causes of these disturbances. In spite of the fact that there have been persistent demands from the people of Andhra Pradesh to institute inquiries into these disturbances, the Andhra Government has

[Shri Y. Eswara Reddy]

not taken any action. I am sorry they have not done it. I hope atleast now they will order a judicial inquiry taking into account the sentiments of the people of Andhra Pradesh.

Who is responsible for these disturbances? I lay the blame squarely on the shoulders of the Congress party and the Congress Government. When disturbances are going on for the past 2½ months it is a great pity that the Andhra Pradesh Government was divided. The Cabinet was divided to the point of regionalism.

As soon as the judgment of the Supreme Court came the first statement made by the Chief Minister that finality has been reached was very provocative. Its finality has been ditched. Everybody in Andhra Pradesh felt unhappy about it. It is regrettable that without understanding the social, economic and political implications and without any forethought of its repercussions such a statement has been made by the Chief Minister. As regards, the decision of the Supreme Court nobody come out explaining what the judgment really means. Thus misled and misinformed, the students and unemployed youth suddenly and naturally too felt that they have no chance of employment and they have no future. Even non-gazetted employees felt like that. These things are mainly due to the fact that the Congress Party and the Minister could not take a decision at the appropriate time. The Ministers were only shuttling and planes here and there. The landed gentry communalists vested interests and disgruntled elements who were waiting in the wings for such opportunities took charge of the situation and increased the discontent among the people. They took the situation to alarming dimensions and spread regionalism to the worst possible extent. Reasonable regional aspirations were turned into disruptive regional antagonisms.

In this keen conflict, there has been nothing pertaining to the interests of the 80 per cent of the Andhra people. This conflict has nothing to contribute to the

welfare of the poor people, rural and urban and the agriculturists, etc. Their needs have nothing to do with this Mulki business. As the Congress Party could not come to the decision quickly and properly reactionary elements landlords and communalists took over the situation, became its leaders and made it worse and disruptive.

In these circumstances the Andhra Congress Parliament Members could not give a helping hand to the Central Government. Some of them wanted to have their own pound of flesh under the covering of integration. The grand alliance which was routed in 1971 also took advantage of the situation. They brought forward unrealisable demands. The Jan Sangh, the Swatantra and the Syndicate Congress, the landed agriculturists all these people took leadership of these disturbances. The most pitiable phenomenon in these disturbances is that the grand alliance has taken a new shape in the form of extreme right, and extreme left. It is a very dangerous development.

SHRI ATAL BIHARI VAJPAYEE: You are in alliance with them.

SHRI Y. ESWARA REDDY: The difference between 1971 and now is that the Congress Party was united at that time but now it is not. The Syndicate leaders had no base previously in Andhra Pradesh but it is god-sent opportunity for them to exploit the students and other classes for their benefit and they did it to their hearts content. *(Interruption)*.

I am pained to see that even some leaders of the Nehru Forum also—*(Interruption)*. I did not say that whole Nehru Study Forum, but only some members, some leaders of the forum—

SHRI VIKRAM MAHAJAN: Then, why don't you say "some members of the Congress?"

SHRI R. D. BHANDARE: If it is the official policy of the Nehru Forum then you can accuse us.

AN. HON. MEMBER: Bring in Moscow.

SHRI Y. ESWARA REDDY: Forum periodically called by the name of the late revered Nehru. While Nehru was alive, he suffered a lot from these sorts of people. I request them all: why don't they at least allow him to rest in peace in the other world? Why do you take his name and do all these things?

SHRI R. D. BHANDARE: You are also doing the same thing.

SHRI Y. ESWARA REDDY: As result of these disturbances the future of the four and a half crores people of Andhra Pradesh, who were once the prisoners of formation of linguistic States, has become bleak and black.

The root cause of this whole problem is extreme and serious unemployment for the present. There are a few opportunities for educated and uneducated. Even if you take the per capita income it is very low. But if you take the population below poverty line, Andhra Pradesh tops the list having more than 40 per cent while in Punjab it is only 20 per cent. As regards the unemployed figures supplied last September the number of educated unemployed three lakhs sixty thousand, out of which one lakh 20 thousand are Matrics and 26 thousands are Graduates. Therefore we find unemployment situation in Andhra is very serious and alarming and these Mulki Issue has been taken advantage of to create more fears and despair.

The youth of Andhra Pradesh think that the Mulki rules are the cause of their unemployment and people of Telangana think that with Mulki rules alone their unemployment problem will be solved. Assessment of both are not correct. Enormity of unemployment problem is due to the lack of sufficient number of industries and projects in Andhra Pradesh and the backwardness of the State. Employment can be increased only by creating more job opportunities, rural and urban

and by setting up of more industries. These Mulki rules will not solve the problem of Andhra Pradesh.

In Andhra Pradesh another issue has been taken up and that is the categorisation of first class citizens and second class citizens who are second class citizens? The people of Telangana are of the opinion that inspite of safeguards to them like Mulki rules regional Committee etc., they think they are second class citizens because the Andhra Assembly is dominated by Andhra Pradesh by the proportion of 2:1. In the same way people of Andhra Pradesh are made to feel that they are second class citizens because of the Mulki rules and inspite of the fact they have a commanding majority in the State Assembly. But both of them are not correct. The landed agriculturists, factory owners and other richer classes of people whether they belong to Andhra or Telangana are the first class citizens. The second class citizens are the poor people and the workers whether they belong to Andhra or Telangana. Whether you take the case of employment or admission to colleges and universities or any work from the official it is only the first class citizens of both these regions who get these benefits and not the poor classes who are actually treated as second class citizens in both the regions. We have been giving certain safeguards to Telangana in 1956, 1969 and also the 8-point formula. To think that because of their safeguards given by us, we have become second class citizens, is a mistake.

People are speaking of the bifurcation of Andhra Pradesh. If so, I want to emphasise that necessary safeguards should be given to the development of Rayalaseema which is a chronically backward and drought affected area of Andhra Pradesh before bifurcation takes place. In this connection I want to state the things which have happened since independence even as late as 1937 the Sri Bagh Pact has given plans to give priorities for the development of Rayalaseema and also a separate High Court for Rayalaseema, etc., and if the landlords of coastal Andhra think then that they are second class citi-

(Shri Y. Eswara Reddy.)

zens in that bifurcated Andhra State what will be the fate of Rayalaseema people. Therefore, this conception of second class citizenship is not correct. In unity alone our salvation lies and solution of our problems.

Andhra Pradesh is rich in natural resources and it has got a long coastal line. There is Visakhapatnam port, Kothagudem mines, Telengana industries and the rivers of Godavari, Krishna, Pannar and Tung Bhadra. Every effort should be taken to tap these resources and increase production and prosperity. Then only we can solve the problem of unemployment, backwardness and drought conditions of Andhra Pradesh. There are no other alternatives to solve these problems. I am coming to the last point. If Andhra region is separated it will become the playground of casteism and communalism. We can see it from the classes and elements who have entered into this arena of conflict now? It is only the landed agriculturists and new rich classes of society. There is no doubt that there are genuine grievances for the students and the unemployed youth. But it is only these richer classes only that have twisted these problems and had spread their discontent in wrong direction to suit their selfishness. It is very clear that it is only the rich landlords who have taken over the leadership of these agitations. The rich landlords of Vuyyuru, Challapalli, Tanku, and also the sugar barons of Andhra Pradesh are personally leading these processions and have financed and encouraged these disturbances. Nobody can deny this. Those landlord elements are their politicians who tried to obstruct every progressive aspect of the recent land-ceiling Bill have joined this agitation and encouraging them so as to gain time and save their surplus lands. If there is bifurcation of the State we have to face many problems. Bifurcation will not solve the the problems of Andhra Pradesh. Along with the problem of capital so many other problems arise. Now the slogan is for an unconditional Andhra Pradesh, if not, separate Andhra State. If such a Andhra State is formed then the capital will have

to be shifted from Hyderabad. When that happens its construction itself costs us fifty crores of rupees. We have also to attend to the needs of backward districts of Visakhapatnam and Srikakulam. Already we are bankrupt and if we have to spend such a large amount of money on the capital itself where and when will we progress. The progress will be completely retarded. In spite of the fact that we have spent for a good purpose an amount of 180 crores of rupees on Nagarjuna Sagar Project, it has its regions effect on development of backward areas already for the past 10 years.

The transfer of assets is another headache. If we think of these problems our hearts cease to beat. The future of Andhra Pradesh will be sealed and doomed.

I have got great respect for Shri B. V. Subba Reddy, Shri P. Basi Reddy. They are the elders of Rayalaseema. One is the Chairman of Rayalaseema Conference and the other was President of the Rayalaseema Planning and Development Board. Some persons have expressed misgivings about the future of Rayalaseema if a separate Andhra State is formed. But these two persons have charged them as opportunists and selfseekers. I am not prepared to agree with them in this respect. As they are my elders, I am not prepared to speak in the same vein as they spoke.

If a separate State of Andhra Pradesh is formed we want to ask specific questions in the light of past experience of Rayalaseema, what about capital and what about the quota of our services? The future of 80 lakhs people of Rayalaseema is dependent on Krishna river waters and if the water of the Krishna should come to Rayalaseema it can come only when the Godavari waters are let down into Krishna. Only then the problem of famine in Rayalaseema will be solved. This Godavari is in Telengana and only when the people of Telengana will agree to this scheme this water will come to Rayalaseema. Coming to the provisions of Mulki rules I want to emphasise that these should not be extended beyond 1977 and 1980 and out of three posts it should be made clear

at two posts should be reserved for Andhra region and not left in vague terms. This should be made clear. I want an assurance about educational facilities in the city? If the State Government have got no funds to carry out the schemes of education then the Central Government should help them in this respect. There is also the Rayalseema Planning and Development Board. It is only an advisory body and it has not got sufficient funds. Every effort should be made to give full assistance to this Board for the development schemes and for eradication of famine. This Board should be made a Statutory body.

According to 5-point formula of the Prime Minister it has been stated that some mechanism will be created. I want to know what is this mechanism and in what respects it will function. The Government should take into consideration the views expressed in their talk with all the Members of Parliament from Andhra Pradesh and state the concessions proposed to be given. We should do our best to maintain the unity and integrity of Andhra Pradesh and not give encouragement to separatist tendencies only in unity lies the strength and the development of the State.

After 60 years of agitation in Andhra area and after 30 years of agitation in Telengana, Andhra Pradesh came into existence. In those days some thousands of Communist Party workers in Telengana who agitated against the Razakars and demanded visalandhra died a heroic death. Even in those days many from the Congress Party opposed these developments. After Visalandhra was achieved it came under the rule of Congress Party. But the Congress Party instead of devoting its attention to the development of Andhra Pradesh and its emotional integration, encouraged these separatist tendencies. As a result of this mis-rule of the Congress party this Visalandhra has been converted into a Vishadandhra. I appeal to them not to inflict further damage by bifurcating it.

SHRIMATI T. LAKSHMIKANTHAM MA (Khammam): Mr. Deputy-Speaker, Sir, I am a Mulki by birth and non-Mulki by marriage. So, I think I have a right to stop the quarrel between brothers and plead with them for the unity of the State.

I thank our beloved Prime Minister for giving a solution within the framework of an integrated State. Andhra can progress—the Telugu-speaking people can progress, I would say, if some people have an allergy for the word 'Andhra'—and go hand in hand towards development, rapid industrialisation and socialism only if there is one united State. Unity is strength. If we separate, the strength will disappear.

For the past four years Andhra Pradesh has been witnessing such regional bitterness which has hampered the progress of the State. The Mulki rules issue has affected the Telengana region for the past four years and there is once again that emotional pattern in that part of the Andhra region. For want of time, I cannot go into the details of the agitations on both sides. But it will be seen that the *modus operandi* and the motivation of the agitation present an extremely instructive study. The students and the NGOs first start it. Then the politicians are there to exploit it.

The Mulki rule has been described as a terrible demon. Some of the Jan Sangh members say that 'Mulki' means 'Muslim' and Shrimati Indira Gandhi is fond of Muslims and Mulkis. This is the propaganda they are carrying on. It is depicted as a demon, an epidemic, a calamity and a curse. In fact, a Mulki is described as everything except what it is. Shri Mirdha has just now said that all the pre-Constitution legislations are survived by virtue of article 35B. The Mulki rules obviously require legislation by Parliament in order to be implemented in the spirit in which they are embodied in the Public Employment Act of 1957. It is also clear that article 16(3), which prohibits legislation prescribing residential restrictions, does not apply to the present legislation for the simple reason that this

(Shrimati T. Lakshmikanthamma.)
Bill does not prescribe any restriction. It acutally abridges the restriction already existing.

I want to say one thing about the unity of the State. This is not one days affair. It is a thousand years' harvest. The formation of Andhra Pradesh, the unity of Telugu-speaking people, with a history of three thousand years, is a thousand years' harvest. How can you just say, we want to get separated; we want to get separated; we want to get separated. Like Jinnah, with swords in their hands, these old Ministers who have above 70 years' age, cannot divide the State. The future is for the younger generation of Andhra Pradesh.

In those days, they used to sing a lovely, a beautiful song: Mother of the Telugu-speaking people with jessamine garlands round your neck, with Krishna, Godhavari and Tunghabhadra and Pinekini, we bow to Thee. Where is that spirit, that attachement, that affection, for the people of one culture, one language, thirsting for the unity? When Andhra Pradesh became one, when the Telugu-speaking people joined as one State on 1st November, 1956, it was like the rivers joining the ocean, knowing no bounds. Everyone knows it.

Today for political reasons, the man is so selfish that for his own personal ends, he sacrifices everything. I agree with my hon. friend, Shri Raghu Ramaiah, in saying that we should pay our tribute to the memory of those who have lost their lives and sympathise with the bereaved families, and also the Cabinman who was burnt alive by the hooligans. There was violence and damage caused to the railway property. Mr. Mirdha was attacked. He did not say on his own. I was present at Guntur on that day. As I said, I am the daughter-in-law of Guntur. I have every right to go there. If they want to kill me, I am prepared to be killed for it. He did not say anything on his own. I was present there. The things were manipulated.

What happened? The Central Bank of Guntur is located in Tenali. I particular gentleman who belongs to the other House—I cannot mention names—is the President. He sits there for a few days. Another Swatantra Party member also sits there. Lakhs of rupees are collected in the name of demon of land reforms. These are the people who have lost power. Ultimately, it is a power game and others are just pawns in the chess—the students, the NGOs, the innocent people there. What happened then? All the liquor shops were kept open. Certainly, an inquiry should be made into that. Why were the liquor shops kept open? When there is a *bund* on that day, when all other shops were closed, why were the liquor shops kept open? Why were they drunk? Why was so much money spent? Why were they asked to go in a procession and attack the railway station?

The students are our future generation. The railways belong to them. We may die tomorrow; we are after all old. The Ministers who have resigned are older. Is the 5-point formula the reason for it? The 5-point formula of the Prime Minister has been welcomed by 85 per cent of the people, as Mr. Eswara Reddy himself said....(Interruptions) I fought with you also at that time on the floor of the House. But I succeeded, not you.

What happened at Ongole? There was a firing. Early morning, one jeep goes round and says, "Oh! Brother Andhras, are you still sleeping? The people of Andhra are burnt with petrol in Hyderabad. Get up, get up." This is the slogan Who has done it? Let an inquiry be made into it. An ex-Minister was present at Ongole at that time. We know what things are. (Interruptions) What about your Andhra Mahasabha, the unholy alliance of the Swatantra Party, the people who have come into Congress, not even one month back? Why should we take such people? I think, we should not take them. The Swatantra Party, the Jan Sangh and what not, all kinds of parties are bent upon creating trouble....(Interruptions) B

the time the Deputy Chief Minister resigns....(Interruptions) They have filled up all the Presidents' posts. It is not one President, it is a Presidium, so many Presidents. You take any number because you do not know who is going to be the Chief Minister of the future would be Andhra. This is what has happened.

Sir, here is a letter of threat. I must congratulate the MLAs that in spite of the threats they are getting hardened day by day. It is not correct to say that they are not going to their constituencies. They are going. Sir, the Andhra Ratna Bhavan where the meeting was held is today in the possession of Congressmen, not those who have deserted and who like cowards could not carry the message to the people. I asked one Minister, 'Why have you resigned?' The reply was: 'People are sending bangles.' I said, 'They are insulting bangles. People wearing bangles have fought battles like the great Jhansi Ki Rani. So, do not insult bangles by sending them'. Sir, cowards die every day but a heroic man dies only once. So, let the cowards in thousands live or die. It is immaterial for us, We will face the people. We will carry the torch of socialism to the people, may be, with one weapon that has been used, the land reforms, to which they are all opposed.

One day, Mr. Subba Reddy comes and says, I support the formula and I welcome it'. Next day he changes. Sir, perhaps something must be wrong with their minds. After all age also counts, with all respect to them. How should we understand it? How should the people understand it? The five-point formula was welcomed by many people. 80 per cent of the students of Telangana have supported it. In Andhra the students try to understand it because the students from Andhra came to Hyderabad. They said, We will not allow ourselves to be used as pawns in the political game. Let us thrash it out. It is a matter concerning our future and the future of Telangana. When they came what happened. The erstwhile separatists and the erstwhile integrationists sent rowdies to molest these students and so Police protection had to be given to them. We cannot blame the students.

After all they are innocent lives and we want to build castles on the graves and on the blood of these people and it is wrong, and the students are not going to allow it.

With regard to the NGOs' agitation, the five-point formula has done good both to Andhra and Telangana. As far as Telangana is concerned, non-gazetted posts upto the level of Tehsildar and the House Surgeon will be filled by Telangana people. So, the bulk of the posts go to Telangana. Otherwise, the Mulki Rule was only upto 5 years but it has now been extended as per the Prime Minister's five-point formula. It would have ended in 1974 but the Prime Minister has extended it till 1980 in the districts and in the capital till 1977. Three years is nothing in the history of a State. If you want to maintain the unity of a State, three years is nothing. I understand the feelings of my Andhra friends. They want the ownership because when they go to Bombay, when they go to other places when everybody feels that it is his capital, the feeling is genuine. It is understandable. After all, this State came into being under an agreement to which they all agreed and that the Mulki rule will be there till 1974. Now, it is extended upto 1977. Only three years. Three years is nothing in the history of a country. After all, even in human lives, three years is nothing....

MR. DEPUTY-SPEAKER: The hon. Member's time is up. There are so many speakers from her Party.

SHRIMATI T. IAKSHMIKANTHAM-MA: The Press, the *joo!* press I would call it, it is really a *joot* press, has been coming out with wrong reports and fanning the flames. I do not know for what? They have been giving all wrong information. The integrationists also have held meetings. The Congress MLAs held a meeting supporting the five-point formula and the Communists also supported it and held a meeting, but nothing comes in their press. Sir, if you make a statement, it does not come in their Press. The Chief Minister gave a press interview. That did not come up in the Press. Even

[Shrimati T. Lakshmikanthamma.]
one sentence did not come in the Press. The Chief Minister is a small person for the Press magnates. He is following the socialist path. I appeal to the N.G.Os. Bulk of them come from poor families. Why should they not understand the situation? Let them not participate in this destruction. Let them not be pawns. I have seen the statement that the educated youth will occupy their seats. I am quoting from this statement:

"An association of the educated unemployed youth today warned the Govt. employees, who are frequently resorting to strikes, that the unemployed youth would occupy the seats of those employees who are on strike.

The association, which met here last night, decided to give a call to all the educated youth who were seeking employment to occupy the chairs of the striking employees, according to a Press Note issued jointly by its President K. V. Gopala Rao of Guntur and General Secretary R. Ramiah of Hyderabad.

"The association also appealed to the unemployed youth to give an undertaking to the heads of the offices saying they would discharge their duties honestly and be loyal to the Government and the people."

MR. DEPUTY-SPEAKER: On a subject like this Members have many things to say and they want to unburden themselves, but even then, there is a limit of time. There is a good number of speakers from the Congress party. I think if we apportion 7 minutes to each speaker, then, everybody would have a chance. About the Members from the Opposition side, the time is already indicated here. I would request them that, when I give the bell one minute before the time is over, they should take it as a warning.

* Mr. Jagannath Rao Joshi.

DR. G. S. MELKOTE (Hyderabad): I hope you will give me 20 minutes.

SHRI B. S. GIRI rose—

MR. DEPUTY-SPEAKER: These are the broad indications, it does not mean we shall go mechanically with them; we will see as we proceed with the business. Mr. Giri I find your name is here. Now Mr. Jagannath Rao Joshi.

श्री जगन्नाथ राव जोशी (शाजापुर) :
उपाध्यक्ष महोदय, जो विधेयक इस सदन के सामने पेश है उसको जनता की राय जानने के लिए प्रसारित किया जाय, यह संशोधन में दिया है। इस का मुख्य कारण यह है कि इस विधेयक से आन्ध्र के किसी भी भाग की जनता संतुष्ट होने वाली नहीं है। जिस को हम कोस्टल एरिया बोलते हैं या जिस को हम तेलंगाना कहते हैं दोनों भागों की जनता में इन रुस्त के बारे में असंतोष है, निराशा है। 1969 से ले कर यह मामला चला हुआ है और उस का जो मूल कारण है वह यदि मैं यह कहूँ तो गलत नहीं होगा कि शुरू से सोच समझ कर समय रहते ही समस्या का हल निकालने की क्षमता हम शासन में नहीं है। यह बुनियादी कारण है। क्योंकि आन्ध्र का जो फार्मेशन हुआ वह पोट्टी श्री रामूलू के देहान्त के बाद हुआ, हाचपाव हुआ। उस के पीछे कोई सिद्धांत नहीं था जैसा कि बाद में फाब्रिल अली कमीशन के अपनी सिफारिशों देने के बाद नवम्बर 1956 के अन्दर व्यवस्था बनी। अगर करना था तो सोचसमझ कर करना चाहिए था। किन्तु पहले एक आन्ध्र बना। 1956 में समस्या खड़ी हो गई। फिर दोनों में जेटिलमैन्स ऐग्रीमेंट हुआ। यह ऐग्रीमेंट करने वाले दोनों ओर से कांग्रेसी थे। लेकिन वह जेटिलमैन्स ऐग्रीमेंट बर्क नहीं हुआ। यह सब स्वीकार करते हैं। कोई ऐसा नहीं है जो यह कह सके कि इस को अच्छे तरीके से बर्क आउट किया है। यह बर्क आउट क्यों नहीं होता? जब हम कालेज में थे तो जमनादास मेहता एक नेता थे, वह कहा करते थे कि

There are two classes of men, one is a gentleman, the other one is a Congressman. (Interruptions). I am saying this in a lighter vein. Let them not take it seriously.

जहाँ भी इन्होंने ऐग्रीमेंट किया है वह ऐग्रीमेंट फेल हुआ है।

SHRI DINEN BHATTACHARYYA:
(Serampore): They are all gentlemen.

श्री जगन्नाथ राव जोशी : यह जो समस्या तेलंगाना में खड़ी हुई यह आज की नहीं है। यह सन् 1967-68 से लगातार सामने है। लोगों के मन में असंतोष था। वास्तव में जो दोनों के बीच में समझौता हुआ था उस के अनुसार जो विकास होना चाहिए था वह हुआ नहीं। और इस दोष को मैं आन्ध्र को नहीं देता। सारे देश के अंदर आज यह भावना बनी हुई है। प्रधान मंत्री यहां बैठी हुई हैं तो मैं यह बता देना चाहता हूं कि आज उत्तर प्रदेश में भी यह भावना बनती जा रही है कि रायबरेली की ओर ज्यादा ध्यान दिया जा रहा है। हर दो तीन महीने के अन्दर डा० के० एल० राव वहां जाते हैं, बिजली के मामले में वहां प्राथमिकता दी जा रही है, सिंचाई के मामले में प्राथमिकता दी जा रही है। देश भर में संतुलित आर्थिक विकास जो होना चाहिए था योजनाबद्ध तरीके से वह हुआ नहीं...

THE PRIME MINISTER MINISTER OF ATOMIC ENERGY, MINISTER OF ELECTRONICS, MINISTER OF HOME AFFAIRS, MINISTER OF INFORMATION AND BROADCASTING AND MINISTER OF SPACE (SHRIMATI INDIRA GANDHI): Anyhow, we have no Mulki problems there.

श्री जगन्नाथ राव जोशी : भले ही आज न हो कल पैदा हो सकता है क्योंकि संतुलित आर्थिक विकास की ओर हम ने ध्यान नहीं दिया तो पंत जी के क्षेत्र में उत्तराखंड की मांग बहुत जोर पकड़ रही है। ऐसा नहीं कि यह एक बीमारी है। यह एक बीमारी का कारण खड़ा हुआ है। इट इज जस्ट द सिंप्टम।

यह मूल रोग नहीं है, मूल रोग और है। पिछले 25 साल में आजादी के बाद योजना बनाते एक, दो तीन, चार पांचवी तक पहुंच गए। योजनाबद्ध तरीके से देश का विकास नहीं हुआ। इसकी वजह से यह गड़बड़ हुई।

आंध्र की थोड़ी सी पृष्ठभूमि भी है। इसे भी समझ लेना चाहिये। 1953 से 1956 तक एक अलग आंध्र था। उस समय तेलंगाना और हैदराबाद की स्टेट के पार्ट थे। जब वे दोनों एक हो गए तो उन्होंने जो समझौता किया था उसमें वे कहते हैं कि हमारी एक अंडरस्टैंडिंग थी। यदि यह समझौता ठीक चला तो आगे चलाना, ठीक नहीं चला तो आप अलग और हम अलग। आज वे यह कहते हैं कि यह समझौता ठीक नहीं चला। हमारे साथ न्याय नहीं हुआ, हमारे साथ अन्याय हुआ है इसलिए हम इनके साथ रहना नहीं चाहते। अब यह मांग 1969 से तेलंगाना में थी किन्तु आज जो वास्तविकता है उससे आंखें मूंद नहीं सकते। स्वयं मिर्धा जी वहां गए थे और उन्होंने जो बयान दिया अखबारों में उसकी वहां बड़ी तीव्र प्रतिक्रिया है। मिर्धा जी ने कहा कि :

"This movement is carried on by hooligans."

इस की वहां बड़ी तीव्र प्रतिक्रिया हुई। कोई अच्छी प्रतिक्रिया बिल्कुल नहीं हुई। आज

[श्री जगन्नाथ राव जोशी]

आंध्र प्रदेश की स्थिति यह है कि तेलंगाना से ज्यादा जिसको हम कोस्टल एरिया कहते हैं वहां अलग आंध्र प्रदेश की मांग बड़ी तीव्र है। जब आंध्र के नारे लगाए जा रहे हैं, अलग आंध्र का झंडा बनाया गया है, उस झंडे के नीचे सभाएं होती हैं, जितने भी मंत्रियों ने त्यागपत्र दिए हैं उस में से आठ मंत्रियों ने अलग आंध्र कांग्रेस बनाई है। मामला बहुत बिगड़ गया है। 1969 में मैं इसी सदन में बोला था पिछली लोक सभा में जब तेलंगाना का मामला आया तो मैं ने कहा था—आस्क ब्रह्मानंद रेड्डी टु रिजाइन। उस समय भी तेलंगाना को यह बता देते कि आप के साथ अन्याय हुआ तो उस का हम परिमार्जन करना चाहते हैं। मध्य मंत्री त्यागपत्र देते, बैठते उन के साथ, कहां-कहां गड़बड़ हुई इस को देखते। वह जो दो और एक का कानून था जिस को आन्ध्र प्रदेश में मज्जाक में कहते हैं आटा कानून—आन्ध्र तेलंगाना ए टी ए-आटा कानून वह ठीक बना नहीं।

इसलिए आज यह दो साल तीन साल तक जो समस्या ऐमे ही छोड़ दी और सुप्रीम कोर्ट के जजमेंट के आने के बाद आया तो आज परिस्थिति बहुत बिगड़ गई। अभी मैं वहां हो कर आया। मेरी सभा में बीच बीच में नारे लगते रहे—प्रत्येक तेलंगाना कावाली, अलग तेलंगाना कावाली। यह बराबर होता रहा। मैंने जितनी बातें बताई लोगों का ध्यान उस की तरफ था ही नहीं। आज लोगों की स्थिति इसकी बिगड़ गई है और मैं यह कहना चाहता हूँ कि इस स्थिति को बिगाड़ने में

आप दोषी हैं। एक तो संतुलित आर्थिक विकास नहीं है और ज्वत्ता के सामने जो आप ने एक परम्परा डाली है वह परम्परा भी गलत है। आप ने स्टेट्स रीफ़ॉर्मेशन कमीशन की रिपोर्ट आने के बाद वास्तव में उस के अनुसार कुछ किया, कुछ नहीं किया। बम्बई गुजरात एक रहे, फिर अलग हो गए। पंजाब हरियाणा एक रहे फिर अलग हो गए। आज पंजाब हरियाणा हिमाचल प्रदेश तीन हो गए। आखिर कोई आप के सामने नीति है या नहीं? कुछ समय कर्नूल राजधानी बना। चार करोड़ रुपया खर्च हुआ। चंडीगढ़ पंजाब और हरियाणा दोनों के लिए बनाया गया था, आज चंडीगढ़ का झगड़ा आ कर खड़ा हो गया। फाजिल्का अजमेर का झगड़ा आ कर खड़ा हो गया। आप के सामने नीति क्या है? जैसे अंग्रेजों के जाने के बाद रेलवे के सामने कोई नीति नहीं रही—नैरो गेज, ब्राड गेज, मीटर गेज सब शामिल। वैसे ही अंग्रेजों के चले जाने के बाद पहले तो यूनियन आफ़ स्टेट्स थीं, ए, बी, सी, डी उस के बाद यदि एक होते तो समझ में आता, लेकिन आप ने तो बी वर्गीय मध्यभारत को निकाल दिया, सौराष्ट्र को निकाल दिया, सी वर्गीय कुर्ग को निकाल दिया और मंबूर में मर्ज कर दिया, तो फिर छोटे-छोटे राज्य क्यों बना रहे हैं?

उपाध्यक्ष महोदय, कल जब मैंने बिजनेस एंडवाइजरी कमेटी की मीटिंग में ज्यादा समय की मांग की तो मंत्री महोदय, ने मेरे यहाँ पर बैठ गए हैं, कहा कि हमारी तरफ से ज्यादा बोलने वाले नहीं हैं। तब मैंने कहा

कि सारा समय बिरोधी हलों को मिलना चाहिये । अब अगर आप इस तरह समय को बांटेंगे तो नहीं चलेगा

संसदीय कार्य तथा नोकहन और परिवहन मंत्री (श्री राज बाहदुर) : आप वहां की बात यहां क्यों कह रहे हैं

श्री जगन्नाथ राव जोशी : ऐसा तय किया है, इस लिये कह रहे हैं

MR. DEPUTY-SPEAKER: That is between you and the Minister. If the Minister wants to give you any part of his party's time, he may do so.

SHRI RAJ BAHADUR: So far as my party is concerned, I have said there is a limit of 7 minutes.

श्री जगन्नाथ राव जोशी : मैंने तो इसी लिये ज्यादा समय मांगा था, 10 घंटे के लिये कहा था, क्योंकि इस पर बहुत लोग बोलेंगे लेकिन उस समय कहा गया कि ज्यादा बोलने वाले नहीं हैं । वह तीन घंटे रखना चाहते थे, मैंने 4 घंटे कहा, कम से कम एक घंटा ज्यादा दीजिये, क्योंकि हम बोलना चाहते हैं ।

MR. DEPUTY-SPEAKER: This is the decision of the House, not just the recommendation of the Business Advisory Committee, that 4 hours should be allotted for this. You conclude now. Members can make effective speeches in ten minutes. I do not know why they cannot do it.

श्री जगन्नाथ राव जोशी : उपाध्यक्ष महोदय, बात यह है कि सरकार ने क्रमशः क्रांतियों पर क्रांतियों के हमारे जैसे लोगों को बड़ी मुसीबत में डाल रखा है । अब महाराष्ट्रवादी गौमान्दक इस पूरे बहुमत

से चुन कर आया और उस ने कहा कि 'हम को महाराष्ट्र में मिला दो तो आपने क्यों चलना रखा, उस की क्या जरूरत थी । पुदुचेरी या माण्डचेरी मतों के झगड़े नहीं हैं सो उस को तमिलनाडु में क्यों नहीं मिला दिया

MR. DEPUTY-SPEAKER: You have gone to U.P. Maharashtra; you do not come to Andhra Pradesh. How can you finish it then?

श्री जगन्नाथ राव जोशी : उपाध्यक्ष महोदय, मैं इस का विरोध कर रहा हूं और यह बता रहा हूं कि इस की जड़ में क्या बात है ।

How can I make my points then? People are not satisfied with the Mulki Rules or the present Bill. They want a separate State, both for Telingana and Andhra Pradesh. They ask: "if we demand similar States, what sin have we committed?"

MR. DEPUTY-SPEAKER: It does not solve my problem.

SHRI JAGANNATHRAO JOSHI: It does not solve my problem either. There are so many people unnecessarily dragging the Jan Sangh for nothing. I have to demand similar States, what sin have we unity of the country.

किन्तु इस का मतलब यह नहीं है कि कल अगर आन्ध्र और तेलंगाना अलग हो जायें तो देश की एकता खत्म हो जाएगी । ऐसी बात नहीं है । यह बिल्कुल सिद्धान्त की बात नहीं है कि एक भाषा का एक ही राज्य होना चाहिये । उत्तर प्रदेश हिन्दी बोलता है, मध्य प्रदेश हिन्दी बोलता है, राजस्थान हिन्दी बोलता है, बिहार हिन्दी बोलता है, ये सब अलग अलग राज्य हैं, इस लिये इस का ऐसा मतलब नहीं है ।

[श्री जगन्नाथ राव जोशी]

जब यह सागड़ा चला, हमने उस के पहले ही अपने बम्बई अधिवेशन में इस बात को बता दिया था कि भाषा को प्रमुख आधार मान कर जो देश की पुनर्रचना हुई थी, इतने सालों के अनुभव के बाद यह बात सामने आई कि भाषा से ज्यादा महत्वपूर्ण बात प्रदेश का आर्थिक विकास है, जो इस समय हमारे सामने आया हुआ है। इस लिये मैं चाहता हूँ कि इस को पार्लामील या होच-पौच करने के बजाय एच उच्च आयोग नियुक्त किया जाय जो इस मामले में जाय। इतने लोग वहाँ आन्दोलन करें, फिर गोली चले और लोग मरें.....

गृह मंत्रालय में राज्य मंत्री (श्री कृष्ण चन्द्र पंत) : आर्थिक दृष्टि से यह राज्य ठीक है या नहीं ?

श्री जगन्नाथ राव जोशी : जो तेलंगाना है, वह कहता है कि एस० आर० सी० ने उस समय कहा था कि अलग तेलंगाना रह सकता है, इकानामिक वायाबिल्टी है, पोलिटीकल वायाबिल्टी है, डेढ़ करोड़ की पापुलेशन है, इतना ही नहीं वे कहते हैं कि जैन्टिलमैन एग्रीमेंट में यह अण्डरस्टैंडिंग थी कि अगर यह एग्रीमेंट ठीक नहीं चलेगा तो हम जैसे थे वैसे हो जायगे। चूँकि वैसे नहीं हुआ, इस लिए वह मांग करते हैं और यह तर्क देते हैं कि जब भारत सरकार छोटे छोटे राज्य बनाती है तो हमारा तो बड़ा है। इसलिये मैं मांग करता हूँ कि पार्लामील कुछ करने के बजाय, जनता आन्दोलित हो, उत्सजित हो, कीर्ति होने के बजाय, मैं चाहता हूँ कि सरकार

इस पर उच्च आयोग बैठायें और इस सारे मामले पर फिर से विचार कर के कि देश की पुनर्रचना कैसे हो, उस के बाद सरकार इस पर निर्णय ले।

दूसरी बात—ग्राम्प्र प्रदेश और तेलंगाना इन दोनों क्षेत्रों में भावना इतनी तीव्र हो गई है—श्री रघुरमैया जी ने उस के बारे में कुछ बताया है.....

MR. DEPUTY-SPEAKER: Order, Order. I would like to ascertain from you whether you are going to conclude.

SHRI JAGANNATHRAO JOSHI: Two minutes. It is a gentleman's word. I will never break it.

SHRI G. VISWANATHAN: He is not a Congressman.

श्री जगन्नाथ राव जोशी : इस विधेयक में मुल्की और गैर मुल्की की जो भावना है, आज के दिन किसी के गले नहीं उतरेगी। उन को लगता है कि हमारे साथ भेदभाव हो रहा है। इस लिये इस को फिर से उन पर अंकित करना बहुत न्याय नहीं होगा।

हैद्राबाद में जो कम्पोजिट पुलिस आप रखनेवाले हैं—इस बात को आप अलग से इन्ट्रोड्यूस कर रहे हैं—यानी बुढ़िया मरती है तो उस का दुख नहीं है, मृत्यु दर्वाजा देख लेती है, लेकिन एक बार यह भावना आगई कि हमारी रक्षा तेलंगाना की पुलिस करेगी, ग्राम्प्र की पुलिस रक्षा नहीं करेगी—

It is a very bad element that is being introduced in this Bill.

यह गलत है। इस लिये मैं चाहता हूँ कि इस बिल की जमैता की राय जानने के लिये प्रचारित किया जाय, अभी न लिया जाय।

SHRI JAGANNATH RAO (Chatrapur): Mr. Deputy-Speaker, Sir, I support the Bill as it seeks to preserve the integrity of the State of Andhra Pradesh. Sir, the Mulki Rules problem is only a small problem. They apply only to the inferior services in the erstwhile State of Hyderabad now called Telengana which is part of Andhra Pradesh and also they relate to the admission to schools and colleges and some technical institutions. After all, what is the percentage of people that are covered by these Mulki Rules? It is an insignificant percentage. Should this small problem divide the State?

After all, if you go into the history of the Mulki Rules you will find that the erstwhile Hyderabad administration framed these rules because there were no educational facilities and the local people were not in a position to compete in open competitions to secure jobs. These Mulki Rules have been given the legal status. In 1956, when the States Representation Commission suggested that Telengana should be a separate State, the leaders from the Andhra region and the Telengana region met and entered into an agreement whereby they conceded the continuance of the Mulki Rules, the formation of a Telengana Regional Committee and a separate budget for Telengana, and alternatively the Chief Minister should be from Telengana. This agreement was given a constitutional sanction, and Article 371 of the Constitution has embodied all the terms of the agreement. Having none so, is it propose for the leaders and the people of Andhra Pradesh to complain about the Mulki Rules? After all, they are going to end in 1977 the twin cities of Hyderabad and Secunderabad and in 1980 in the rest of Telengana region.

These Mulki Rules were not peculiar to the erstwhile Hyderabad State alone. similar protection and safeguard was

there even in other native States in India. They were later integrated with the rest of India. You find in every State the demand for jobs for the sons of the soil, and the Mulki Rules are similar to that. These rules do not apply to the gazetted posts, and their life comes to an end in 1977 and 1980 as the case may be. It is a small matter, and the leaders and the people of Andhra region should realise this.

The leaders of both the regions could have come to an agreement, but no serious attempt was made to arrive at an agreement. Of course, they have faith in the leadership of the Prime Minister and they approached for a statement. She has given the award. The award having been given simply because the award does not satisfy them, can the award be set aside? I appeal to the Andhra Pradesh gentlemen not to feel too much, not to get agitated at all over a small issue. Likewise, I also appeal to the Telengana people to see that unless they stand together with the Andhra brethren from the Andhra region, Telengana as such cannot improve, cannot grow strong economically. *(Interruptions)* What has produced this tendency at the present stage in Telengana is because in the erstwhile Hyderabad regime, nothing was done except for the twin cities of Hyderabad and Secunderabad. If you go to the suburbs in Hyderabad you find backwardness, stark poverty—*(Interruptions)*.

SHRI S. B. GIRI: For the last 15 years, the Andhras were responsible. *(Interruptions)*

MR. DEPUTY-SPEAKER: Mr. Giri, you will have your opportunity to speak.

16 hrs.

SHRI JAGANNATH RAO: Therefore, Telengana could not develop today. What is the reason? Can they stand alone if the integrated State of Andhra Pradesh cannot develop the Telengana region? I am really sorry. That is why the regional committees were formed so that the backwardness could be removed. The Mulki

[Shri Jagannath Rao]

Rules and the safeguards given to the people as you know, are for a limited period. On these small points, should people quarrel and disintegrate into two units? You will find other States are clamouring for outlying areas but here peculiarly the people of this State want to divide on a small issue. I am surprised. The mulki rules have been given a legal status: they are valid under article 35(b) of the Constitution. The agreement between the leaders of both regions had been ratified and given a statutory basis under article 371 of the Constitution. Therefore, I appeal to the good sense of the Andhra people, particularly their leaders. Curiously enough nine Ministers headed by the Deputy Chief Minister who came here hailed the Prime Minister's award as the best solution to the problem. Having gone back to Andhra Pradesh, they changed their stand and say that they want a separate State. Is it the test of leadership? I appeal to the people of Andhra, M.P. friends who belong to both the regions to realise and appreciate that unless they stand together and preserve the unity and integrity of Andhra Pradesh State, it will be a sad day for all of them.

SHRI G. VISWANATHAN (Wand-wash): When Andhra was formed it was the first State on a linguistic basis. It is very unfortunate that after 16 or 17 years still we do not have an integrated Telugu speaking State. Regional loyalty has overtaken linguistic affinity and hence the talk of separation has started. When Andhra was formed in 1956, they agreed that they would be implementing the gentlemen's agreement and we are now in a situation when both sides agree that it has not been implemented. During these years we have been formulating many policies and programmes, point after point and finally all that has ended in a fiasco. When there was agitation in Telangana area the Prime Minister in this same House announced the eight point programme and afterwards then the Telangana Praja Samiti was elected to this House against the Congress Party, the Congress Party wooed them and gave them some assurances and they merged with the Congress. Even the six point

Now the Prime Minister has given the five point formula. That formula is not acceptable to both sides, I think... (Interruptions) I know pretty well that Members who oppose this Bill outside this House, in the Lobby and the Central Hall, are to support the Bill inside this House. That is the position regarding the Mulki rules. As regards the present Bill on Mulki rules, neither Telengana wants it nor do Andhras want it.

In regard to Mulki rules, Parliament enacted the Public Employment (Requirement as to Residence) Act 1957 and it went to the Supreme Court. It was Mr. V. S. Narasimha Rao—not the present Chief Minister Narasimha Rao, I shall come to it later—who went to the Supreme Court and the Supreme Court held that it was invalid. The relative part of the judgment reads:

"We accept the argument of Mr. Gupta advocate of the petitioners' that the Constitution, as it stands, speaks of a whole State as the venue for residential qualification and it is impossible to think that the Constituent Assembly was thinking of residence in districts, taluqas, cities or villages. The fact that this clause is an exception and came as an amendment must dictate that a narrow construction upon the exception should be placed as indeed the debates in the Constituent Assembly also seem to indicate. We accordingly reject the contention of Mr. Setalwad (who appeared for the Government) seeking to put a very wide and liberal construction upon the words 'any law' and 'any requirement'. These words are obviously controlled by the words 'residence within the State or Union Territory' which words mean what they say, neither more nor less. It follows therefore that Section 3 of the Public Employment (Requirement as to Residence) Act, 1957, in so far as it relates to Telengana (and we say nothing about the other parts) and Rule 3 of the Rules under it are ultra vires the constitution."

Hence it was struck down by the Supreme Court and the old Mulki rules were

to be a pre-constitutional law. Now the Minister claims that Parliament has power to enact this Bill under article 35(b). It is an incorrect statement. That is what we said when this Bill was sought to be introduced and we objected to it. Article 35(b) says:

"any law in force immediately before the commencement of the Constitution in the territory of India with respect to any of the matters referred to in sub-clause (i) of clause (a) or providing for punishment for any act referred to in sub-clause (ii) of that clause shall, subject to the terms thereof and to any adaptations and modifications that may be made therein under article 372, continue in force until altered or repealed or amended by Parliament."

It is only declaratory and it does not confer any power on Parliament to make law. The power we derive is from article 35(a), which was interpreted by the 1969 judgment. They have said very clearly:

"The clause thus enables Parliament to make a law in a special case prescribing any requirement as to residence within a State or Union Territory prior to appointment, as a condition of employment in the State or Union Territory. Under article 35(a) this power is conferred upon Parliament but is denied to the Legislatures of the States, notwithstanding anything in the Constitution, and under (b), any law in force immediately before the commencement of the Constitution in respect of the matter shall subject to the terms thereof and subject to such adaptations that may be made under article 372 is to continue in force until altered or repealed or amended by Parliament."

MR. DEPUTY-SPEAKER: What does this Bill do? Does it not seek to repeal or alter?

SHRI G. VISWANATHAN: It is not mandatory. It is only declaratory.

It declares that they are in existence. We have to go to article 35(a) to get our powers to enact new legislation. This is what the jurists say clearly. I am quoting from the report of the Committee of Jurists on Telengana Safeguards. The Chairman was Mr Justice K. N. Wanchoo, ex-Chief Justice of India. The other two members were Mr. Setaiwal, ex-Attorney General and Mr. Niren De the present Attorney General. I quote:

"We have already indicated that in view of the interpretation placed by the Supreme Court on article 16(3), it is no longer possible to make any law or rule prescribing residential qualification in a part of a State for appointments within that part. Any law or rule so made would be bad and would be liable to be struck down as *ultra vires* the Constitution. No legislative measures whether in the form of law or a rule promulgated under the proviso to article 309 of the Constitution are now possible to continue the position obtaining under the Act of 1957 and the rules framed thereunder in 1959 with respect to the Telangana area. Therefore, if any law is to be passed providing for residential qualification within a part of the State, then first there will have to be a constitutional amendment of article 16(3) by which the words "or a part thereof" have to be added after the words "any requirement as to residence within that State or Union Territory." Without such a constitutional amendment, it would not be possible to provide for a residential qualification within part of a State or Union Territory either by law or rule."

So, they are very clear. The present Attorney General is very clear in pointing out that the present Bill is unconstitutional and it will be struck down by the Supreme Court.

What is the case of the Government? Their opinion seems to be, the position has changed entirely after the incitement in the case of Directors of Industries and

[Shri G. Viswanathan]

Commerce, Government of Andhra Pradesh *V/s.* Venkata Reddy and others, wherein the Court has held that section 2 of the Public Employment Act is also bad along with section 3 and that the Mulki rules continued in force, even after the constitution of the State of Andhra Pradesh under the States Reorganisation Act, 1956 and are still operative.

This means that the protection given under article 35(b) of the Constitution still continues, and as provided under that article, the Rules 'continue in force until altered, repealed or amended by Parliament'. The assumption of the Jurists Committee, on which its advice was based, does not hold good in the light of the latest judgment of the Supreme Court.

Article 35(b) of the Constitution gives powers to the Parliament to alter, repeal or modify the Mulki Rules, and the Mulki Rules Bill has been framed under this power. There is, therefore, nothing unconstitutional about the Bill which does not seek to lay down any new requirement as to residence in part of a State for employment in public service, but provides for repeal in a phased manner of provisions which have continued to be in force under article 35(b).

In short, their argument is that we are not laying down any new requirement as to residence in any part of the State for employment in public service. Let me point out that the present Bill speaks of the capital area and the Telengana area, both of which have been defined. To be more specific, clause 6 says:

"The Mulki Rules shall, in so far as they relate to appointments to Schedule posts in the Capital area, cease to have effect on the expiration of the 31st day of December, 1977....."

Here it speaks of capital area and restricts employment to a particular area. Then, clause 7 says:

"The Mulki Rules shall, in so far as they relate to appointments to Schedule

posts in the Telengana area other than the Capital area, cease to have effect on the expiration of the 31st day of December, 1980, and shall stand repealed on the expiration of that day, but such repeal shall not affect the validity of any appointment previously made in pursuance of those Rules."

It means that we are amending the Mulki Rules and by that amendment we are enacting a new Act.

MR. DEPUTY-SPEAKER: Can you amend something without an Act?

SHRI G. VISWANATHAN: By amending the Mulki Rules, which is a pre-constitution law, we are almost enacting a new law, which attracts article 16(3) and so unconstitutional. We cannot enact a new law unless article 16(3) is amended, according to the Supreme Court and the jurists appointed by the Government of India.

If the Government do not want to consult the Attorney-General, they may refer it to the Supreme Court for its opinion. I want to know from the Minister why they are shirking their responsibility and why they are afraid of referring it to the Attorney-General, when a unanimous demand has been made by all the opposition parties that it should be referred to the Attorney-General.

Further, this Mulki Rules Bill does not satisfy either area of Andhra except some Members, and that also when they are inside the House. According to the Members from both Andhra and Telengana, the situation there is explosive. Nine Congress Ministers have resigned in Andhra and they have formed an Andhra Congress. The army, the CRP, BSP or the police can control the situation, but they cannot run the administration. Let us be clear on this issue.

The House should be convinced the people should be convinced about the five-point formula. Before convincing the people, let them convince the Congress Party. Let them do it, because it is the

major party in Andhra Pradesh. If they are able to convince the Congress Members, Congress Ministers and Congress MPs, inside and outside the House, I think it will be acceptable to all. But, unfortunately, it is not so.

They say that this will be ending in 1977. I do not know whether it will be possible.

Is it possible to end the Mulki Rules in 1977? It is a very auspicious year. The elections are there. Can you go and tell the people that the Mulki Rules will end when the elections are there. I want to get an assurance from the Government whether the Mulki Rules will end in 1977.

Again, as far as the leadership is concerned, it is not strong enough to get all the people around the table and convince them. It is a very weak leadership of the Central Government. By passing this Bill, this will not serve the situation because the "Made in Delhi" Chief Ministers cannot control the situation. Although we are in favour of the progress and development of the Telugu-Speaking State, ultimately, it is for the people of both the regions to decide the question.

DR. G. S. MELKOTE (Hyderabad): Mr Deputy-Speaker, Sir, I rise to make certain observations today from the anguish of my heart. The two people speaking the same language Telugu, from Telengana and Andhra, are quarrelling over certain basic issues. It is not the number of people affected in the matter of services, though it is equally important, it is not any other factor, but what we in India are trying to do is to enunciate certain values for the progress of our country in which every citizen has a part to play and feel happy.

In this context, may I point out, even after Independence, in Hyderabad, we had a democratic Government only for a short period. The S.R.C. came in and said that Telengana is a viable unit and can

remain as such. But our Andhra friends felt that both of us should come together. The Mulki Rules were not enunciated in 1956. They were enunciated sometime back in 1918.

Before I proceed further. I would like to say that I really feel very sorry that on this question many innocent lives have been lost. The railway property has been damaged, whether in this region or in that region; should not matter. It is all ours. My hon. friend, Shri Raghu Ramaiah, said that he offered his condolences to the members of the bereaved families in Andhra area. I go further and say that we all of us from Telengana offer condolences to the members of the bereaved families in Andhra as well as in Telengana. We should have no such bias. We are all one. Human values have got to be preserved. What you and I are discussing here, it is shame to us that people who speak the same language should bring out their differences to be thrashed out before the Members of Parliament who may not understand clearly any of our problems. We ourselves can sit together and come to a certain settlement. It does not matter what time it takes.

The Mulki Rules were enunciated in 1918. The British Government thought that it was better to divide India into Hindu community and Muslim community, according to religious differences, the policy of divide and rule. The then Viceroy sent Sir Ali Imam as the Chief Minister of Hyderabad State. Then, he brought in an influx of Muslims from U.P. and, therefore, the few opportunities that existed for the many local Muslims and a few Hindus were affected.

We had very little educational facilities. The facilities were very poor. The university had just come up. Even in 1947 for the whole of the dominion we had only three intermediate colleges, one women's college, one university and one college affiliated to Madras University. In 1947, the total number of students in the University were not even 3000 in all the

(Dr. S. Melkote.)

facilities. This was the extent of our backwardness. One should try to understand the background of it.

The whole area of nearly 84,000 sq. miles could have then be divided into three parts one third of the land belonged to Sarfkhass, that is, Nizam's own land one-third belonged to noble-men, that is, *Paigahs* and *Jagirdars* and the remaining one-third belonged to the people of whom Reddies and Kapus dominated and who owned all the lands so that the people had no land left. Educational facilities were absolutely not available. Therefore, in 1947 we fought for ushering in a democratic government in Hyderabad and we got it and were getting along fairly well. In that context, the Tungabhadra project came in. The whole of the old Hyderabad area contributed towards the development of the Tungabhadra project which has gone out to either the Andhra area or to Mysore. We are not sorry for it but we have spent money, for the development of an area which is not in Telengana today.

In this context, I would like to say that in 1923 the Hindus and the Muslims, both joined together to see that Muslims from the UP did not come in there. The enunciation of the Mulki rule was the result. In 1928 the Nizamsagar project was constructed and the Andhra people with their money came in there, and started purchasing land. Then the Land Alienation Bill was brought in saying that without the permission of the Government no land can be purchased by outsiders. This was the background of the whole situation. And, in 1956 it is not against the Andhras that we fought, it was against our own Chief Minister whose car was damaged and there were firings in Hyderabad in Afzalganj area and in Bhongir—in Telengana and not in the Andhra for maintaining the Telengana as a separate entity. They, the Andhras said 'Why not we two people come together and come to some agreement?' Then the Andhras offered this gentlemen's agreement. It is not that we asked for it. This Mulki Rules was not asked by us. It is they — offered it to the Telengana people

to assuage the feelings and other sufficient protection to the Telenganas resulting in the gentlemen's agreement being signed here.

I do not know what has happened. It has been a surprise to us. I want to make a bold statement here today. This gentlemen's agreement entered into by both the groups in the respective regions and decided upon unanimously in the Andhra legislature in February and August, 1956 resulted in the enactment of Public Employment Act in Parliament in 1957 wherein all the items of the gentlemen's agreement do not find a proper place and they are modified. It has been tampered with. By whom? I told Mr. Pant yesterday that it was the responsibility of the Central Government to get it implemented properly. That is tampered with and if the bureaucracy here, with the help of anybody else—I do not know who have tampered with the gentlemen's agreement and frequently the Public Employment Act is being mentioned but in the gentlemen's agreement, please find out whether any mention of a superior service or inferior service have been mentioned. The whole services, superior and inferior, more or less, have been included but the same have been tampered with in the Act and they have now said only inferior services should be included in the Mulki rules. There were none to question them then as this was done in 1957 but implemented in 1959 as by this time the Telengana area had been merged and ceased to exist. In this Act, if the superior services are not mentioned, is it our fault, the fault of the Teleganites May I know whose fault it is? How did this change take place? It is the values that are important. Promises held out are being broken. What is it that you are giving us today for Telengana? One thousand or two thousands or four thousands jobs.

Today, in that region, all the institutions, all the other institutions, the electricity Department the co-operative societies and the taccavi loans, the Land Mortgage Banks, even in the fertilizer

distribution in these districts are manned by 99 per cent by the Andhras and not by us. Teleganites have no place and Andhras are dominating everywhere.

What about the poor Muslims in our area? The Police Action came in and then they were 10 per cent of the population occupying 80 per cent of the services. They had no land, no other avenue of employment and no industry in that area. Then comes in a proposal after police action to reduce their strength to 10 per cent, in proportion to their population strength. They are decent gentlemen, very few people are really rabid or fanatic. You go to any part of India. You will see Hindus and Muslims living together but in separate bastees. But, in Hyderabad, the Muslims' houses and the Hindus' houses are side by side. We have lived together like brothers all these years. Today what is the position? They have become very poor. Is it not your duty to find out why this is happening? Is it not your duty to see why they are suffering? Have you looked into that? What have you done to ameliorate their conditions? On account of the agitation in Telangana in 1969, to get their support, the Government had one of their buildings restored back to them, the Darussalam. The then Chief Minister, Mr. Brahmananda Reddy, gave it back to them. A dead horse gifted back.... (*Interruptions*) The point is this that they are suffering and many of them were dismissed from the Government service and in this context the Police Services needed to be re-organised with the proper set of people so that the Hindus of Hyderabad may not take revenge against the Muslim population after police action for their past deeds. So, we sent our people to Vijayawada and other places for selection of people to the Police force and today 60 per cent of the police force then selected are already from Andhra area and the present Bill wants more of the Andhras to be recruited with regard to the police services in the Hyderabad city. Those people then recruited in 1953-54 already are on the Telangana pay list

Now, you say "Andhra people have no protection in the City". They have already 60 per cent of the police services in the city and you want now to have cent per cent in the combined Police Services? Is it that you want to smother us? What is this idea. The question is this: is it not a fact that we asked for this Mulki rule in the gentlemen's agreement. Andhras gave it to us. The gentlemen's agreement that was enunciated here has not been properly enunciated in the Public Employment Act of 1957 by the Government of India after Telangana ceased to exist as a separate entity. Whose fault is it? I would like to bring in a motion to make an impeachment against those people in the Central Government who have done this tampering with it in this manner. Have the Central Government officials connived with the Andhra Government services to have this change brought about in the enactment of the Public Services Employment Act in 1957. If it is so, it is a very serious matter. It is the Andhras and the Central Government who are responsible for this and not we. In this context and due to this enactment when the Telangana Services are suffering and appeal to courts to obtain justice from 1957-1969, everytime that the court gave a verdict in favour of Andhras they were immediately implemented but if it was in favour of Telanganitis, it was not implemented.

The Government of India lent support to the ICS officers at the Centre and in Andhra; they appear to have connived at the whole affair here and there. And then, when the Supreme Court gives a decision ultimately in our favour, is there any fool who would say that we would feel very satisfied if 12 to 14 annas in a rupee of this judgement is implemented? That is what is happening. What is it that you are talking about? It is not a matter of 2,000 jobs or 4,000 jobs. Our lands are gone; our financial and other institutions are in their hands; much of the money of the State Government is spent through PWD and work done through contractors, but in the Telangana area the Muslim and Hindu contractors have been completely elimi-

[Dr. G. S. Melkote]

nated and not even 1 per cent of them get any contract at all now. How can we exist? This is the problem that is facing us and therefore we want to separate. There is this unholy alliance in Andhra area between the bureaucracy, Andhra politicians and students and that is the bane of our trouble. The peasants there have nothing to do with it. This is the situation. What our Minister Shri Mirdha has said is correct. But in the Telengana area the whole population backs up the Mulki movement as it affects every individual. It is a mass movement. In 1969 as many as 350 lives were lost in the agitation in Hyderabad city.

In this Bill, in Clause 4, the Mulki Rules as it exists today is being invalidated and the irregular appointments for Andhras already made during these 17 years get validated. What about employment for us? We, the Telanganites, are not going to get any employment at all, either in the past or future. Whatever we lose due to validation, we lose; whatever employment we may get in future till 1977 or 1980, we will not get, because the employment potential is very bleak. Therefore what is the idea of the whole Bill, Sir? Are there any human values given to our suffering? Under these circumstances we say, thank you very much, if you want to go, you may go, let us be left to live honourably. Where do we stand? What have they done to us? How much of their riches have been brought in to help us? I would like to ask them. I do not want to speak with emotion. I am speaking the truth.

What is necessary for them is to create the confidence in our minds. Let them say, have the Mulki rule for any length of time and we will behave like gentlemen. The Promises made will be fulfilled. It is after that that we may say, after some years when improvement takes place that things have changed and we may not want the Mulki rules any longer. Such a situation should arise, when alone the Mulki rules could be abrogated.

Sir, I do not want to take up much of

limit. These are things of value and until and unless confidence is created in our minds nothing can be done. They have placed the Prime Minister's prestige in jeopardy. We know that they have pressurised her to do certain things for them if they desire, and we have offered it let there be a separate Andhra Regional Committee, separate Secretariat for Rayalaseema and Andhra, colleges and schools in Hyderabad with their money being spent. We have no objection. They do not want to look at all these things. They want to ride roughshod over our interests. These are the things that are happening. These things should be understood properly. I am afraid whether there would not be bloodshed if separation immediately does not take place. It should be avoided. We appealed to our people to be non-violent and to allow this question to be decided by democratic methods. In Hyderabad there is a complete control over the situation. Nothing serious has so far happened. But some Telangana men were lynched in Andhra area and in reprisal the Telanganites are saying that they were not going to Co-operate with Andhras in any matter in the Telangana area; but we have no desire to trouble them in any manner. If they want to go back let them go back. But we are not going to cooperate with them. So, our people are offering passive resistance and non co-operation with the Andhras. What is wrong about it? In Bardoli, in the British times, we offered such passive resistance against our own people who helped the British. What is wrong about it? We say to these gentlemen our Andhra M.Ps who are all our good friends, if you want to separate, which we also want, please do so. We would thank you very much for it. We would be grateful to you. We would give you a good send-off I think possibly after separation we can live together better than what we are doing today. Separation is the best solution.

SHRI FRANK ANTHONY (Nominated-Anglo-Indians): Mr. Deputy Speaker, Sir, I rise to oppose this Bill. That we see today in this House and in Andhra

country, and the tragedy is heightened by the fact that in 1953 I had predicted what the country is paying for today was the original sin of Andhra Pradesh....

SHRI P. VENKATASUBBAIAH (Naudyal): He is very wrong.

SHRI FRANK ANTHONY: It was the original sin of Andhra Pradesh. Let me finish what I was going to say. My hon. friend does not know what I am talking about.

SHRI P. VENKATASUBBAIAH: He himself does not know what he is talking about.

SHRI FRANK ANTHONY: Alone in this House, long before my young friend began to wear pants or dhotis, I had opposed the formation of Andhra Pradesh in this House, and the *Statesman* at least in an editorial paid me the tribute of saying that what I had said would perhaps reverberate down the corridors of India, and that reverberation you have today. Dr. Katju was then the Home Minister.

SHRI P. VENKATASUBBAIAH: This is not a linguistic quarrel.

SHRI FRANK ANTHONY: Then, I told him 'For this tragedy that you are perpetrating against India, this crime that you are committing, this criminal hostage to disintegration, posterity will either burn or hang your effigy' Dr. Katju got up and left saying that I was abusing him. He forgot that I was and that I wanted to be a fairly good pastmaster in the art of parliamentary vituperation. Be that as it may, and that is the irony, this original sin of Andhra Pradesh has moved a full circle, and it has come home to roost for the whole of India. I see what is happening as a terrible unspeakable tragedy. I said that Andhra Pradesh would precipitate not only a multiplicity of linguistic States but ultimately those same linguistic States which they were then breaking the country into would in turn further break up, and that tragedy, as I said, is happening today. I also said this. But who listened?

AN HON. MEMBER: Better not to listen.

SHRI FRANK ANTHONY: I do not know whether my hon. friends have had the courage to say what they are feeling. But I stigmatised the creation of the linguistic State, starting with Andhra Pradesh, not only as a criminal hostage to Indian disintegration, but I said that they were installing a more vicious variant of communalism that India had ever experienced, and now we have a new communalism worse than any of the old communalisms which had become fashionable to rant against. And what is it? They are now identifying political power with language-cum-region, and out of that, they are now getting a new evil chauvinism, the worst kind of linguism-cum-regionalism fortified by political power. And you are seeing it today, the tragedy in the country.

My hon. friend Dr. G. S. Melkote spoke with tremendous emotion, and I could appreciate what he was saying....

MR. DEPUTY-SPEAKER: There were more emotions before the hon. Member came here.

SHRI FRANK ANTHONY: He spoke deeply with emotion, but he did not rant, and that was why his emotion for me was perhaps a little more persuasive.

And what happened? That is the tragedy. What I accuse the Government of today is that it is not only covertly but overtly affirming and sanctifying this new vicious variant of communalism, linguisable-cum-regional chauvinism.

What is the 'sons of the soil' movement? What are they doing about it? There is the Shiva Sena philosophy, not Marastha for the Maharashtrians, but Maharatta for the Marathi-speaking people. What are Government doing about it? Not only indirectly but directly they are affirming it.

SHRI SHIVAJI RAO S. DESHMUKH (Parabhani): All the leaders in the Shiva Sena are Brahmins by caste.

SHRI FRANK ANTHONY: What are they doing? As I say, they are not only indirectly but directly affirming it. This Shiv Sena philosophy has corroded every State Government in this country. And whatever their protestations are, you affirm it, the Central Government affirm it. Because unless you exercise this power under art. 16(3), no State Government can have quotas on a regional basis. You come in and got legislation passed. You are affirming this evil 'sons of the soil' movement.

I know what is happening. My friends are in millions, Hindus subscribing to the same language, the same religion, and they are oppressed. You know the unspeakable oppression of the other minorities. I am not going to talk about it. But we know. In the name of the 'sons of the soil' movement, in Gujarat they would give to the linguistic minorities, Maharashtrians, no jobs. But what about the smaller minorities? You say they do not belong to the State, because they have not lived there permanently, for 15 years. They may have been in government offices, transferable from one area to another, and so they have their homes there. Their fathers were there. But you say they are not eligible, their sons and daughters are not eligible. You go further and say, 'You cannot get into any State college'. That is the tragedy of the smaller minorities.

MR. DEPUTY-SPEAKER: Does this Bill not seek to deal with that?

SHRI FRANK ANTHONY: I will come to that a little later—I do not want my voice crossed.

The Centre is affirming this. I am told by MLAs in different States that the Centre now has issued some kind of directives: not only will the sons of the soil be the only people eligible for government service, the public sector has

take in these people who qualify under the 'sons of the soil' concept.

As for private people, there is a friend of mine who runs a big business concern. He says, 'I have got a directive from the West Bengal Government to give preference only to the sons of the soil'. You know how the Hindi States are interpreting it. 'Sons of the soil' do not mean people in that State; it means people whose mother tongue is Hindi.

What does the Commissioner for Linguistic Minorities say? You adopt a memorandum solemnly. Shri Pant's father, Govind Ballabh Pant was there. I had something to do with that. He placed it on the Table. Solemnly the State Governments accepted it, that you will not insist that those whose mother tongue is not that particular language will pass the entrance examination. What does the Commissioner for Linguistic Minorities say about the Hindi State? And what does the Central Government do? It comes here, makes excuses. The whole attitude, I say with great respect to Shri Mirdha, was a disgustingly non-possumous attitude: What can we do? What are our powers.

You see what is happening. As I say, it is a tragedy, not only for the people of Andhra Pradesh; it is a tragedy for the whole country.

You, Mr. Deputy-Speaker, asked me: are you not trying to deal with the 'sons of the soil' movement in this? It is even more vicious. At present, it is sons of the soil, that is, those who speak the language of a particular State. But you are applying it in an even more vicious form. Now you are saying that the 'sons of the soil' concept will only apply in a part of the State. I do not think it is going to stand up to challenge in the courts. I am not going to argue that, because the idea of art. 16(3) that you could have this evil 'sons of the soil' concept for the whole State, but you cannot apply this concept only to a part of the State. Anyway, be that as it may. Let Government cross that hurdle when it comes.

Is this not much more vicious than the old communalisms? You killed the old communalisms when you said: No more quotas. Those Muslims those Anglo-Indians and so on, we, the minorities, got quotas; they were only the crumbs we got. Today I do not know what is the position of the other minorities. I know about my community. No service at all is open in the States to a small minority because of this accursed 'sons of the soil' movement which the Government affirms and reaffirms, fortifies and re-fortifies. This is what is happening.

I told my hon. friend, Shri Bhandari: the day you give up your quotas, from that day not one Scheduled Caste will get into service anywhere. These unfortunate people come to me because they cannot get justice. When cases are being investigated they cannot get justice; Cases have been tried; and they cannot get justice when the cases go to the Supreme Court. That is the tragedy of the Scheduled Castes today. They have no quota in the promotion cadres. They come to me every other day. They are not taken into the promotion cadre. Not even God will help them when their quotas go. At least now they get it so far as some recruitment is concerned. But if they ever gave it up or are so ill-advised to give it up, I think the minorities will greatly suffer and even God, I think, will not be able to help them to get any kind of employment.

MR. DEPUTY-SPEAKER: How has all this got to do with the Bill, Mr. Anthony?

SHRI FRANK ANTHONY: Yes; the Government is having this cleft-stick. This is a pernicious sanctification of the sons of the soil movement in a part of the State. I do not know; you are not going to stop it. It is like trying to close the stable door after the horse has bolted. You will not be able to stop it. Somebody asked me, "If we allow them to separate, what will happen to Vidarbha? What will happen to Saurashtra? What will happen to Chattisgarh?" I asked, "What will happen?" Do you think this

is going to stop it? If by any chance—I do not think there is one chance in a million—you resolve this through the Mulki Rules, immediately, you will get the demands from Vidarbha, Saurashtra, from Uttar Pradesh, from Madhya Pradesh, for similar Mulki Rules for their areas.

MR. DEPUTY-SPEAKER: The hon. Member's time is up.

SHRI FRANK ANTHONY: I am finishing. As I said, this is a cleft-stick of the Government. You cannot get out of it. What I say is this. Look at the tragedy. This is dangerous temporising because you are playing with human lives.

As I see, as I look around rather objectively, I see the extent to which the position has become absolutely irreconcilable. This Bill is going to be a dangerous exercise in temporising. All I can say is that it does not solve anything. There is going to be much more bloodshed and ultimately the Government will come and say, "Let these people separate." But what I say is, let them separate now. Let them go in peace, because the danger is this: all the smaller minorities will get the backwash. The danger is this: If you impose this and if it is not acceptable to either side, then feelings will become so inflamed and there will be utter tragedy: Hindus, belonging to the same religion and the same language, will become so utterly bitter and hateful towards each other that the Telengana person will not be safe; his wife and daughter will not be safe in the Andhra region. And the Andhra person in the Telengana area will be in the same position. What is the good? As I said, it is an exercise in temporising.

Take it either way. If it succeeds, you will get a similar demand. But if it is not going to succeed, the only consequence is that a lot of innocent people are going to lose their lives.

SHRI PATTABHI RAMA RAO (Rajamundry): Mr. Deputy-Speaker, Sir, this linguistic States conception is not a new one. It has a history of more than half a century. The father of the Nation had given it his blessings as early as in the twenties of this century. Actually, ever since then, the Telugu-speaking people have been stressing to form a State of their own. Stalwarts like the Andhra Kesari,—Prakasam Pantulu,—Kaleswara Rao, from the Andhra region, and Madapathi Hanumantha Rao and Gurukula Ramakrishna Rao from the other region—I am just giving only a few names—all of them were doing their best to see that Andhra Pradesh was formed in the year 1956. 16 years have passed since the State has been formed, and during these 16 years there were governments there, and there was a peaceful atmosphere till three years ago.

Actually, the Telengana region was known to be backward. There is no doubt about it. That is exactly why more money was spent there. Many projects have come in there and if, today, there is such a clamour in the Andhra area that all the money has been spent there and that in spite of it they are not treating us properly, it only requires—

SHRI S. B. GIRI: Not from Andhra. The money spent there is not of Andhras.

SHRI PATTABHI RAMA RAO: Andhras also have contributed.

SHRI S. B. GIRI: Not a single pie; on the other hand they have looted us another Rs. 6 crores.

SHRI PATTABHI RAMA RAO: Andhras have been living in Hyderabad and money has been contributed by them and surely money has gone to both the regions. While so much money has been spent, why is there this feeling? The Andhras, the lawyers or doctors or others who are living in Hyderabad—their children cannot be admitted in the colleges of Hyderabad, in the State capital they could not get facilities or jobs. Hyderabad is supposed to be the capital of that State. Do you see a parallel in

any other capital, anywhere in India? How long is that to be tolerated? That was the feeling in Andhra which is now bothering every one of them. That is why agitation started. The Ministry is to adjust both the regions and it was possible. Then they came to the Prime Minister; the Prime Minister asked them to resolve it among themselves and give her a solution. In spite of the best efforts of a stalwart and senior politician like Mr. Chavan visiting that place several times, they could not come to any agreement and finally they left the matter to the Prime Minister for her award and she has given an award after consideration, careful thought. One of my predecessors said that that award was morally binding on all of us.

Personally, I feel that the five point programme which she has given will serve the purpose certainly and in due course everybody will feel that in that State all are one and the separatist mentality will not be there after 1976 in the city and in the entire State after 1980. Personally I feel that we should live in Andhra Pradesh as one State. In Hyderabad city, when there is so much of development both culturally as well as economically, we should certainly try to see that Andhra Pradesh is not divided under any circumstances.

Legislation that has been brought forward after the Supreme Court judgment is absolutely necessary; otherwise there will be big confusion and orders that had been passed since 1956, some of them at least, will be null and void. This legislation is to be supported under any circumstance.

I am only surprised at the speech of Jan Sangh leader Shri Joshi who says that there can be small States and they will prosper. With the little Hindi that I could follow translated into English, for Telengana and Andhra he gives the parallel of Punjab and Haryana of Maharashtra and Gujarat. What comparison does he make? Gujarat and Maharashtra are not speaking the same language; similarly in Haryana and Punjab also. But in Andhra this is not the

case; we all talk Telugu and we are all Telugu people and we do not like to be separated like that and separated into small pieces. Probably Jan Sangh may feel happy if there is any trouble there and I can assure them that they have no place whatsoever there, even though he may dream that a such thing would happen and the State would be divided; it will not happen. I am surprised at Dr. Melkote's remarks that the people of Telengana have been suffering at the hands of the people of the Andhra region all these years. If you see what is happening in Andhra, it is the other way about. But why go into that now? Now that the limits have been set at 1977 for the twin cities and 1980 for the other areas, the whole State will be one after 1980 in every respect. We should feel happy with this Bill and support it. After all, the Prime Minister has taken a lot of pains in giving such a good award. We must respect it. I come from a region where today the tempers are very high they are not happy with the present situation. But if it is explained to them, they will know in course of time what it is and they will calm down and support the idea of having a single Andhra Pradesh, instead of having two separate States.

PROF. MADHU DANDAVATE (Rajapur): Sir, at the outset I would like to say that there are a number of honest differences of opinion on this issue and on the entire Mulki Rules Bill. I feel these differences in the House are really the reflection of acute differences of opinion that exist in Andhra, Telengana and other parts of the country and without challenging the bonafides of any point of view, it should be possible for us to debate calmly and coolly the various constitutional, socio-economic and political issues involved in this. There can be honestly different points of view about States reorganisation and we need not brand one school of politicians as integrationists and the other school of plans as disintegrationists. We had, for instance, the Greater Bombay State, which was demanded on both sides, let us have a Maha Gujarat and a Samyukta

Maharashtra. Movements on both sides were led by veteran nationalists, whose progressive character could not be challenged.

16.53 hrs.

[SHRIMATI SHEILA KAUL in the Chair] But even at that time some suspicions were created and the demand for States' reorganisation on the basis of language, which was upheld by Mahatma Gandhi, was considered a separatist tendency.

When the demand for Punjabi Subha was made, many said, how can we take such a risk about a border State? But after the Chinese aggression it became evident that the very Punjabis whose patriotism was suspect in the eyes of some defended the borders of the country and the opposition to Punjabi Sabha completely subsided. There is no challenge to nationalism in the Punjabi Subha that was carved out.

Therefore, let us analyse what are the constitutional, political and socio-economic implications. Let us see whether there is genuine cause for tensions in these areas. I am one of those who never take a doctrinaire view whenever tensions develop in various regions. As a nationalist, a secularist and more than that a socialist, I am more interested in seeing that the tensions are eliminated, so that developmental activities are taken up and programmes of social revolution can be undertaken. I would like to analyse it from that point of view also.

I would also try to put forward before you one point which has not been brought before the House for discussion so far. While taking any decision of this type, as we are doing through this Bill, we must try to respect the various democratic institutions, functions and traditions in the country. In our country, under the provisions of the Constitution, the Telengana Regional Committee was created under article 371, and orders were issued by the President of India in the year 1958. That statutory body that was created, namely, the Telengana Regional

(Prof. Madhu Dandavate.)

Committee, has taken some decisions which you, in your wisdom, might not consider to be wise decisions. But here is a statutory body which has been created by the President under the provisions of the Constitution, and that statutory body has come forward with certain unanimous recommendations. Here we must remember that all the legislators coming from that region are members of that Committee. That Committee has stated, after going through the provisions of this Bill, that these provisions do not fulfil the aspirations of the people.

Here we are talking of various agreement. Formerly, there was the gentleman's agreement. Now a lady's formula seeks to replace the gentleman's agreement. I have nothing against either. But when various committees and commissions have expressed their views and when the Telengana Regional Committee have unanimously expressed the opinion, let us not side-track their point of view and say that a monopoly of wisdom lies with us, even though with our majority we can take that decision.

Just as we have given our point of view, the Telengana Regional Committee have also pointed out and categorically stated that there are certain complications that are involved, because of the Supreme Court judgment, as long as article 16(3) of the Constitution is not amended. I must submit that though I have always said that we must have the supremacy of the Parliament in amending any Act, at the same time, we are not going to challenge the powers of the Supreme Court. When we discuss this issue and finally adopt this Bill, I have not the least doubt, I completely agree with Shri Frank Anthony, that when this matter goes to the Supreme Court, the legislative competence of this Parliament to enact this Bill itself is bound to be challenged. Therefore, I would take a sober note. I would not say that only what I have been saying is correct. I would not say that whatever Dr. Melkote or Shri Giri is saying is the final truth. But when there are differences of opinion, when there is a Supreme

16(3) in terms of article 35A against certain restrictions placed by article 35B, we have to take legal counsel. The President, under his constitutional powers, must refer this matter to the Supreme Court for testing its constitutional validity. Therefore, let us not rush this measure; let us postpone this issue. Let us see that this particular Bill is circulated for eliciting public opinion. If that is done, we can know the *pros and cons* of this problem which we might lose sight of in the heated passionate discussion that we are having in Parliament and outside at the present time.

There are two or three constitutional aspects to which I want to draw attention. This is not the first time that such matters have gone to the court. The very basis of this Bill had gone to the court of law and there has been one important judgment. The Public Employment Act, 1957 was challenged before the Supreme Court as violative of article 16(3) of the Constitution inasmuch as the Public Employment Act relates only to a part of a State. Consequently, it was struck down as *ultra vires* the Constitution.

17 hrs.

As far as seeking the advice, opinion or viewpoint of the Supreme Court is concerned, there is a certain background. Kerala Education Bill, 1957—Mr. Anthony will be able to say whether it is wrong—Delhi Laws Act, 1951, the Berubari Union case, 1960, these are all matters that were referred to the Supreme Court to find out whether the constitutional position was sound. Therefore, I would very much like that let some time be given to legal pundits to find out and explore the legal position.

To the sociologists and politicians, to see what is happening there, the political aspect is that instead of Mulki Rules Bill trying to settle the problem in Andhra Pradesh and Telengana, it is trying to perpetuate the tension. Andhra people who are opposed to the creation of Telengana for diametrically opposite reasons, and the politicians in Andhra and politicians in Telengana have come to the conclusion that rather than having

Mulki Rules, it is better that we bring about a bifurcation and, to a realist like me, I will keep even the door of bifurcation of Telengana open, rather than facing the danger of heightening the tension and causing serious damage to the economic developmental activity.

SHRI P. V. G. RAJU (Visakhapatnam): Madam Chairman, I rise to support the Bill.

On one essential issue, namely, history, I would not like history to repeat itself. I use the expression "repeat itself" because, as you know, Andhra was a united empire and, in 1562, in the battle of Khondur, the Vijyanagar empire was defeated by the Muslims and, from that day onwards, not only Andhra but the whole of India was broken up into smaller and smaller States. Therefore, I would not like to a party to the breaking of Andhra Pradesh again.

I feel, the ghosts of Bhamni kings are still stalking the land of Andhra Pradesh. As a matter of fact, Telengana is the residue of Nizam of Hyderabad. One can say, Nizam is an anachronism. But the fact is that Mulki Rules were created by the Nizam for the benefit of the local people in Telengana against people who have been coming from U.P., Bihar and Madhya Pradesh. I do not want to get into non-secular argument. But I am afraid, the whole idea was to give protection to local Muslims against the Muslims from Uttar Pradesh, Bihar and Madhya Pradesh. Therefore, in an indirect sense, it has a communal background. I believe, by supporting Mulki Rules Bill, in any manner, we are supporting the residue or off-shoot of casteism and communalism.

I would support the Bill because I think it nullifies the question of reservations in employment. I would not like the history to repeat itself. As a matter of fact, if I may quote from history, the battle of Khondur was fought in such a manner that the Army at Khondur was

divided on the basis of caste. The fact is that Bhamni kings attacked Vijyanagar and the Army of Vijyanagar was divided because of the disunity and the breakdown of Vijyanagar empire was the cause of the ruination not only of South India but the whole country, I am afraid of the residue of Bhamni kings, and the foreigners attacked India. Therefore, I feel, unless we support the Bill, we cannot undo that. Of course, my friends there may say that reservations will go on till 1980. But, I am afraid the time factor is such that we have to go on waiting upto 1980 because we cannot reverse the whole thing by one stroke of pen. I feel that we should support this Bill and allow for the linguistic States to fully fructify after 1980.

***SHRI MAGANTI ANKINEEDU** (Gudivada): Madam Chairman, this Bill has been introduced because of the decision of the Supreme Court. I want to ask as to why this has been taken to the Supreme Court. Who will reply to this point. There is a regional committee for Telangana and we all expected that it will be under the State Assembly. But later on it happened that this regional committee has been divided into sub-committees etc., and Andhras had no voice in it. Later on it was found that they made political capital out of this regional committee and sub-committees and went to Delhi to suit their own purposes. Therefore Andhras had no quorum on which they can speak. If some 10 person is Andhra speak against this Committee then they are dubbed as separatists.

The present movement in Andhra is a spontaneous movement by the people and it is unprecedented. It is not inspired or encouraged by any-body. The other day Shri Indrajit Gupta also said that this movement is inspired by somebody but later on he withdrew it. This movement is spontaneous. Even Mr. Eswara Reddy said like this but I want to make it clear that this movement is unprecedented and

[Shri Maganti Ankineedu]

a spontaneous movement by the people. I want to impress on the Central Government the gravity of the spontaneous movement by the people and I hope they will think over this problem deeply and take necessary action.

I want to ask as to why whether these Mulki rules are applied to doctors, lawyers, engineers etc. and then what will be their fate. If these doctors, lawyers and engineers are transferred to Andhra Pradesh and those jobs are given to Telengana then what will be the fate of those doctors, lawyers and engineers who have been deprived of their jobs. In this way there are many problems. I want to state that these Mulki rules are not given effect to those who have gone over to Maharashtra and Mysore. I want to ask this. What is the necessity of applying the Mulki rules only in the State of Hyderabad and not to those regions which have gone to Maharashtra and Mysore. During the recent disturbances in Andhra Pradesh many people have lost their lives. It is not enough only if we offer condolences to them and I request the Government to order a judicial inquiry into the causes of those disturbances and come to a decision which will satisfy all parties. We members of the Congress party, MLA's and MPs requested the Prime Minister to give an award for the sake of maintaining the integrity of Andhra Pradesh. Therefore, as members of the Congress Party we are all morally bound to support this formula of the Prime Minister. Our forefathers and ancestors have struggled hard to maintain the integrity of Andhra Pradesh. We are also bound to maintain that integrity. But I want to state that people are not satisfied with this formula. We can speak here sitting as Members of Parliament but tomorrow we have to go to our native places and face the wrath of the people. We have to explain to the people of Andhra Pradesh that is our predicament. Therefore, I request the Government to consider this problem seriously and take note of the explosive situation in Andhra Pradesh and come to an amicable solution of this problem.

श्री माधू राव विषी (नागौर)

समापति महोदय, जिस विधेयक पर इस समय सदन में चर्चा चल रही है वह बहुत महत्वपूर्ण विधेयक है और उस को जल्दी से जल्दी पास करने की जरूरत है। मैं राजस्थान से आता हूँ और इस लिये मैं आन्ध्र प्रदेश के लोगों से एक अपील करना चाहता हूँ। राजस्थान 22 रियासतों का एक राज्य बना है। छोटे छोटे 22 तरह के राजाओं के कानून थे, 22 तरह के राजाओं के नियम थे और एक राज्य से दूसरे राज्य में जाने के लिये अलग अलग नियम थे जैसे एक देश से दूसरे देश में जाने के नियम होते हैं। इस तरह के हालात थे। कई इलाके पिछड़े हुए थे और कई इलाके उन में से आज तक पिछड़े हुए हैं। राजस्थान के इलाकों को पिछड़ेपन को ले कर एक दूसरे के खिलाफ शिकायत भी रहती है। पर अगर उन शिकायतों को ले कर हम आज राजस्थान को तोड़ने की बात सोचें तो मैं समझता हूँ कि हम राजस्थान में रहने वाले लोगों की पीढ़ियों के साथ इतना अन्याय करेंगे कि वह कभी भी तरक्की नहीं कर सकेंगे। वहाँ छोटे छोटे यूनिट्स बहुत से थे। अगर उन सब की तरक्की होती तो उन में खुशहाली होती क्योंकि आखिर हिन्दुस्तान के आजाद होने के बाद राजस्थान के एक बड़े सूबे होने का मतलब क्या है?

आज आन्ध्र प्रदेश में जो स्थिति बन रही है उस की ओर हम को देखना पड़ेगा। आज उस सूबे की एक इज्जत है, उस का एक राजनीतिक वातावरण है। अगर उस राजनीतिक वातावरण को आप टुकड़ों में तोड़ना चाहें तो कैसे काम चलेगा? इस से इस राज्य की जो एक पहचानिदी है उस को बड़ा धक्का पहुंच रहा है। इस लिये हम को इस पर गहराई से विचार करना चाहिये। आन्ध्र प्रदेश के लोगों को कुछ बातों के बारे में शिकायत हो सकती है कि उन की एक भाग

कौंसिल कनी हुई है, उन का एक अलग बजट है और वह अलग तरह से चलता है, मुल्की नियमों के नीचे भर्ती में और सविस की सुविधाओं में कुछ इलाकों को ज्यादा सुविधायी की गई है ; हो सकता है कि आन्ध्र प्रदेश के बहुत से इलाके पिछड़े हुए हैं, आज भी राजस्थानीमा जैसे बहुत इलाके हैं जो पिछड़े हुए हैं । वहां बहुत काम करने की जरूरत है । उन के लिये धन चाहिये, पैसा चाहिये । इसी तरह से तेलंगाना के कुछ हिस्से पिछड़े हुए हैं । उन सारे हिस्सों को और आन्ध्र प्रदेश के हिस्सों को एक दूसरे से शिकायत हो सकती है और उन को पिछड़ेपन से आगे लाने की जरूरत है । लेकिन आज जिस प्रकार का वातावरण परिस्थितियों का बन गया है, सुप्रीम कोर्ट का जो जजमेंट आया है, उस से एक नये तरीके का सवाल खड़ा हो गया है, और जैसा आप ने कहा उम परजन संव वाले अपना दृष्टिकोण रखते हैं, दूसरी पार्टियों वाले अपना दृष्टिकोण रखते हैं । कई तरह की शिकायतों की जगह से आप में से और हम में से कई लोग हेवी हार्ट से अपनी फीलिंग व्यक्त कर रहे हैं । लेकिन क्या इतनी बुद्धिमत्ता हम में नहीं है कि इन सारी चीजों को हम एक साथ बैठ कर हल कर सकते ?

इस के बारे में आप के लिये एक मौका था, प्रधान मंत्री जी ने, भारत सरकार ने और हमारे नेताओं ने बीच में पड़ कर कहा कि एक साथ बैठ कर, एक हो कर झगड़े को निपटाओ । लेकिन अब आप किसी नतीजे पर नहीं पहुंचे और फैसला नहीं कर पाये तब इन्दिरा जी ने फैसला कर दिया । उस के बाद आप सब लोगों ने साथ बैठ कर उस के लिये हां कह दिया लेकिन अब कोई इस्तीफा दे या कुछ तरह की बातें करे, इस में मैं कोई राजनीतिक बुद्धिमत्ता नहीं देखता ।

मैं निवेदन करना चाहता हूँ कि आप बड़े बड़े लोग हैं, मंत्री हैं, जन नेता हैं, आप को

इस के बारे में सोचना चाहिये । नेता वह नहीं होता जो जनता के हिलने पर उस के पीछे हिलने लगे और उस की ही भाषा बोलने लगे । नेता उस को कहते हैं जो जनता को सही लीड दे, सही दृष्टिकोण दे और जा कर उन के साथ बीच में बैठ सके । जो फामूला आज के सामने पेश किया गया है, हो सकता है सब लोगों को संतोष देने वाला न हो । लेकिन यह एक ऐसा मामला है जो हिन्दुस्तान का राष्ट्रीय मामला है और हम को और आप को सारे देश को दृष्टि में रखना पड़ेगा । अगर देश में वायवर मूनिट नहीं होंगे तो हमारी कोई तरक्की नहीं हो सकती । वोटों को ले कर झगड़ा हो सकता है लेकिन देश के लिये, विकास के लिये ऐसा क्यों हो ? अगर देश की तरक्की करनी है तो देश के बुनियादी सिद्धान्तों को मान कर चलना पड़ेगा ।

आन्ध्र प्रदेश बनने का एक इतिहास है और दोनों भागों के लोगों ने एक साथ बैठ कर उस को बनाया है । मैं उस के लम्बे चोड़े इतिहास और भाषा के झगड़े में नहीं जाना चाहता । श्री ऐन्वरी पता नहीं कहां की बातें सुना रहे थे । वह माइनारिटी और लिगिबज्म में जा कर फंस गये कि पुराने नेताओं ने क्या कहा और क्या नहीं कहा और उन के मन में क्या डर है । मेरी समझ में नहीं आता कि वह क्या बात कह रहे हैं । उन के दिमाग में कोई डर नहीं होना चाहिये । हिन्दुस्तान में माइनारिटी और मेजरिटी संघ के लोग आराम से जियेंगे और रहेंगे । उन की भाषा और संस्कृति कायम रहेगी, उन का विकास और तरक्की होगी, वह कोई डर न रखें । वह हर वक्त किसी न किसी मामले को ला कर खड़ा करते हैं, उन के दिमाग में पता नहीं कौन से भूत दण्ड लक्षते हैं । मैं निवेदन करना चाहता हूँ कि कोई खतरा उन को नहीं है । मुझे मायूस है कि आज जो हवा है वह दो चार दिनों में बह जायेगी ।

[श्री नाथ राम मिर्धा]

मैं भारत सरकार से भी कहना चाहता हूँ कि उस ने जो फैसला किया है उस के मुताबिक कानून बनाने से किसी का नुकसान नहीं होना चाहिये। आज कुछ लोग वदमाशी कर सकते हैं, लेकिन उन को दबाये रखना ठीक रखना सरकार का काम है। थोड़े दिनों में सब कुछ ठीक हो जायेगा। हमारे नेता थोड़े दिनों में कोल्ड हो जायेंगे और सही मानों जनता को भागे बढ़ायेंगे तथा हर एक वर्ग एक दूसरे के प्रति न्याय और इन्साफ करेंगे। आज लोगों में कुछ बिखराव आ गया है, अलगाव से वह नजदीक आयेंगे। इसलिये मैं अपील करना चाहता हूँ कि सब लोग दिल मजबूत रखें और एक दूसरे के साथ बैठ कर ऐसा वातावरण बनायें सब काम शान्ति से हो सके। मैं जनता से भी अपील करना चाहता हूँ। आन्ध्र प्रदेश की जनता आम तौर से किसान है और खेती करती है। इधर भी करती है और उधर भी करती है, उनको इन झगडों से कोई मतलब नहीं है। आखिर तीन साल में नौकरियां के मामले में क्या हो जायेगा? कितने लोगों को मौका मिलेगा? बाद में हालात बदलेंगे और दोनों को बराबर मौके मिलेंगे, पर आज हम सही वातावरण जनता में बनायें, सही तरीके से उसको भागे ले चलें।

SHRI M. SATYANARAYAN RAO (Karimnagar): I rise to oppose this Mulki Bill, lock, stock and barrel, because it is not only illegal and unconstitutional but it is also irrational and immoral. I would not like to speak on the unconstitutionality of this Bill, because that has already been dealt with by

my hon. friend Shri G. Viswanathan and others, I would like to confine myself to the irrationality and immorality of this measure.

As you know, and as the House is well aware, the hon. Prime Minister and also the Central Government and other leaders in Andhra Pradesh have given so many assurances to the Telengana people. But, unfortunately, in this Bill, those assurances have not been given, but they have been completely forgotten. I do not know why. It may be under the pressure of Andhra MPs or others....

SHRI B. S. MURTHY (Amalapuram): No.

SHRI M. SATYANARAYAN RAO: If they are going to act under the pressure of so many people, it is no use having this Mulki rules or anything else. It is better to have a separate State.

When we started our movement in 1969, it was said that that was not going to benefit our region, and we were given so many assurances. About developmental activities also, the Central Government had given us so many assurances.

SHRI R. S. PANDEY (Rajnandgaon): It has benefited them.

SHRI M. SATYANARAYAN RAO: Even after 1969, do you think that any development has taken place there?

The most hopeless clause in this Bill is clause 4, under which the Central Government are going to validate all the appointments made since 1956 till today. We have complained to the hon. Prime Minister and the Central Government that the Andhra people have occupied our posts....

SHRI P. VENKATASUBBAIAH: Wrong.

SHRI M. SATYANARAYAN RAO: It is not wrong; it is a fact. Their own Chief Minister Shri Brahmananda Reddy has agreed. There was an all-party accord in January, 1969 on this matter. How can my hon. friend say that it was

wrong? The Central Government had also accepted it, and the hon. Prime Minister had assured us that they would rectify the matter. But instead of rectifying the matter, now they seek to validate all the appointments made since 1956. I ask them how they are going to benefit our Telengana people. By validating these posts, I think they are causing the death-warrant for the people of Telengana. Today, they are passing the deathwarrant and tomorrow, after passing this Bill, they are going to execute the deathwarrant against our people. This is the situation. I am sorry that my hon. friend Shri K. Raghuramaiah, a senior-most leader, who I thought was a very rational and reasonable leader was arguing and painting a picture as if the Andhra people had suffered.

It is not the Andhra people who suffered. He knows it well. The merger of Telengana with Andhra took place against the will of the Telengana people. At that time Panditji was alive; at that time Shri Govind Ballabh Pant was there. But unfortunately, the great daughter of Panditji and the great son of Pantji, instead of doing justice to us, are doing the greatest injustice to us.

You may say 'No, no. How are we doing injustice?' This is definitely doing injustice to us. You are not benefiting our people. At that time, even before this merger, the people revolted. They said, 'No, we do not want merger with Andhra'. Then the Andhra leaders came forward, saying 'Baba, do not worry. We know what are your fears. We will protect your interests. We will give you safeguards'. On their own accord, voluntarily, they provided these safeguards. But after the merger, they have completely forgotten about these safeguards.

You know that before the merger, there were also so many assurances given. It was said that Telengana is a backward

area and after merger, we will see that an amount from Andhra is spent on Telengana for the purpose of its development and advancement. But instead of spending money, instead of bringing money from Andhra, they have taken away Rs. 107 crores of Telengana's surplus and they have spent it on their region. And here Shri Raghuramaiah says, 'We, the Andhra people have suffered.' He is speaking against facts. These are the facts which are before the people, which everybody knows.

The former Andhra Chief Minister, Shri Brahmananda Reddy, himself agreed and assured us that he would rectify the matter. They promised to spend the amount again in Telengana. Also about the services, they give us an assurance, 'Yes, we have got the services; I will transfer all these people to the Andhra area and appoint Telengana people in their place'.

Now by clause 4, you are validating these services. That means they will become part and parcel of the Telengana people and they are entitled even to promotions in the Telengana region after this. That being so, how are we going to be benefited?

The Prime Minister gave so many assurances not only at the time of the Telengana agitation but before that during the selections to the Assembly in 1971. Speaking at Warrangal, she said 'If necessary, I will amend the Constitution to protect the interests of the people'. Are you protecting our interests in this way? Is this protection? I ask this as the representative of the people there. You may not take this seriously because you belong to other regions and you are not having such difficulties there. But as a representative of my people, I know what are our difficulties. We have to repeat the voice of our people.

Shri Mirdha was saying, 'No, no. Even in Rajasthan there are so many things'. May be. But our case is different: (Interruptions)

[Shri M. Satyanarayan Rao]

In Rajasthan, these safeguards were not given. But you have given us these safeguards in Telengana. You gave us the Regional Committee. You appreciated the reality. But instead of appreciating the reality of today, you say, 'We are also having these problems'. This is not going to solve the problem. I can tell the House very frankly that it is not only my opinion, but it is the opinion of 90 per cent of the MPs of Andhra and of Telengana that there is no alternative except separation, except bifurcation. This is the view of the people. We cannot go against the will and wishes of the people.

I know the hon. Prime Minister is for the poor people. But at the same time, she must be democratic also. Her father was a great man. On the death of Poti Sriramulu, he agreed to the creation of Andhra bifurcating the Madras State into Madras and Andhra. But here 350 people have died in Telengana. So many people died in Andhra recently. Lakhs of people have gone to jail. In spite of that, she is not agreeing.

I know her difficulties also here. But your difficulties are not going to satisfy us. I think personally she is not against it. But the great Chavanji is there. I know that he is a great leader. He is not only a great leader but a great grand-son of Shivaji. Not only has he been following in the footsteps of Shivaji but he has exceeded that. (Interruptions) I know that he is a great leader. There is no doubt about it. I admit it. But in this, selfishness is guiding him. He is guided by his own selfishness. He is afraid of his own Vidarbha. I can tell him that there is so much difference between Telengana and Vidarbha. The SRC has recommended it. It is not that we wanted it. The SRC has clearly stated that there will be difficulties after the merger. The fears of Telengana people are real. Then, when the report came before Panditji, he appreciated it. That is why the regional committees were formed and they came to a gentlemen's agreement. To link it up with the question of

Saurashtra or Vidarbha is wrong. Morarjibhai recently gave a statement to the press in Bombay. I was really surprised at it. He has boycotted this. The Vidarbha problem worries Mr. Chavan and Saurashtra problem worries Morarjibhai. Why do you link it up with these things? Our case is real and reasonable. You gentlemen should appreciate it. So, in this matter, please do not be advised by Chavanji and others, because his own selfishness is there.

MR. CHAIRMAN: The hon. Member's time is up.

SHRI M. SATYANARAYAN RAO: Please give me three minutes.

AN HON. MEMBER: He is enjoying your remark.

SHRI M. SATYANARAYAN RAO: It is not a question of his enjoying. It is a fact. You will have to face these facts. I know you will not concede this demand of the people from both the regions now. But you will have to consider it, if not today, tomorrow or three months or six months later. It is bound to come.

I think bifurcation is the only solution that has to be given. Everybody agrees. Shri Indrajit Gupta from the CPI—yes, I know your feeling is there, if, after all, you believe in democracy. If you do not believe in democracy, that is a different matter. (Interruptions) I know he agrees that the situation is like that. We cannot central the situation. You blame the other gentlemen that some jagirdars or reactionaries are behind this. But then I say your own people are demanding this. The Deputy Chief Minister and eight other Ministers are now coming out and saying that they want separation. Not only that. 80 Congress MLAs and the Congress President, and everybody is requesting Shrimati Indira Gandhi to bifurcate the State. Why don't you bifurcate? I am sure that this Bill is not going to solve your problem: either our problem or your national problem. You are always worried about your national repercussion. I think Shri Frank Anthony in a different manner said that these Mulki

Rules are going to harm you. But if anybody thinks like that, that still we can continue this integrated State, then I can only say that he is living in a fool's paradise. Please be real. I request this House and also request the hon. Prime Minister to come with a Bill to bifurcate the State. It is much better. This is nothing. I think this is going to be challenged before the Supreme Court again, and it will be definitely struck down. I am very sure about it. It is not only the opinion of the Members. This opinion has been given by Niren De, the Attorney-General, and other great jurists

The Supreme Court's judgment is very, very clear about this. In view of this, even now you can withdraw this Bill and come forward with another Bill to bifurcate the State.

MR. CHAIRMAN: I have a request to make. There are so many names of Members who wish to speak this afternoon. So, Members may kindly limit themselves to five minutes each. There are about five to six more speaker. We would like to give them a chance to have their say.

श्री हनुमन् चन्द्र कठबाय (मुरेना) : समय बढ़ा दीजिये काफी लोग बोलने वाले हैं । कल इसको आप चलाएँ ।

सभापति महोदय : इसको आज ही खत्म करना है ।

Shri Suryanarayana—absent.

SHRI J. RAMESHWAR RAO (Mahbubnagar): Mr. Chairman, it is with a feeling of anguish and regret that I have decided to put before the hon. Members of this House a very tragic situation that is now prevailing in Andhra Pradesh. My colleague Dr. Melkote has given the background to the problem, where it originated and how it has grown. Various references have been made about the possible unconstitutionality of this Bill

and the effect of article 16(3) and article 35(b). One aspect seems to have been over-looked. Even if the Mulki rules Bill becomes an Act and is not held ultravires on this account there is one other aspect wherein it might be considered ultra vires, that is under article 14.

17.31 hrs.

(MR. SPEAKER in the Chair)

The attempt to end the Mulki rules in one part of the territory in 1971 and in another part of the territory in 1980 as well as applying it to one set of services and not applying it to another set of services are all aspects which will come under the ambit of article 14. However, I shall avoid spending much time on the constitutional aspect of the Bill because when it becomes a law it will be challenged in the Courts and the Courts will give their verdict.

The Bill before this House is intended to bring into law the assurances that have been given by the Prime Minister as well as the Chief Minister of Andhra Pradesh over the years from 1969 right till the other day and provide safeguards for the people of Telengana in the matter of services. In this context it would be of interest if I quote from the debate of the Andhra Assembly before the Andhra Pradesh was formed. Mr. B. Gopala Reddi who was the Chief Minister of Andhra speaking on the floor of the Assembly on 25th November, 1955 said: "This Assembly would further like to assure the people in Telengana that the development of that area would be deemed a special charge and that certain priorities and special protections will be given for the improvement of this area, such as reservations in services and educational institutions on the basis of population."

I should like to draw the attention of my friend Mr. Raghu Ramiah about this resolution sponsored by Mr. Gopala Reddi and passed in the Andhra Assembly before

SHRI J. RAMESHWAR RAO Andhra Pradesh came into being. While referring to his remarks I may also refer to two or three other matters which he raised while speaking today. Mr. Raghu Ramaiah spoke very eloquently but eloquence need not necessarily mean clarity. He spoke about how students from one area can go and study in others areas in India. He said he would like his children to study in Hyderabad, in Telengana. It would interest him to know that the schools and colleges in Telengana have been more or less closed from 1969 and our own children are not able to study in Telengana or in Hyderabad and have to go out.

AN HON. MEMBER: What an excellent argument.

SHRI J. RAMESHWAR RAO: It is true and one should know what is happening and there is no point in closing one's eyes to it. They are closed partly because of the whole episode that has been taking place. I was reading the other day that the Venkateswara University and the Andhra University have been closed indefinitely. There is no administration in Andhra or Telengana. No Schools and Colleges are working. No papers move from one office to another or from one table to another in the same office. Mr. Raghu Ramaiah will, I hope, forgive me if I again refer to him. He said with a certain amount of arrogance, if I may use that word, "this State is ours and if you do not want to say, you can go out of it." He was referring to my colleague Mr. Giri when he protested. He said, get out of the State.

AN HON. MEMBER: No; he said, get out of the House.

SHRI J. RAMESHWAR RAO: I do not think he has any business to ask any member to leave the House. The only person who has that right is you, Mr. Speaker. I am mentioning this because it is precisely this attitude of arrogance on the part of the Andhra rulers that has led to a feeling in Telengana that they cannot remain in that State. It is not a

few thousand jobs, I assure you but it is the general attitude and it is not possible for the people of Telengana to accept this kind of arrogant, dominant attitude. We are not used to it. We believe in democracy and democratic functioning.

Mr. Raghuramaiah made another very interesting observation. He said, the revenues of Hyderabad city are Rs. 36 crores. Because Andhras form two-thirds of the population and Telengana people form one-third of the population, he deducted that Rs. 24 crores are contributed by them. A very brilliant analysis! He is a great mathematician! and he said only Rs. 12 crores are contributed by the Telengana people. In actual fact, we have made a calculation of the contribution of Andhras to the revenues of Hyderabad and it comes to about Rs. 1.5 crores. As against this, the advantages they derive are worth Rs. 7 crores! Government can appoint a commission to go into this and give a report. We do not have to make conjectural statement to mislead the House or to give a certain emphasis which is not right.

Dr. Molkote has given you the background of the whole Telengana problem. I shall confine myself briefly to three or four matters. This Bill seeks to put into an Act the assurances, given in 1969, 1970 and 1971 before the Telengana Praja Samiti merged with the Congress and also the assurance given by Mr. Brahmananda Reddy, who was Chief Minister of Andhra, on the floor of the House in Hyderabad in 1970. The Prime Minister in a statement made in this House on 27th November, 1972 mentioned that the Mulki Rules are applicable only to certain posts under the State Government and are not applicable to the All India Services and to posts in Central Government offices and public sector undertakings. On this, there can be no controversy. We wholeheartedly accept this position. But if you examine this Bill, it does not seek to give effect to the Prime Minister's statement. It curtails the operation of the Mulki rules very much more drastically. One would have expected that the assurance of the

Prime Minister given on the floor of the House, at least would be respected.

I would like to refer to clause 4 of the Bill. Thousands of appointments have been made after 1956. In her 8 point formula, the Prime Minister assured us in 1970 that many of these promotions and appointments which may have been wrong will be gone into by various committees that have been appointed. These committees are at the moment seized of these matters. But this Bill seeks to validate all the appointments made from 1956 up to date. Then, why was that 8 point formula and assurance given in 1970? Why were those committees appointed to go into each individual case of discrimination or wrongful appointment or promotion, if the intention of the Bill is to validate all these appointments? It is my view that this Act will not benefit Telengana in any manner. It does not provide any protection to Telengana. All that this Act seeks to do is to validate a few thousand jobs that have been wrongly provided, or a few thousand people who have been wrongly promoted. Sir, it will also interest you to know that four or five days ago a Government Order has been issued by the Chief Minister of Andhra that no fresh appointments shall be made until those who have already been appointed in excess of requirements are absorbed. These excess appointments came out of super-numerary posts, mostly from Andhra, which means for the next four or five years there will be no fresh appointment from Telengana. Then, why this Bill and why this guarantee? Is it only to serve as a sop to public opinion? Or, are we seriously interested in solving this problem of Andhra and Telengana?

I do not have very much to say except that I would beg of the Prime Minister—I find the Prime Minister is not here, I hope my voice will reach her—I beg of her on bended knees that she concede a separate Telengana State. The people of Telengana cannot remain happy in a composite Andhra Pradesh. She should concede, as early as possible, a separate Telengana State, which alone will bring

a certain stability to this region and security to the country.

SHRI K. RAGHU RAMAIAH: Sir, I would like to clarify a figure. During the course of my speech, I did not say that we are contributing Rs. 24 crores. What I said was....(Interruptions).

SHRI S. B. GIRI: It could be examined from records.

SHRI K. RAGHU RAMAIAH: To the best of my recollection, what I said was that out of the expenditure of Rs. 36 crores, we are contributing Rs. 24 crores. That is to say, there is an income of Rs. 36 crores and an expenditure of Rs. 36 crores. Out of this expenditure of Rs. 36 crores, the Andhra region is contributing Rs. 24 crores. So far as the income of Rs. 36 crores arising out of the Hyderabad city is concerned, the entire amount is credited to the Telengana Fund.

THE MINISTER OF FINANCE (SHRI YESHWANTRAO CHAVAN): Sir, I am intervening because of two reasons. Even in 1968-69 when the question of the separation of Telengana was raised, I had something to do with this problem. Then, when this question was again raised this year after the judgment of the Supreme Court, I had the privilege of discussing all the pros and cons and complicated aspects of this problem with the leaders of both Telengana and Andhra, not only of Congress Party but non-Congress parties as well. Although the emotions have now reached a certain pitch, at that time people were cool-headed and they were in a mood to consider problems more dispassionately and objectively. I found that with some few exceptions—especially these two Members who are sitting opposite; except them—the overwhelming opinion was in favour of the integrated State, because all of them felt that after nearly a century all Telugu-speaking people have come together. It was a historical achievement not only for the Telengana people but for the entire Andhra. It was the Telugu-speaking people that have given a lead to the formation of

[Shri Yeshwant Rao Chavan]

linguistic States, which is certainly a step in the right direction. But I am trying to put the whole question in a proper perspective. As far as the people are concerned, the question is to approach the problem more rationally. Their overwhelming need and feeling is that it is in their interest to have an integrated State.

Well, this problem has got its own history because no problem in India is without its history. So is the problem of Telengana. It was the spontaneous desire of the people of both the States that brought them together. Whether it was a gentleman's agreement or not is a different matter. Some arrangement was made. There were certainly some defects or certain deficiencies in the implementation of that agreement. Possibly, it may be so.

Many steps were taken last time when the Prime Minister announced 8-point formula which helped to bridge the differences and things were going on quite smoothly. Then came the Supreme Court judgment. I do not want to comment on the Supreme Court judgment because that is a different matter altogether. That is a matter that can be discussed at different levels.

As far as Mulki Rules are concerned, the feeling in Telengana was and is that, if at all there is going to be an integrated State, they should have a feeling of belonging to the State. That certainly is a very reasonable and a very rational demand. There is nothing wrong about it. But at the same time, Telengana people have a feeling that certain concessions were given to them, that they have some history and they have got some problems which needed to be solved. Therefore, this point was conceded to them.

There is one question which is very important for the integrity of the State and that is that this sort of reservation cannot have any permanency about it. I think according to me, the most important aspect of the Bill is that having accepted the necessity of having Mulki Rules for some time and that also to a limited

extent, even when Telengana and Andhra came together, it was agreed that not all the Services but only specific Services should be reserved for Telengana people. But how long even this particular type of reservation should go on is certainly an important matter and, according to me, this Bill is a very important development and improvement towards a fuller integration of the State by putting some sort of a time-limit on the period for which these Mulki Rules will continue to exist.

I would like to put it before the leaders of Andhra separatist movement that there was one other point which was important and which was a very significant point that, if at all we want to integrate the State, then the people who come to the Telengana side, to Hyderabad, must feel that they belong to the capital of one State. That is why, if you see the Bill, the Bill makes distinction between the application of Mulki Rules for a certain period to the capital city of Hyderabad and to the rest of Telengana area. This is, really speaking, a recognition of the strong feeling of the people of Andhra Pradesh that they belong to one State. But, at the same time, it would be very difficult to completely forget the whole thing, the whole history. People say that 16-17 years have gone by, but nothing has happened. You cannot undo the history of 400 years within a couple of years or even within five to ten years. There will certainly be difficulties about it. Naturally, you cannot merely straightway say 'Remove this and remove that'.

Now, some people have raised the question of the leaders of the movement. They have raised this question of the Regional Committee and Mr. Raghu Ramiah specially made a mention of that aspect. I think the Prime Minister will deal with this aspect probably a little later and I do not want to say any thing about it. That is a separate question altogether. That has to be decided and considered on its own merits separately. But one point is certain. Some colleagues made a reference to me, that it is because of my

interest in this State or that State that we hold this view. It is completely, I should say, unfair because we are not trying to look at the problem of Telangana from the point of view of my own State. Some members asked me a question as to why is it that the Mulki rules are not made applicable to Vidarbha or a part of Karnataka. May I tell them a very important factor? If the capital of Maharashtra would have been in some part of the area which was joined from Andhra to Maharashtra and Bombay was not the capital, the same trouble would have started there also. But, in case of Telangana, it happens that Hyderabad which was a part of Telangana became the capital of the whole State and that makes all the difference. Sometime or the other you will have to find out what exactly happened in this particular matter.

I would suggest that we may see what hon. Member Shri Nathu Ram Mirdha said and he was right, that it is time that the leaders who have to give a real lead in this matter. Linguistic issues, particularly, in our country and in the present context of things, have a tendency of becoming a very explosive issue, and it is the duty of every, patriotic citizen and I would say, of those who are really interested in the integration of the country as a whole, that they do not allow these tendencies of further separation. If you start the re-drawing of maps again, I do not know how far it will go and where and when it is going to end.

We have got so many important problems before the country to-day. We are about to start the Fifth Five Year Plan of the country. We have many other economic responsibilities and the problems of development before us. We have to find solutions for these things. I think it is a luxury at this moment to start these new controversies and new difficulties for ourselves.

Therefore, I would certainly make an appeal, not only to the Members sitting here who hold some separatist views, but the real appeal has to be made to the people in both Andhra and Telangana

areas. Only because some of these people have made certain demands and in order to remain in logically consistence with this, they want Telangana? Now other people are asking for Andhra. I would suggest and I would request them that in the higher interest of the nation, in the name of the nation, we will have to keep back these secondary issues and think of the foremost problems which are very much more important. Here, we are fighting for a very limited point of Mulki Rules, and very limited sector of employment. But the real question is the question of finding employment to a large number of masses in the fields of agriculture, in the field of industry, in the field of self-employment spheres. It is these matters which are more important. But unfortunately here we are fighting for the spoils of 1 per cent or 2 per cent of the Government employment, that too also in a limited field. Really speaking, it is only misleading ourselves and misleading the people. If it is a question of unemployment, it can be solved only by taking up most progressive steps in the economy both in agriculture and in industry. This process has already been started in this country and if we dedicate ourselves to these programmes and policies, I am sure this trouble of Mulki Rules and its implications will be completely forgotten after a few years' time. The two decades of seventies and the eighties, I am sure, is a very crucial period and with the progressive reforms with which we are pursuing the problem of unemployment, I think those people who are fighting for these minor causes will laugh at themselves realising was it for this thing that we were fighting? Was it worth our fighting for? If at all we are concerned about the employment of the people, both in the Telangana and the Andhra side, it is these important economic policies which have been accepted by the country and which alone can solve the real problem of mass unemployment. Need of our times is to pursue these major policies.

I do not want to take more of your time because we are already short of time. But, looking into the history of this problem, it is necessary that leaders of both

[Shri Yeshwant Rao Chavan]

sides persuade themselves to come together....(Interruptions). It is said, it is a spontaneous thing, but spontaneity in these matters can be interpreted in many ways. In Telengana side also at one time it was said that it was a very spontaneous movement but ultimately....

SHRI M. SATYANARAYAN RAO:
Because of you, because of the Centre.

SHRI YESHWANTRAO CHAVAN.
Ultimately, the test of the leadership is to convince the people of the rightness of the cause. Call of separation is a call of despair. By these agitations it is not that you are building something, but you are breaking something which was built with constant and patient efforts. Andhra unity is much more important. This Andhra Pradesh unity was brought about by the leaders of Andhra with the blessings of the then national leadership. There arose some danger to it some years back. Our Prime Minister tried to keep them together. Again, this time this five-point programme that the Prime Minister has put before the country, before the Parliament, and before these two regions, is to see that this sort of temporary aberration in the feelings of people should not undo something which we have built up patiently with a view to bringing the great people of these regions together.

I have tried to put before the House all the points which I had in mind. I hope this House at least takes this view because, when regional questions are at conflict with each other, we cannot expect that region to take a dispassionate view about it. It is very difficult for them to do so under pressure of emotions. I understand the difficulty of representatives of the people sitting here or people who are working there. I know the feeling of Ministers who have resigned now; at one time they themselves came and told me that, these are our views, but ultimately we will certainly accept the decisions that will be given by the Central leadership, particularly by the Prime Minister in the interest of integrity of the State. Well, may be, because of local pressures they

might have done certain thing, reasonably or unreasonably. I have myself gone through the fire of these regional troubles. So, on such occasions it is the national leadership and more particularly the Parliament that has to give a lead in this matter. If on occasions like this we do not take an objective and dispassionate national view, who else is expected to take such a view?

Naturally, the Telengana people are excited, I understand their feeling, I have great respect for their feelings. I know that the people of Andhra are much more excited about it. I can understand that, because of certain provocations, people feel that way. But it is the national thinking that must be made ultimately to prevail. And, instead of the individual taking any view, if the Parliament takes in its Collective wisdom a view and gives them a direction, I think, that alone will solve the difficult problem.

In this matter, when Parliament passes this Act, it is not merely a piece of Act that we are passing. It is an intimate appeal that this national body is making both to the people of Telengana and Andhra: Please forget your differences; both of you are great people and are put together to work in the national cause, forget small things and make efforts to see that the integrated State, which is historically an accepted Constitutional fact, becomes an emotional reality. The passage of this Act is not merely adding one more Act on the statute-book, but it is one more important step taken in the matter of emotional integration of this country and therefore I support this Bill.

18.00 hrs.

MR. SPEAKER: Now, Shri S. B. Giri. But before he starts his speech, I should invite his attention to the fact that the Business Advisory Committee had decided to finish this Bill today, and they had fixed four hours for this. The time allotted is already over. About four more speakers are left, and I think that we should keep sitting till they are finally disposed of. I hope all hon. Members agree to this.

There is another matter, which is a somewhat unimportant thing which the Secretary has reported to me. There was some man shouting some slogan outside the galleries. He has turned out to be an unsound man. I have let him off. He was just shouting 'Vande Mataram', something very harmless, and I have let him go.

About ten or fifteen days back, one man came, and he was also shouting, and he said that he was a Member of Parliament and he should be allowed to come in, and he was taken away by the police. I do not know whether he was the same man or not.

When we turned him out, he came with a batch of about a hundred people before my residence, and he wanted to take the oath. I really was surprised that when one man was enough, he brought one hundred men along with him, and after about one hour's persuasion, we came to know that he had given some promises to many of them, and then he said that he belonged to the Opposition. I only told him that if he could secure a certificate either from Shri Jyotirmoy Bosu or from Shri Atal Bihari Vajpayee. I would think over it. His name was Paramatma.

Now, Shri S. B. Giri.

SHRI S. B. GIRI (Warangal): I rise to oppose this Bill on the ground that it does not fulfil the wishes and aspirations of the people of Telengana or Andhra, and it does not also fulfil the political and social problems of the Telengana people. The Telengana and Andhra problem is not just the question of Mulki rules. By en-

acting this piece of legislation, how are they going to help the people of Telengana? It is a human problem and it must be considered in that perspective. It was because of their experience of the last sixteen years that the Telengana people had started an agitation, and more than 350 people were killed like flies and not like human beings. They were not bribed, and they were not given brandy or alcohol as Shrimati Lakshmikanthamma was saying about what happened in Andhra. But the young people took up the cause of separation and fought, because they were convinced that they had been exploited and looted by the Andhra rulers. That was how the movement for a separate Telengana had come up. No political party was there at that time, and no political leader was in that movement at that time. Apart from that, I do not want to repeat what has already been said.

The regional committee which is a statutory body of the Andhra Pradesh State, immediately after the judgment of the Supreme Court passed a unanimous resolution in which all the legislators belonging to the Communist Party, the CMP and the Congress and other parties who were present said that judgment should be implemented *in toto*. I do not know what has happened to that unanimous resolution. It was a unanimous resolution passed by a statutory body set up under an enactment of Parliament. It was not only the Telengana Praja Samiti Members who were there, but the Congress Members were also there including the Telengana members and they had passed this resolution unanimously.

Again, after this judgment, the Members of Parliament elected by the people from the Telengana region had submitted a memorandum to the Prime Minister, and I would like to quote from what they have said in their memorandum.

"Any modification for any reason whatsoever would have serious repercussions in Telengana and other parts of the country and the confidence of the people in the government would be shaken."

[Shri S. B. Giri]

"Until and unless the Mulki Rules are implemented *in toto*, any further discussions with anybody cannot arise and would have little meaning for us. We have no desire to participate in such discussions.

"Telengana people, the really affected and who are the sufferers all these years are remaining peaceful with no agitational approach. We earnestly request you to implement the decision of the Supreme Court and earn the credit, confidence and gratitude of the people in the government and yourself.

"The question of reposing confidence in the Prime Minister does not arise as the whole thing is conceived as a mischievous move on the part of those who want to get the judgment of the Supreme Court modified. Such a move is ill-advised. We hope you would appreciate our stand.

"We, therefore, have to earnestly request you kindly to direct the State Government to immediately implement the Mulki Rules".

This is the memorandum which was given not by the Telengana Praja Samiti but 6 of the Members belonging to the Indira Congress Party and others.

Immediately after the announcement of the five-point formula of the Prime Minister, I said during the call attention motion here that it is impossible to work and that both the regions will not accept it. Today this is what has happened. Immediately after the announcement, many people were killed in the Andhra region. I pay my homage to those people who were victims of police firing in the Andhra region and also express my sympathy and condolence to the members of the bereaved families. In Telengana also, 350 people were killed and lakhs of people went to prison. It was not a political manoeuvre not for power by the landlords, as Shri Indrajit Gupta said. It was the people's movement.

The Government of India is a representative government. I am confident that

it is a democratic government that we are having in this country. We respect the representative character of this government. I hope the Government of India will respect the aspirations and wishes of the people there.

After the formula, we now see what has happened. Take the Telengana Regional Committee. Those Ministers from Telengana and Andhra and those MLAs from Andhra and Telengana assured the Prime Minister 'We are going to accept your verdict'. But what has happened? Immediately afterwards, the Telengana Regional Committee has passed a unanimous Resolution (on December 13) wherein they brought out a new formula, a 14-point formula. That means they have rejected the five-point formula. Also day before yesterday, nearly 87 MLAs belonging to the Andhra region and 8 Ministers held a public meeting representing the Andhra districts where they hoisted the Andhra State flag and demanded a separate State. Those Ministers had assured the Prime Minister that they were going to abide by her verdict. They have gone back on it now, because there was pressure from the people and they have bowed to that. I am glad they are real democrats.

After promising to the Prime Minister that they are going to abide by her decision, 8 Ministers have resigned from the Cabinet. This has to be noted.

AN HON. MEMBER: 9 Ministers.

SHRI S. B. GIRI: Also we saw in this morning's newspapers something. It is not about the opposition people in the Telengana Praja Samiti, but it is about 'an Andhra Congress.' It was headlined 'Andhra Congress takes birth'. Their leader is the Deputy Chief Minister, and leader of the Congress Party in Andhra. That means there is no Congress in Andhra Pradesh as such, but there is the Andhra Congress and for Telengana we are already having the Telengana Congress Committees.

I do not want to take more time. This Bill does not follow the norms of human life. I think this Bill goes against the

wishes of the people. I feel even the Government of India and the members of this Parliament, who are the representatives of the people. It should be for the people; it should not be against the people. But this Bill is against the people both in Andhra and Telengana. Therefore, I oppose the Bill.

THE PRIME MINISTER MINISTER OF ATOMIC ENERGY, MINISTER OF ELECTRONICS, MINISTER OF HOME AFFAIRS, MINISTER OF INFORMATION AND BROADCASTING AND MINISTER OF SPACE (SHRIMATI INDIRA GANDHI): Mr. Speaker, Sir, there is really not much need for me to speak as my colleague, Shri Chavan, has brought a cooler and calmer atmosphere to prevail in the House and has dealt with the really important points. But some hon. Members even of the Opposition had earlier expressed the opinion that it might be misunderstood if I did not clearly state our views on some points which have been mentioned here before. They are not new, nevertheless, they thought I should do so and that is why I have got up.

Parliament discusses many important issues which are highly emotional, and the Mulki Rules have become one such issue. Matters which involve regional feelings quite often do arouse the emotions of the people in this country as in many other countries, and we certainly cannot ignore the emotions of the people. But I should like to stress what Chavanji has said, that no solution can be found while the atmosphere remains charged with emotion. Any solutions, any answer, has to be found in a very cool, calm and rational manner.

Therefore, although I was also, as were many other hon. Members, touched by the emotions expressed by hon. Members, by the difficulties of our friends from Telengana and friends from other parts of Andhra Pradesh, we were certainly touched by the difficulties and emotions—I should very respectfully say to them that all these matters have to be thought of not in terms of emotion but in terms of calm and collective thought. And not

in terms of today or tomorrow or the day after but of what it will mean to them and the country ten years hence, 20 years hence, a hundred years hence.

Hon. Member have been discussing here, and separately with me, the question of a few posts or a few matters like this. As Chavanji very rightly said, does this really touch the lives of the people? It does not. The whole problem of employment has assumed vast proportions for us. There is unemployment all over the country. Not only in our country but in almost every country of the world. This is one of the phenomena of contemporary society. I am not saying this to excuse our own shortcomings or difficulties. The problem has to be faced. This is why this question has assumed such vast proportions.

Naturally, if you put to the people that a particular development has affected their employment, it has affected their rights they will become emotional. Anybody will become emotional. I do not know how many people have gone to the public at large and said, "Let us sit down and think about it, what difference will it make in terms of employment in terms of the other opportunities for the people in the Telengana region, for the people in the other districts of Andhra Pradesh?" So, I do not think that the issue has been fully and squarely put before all the people there. Therefore, the reaction today has to be also viewed in that light.

Now, the present debate, with all due respect to hon. Members, is not about socialism. It is not about the welfare of the country at large or many of the points which were raised, especially by the hon. Member who spoke first. This is a very limited issue; a very small issue. It deals specifically and only with the Mulki Rules, and the situation that arose because of the Supreme Court judgment. Some hon. Members said that nothing had happened. But I would respectfully say that a great deal has happened all these years. There was, if not to our entire satisfaction, certainly a degree of calm; not the calm of

[Shrimati Indira Gandhi]

the graveyard as some friends are so fond of repeating; and the situation was moving towards improvement. I am not saying that it had vastly improved. But certainly it was moving towards improvement. Then this judgment on the Mulki Rules was delivered and suddenly it was as if a fire had been started all over the State. How did the whole situation with regard to the Mulki rules arise? The State of Hyderabad was the largest of the old princely States. One hon. Member has said and rightly that in this State there were individuals, there were families of very high culture. But for the vast majority of the people there was poverty. They had not had opportunities of education or social welfare or of public health, or any kind of amelioration of their living conditions. When the composite Andhra State came into being all sections of the people recognised that for greater cohesions certain special measures of a transitory nature were necessary. The leaders of the people unanimously arrived at a gentlemen's agreement which we all accepted,

Since Shri Joshi is here I should like to just remind him. He cut a joke, he thought at our expense, on the word "gentleman". But in those days 'gentleman' was not a polite phrase at all; "gentleman" was used for a particular section of people who were completely divorced from the rest of the people. We have no objection not being counted in that section of the people. It is just like the earlier an argument over "lady" and "woman". I had then very categorically said that we were women, bearing burdens and responsibilities as well as wanting our rights, we did not want to be "ladies" and "gentlemen" sitting on some platform above everybody else.

So, there was this agreement. Now, regardless of any agreement we all know that even within a family there are differences and disputes. There is no State in India which does not have backward areas. Relatively backward and advanced areas exist not only in all States but in different regions of the same State. In

the Andhra region many Members have drawn attention to areas such as Rayalseema and Srikakulam. The Telengana region, may be a backward region but it does have better-off areas.

Merely because an area is comparatively backward is not reason enough for taking drastic or irreversible decisions. Where will this process end? I am not at all afraid of this being catching; that is not the point. But where does any one draw the line? Will each district want to be separate? Some people have advised the division of U.P. Where to divide into two, three, four, into how many areas do you divide it? Do you go back to the old, very small States, princely States, do you go back to that? Somewhere a line has to be drawn. You cannot just say that because of backwardness there should be division. As Chavanji has rightly pointed out, economic backwardness can go only through hard work and the effort of the entire nation.

While there will always be sympathy and understanding for the special hardship of the backwardness of any special group or any special area, I do not think that anyone should be allowed to develop a vested interest in backwardness.

This is really a general problem and it is a part of the very much larger problem of poverty itself. There is, I am afraid, no immediate solution to it. In the early stages of development it is always more difficult to allot resources because the general level is so low that any extra provision is extremely difficult, but in spite of this, an effort was made in the third and fourth Plans. As the House is aware, on the basis of the recommendations of the National Development Council 225 districts were earmarked for concessional finance from public financial institutions. In this are included districts from the Andhra region as well as from the Telengana region.

In the Fifth Plan, it is our intention to launch a massive minimum needs programme. I do not want to go into the premise of this programme, some of which you know and some you will soon learn about. This is the only way in which a real solution can be found. While transitional measures may be necessary in some areas for historical or other reasons, I think we should all view the problem and the possibilities of its solution in the proper perspective.

So far as the present Bill is concerned, Shri Mirdha has already explained the scope of its provisions and I do not want to go into it again. However, I should like to make just a few general observations. As the House is aware, the Supreme Court held that section 2 of the Public Employment (requirement also residences) Act, 1957 which sought to repeal the Mulki Rules, was bad. This was a complex situation. This was not the first time. In between many things have been going on. The Mulki Rules themselves were declared invalid and so on. It is not at all a static situation. But this has created a complex situation. It is obvious that the administration could not be run on the basis that Mulki Rules would apply to posts under the State Government at all levels. Certain appointments made in the past also had to be regularised. My friend opposite was much concerned about this. He felt that it might mean going back and reinstating people. I should like to re-assure him that this is not at all the case. I do not want to go into the details of this. But I think his fears are unfounded. We had also to consider the past assurances given to the people of Telengana area with regard to public employment and also their present needs. We have not at all gone back on any assurance given and I should like to re-assure the hon. members that we are deeply concerned with their problems. But we feel that this is not the way of solving them. In fact, as I said on an earlier occasion, merely talking of separation is not an end of the problem. It is the beginning of another very big problem, not for other States but also for that area, that State itself. The decisions which we announced on the 27th Nov-

ember, 1972 were in the response to the request by the leaders of the State; they themselves have said that we should do something.

Regarding this Bill, several members have suggested that we might circulate it for public opinion, send it to the Supreme Court and so on. They asked, what was the hurry? The hurry is in the immediate interests of the proper administration of the State. It is obvious that any delay would create serious complications. I stand very firmly for an integrated State, but I should like to say that so far as this matter is concerned, even had there been two States, it would have made no difference to this Bill because it deals mainly with the problem of the twin cities and also the rest of Telengana. That problem would remain no matter what other things you do because a large number of non-Mulki is there. Unfortunately, even in the speeches have some little bitterness crept in. It does not matter how many States we have, you still will be neighbours and you still will have to deal with one another in a hundred and one things. Thinking that just because you are separated, you can get rid of these people or we have got rid this problem is a very facile way of thinking. Our experience has not shown that this comes true.

Rightly there is a strong feeling in the country that any residential qualification for public employment goes against the very concept of common citizenship which is enshrined in our Constitution. But at the same time, the framers of the Constitution did realise that the safeguards available to people who suffer from special hardships could not be abrogated straightway. This was one of the purposes of article 35. It kept alive the Mulki Rules, which had come to be looked upon as a valuable safeguards and had generated an emotional attachment. When the Telengana area was merged with Andhra, there were assurances from the Andhra region that this safeguard would be continued in certain respects. This approach was accepted by successive Governments in Andhra Pradesh all along.

[*Shrimati Indira Gandhi*]

even while there were different judicial pronouncements on the Mulki Rules.

This is a fact which some people tend to forget. The present Bill retains the Mulki Rules in certain respects but provides for their phased repeal. I should like to make it clear that it is not the intention of the Government to come to the House again to extend the time limits mentioned in the Bill. As I have said earlier, in the life of a State, a period of five to eight years is an exceedingly small one. Recognising the fact that the capital belongs to both regions, the Central Government has decided to repeal the Mulki Rules in the twin cities three years earlier than in the remaining Telangana region. Even during the intervening period, employment opportunities in the capital are being extended and educational facilities expanded for the citizens of the other regions of Andhra Pradesh also.

This again gives rise to certain doubts and fears in the mind of our friends from Telangana. I should like to assure them that the present Bill not only keeps intact the safeguards voluntarily agreed to in the Public Employment Act, which was struck down subsequently, but seeks to go a little way beyond that.

The Bill covers three of the five points mentioned in our decisions. The two other points do not require any legislation. I am mentioning this, because this matter was commented upon from the Benches opposite. Considerable work has already been done on the scheme of regionalisation of services, and the whole scheme will be finalised before long. The State Government will then make necessary amendments to their existing service rules and put the scheme into operation. The other decision related to the expansion of educational facilities in Hyderabad-Secunderabad. The Ministry of Education has already discussed this matter with the State Government and in the light of these discussions the State Government is framing specific proposals. Suitable machinery will be devised so that these measures are faithfully carried out.

While we were seeking a solution to this particular situation, other points have been raised. It is said that the continuance of the Regional Committee for the Telengana area impedes the integration of the State of Andhra Pradesh. Shri Raghu Ramaiah and others have spoken about the separate budget for Telengana. A third point was that Telengana is not the only backward area in the State.

As you know, the Regional Committee is a committee of the legislature itself, set up at the time of the formation of the State, to give confidence to the people of the Telengana region that the assurances given to them were being properly implemented. If provided for the closer association of the people of Telengana in the development of their area.

The budget, of course, is not really separate, as Shri Raghu Ramaiah said. There are two separate sheets, but it still forms part of the same budget. But the basic problem is not of mathematical calculations. It is a question of the overall economic condition. I can appreciate the feeling of those who want all barriers which stand in the way of the fuller integration of the State to be removed. I look forward to a day when all these walls are demolished and there is no need to have such special arrangements. Such a situation will emerge progressively with the disappearance of economic disparities. May I remind this House that even the Constitution visualises them as temporary and transitional? Meanwhile, of course we are giving special thought to what to do for the other backward areas of the State. The speedy development of those areas is equally important and suggestions have been made for some special arrangements which we are looking into. We would also be quite willing to have one or more regional committees or development boards for such areas, if the people so desire, and the details of this can be worked out in consultation with the leaders of the State.

Perhaps, there is a feeling that the norms adopted in allocating receipts and expenditure under different heads could be improved so as to make them more equitable to both regions. This question can also be gone into and if any assistance from the Central Government is called for we shall try to provide it. Because what is really needed is the provision of adequate resources and this is always dependent upon how much Shri Chavan can find for the entire country. He also does not have a magic bag into which he can dip for resources.

It is obvious that the resources of the entire State will have to be mobilised for this purpose. This is generally the approach which we have adopted for the removal of imbalances in the development. Whatever resources the Central Government can provide for this purpose will, I hope, be forthcoming.

Mr. Frank Anthony is not here. I have just one rejoinder to make. He was speaking about minorities and our friends of the Scheduled Castes and Scheduled Tribes, and about their reservations. It is quite true that with all the reservations, everything that we had hoped to do has not been done. There are still many disabilities. But he addressed his remark to the wrong person, Shri Bhandare. Shri Bhandare is the one person who has always been elected from a general seat. He does not come from a reserved seat. So, his remark that "you will not be elected once the reservation is removed", was to the wrong person.

AN HON. MEMBER: Mr. B. P. Maurya also.

SHRIMATI INDIRA GANDHI: Yes, Shri B. P. Maurya also.

Sir, Parliament represents the will of the whole nation. Its duty is not merely to go into the rights and wrongs of a situation but also to view problems from the

national point of view. Shri Chavan has stressed this point. But I would like to repeat it. While all of us here are elected from particular constituencies, once we are here in this hall, I think we should consider ourselves not as merely the representatives of one little area but as the representatives of the whole country and the entire people of India. And each problem has to be viewed from that angle.

The very first article of our Constitution declares that India is a Union of States. Each State has had a long cultural and historical tradition and each State has become a political entity in its own special way. Andhra Pradesh has been a distinctive cultural unit for thousands of years. The name has been found in the earliest Buddhist writings. All the parts which now constitute Andhra Pradesh have been under one umbrella for long periods of history. Let us not look at just the immediate period of history.

Perhaps, it was this long history which inspired the Telugu-speaking people when they yearned and struggled for several decades to form a unified Andhra Pradesh. May I cite a little bit of my personal experience? I happened to be touring parts of the South just before the Report of the States Reorganisation Commission was made public and my ears are still reverberating with the full-throated cries of 'Vishal Andhra... (Interruptions)'. It was really the will of the Telugu-speaking people which prevailed over the proposal of some people to retain the old Hyderabad State.

I have taken a lot of time. I should like to make one more point. Mr. Frank Anthony is absent. He spoke at length and he has on previous occasions spoken about the great mistake of forming linguistic States. There are some things which are part of our national life. It is true that the question of linguistic States was very much a part of the national movement. There was no getting away from it. The units of every party which was in existence at a time, were formed on the

[Shrimati Indira Gandhi]
basis of language in spite of the British Provinces having different areas. There is an overall rationality in the formation of our various States and we should be very careful not to break this foundation of rationality in momentary passions. As I said at the beginning we should consider the feelings of people but it would be very wrong for the Government to be swept away by feelings. We must see what is in the larger interest of the people themselves. We are not saying that the interest of the people of Telengana should be sacrificed for our interest or for the interest of other parts of India. But the Government must think in a very calm manner about the interest of the people of that very region and see what will serve their interest best.

The Telugu-speaking people have a reputation of forthrightness but they also have an unsurpassed tradition of service to the nation. I am sure that no Telugu-speaking person whether he lives in the coastal region or in Rayalseema or in Telengana will ever do anything even in anger or in desperation which is not in the larger interest of their entire State and also in the interest of the country as a whole. I can understand the emotions of our friends here. This has been a period of great agony for us all to watch the developments in Andhra Pradesh and the tragedies that are taking place. I also should like to express my deep sympathy with the parents and families of those who have lost their lives. But we must look at this matter in the larger perspective. This particular Bill of course does not touch the larger aspect at all. This is a very limited Bill but because hon. Members have talked about other things, I also had to give my views on them.

MR. SPEAKER: There is one motion of Mr. Narayana Rao for reference to the Supreme Court.

Mr. Narayana Rao are you withdrawing it?

SHRI K. NARAYANA RAO: I want to speak on that....(Interruptions)

MR. SPEAKER: No question of your speaking on it now. Are you withdrawing it or shall I put it to the House?

SHRI K. NARAYANA RAO: I am withdrawing.

MR. SPEAKER: Has the hon. Member the leave of the House to withdraw his Motion.

SOME HON. MEMBERS: Yes.

Amendment No. 1 was, by leave, withdrawn.

MR. SPEAKER: I will now put motion serial No. 31 standing in the name of Shri M. Satyanarayan Rao to the vote of the House.

Amendment No. 31 was put and negatived.

MR. SPEAKER: The question is:

"That the Bill be circulated for the purpose of eliciting opinion thereon by the 15th February, 1973."(2)

MR. SPEAKER: These amendments are now before the House.

SHRI A. K. GOPALAN: I would like to speak specially on my amendment which seeks to substitute for clause 3 the following:

"The Mulki Rules are hereby repealed",

and also my amendment No 116 which seeks to substitute for clause 4, the following, namely:

"All public appointments in Andhra Pradesh shall be in the proportion of 1:2 between Telengana area and the rest of Andhra Pradesh while due weightage is given to backward areas in both the regions as may be specified to the Rules."

I do not want to make a long speech. But I would explain what our position is as far as this question is concerned. I understand the difficulties, because I had been in Andhra Pradesh and I know the feelings of the people of Andhra Pradesh at least. The feelings are running very high, and the people are all divided, the

people of the Andhra region on one side and those of the Telengana region on the other, and the Government employees are also divided. All these things are there. But the proposal that has come before us is not the solution. For, what is the root cause of the division of the people of Andhra and Telengana? It is the question of employment.

There are not enough employment opportunities. As far as those who want employment are concerned, there are many. So, that is the root cause. In order to avoid unemployment, it is necessary that the people of both the Andhra and Telengana regions must unite together and fight against unemployment and starvation. That was the feeling which made the people unite together and fight for Vishala Andhra. Since they had the same culture and the same language, they thought that if they united together, it would be easier for them to fight against the British rulers as well as against poverty and unemployment.

This type of problem is there not only in Andhra and Telengana areas, but it is there in many other States as well. Take the case of Kerala, for instance. It is a separate State and it is a single State. But there are differences between one district and another district; there are differences between one village and another village. If there are employment opportunities and there are industries in one village and people are recruited for the purpose, the people there say that the people from another village should not be taken. So, there is that type of feeling in one district against another and in one village against another. This feeling is there because the employment opportunities are very few, while the number of those who want employment is growing day by day. So, it is not a question of whether there should be a separate Andhra or Telengana State. The question is one of unemployment, and we have to fight unemployment. Even if the State were united in today's condition, the problem of unemployment cannot be immediately solved. A separate Andhra or Telengana State can never solve the problem of unemployment.

[Shri A. K. Gopalan]

It is highly regrettable that the Central Government have not done what they should have done. Instead of coming forward with a Bill of this nature to safeguard the interests of the people of both the region, they should have found some *via media* by which the passions of the people could have been assuaged, as soon as the Andhra High Court had declared the rules *ultra vires*; if they would have done so to safeguard the interests of both the regions, then the present situation where there are strong feelings between the people of Andhra region and those of the Telangana region would not have come about. So the entire responsibility is on the Central Government.

Secondly, our party is deeply disturbed over these disruptive developments in the State of Andhra and in the Telangana area. Our party is of the considered view that a just and reasonable solution is possible for this issue, provided the Central Government acts in time and enacts suitable legislation ensuring the legitimate rights and demands of the people of Telangana while annulling the out-dated Mulki Rules which, if persisted and implemented, would surely pave the way for the disunity of the people and the disintegration of Andhra Pradesh.

The Central Government must enact legislation, firstly to ensure employment in State government services at all levels in the ratio of 2:1 for 'Andhra' and 'Telangana' regions respectively and they be posted in any part of the State and not confined to each region. This reflects the real strength of the population in the two regions. This principle may be extended to all public corporations and semi-government concerns. Secondly, the allocation of all State resources including that of Hyderabad City and Central loans and grants for regular administrative and developmental activities in the State including 5-year plans in the ratio of 2:1 while special attention should be paid and special allocation made to develop backward tracts and areas in both the regions.

Similarly seats in colleges and professional schools and institutions can be reserved in the same ratio.

Thirdly—I say this in reference to what Shri Raghuramaiah was saying that we want to perpetuate it—the time-limit for the two above-stated provisions should not be mechanically fixed. They should only continue until such time when mutual understanding and confidence develops between the two regions and the people living there and until the existing imbalance in the development between the two regions gets progressively reduced and eliminated. I press my amendments.

ORAL ANSWERS TO QUESTIONS

Dry Fruit Trading Corporation

*561. SHRI SUKHDEO PRASAD

VERMA:

DR. MAHIPATRAY MEHTA:

Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether he had mooted a proposal for a Dry Fruit Trading Corporation;

(b) whether the proposal has not been favoured by the Finance Ministry; and

(c) if so, the reasons therefor?

THE MINISTER OF FOREIGN TRADE (SHRI L. N. MISHRA): (a) Yes, Sir.

(b) and (c). The proposal is being processed.

श्री सुखदेव प्रसाद वर्मा : मैं मंत्री महोदय से जानना चाहता हूँ कि यह प्रस्ताव वित्त मंत्रालय को कब भेजा गया था तथा उक्त प्रस्ताव में निगम के क्या फंक्शन हैं और उसमें कितना खर्चा खर्च करने का अनुमान किया गया है ?

श्री एल० एन० मिश्र : यह हम लोगों ने निश्चय किया कि बाहर के सूखे फलों को लाने के लिए एक ट्रेडिंग कारपोरेशन बनाया जाये । इस का प्रस्ताव विभिन्न मंत्रालयों को भेजा गया है । विभिन्न मंत्रालयों से उत्तर आये हैं वित्त मंत्रालय से भी उत्तर आया है और हम मिल जुल कर आपस में विचार विमर्श कर रहे हैं कि जो मूल सुझाव हैं थोड़ा उस में हेर फेर करना होगा । वित्त मंत्रालय तदनुसार उस में कुछ हेरफेर करना चाहता है ।

जहां तक पूंजी की बात है यह ट्रेडिंग कारपोरेशन होगा और उसके बारे में अभी कहना मुश्किल है लेकिन कोई एक, दो करोड़ रुपये की बात होगी ।

श्री सुखदेव प्रसाद वर्मा : इस व्यापार निगम द्वारा कब से अपना काम आरम्भ करने की आशा की जाती है ?

श्री एल० एन० मिश्र : इस बारे में निश्चित तिथि बतलाना इसलिए भी कठिन है कि दूसरे देश खास कर अफगानिस्तान को राजी करना होगा कि वह अपने सूखे मेव प्राइवेट लोगों से — — —

कारपोरेशन को दे । इसलिए मैंने कहा कि इस ट्रेडिंग कारपोरेशन के कार्य आरम्भ करने की तिथि निश्चित करना केवल हम पर निर्भर नहीं है अपितु यह दूसरे देशों जैसे ईरान, ईराक व अफगानिस्तान की इस सम्बन्ध में सहमति पर निर्भर करेगा । यही कारण है कि हम अभी कोई तिथि उस की नहीं बतला सकते हैं ।

श्री हुकम चन्द कछवाय : मंत्री जी ने कहा कि हमारा व्यापार निगम कब से अपना काम शुरू करेगा इस के लिए हम विदेशों से भी सम्मति लेंगे और सहमत करायेगे कि वह अपना माल सीधा व्यापारियों को न दें तो मेरा कहना है कि जब हम स्वयं अपना इस तरह का निगम इस काम के लिए बना देंगे तो फिर भारत का कोई भी व्यापारी सीधे तौर पर व स्वतंत्र रूप से विदेशों से सूखे मेवे यहां नहीं मंगा सकता है अपितु इस व्यापार निगम के द्वारा ही मंगा सकता है । ऐसी हालत में मेरी समझ में इस बारे में विदेशों से सलाह व उनकी सहमति लेने की कोई आवश्यकता नहीं है । इसलिए क्या मंत्री जी इसे मानने को तैयार हैं कि इस तरह का निगम जल्दी ही बनाया जाय ताकि जो भी कोई व्यक्ति यहां का बाहर से सूखे मेवे मंगाये वह इस निगम की मार्फत ही मंगाये और वह उस से बंधा हो उप भोक्ताओं को मुनासिब कीमत पर मेवे उपलब्ध हो सकें ?

श्री हुकम चन्द कछवाय : ठीक है और हम ने इसलिए तय किया है चूंकि प्राइवेट

लोग निजी लोग बहुत ज्यादा कीमत लेते हैं लेकिन चूंकि बेचने वाले बाहर के वह देश हैं इसलिए उन की सहमति भी आवश्यक है कि वह अपनी ट्रेड इस व्यापार निगम के मार्फत करेंगे या प्राइवेट कंपेसिटी पर करना चाहेंगे । अब अगर वह इस पर राजी न हों कि ट्रेडिंग कारपोरेशन को वह अपना माल दें और वह कहें कि हम जाकर किन्हीं प्राइवेट लोगों को सीधे देंगे तो इस कठिनाई के कारण ही मैंने कहा है कि विदेशों की इस बारे में सहमति की पूरी आवश्यकता है । यह चीज बिना उन की पूरी सहमति के नहीं हो सकती

श्री हुकम चन्द कछवाय : वह राजी होंगे ही नहीं ।

SHRI G. VISWANATHAN: The importers of dry fruits are now earning about 400 to 500 per cent of profit. Will the Minister give an assurance that this Corporation will earn the minimum profit and bring down the price of dry fruits?

SHRI L. N. MISHRA: That is the main objective of the Corporation.

Proposal to Develop Konarak, Chilka Lake and Gopalpur in Orissa as Tourist Centres

*562. **SHRI D. K. PANDA:** Will the Minister of TOURISM AND CIVIL AVIATION be pleased to state:

(a) whether there is any proposal to develop Konarak, Chilka Lake and Gopalpur in Orissa as Tourist Centres by the Central Government; and

(b) if so, the broad outlines thereof?

THE MINISTER OF STATE IN THE MINISTRY OF TOURISM AND CIVIL AVIATION (DR. SAROJINI MAHISHI): (a) and (b). The Archaeological Survey of India will flood-light the Sun Temple at Konarak at an estimated cost of Rs. 3.75 lakhs, and this work is expected to be completed by the end of March, 1973.

(2) The Department of Tourism has initiated action through the State Government to acquire land around the temple at Konarak for site development and landscaping. A provision of Rs. 1.00 lakh has been made for this purpose in the Fourth Plan.

(3) During earlier Plans, the Department of Tourism put up a Tourist Bungalow at a cost of Rs. 1,78,000 and contributed Rs. 1,43,994.00 towards the construction of a Low Income Group Rest House at Konarak, and Rs. 2,24,725.00 for the Low Income group Rest House at Rambha.

(4) Gopalpur on Sea has a two-star hotel in the private sector.

SHRI D. K. PANDA: Though the answer of the Minister in relation to Konarak temple and Gopalpur on Sea are welcome, there is no mention about Chilka Lake. May I know whether the Central Government have received a proposal from the Orissa Government for the development of the Marine Drive between Puri and Konarak and also to link Ratnagiri, Udaigiri, Lalitgiri and Konarak and, if so, whether the Government would take up the construction work in the immediate future?

DR. SAROJINI MAHISHI: We have not received any proposal from the State Government. But some time back we had a discussion with the State Government officials on what complex in Orissa should be developed. We thought of the development of Chilka as a bird sanctuary. While the State Government is developing a few spots in Chilka, we on our part

are willing to accept certain items which can be undertaken by the Central Government, Department of Tourism. But no proposal as such has come from the State Government so far.

SHRI D. K. PANDA: In the approach to the Fifth Plan of the Orissa Government, at page 15, there is reference to a marine drive between Puri and Konarak.

DR. SAROJINI MAHISHI: The Fifth Plan is under consideration. We have received a draft copy from the Orissa Government. As far as the Marine Drive is concerned, it is a very long road extending up to 20 miles or so. We were told that the State Government is taking the initiative. The Department of Tourism is not taking up such long roads. Unless it is a very small approach road leading to some monument, we do not take it up.

SHRI D. K. PANDA: Now, my second question will be with regard to the Chilka Lake which the hon. Minister has nearly touched. As far as the development of recreation facilities at Chilka Lake is concerned which can be compared with one of the biggest lakes in the world, French Riviera, it can be brought to that level also. From that point of view, I want to ask the hon. Minister whether there was a previous discussion between the Orissa Government and the authorities of the Central Government relating to the development of Chilka Lake for putting up some house-boats, motor-boats and also whether there was a proposal for Rs. 13.5 crores developmental work at Chilka Lake.

DR. SAROJINI MAHISHI: There was no such proposal to spend Rs. 13 crores on the Chilka Lake. There was an idea to develop the Chilka Lake. We had a discussion earlier with the officials of Orissa Government. That was 8 or 10 months back. We did not get concrete proposals

from them. Development includes quite a number of things. It is birds' sanctuary. If we can introduce a few more variety of birds, that is also development; if we build some accommodation and introduce launches, that is also development. Therefore, what portion of that is acceptable to us and what portion of that has to be done by the State Government has to be decided. We have not got the concrete proposal with us as yet.

SHRI K. D. MALAVIYA: I want to know from the Government whether there are special obligations of the Central Government and the State Government and any division of work from that point of view in order to build a place as a tourist centre.

DR. SAROJINI MAHISHI: Yes, Sir. There are quite a number of spots which can be developed in the whole country. Tourism develops around monuments, around wild life sanctuaries, around mountainous resorts, around beach resorts, and it is very difficult for the Government of India to look into all these spots. Tourism as such is a State subject and the Government of India only takes up portions of those major projects which are acceptable and which can be done by the Government of India.

SHRI K. D. MALAVIA: That is what I wanted to know. In view of the fact that there are some differences between the State Government and the Central Government with regard to its own share in developing a tourist centre, will it be desirable for the Central Government to lay down specific responsibilities separately for the State Government and the Central Government so that a tourist centre may develop beautifully and purposefully?

DR. SAROJINI MAHISHI: That has been laid down. The State Government has got its own plan of developing tourism in the State Five Year

Plan and also the Annual Plan. In addition to that, of course, the Central Government has also got plans. That will be only with reference to some of the major things which the State Government cannot undertake. The whole of that cannot be taken up.

THE MINISTER OF TOURISM AND CIVIL AVIATION (DR. KARAN SINGH): Tourism development is essentially a cooperative venture in which the State Governments, the Government of India and the private sector all have got to contribute. In developing the tourism infra-structure, as my colleague has said, we try to dovetail the resources of all these various bodies into a single coherent plan. It is not possible to lay down any rigid demarcation of the functions in this regard. Wherever it is possible for the Government of India, we undertake the plans. In any case, it is full coordination alone that can result in proper development of tourism.

SHRI D. P. JADEJA: The hon. Minister just now referred to the Chilka Lake project not being implemented because of the naval project coming up there. Earlier we have been told in this House that the naval project is not coming up there because of the bird's sanctuary being started there. May I know which one of these projects, the naval project or the bird sanctuary project, has to get priority?

DR. SAROJINI MAHISHI: The Naval Project will have the priority over the bird sanctuary and in case we are given to understand by the State Government that the naval project is not coming up and that it should be developed as a bird sanctuary, certainly that will be done.

SHRI MOHANRAJ KALINGARAYAR: Will the Minister tell us if the

State Government repeatedly approached the Centre for some financial assistance to develop the Vedantangal Bird Sanctuary near Madras and if

MR. SPEAKER: How does it arise out of this?

SHRI MOHANRAJ KALINGARAYAR: You have allowed a general question.

So I want to know how much amount the Centre has allotted for that bird sanctuary and has any development taken place?

MR. SPEAKER: I am sorry, this is not relevant.

SHRI G. VISWANATHAN: You have allowed a general question. Then, what is wrong in putting a supplementary?.... (Interruptions).

MR. SPEAKER: No arguments please. I am sorry I cannot allow it.

SHRI CHANDRAPPAN—absent.

SHRI JANARDHANAN—also absent.

SHRI RAJDEO SINGH.

Study on Foreign Collaboration in Export-oriented Industries

+

*565. SHRI RAJDEO SINGH:

SHRI P. M. MEHTA:

Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether the Indian Institute of Foreign Trade has undertaken a study on foreign collaboration in export-oriented industries which will also cover industries having foreign collaboration and evaluate their export performance and identify additional export-oriented industries for such collaboration; and

(b) if so, by what time studies are expected to be completed?

THE MINISTER OF FOREIGN TRADE (SHRI L. N. MISHRA): (a). The Indian Institute of Foreign Trade has initiated a research study, as part of its regular research activities, with a view to evaluating export performance and collaborating enterprises and identifying additional export-oriented industries for foreign collaboration.

(b) Depending upon the availability of data, the Institute expects to complete the study by the end of 1973.

SHRI RAJDEO SINGH: In the context of the answer to part (b) of my question, may I know whether it is apprehended that the private sector may withhold data and if so, what is the remedy to obtain it?

SHRI L. N. MISHRA: The question is about the research work done by the Institute of Foreign Trade. They have got various ways of study—interviewing individual members, going through the records, gazette notifications, etc. and they prepare the report.

The hon. Member has an apprehension that the private sector people may not give the data. An academic study is being made for putting it into practical purposes. I cannot say anything beyond stating that the Institute will try to persuade those people.

SHRI P. M. MEHTA: I would like to know from the hon. Minister as to what are the industries which are selected by the Institute of Foreign Trade for the purpose of evaluating their export performances and collaborating enterprises and identifying additional export-oriented industries.

SHRI L. N. MISHRA: I can only say about the object and the terms of reference of this Institute. About industries I cannot say because they have just got it and they are still to start the work.

SHRI P. M. MEHTA: He should mention the names of the industries which are selected for the study.

SHRI L. N. MISHRA: I said in my own answer that export-oriented industries will be studied. As a matter of fact, this subject concerns the Ministry of Industrial Development. I am concerned with it so far as the research part of the Indian Institute of Foreign Trade is concerned. They have been given specific terms of reference for the purpose and within that purview they will have to make the study. The terms are: (1) evaluation of the export performance and collaborating enterprises, (2) studying the factors inhibiting the exports and (3) evaluation of the national policy regarding foreign collaboration and (4) identification of additional export-oriented industries for foreign collaboration.

These are the four terms of reference to them and they will try to cover the industries that come within this purview.

SHRI P. M. MEHTA: According to the terms of reference, the Institute of Foreign Trade must have taken up some industries for the study and he is denying to give the information to this House. Kindly ask him to give the names of industries which are selected for this study.

MR. SPEAKER: The question is about the study on foreign collaboration in export-oriented industries which will also cover industries having foreign collaboration and evaluate their export performance.

SHRI L. N. MISHRA: Why should I deny any information? I have already given you all the information I have. This institute has just started. There are other matters concerned with the Ministry of Industrial Development. We are concerned with the Institute part and research. They would be making, I think, selection of industries after some weeks, after

he is interested and if he asks, I will tell him, but till today they are not able to select industries.

SHRI P. M. MEHTA: Till today they are not able to select.

MR. SPEAKER: That is right.

SHRI S. R. DAMANI: May I know whether any applications have been received from foreign collaborators for setting up sugar industries and sugar units. The question relates to the manufacture of such items to be exported and so I am asking this question. Can he give us details and names of such firms?

MR. SPEAKER: I could not follow it. Is it a separate question or is it linked with this?

SHRI S. R. DAMANI: There are certain items which are being encouraged for purposes of export. This is relating to foreign collaboration in that regard and so my question arises out of this. I only want to know as to how many applications have been received and what are the items which have been accepted.

SHRI L. N. MISHRA: I am replying on behalf of the Institute. The industries part of it is under the Ministry of Industrial Development. Only the research part is given to us. This Institute will do the research work.

SHRI P. G. MAVALANKAR: The research studies are expected to be completed by end of 1973, the hon. Minister stated. May I know whether the Indian Institute for Foreign studies are going to bring out some interim studies?

SHRI L. N. MISHRA: Not to my knowledge.

Composite Duty Rise on Betanaphthol

*566. **SHRI B. S. BHAIKAR:** Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether the attention of Government has been drawn to the news-item appearing in the Hindustan Standard dated the 21st September, 1972 under the caption "Composite duty rise hits rubber chemical units" regarding the composite rise in duty on Betanaphthol;

(b) if so, Government's reaction thereto; and

(c) whether about 2500 tonnes of this raw material are imported every year?

THE MINISTER OF FOREIGN TRADE (SHRI L. N. MISHRA): (a) Yes, Sir.

(b) Government have not found any grounds for reconsideration of the decision.

(c) Imports of Betanaphthol during the last three years were:—

1969-70	1906 tonnes
1970-71	2588 tonnes
1971-72	1600 tonnes

SHRI B. S. BHAURA: In view of the fact that betanaphthol is used by the manufacturing units in the manufacture of tyres, where the composite duty works out to about 89 per cent, may I know whether, in view of the shortage of tyres in the country, the Government would like to reconsider their decision already taken in the matter?

SHRI L. N. MISHRA: This also is something mainly concerning the Ministry of Finance. So far as the tyre part is concerned, there is 12 per cent of customs duty. That is confined to 12 per cent. But about the details, I cannot answer at this stage.

SHRI B. S. BHAURA: In the news item it is stated as follows:

"Hindustan Steel is not recovering naphthalene from BTXN fraction and instead burning the same as fuel in its plants".

In view of this, may I know whether any action is going to be taken by Government, and if so, what it is?

SHRI L. N. MISHRA: I have also seen that news item. I shall pass it on to the Ministry of Steel.

Disbursement of Money by Industrial Development Bank of India

*567. SHRI SARJOO PANDEY: Will the Minister of FINANCE be pleased to state:

(a) whether Industrial Development Bank of India disbursed less money in absolute amounts during July-September, 1972 as compared to the corresponding quarter last year; and

(b) if so, the reasons therefor?

THE MINISTER OF FINANCE (SHRI YESHWANTRAO CHAVAN):

(a). Yes, Sir. The aggregate cash disbursements of all types of assistance by the Industrial Development Bank of India during the third quarter July-September, 1972 amounted to Rs. 18.42 crores compared to Rs. 21.37 crores, of the corresponding quarter of 1971.

(b) In respect of a long-term apex financing institution like the Development Bank, any comparison of data regarding disbursements during a short period of a particular quarter of one year with the corresponding quarter of the previous year, may not be very appropriate, as the figures of disbursements in such a short periods are subject to fluctuations, depending on the progress of implementation of major projects viz., deliveries and erection of plant and machinery, construction of buildings etc. which are normally spread over two to three years.

श्री सरजू पांडे : मंत्री महोदय ने उत्तर में कहा है कि यह बात सही है कि 1971 के मुकाबले में 1972 डिसबर्समेंट्स में कमी हुई है और साथ ही वह कह रहे हैं कि कम्पेयर करना अच्छा नहीं है। मैं जानना चाहता हूँ क्या वह बताएंगे कि 1971 और 1972 में क्या क्या फर्क है और कमी के मुख्य कारण क्या है?

मैं यह भी जानना चाहता हूँ कि इंडस्ट्रियल बैंक द्वारा पिछड़े हुए इलाकों में पैपे वगैरह देने की कोई व्यवस्था की जा रही है या नहीं?

SHRI YESHWANTRAO CHAVAN: May I answer the second part of his question first? His question has actually got two parts. The second part of his question is whether the Industrial Development Bank has got any plan for the development of the backward regions. I think that this is a very legitimate question, and the Industrial Development Bank has undertaken many surveys in different areas, and certain ideas have come up which will certainly be followed up. At the same time, the Industrial Development Bank is also giving some sort of concessions to the industries to be established in the backward areas.

As regards what the disbursements in the whole year would be, as I have said, comparing one quarter with the corresponding quarter of the previous year is not correct. I do not think I have got the figures for 1971 as a whole also. Really speaking, the sanctions have increased quite substantially, but the difficulty is that disbursement takes place only when the delivery of equipment and capital goods takes place. Therefore, disbursement sometimes fluctuates from period to period; it may be that perhaps, even as compared with the

whole of 1971, the figure of 1972 may be less, but I do not think that that indicates any particular aspect.

श्री सरजू पांडे: उत्तर प्रदेश में सब से ज्यादा गरीबी है। जो आंकड़े प्लानिंग विभाग ने प्रकाशित किए हैं उन से मालूम होता है कि उत्तर प्रदेश में घोर गरीबी है और लगभग 38 प्रतिशत आदमी बिलो एंजेल पावर्टी लाइन वसते हैं। खास तौर से पूरी उत्तर प्रदेश में तो हालत बहुत ही खराब है। अभी आपने कहा कि इंडस्ट्रियल डिवलपमेंट बैंक पिछड़े क्षेत्रों के लिए व्यवस्था कर रहा है। मैं जानना चाहता हूँ कि खाय तौर के उत्तर प्रदेश के इन पिछड़े हुए जिलों के विकास के लिए कुछ इस बैंक के पाम योजनाएं आई हैं या नहीं? अगर आई हैं तो उनका प्राह्व क्या है?

श्री यशवन्तराव चव्हाण : जैसा मैंने कहा है कुछ इतिमान इनके पास आई हैं। मैं यह नहीं कह सकता हूँ कि उत्तर प्रदेश के लिए क्या चंज आई हैं। मेरे पास अभी जानकारी नहीं है। फिर कभी पूछ लेंगे तो मैं जवाब दे दूंगा।

SHRI K. S. CHAVDA: Will Government consider the desirability of liberalising its lending policy so as to benefit the new and small entrepreneurs?

अध्यक्ष महोदय : यह एक विशेष प्रश्न है कि पिछले साल में कितना डिसबर्समेंट हुआ है और इस साल क्यों नहीं हुआ। आप तो लम्बी बात में पड़ गए।

**Steps to Compensate Headquarters
Employees of I.T.D.C. for rise in
Prices**

*568. DR. LAXMINARAIN
PANDEYA:

SHRI DHAMANKAR:

Will the Minister of TOURISM AND CIVIL AVIATION be pleased to refer to the replies given to Unstarred Question Nos. 2138 and 1601 on the 7th April, 1972 and the 26th May, 1972 respectively and state what steps the India Tourism Development Corporation has taken to compensate the Headquarters employees of India Tourism Development Corporation for rise in prices during the last two years?

THE MINISTER OF STATE IN THE MINISTRY OF TOURISM AND CIVIL AVIATION (DR. SARAJINI MAHISHI): The Headquarters employees of the India Tourism Development Corporation received bonus for the years 1970-71 and 1971-72 at 10 per cent.

डा० लक्ष्मीनारायण पांडेय : अध्यक्ष महोदय, मेरा प्रश्न भिन्न था। मैं ने पूछा था कि प्राइस इन्डेक्स में वृद्धि के अनुरूप हैडक्वार्टर के कर्मचारियों को काम्पेन्सेशन के रूप में क्या दिया गया है। मंत्री महोदय के कहा है कि उन को बोनस दिया गया है। मेरा निवेदन है कि आई० टी० डी० सी० कम्पनी गवर्नर के अन्तर्गत राजिस्टर्ड है और वह एक कामर्सल अंडरटेकिंग है। इस लिए उस के कर्मचारियों को बोनस देना तो अनिवार्य है। अगर उन को बोनस दिया जाता है, तो वह कोई आबलिगेशन नहीं है। मैं यह जानना चाहता हूँ कि प्राइस इन्डेक्स में

वृद्धि को मीट करने के लिए उन को किस प्रकार काम्पेन्सेट करने का प्रयत्न किया गया है।

डा० सरोजिनी महिषी : उन को काम्पेन्सेट करने का प्रयत्न किया गया है। हैडक्वार्टर में काम करने वाले एक एम्प्लोई को अशोका होटल या जनपथ होटल में उसी ग्रेड में काम करने वाले एम्प्लोई की तुलना में डीयरनेस एलाउंस, हाउस रेंट एलाउंस और सिटी काम्पेन्सेटरी एलाउंस के रूप में ज्यादा पैसा मिल जाता है।

डा० लक्ष्मीनारायण पांडेय : क्या यह सही है कि जब 1970 में प्रथम अन्तरिम रिलीफ दिया गया था, तब से इन दो वर्षों में प्राइस इन्डेक्स में काफी वृद्धि हुई है, लेकिन उस के बावजूद उन कर्मचारियों का 1970 में जो वेतन था, उस में और आज के वेतन में कोई अन्तर नहीं है।

डा० सरोजिनी महिषी : माननीय सदस्य की इनफॉर्मेशन ठीक नहीं है। अगर उन कर्मचारियों के वेतन में नहीं, तो उन के डीयरनेस एलाउंस, हाउस रेंट एलाउंस और सिटी काम्पेन्सेटरी एलाउंस में काफी वृद्धि हो चुकी है। दिल्ली एडमिनिस्ट्रेशन न एक वेज बोर्ड की नियुक्ति की थी, उसके 1968 के एवार्ड के अनुसार डीयरनेस एलाउंस प्राइस इन्डेक्स के साथ जुड़ा है और इस लिए उन में काफी परिवर्तन होता रहता है।

डा० लक्ष्मीनारायण पांडेय : मैं ने यह पूछा है कि क्या यह सही है कि 1970 में, जब की प्रथम अन्तरिम सहायता किया गया था, और उस जो कर्मचारियों को वेतन था, उन को वही वेतन आज भी है मिल रहा है।

डा० सरोजिनी महिला : यह सही नहीं है।

श्री रामरतन शर्मा : मंत्री महोदय ने हाउस रेंट की बात कही है। मैं यह जानना चाहता हूँ कि क्या सभी कर्मचारियों की 25 प्रतिशत हाउस रेंट एलाउंस मिलता है, यदि नहीं, तो उन के होटल एमालुमेंट्स में 25 प्रतिशत हाउस रेंट एलाउंस क्यों जोड़ा जाता है।

डा० सरोजिनी महिला : 25 प्रतिशत हाउस रेंट एलाउंस सभी को नहीं मिलता है। जो रिक्विट प्रोड्यूस करते हैं, उन्हीं को मिलता है। जो रिक्विट प्रोड्यूस नहीं करते हैं, उन को ग्राम तोर पर 15 प्रतिशत हाउस रेंट एलाउंस दिया जाता है।

Arrears of Taxes against Foreign Firms

+

*569. SHRI JAGANNATH MISHRA:
SHRI BISHWANATH JHUN-
JHUNWALA:

Will the Minister of FINANCE be pleased to state:

(a) whether a large amount of tax arrears remain outstanding against a number of foreign firms functioning in India;

(b) if so, the steps proposed to recover tax arrears from such firms, especially from those which have wound up their business in India by now; and

(c) the names of the firms against whom tax arrears are outstanding?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI K. R. GANESH): (a) to (c). The term 'foreign firm' has not been defined in the Income-tax Act. Income-tax sta-

tistics are not maintained separately in respect of Indian and foreign assesses. However, 'foreign company' has been defined in Section 80B(4) of the Income-tax Act, 1961 as a company which is not a domestic company. Information regarding foreign companies against whom income-tax arrears of Rs. 50,000 or above were outstanding as on 31st March, 1972 has been collected. These particulars show that there are 20 such companies. The names of these companies, the amounts of income-tax outstanding as on 31st March, 1972 and the steps already taken and being taken for recovering the arrears are given in the Statement laid on the Table of the House. [Placed in Library, See No. Lt-4141/72.]

Out of these 20 companies, only two companies, namely M/s. F. C. Osler Limited and M/s. Amco Furnace Construction Ltd. have wound up their business in India. Arrears in respect of four other companies have since been reduced to 'nil'.

SHRI JAGANNATH MISHRA: May I know from the hon. Minister whether foreign firms running in arrears have sought the Government of India's permission for winding up their business in India and why they were allowed to do so before realisation of the arrears?

SHRI K. R. GANESH: I have no such information as yet.

SHRI JAGANNATH MISHRA: May I know whether with the Simla agreement and the consequent normalisation of relations with Pakistan the question of recovery of tax arrears in regard to Pakistan Airlines, Pakistan shipping lines and Mohammedi steamship Co. has been taken up and if so with what results?

SHRI K. R. GANESH: The arrears of the three Pakistani companies are awaiting DIT relief and when they are in a position to get proper documents from the Pakistani authorities steps will be taken.

SHRI INDRAJIT GUPTA: May I know whether the Government have any information that one of the oldest foreign companies which was operating in this country all these years as a managing agency house, Messrs. Andrew Yule Company are proposing to wind up their business in India and if so what steps will be taken in time to see that whatever outstanding tax liabilities are there are recovered from them before they wind up and go away?

SHRI K. R. GANESH: Many hon. Members have also sent to the Government this information and the employees' associations have taken up this matter with the Government. Government will take special efforts to see that if there are any arrears of this particular firm they will be recovered before any such contingency arises.

SHRI K. S. CHAVDA: May I know whether Government intend to consider the desirability of insisting on the payment of tax as a condition precedent to the repatriation of profits and assets?

SHRI K. R. GANESH: This is a good suggestion which the hon. Member has made and Government will consider it.

SHRI M. RAM GOPAL REDDY: In respect of item 10 Rs. 25 lakhs are due from a company and it is referred to the British Government for the recovery of that amount. In respect of item 16 that company has put in a petition to the Commissioner of Income-tax for the waiver of interest. I want to know why from 1961 it is pending still in 1972.

SHRI K. R. GANESH: In each of these companies which are in arrears I have given a detailed description.

SHRI M. RAM GOPAL REDDY: He has not answered my question.

MR. SPEAKER: The answer was already there, in the third column.

Kindly think over it; we shall go to it later.

SHRI SOMNATH CHATTERJEE: May I know from the hon. Minister if he has got any information about the extent of participation of Indian businessmen in these foreign companies which have arrears outstanding and if so whether these Indian businessmen belong to the monopoly houses, that is, those 75 houses, which were the subject matter of investigation of the Monopolies Commission?

SHRI K. R. GANESH: As far as my information goes, these are foreign companies. If the hon. Member has asked whether any monopoly houses are associated with them, as far as my present information goes, these are strictly foreign companies. But I shall look into that matter.

SHRI R. P. YADAV: From the statement it transpires that M/s. Renwick and Co. at serial No. 13 has arrears to the extent of Rs. 17,12,000. It is said that recovery certificates have been issued, and that the company is situated in Kuthia Bangla Desh and that no assets are known to be in India. May I know from the hon. Minister how the Government will be able to realise that amount?

SHRI K. R. GANESH: This is one of the cases in which recovery is really difficult because there are no assets in India. But it will have to be kept till all the avenues are completely utilised.

SHRI R. P. YADAV: To whom will the recovery certificate be issued?

SHRI K. R. GANESH: There will be some branch of the company here.

SHRI G. VISHWANATHAN: The tax arrears of Westinghouse Electric International Company is given as Rs. 6,23,000. The explanation is very interesting:

"The assessee claims to have paid the entire amount by deduction at source. The claim has since been verified and the arrears have been reduced to nil."

The same party which was deducting at source the tax was also responsible for assessing the tax. May I know who was responsible for this ignorance?

SHRI K. R. GANESH: This is one of the matters which require looking into to find out how it has happened. We have given the facts. Now we will find out how it has happened.

Take-over of Sick Tea Estates in West Bengal

***570. SHRI INDRAJIT GUPTA:** Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether the attention of Government has been drawn to the news-item published in *Patriot* on 12th November, 1972 under the caption "Centre gives clearance. West Bengal to take over 'sick' tea estates";

(b) if so, the salient features of the decision taken in the matter; and

(c) when the decision is likely to be implemented?

THE MINISTER OF FOREIGN TRADE (SHRI L. N. MISHRA): (a) Yes, Sir.

(b) and (c). Some proposals have been made by the West Bengal Government for taking over certain tea plantations. The matter is being looked into.

SHRI INDRAJIT GUPTA: I would like to know whether the Labour Minister of West Bengal has met the hon. Minister some weeks ago and specifically drawn his attention to the fact that five such tea estates in

North Bengal have already closed down and another 30 are on the verge of closure and whether he has sought the assistance of the Centre in the establishment of a Tea Estate Reconstruction Corporation, which would be able to take over these sick estates and run them? If so, may I know what is the reaction of the Central Government to this proposal?

SHRI L. N. MISHRA: It is a fact that the Labour Minister of West Bengal saw me and proposed that a corporation should be set up with 51 per cent participation by the State Government and 49 per cent by the Central Government. He also referred to the cases of six closed tea-estates, 5 in Darjeeling and one in Jalpaiguri. My suggestion was that the State Government should set up its own corporation and we shall give them financial assistance from the tea development fund. He came a second time and we have discussed it. I hope the State Government will set up its own corporation. So far as the financial part is concerned, we would be able to help them from the tea development fund.

SHRI INDRAJIT GUPTA: Has Government's attention been drawn to the fact that particularly in the Darjeeling area which produces the best quality of tea which is a big foreign exchange earner for this country, the planters of the old companies are not at all interested in investing money for the replantation of the shrubs which have practically exhausted their lives and are dying out? Since this involves not only the question of employment but also loss of production and foreign exchange, I would like to know what steps Government propose to take to see that if these companies are not willing themselves to go in for replantation of the shrubs in the Darjeeling area, Government will step in and take some action to see that the industry is not ruined there?

SHRI L. N. MISHRA: The objective of the West Bengal Government is exactly the same. They want to set up a corporation. Earlier they wanted the Government of India also to be a participant. But I said it will be better that the State Government sets up its own corporation and financial assistance will be given. The hon. member is right when he says that the planters are not very much interested in replantation. Although we have increased the quantum of loan from Rs. 7,400 to 1100 per hectare and the subsidy from Rs. 4,000 to 5,000, still they are not coming forward. The solution lies in having a State corporation there and taking over these tea gardens. So far as the financial and other assistance is concerned, we would not be lacking in helping them in this.

SHRI K. D. MALAVIYA: In view of the situation of non-cooperation and disinterestedness on the part of foreign industrialists in the tea estates of our country and this question is hanging fire for such a long time, may I know why is the Government of India not formulating any specific policy with regard to administration and take-over of substantial control in order to save this industry? Why has no decision been taken so far?

SHRI L. N. MISHRA: The tea gardens in West Bengal are not owned by foreigners. They are owned by the Indians. To the best of my knowledge, in West Bengal there is no tea garden owned by foreigners. All these gardens are owned by the Indians. Therefore, the question does not arise. I will refer hon. Member, Mr. K. D. Malaviya, to the fact that such a situation is there in Kerala.

SHRI BISWANARAYAN SHASTRI: In view of the fact that there are a large number of sick tea gardens in various parts of the country, may I know from the hon. Minister what is the policy of the Government towards those sick tea gardens and whether the Government of India

propose to enlarge the scope of the activities of Tea Trading Corporation so that that Corporation can come to the assistance of those sick tea gardens and finance the State Tea Corporation also.

SHRI L. N. MISHRA: The hon. Member himself is a member of the Tea Board, elected from this House. He knows this. So far as helping them is concerned, we are there to help them. We have got the funds. There is no want of funds. Capital is no problem; funds are no problem. The question is one of willingness on the part of the people who own the gardens. The Tea Trading Corporation is a different one; that has nothing to do with tea-growing; it is for export purposes that that Corporation has been set up.

SHRI TRIDIB CHAUDHURI: About the sickness of these particular estates, may I know whether the Government of West Bengal forwarded any report regarding the viability of these estates. It seems that some of the estates have exhausted all their possibilities and have been completely ruined so far as the farming part is concerned. Are the Government satisfied from their own reports and on the basis of such reports as the West Bengal Government may have submitted to them that some, at least, of these tea estates would be viable estates if they are properly financed?

SHRI L. N. MISHRA: Yes; I was saying that they should be properly financed and managed. We have suggested to the State Government to set up a Corporation. It is for them to set up a Corporation and we will be there to help them.

SHRI DINEN BHATTACHARYA: May I know whether, considering the views of the West Bengal Government, the Ministry has come to any conclusion why there was such a situation in these sick tea estates, why these tea estates have now been

declared sick, what is the actual reason, whether it was on account of corruption on the part of management and frittering away of the assets, and are they now declared sick so that Government may inject some money for the benefit of the tea estate owners?

SHRI L. N. MISHRA: It is correct that the tea gardens were exploited without making any investment there; as Mr. Indrajit Gupta said, about replantation and fertiliser, no proper care was taken. The tea gardens have been exploited by the owners and that is why this situation has arisen.

Loss of Foreign Exchange due to transfer of shares by Indian Companies

+

*571. **SHRI BIRENDER SINGH RAO:**

SHRI MUKHTIAR SINGH MALIK:

Will the Minister of FINANCE be pleased to state:

(a) whether it has come to the notice of Government that many Indian Companies have given their shares to the foreign companies in order to utilise the latter's trade marks;

(b) the amount of foreign exchange sent out by such companies during the last three years; and

(c) the names of such companies?

THE MINISTER OF FINANCE (SHRI YESHWANTRAO CHAVAN):

(a) to (c). It is not the current policy of Government to allow issue of shares by Indian companies to the foreign collaborators exclusively for the use of foreign brand names and trade marks; however, the possibility of issuing such shares by some companies in the remote past cannot be ruled out. If the Hon'ble Members have any specific cases in view, the matter can be looked into and the required information furnished.

SHRI BIRENDER SINGH RAO: May I know what steps, if any, Government are taking to prevent loss of foreign exchange by the manner that has been stated in the Question? Secondly, what is the maximum percentage of earning by foreign companies that is allowed by Government to be remitted outside the country?

SHRI YESHWANTRAO CHAVAN: It is a long information. I will give you for one year. These remittances go in the form of profits dividends, royalties and technical knowhow. These are the different forms in which the remittances go. The figures for 1970-71 are with me. In the case of profits, in 1970-71, it was about Rs. 13,12,00,000; in the case of dividends it was Rs. 43,48,00,000; in the case of royalties, it was Rs. 5,23,00,000; in the case of technical knowhow it was Rs. 20,63,00,000.

SHRI BIRENDER SINGH RAO: I wanted to know if there was any maximum limit, percentage, fixed by Government for remittances outside.

SHRI YESHWANTRAO CHAVAN: I do not think I can answer that question because it depends upon each individual case.

SHRI MUKHTIAR SINGH MALIK: In view of the reply of the hon. Minister that this is not the current policy of the Government to allow issues of shares to foreign companies, may I know from the hon. Minister whether any directions or instructions have been issued by the Companies Department to the various companies to supply information if and when they desire to transfer shares to foreign companies.

SHRI YESHWANTRAO CHAVAN: Let me make my point clear. I have said that such shares will not be allowed to be transferred exclusively for the purpose of using their trade marks or brands. If one of the benefits is that, certainly it can be allowed. Naturally when the Government has

made a policy, necessary instructions have been issued to the concerned authorities, including the RBI.

Compensation demanded by foreign participation in Asia 72 for losses suffered due to rain

+

*572. SHRI PURUSHOTTAM KAKODKAR:

SHRI M. M. JOSEPH:

Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether foreign participants who have pavilions in the Hall of Nations at Asia 1972 have jointly demanded compensation from the Fair authorities for the losses they suffered because of rain on the 27th November, 1972; and

(b) if so, the reaction of Government thereto?

THE MINISTER OF FOREIGN TRADE (SHRI L. N. MISHRA):
(a) No, Sir.

(b) Does not arise.

SHRI PURUSHOTTAM KAKODKAR: Is the Minister aware of the report in the Press that some foreign participants demanded compensation from the Fair authorities for the losses suffered because of the rains on the 27th November, 1972?

SHRI L. N. MISHRA: I have seen the Press report. But that is not a fact.

श्री तुकम चन्द कछवाय : मैं आप के माध्यम से मंत्री महोदय से जानना चाहता हूँ कि अभी कुछ दिन पूर्व प्रधान मंत्री जी द्वारा घोषणा की गई थी कि यह मेला 31 दिन तक और चलेगा और इस में विदेशी स्टाल्स भी रहेंगे। यदि ऐसा है तो क्या उन्होंने कुछ मुआवजा या पैसा देने की बात कही है या कोई छूट देने की बात की है ?

अध्यक्ष महोदय : सवाल यह है कि बारिश की वजह से कितने नुकसान के कलेम्ज आये हैं। लेकिन आप पूछ रहे हैं कि 31 दिन तक चलेगा। आप यह पूछने कि और भी बारिश होगी या नहीं होगी। कुछ तो इस को रिलेवेन्ट बनाना चाहिए।

श्री अटल बिहारी वाजपेय : आज आखिरी दिन है जो पूछना हो पूछ लेने दीजिए।

अध्यक्ष महोदय आखिरी दिन इन के लिए नहीं आयेगा।

भारत के सांस्कृतिक केन्द्रों का पर्यटन केन्द्रों के रूप में विकास करने का प्रस्ताव

*573 श्री धनशाह प्रधान : क्या पर्यटन और नागर विमानन मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या और अधिक पर्यटकों को आकर्षित करने और विदेशों में भारतीय संस्कृति का प्रचार करने की दृष्टि से भारत के सांस्कृतिक केन्द्रों का पर्यटन केन्द्रों के रूप में विकास करने का कोई प्रस्ताव सरकार के विचाराधीन है ; और

(ख) यदि हां, तो तत्त्वबन्धी प्रस्ताव की मोटी रूपरेखा क्या है।

THE MINISTER OF TOURISM AND CIVIL AVIATION (DR. KARAN SINGH): (a) and (b). In developing tourism infrastructure due attention is paid to places of cultural importance.

श्री घनशाह प्रसाद : अध्यक्ष महोदय, क्या देश में भिन्न-भिन्न स्थानों पर स्थित सांस्कृतिक केन्द्रों की सूची तैयार की गई है और इस का विस्तृत व्यौरा क्या है ?

डा० कर्ण सिंह : अध्यक्ष महोदय, हमारा देश इतना विशाल है और संस्कृति से इतना सम्पूर्ण है कि कोई विशेष सूची बनाने का प्रश्न नहीं उठता। हर क्षेत्र का कण-कण संस्कृति से भरपूर है।

श्री घनशाह प्रसाद : क्या यह सच है कि विदेश में पर्यटकों के आकर्षण केन्द्र केवल प्राकृतिक दृश्य अथवा ऐतिहासिक भवन ही नहीं हैं, किन्तु उन देशों में सांस्कृतिक महत्व के स्थानों को पर्याप्त महत्व प्राप्त है और वह पर्यटकों के लिये प्रमुख आकर्षण का केन्द्र हैं। तो क्या हमारे देश की महान सांस्कृतिक परम्परा को ध्यान में रख कर तुरन्त इस विषय पर ध्यान दिया जायगा ?

डा० कर्ण सिंह : अध्यक्ष महोदय, मैं पूरा प्रश्न समझ नहीं पाता हूँ। जहां तक हमारे देश के सांस्कृतिक केन्द्रों के उत्थान का प्रश्न है, पर्यटन की दृष्टि से उन का जितना विकास हो सकता है, उस तरफ हम ध्यान दे रहे हैं। विदेशों में भी हम पर्यटकों के लिये जो प्रचार करते हैं, उस प्रचार में भी हमारे सांस्कृतिक केन्द्रों के विषय में विशेष ध्यान दिया जाता है, ताकि उन की जानकारी भी विदेशों को हो और जो पर्यटक यहां आयें, वे केवल प्राकृतिक दृश्य ही न देखें, बल्कि सांस्कृतिक धरोहर से भी लाभान्वित हों।

अध्यक्ष महोदय : : पार्लियामेंट को भी देखा करें।

डा० गोबिन्द बंस रिठरिया : मैं भारत की संस्कृति के ज्ञाता श्री मंत्री जी से यह जानना चाहता हूँ—शायद उन को ज्ञात हो कि कविवर रहिमान ने कहा था—बुन्देलखण्ड के लिये—

जापर विपत्ता पड़त है, ता आवत इस देश इसी के प्रमाण स्वरूप जब भगवान रामचन्द्र पर विपत्ती पड़ी थी तो वे चितकूट में पधारे, जो बुन्देलखण्ड का ही एक दर्शनीय स्थान है। वहां ऐसे और भी स्थान हैं जोकि इसी तरह के ह। मैं जानना चाहता हूँ कि क्या उन स्थानों का बिकास कर के आप उनको ऐसा स्थल बनाने के बारे में सोच रहे हैं कि जब भारतीय सरकार पर संकट हो तो वे वहां जा कर शान्ति स्थापित कर सकें ?

अध्यक्ष महोदय : यहां तो बाहर के देशों की बात चल रही है, जब अंदर की बात आये तब पूछ लेना।

श्री अटल बिहारी वाजपेयी : इसका सम्बन्ध दोनों से है—बाहर से भी है और भीतर से भी है।

MR. SPEAKER: The Question is:

"whether Government have under consideration any proposal to develop Indian Cultural Centres as Tourist Centre with a view to attract more tourists and propagate Indian culture abroad"

डा० कर्ण सिंह : सदस्य महोदय ने बुन्देलखण्ड के सम्बन्ध में पूछा है। इस समय हमारी ऐसी कोई योजना नहीं है, लेकिन यह

WRITTEN ANSWERS TO
QUESTIONS

एक सुझाव है, इस पर विचार किया जा सकता है। मैं तो यह चाहूंगा कि जो संकट-मोचन के लिये बुन्देलखण्ड जाते हैं, यदि वह संकट ही दूर हो जाय, तब शायद पर्यटकों की दृष्टि से वहां जाने की आवश्यकता न पड़े।

श्री कूल चंद शर्मा : अध्यक्ष महोदय, मैं आपके माध्यम से मन्त्री महोदय से जानना चाहता हूं कि उन्होंने इस सदन में बार बार कहा है कि मध्य प्रदेश में जो उज्जैन नगर है वह बहुत पुराना सांस्कृतिक स्थान है और उसके बारे में विचार करेंगे तो क्या वे उज्जैन नगर को पर्यटन नगर घोषित करना चाहते हैं? यदि हां, तो केबतक ?

डा० कर्ण सिंह : अध्यक्ष महोदय, उज्जैन महाकाल का स्थान है, महाकाल का नगर है। प्रत्येक व्यक्ति को चाहे वह पर्यटक हो या न हो एक न एक दिन तो वहां जाना ही है। माननीय सबस्य ने जो सुझाव दिया है, उज्जैन के सम्बन्ध में तो केन्द्रीय योजना में इस समय वह है नहीं लेकिन मेरा ऐसा विचार है कि राज्य सरकार उज्जैन के सम्बन्ध में कुछ कर रही है। इसके सम्बन्ध में मैं जानकारी प्राप्त करूंगा।

MR. SPEAKER: Now, the Question-Hour is over.

SHRI R. V. SWAMINATHAN: May I submit for your consideration that to-day being the last day of the session, you may extend the Question-Hour by the five minutes more so that we may complete the question list. There are some very important questions.

MR. SPEAKER: I am sorry. Please do not introduce new practices.

(a) the latest position with regard to the formation of Boards of Directors of the fourteen nationalised banks including the representatives of workers, peasants, artisans, small traders etc; and

(b) whether such broad-based bodies are proposed to be formed at lower levels also?

THE MINISTER OF FINANCE (SHRI YESHWANTRA CHAVAN):

(a) The new Boards of Directors of 14 nationalised banks have since been constituted with effect from 11th December, 1972, in accordance with clause 3 of the Nationalised Banks (Management and Miscellaneous Provisions) Scheme, 1970.

(b) The Board of each nationalised bank is empowered by clause 14 of the Scheme referred to above, to constitute such committees, whether consisting wholly of Directors or wholly of other persons or partly of Directors and partly of other persons, as it deems fit, to render advice on such matters as may be generally or specially referred to them by the Board.

Trade talks between India and Japan

*575. SHRI MUHAMMED SHERIFF:

SHRI V. MAYAVAN:

Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether any trade talks were held between India and Japan during the current month; and

(b) if so, the decisions arrived at?

THE MINISTER OF FOREIGN TRADE (SHRI L. N. MISHRA):

(a) and (b). There have been no official talks on trade between India and Japan except as a part of the Intra-Regional Trade Promotion Talks organised by the Economic Commission for Asia and the Far East.

The Intra Regional Trade Promotion Talks have been held, since 1966, in conjunction with the Asian Trade Fairs. In the talks held in New Delhi in conjunction with the Third Asian Trade Fair, 15 countries including India and Japan participated.

In pursuance of a Resolution of the Economic Commission for Asia and the Far East, these discussions are held in-camera and no formal record is kept of the proceedings.

There was also a meeting of the Business Co-operation Committees of India and Japan in New Delhi on the 7th and 8th of December, 1972. These, however, are no official committees of industrialists and businessmen and the meeting was organised by the Federation of Indian Chambers of Commerce and Industry.

Orders secured by S.T.C. from foreign countries for supply of jute, shoes and cement

*576. SHRI RANABAHADUR SINGH:

SHRI DHARAMRAO AF-ZALPURKAR:

Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether the State Trading Corporation of India has secured orders from foreign countries for the supply of jute goods, shoes and cement; and

(b) if so, the names of the items for which orders have been secured and the foreign exchange that is going to be earned through these deals?

THE MINISTER OF FOREIGN TRADE (SHRI L. N. MISHRA):

Loans Advanced by Nationalised Banks to Farmers in Mysore

***577. SHRI PAMPAN GOWDA:**
Will the Minister of FINANCE be pleased to state:

(a) the total amount of loans advanced so far by the nationalised banks to the big and small farmers in the State of Mysore; and

(b) the percentage of the loans which has been recovered and the percentage of the loan expected to be declared as bad debt?

THE MINISTER OF FINANCE (SHRI YESHWANTRAO CHAVAN):

(a) The amount outstanding in respect of direct agricultural advances provided by the nationalised banks in Mysore State as at the end of June 1972 was Rs. 16.69 crores. The break-up of this figure between small and big farmers is not available, as the banks did not maintain statistics in the manner asked.

(b) Information on the percentage of loans recovered in Mysore is being collected and will be laid on the Table of the House.

Debts are regarded as bad only after all avenues of effecting recoveries, including legal remedy, are exhausted. It would, therefore, be premature to make any precise estimate of bad debts at this stage.

Announcement of fresh market borrowings

***578. SHRI C. T. DHANDAPANI:**
SHRI GIRIDHAR GOMAN-
GO:

Will the Minister of FINANCE be pleased to state:

(a) whether Government, after the price rise debate in Lok Sabha in the current Session, announced fresh market borrowings to the tune of Rs. 100 crores;

(b) if so, whether upto 28th November, 1972, the Centre's market borrowings have already yielded an extra Rs. 108 crores over and above the net borrowing estimate of Rs. 215 crores; and

(c) if so, latest position and how far this has helped in checking the price rise?

THE MINISTER OF FINANCE (SHRI YESHWANTRAO CHAVAN):

(a) and (b). Yes, sir.

(c) The Central Government's net receipts from the market loans floated so far during the 1972-73 fiscal year amount to Rs. 433.19 crores.

Financing of the Government's expenditure by raising resources through market loans enables the Government to mop up the surplus liquidity in the banking system and thereby helps in easing the pressure on prices. However the behaviour of prices is influenced by the interaction of a large number of factors and as such it is not possible to quantify the impact of any single measure.

ous commodities**

5409. SHRI SOMCHAND SOLANKI:
Will the Minister of FOREIGN
TRADE be pleased to state:

(a) the increase/decrease in exports
of cotton textile, tea, handicrafts,
ready-made clothes and shoes in the
year 1970-71 and 1971-72; and

(b) the steps Government propose
to take to increase the exports of
these commodities?

THE DEPUTY MINISTER IN THE
MINISTRY OF FOREIGN TRADE
(SHRI A. C. GEORGE). (a) and (b).
A statement is laid on the Table of
the House.

Statement

(a) Increase or Decrease in Exports

Items	(Rs. crores)	
	During 1970-71 over 1969-70	During 1971-72 over 1970-71
Cotton Textiles (mill-made)		
—Cotton piecegoods, yarn & thread	—4.7	—5.7

NOTE: Figures based on DGCI&S class-
fication.

(b) The main export promotion
measures in operation in regard to
specified commodities are as follows:

Cotton Textiles (including cotton
apparel). In order to improve quality-
production, efforts are being made to
meet the requirements of exporting
mills for imported sophisticated items
of textile machinery, subject to availa-
bility of foreign exchange. The sche-
me for export production of garments
under custom bond on the basis of
imported cloth has been liberalised so
that exports of garments is maximised.
Concentrated efforts are also being
made to secure bulk orders for
cotton fabrics and yarn. It is also
proposed to continue our efforts both
through the various international
forums and bilateral negotiations to
persuade the industrial countries to
liberalise their imports. The exports
of cotton textiles have been picking
up well during 1972-73.

Tea: Abolition of export duty on
tea from 1-3-1970 with simultaneous
rebate of excise duty on exports based
on F.A.S. prices; participation in
International efforts to stabilise prices
of tea; promotion of special packs of
Indian tea in selected markets abroad

with the cooperation of the local blenders/packers.

Footwear: The major step which Government has taken recently is to canalise the export of all types of footwear through the State Trading Corporation. Other measures taken for promotion of export of leather shoes are sending of sales-cum-study teams abroad, participation in specialised trade fair abroad and grant of air freight subsidy.

Handicrafts: Facilities for raw materials and popularisation of Indian Handicrafts including gems and jewellery in overseas markets.

(c) There are twelve non-official members in the Authority.

Industries to be set up in Santa Cruz Free Trade Zone

5411. DR. H. P. SHARMA: Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether any free trade zone is proposed to be set up around Santa Cruz airport at Bombay;

(b) if so, the broad outlines of the scheme; and

(c) the nature of the industries to be set up in this Zone?

THE DEPUTY MINISTER IN THE MINISTRY OF FOREIGN TRADE (SHRI A. C. GEORGE): (a) Government have decided to set up an Export Processing Zone near Santa Cruz airport at Bombay.

(b) A statement is laid on the Table of the House.

(c) Manufacture of electronic equipment.

Statement

The board outlines of the scheme will be:—

(i) The Zone will be established in an area of 100 acres, 7 Kms. from the International airport at Santa Cruz, Bombay. The land has already been earmarked.

(ii) The project is entirely export-oriented. The units admitted into the Zone will be obliged to export 100 per cent of their production, i.e. entry of these products into the rest of India will be prohibited. It is further intended to ensure that the net value added on an average on the entire operations in the Zone will be about 50 per cent of the f.o.b. value of exports, i.e., the inputs of foreign exchange for the import of raw materials or components used in the manufacture of the exported products will not exceed half the value

of export. The minimum net value added in individual cases will, in any event, not be below 20 per cent, and, if possible, it should not be less than 30 per cent.

(iii) The units in the Zone are proposed to be given certain facilities and concessions, such as in the matter of import of raw materials, components, capital equipment, etc.

(iv) The Zone will help to raise the export of electronic equipment and components from India substantially.

Shortage of Jute

5412. SHRI BISHWANATH JHUN-JHUNWALA: Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether against the requirement of 7.4 million bales of jute the present availability is not more than 5.5 million bales;

(b) if so, what steps Government have taken to meet the shortage of 1.9 million bales of jute; and

(c) whether firm commitments for import of this quantity have been made and if so, the steps Government propose to take to accelerate the import to keep the industry running to be able to meet its export commitment?

THE DEPUTY MINISTER IN THE MINISTRY OF FOREIGN TRADE (SHRI A. C. GEORGE): (a) to (c). The total requirements of jute and mesta for 1972-73 are estimated at 7.35 million bales. The total availability is of the same order (including carry-forward in the beginning of the season and the crop for the season). The mills will require some stocks to be carried forward into the next season for consumption until the new crop comes into the market. Towards this end, adequate imports

have been planned. In addition to small quantities already imported, 2 lakh bales have been contracted for imports during the 3 months ending February, 1973. The industry will thus be able to maintain uninterrupted production and meet export demand for jute goods.

Loss of Tea Market

5413. SHRI BISHWANATH JHUN-JHUNWALA: Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether India is losing her traditional market for tea in U.K., U.S.A. and European countries to Africa gradually;

(b) whether Government have made any assessment of the gradual loss to which the country is being subjected over the last three years; and

(c) whether excise duty on tea, particularly on the Upper Assam tea is disproportionately high and this makes Indian tea uncompetitive and if so, whether Government are considering any proposal to give substantial relief to the tea industry to enable it to regain the ground and if so, the gist thereof?

THE DEPUTY MINISTER IN THE MINISTRY OF FOREIGN TRADE (SHRI A. C. GEORGE): (a) and (b). Although Indian tea is facing growing competition from African countries, exports of tea from India have not declined since 1969 as will be seen from the following figures inasmuch as the fall in exports to certain countries have been made up by increased exports to others:—

	(Qty. in mn. kgs.)
1969	168.7
1970	202.02
1971	206.07

(c) In order to make Indian tea competitive in the world market as also to provide some built-in incentive for production of larger quantity of better quality tea for export, Government abolished the export duty on tea from 1st March, 1970 and enhanced the rates of zonal excise duty. A rebate of excise duty at the point of exports varying with price was announced with effect from 15th April, 1970 to boost tea exports. The question of giving fiscal relief in excise duty on tea is under constant review.

Abolition of export duty in jute goods to compete with other Foreign countries

5414. SHRI BISHWANATH JHUNJHUNWALA: Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether Bangladesh Jute Industry is selling its products 8 to 10 per cent cheaper than India resulting in a big loss of world market for the Indian exporters;

(b) whether in view of this, Government have considered the desirability abolishing export duty on jute goods or giving any similar incentives to enable the industry to compete with the other countries in the world market; and

(c) whether Government have asked the State Trading Corporation to compete with other exporting countries in the world market specially in sacking whose export we have lost to the tune of 70-80 per cent and to improve our export earnings on this account?

THE DEPUTY MINISTER IN THE MINISTRY OF FOREIGN TRADE (SHRI A. C. GEORGE): (a) Yes, Sir.

(b) This is under constant review. As a result of last review, the export duty on jute primary carpet backing cloth weighing 9 oz. and above per

sq. yrd. has been reduced from 1st November, 1972.

(c) Yes, Sir.

(c) if so, by when the service conditions are likely to be codified?

THE MINISTER OF FINANCE (SHRI YESHWANTRA CHAVAN): (a) to (c). According to the Bank of India, a Committee of senior officers has been constituted by the bank to examine and process the draft code of the service conditions of officers, and that efforts are being made to finalise it as soon as possible, after discussion with the Officers' Association.

(क) क्या बागान संस्थान की सलाहकार समिति ने केन्द्रीय सरकार से यह सिफारिश की है कि केन्द्र सरकार को राज्य सरकारों को अतिरिक्त सहायता देनी चाहिए जिससे वे कृषि से प्राप्त अपनी आय में कमी कर सकें ; और

(ख) यदि हां, तो केन्द्र ने प्रत्येक राज्य को कितनी-कितनी सहायता दी है और यदि नहीं, तो इसके क्या कारण हैं ?

विदेश व्यापार मंत्रालय में उषसंजी (श्री ए० सी० भाबे) : (क) और (ख) : जानकारी एकत्र की जा रही है ।

20 औद्योगिक गृहों की दिये गये ऋण

5435. श्री जगन्नाथ राव जोशी : क्या वित्त मंत्री यह बताने की कृपा करेंगे कि :

(क) गत तीन वर्षों में औद्योगिक वित्त निगम तथा अन्य केन्द्रीय वित्तीय संस्थानों और राष्ट्रीयकृत बैंकों द्वारा देश में प्रथम 20 औद्योगिक गृहों को कितना ऋण दिया गया ; और

(ख) उनके द्वारा दिये गये कुल ऋणों का यह कितने प्रतिशत है और इस सम्बन्ध में सरकार किन मार्गदर्शी सिद्धान्तों को अपनाती है ?

वित्त मंत्री (श्री यशवन्तराव चव्हाण) :

(क) और (ख). सरकारी क्षेत्र की अखिल भारतीय दीर्घावधिक वित्तीय संस्थाओं अर्थात् भारतीय औद्योगिक विकास बैंक, भारतीय औद्योगिक वित्त निगम और भारतीय जीवन बीमा निगम द्वारा औद्योगिक लाइसेंसिंग नीति अधिनियम की समिति की रिपोर्ट के अनुबन्ध II में सूचीबद्ध प्रथम 20 बड़े औद्योगिक घरानों से सम्बन्धित औद्योगिक कंपनियों को पिछले तीन वित्तीय वर्षों में मंजूर किये गये और भुगतान किये गये ऋणों की रकम और इन संस्थाओं द्वारा सभी ऋणकर्ताओं को मंजूर किये गये और भुगतान किये गये ऋणों की कुल रकम से उनके प्रतिशत का अंतरा वितरण में दिया गया है जो सभा पटल पर रख दिया गया है । [प्रश्नांक में रखा गया है दिनांक संख्या L.T—4145/72]

जहाँ तक राष्ट्रीयकृत बैंकों का सम्बन्ध है वे आमतौर से विभिन्न व्यवसायों की ऋण सीमाओं की शर्तों के अनुसार केवल कार्यचालन बूटी ऋण देते हैं और व्यावसायिक कम्पनियों के अतिरिक्त कार्यचालन के लिए समय समय पर बैंकों से उस सीमा तक रकम निकाल सकती हैं। ये स्वीकृत सीमाएं, या इन सीमाओं में से निकाली गयी रकम स्थिर नहीं होती वित्तिक समय समय पर बदलती रहती है। इसलिए किसी विशेष समय में किसी कम्पनी

को दी गयी ऋण सम्बन्धी सुविधा की सही स्थिति बताना कठिन होता है। निम्न-निम्न विवरण में जून, 1970, जून 1971 और जून 1972 के अन्तिम शुक्रवार की स्थिति के अनुसार सभी राष्ट्रीयकृत बैंकों द्वारा प्रथम 20 बड़े औद्योगिक घरानों से सम्बन्धित सभी कम्पनियों को दिये कुल ऋणों की बकाया रकम और सभी ऋणकर्ताओं को दिये गये ऋणों की कुल बकाया रकम का प्रतिशत और तुलनात्मक स्थिति दिखायी गयी है।

(ii) सभी ऋणकर्ताओं पर बकाया रकमों की तुलना में (i) का प्रतिशत	11.4	10.9	10.0

ये संस्थाएँ और बैंक किंतों भी कम्पनी की ऋण की आवश्यकताओं और वास्तविक आवश्यकताओं को पूरा करते हैं ताकि उत्पादन और वितरण के बांछयोग्य स्तर को अतिरिक्त दिया जा सके और उमे बनाये रखा जा सके और उत्पादक प्रयोजनों के लिए किसी भी कम्पनी की वित्तीय सहायता सम्बन्धी आवश्यकताओं को अस्वीकार करने का इरादा नहीं होता है चाहे यह किसी बड़े औद्योगिक घराने से सम्बन्धित हो या नहीं। संस्थाएं सभी कम्पनियों को दी गयी सहायता के अन्तिम उपयोग पर और विशेषरूप से उन पर—जो आपस में एक दूसरी से जड़ी जुड़ी हैं और जिनका सम्बन्ध बड़े औद्योगिक समूहों से है कड़ी नजर रखती है। वे अन्य उद्यमकर्ताओं के मुकाबले बड़े औद्योगिक

समूहों पर रूजी लागत का ऊंचा प्रतिशत भी अंशदान के रूप में देने पर जोर देते हैं। 1970-71 के वर्ष से गैर सत्कारी क्षेत्र की बड़ी परियोजनाओं के मामले में, जो इनके द्वारा सहायता प्राप्त हैं, और, जिन्हें काफी सहायता दी गयी है, इन संस्थाओं ने ऐसी सहायता प्राप्त कम्पनियों के मंडलों में निदेशक नामजद करके नोति स्तर पर सहायता प्राप्त कम्पनियों के प्रबन्ध में सक्रिय भाग लेना आरम्भ कर दिया है। जहाँ उनके द्वारा किसी औद्योगिक कम्पनी को महत्वपूर्ण वित्तीय सहायता दी गयी, ऋण / ऋण पत्र सहायता करारों में परिवर्तनीयता खंड भी लिख दिये गये हैं। बड़े औद्योगिक घरानों से सम्बन्धित औद्योगिक कम्पनियों की सभी नयी या विस्तार पुरि-योजनाओं की वित्त-योजना की एकाधिकार

और प्रतिबन्धात्मक व्यापार प्रथा अधिनियम 1969 के अन्तर्गत केन्द्रीय सरकार द्वारा जंच भी की जाती है और जहां आवश्यक समझा जाता है, अपनी स्वीकृति देने से पहले सरकार तब एक अधिकार और प्रतिबन्धात्मक व्यापार प्रथा आयोग से सलाह भी मांग ली जाती है।

Competition among Nationalised Banks for Institutional Deposits and big loan Accounts

5436. SHRI PILOO MODY:

SHRI JYOTIRMOY BOSU:

Will the Minister of FINANCE be pleased to state:

(a) whether attention of the Government of India has been invited to a report in the 'Economic Times' of the 14th November, 1972 under the caption "Banks woo big parties, ignore the small man" saying that the nationalised banks are working at cross purposes and a war is on amongst them for institutional deposits and big loan accounts; and

(b) whether the report has been carefully examined by Government and if so, their reaction thereto?

THE MINISTER OF FINANCE (SHRI YASHWANTRAO CHAVAN):

(a) Yes, Sir.

(b) It would not be correct to say that banks woo big borrowers and ignore small men. The number of borrowal accounts in regard to priority sectors (Agriculture, small scale industries, professional and self-employed persons, retail trade, small business etc.) has increased from about 3 lakh in June, 1969 to about 15 lakh in June, 1972 in the case of all public sector banks. Similarly, the number of deposit accounts currently is estimated to be about 350 lakhs as against 120 lakhs in 1968.

In the context of the current liquidity in the banking system, there have been some instances of loan accounts being shifted from one bank to another. This was discussed by the Governor, Reserve Bank with the heads of public sector banks on the 14th November, 1972. It was agreed there that a committee would go into the matter for evolving suitable guidelines in this regard. In the meantime, the Reserve Bank has advised all public sector banks that there should be no unhealthy competition among them and that they should not take over, from one another, credit limits of any party, aggregating Rs. 25 lakhs or more, by quoting rates of interest lower than those stipulated by their existing bankers.

(c) if not, the place of hotel industry for its future development under the Industrial Policy Resolution?

THE MINISTER OF TOURISM AND CIVIL AVIATION (DR. KARAN SINGH): (a) to (c). According to the Industrial Policy Resolution, 1956, the future development of industries mentioned in Schedule A thereto is the exclusive responsibility of the State. In fact, it is open to the State to start any industry when the needs of planning so require or there are other important reasons for it. A major part of the investment in hotels is by the private sector and incentives such as tax and fiscal reliefs have been given by the Government to encourage such investment. The public sector Corporations of the Government have also made

and propose to make substantial investment in the industry, and both sectors therefore contribute to the concerted effort to build up the tourist infrastructure. There is no proposal to transfer the public sector hotels now functioning in the country to the private sector. On the contrary, the public sector chain will be substantially expanded in the years to come.

THE MINISTER OF FINANCE (SHRI YESHWANTRA CHAVAN): (a) Yes, Sir. Territories specified by the Planning Commission for this purpose. In the sphere of refinance also, the Industrial Development Bank of India has offered concessions and incentives to State Financial Corporations and banks to enable them to provide assistance to entrepreneurs in such districts/areas on softer terms.

Creation of Export Bank

5466. SHRI RAJDEO SINGH:

SHRI B. K. DASCHOW-
DHURY:

Will the Minister of FINANCE be pleased to state:

(a) whether there is any proposal before Government for the creation of an Export Bank to improve our exports; and

(b) if so, the purpose, function and jurisdiction of the said Banks?

THE MINISTER OF FINANCE
(SHRI YESHWANTRAO CHAVAN):

(a) and (b). The Banking Commission examined the need for a separate export-import bank for the country and has come to the finding that there is no justification for the creation of a separate banking institution

for this purpose. The Commission has, however, recommended certain improvements in the export credit arrangements. These recommendations are under the consideration of the Government.

5467. SHRI RAJDEO SINGH:

(b) whether the Fourth All India Conference of the Reserve Bank of India Officers association recently held in Delhi also expressed similar views; and

(c) if so, what Government propose to do in the matter?

THE MINISTER OF FINANCE (SHRI YESHWANTRAO CHAVAN): (a) to (c). The Fourth All-India Conference of Reserve Bank of India Officers Association have, in their conference held at Delhi from 25th to 29th November, 1972, resolved, *inter alia*, that "it is necessary that the Bank is manned upto the highest level i.e. upto the level of the Governor by persons possessing professional competence and necessary expertise in central banking drawn from the Bank itself in order that the Bank may be able to fulfil the responsibilities and obligations cast on it particularly in view of the strategic role the Bank has to play in shaping the monetary policy of the country in the context of the national commitment to achieving the larger social and economic objectives".

Government have been and are of the view that the top posts in the Reserve Bank should be manned by persons having wide knowledge and experience in financial and economic matters and that the field of choice should not be restricted in any way.

Setting up of State Textile Corporation in West Bengal

5468. SHRI JAGANNATH MISHRA: Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether West Bengal Government propose to set up a State Textile Corporation; and

(b) if so, the functions of the proposed Corporation and its need when

Cotton Textile Corporation is already in existence?

THE DEPUTY MINISTER IN THE MINISTRY OF FOREIGN TRADE (SHRI A. C. GEORGE): (a) and (b). Presumably, by Cotton Textile Corporation the Hon'ble Member means the National Textile Corporation Limited. In the year 1968, when the National Textile Corporation was set up, it was felt that the State Governments should also set State Textile Corporations of their own with a view to tackle the problems of sick textile mills in their States. Six States have already set up such Corporations. We have no specific information if the Government of West Bengal propose setting up a State Textile Corporation of their own.

Increase in lending by Public Sector Banks to Weaker Sections

5469. SHRI JAGANNATH MISHRA: Will the Minister of FINANCE be pleased to state:

(a) whether there has been considerable increase in lending by public sector banks to the weaker sections in recent times; and

(b) The Outstanding advances by public sector banks to hitherto neglected sectors like agriculture, small scale industries, road transport operators, self-employed and professionals, small business and retail traders and for education etc., increased from Rs. 897 crores as at the end of June, 1971 to Rs. 1048 crores by the end of June, 1972.

Withdrawal of Excise Duty on Fuel Oil used for Fertiliser Production

5470. SHRI JAGANNATH MISHRA: Will the Minister of FINANCE be pleased to state:

(a) whether Government have decided to withdraw Excise Duty on fuel oil when used for fertiliser production; and

(b) if so, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI K. R. GANESH): (a) Yes, Sir.

(b) In the context of the need to increase fertiliser production the feed stock for indigenous fertiliser industry has to be diversified. Presently, Naphtha is the most preferred feed-stock. There is, however, not enough naphtha to meet the requirements. Fuel oil has to be encouraged as an alternative feed-stock. The capital outlay and operating costs of fuel oil based plants are higher. Excise duty on fuel oil being the 'greatest single disincentive' for such use, it has been decided to exempt it from excise duty when used as feed-stock for fertiliser production.

Decline in Jute Exports due to Competition from Bangladesh

5471. SHRI JAGANNATH MISHRA: Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether our jute exports have considerably fallen due to the impact of Bangladesh competition; and

(b) if so, the remedies proposed?

THE DEPUTY MINISTER IN THE MINISTRY OF FOREIGN TRADE (SHRI A. C. GEORGE): (a) There has been a decline in exports of jute goods in the first 6 months of the current financial year, and this is attributed

to competition from synthetics and from products of Bangladesh.

(b) A statement is laid on the Table of the House.

STATEMENT

The following measures have been considered necessary to improve our jute goods exports:

(a) It is essential to reduce price of both carpet backing and hessian as early as possible to levels which would make them competitive with synthetics.

(b) It is necessary to ensure reasonable stability in price and regular uninterrupted supplies.

(c) The pre-requisite for this would be adequate and timely supply of raw jute at reasonable prices.

(d) Vigorous steps will have to be taken to research and product development wherever necessary and in promotion and publicity in areas where this will have the necessary effect.

(e) Suitable measures should be taken to generate the funds needed for export promotion, research and development.

(f) It is desirable that discussions are held between the two major producers of jute goods at a very early date so that international markets can be availed of by both in a spirit of mutual co-operation.

2. As far as item (a) is concerned, the export duty on jute primary carpet backing cloth weighing 9 oz and above per sq. yd. has been reduced by Rs. 400 per tonne from 1-11-1972.

3. The other points are in different stages of consideration.

(d) if so, whether there is any provision for saving the affected employees from unemployment?

THE DEPUTY MINISTER IN THE MINISTRY OF FOREIGN TRADE (SHRI A. C. GEORGE): (a) Government is not aware of the sale of films distribution rights by M/s. Metro Goldwyn Mayer to M/s. Golden Film and Finance Private Limited. However, the matter being looked into.

(b) It has been reported by the Motion Pictures Export Association of America Inc., that the services of the employees of M/s. Metro Goldwyn Mayer have been terminated from 1st November, 1972 after payment of compensation under Section 25 F of Industrial Dispute Act 1947 (XIV of 1947).

(b) if so, the total number of cases involving misuse of export incentive licences detected during the last one year; and

(c) whether any action has since been taken against them and if so, what?

THE DEPUTY MINISTER IN THE MINISTRY OF FOREIGN TRADE (SHRI A. C. GEORGE): (a) In some cases complaints of alleged misuse of Import Licences issued against Exports have been received.

(b) and (c). The information is being collected and will be laid on the Table of the House.

The loan is on the usual soft terms and is repayable in 50 years, including a ten year grace period. There are no interest, service or commitment charges.

(c) Yes, Sir.

(d) Government welcomes the willingness expressed by Canada to consider similar assistance for other ports. Government are examining the feasibility of installing similar facilities at other ports.

The Indian Institute of Foreign Trade conducted a survey of India's export potential of coir and coir-based products. They made some recommendations with regard to the development, streamlining the production pertained to Research and Development, streamlining the production base in co-operative sector, sale promotion and publicity, product development etc. The Coir Board has already prepared a scheme for Research and Development. The State Government of Kerala is taking measures to revitalise the cooperative sector. New Show Rooms are being opened to promote sales. States are also being taken to effect product development and carrying out more publicity.

I.I.F.T. Scheme for Fish Production and Export

5544. **SHRI VAYALAR RAVI:** Will the Minister of FOREIGN TRADE be pleased to state:

(a) whether the Indian Institute of Foreign Trade has prepared a scheme to increase the production and export of fish; and

(b) if so, the salient features of the scheme and action taken thereon?

THE DEPUTY MINISTER IN THE MINISTRY OF FOREIGN TRADE (SHRI A. C. GEORGE): (a) Indian Institute of Foreign Trade has not prepared any scheme to increase the production and export of fish. However the Institute had completed a Survey of India's Export Potential of Marine Products during 1969 under the assignment from the USAID and

submitted its report in March, 1970. It embodies suggestions for evolving a strategy including investment pattern for the development of the marine products industry to achieve a certain level of export performance.

(b) The Survey Report submitted by the Institute *inter alia* recommended the formation of the Marine Products Export Development Authority. Introduction of large deep sea fishing vessels, subsidising the larger fishing vessels built in the country, supply of diesel oil at bonded rates to fishing vessels, etc. The Marine Products Export Development Authority has already been established by the Government. The Ministry of Agriculture has already notified providing subsidy to deep sea fishing vessels upto the extent of 27.5 per cent of the cost of the vessels built in the country. A scheme for meeting the trawler requirements is being examined by the Government. It has been accepted in principle to provide duty-free diesel oil for mechanised fishing boats and large fishing vessels linked with exports.

Measures to Unearth Black Money

5545. SHRI R. S. PANDEY: Will the Minister of FINANCE be pleased to state:

(a) whether measures so far adopted to unearth the black money and check its circulation have not proved successful and there has been steady increase in its circulation; and

(b) if so, the reaction of Government thereto?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI K. R. GANESH): (a) and (b). The question whether measures so far

adopted to unearth black money and check its circulation have proved successful or not has been examined in detail by the Wanchoo Committee in its report. This report was also placed before Parliament. A few of the recommendations of this Committee have been implemented. The rest are under examination.

Nationalisation of Hotel Industry

5546. SHRI R. S. PANDEY: Will the Minister of TOURISM AND CIVIL AVIATION be pleased to state:

(a) whether private hotels in the country are fetching more business than the hotels in the public sector;

(b) if so, the reasons therefor; and

(c) whether Government propose to nationalise the entire hotel industry in the country and if so, when a decision is likely to be taken in this regard?

THE MINISTER OF TOURISM AND CIVIL AVIATION (DR. KARAN SINGH): (a) and (b). Since hotel establishments whether in the private sector or in the public sector, vary a great deal from each other in terms of the facilities offered, tariff charged etc., a general comparison of the quantum of business attracted by hotels sector-wise, is not feasible. Public sector hotels are generally doing very well, and are covering steadily increasing quantum of accommodation.

(c) No, Sir.

**Special Committee to Examine
Import of Raw Material for
Small Industries**

Will the Minister of FOREIGN
TRADE be pleased to state:

(b) the industries that this Committee has helped and the extent of benefit in terms of foreign exchange, industry-wise, during the last three years;

(c) the industries for which the Committee has rejected import of raw materials and on what grounds; and

(d) the procedure the Committee has laid down for the small industries to follow in order to secure benefits from the Committee?

THE DEPUTY MINISTER IN THE MINISTRY OF FOREIGN TRADE (SHRI A. C. GEORGE): (a) and (b). The Special Committee reviews cases of actual users in which it is considered that the operation of the existing policy creates hardship and is likely to affect industrial production. The procedure for submission of requests for consideration by the Special Committee has been indicated in paragraph 116 of Section I of the Import Trade Control Policy (Red Book-Vol. I) for 1972-73, copies of which have been supplied to the Parliamentary Library.

(b) and (c). The Committee has recommended 441 cases for the grant of additional licences or for conversion of licences from one mode of financing to another. No industry-wise account is being maintained of the foreign exchange released as a result of the Committee's recommendations. The Committee rejected 284 cases which did not merit any special consideration for the grant of additional licences.

कन्ट्रोलर ग्राफ डिफेंस एकाउन्ट्स, पटना में काम कर रहे कर्मचारियों का तबादला

5548. श्री रामाश्वतार शास्त्री : क्या वित्त मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या पटना स्थित कन्ट्रोलर ग्राफ डिफेंस एकाउन्ट्स के कार्यालय में काम करने वाले कर्मचारियों को हाल में बड़े पैमाने पर स्थानान्तरित किया गया; और

(ख) यदि हां, तो उनकी संख्या कितनी है और उनका तबादला करने के क्या कारण

वित्त मंत्रालय में उप मंत्री (श्रीमती सुशीला रोहतगी) : (क) रक्षा लेखा नियंत्रक के पटना स्थित संगठन में काम करने वाले कई कर्मचारियों का स्थानांतरण हाल ही में अर्थात् 1 जून, 1972 से 15 दिसम्बर, 1972 तक की अवधि में किया गया था।

(ख) स्थानान्तरित किये गये कर्मचारियों की कुल संख्या 441 है। इनमें से 358 कर्मचारियों की बदली अनुक्रमिक स्थानान्तरण की नीति के अनुसरण में की गयी थी। लिपिक तथा पर्यवेक्षी पदों पर काम करने वाले कुल 2269 व्यक्तियों में से लगभग 1500 व्यक्ति बिहार और पूर्वी उत्तर प्रदेश के हैं, जब कि पटना और शेष बिहार तथा पूर्वी उत्तर प्रदेश के कार्यालयों में स्वीकृत पदों की संख्या लगभग 890 ही हैं। इसलिये, यह आवश्यक है कि एक और बिहार एवं पूर्वी उत्तर प्रदेश और दूसरी और शेष क्षेत्र के बीच कर्मचारियों के हेरफेर की नियमित नीति अपनायी जाय। यह नीति कुछ समय से प्रवर्तमान है। इस नीति के अन्तर्गत, दूरवर्ती क्षेत्रों में लगभग

पूर्वी उत्तर प्रदेश से सम्बद्ध कर्मचारियों को वापस बुला लिया जाता है और उनकी जगह अन्य कर्मचारियों को भेजा जाता है । बड़ी संख्या में स्थानान्तरणों का यही कारण है बाकी स्थानान्तरण पदोन्नतियों अथवा वैयक्तिक आवेदनों अथवा प्रशासनिक कारणों से किये गये थे ।

वित्त मंत्रालय में उपमंत्री (श्रीमती सुशीला रोहतगी) : (क) सूचना विवरण में दी गई है, जो सभा पटल पर रखा गया है । [मंत्रालय में रखा गया । देखिए संख्या LT 4150/72] ।

(ख) जी हां ।

(ग) जहां तक सम्भव होगा सूचना कथित की जायेगी और सभा-पटल पर दी जायेगी ।

विदेश व्यापार मंत्रालय में उपमंत्री (श्री ए० सी० जाज) : (क) जी नहीं ।

(ख) प्रश्न नहीं उठता ।

बैंक स्वीचिंग के लिए छोटे किसानों को राष्ट्रीय-कृत बैंकों द्वारा ऋण की दिये जाने की योजना

5551. श्री ज्ञानेश्वर प्रसाद यादव : क्या वित्त मंत्री यह बताने की कृपा करेंगे कि :

(क) क्या केन्द्रीय सरकार ने राष्ट्रीयकृत बैंकों से छोटे किसानों को बैंकों की खरीद के लिये ऋण दिलवाने की कोई योजना बनाई है ; और

(ख) यदि हां, तो इस बारे में क्या कार्यवाही करने का विचार है ?

वित्त मंत्रालय में उप-मंत्री (श्रीमती सुशीला रोहतगी) : (क) और (ख) राष्ट्रीयकृत बैंक अपने यहां तैयार की गई विभिन्न योजनाओं के अन्तर्गत, किसानों की उत्पादकता सम्बन्धी आवश्यकताओं के लिये, ऋण देते हैं, जिनमें बैंकों की खरीद के लिये भी ऋण शामिल है ।

**Action Taken against Travel Agencies
Indulging in Foreign Exchange
Rackets**

5552. SHRI DALIP SINGH: Will the Minister of TOURISM AND CIVIL AVIATION be pleased to state:

(a) how many travel agencies have been registered during the last three years, year-wise;

(b) whether some agencies are indulging in foreign exchange rackets;

(c) if so, the names, of agencies which have been challaned for the violation of foreign exchange regulations; and

(d) the action taken against each of them?

THE MINISTER OF TOURISM AND CIVIL AVIATION (DR. KARAN SINGH): (a) The number of travel agencies recognised by the Department during the last three years is as follows:—

Year	Head Offices	Branch Offices

1971	4

The case against Mercury Travels has been adjudicated upon and a penalty of Rs. 5 lakhs was imposed on them by the Enforcement Directorate. The agency has appealed against the decision.

As regards M/s. A. S. Chugh & Co. Pvt. Ltd., the adjudication proceedings are in progress.

**Re-Employment of Members of
Central Board of Excise and
Customs**

5553. SHRI K. SURYANARAYANA: Will the Minister of FINANCE be pleased to refer to the reply given to Unstarred Question No. 1670 on the 24th November, 1972 and state:

(a) whether the Officer referred to in the reply to part (a) of the question was appointed as the Department's representative on the Central Excise Self Removal Procedure (Review Committee) in addition to his normal duties;

(b) if so, for how long he performed such functions, while working as Member of the Board of Central Excise and Customs;

(c) the reasons for creating a whole-time post of Officer on Special Duty for looking after this work in the context of the present need for economy in administrative expenditure; and

(d) the considerations which have weighed with Government in not entrusting these functions to the successor to this Officer as Member of the Board?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI K. R. GANESH): (a) Yes, Sir.

(b) Since the constitution of the Central Excise Self Removal Procedure (Review) Committee on 11-10-1971 till the date of his retirement viz. 16-11-72 (AN).

(c) and (d). No wholetime post of an Officer on Special Duty has so far been created. It was felt that there would be a distinct advantage in the continued representation on the Committee of the same senior officer, particularly when the Committee's work had now gathered momentum and the Department's nominee was required to devote a substantial part of the day to this work. The Government was also proposing to set up a

Committee for Tobacco Excise and it did not appear that a Member of the Board would be able to do justice to the work of these Committees in addition to discharging his normal duties as a Member of the Board.

Survey of Urban Property

5554. SHRI K. SURYANARAYANA: Will the Minister of FINANCE be pleased to state:

(a) whether the Central Board of Direct Taxes has recently asked for a survey of urban property to be conducted by the Income-tax Department and if so, the purpose of the survey;

(b) if so, the manner in which the properties are being selected and the areas covered by this survey;

(c) the guidelines laid down for the conduct of the survey and how old properties are being selected; and

(d) whether any instructions have been issued to the Income-tax Department not to harass the *bona fide* property owners?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI K. R. GANESH): (a) Though survey has been part of the work of the Income-tax Department all along, recently, instructions have been issued to intensify the survey of selected persons including owners of newly constructed or newly acquired immovable properties and ownership flats. The purpose of the survey is not only

to discover new Income-tax/Wealth-tax assesseees but also to find out unaccounted investment in such properties.

(b) and (c) This survey is at present selective. No guidelines have been issued to the Commissioner of Income-tax who have full discretion in the matter of selection.

(d) Since the survey is intended to gather information only, the question of harassment of *bona fide* property owners does not arise.

विदेश व्यापार मंत्रालय में उप मंत्री (श्री ए० सी० जार्ज): (क) और (ख). वर्ष 1970-71 तथा 1971-72 के दौरान जर्मन लोकतंत्रीय गणराज्य से भारतीय मुद्रा में आयात की गई वस्तुओं के मूल्य दर्शाने वाला एक विवरण सभा पटल पर रखा जाता है। विदेशी मुद्रा में आयात की गई वस्तुओं के मूल्य के बारे में जानकारी नहीं रखी जाती है।

**Fulfilment of Provision of Indo-
Bangladesh Pact**

5556. SHRI SAMAR GUHA: Will the Minister of FOREIGN TRADE be pleased to state:

(a) the quantity and value of the commodities exported and imported by India and Bangladesh in accordance with the provisions of the Indo-Bangladesh Pact upto October, 1972;

(b) whether the provisions of the one year pact will be fulfilled by March, 1973;

(c) if not, the commodities in which the provision of the pacts are likely to remain unfulfilled; and

(d) the reasons for failure to make necessary progress in fulfilling the objectives of the pact and the steps undertaken to see that neither country suffers from adverse trade balance after the end of one-year Indo-Bangladesh Trade Pact?

THE DEPUTY MINISTER IN THE MINISTRY OF FOREIGN TRADE (SHRI A. C. GEORGE): (a) to (d). Statistics of exports are available only for the months of April to June 1972 according to which the following commodities were exported to Bangladesh:

(Value in Rs. lakhs)			
Commodi- ties	Unit	April-June 1972	
		Qty.	Value
Wheat	ooo T	229	19.66
Castor Oil	ooo kg.	370	11
Pulses	Tonne	264	4
Cement	oooT	38	75
Raw cotton	Tonne	590	52

(Value in Rs. lakhs)

Commodi- ties	Unit	April-June 1972	
		Qty.	Value
Tobacco- Unmanu- factured	ooo Kg.	16,79	70
	Grand Total (including others)		23.17

Statistics beyond June 1972 are not available.

2. Imports from Bangladesh during April-May 1972 were negligible. Statistics of imports beyond May 1972 not yet available.

3. However, with regard to the commodities exported or imported under the Limited Payments Arrangement, the value of contracts registered upto 31st October, 1972 with the State Bank of India amounts to Rs. 12.55 crores for exports to Bangladesh and Rs. 5.55 crores for imports from Bangladesh. Since then, a contract for raw jute has been concluded bringing the value of contracts for imports from Bangladesh to Rs. 12.70 crores.

4. Inadequate transport facilities and other institutional difficulties have inhibited the flow of trade. With the growth of intra-regional trade between East Bengal (Bangladesh) and Pakistan, the traditional means of transport of goods between India and Bangladesh declined progressively, and were totally disrupted in 1965. Restoration of these transport arrangements is in itself a stupendous task. It has been rendered all the more difficult by the damage caused during the struggle for liberation.

5. It is difficult to forecast at this stage what might be the actual imports and exports under the Limited Payments Arrangements by the end of next financial year March 1973.

6. The reopening of the Hardinge Bridge, the resumption of inland water services and growing familiarity with trading conditions in the two countries encourage the hope that actual imports and exports during the remaining four months would be well above those in the previous eight months.

Outstanding Amounts of Central Loans Given to States

5557. SHRI SAMAR GUHA: Will the Minister of FINANCE be pleased to state:

(c) the names of the States which appealed to the Centre either for remission or moratorium on the Central debts; and

(d) the guidelines followed by the Central Government in regard to sanctioning of loans to the States and Union Territories and repayment of outstanding debts to the Centre?

THE MINISTER OF FINANCE (SHRI YESHWANTRAO CHAVAN):

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI K. R. GANESH): (a) to (c). Under the current orders, a second or subsequent advance for purchase of a conveyance is admissible to a Central Government employee if a minimum period of 4 years has elapsed after the drawal of the earlier advance. The amount of the advance will be equal to the difference between the price of the conveyance to be purchased and the sale proceeds of the old conveyance left over with the Government servant after the repayment of the earlier outstanding advance (principal as well as interest) subject however to certain ceilings prescribed in the General Financial Rules. The quantum of the second or subsequent advance thus depends on several factors.

Advance of loan to Government Employees for purchase of Scooter under modified restrictions

5586. SHRI R. P. ULAGANAMBI: Will the Minister of FINANCE be pleased to state:

(a) whether a Central Government employee who had already got scooter purchased with or without Government loan and who has not sold it or who otherwise intends to retain it for the use of his family is entitled to a loan for the purchase of scooter under the modified restrictions; and

(b) if so, to what extent and if not, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI K. R. GANESH): (a) and (b). One of the basic conditions for the grant of an advance to a Government servant for the purchase of a conveyance is that the authority competent to sanc-

tion the advance should be satisfied that it would be useful to the public service if the Government servant possesses the conveyance for the performance of official duties. Where a Government servant has already got a scooter, that fact will obviously have to be taken into account while examining his request for the grant of an advance for the purchase of another scooter. If the previous scooter has been purchased by him without taking a loan from Government and he intends keeping it for the use of his family, there is no bar under the Rules to his availing of a loan from the Government of purchasing a scooter for his own use subject to the satisfaction of the prescribed conditions. If however, he had taken a loan earlier from Government and continues to be in possession of the scooter purchased with that loan, he will ordinarily not be eligible for a serviceable conveyance which has been purchased with the assistance of a Government loan.

5590. SHRI JYOTIRMOY BOSU: Will the Minister of FINANCE be pleased to state:

(a) whether Commissions payable in foreign currencies to exporting firms are not disclosed to the Reserve Bank of India and are kept in secret balances abroad;

(b) whether mushroom export firms are set up and they disappear after making a number of exports without repatriating the export proceeds;

(c) whether secret clauses in foreign collaboration agreements provide for over-invoicing of imports and building up of foreign exchange reserves abroad; and

(d) if so, what steps, if any, have been or are being taken in this regard?

THE MINISTER OF FINANCE (SHRI YESHWANTRAO CHAVAN):

(a) Under regulations all foreign exchange receipts such as commission, etc. have to be surrendered to the Control and kept in rupees. Those who do not comply with this requirement are liable for action by Enforcement authorities.

(b) Some cases of such export firms have come to the notice of the Reserve Bank of India and these have been reported to the Enforcement authorities for taking appropriate action under the Foreign Exchange Regulation Act and the Enforcement authorities will take action to the extent they are able to trace the parties concerned.

(c) and (d). All collaboration arrangements providing for exports or imports require the prior approval of the Government of India or the Reserve Bank of India. Where the provisions of any particular agreement have not been fully disclosed to the authorities, parties entering into such

arrangements would be violating exchange regulations and are liable for action under law. By the very nature of the problem, the effectiveness of action would be a measure of the vigilance of the enforcement authorities. The Foreign Exchange Regulation Act is being consolidated and amended to give greater powers to the Enforcement authorities. It also provides for more stringent penalties.

(d) whether these rules have since been published in the Gazette of India and if not, whether a copy of the same will be placed on the Table of the House?

The progress of the various steps involved in the process of recruitment was kept in view before these instructions were formulated.

(c) if so, the reasons for this discrimination?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI K. R. GANESH): (a) Yes, Sir.

(b) and (c). The benefit of FR-22C is admissible only in cases of appointments involving assumption of higher duties and responsibilities. Having regard to the job requirements, qualifications and the relative degree of responsibility to be shouldered, appointments of persons in the Central Government pay scale of Rs. 210—425 to posts of Assistants in the pay scale of Rs. 210—530 have been held as not involving assumption of higher responsibility. CALLING ATTENTION TO MATTER OF URGENT PUBLIC IMPORTANCE

DELAY IN APPROVING LAND CEILING LEGISLATIONS OF BIHAR, ANDHRA PRADESH, MAHARASHTRA AND OTHER STATES

श्री भोगेन्द्र झा (जयनगर) : अध्यक्ष महोदय, मैं अविलम्बनीय लोक महन्व के निम्नलिखित विषय की ओर कृषि मंत्री का ध्यान दिलाता हूँ और प्रार्थना करता हूँ कि वे इस बारे में एक वक्तव्य दें :

“विहार, आन्ध्र प्रदेश, महाराष्ट्र तथा अन्य राज्यों के भूमि की अधिकतम सीमा निर्धारित करने सम्बन्धी कानूनों को स्वीकृति प्रदान करने में विलम्ब ।”

THE MINISTER OF AGRICULTURE (SHRI F. A. AHMED): The Chief Minister's Conference held on July 23, 1972 made certain recommendations on the ceiling on agricultural holdings and the Government of India formulated a set of guidelines in the light of these recommendations. These were communicated to the State Governments who were requested to amend their existing ceiling laws or introduce fresh legislation, as the case may be in conformity with the national guidelines. Revised ceiling laws passed by the State Legislatures of Andhra Pradesh, Bihar, Haryana and Maharashtra were referred to the Government of India for the accordance of President's assent to them.

[Shri F. A. Ahmed]

These legislations have been examined by the concerned Ministries of the Govt. of India in consultation with the officials of these State Governments. As the laws referred to above did not strictly conform to the norms given in the national guidelines, discussions were held and assurances have been solicited from the State Governments for incorporation of the revisions necessary to bring their legislation in conformity with the national guidelines.

The Bihar Bill has been discussed with the State Government and all points have been resolved and it is expected that the Government of India would be in a position to communicate the accord of President's assent to the Bihar Bill shortly.

All the required formalities for according President's assent to the Haryana Bill have been completed and President's assent is expected to be accorded to the Bill in a day or two.

The Maharashtra Bill which had been passed by the Legislature before the issue of the national guidelines, was discussed with the representatives of the Maharashtra Government from whom further communication is awaited.

The Andhra Pradesh Bill is in advanced stage of examination and it is expected that President's assent will be accorded soon.

The Government of India as well as the concerned State Governments have been fully alert to the need for enacting ceiling legislations at the earliest possible opportunity. Land Reforms, and specifically land ceiling, are highly complex issues. Apart from the State Governments which have been directly responsible for the enactment of legislation consonant with the national guidelines, the Government of India in its various Ministries and Departments have to examine the various implications of the provisions

of land ceiling so that the law that emerges is consistent with the national policy on land reforms and fits in within the overall framework of our development strategy. I would also take this opportunity to call upon those State Governments who have not yet been able to make legislation on ceiling to take all possible measures for early completion of the task. I have also every hope that energetic and meaningful steps will be taken by all the State Governments for the most expeditious and effective implementation of the laws that are being enacted now.

श्री भोगेन्द्र झा : अध्यक्ष महोदय, यह भूमि की हदबन्दी और इस पर केन्द्रीय सरकार द्वारा स्वीकृति प्रदान करने की कहानी बहुत ही दुःखद कहानी है। एक तरफ तो हदबन्दी निर्धारित करने में केन्द्रीय सरकार की समिति अखिल भारतीय कांग्रेस कमेटी का पैनल, उसके बाद फिर 2 व्यक्तियों का पैनल जिनमें 4 कैबिनेट मिनिस्टर, तीन मुख्य मंत्री और दो राज्य कांग्रेस के अध्यक्ष थे उनका पैनल और उस सब के बाद विलम्ब करते करते जमींदारों के, बड़े बड़े भूस्वामियों के हित में आखिर में कुछ ऐसे संशोधन किये गये जिससे भूमि हदबन्दी का बहुत हद तक भीतर घात हो जाता है। और उस सब के बाद केन्द्रीय कृषि मंत्रालय की कहानी है कि अगर कोई विधेयक इन सभी बाधाओं को पार करके केन्द्र में आता भी है तो केन्द्रीय सरकार यह कहेगी कि 6, 8 महीने, साल, डेढ़ साल और दो, दो साल तक विलम्ब लगा देते हैं। बिहार में टाटा जमींदारों के उन्मूलन के सवाल पर यह हाल हुआ था। दो साल के विलम्ब के बाद तब उसकी स्वीकृति दी गई। अभी भी जो बिहार की हदबन्दी का कानून है, भा. र. क.

हदबन्दी का कानून है उसमें एक साल होने जा रहा है। इस तरह से उसमें विलम्ब किया जा रहा है। इस सब का एक ही उद्देश्य होता है कि देरी करके जो बड़े बड़े भूस्वामी हैं वह अपनी जमीनों का आवंटन कर दें। उनके पास कोई फाजिल जमीन ही न रहे जो कि बाद में बतौर फालतू जमीन होने के उन से ली जा सके या उसका बंटवारा किया जा सके।

अध्यक्ष महोदय, मैं चाहता हूँ कि केन्द्रीय सरकार इसकी ओर देखे और लोक सभा में इस बात का आश्वासन दे कि जो भी इनके यहां अभी जो भूमि हदबन्दी कानून पड़े हुए हैं उन्हें क्लारेंस दे देगी। असम के बारे में भी हदबन्दी कानून के बारे में क्वारी ओनर्स के बारे में क्या रहेगा और इसके बारे में यहां विलम्ब किया जा रहा है। बिहार के बारे में एक ऐसी मामूली बात पर विलम्ब किया जा रहा है जिसे स्वीकृति देकर भी बाद में उसे संशोधित किया जा सकता है। अगर केन्द्रीय सरकार उसमें अड़ी रहे तो विलम्ब करने से यह नुकसान हो रहा है जिससे कि भूमि हदबन्दी कानून भूमिहीनों के लिए निरर्थक साबित होता चला जा रहा है। हम सभी जानते हैं कि जो पहले यहां केन्द्रीय लैंड रिफार्म्स कमेटी नियुक्त की गई थी उसने सभी पहलुओं से विचार करके भूमि हदबन्दी कुछ सुझाव दिये हैं। मैं उन सभी सुझावों से सहमत नहीं हूँ फिर भी अगर वह उन सुझावों को लागू करते होते तो कुछ हद तक उद्देश्य की पूर्ति हो सकती थी मगर वह नहीं किया गया। उसके बाद फिर जो

नई व्यक्तियों की कमेटी बनी उस में हमारे कृषि मंत्री फखरुद्दीन अली अहमद थे, श्री सुब्रह्मण्यमन थे, श्री मोहनकुमार-मंगल, श्री एन० आर० गोखले थे। इसके अलावा मुख्य मंत्री श्री बरकतउल्ला, देवराज उस थे। उसके अलावा दो कांग्रेस अध्यक्ष थे। राजेन्द्रकुमारी वाजपेयी और श्री के० कृष्णा-करण, इन सब ने अपने प्रतिवेदन में इस बात पर जोर दिया है :

"We are of the view that ceiling is best applied to the family of five as a unit, consisting of the husband, wife and three children, whether minor or major. In making this suggestion, we already agree with the suggestion of the working group of the National Commission of Agriculture that to the extent that the actual number of members in a family is less than five, the ceiling should be reduced by fifth person."

इन नई व्यक्तियों की समिति ने बालिश और नाबालिश का फर्क नहीं किया और उस में पूरा तर्क दिया है कि 6 महीने के बाद कोई बालिश हो जायेगा तो 6 महीने के बाद या एक साल के चलते कोई नाबालिश है तो फिर बालिश से नाबालिश में परिवर्तन करने में कोई अधिक विलम्ब नहीं लगता है। ऐसी परिस्थिति में उस का भी उल्लंघन किया जा रहा है और इससे राज्य सरकारों ने यह मतलब लगाया है कि केन्द्रीय सरकार बोट के समय में जो मेहनतकश में किमान है उनके मत, बोट लेने के लिए कुछ नारा दे देती है लेकिन यह अमल में भूस्वामियों का पक्षपात करना चाहती है। इसीलिए अब

[श्री भागेन्द्र झा]

हम देख रहे हैं कि मध्यप्रदेश की सरकार ने जो भूमि हदबन्दी कानून पारित किया था केन्द्रीय सरकार के आम इस तरह के विलम्ब के बाद तो फिर क्या कहा यह कृषि मन्त्री हमसे ज्यादा जानते हैं। उस के बाद अभी मध्यप्रदेश में जो भूमि हदबन्दी कानून पारित किया है वह पूरे तरीके से जमींदारी के पक्ष में है जिसका कि पारित होना न होना बराबर हो जाता है। उत्तर प्रदेश में भी करीब करीब यही किया जा रहा है। महाराष्ट्र में यही सब हो चुका है। अध्यक्ष महोदय मैं यह जानना चाह रहा हूँ कि क्या यह विलम्ब करने की नीति अपना कर केन्द्रीय सरकार इस तरह से भीतरघात कर रही है। उन वार्तों को जिन पर चुनाव लड़ा गया जिन सवालों के ऊपर सारे देश के लोगों ने इतने बड़े पैमाने पर अपना मतदान किया कि देश के हित में भूमि की हदबन्दी हो अतिरिक्त भूमि का बंटवारा हो क्या वह केवल वोट हासिल करने के लिए हो थीं?

श्रीमान्, मैं आप के माध्यम से कुछ बातें यहां सदन में रखना चाह रहा हूँ कि विलम्ब करने से क्या स्थिति होती है। एक मामला ममम का, एक कैबिनेट मिनिस्टर जोकि हमारे फ़्रेंड्रीन श्री अहमद साहब उस समय में थे, उन की अपनी भूमि का सवाल और उस सवाल पर जो उन्होंने रिटर्न दे दिये, उसके चार साल के बाद उन्होंने ऐतराज किया कि हम से भूमि न ली जाय और उस चार साल के अन्दर 556 बीघा जमीन कैंटूनमेंट के लिए अर्जित का गई। अध्यक्ष महोदय, मैं ठीक तो नहीं कह सकता

लेकिन

अध्यक्ष महोदय: वह बात थाप अलग से बाद में केजिगा। मौजूदा इस कौलिंग अर्जेशन मॉशन में वह नहीं आती है :

श्री भोगेन्द्र झा : विलम्ब से क्या नुकसान होता है यह मैं कहना चाह रहा था। मैं उसमें पूरा नहीं जाऊंगा।

अध्यक्ष महोदय : वह तो आप ने दिया हुआ है जब आपने तब देखा जायेगा लेकिन माननीय सदस्य आउट ऑफ़ वे न जायें।

श्री भोगेन्द्र झा : मैं विलम्ब के बारे में कह रहा हूँ।

अध्यक्ष महोदय : जो आप ने दिया हुआ है वह एक अनहदा चीज़ है।

श्री भोगेन्द्र झा : सुरक्षा मन्त्रालय के जवाब में मुझे यह कहा गया है कि उस कैंटूनमेंट के लिए करीब 34-35 लाख रुपया लगा है। अब उस में किस का किनासा हिस्सा है यह मैं नहीं जानता हूँ लेकिन यह विनम्ब के चलते इतना पया लगा। जाहिर है कि हदबन्दी अगर लागू हो जाती तो केन्द्रीय सरकार का यह पया नहीं लग सकता था।

असम के बारे में मुझे खबर है अभी मन्त्री महोदय ने स्टोन क्वारी के बारे में अपने वक्तव्य में बतलाया कि स्टोर क्वारी के नाम पर वहां के भूमि गीमा कानून में बाध डाली जा रही है। मैं यह बतना चाह रहा हूँ कि क्या केन्द्रिय सरकार इस तरह का विलम्ब करके राज्य सरकारों को बड़े क्षेत्रों के बड़े भूस्वामियों को इस बात के लिए उकसावा

नहीं दे रहा है कि वह भूमि हद बन्दी कानून का भीतरघात कर दे और उसे निरर्थक बना दें? इस दरमियान अपनी जमीन का जिस किसी के नाम हो सके जाल करेब करके करोख्त कर दें ताकि दरअसल सारी जमीन उन के पास ही रह जाय। मैं कहना चाह रहा हूँ कि बड़ी बहानी कोमन हमें चुकानी पड़ रही है। अभी इसी 30 दिसम्बर को बड़े भूमि स्वामियों ने जोकि अब सब के सब लगभग शासक कांग्रेस में आ गये हैं, शायद एक आध ही बाहर रहे गये होंगे, 10 महीने पहले सब आ गये हैं। परिणाम यह दे रहा है कि हमारे 8-9 लाख सामाजिक कार्यकर्ता घेर कर कत्त कर दिये गये हैं और वह कत्त करने वाले सभी भूस्वामी हैं। मैं बिहार के मधुबनी जिले के मेनबेरो को बान कह रहा हूँ जो कि उनको घेर कर कत्त कर दिया गया। कत्त करवाने में बिहार के डिप्टी स्पीकर हैं जोकि 10 महीने पहले तक माउन्ट कांग्रेस में थे अब जलान मारे गये हैं।

अध्यक्ष महोदय : ऐसी बातों के बिना जिनका कि काल अर्जेंट में कोई वास्ता नहीं उन्हें इस में माननीय सदस्य को नहीं लाना चाहिये।

श्री भोगेन्द्र झा : वह भिन्न इसलिए कहा कि नुकसान हो रहा है।

अध्यक्ष महोदय : जो चीजें बाहर हुई हैं और फिर इस कोन अर्जेंट में कोई उनका सम्बन्ध नहीं है उन्हें इस में नहीं लाना चाहिये।

श्री भोगेन्द्र झा : वह मैंने इसलिए केवल जिक्र कर दिया कि इस में नुकसान हो रहा है।

अधिक जमीन रखना या खत्म हो जाने से कोई मतलब नहीं रहता है। जब इस से देश का वातावरण बदल रहा है, भूमिहीन समझते जा रहे हैं कि उन्हें भूमि जोतने के लिए मिलने में अभी विलम्ब हो रहा है। फिर गत चुनाव में हम ने देखा कि कांग्रेस के टूटने में जो एक आशा दिलाई गई थी वह निराशा साबित हुई, हमें धोखा दिया गया और इसलिए उस कांग्रेस के टूटने का कोई राजनैतिक महत्त्व नहीं रह गया है। क्या यही कृपि मन्त्री जी का मतलब है कि देश में यह समझ हम दें कि दो टुकड़े हम कर चुके और अभी उसका हम और खण्डन करने जा रहे हैं।

अन्ध, बिहार, राजस्थान, हरियाणा, महाराष्ट्र और असम के बारे में जो उन्होंने कहा ओनर्स की तान कही तो क्या वह कहेंगे कि कितने दिन के अन्दर वह देंगे? उन का जवाब था कि 31 दिसम्बर के पहले तक वह कानून पास हो जायेगा तो जो उनके पास अभी आना बाकी है क्या वह उनके लिए एक अवधि बताता सको कि कितने दिन, कितने हफ्ते इनका लाइफ़ जिसके कि भोवर रसीदति दे देंगे 6 महीने या साल तक इसे कर देंगे?

तीसरी बात उन्होंने यह कही है कि राष्ट्रीय नीति के बारे में निर्णय लेने पर वह कांग्रेस कार्यकारिणी की

[श्री योगेश्वर झा]

उस में निर्णय लिया गया था। यह तय किया गया था कि 10 और 18 एकड़ के बीच में 10 एकड़ के नजदीक रहेंगे, 18 एकड़ के पास नहीं जायेंगे। लेकिन ग्राम धारणा यह हो गई है कि 18 के नजदीक रहेंगे, 10 एकड़ के नजदीक जायेंगे ही नहीं। क्या इस के बारे में कोई हिदायत जा रही है कि हदबन्दी की अधिकतम सीमा 10 और 18 के बीच में 10 के पास रहे या 18 के पास रहे? क्या इसके लिये समय का भी कोई माप दण्ड रखा जा रहा है कि कितने समय में यह किया जाये, जिस में उससे अधिक विलम्ब न किया जा सके?

मैं आप के जरिये इतना ही कहना चाहता हूँ कि बिहार के बारे में 13 दिसम्बर को जवाब मिला है जिस में कृषि मंत्री ने कहा है कि :

"The Bihar Land Reforms (Fixation of Ceiling Area and Acquisition of Surplus Land) Amendment Bill, 1972. It is still under examination in consultation with the administratively concerned Ministry of the State Government."

उस समय का जवाब यह था, अब भी कुछ कह रहे हैं, कोई निश्चित बात नहीं कह रहे हैं। मुझे शक है, बल्कि मेरी खबर भी है कि जो हदबन्दी नहीं हो रही है और जो इतना विलम्ब हो रहा है वह कृषि मंत्रालय के जरिये हो रहा है। ग्राम तौर से गृह मंत्रालय स्वीकृति प्रदान करने का काम करता है। मैं जानना चाहता हूँ कि क्या गृह मंत्रालय के पास

कृषि मंत्रालय ने सब कुछ भेज दिया है? अगर नहीं भेजा है तो कृषि मंत्रालय किस तरह से इस पर बैठा हुआ है और सारे देश की नीति को धायात पहुंचा रहा है? यह क्यों हो रहा है?

SHRI F. A. AHMED: Mr. Speaker, Sir, I have already indicated the action taken by the Central Ministries so far as the land ceiling laws are concerned. I have also indicated in my reply that after the recommendations made by the Chief Ministers' Conference, certain guidelines were drawn up and they were forwarded to the State Governments for the implementation of those guidelines.

So far as the question of the four States which has been raised by the hon. Member is concerned, I would like to make the position very clear. So far as Bihar is concerned, as soon as we received it from them, we went into the various provisions made by them. The matter was also considered by the Planning Commission and after we found that certain laws were not in conformity with the guidelines given by us, we sent for the local officers and the Ministers for a discussion, and after the discussions were held, we forwarded those comments of ours in order to get the assent from them that they will bring the necessary amendments in order to bring it in conformity with the guidelines given. After that, the Bill was received only recently, and as I have informed the hon. Member, within a very short time it will receive the assent.

SHRI BHOGENDRA JHA: One year may be a short time?

SHRI F. A. AHMED: This Bill has gone from my Ministry to the Home Ministry for the purpose of obtaining the assent of the President and I think within a day or two the assent will be received and the Bill will be sent to Bihar.

Similarly, out of the four States which have been mentioned by the hon. Member, we are still awaiting certain replies from the Maharashtra Government. As soon as the replies are received that will also be disposed of. It is our effort that before the year is out, all legislation will be passed, but I may point out in this connection that so far we have received no information from Rajasthan and Mysore. I understand that so far as Rajasthan is concerned, the Bill has been referred to the Select Committee and after it has been disposed of by the Select Committee necessary action will be taken by the Rajasthan legislature in order to pass that Bill, and whenever it is sent to us we shall dispose of it as soon as possible.

So far as Mysore is concerned, there also action is being taken by the Mysore Government. Now, some other States like West Bengal, Assam, etc., have already passed a law, but Assam has not sent the Bill. We have written to all the States for the purpose of forwarding the Bills if any assent is necessary. We shall also give the assent as early as possible.

SHRI BHOGENDRA JHA: Whether the Assam Government has been asked to clarify its position about the quarry-owners and on that pretext, the Land Ceiling Act is being delayed.

SHRI F. A. AHMED: The Assam Government has not come to us. We

do not know what are the details. We have written to them to send the Bill to us. As soon as it is received by us we shall go into the question and see that necessary action is taken according to the guidelines decided upon by the Central Government.

As far as the personal reference which has been made by the hon. Member is concerned, I would like to point out that whatever was acquired was within the ceiling according to which our family was entitled to hold the land.

I have made the whole position clear to the hon. Member and I hope he will be satisfied with that. I have given him a detailed reply about that.

12.25 hrs.

SHRI DINEN BHATTACHARYYA (Serampore): I want only one clarification. I gave five times call attention notices on the bombing in Viet-Nam. Today, please excuse me for raising this; this is the last day. I want information from you: what is the basis of accepting a call attention? I call the attention. You admitted Mr. Jha's motion; today evening we are discussing land reform Bill. But for this bombing we gave several call attention notices. It is a shame on the part of the Government. Why have they not come forward with condemnation against bombing in Viet Nam? You kindly ask the Minister to make a statement on the escalation of the war in Viet-Nam and the American bombing in Viet-Nam... (Interruptions) Today there is a discussion on land reforms... (Interruptions)

SOME HON. MEMBERS rose

MR. SPEAKER: I am sorry; I have not allowed anybody to speak now. In this very session the question of Viet-Nam came either in the form of 377 or in the form of a statement. The rules are... (Interruptions.) I cannot compete with you.

SHRI DINEN BHATTACHARYYA:

...*

MR. SPEAKER: I have not called anybody. Why are you using this language? Do you know you are addressing the Chair? Is it the proper language?

Will all of you please sit down? Viet-Nam was referred to in this House in a number of ways. The Minister made a statement. Then this was discussed. I think Mr. Indrajit Gupta also raised this question.

SHRI INDRAJIT GUPTA (Alipore): You allowed me to raise it under rule 377 and the minister made a statement. At that very time many members felt that we should be given an opportunity at least through a calling attention motion to discuss it. Otherwise, it was a hopeless, totally inadequate statement.

MR. SPEAKER: The same subject cannot come up the very next day. Two or three days back, just before leaving, the minister made a statement.

SHRI SHYAMNANDAN MISHRA (Begusarai): In order that we are in a position to express concern on this and the Government also joins in our concern, Government should come forward with a resolution condemning this barbarous bombing. We all would cooperate in passing it unanimously. Let the Government come forward with a resolution at the end of the day.

MR. SPEAKER: I think the same day before leaving for Moscow, the minister made a statement.

SHRI H. N. MUKERJEE (Calcutta North-East): I want to make a submission on a point of procedure in relation to statements made by ministers. On this occasion, the minister made a statement pursuant to a notice given by a member on this side.

*Not recorded.

And, according to your ruling, we are precluded from having any further discussion on it in the next few days. But it so happens that the statement relates to a question of historic significance about which the whole world is agitated and this country in particular. Therefore, may I know whether if a minister makes a statement and leaves us in a position only of making a few impromptu interjections, we should be satisfied with that only? We wish to have a thorough discussion on this matter of historical significance and we are precluded from doing so because you say for one thing the minister has made a statement and there is an end of it, and for another, the Prime Minister is not here to represent the Foreign Minister who happens to be absent. Parliament goes home, we are sent packing when these events are happening, agitating everybody in this country and outside.

MR. SPEAKER: So far as Vietnam is concerned, I am one with you. We have been expressing our views from time to time on it. Last session, in the last Lok Sabha also and in this session also in one form or the other, we did express our views. The Minister came out with a statement only about 3 days back, one day earlier or the same morning before leaving for Moscow. After the minister left, there was renewed bombing and we were not very happy with it. So, I do not mind if the minister comes with a statement this afternoon. We do not have the minister himself here; the Deputy Minister is here and he can make a statement sometime in the evening.

SHRI SHYAMNANDAN MISHRA: Let there be something operative—a resolution condemning it, not merely a statement.

SHRI JYOTIRMOY BOSU (Diamond Harbour): Are they going to bring a resolution?

*Not recorded.

MR. SPEAKER: I am not speaking on their behalf; I speak as Speaker. Now, Papers to be laid on the Table....
(Interruptions)

SHRI S. A. SHAMIM (Srinagar): Today being the last day, we would like to know what the Government have done as a retaliatory measure against the Uganda High Commission here. Yesterday we were told that the Government are considering the matter.

MR. SPEAKER: Yes, this being the last day of the session, I would like the Minister to say something about the reference made yesterday that they are considering taking some action. Secondly, after the last statement on Vietnam, there has been renewed bombing on which also they should make a statement.

SHRI INDRAJIT GUPTA: The bombing is on a very heavy scale.

MR. SPEAKER: Both statements should be made some time this afternoon.

श्री रामबन (लाल गंज) : मेरी जिन्दगी के ऊपर जो खतरा है, अध्यक्ष महोदय, उस सम्बन्ध में मैं कुछ निवेदन करना चाहता हूँ। मैंने आप से दो मिनट समय की मांग की थी। मैं आपके चैम्बर में आप से मिला भी था। आपको लिख कर भी मैंने दिया था जैसा आपने कहा था। मेरी जिन्दगी के ऊपर खतरा है, इसके बारे में मैं निवेदन करना चाहता हूँ—

अध्यक्ष महोदय : पिछले सेशन में खतरा था, वह खत्म हो गया। अब खतरा कहाँ है ?

श्री राम बन : पिछले जून महीने में मेरे ऊपर भाजमगढ़ की पुलिस ने अत्याचार किया था जब मैं अनुसूचित जातियों और अनुसूचित आदिम जातियों की कमेटी मीटिंग

में भाग लेने जा रहा था। उस सम्बन्ध में मैंने आपको लिख कर दिया था। मैंने एक प्रार्थनापत्र प्रधान मन्त्री को भी लिख कर दिया था। उन्होंने उस पत्र की प्राप्ति की सूचना तो दे दी थी लेकिन उसके बाद मैंने—

अध्यक्ष महोदय : इस सदन में खड़े हो कर गलत मत बताइये। सब बातें बताइये, अगर बतलानी हैं।

श्री राम बन : सब बातें बतलाना चाहता हूँ। मैं आप से आपके निवास स्थान पर मिला था और मैंने रो रो कर आपको अपने ऊपर आए खतरे के बारे में बताया था। आपने कृपा करके प्रधान मंत्री के निवास स्थान पर जा कर उसके बारे में स्वयं निवेदन किया था। इसके लिए मैं आपका अनुगृहीत हूँ। प्रधान मंत्री ने भी वहाँ के स्थानीय पुलिस अधिकारियों का स्थानान्तरण कराने में जो मदद की उसके लिए उनका अनुगृहीत हूँ। लेकिन मैं आप से निवेदन करना चाहता हूँ कि उत्तर प्रदेश सरकार ने आप लोगों के हस्तक्षेप के बाद जिन पुलिस अधिकारियों का स्थानान्तरण किया था उनको वहाँ से हटा कर उनकी तरक्की कर दी गई। जो ए एस आई था उसको स्टेशन अफसर बनाया गया और क्लास वन थाने का नहीं बल्कि स्पेशल थाने का इनचार्ज बनाया गया : मैंने आप से मिल कर निवेदन किया था कि इन सारे मामलों की जांच कराई जाए। मैंने प्रधान मंत्री से भी निवेदन किया था कि केन्द्रीय खुफिया विभाग की ओर से इसकी जांच होनी चाहिये। मैं इस सम्बन्ध में उत्तर प्रदेश के मुख्य मन्त्री

[श्री राम घन]

से दर्जनों गार मिल चुका हूँ। वहाँ के गृह विभाग के राज्य मंत्री से दर्जनों बार मिल चुका हूँ, वहाँ के आई जी से मिल चुका हूँ, यहां पर मैं स्टेट मिनिस्टर श्री पंत से भी मिल चुका हूँ। लेकिन छः महीने का समय निकल गया, आज तक कोई जांच नहीं हुई। हम यहां हाउस में कराबर चर्चा करते आए हैं उन अत्याचारों की जो हरिजनों पर हो रहे हैं। मैं एक हरिजन सदस्य हूँ इस लोक सभा का। इस सम्बन्ध में मैं आपको बतलाना चाहता हूँ कि उत्तर प्रदेश में एक विधायक पर पुलिस वालों ने खूब अत्याचार किया। वहाँ ज्यूडिशल इनक्वायरी बिठाई गई। मैं दर दर की ठोकें खा रहा हूँ, भटक रहा हूँ लेकिन आज तक कोई जांच नहीं हुई है। यह बहुत ही शर्म की बात है। मेरा निवेदन है कि आप मेरी रक्षा करें। आप मेरी रक्षा नहीं करना चाहते हैं तो मैं लोक सभा के रिकार्ड पर इस चीज को रख देना चाहता हूँ। अगर मेरी कल को हत्या होती है तो इसकी जिम्मेदारी जिन लोगों पर होगी, उसको आप देख लें।

SOME HON. MEMBERS rose—

SHRI SHYAMNANDAN MISHRA: This is a serious matter. Our submission to you will be to look into the matter further personally. You have already taken interest in this matter. The Member has expressed his gratefulness to you for that. The House is unanimous that you take interest in this matter further personally and set the matter right. (Interruptions)

MR. SPEAKER: I am not listening to you.

May I request you to kindly sit down?

माननीय सदस्य मुझ से पिछले सेशन से पहले मिलें थे। इसके बारे में मैं कुछ हो सका, मैं ने किया और प्राइम मिनिस्टर ने भी फौरी तौर पर कार्यवाही की। उस के बाद पिछला सेशन हो गया और आज यह सेशन भी खत्म हो रहा है। अगर वह पहले बताते तो हम कुछ करते। आज हम उठने वाले हैं। माननीय सदस्य मुझे लिख कर दें। (व्यवधान)

श्री राम घन : मैंने लिख कर दे दिया है।
(व्यवधान)

अध्यक्ष महोदय : उस वक्त, जब कि आप पहली दफा आये। उस के बाद मैंने कुछ नहीं मिला। (व्यवधान)

SHRI JYOTIRMOY BOSU: What he has said has gone on record. You can take action on that.

MR. SPEAKER: Exactly as to who are at fault, what he means exactly, I should get that in writing. I will ask the Home Minister to take prompt action on it.

श्री नरेन्द्र सिंह बिष्ट (अल्मोड़ा) : अध्यक्ष महोदय, मैं आज ही पिबौरागढ़ से आ रहा हूँ। वहाँ निहत्थे विद्यार्थियों पर गोली चलाई गई। दो आदमी मर चुके हैं और काफी घायल हुए हैं। ऐसी अवस्था में मैं चाहता हूँ कि केन्द्रीय सरकार राज्य सरकार को यह आदेश दे कि इस बारे में इम्मीडिएट

जुडिशल एनक्वायरी की जाये। जब तक कि यह जुडिशल एनक्वायरी बैठे, जो सब के सब अफसरान इस के लिए जिम्मेदार हैं, उनको सस्पेंड किया जाये। वहां पर इन लोगों ने बहुत अत्याचार किया। विद्यार्थी निर्दोष थे। उन्होंने ऐसा कोई काम नहीं किया था, जिस के कारण उन पर लाठी और गोली चलाई जाती। जिन सरकारी कर्मचारियों ने उन के साथ ऐसा बुरा व्यवहार किया है, उन को दंडित किया जाना आवश्यक है। जनता में बड़े विद्रोह की भावना पैदा हो गई है। मैं इस और आप का ध्यान आकर्षित करना चाहता हूं और करबद्ध प्रार्थना करना चाहता हूं कि केन्द्रीय सरकार द्वारा राज्य सरकार को आदेश दिया जाये कि इस बारे में इन्क्वीजिट जुडिशल एनक्वायरी हो और तब तक सब जिम्मेदार अफसरों को सस्पेंड किया जाये। (व्यवधान)

श्री हुसैन 'अब्द कछबाय (मुरैना) : अध्यक्ष महोदय, मन्त्री महोदय ने यह आश्वासन दिया था कि ये कमीशन की रिपोर्ट इस वर्ष के अन्त तक आ जायेगी। अब सुना गया है कि पे कमीशन और समय चाहता है। मैं प्रार्थना करना चाहता हूं कि आप मन्त्री महोदय को यह आदेश दें कि वह सदन को बतायें कि पे कमीशन कब अपनी रिपोर्ट देने आ रहा है। (व्यवधान)

MR. SPEAKER: I am calling them only after the formal business is over. Now, papers to be laid on the Table.

SHRI SAMAR GUHA (Contain): I have written to you...

MR. SPEAKER: I have not called you.

SHRI SAMAR GUHA: I tried to obey you...

MR. SPEAKER: Order, please. You were not called. It will not go on record. We will just keep sitting and watching. The other alternative is ask you to withdraw from the House which I am not doing because today is the last day. We will listen to you. But nothing will go on record.

SHRI SAMAR GUHA: * *

MR. SPEAKER: Papers to be laid on the Table.

**STATEMENT RE. TAKE-OVER OF
WHOLESALE TRADE IN WHEAT
AND RICE**

THE MINISTER OF AGRICULTURE (SHRI F. A. AHMED): Hon'ble Members are aware that Government had already reached the decision to take over the wholesale trade in wheat and rice. This decision was taken in consultation with the Chief Ministers of the States. The essential features of the scheme are to give the public agencies a more dominant role in the procurement and distribution of wheat and rice and thereby eliminating the role of the middlemen. This decision has already been conveyed to the Lok Sabha in response to several questions answered in the House during the current session.

A conference of Food Ministers of States was held on 15th and 16th of December, 1972, to finalise the steps necessary to implement the decision already taken by the Government to take over wholesale trade in wheat and rice. In the conference the State governments were agreeable in principle to the decision taken by

the Central Government. They however, expressed certain operational difficulties likely to be experienced in the taking over of the wholesale trade. The consensus in the conference was that a committee may be appointed to examine the various operational difficulties that may be faced by the State Governments in implementing the decision. Necessary steps are being taken to form a committee consisting of representatives of surplus and deficit States, Planning Commission and the economic Ministries of the Central Government. The committee will be headed by the Minister for Agriculture.

अध्यक्ष महोदय, मैं मंत्री महोदय से एक निवेदन करना चाहता हूँ कि मध्य प्रदेश और उत्तर प्रदेश सरकार ने ज्वार की निकासी पर प्रतिबन्ध लगा दिया है...

STATEMENT RE. ACTION TAKEN
ON THE INSPECTION REPORT IN
THE CASE OF BELAPUR SUGAR
AND ALLIED INDUSTRIES LTD.

THE MINISTER OF COMPANY
AFFAIRS (SHRI RAGHUNATHA
REDDY): Hon'ble Members will recall that on 11th August, 1972 during the discussion initiated by Shri Piloo Modi by calling the attention of the Minister for Company Affairs to the affairs of Belapur Sugar and Allied Industries Limited, I had assured this House that action taken on the report of inspection under section 209(4) of the Companies Act would be reported this House. This statement is being made in pursuance of the foregoing

The inspection of this company was conducted during the period 26th July 1972 to 9th August, 1972 and the report was received by the Company Law Board on 5th October, 1972. After detailed examination the Company Law Board has taken action on the following lines:

1. The Regional Director at Bombay has been asked on 2nd December, 1972 to take up with the company the violations of Companies Act and certain other features requiring clarification.
2. The Income Tax Department has been informed on 2nd December 1972, of certain transactions which apparently required further investigation at their end.
3. On 8th December, 1972 a communication was addressed to C.B.I. for investigation into certain transactions which *prima facie* appeared to be offences involving criminal conspiracy, breach of trust, fabrication of accounts etc. by the management of the Company.
4. A notice requiring the company to show cause why 2 Government Directors should not be appointed u/s 408 of the Companies Act has been issued on 12th December, 1972 as the Company Law Board was of the *prima facie* view that company continued to be managed in a manner prejudicial to the interests of the company and of the public.

During the discussion, some Hon'ble Members had referred to the role of the Life Insurance Corporation. According to the Life Insurance Corporation, their representative along with the representative of Unit Trust of India attended the Annual General

[Shri Raghunatha Reddy]

Meeting of the company held on 9th June, 1972. It is true that the L.I.C. did not participate in any voting but the circumstances in which this was done are as follows:

The shareholding of the L.I.C. being only 9.9 per cent they felt that no results may be achieved by opposing the resolution for adoption of accounts or of re-election of Directors. The company representatives were therefore called to the office of the L.I.C. before the Annual General Meeting to discuss the various financial irregularities disclosed by the annual report for the year ended 30th September 1971. After consultations with the Reserve Bank of India it was put to the management of the company that they would make a statement in the meeting in order to ensure that the company Directors bound themselves to concentrate their efforts on the recovery of the company's funds in consultation with their bankers and auditors. The required statement was made at the Annual General Meeting and the representatives of L.I.C., U.T.I. and nationalised banks who attended the meeting did not participate in the voting.

RE. FINAL REPORT OF THE THIRD PAY COMMISSION

श्री हुकम चन्द कछवाय : (मुरैना)

प्रत्यक्ष महोदय, पे कमीशन के ऊपर सरकार
से वक्तव्य दिलवाइए ।

SHRI PILOO MODY (Godhra): *

MR. SPEAKER: No. I am not allowing you.

Mr. Banerjee, I allowed you under Rule 377. This is about delay in the submission of the final report of the Pay Commission. I will ask the Minis-

ter to come up with a statement....

SHRI S. M. BANERJEE (Kanpur): Before that, Sir, I wish to remind you, in this very House, repeated assurances were given by the Finance Minister and by the Minister of State in the Ministry of Finance stating that the Pay Commission will submit its final report by the end of this month, in other words, by the end of this year. Every day practically I have been mentioning this, because I had a fear in my mind that the Pay Commission may ask for a further extension of time and that they would delay the report once the Parliament is adjourned, since Parliament is being adjourned today.

Now, Sir, this is not merely a question of the 28 lakhs of Central Government employees; there are lakhs of the Army, the Navy and the Air Force personnel. They are equally agitated over this abnormal delay because many thousands of people have retired during 1971 and 1972. Once the Pay Commission report is out and if it is not mentioned that this will have retrospective effect, all these persons will not be able to get any benefit out of this report.

13.00 hrs.

I would, therefore, request the hon. Minister to make a statement and give a categorical assurance that the Pay Commission will not be allowed to extend their time and the report will be submitted this year and moreover it will be implemented retrospectively after discussions with the employees' representatives.

THE MINISTER OF STATE IN THE
MINISTRY OF FINANCE (SHRI
K. R. GANESH): Honourable Mem-
bers will recall that in response to
Questions raised in the House it was
stated some time back that according

to the indications then available the final Report of the Third Pay Commission was likely to be received by the end of the current year. The Commission have been making every effort to complete their work within this time. *(Interruptions)* The Commission recently had occasion to review the progress made in this direction with a view to assessing the further time which may be required by them to complete the remaining work and they think that a little more time would be necessary. The Government are in touch with the Commission and hope that the Commission would be able to submit their Final Report soon. *(Interruptions)*.

MR. SPEAKER: I have not called anyone. I am not allowing anybody to speak now. *(Interruptions)*.

SHRI S. M. BANERJEE: At least let the hon. Minister complete the statement. We have not been able to hear him at all.

SHRI K. R. GANESH: I have nothing to hide. I am prepared to read out the later part of the statement again.

The Commission recently had occasion to review the progress made in this direction with a view to assessing the further time which may be required by them to complete the remaining work and they think that a little more time would be necessary. The Government are in touch with the Commission and hope that the Commission would be able to submit their Final Report soon. *(Interruptions)*.

MR. SPEAKER: Kindly sit down—
[1] of you. *(Interruptions)*.

नाप लोग बैठ जायें । Please sit down,
Do not disturb the House.

SHRI K. R. GANESH: We have given a statement to the House many times. According to justifications we got from the Pay Commission, their Report will be submitted by the end of this year. There is no doubt about it; there is no dispute about it. Recently, and also because of the illness of the Chairman, the Pay Commission have reviewed the work and they think. *(Interruptions)*—Please let me complete my statement if you want to know the government line; but if you shout, I shall sit down—Recently the Pay Commission had occasion to review their work and they have come to the conclusion that some residual work will be left. Still, we had given an assurance to Parliament and it was the responsibility of Government to come and explain this position. Government are in touch with the Pay Commission....

SHRI ATAL BIHARI VAJPAYEE
(Gwalior): How long?

SHRI K. R. GANESH: It is the intention of Government to see that the Pay Commission submit their report as early as it can be finalised.

SHRI ATAL BIHARI VAJPAYEE:
How long? *(Interruptions)*.

MR. SPEAKER: The Minister may kindly sit down. He has made his statement.

SHRI K. R. GANESH: We are telling them. The views expressed by hon. Members will also be conveyed to them *(Interruption)*. He does not understand anything about the Pay Commission.

अध्यक्ष महोदय : वह तो गुस्से में हैं आप गुस्से में मत आये ।

श्री के० आर० गणेश : नहीं साहब, यह तो मेरी आदत है । मैं ने कई दफा पहले भी कहा है कि यह मेरी आदत है—मैं गुस्से में नहीं हूँ ।

श्री अटल बिहारी वाजपेयी : एक महीना, दो महीना, तीन महीना, कमीशन कितना टाइम चाहता है ।

SHRI K. R. GANESH: The Commission want some little time to do the residual work. So the word 'soon' used is very appropriate.

SEVERAL HON. MEMBERS rose—

MR. SPEAKER: Order, order. You have made a mockery of this House.

श्री हुकम चन्द कछवाय : अध्यक्ष महोदय, आप हम को चुप करा देंगे लेकिन सारे देश के कर्मचारियों को चुप नहीं करा पायेंगे ।
(व्यवधान) :

अध्यक्ष महोदय : यह नहीं होगा । मैं आप से कहूंगा कि हमारे सभ का प्याला लबरेज हो चुका है ।

Re. Charges Against Tamil Nadu
 Chief Minister and his Cabinet
 Colleagues

SHRI M. KALYANASUNDARAM
 (Tiruchirapalli) rose—

MR. SPEAKER: Please sit down. Let me tell you something. We do not allow discussion on the corruption charges against the Chief Minister of a State.

SHRI M. KALYANASUNDARAM:
 I am not...

MR. SPEAKER: I have disallowed it.

SHRI M. KALYANASUNDARAM:
 I am not rising on that. I want to know from the Prime Minister what action she is going to take, because the matter is now before her. She has sent the charges to the Chief Minister and called for his remarks and the remarks have been sent here. So, this House is entitled to know what are the charges and what is the reply and what is the Central Government going to do with that. (Interruption).

SHRI M. KALYANASUNDARAM:
 It is a matter of public knowledge.

MR. SPEAKER: That is all right.

SHRI M. KALYANASUNDARAM:
 Let the reply be placed on the Table of the House. In the Assembly there, they have placed it on the Table of the House. It is public property now.

SHRI G. VISWANATHAN (Wandiwash): We want an enquiry on Mr. Kalyanasundaram.** (Interruption). and is indulging in anti-national activities. We want an enquiry. (Interruption). His loyalty to this country is questionable.

**Excluded as ordered by the Chair.

MR. SPEAKER: Order, Order; kindly sit down.

SHRI K. BALADHANDAYUTHAM (Coimbatore): On a point of order. Is it in order for any Member to say that a Member of this House.**

SHRI G. VISWANATHAN: If what you are saying is in order, what I say is in order.

SHRI INDRAJIT GUPTA (Alipore): People who were thinking of secession from this country should talk about the loyalty of others.... (Interruptions).

SHRI K. BALADHANDAYUTHAM: I want a ruling on the point of order.

MR. SPEAKER: May I request you? This is a very troublesome part of the House. I must say something. I do not allow it. Why do you get quarrelling among yourselves? You can quarrel with me all right, but do not quarrel among yourselves.

Now the position is that if a Member wants to level a charge against an other Member, there is a procedure for it. Do not do it like this.

श्री अटल बिहारी वाजपेयी : (स्वागत) :
सी आई ए एक्टिविटीज पर जब यहां चर्चा
हो रही थी तो हमारी पार्टी के ऊपर यह चार्ज
लगाया गया था... (इश्वरान)

MR. SPEAKER: That was wrong.

SHRI INDRAJIT GUPTA: What you said about the procedure has got nothing to do with what Mr. Vajpayee says. The question raised here is: can one Member accuse another Member in this way, suddenly? All I have done was to quote the U.K. High Commissioner in this country—and I said that it had not been contradicted—that certain parties had

been getting money. I never mentioned any Member of this House... (Interruptions).

SHRI H. N. MUKERJEE (Calcutta—North-East): Sir, there is a point of order which remains unsolved. Here has been an instance of one Member accusing another Member in a very dastardly way; you did not hold him up; you have not even been pleased to observe yourself definitely and strongly against that practice.

MR. SPEAKER: I gave the ruling; you did not hear.

SHRI H. N. MUKERJEE: The whole matter has been confused by an absolutely irrelevant comparison between a general accusation in regard to the political segments in this country and a personal accusation against a Member functioning in this House and present in this House. When that kind of dastardly accusation is being hurled, no protection is forthcoming from the Chair. On a point of order, I say that it is necessary for you to do something in regard to this matter: either ask the Member concerned to apologise. . .

SHRI G. VISWANATHAN: Why should I apologise?

SHRI H. N. MUKERJEE:or ask him to repeat it outside the House and let him be beaten to smithereens(Interruptions). With the protection of being under your umbrella, he makes this accusation and gets away with it. This is an irrelevant comparison. Political accusation has nothing to do with the personal honour of a member being impugned. I have never seen in this House the personal honour of a member present being impugned in this manner without any protection from the Chair. (Interruptions).

SHRI K. BALADHANDAYUTHAM: Sir, you called the name of Mr. Kalyanasundaram and he got up to put certain questions.**

Is it not up to you to pull him up? *(Interruptions).*

MR. SPEAKER: Mr. Viswanathan, you must know the rule. When you level a charge against an hon. member this House, the procedure is in such cases the member give it in writing to the Speaker that he is going to say this. In this case it was very unfair on your part to have said it.

SHRI G. VISWANATHAN: If I had anticipated it, I would have given notice. It was unanticipated. I will give notice now with retrospective effect. *(Interruptions).*

MR. SPEAKER: Mr. Sezhiyan, will you kindly ask your party member to withdraw those words?

SHRI SHYAMNANDAN MISHRA (Begusarai): My submission is that in these matters you must evolve a code of conduct for the members of the House. Otherwise, the impression in my mind by the observations of the Chair is that the Chair puts up with utterances, nasty utterances, by some members while it does not put up with utterances by other members. I can quote hundreds of instances where members like Shri Piloo Mody had been called American agents. I have never used expressions like the one Shri Viswanathan has used against another hon. Member. At the same time, I seek your guidance in this matter. Whether on certain other occasions such words have been used and they were not withdrawn. Persons like me have pointed out to you even yesterday how some members use the strongest possible terms. If on this occasion you make a member withdraw his words, you would be taking a highly discriminatory action and we

cannot be a party to that. Unless you evolve a code of conduct....*(Interruptions).*

SHRI PILOO MODY (Godhra): I want to know whether in the past members have been asked to withdraw such remarks made on similar occasions.

SHRI S. A. SHAMIM (Srinagar): On an earlier occasion, a ruling party member called another Member a Pakistani agent. You in your wisdom asked the member to withdraw those words. The member did not withdraw those words. Then, Sir, you in your wisdom expunged those remarks. In this case, if you feel that they are unparliamentary, undesirable and unwarranted, you can at best expunge them. We want a uniform procedure. I am saying this because I am an Independent member and many members will not stand on my behalf. Therefore, a different norm would be adopted. This is very unfortunate.

MR. SPEAKER: I think we will expunge it. That remark is expunged.

SHRI SEZHIYAN (Kumbakonam): Other similar expressions used by other members should also be expunged.

MR. SPEAKER: Certainly. All of them will be expunged.

SHRI M. KALYANASUNDARAM: Sir, the students in my constituency in a hostel were beaten....*(interruptions).*

SHRI G. VISWANATHAN: Sir, on a point of order. This is a matter concerning law and order in the State, which is a State subject....*(Interruptions).* Why should they raise it here? There is a State Assembly where it can be raised....*(interruptions).*

**Expunged as ordered by the Chair.

SHRI SAMAR GUHA (Contai)

RE: WITHDRAWAL OF INDIAN AND PAKISTANI TROOPS AND RATIONALISATION OF LINE OF CONTROL

MR. SPEAKER: Mr. Samar Guha, what I meant at that time was to convey to you to kindly not to get up abruptly because we were dealing with the formal business and everything was kept at the end of the formal business. That you did not follow. Now, you take one or two minutes.

SHRI SAMAR GUHA (Contai):
It was not informed to me.

According to the official communique of the Government, the withdrawal of both Indian Army and Pakistani Army from the occupied area has been completed. At the same time, it has been reported that it has been done on the basis of "give and take" and it has also been reported that certain rationalisation of the line of control has been done. The Government is very brief in their communique. They have not categorically stated as to what has been the area of land given and what has been the area of land taken. According to the constitutional provisions, articles 3 and 4, not even an inch of Pakistani territory can be retained by India without the formal approval of Parliamentary and not an inch of Indian territory can be given to Pakistan without the approval of Parliament. The Government is completely silent on that. This is an important matter.

This is the last day of the session. This House has the sovereign right to know even about an inch of our territory which has been in occupation of India before 1965 that has been given to Pakistan or even about an inch of Pakistan territory that has

come to India. This is a very vital matter involving the constitutional provisions and the sovereignty of our country. Therefore, I submit to you that, in your wisdom, you ask the Government to make a categorical statement to let the House know what is the extent of territory that was given to Pakistan and what is the extent of territory that was taken by us. This is a very vital point. I hope, you would ask the Government to make it quite clear.

श्री अटल बिहारी वाजपेयी : (ग्वालियर) :

मैंने भी कहा था कि आप चर्चा करने का मौका दें। अभी वीयतनाम के बारे में तो शोर हो रहा है लेकिन हमारी कितनी जमीन पाकिस्तान को दे दी गई है यह सदन को बताया तक नहीं गया है। देश को भंघरे में रख कर इस तरह से पाकिस्तान के साथ समझौते की बात की जाएगी। अध्यक्ष जी, आप मंत्री महोदय से कहिये कि कौन सी जमीन दी गई है। कहां दी गई है कितनी दी गई है इस को हमें बतायें।

SHRI SAMAR GUHA: Who has given the right to the External Affairs Minister to accept that?

अध्यक्ष महोदय : जो ली गई है, और जो दी गई है, दोनों बता दें।

श्री अटल बिहारी वाजपेयी : दी ज्यादा गई है, ली कम गई है। आप को याद होगा कि बेरूबाड़ी का मामला सुप्रीम कोर्ट में गया था (इंटरप्शन) इस तरह से जमीन नहीं दी जा सकती है।

[श्री राधावल्लभ शास्त्री]

स्टेशन मास्टर्ज ने नॉन-प्रिअरिटी मूवमेंट चालू कर दिया है। स्थिति इस की वजह से बिगड़ रही है। 24 तारीख से हो सकता है कि तमाम रेल गाड़ियों का आना जाना बन्द हो जाए। अतः मैं चाहता हूँ कि ग्राल इंडिया स्टेशन मास्टर्ज सोल्यूशन के जो पदाधिकारी हैं उन से मिल कर मंत्री महोदय बात करे और इस को टालने के लिए कोई ऐसा रास्ता निकालें। उन की वश दिक्कतें हैं, इन को देखें और उन की इन दिक्कतों को दूर करें। पर ऐसा नहीं होता है तो हो सकता है कि 24 तारीख को उन को कोई दूसरे तरीके अड्युप्ट करके पड़े या डायरेक्ट एड्युप्ट करना पड़े जिस का परिणाम यह होगा कि रेल गाड़ियों का आना जाना रुक सकता है और इस से हमारे देश को नुकसान होगा। मेरा आप से निवेदन है कि आप सरकार से कहें कि वह उन लोगों से बातचीत कर के कोई रास्ता निकालने, समझाने का कोई तरीका निकाले।

MOTION RE. POLICY OF GOVERNMENT IN REGARD TO MANUFACTURE OF CAR

MR. SPEAKER: Now, we take up Motion at item No. 25 Shri Jyotirmoy Bosu.

SHRI JYOTIRMOY BOSU (Diamond Harbour): Sir, before I start, I want to make a submission. As the zero hour started from quarter past twelve to thirty-five minutes past one, I would like to have a kind ruling in this regard as to the time fixed for this Motion. This is a substantive Motion relating to a very serious matter....

MR. SPEAKER: It was decided in the Business Advisory Committee that we will finish it before the Private Members' business starts.

SHRI JYOTIRMOY BOSU: This is a substantive Motion. I have a right of reply. There will be other Speakers from different parties. Before I start, I want to know your ruling as to the adjustment of time on the Motion.

MR. SPEAKER: If the House agrees, we will take up the Private Members' Business one hour later. We will try to make up this time. Instead of at 13.00 p.m., the Private Members' Business will be taken up at 4.00 p.m.

SHRI JYOTIRMOY BOSU: What is the ruling, Sir?

MR. SPEAKER: We shall take one hour from the Private Members' Business and extend the Private Members' Business in the evening. In that way we shall try to make up the lost time.

SHRI JYOTIRMOY BOSU: I beg to move:

"That this House notes with disappointment the policy of the Government in regard to manufacture of Car."

We are Marxists. We believe in planned economy—public sector, priority and non-priority sectors. We want a clean administration, free from nepotism and corruption. About this project, we would have opposed if Birla was given this project, we would have opposed if Tata was given this project, and we are opposed to the project having been given to the persons to whom it has been given, because it is a growth of private sector and capitalism. This evolution of small car, particularly, is a reverse process of Darwin's theory—Man has become the monkey and monkey has not become man. That is the position.

Production of 50,000 cars a year, may be small in size, but the producer is not a socialist; it is another Tata or Birla in the making. Government is talking about manufacture of people's car. We felt very strange—that was a non-priority item. The planning Commission also felt that we should conserve the overall resources for priority sector. Did late Mr. Gadgil have to quit because small car had to come into existence? Public transport is a vital thing. But its growth is insignificant. The Ministry of Industrial Development made out a case that the present manufactured cars were outdated in quality, in price and the machinery were old, that the producers wanted replacement—and naturally they would approach the Government for further investment. And this Government of course surrenders to the monopolists. Finally, in November 1970, the Cabinet decided about the small car in the public sector—not really public sector, the sector controlled by the market, part of the money will be coming from the market, a part from the State and a part from foreign capitalists. The basis was the Low Cost Car Committee Report of 1961. The Minister said on the floor of the House that this would be export-oriented. Then, 'market collection' means resource mobilisation, and the plans were that the cars which would be produced in that sector would also be exported—a good quantity of them. The project report for doing it did cost us to the tune of Rs. 15 lakhs all in foreign exchange. We had consultations with Renault, Ford, Nissan and so many others. Collaborations were invited and finalised. The HMT were anxious and they offered that they could utilise their unutilised built-in capacity for producing ancillaries. But here it comes to the surface that to one fortunate person with no resources—his income-tax declaration was Rs. 748—the letter of intent was issued on 30th November, 1970, and the Licence Sub-Committee of the Cabinet was presided over by the Prime Minister herself

whose son happened to be the applicant. It would have posed a serious competition—that was the apprehension to the public sector project. But the Government assured in parliament that the public sector project would not be affected. Now what do we see? It has been dropped without any rhyme or reason, in order to help the young, lucky person who has come out in the new project. Similar but small scale allegations were brought against the former Deputy Prime Minister, Shri Morarji Desai, some time ago and the House was agitated about it. I want to ask this question: Is it true that Mr. Moinul Haque Chowdhury had to quit the Cabinet because he opposed the private sector small car project?

Is it true that Mr. Subramaniam was brought in as Devaluation Minister within a week he dropped the public sector project? Is it also true that Mr. Subramaniam had to go out of the Government because of Aminchand Pyarelal affair and failed to get re-entry through the Rajya Sabha and now has come and he has been put in charge of this Ministry for this purpose? Is he so indispensable? Now, it cuts both ways. The Birlas may demand resources for remodelling their Ambassador car. Why was the public sector project dropped? I want to ask that question. Is it to kill priority to public transport contrary to the previous announcement? We want manufacture of public transport in the public sector. Why has it been avoided? I want to ask Mr. Subramaniam.

Again, I ask the question: why with the change of the Minister in the Planning Commission, a project which was once agreed to was disagreed to by another. Mr. Subramaniam deferred the thing in May 1972. I want to know the reason for the same also. Of course, he gave an excuse in reply to an unstarred question on 13th December 1972. This is what he said:

[Shri Jyotirmoy Bosu]

"The Planning Commission are currently examining the question of the relative costs and benefits to the economy of public transport vis-a-vis passenger cars;

A final decision on the proposed public sector small car project will be taken after this examination is completed."

Please tell us, Mr. Subramaniam, why there was no discussion in the Parliament. Why has it been kept as a mystery? It has not been explained. Is it because it is embarrassing to a VIP? People are no longer fools for you to hoodwink them. The Government has to accommodate this lucky young man. So, the low priority passenger car gets precedence over the public transport. And this is how the 'Garibi Hatao' is being implemented. What is the outcome? The outcome will be for a few to prosper and the rest to rot, and the heinous private sector gets priority over the public sector. This is a conspiracy hatched by this Government over the public sector. They will be tapping the same source for the resources because they cannot mobilise any additional resources. So, it should have gone to the public sector or given low priority or deferred as far as possible because it is a low priority item and because of the present conditions.

In reply to a question of mine, Mr. Subramaniam, has made a statement in the Industrial Development Ministry's Consultative Committee meeting which says:

"Shri Sanjay Gandhi was granted a letter of intent on 30-9-1970 for the establishment of a new industrial undertaking at Gurgaon, in the Haryana State for the manufacture of passenger cars with an annual capacity of 50,000 numbers per annum. The validity of the letter of intent granted to him has been extended upto 31-12-1972.

Shri Sanjay Gandhi has already floated a company and according to the information received 297 acres of land costing Rs. 36 lakhs approximately have been procured and the boundary walls put up."

We do not know the entrepreneur's qualifications anything nor more than an artisan's training he had received. We want to know from Mr. Subramaniam. Was he a Graduate Apprentice in the Rolls Royce? We want to know his experience both academic and practical, both.

About the extension of the letter of intent, why and when was it given? When there is no guarantee for licence, not yet tested and passed, how is it that a letter of intent was given? Mr. Swaminathan Committee's report clearly says:

"To enable him to proceed with the negotiations with the foreign collaborators as well as to arrange financial assistance, until 1959 a practice prevailed under which a conditional letter was issued which provided for negotiations with the Government for the grant of a licence provided certain conditions are satisfied."

It says that the Swaminathan Committee recommended the issue of a letter of intent which practically the same as the former conditional letter the Government introduced in 1954—the letter of intent. The letter of intent specified the time limit—this is very important—within which certain steps have to be taken. If that is not done, the letter of intent automatically lapses, unless the applicant requires an extension of the time limit and the request is agreed to. It also says that the letter of intent broadly indicates the conditions subject to which the Government would be prepared to consider the grant of licence and also specify a definite period varying from six to

twelve months depending on the nature of the industry with which the applicant should be acquainted.

Now, today is the 22nd of December, 1972. According to Mr. Subramaniam, the letter of intent has been extended upto the 31st of December, 1971 only. From six months to one year is the maximum time limit. But why is it that you have gone out of your way to extend it upto two years and three months? Is it not the case that the licence would get automatically cancelled? We have got 70,000 graduate engineers, who have got so many national talent scholarship-holders running petrol pump stations, filling petrol for cars. Why should this be allowed? I am unable to understand this.

Then, the worst thing is the land scandal issue. There is the Central Land Acquisition Act of 1894 modified by us in March, 1970. The provisions of this Act have been bypassed by this company, actually an individual. This matter has got no parallel in history, Sir. This was done only to oblige the Delhi wishes.

I have got the letter with me written by the Chief Minister Mr. Bansi Lal. It says:

"A total area of 420.54 acres was acquired out of which 9680 acres were allotted to Messrs. Maruthi Limited for setting up a Car Manufacturing Project."

SHRI R. S. PANDEY (Rajnandgaon): Sir, I rise on a point of order. (Interruption)

SHRI JYOTIRMOY BOSU: I am not yielding.

SHRI R. S. PANDEY: I would be grateful to you, Sir, if you allow me to raise this point of order. What is the motion before the House? (Interruption).

SHRI N. K. P. SALVE (Betul): Point of order gets precedence always.

SHRI R. S. PANDEY: My point of order is this. I would like to remind the House about the exact wording of the Motion before the House, which we are presently discussing. It says:

"That this House notes with disappointment the policy of the Government in regard to manufacture of car."

It is not only for Maruthi Limited that the letter of intent was issued. There are eleven other parties. There is another case where the letter of intent was issued. It is a question of policy in regard to the manufacture of car which alone should be discussed. How can the question of land come in here?

MR. SPEAKER: Please sit down.

SHRI R. S. PANDEY: Car model, a particular director being there, etc. are all things which do not come within the purview of this particular motion which we are discussing.

SHRI VIKRAM MAHAJAN (Kangra): What my hon. friend says is correct. The Motion before the House is regarding the policy of the Government. It is not a question of particular individual. You cannot bring in any particular issues whether a particular company has got a land or not. We should confine ourselves to the policy of the Government. Nothing more. We cannot allow any aspersion on A. B. C. D. etc.

MR. SPEAKER: Order please. This is a general Motion on car manufacture policy. If the Member has come prepared only for one particular thing, I have no objection. This is a general Motion. But if he

[Mr. Speaker]

thinks that the whole car manufacturing policy is only one thing, how can we stop here?

SHRI VIKRAM MAHAJAN: You may kindly give guidance; you may kindly tell the Member.

MR. SPEAKER: I think he has come with that idea....

SHRI VIKRAM MAHAJAN: If you give him licence, he can say anything.

SHRI R. S. PANDEY: If he says that letter of intent was not given to a public sector company, it should not be given to a private sector, etc. we can understand that. I would respectfully submit that what he says about Maruthi alone is not coming within the purview of this Motion.

SHRI VIKRAM MAHAJAN: He can only discuss whether it can go to the private sector or the public sector. He cannot discuss the question of land acquisition.

SHRI PILOO MODY (Godhra): I suggest that Congressmen can refer to the car policy and talk about Hindustan, Fiat and whichever other make they like.

PROF. MADHU DANDAVATE (Rajapur): All that they can say is that his knowledge is limited.

SHRI JYOTIRMOY BOSU: I would like to tell my hon. friends that my knowledge is limited, and, therefore, my hon. friends may excuse me if I speak about this only. Let them not get identified so soon, because it is not going to get them dividends.

I am talking of a Central piece of legislation which has been given a very unfair deal. The methods adopted are without any parallel, and I have read out just now from the letter from the Chief Minister of Haryana about what is happening there.

The Gazette Notification dated 24th February, 1971 says:

"For planned development, the land was acquired".

I have got here with me the Gazette Notification, and if you like, I can lay it on the Table of the House or hand it over to you for reading...

MR. SPEAKER: That is an accessible document.

SHRI JYOTIRMOY BOSU: Out of 420.54 acres, 296 acres or roughly about 300 acres or about three-fourth of the total land was given for this. I think that those who know about car projects, even they, will consider it to be far too big an area. It is a matter of a mere letter of intent extended, and on the strength of this, these wonders have been happening.

Then, they talk about industrial estate. Out of 420—it is a very bad number—296 acres was given to one party, and yet the garb of industrial estate is being used. It was an afterthought. Even the surplus distribution requires permission on the part of the individual. I want to ask my hon. friend Shri Sat Pal Kapur who is a very knowledgeable person, and the advocate here who is also very knowledgeable, at what price they are being sold.

Is it not misuse of a Central Act? Is it not for this House to see that the Central piece of legislation is not misused to the advantage of a particular individual; however big or however important he may be? This is what I am saying.

Then, the first acquisition order was dated 24th February. Although three-fourth of the land was for one individual unit, actually for one individual, yet they bypassed the provisions of the Land Acquisition Act. The Land Acquisition Act is a Central

piece of legislation. It is not a State piece of legislation, and, therefore, it is our business. I would invite your attention to Part VII of the Act, sections 39 to 42. Section 39 says:

"The provisions of sections 6 to 37 (both inclusive) shall not be put in force in order to acquire land for any Company, unless with the previous consent of the appropriate Government, nor unless the Company shall have executed the agreement hereinafter mentioned."

Further, section 40 says:

"(1) Such consent shall not be given unless the appropriate Government be satisfied either on the report of the Collector under section 5A, sub-section (2) or by an enquiry held as hereinafter provided,—

(a) that the purpose of the acquisition is to obtain land for the erection of dwelling houses for workmen employed by the Company or for the provision of amenities directly connected therewith, or

(aa) that such acquisition is needed for the construction of some building or work for a Company which is engaged or is taking steps for engaging itself in any industry or work which is for a public purpose....."

Now comes the very important portion . . .

SHRI VIKRAM MAHAJAN: Let him read the whole of the provision.

SHRI JYOTIRMOY BOSU: I think my hon. friend must be having a copy of the Act; otherwise, if he wants, I shall lend him my copy.

Then, section 41 says:

"If the appropriate Government is satisfied after considering the report . . . it shall require the

Company to enter into an agreement with the appropriate Government, providing to the satisfaction of the (appropriate Government) for the following matters, namely:—

- (1) the payment to the appropriate Government of the cost of the acquisition;
- (2) the transfer, on such payment, of the land to the Company;
- (3) the terms on which the land shall be held by the company; . . ."

Then, section 42 says:

"Every such agreement shall, as soon as may be after its execution, be published in the Official Gazette, and shall thereupon so far as regards the terms on which the public shall be entitled to use the work have the same effect as if it had formed part of this Act."

They bypassed these provisions, acquired 420 acres and gave 3/4th of it to a particular individual unit commanded by a particular individual. The *modus operandi* is not only a fraud on this House; it is a fraud on the people affected, the people who live there. That is how this company was given opportunity to get away without paying the cost of the acquisition.

The description of the land is very interesting:

"By a rough calculation, it has been found that for each 25 acres, there was about one irrigation tube-well (90 per cent area irrigated) and sufficient number of tractors were in use for multiple cropping. The cattle population worked out at about 4 per acre. A good number amongst the owners of the land are soldiers. Although the land is technically

[Shri Jyotirmoy Bosu]

within Gurgaon district in Haryana State . . . etc. etc."

I would not go into the details (Interruptions).

Then there is the Defence Department Order which imposes a prohibition in this area, which was modified. Shri Jagjivan Ram is here; he will help us to get this clarified. The Order No. is P.C. No. 10(10)/£/D (GS-1) and it says:

"In exercise of the powers conferred by sec. 3 of the Indian Works of Defence Act 1903 (7 of 1903), the Central Government hereby declares that it is necessary to impose the restrictions specified in clause (b) of sec. 7 of the land situated in the district of Gurgaon in the State of Haryana described in Schedule A and Schedule B hereto annexed, being land in the vicinity of air force unit at No. 54 ASP "in order that such land may be kept free from buildings and other constructions".

The whole of this land comes within the purview of this order.

SHRI VIKRAM MAHAJAN: It does not.

SHRI JYOTIRMOY BOSU: You will be sorry to hear that 1500 small peasant family members have been thrown out of their ancestral homes.

SHRI PILOO MODY: *Garibi hatao.*

SHRI JYOTIRMOY BOSU: These poor people pooled some money and went to the court in a writ petition on 11 March 1971. On 15 March, the Advocate General, Haryana, withdrew the case regarding the acquisition order. The writ became infructuous. The withdrawal was published in the gazette on 23 March. Then the villages went home, happily thinking that they had won the battle. But the devil's design never steps. The next day, on 24 March, a special

acquisition order was issued. The dirtiest part of the whole thing is that its publication, its notification was suppressed till 23 June 1971.

Under sec. 6 of the Land Acquisition Act, in one single working day of 8 hours, over 200 objections were invited to be heard. 8 x 60=480 minutes and 200 objections! I do not think we have gone to that concorde age of being able to hear so many objections within this time. When the able-bodied men left the village for attending the hearing at Gurgaon miles away, the police and the administration took possession by surprise action. They fooled these innocent, small peasants, and the Tehsildar said:

"रुपया लो जमीन दो, रुपया नहीं लेगा, जमीन भी जायगा रुपया भी जायगा।"

This is what he said. Shyam Babu, myself and many of us went there.

As regards the price, it is a daylight robbery. The land was acquired, according to Shri Bansi Lal's letter written to me, at the rate of Rs. 11,776.42 per acre. You cannot buy any land there at this price. I have got photostat copies of documents to prove that the price of the land there today at the lowest is Rs. 60,000 per acre. So the peasants were made to part with the land at a very low price. I have got a certified true copy from the Registrar's office which shows that the price is Rs. 40,000—50,000.

14.00 hrs.

Then, Sir, the terms of payment are these. After two years, 18 annual equated instalments. How wonderful and how nice it is? The company made a crore of rupees even before they started the factory on the purchase of the land through the Government.

This price received from Bansilal is inclusive of tube-wells, trees, houses, standing crops and 15 per cent sur-

charge. Mr. Frank Anthony knows about it. (Interruption). The Chief Minister said that the total amount paid is Rs. 49,52,414. But the other figure—I have got a copy of it—says it is Rs. 30,19,632. I want to know why there is this discrepancy. Who is correct? I demand here and now that the surplus land should be returned to the tillers at once. They should be paid according to the market price, and those who have been thrown out of their farms and agriculture should be employed.

About the finance, tapping of the resources up to September, 1972 . . .

MR. SPEAKER: Your time is up.

SHRI JYOTIRMOY BOSU: How much time, Sir?

MR. SPEAKER: You have taken already more than 25 minutes.

SHRI JYOTIRMOY BOSU: I want another 10 minutes. I am the mover of the substantive motion.

MR. SPEAKER: Two or three minutes only you may take. The mover is given 20 minutes. You have taken about 30 minutes.

SHRI H. N. MUKERJEE (Calcutta-North-East): Sir, he is making a very factual statement and every opportunity should be given to the House to get the facts. Let them reply at whatever length which they may take. As a private Member I am terribly exercised over this kind of allegation, and that is why it must be considered objectively and he is doing it. They must wait and give the answer and take adequate time.

MR. SPEAKER: Two or three minutes. Not more than that.

SHRI JYOTIRMOY BOSU: The total yield they have got up to September, 1972, is Rs. 7 crores. Promoters and friends will find Rs. 1.5 crores. It is reported that—we want to have a confirmation or denial of it—the entire controlling share capital

has been subscribed by the Haryana Government. Is this utilisation of public money for private enterprise? Also Rs. 25 lakhs worth of equity shares were there. There was a condition that there will be no foreign help or collaboration at all. Is it not a fact that National and Grindlays Bank is the financial consultant and is the handler of your issues to an extent of about Rs. 2 crores. Is this bank a foreign bank or not? (Interruption) What is unforeign about that? I want to know. Of course, as far as loans are concerned, they have to come from a native bank, nationalised native bank—the Indian Bank. For that, they need not go to National and Grindlays. Is this the reason why foreign banks have been left out of nationalisation? Is that the reason why foreign banks are shown particular favour? I want to know this.

Everything is ready for a deal with IDBI, etc., etc. Sir, the NIDC—National Industrial Development Corporation—is there. Its managing Director misled the Committee on Public Undertakings. A privilege motion was brought here. But I saw some unseen hand trying to protect him. Today I understand why this gentleman has drawn up the project report for this company. Therefore, he has to be saved. The project report says that actually in four years they will require Rs. 17 crores. For 1972, they estimated Rs. 9.4 crores; for 1973, Rs. 6 crores. For the first year, for ancillary production, they will buy from the bazaar; Dunlops and Escorts. For these ancillaries, it comes to 57 per cent. For the balance, he says “we will produce.” We do not know if there is a change in the capital structure. We want to know the details. But two nationalised banks, namely, Central Bank and Punjab National Bank, have sanctioned an overdraft of about Rs. 90 lakhs. I could not enter into their ledger. I had no time. I put my finger but I could not. I am told a good bit of it

[Shri Jyotirmoy Bose]

has already been taken. I want some details from him. The hon. ex-communist friend, Shri Raghunatha Reddy, took three or four months to reply; a simple reply about Maruthi. Everything is a top secret document; you cannot get anything from that company. On the letter of intent, no licence, selling agents are being given to hundreds and they have been taking Rs. 2.5 lakhs to Rs. 3 lakhs. That is how it comes to Rs. 2.5 crores to Rs. 3 crores. There is a comment in the Guardian. I do not put much weight on British paper's remarks on that but there is a comment not very complimentary about the technique of this car and the utility of this car.

There is a wonderful thing here. According to the reply given to question No. 1912, which Mr. Raghunatha Reddy had very kindly sent to us, Mr. Sanjay Gandhi is the Managing Director and the other directors are Mr. V. R. Mohan, Shri M. A. Chidambaram, Shri C. B. Saran, Shri Jagdish Prasad, Shri Raunaq Singh, a great man, Shri Jindal and Shri S. N. Kapadia. About one of them, I know, a great tycoon, from the South. He has been pleading for a naphtha based fertiliser plant which was opposed by Dr. Triguna Sen and he even threatened to resign if the plant was allowed because it would make the country dependent on American raw material. But after Triguna Sen was not given a ticket, not given a berth in the cabinet, this has been cleared and this man has substantially invested. Mr. Chidambaram is a good man and could do well.

Another man is a great brewer and distiller. I do not want to mention the name. He was producing in excess of his licensed, registered and installed capacity. But he got a Padmashree all right. He got more hugs from the hear. There was no prosecution. The original licensed capacity was 4091 kilo litres; it was given an expansion to 15,000 Kls and another is coming half way, to

25,000 kilolitres.

Another gentleman Mr. Raunaq Singh is supplying a lot of components and motor parts, I am told. I am also told that his firm was black-listed for misdeeds and serious and heinous economic offences connected with blackmarketing of steel. Is it a fact—I ask Mr. Subramaniam—that this gentleman's house was raided in September 1972 and they found Rs. 17 lakhs? Is it also a fact that this person has been given a loan of Rs. 1.5 crores for his industry? He is one of the directors. Kapadias have been pressurised, their National Rayon. Mr. Saran has a licence for tractor plant being put in pratapgarh. A letter of intent has been made; but he has not bought the land for the factory yet. You give a little and take a little; there is nothing wrong in that. There is also collaboration in scooter.

We want to know the qualifications of the managing director, theoretically and practically; the terms of remuneration and other conditions of appointment. How is it that it has been possible? He declared that he had no money, only Rs. 748. Is it a fact that the licence—the letter of intent is more than a licence—is being really sold to these big tycoons because how can one with Rs. 748 start a project of Rs. 17 crores. It is magic. We think and talk about an All India car and no import. The components suppliers are given the actual users' licences to bring things and make the components assembled here.

Among the shareholders there are some very brilliant people. Mr. Tulshan, every body and Mr. Lalit Mishra knows him, how much money he has made. Sudarsan Chit Funds—against whom the CBI enquiry is going on... (Interruptions) He is a chit and cheat, as he says. Imported machinery has been brought, valued at Rs. 60 lakhs. We want the Government to give the report... (Interruptions) whether the

Czechoslovak machinery was imported. The misuse of the office of the Prime Minister is a very serious matter. Telephone calls went everywhere. I do not want to name Shri Yashpal Kapur or Shri Dhavan. Steel to the extent of 6000 tonnes was given. A telex messages were sent to Hindustan Steel yards: despatch all your stocks to Gurgaon. 6,000 tonnes—a part of that found its way into the blackmarket. Ramnaq Singh is very good at that. An electric sub-station has been created there. I have got a beautiful photostat of this Maruti Sub-station.

If all this happened because Shrimati Indira Gandhi wanted it to happen, she should resign, because it is a clear case of corruption and nepotism and a shame on the whole country.

MR. SPEAKER: Motion moved:

"That this House notes with disappointment the policy of the Government in regard to manufacture of car."

SHRI AMRIT NAHATA (Barmer): Sir, Mr. Bosu has raised certain issues relating to the car policy of the Government of India and certain issues relating to Maruti I would like to answer both aspects. First I will take the car policy.

I am told no definite car policy has yet been evolved. But from whatever I have been able together from various debates and discussions held in this House, I can say that a study was first made by a planning commission group on machine industries to assess the total requirements of cars in India.

14.12 hrs.

[MR. DEPUTY-SPEAKER in the Chair]

This committee came to the conclusion that our total requirement in

1979-80 would be 1.34 lakh numbers of cars. As against this, the actual production today is only 32,644. There is a wide gap between production and demand to the extent of 1 lakh numbers.

This estimate of one lakh additional cars is based on the present prevalent price. If the car is made available at a lower price, naturally the demand will go up. I can safely say that by 1979-80 the total demand would be 1.50 lakhs. The question is how to bridge this gap.

Mr. Bosu says, not in so many words but by implication, that a low price car should be manufactured in the public sector. For years together the Planning Commission and the Government of India went into this and at one stage, Mr. Dinesh Singh, the then Industries Minister, told the House that virtually a decision has been taken to start a low price car project in the public sector. Negotiations were held with foreign consultants for foreign collaboration. The final picture that emerged was, firstly, if the Government set up a public sector car project, they will have to go in for foreign consultancy and foreign collaboration and the total investment required would be Rs. 57 crores. This is the crux of the problem. Do we develop indigenous technology in automobile industry or do we depend upon foreign collaboration? Do we invest Rs. 57 crores from the public exchequer sacrificing other important national priorities or do we leave this important sector of industrial development to some entrepreneurs in the private sector? A balance had to be struck. I am sure Mr. Bosu's intention is not that we do not want cars at all. The history of economic development of other affluent countries tells us that development of automobile technology is essential for the general economic growth. Take Japan, Italy, England, America or France. Automobile technology supports many other technologies in various spheres. It encourages a number of ancillary

[Shri Amrit Nahata]

industries and subsidiary industries. This is an established Act.

If indigenous automobile technology is to be developed, the question is whether it should be developed in the public sector or the private sector. If it is to be developed in the private sector by big monopoly houses, no progressive democratic country would tolerate or accept it. At the same time, if Rs. 57 crores from the Fifth Plan were to be allocated to a car project, I would be the first to object to it. When people are thirsting for drops of water, when we need pipelines, tube-wells, tractors and transport buses, if the Government or the Planning Commission were to allocate Rs. 57 crores for a car project in the public sector, I would not consider it an appropriate national priority. Therefore, a balance has to be struck. So, the government decided that if some Indians came forward, some new entrepreneurs came forward with a project for the manufacture of low-priced car, they would be welcome. But the conditions were that no foreign collaboration would be allowed and no foreign consultancy or import of machinery or capital goods or even parts would be allowed. Under these conditions, if we attain self-reliance in the very desirable sector of automobile technology, what is wrong about it? No conscientious person can take objection to this car policy.

Having decided on this policy, attempts were made to encourage people in the private sector to manufacture cars at a low price. Eleven letters of intent were issued. I have before me a list of those names. If these 11 parties to whom letters of intent were issued, if the proposals which they have come up with fructify, we will have an installed capacity of 1.56 lakhs cars. We can safely say that if all these 11 parties were to start manufacturing car, within three or four years, or by 1980 we would have a production of about 1 lakh cars,

against a demand of two lakhs cars. We would still be below the requirements of the country. Therefore, the intention of the Government was to encourage all these 11 entrepreneurs from different parts of the country, not Maruti alone, to manufacture small cars. None of them is a monopoly house or a big industrial house. They are new entrepreneurs in the field, spread all over the length and breadth of the country. I would request the government to give assistance to all these 11 entrepreneurs to come forward and start manufacture of cars, which would be in the national interest.

It was said that extension of time was given to Messers. Maruti Limited. Shri Jyotirmoy Bosu is an expert in high-lighting one particular fact and blacking out others. Extension has been granted not only to Maruti Limited but also to Shri Madan Mohan Rao, Shri Thacker, Messrs. Allied Engineering Corporation and others. Extension has been granted to all these applicants who have been issued letter of intent. If the Government are convinced that the parties are facing some difficulties, their expectations have not materialised and they want more time, Government must give extension of time. In fact, they must extend all help so that these small entrepreneurs can come forward and start manufacturing cars.

Coming to the acquisition of land, Shri Jyotirmoy Bosu paints a picture as if, had the project been in the public sector, it would have been built in the air. Even if the project is in the public sector for manufacturing cars, land will have to be acquired in some part of the country.

Now, the question is, for this particular land that was acquired by Haryana Government, the price that has been paid by the Maruti Ltd. is Rs. 11,776.32 p. per acre. Mr. Jyotirmoy Bosu says that the price of land there is about Rs. 80,000 per acre. Probably,

he is thinking of the locality in Calcutta where he himself has a huge posh building; probably, he is thinking of that particular land. Nobody by any stretch of imagination could say that the price of this land is Rs. 60,000 per acre.

There are legal processes. The people from whom lands have been acquired have legal avenues open to them. Some of them have raised legal objections. Appeals lie with Sessions' court; appeals will go there. There are further avenues of appeals. All the legal avenues are open to them. If some injustice has been done, if the price that has been paid is lower than the actual price, these land-owners, whose lands have been acquired have all the legal opportunities available to them to ventilate their grievances and to seek justice.

In the agreement with the Maruti Ltd., there is a provision that if after appeals the prices of these lands are raised they will have to pay additional prices; if some compensations are to be paid, they will have to pay for compensations; if any additional expenses are to be incurred by the Government, they will have to meet those expenses. All legal precautions have been taken. No legal provision has been flouted anywhere to show that an iota of favouritism or nepotism was shown to the Maruti Ltd. in the matter of acquisition of land.

Any person with an iota of commonsense would think, where the Prime Minister's son is involved, and even commonsense would dictate that he would take all precautions to see that no finger could be raised against him to show this favour or that favour. I am convinced that where even the requirements of law were to be, say, Rs. 7000 or Rs. 8000, Mr. Sanjay would see to it that it does not matter whether Rs. 1000 more is paid, but nobody in the future could say that the Prime Minister's son was involv-

ed in robbing the peasantry of their land. This is commonsense. I can assure you that the prices paid for this land are very reasonable and on the liberal side, not on the low side.

The lands have been acquired for allocation to various other industrial projects by Haryana Government in Gurgaon, Faridabad, Sonapat and at other places. Those lands acquired have been given to various small and big industrial houses. Mr. Jyotirmoy Bosu was very discreet in missing this thing. No industrial house has been allocated land at a price higher than this. All other allocations have been made at prices lower than this. The price charged from the Maruti Ltd. is the highest. I can with all emphasis, with confidence and authority, that no favour whatsoever has been shown to the Maruti Ltd.

I have a list of lands that have been acquired and allocated to Shri R. K. Verma, M/s. Associated Engineers, M/s Rochwald Electrodes, M/s Azad Rubber (P) Ltd., Shri Man Singh Patheza, M/s Kejriwal Enterprises, M/s Hada Tools Ltd., Shri Kundan Mal Dabriwala and M/s Wattsan Paper Board Factory.

They have all been allocated lands after acquiring lands and the prices charged from them are not higher than the prices charged from the Maruti Ltd. This shows that no favour has been shown to the Maruti Ltd., in connection with the acquisition of land and allocation of land.

Mr. Jyotirmoy Bosu has become an expert in replacing serious politics by gimmicks, by cheap sensation-mongering, by mud-slinging and character assassination. He thinks if he slings mud after mud, some will stick and his purpose will be served. No person with any serious political bent of mind will take to such gimmicks seriously. During all these years, in this very House, in the Third Lok Sabha and in the Fourth Lok Sabha,

[Shri Amrit Nahata]

many a time discussions have been raised about the small car.

Almost the entire Opposition parties had been demanding small car. Their accusation was, their charge was, that the Government of India was not going in for the production of small car because the Government was defending Birlas, because this Government was defending the three motor-car manufacturing companies—Fiat, Standard and Ambassador, I have the records with me; I have seen all the debates in the House. I find that the CPM never raised this question; no member of the CPM raised a finger demanding production of small car. (Interuption). All other parties accused this Government of sheltering the three big car manufacturers and that is why, they said, that Government was not allowing production of small cars. Now, when the small car is coming—not in the monopoly houses, not by any big business house, not by one person but by eleven parties—some people come forward and say, “Why are you producing small car? Who would be interested in the small car?” When the CPM was the ruling party, did they not offer all the concessions to the Birla House to come and set up industries in Kerala? In West Bengal, it is known, when CPM was the leading Party in the U. F. Government, there used to be gheraos, there used to be strikes, there used to be violence in almost all industries except in Birla industries. May I now conclude that the leader of the same CPM today is voicing the demands and sentiments of Birlas when he is opposing the small car project? Let there be political honesty, let there be some political fairness, I personally have every reason to believe that it is on the dictates of big business houses that the CPM is raising this bogie and indulging in futile attempts at character assassination and at political vindictiveness. This is no serious politics. The country needs technology in the automobile sphere, the country needs this not in the public sector,

nor in the monopoly sector. He was asking what experience does Mr. Sanjay Gandhi have. What experience did Karl Marx have? What experience did Mr. Ford have? Here is a young man who wants to do something for the country, who wants to give some wealth to this country, who wants to gather some experts and technologists and wants to see, if Italy can have a beautiful small car, if France can have a beautiful car, if West Germany can have a beautiful small car, why can India not have a good small car at a low price crawling on the road, why can India also not develop a large number of ancillary industries, a large number of subsidiary industries which would feed this car project thereby releasing a chain of development of small scale industries. He said that Mr. Sanjay had only a small bank balance. Do I understand that only big monopolists must be allowed to set up industries? Do I understand what Mr. Jyotirmoy Bosu meant was that only rich men should be allowed to set up industries? Can ordinary man, can poor people, not have the enterprise, the talent and the initiative and the guts to come forward and start industries in this country?

I would now conclude by saying that the attempts of Mr. Jyotirmoy Bosu to swing mud are futile. The country will not be taken in by such gimmicry. It is not a serious matter by any standard.

In the other House, in the Rajya Sabha, the Opposition parties said that financial favours had been shown. He named two banks but did not give the figures. I have the figures with me. The total advances made by the Punjab National Bank are Rs. 14.62 lakhs and by the Central Bank of India, Rs. 11.51 lakhs. The total advances to this industry by the two nationalised banks are Rs. 26.13 lakhs. Are the nationalised banks prevented from advancing even such small amounts to a promising industry? What is wrong about it? No advances, no monies have been advanced. No

credit has been advanced to Maruti Ltd. either by IDBI, or IFC or ICICI. No public financing institution has yet—though personally I am not opposed to it, I will not mind if public institutions were to come forward and help not only Maruti Ltd. but all the eleven private parties who want to manufacture these small cars—has advanced a single paisa to Maruti Ltd. Only two nationalised banks have advanced loans totalling Rs. 26 lakhs to this project which is very legitimate and which is the duty of these nationalised banks.

Thank you, Sir.

SHRI S. M. BANERJEE (Kanpur): Every time this country wanted to have a small car, they only had a small discussion or a big discussion in this House, and not a car.

It is known to the hon. Members how the prices of cars were increased from time to time. The Ambassador, before the prices were fixed on the basis of the Tariff Commission's Report—cost ex-factory Rs. 9845, in December 1968 its price was Rs. 14892 and finally the price is Rs. 16,898. Fiat—Rs. 8847 and it rose to Rs. 16,117. Standard—Rs. 9450 and it went up to Rs. 16,539. So, naturally, we demanded in this House, after the Supreme Court's judgment supporting the increase in the prices of these cars, that some of these companies, some of these the automobile companies projects should be taken over by the Government. I remember the occasion when practically all the Members of the House, irrespective of their political affiliation, wanted to have a discussion and demanded nationalisation or take-over of the Hindustan Motors headed by the Birlas. Shri Moinul Haque Choudhary, the then Industrial Development Minister, said that he was prepared to consider take-over of the Fiat project but he was against the Hindustan Motors because it was a junk. Exactly he used the word 'junk' and my hon. friend, Shri Dinen Bhattacharyya, who is one of the labour leaders of

that particular project said, 'Why not take over the junk? If so many cars can be produced there, why not take it over?' and every time we have been demanding nationalisation of these projects but the Government was always pressurised by these big monopoly houses headed by the Birlas and they could never take the courage either to nationalise or take over these projects or to have a small car project in the public sector.

I could never see and I am still of the opinion that production of people's car or any passenger car should not be given so much of priority, because, in a country like ours where there is little difference between unemployment and starvation, we want more buses, we want more trucks, we want more lorries, we want more tractors and scooters. This is exactly what the country needs. But, we have been talking and in a statement even on the 15th March, 1972 in this House, the Minister said:

"Government have decided in principle to set up a unit in the public sector for the manufacture of a passenger car of a proven foreign design for an initial capacity of 50,000 cars per annum. In addition 5 units have been granted letters of intent for industrial licence and three for registration for manufacture of passenger cars in the private sector."

This statement was made on 15th March, 1972. Then, what happened? Immediately, they started negotiations and then I read from the press reports that the Cabinet body clears the Renault's project of R-6 for a small car.

The report says that the Economic Co-ordination Committee of the Cabinet has approved the selection of the car for the public sector small car project. The choice, it says, had been narrowed down last year to four

[Shri S. M. Banerjee]

models—Renault, Fiat 124, Ford and Datsun and of these the Ministry of Industrial Development decided after detailed examination that Renault would be the best choice.

I do not know what happened to that. We knew that public sector unit is not going to be established. Then comes the story of private sector entering into this industry once again and Maruthi Limited is one of those private sector units. I shall come to that, a little later.

My first question is this. Why did the Government allow increases so much when the cost of production according to our calculations is far less? You may take the price of the car whether it is Ambassador or Fiat or Standard. You may compare it with the quality of the car. You would find that the price could be reduced considerably. What is the quality of the car produced in the country? We could not take a decision on a car at a cheaper rate, reducing the overhead charges, etc. We might be importing technical know how; we might have foreign collaboration etc. We might have evolved such a car, but we have never done that. The Hindustan Aeronautics Limited once decided to have a small car. I hope this was also on the way, of being manufactured. A model car was also manufactured. But it was not proceeded upon. The green signal was not given to that. Their entire judgment was coloured. They were always pressurised by the big business houses and they never allowed them to produce another car in this country except these three models of cars which are being produced.

Even today, I would like to mention, a man has to wait for 1½ years to get an Ambassador, about 5 years to get a Fiat; and if he wants within 2 or 3 months, he can go for a Herald car.

I do not know why this should be the position, even after an assurance was given in this House, I remember,

by the then hon. Minister of Industrial Development, Shri Moinul Haque Chaudhury. He said that the Supreme Court judgment regarding price will be considered objectively and the Government might not regard it as the whole thing, it might even change its decision or might not accept it and might not agree fully to price rise etc., but ultimately, Sir, price was raised. So, I accuse this Government, for having no policy and for conniving with the big monopolists, especially with Birlas, and for not having their own project.

Then the question arises: What about the charges brought by my friend Mr. Jyotirmoy Bosu? Some of the charges have been replied to by Mr. Amrit Nahata. I do not consider Mr. Amrit Nahata to be the Minister. Certain charges regarding the land are extremely serious; there is no doubt about that. I know land in Haryana is supposed to be the best land. What is the present rate? What is the present market rate or an acre of land? You might remember the judgment of the Supreme Court in the case of Ram Rattan Gupta Vs. R. L. Arora. After that the Land Acquisition Act was amended and it was amended on the basis of the Supreme Court judgment. It said they should not be deprived of their legitimate dues and they should be paid full value. Mr. Nahata says all the other individuals paid less, M/s. Maruthi Ltd. paid more. Sir, I welcome it if it is so. I have nothing against Sanjay Gandhi. Somebody's son will have to manufacture the car, whether it is Prime Minister's son or my son or somebody else's son. Simply because he happens to be the Prime Minister's son, you should not take exception to it.

I was extremely happy to see Mr. Rajiv Gandhi working as a pilot in I.A.C. When some of his colleagues wanted him to present something to the Prime Minister, he said: "I am working here as a pilot in I.A.C."

because of my qualifications and not because I am Prime Minister's son. That is why I have been given this job."

It is a good thing. But in this particular case, certain charges are grave. Either the Government must refute those charges effectively and convincingly, or else these should be properly investigated. That is my submission. Government must tell us what the future policy in regard to manufacture of cars is going to be, whether these car projects, whether held by Birlas or Walchands and others are going to be taken over or not. For, I would warn them that if they do not take them over, and if these charges are proved incorrect, and if Shri Sanjay Gandhi wants to manufacture a car at Rs. 11,000—I have seen that car in the Haryana pavilion; I am not an expert, but it seems to be a very good car, and if a car can be sold at Rs. 11,000 or Rs. 12,000, any Indian would welcome it—then again there will be a Birla lobbying, and they will never allow even Shri Sanjay Gandhi to manufacture this car. I know it. When Shri V. K. Krishna Menon was the Defence Minister he was constantly bullied by the Mercedes-Benz and by the Tatas for saying that they were charging very high prices for their trucks, and he decided to have the trucks manufactured in the defence industry sector, in the Gun and Carriage Factory at Jabalpur. When the Shaktiman truck was being produced there with the help of German collaboration, there were articles after articles saying that that truck was useless and that in the Shaktiman truck there would be no shakti. But after some time, it was proved in 1965 and it was proved this time also that the Shaktiman trucks produced in the Gun and Carriage Factory at Jabalpur were better than the trucks produced by Tatas and Mercedes-Benz.

I only say that all charges should be investigated. But I would request

my hon. friends that merely because Shri Sanjay Gandhi happens to be Shrimati Indira Gandhi's son, and he has taken up this challenge and he is trying to manufacture this car, he should not be a victim in this. For, I know, whether it is Shrimati Indira Gandhi's son or it may even be Shri Jyotirmoy Bosu's son, if he wants to manufacture a car, it would definitely be opposed by the Birlas, because they do not want anyone else to be in the field, and they want to have the monopoly to sell all their junks.

I say that investigation should be held and the charges should be countered, and the charges should be properly replied to. But while doing so, we should also see that a particular policy is followed by Government, a national policy regarding manufacture of cars, a national policy regarding manufacture of buses, the manufacture of trucks and the manufacture of scooters, and it should not be left in the hands of private individuals and it should be taken over from the Birlas or Tatas.

I am saying this because I have the sad experience of the defence industries. I know how the Tatas bullied the Defence Ministry. But when we have succeeded in manufacturing the Shaktiman and the Nissan, how is it that we shall not succeed in manufacturing a car in the public sector?

I have another suggestion also. At present, the prices are going up. An assurance was given in the House that after the Supreme Court judgment, it will be considered objectively before prices are allowed to rise. I would like to know why the prices should have been increased. The prices should be reduced. But we find that every day the prices are going up. The representatives of the car manufacturers and the automobile industries should be called by the hon. Minister and clearly told, that unless they reduced the prices of cars, Government are going to

[Shri S. M. Banerjee]

nationalise them or take them over. Once we take a decision that the automobile industry will be in the hands of the public, then, whether it be in the hands of the Birlas or the Tatas or anyone else including Shri Sanjay Gandhi, it will all be taken over by the Government.

There was one thing at which I felt amazed, and that was when it was said that somebody was not qualified. There is no question of being qualified here. The question is of initiative. If somebody has dash and initiative, why should we harp only on qualification? If it were only a question of qualifications, how many of us would have been elected to this House? It is a question of initiative. I appreciate the initiative of the person. But the question is: with whom is he connection? As for Shri Raunaq Singh, till 1962 he had only one repair shop. Today he has the Bharat Tubes. I do not know through how many places the tube passes and where it is going to end.

I have nothing against Shri Mohan. But when he fought election against Shri Mulla in Lucknow, I used to say in Hindi:

अगर देशो शराब बनाओगे तो जलबाने
जाओगे अगर अंग्रेजी शराब बनाओगे तो
लोक सभा का टिकट मिलेगा ।

I have nothing against him. He is a clever man, he is a very good person. But I warn my younger brother or son, Sanjay Gandhi, that he should not take these people too seriously. He should select better persons. I have, as I said, nothing against Shri Mohan. As for Shri Raunaq Singh, I am definite that after becoming a Director of Maruti, within three or four years he would have so many expansion licences.

With these words, I once again request Government to declare their policy and nationalise all the automobile industry projects, whether it is of the Birlas or others.

SHRI N. K. P. SALVE (Betul): With rapt attention, I listened to Shri Jyotirmoy Bosu, the Mover of the Motion. He arrogated to himself certain rights and certain prerogatives as a Marxist and thereby he claimed certain rights to demand a certain radicalism in the economic policies of Government. Into the merits of this claim, I shall not go, for this is not the occasion. But I must submit that I was very deeply disappointed with his speech as one which would hardly be fit a Marxist. If he has not exiled himself completely from the philosophy of Karel Marx and if he is still possessed of objectivity, I must submit that his speech, to my mind, appeared a little too lopsided, and I regret I found in that speech a certain contradiction, a certain credibility gap in his known political precepts and in the demands he has put forward today before Government in respect of its policy for the manufacture of cars.

I shall come to it straightway. The first point which has disappointed me tremendously is this. Is not Shri Jyotirmoy Bosu as much aware as I am that the present manufacturers, the Birlas' Hindustan Motors, Walchand's Premier Automobiles and the Standard Motor people are manufacturing terribly ramshackle tinpots? They are exploiting the country.

SHRI JYOTIRMOY BOSU: Under whose protection? (Interruptions).

SHRI N. K. P. SALVE: Shri Jyotirmoy Bosu is a great friend of mine. I do not want to hurt him—he is a greater gentleman outside the Chamber. I do not want to answer him. But I would like to submit it to him through you that if his speech has afforded protection to them, is he

willing to withdraw all that he has said? If the Government had been criticised for not taking effective action against these three unscrupulous exploiters. If they have been manufacturing such cars which as soon as you buy, either the piston goes out of order or the cars start rattling, and the only part which makes noise is the silencer.....

SHRI JYOTIRMOY BOSU: Horn.

SHRI N. K. P. SALVE: I am unable to understand. And under these circumstances, instead of Mr. Jyotirmoy Bosu, while on this very important issue, asking the Government "Why don't you nationalise", he may ask, Why don't you take over the assets of these three manufacturers without paying a single rupee as compensation to them and provide a cheap car to us because then there would be no depreciation charged?" (*Interruption*).

SHRI SHYAMNANDAN MISHRA (Begusarai): You make a proposal and we shall support it. Bring forward a resolution on this subject. (*Interruption*).

SHRI N. K. P. SALVE: My learned friends will hold their patience.

SHRI SHYAMNANDAN MISHRA: What is this cheap thing being mouthed?

SHRI N. K. P. SALVE: Mr. Mishra, it does not lie in your mouth to call this cheap. When your leader was subjected to this type of humiliation, we were the people who came out. You are indulging in cheap political gimmickry. You are a person without any background. You are a person without any political honesty. What happened when Morarjibhai was defended? (*Interruption*). Because of his son the opposition parties unfairly tried to malign him.

SHRI SHYAMNANDAN MISHRA: You are a person who can never be even a volunteer. (*Interruption*).

SHRI N. K. P. SALVE: Don't try to settle accounts in this manner. You sit down. This is political banditry. I am not yielding. You are not honest.

MR. DEPUTY-SPEAKER: Order, order.

SHRI N. K. P. SALVE: So far as Shri Morarji Desai is concerned, there is one standard. So far as Mrs. Indira Gandhi is concerned, are the standards going to be entirely different? (*Interruption*).

MR. DEPUTY-SPEAKER: I would like to say that it has nothing to do with the car.

SHRI SHYAMNANDAN MISHRA: Sitting on these benches, even your bosses have not got the political background which I have got. You are without any political background.

SHRI N. K. P. SALVE: Mr. Mishra will do well to hold his patience for a while.

MR. DEPUTY-SPEAKER: That is enough. Both have given and taken Leave Mr. Mishra alone and come to the car.

SHRI N. K. P. SALVE: One expects a slightly better standard from those who are considered educated, refined and decent.

MR. DEPUTY-SPEAKER: Come to the point now.

SHRI N. K. P. SALVE: If I am a little disappointed, it is just because of this, that this is a spectacle of political gimmickry. We have been saying everytime, time after time, on an important issue like this, that the matter should have been confined to this aspect; what is being done by the Government to ensure a reasonable price and quality? The prices of the existing cars which we are using—Standard car, Ambassador car and Fiat—on the one side are going high and high, and on the other side, their quality is deteriorating.

SHRI JYOTIRMAY BOSU: Because of the political donations they are made like that. Give and take. (*Interruption*).

SHRI N. K. P. SALVE: This is extremely a cheap political mudslinging. The accounts cannot be settled in this manner. If one is serious about the matter, if Mr. Jyotirmoy Bosu is willing to listen to my viewpoints in this matter—maybe he may not agree with me as much as I do not agree with him, but let us at least try to understand each other—may I say that the three companies, Premier Automobiles, Hindustan Motors and Standard Motors, need to be nationalised without a penny of compensation. I mean it; it is a very serious suggestion I give to the Government. Because, unless that is done, the ruthless exploitation, in the hands of these three unscrupulous manufacturers, of the people who are exploited because of the shell red market, will not come to an end.

But we really expected Mr. Jyotirmoy to highlight this point and say, "This you will do first, and thereafter we will examine the other matters." Mr. Jyotirmoy has said that the Government is to be blamed because instead of taking the plant to the public sector these things have been given to the private sector. The matter has to be viewed in its historical perspective to which I shall come. But may I now deal with one or two points which he made?

He spoke about the evicted agriculturists. He shed tears for them, that those men, these indigent poor men should have been evicted from their land, should have been deprived of the source of their livelihood. It appears to me: are the people in Haryana the only people who have been evicted because of industrialisation? Have these protests not arisen everywhere where land has been taken? I come from an area which is an Adivasi area, where barren land has been acquired by Government for industrial purposes. There also vehement protests

have been going on. Unless we decided as a policy that we are not going to acquire land for an industrial area it will be impossible to get over this. Why shed those tears which he shed—crocodile tears? I cannot understand where we are going to put up our industries without acquiring land. If we are going to acquire land, the whole lot of agriculture land, some people will have to be affected. What is required is to ensure justice. Shri Nahata has dealt with that point. Just because the Prime Minister's son is involved, these poor people must not be put to any disadvantage. If they had been put to any disadvantage, the officers who indulged in this type of thing should be brought to book. I was hoping that instead of indulging in general, vague, equivocal allegations, he would point out that some particular officer, this or that officer, did not do the proper thing and should be brought to book.

Something was said about the Land Acquisition Act. Under this Act land was allotted—he said, in an extremely casual manner. He used the word 'concorde speed'. I submit the Land Acquisition Act was not enacted, was not brought on the statute book only for the benefit of Sanjay Gandhi; that has been there for so many years and under that Act so many proceedings have been taken. I ask: is he aware of the fact? Has there been a single acquisition under this Act which has not been the subject matter of an appeal before a Sessions Judge or a revenue tribunal? I know that 27 cases are pending in U. P. for land having been acquired.... (*Interruptions*).

SHRI PILOO MODY: In this case it has taken only 22 hours as he pointed out. The Government of Maharashtra had been struggling; out of 2700 acres that they were supposed to acquire they have acquired after four years only 129 acres but this was acquired—400 acres—in 24 hours.

SHRI N. K. P. SALVE: In saying about the land acquisition, Mr. Piloo Mody has an advantage; he is totally ignorant about the law and procedure I know something about it because I have been dealing with it in my professional capacity . . .

SHRI PILOO MODY: On behalf of Birlas, Dalmias, Singhanias.

AN HON. MEMBER: . . . And the Modys.... (*Interruptions*).

SHRI N. K. P. SALVE: I only wish to submit this. It is not that there are no cases of harassment. There have been cases where officers purporting to act in a quasi judicial or judicial capacity have acted in an extremely, arbitrary manner. But there is an appeal provided; there is the judiciary. I am sure that there have been appeals filed by several people in the Courts and those appeals are pending and as and when those appeals are decided the solatium—the term used in that Act—is increased and enhanced and that burden will be passed on to those who have been given the land, whose names Mr. Nahata read. What is wrong? He has not made a single point that the whole Act was outside the purview of the law. The only thing that he said was that in so many minutes, so many decisions were taken. Maybe, I do not know. Since he says so, it may be right. What I ask is this. Does it mean that the procedures prescribed in the law make a mockery of justice? There is an appeal available and they can go. Has he lost faith in the judiciary?

At any rate it was very interesting for me to know that here is a marxist Member, who is now canvassing that market value must be paid to everybody. I hope he will stick to that view.

SHRI PILOO MODY: I hope you vote for it. May I remind you that you voted against it?

SHRI N. K. P. SALVE: I come to the next point Bank loans. I happen to appraise myself about the financial state of affairs of the Maruti Limited as on 19th December, 1972. I had appraised myself about the magnificent performance of the Maruti Limited. I really wish if it was the son of Mr. Jyotirmoy Bosu, I would have patted his back and possibly whispered into his ear; how did you manage to produce such a worthy son? Because I find from the accounts, I have examined very carefully, the loans taken from the Bank aggregate to Rs. 26.13 lakhs, they are all secured loan, against land, buildings, machinery, equipment etc.

15.00 hrs.

Though another company was also given a letter of intent to make a prototype, this is the one company which has made very substantial progress. I have myself seen this car in the Haryana pavilion. It looked magnificent. Sir, he called him a man of straw. Is this a country where only the money bags and their sons are going to manufacture cars? No. This a country where any man of talent and ability would be able to make his mark. Gone are the days when people should think that they are born in a privileged class and therefore it is their prerogative to go into industry. Any engineer, any able man who is capable of harnessing the various ingredients necessary to make a success of an industry and who has the technical knowledge will have the fullest opportunity in this country. It was a very unfortunate comment that he is a man of straw. The history of great men who have been greatest champions of industry shows that they had commenced from a modest beginning, with sustained patience and perseverance, with dedication and honesty, reached the dizzy heights of glory. I hope that the Sanjay Gandhis in this country who work like this will reach these heights despite obstructionists in this country.

Last but not least I want to give the historical perspective and submit

[Shri N. K. P. Salve]

how very rational their policy has been in giving this industry to the private sector. I am going to show cost-wise how in terms of foreign exchange and otherwise, this proposal is far superior to the proposal they were considering for collaboration with Renaults for the Dolphin Motors. Criticism has been levelled against the Directors. It has been happening far too often that personal criticisms are there. Their deeds and misdeeds are narrated here. I do not say they are paragons of virtue. Most of them I do not know; some I do know. If the issue really is Government's policy regarding the manufacture of cars, has it direct nexus with the personal character of the directors? If he is serious about telling Mr. Subramaniam as to what he needs to do to improve the car policy, how these people are in Birla's company or in Walchand's company is not his business. We have laid down certain criteria in the company law and other laws and it must be according to those laws. If the directors have been shown some undue favours in this matter, that can be separately dealt with. But to link it up with this policy is very highly loaded.

Coming to the historical perspective, we have to start with the Jha Committee. Mr. Nahata has gone into it. He said, there cannot be a car within Rs. 5000 to 7000 and demand is always outstripping production. He suggested an expert committee. So, the Pande Committee was set up and they made some recommendations.

The salient feature of the report way back in 1961 was that we could have a plant in the public sector for manufacturing 50,000 cars at a cost of Rs. 5,100 and at a cost of Rs. 6,150 when the capacity is only 20,000. Because so much of foreign exchange was involved, the matter was very rightly shelved and deferred. Keeping our socio-economic priorities in view, how can we give priority to cars? There are ever so many other things which we have to look after.

At any rate, in 1966 the government explored the possibility of manufacturing low cost car indigenously, in the private sector, without foreign collaboration, without any foreign exchange for import of components. Four conditions were imposed which were applicable to all parties. First a proto-type has to be made which would be subjected to rigorous test at the Ahmednagar institute. Only after the test of the proto-type is over that the letter of intent would be issued. What can be more rational?

Here is a project for the manufacture of 50,000 cars per year, and the total cost up to 1975, as projected, is expected to be in the vicinity of Rs. 16.82 crores, as against Rs. 56 crores to manufacture Dolphin car in collaboration with French Renault. Here is a project costing Rs. 16.82 crores of only Indian rupees without any foreign exchange, as compared to Rs. 56 crores of foreign exchange for the Renault project for a capacity of 50,000. Anyone who has a sense of justice, a sense of fairplay, anyone who is not suffering from cynicism, would appreciate the rationale of this and would not criticise as unfair the issue of the letter of intent in this case.

In the end, I do not personally know Shri Sanjay Gandhi. But I have known many Sanjay Gandhis in my capacity as a member of this august House and in my professional capacity. I had occasion to know the problems which concern these young talented entrepreneurs who have the highest of devotion and dedication to their plant, medium and small-scale entrepreneurs, who are faced with problems connected with modern technology, financial stringency, perennial shortages, inadequate infra-structure and insufficient foreign exchange, and I have every hope that they will surmount all those problems. I know that many of them are harassed and maligned by different vested interests for different purposes. A small man of small mind would harass these

people with petty matters like electric power and innumerable other things. I say once again that small men of small mind have maligned a young entrepreneur for no other fault except that he happens to be the son of a leader, whose dynamic leadership has made them lick the dust of political ignominy. This is no fault of the young man. He must go ahead, undaunted by the meaningless nonsense

SHRI JYOTIRMOY BOSU: Sir, on a point of order. I want to know whether a member can read from a written text.

MR. DEPUTY-SPEAKER: There is no point of order.

SHRI N. K. P. SALVE: I humbly hope that the Sanjay Gandhis of this country will go undaunted by such harassment of small men with small minds. We wish the Sanjay Gandhis of this country the best of luck and godspeed and assure them that the best wishes and blessings of the entire nation are with them.

श्री अटल बिहारी वाजपेयी (ग्वालियर):
उपाध्यक्ष जी, सरकार की कार सम्बन्धी नीति पर विचार करते समय हमें इस बात को सोचना होगा कि आखिर औद्योगिक उत्पादन के क्षेत्र में सरकार की प्राथमिकताएँ क्या होनी चाहिए। पहले चर्चा चली थी कि छोटी कार पब्लिक सेक्टर में बने लेकिन योजना आयोग ने, जब डा० गाडगिल उसके उपाध्यक्ष थे, उसे उचित नहीं बताया। बाद में प्राइवेट सेक्टर में छोटी कारें बनाने का फैसला कर लिया गया। खुद औद्योगिक विकास मंत्री ने कुछ दिन पहले कहा था कि

हम देश के साधनों को चूँकि साधन सीमित हैं, छोटी कार बनाने पर खर्च नहीं कर सकते इसलिए छोटी कार पब्लिक सेक्टर में नहीं बनेगी, प्राइवेट सेक्टर में बन सकती है। क्या देश के साधनों के बारे में इस तरह का दृष्टिकोण अपनाना सही है? सवाल यह है क्या आज देश को कार की आवश्यकता है? यहां पर मेरा सरकार से बुनियादी मतभेद है। हम वैभव और विलास की वस्तुओं का उत्पादन बढ़ाते जा रहे हैं जबकि 30 करोड़ लोग गरीबी के स्तर से भी नीचे का जीवन बिता रहे हैं। यह बात अगर सरकार कहे कि हम प्राइवेट सेक्टर में कार बनने दे रहे हैं, पब्लिक सेक्टर में बनने नहीं दे रहे हैं तो यह भी कोई आधिक नियोजन की पूरी तस्वीर सामने रखकर चलने का तरीका नहीं है। आखिर में एक नेशनल फैक्टर है, साधन हमारे पास मर्यादित हैं उन साधनों का उपयोग किस बात के लिए किया जायें? अभी चार करोड़ रुपये की एक वाच फैक्टरी का उद्घाटन किया गया है जो आटोमेटिक वाच बनायेगी। बम्बई-पूना में टेलिविजन लगाया गया है जिस पर 75 करोड़ रु० खर्च होगा। . . . (व्यवधान) . . . बम्बई-पूना टी० वी० का उद्घाटन किया गया है और उस कामप्लेक्स को विकसित करने के लिए 75 करोड़ नहीं सौ करोड़ रुपये की लागत आने की सम्भावना है।

THE MINISTER OF STATE IN THE
MINISTRY OF INFORMATION AND
BROADCASTING (SHRI I. K. GUJ-
RAL): I never like to interrupt my
hon. friend. But, I think, he gets his
figures wrongly.

MR. DEPUTY-SPEAKER: That is irrelevant.

SHRI ATAL BIHARI VAJPAYEE: That is not irrelevant.

MR. DEPUTY-SPEAKER: If you want to know how it is irrelevant, I will explain it. We are talking about the car policy. We are not talking about the television policy. That way, if you want to expand the scope of discussion, you might go into the entire economic policy of the Government. Time is very limited. I am drawing the attention of the hon. Member to it. When your remark has diverted the discussion and drawn another Minister into the discussion, that is not relevant here.

श्री अटल बिहारी वाजपेयी : मुझे बड़ा खेद है कि आप इस चर्चा को ठीक तरह से चलने देना नहीं चाहते हैं।

MR. DEPUTY-SPEAKER: But you are going into the broader economic policy matters.

श्री अटल बिहारी वाजपेयी : सवाल यह है कि हमारे नियोजन की प्राथमिकतायें क्या होनी चाहिएं। . . . (स्ववचन) . . . मैं फिर कहूंगा अभी हैदराबाद में सरकारी रेफीजरेटर फैक्टरी है जो रेफीजरेटर्स का उत्पादन दुगना कर रही है जिसको कहा गया है कि ऐयर कूलर बनाओ—क्या यह सब पब्लिक सेक्टर में नहीं हो रहा है? मैं जानना चाहता हूँ सरकार औद्योगिक विकास में देश को किस दिशा में ले जाना चाहती है। आज कौन कार खरीद सकता है? बड़ी चर्चा हो रही है छोटी कार की लेकिन मैं ने उसको देखा हरियाणा में, वह बहुत छोटी नहीं होगी। अभी जो कारें बन रही हैं वह भी

काफी छोटी हैं। अब उससे भी छोटी क्या बनेगी। अगर यह हिसाब बताया जाये कि छोटी कार 11 हजार में मिल सकती है तो 11 हजार की कार हिन्दुस्तान में कितने खरीद सकते हैं? कितने प्रतिशत लोग खरीद सकते हैं? हमारा नियोजन किन लोगों के लिए चलने वाला है? . . . (स्ववचन) . . .

जब प्राथमिकता तय करने का सवाल आयेगा तो फिर बम्बई में टेलिविजन की जरूरत होगी या गन्दी बस्तियों में रहने वालों के लिए पीने के पानी का प्रबन्ध करने की आवश्यकता होगी? अभी तक हम सब लोगों को साइकिल भी खरीदने की क्षमता नहीं दे सके हैं लेकिन हम अपने सीमित साधनों को वैभव विलास की वस्तुओं पर खर्च कर रहे हैं। उपभोग के क्षेत्र में हम आधुनिकतम देशों की श्रणी में जा रहे हैं लेकिन उत्पादन के क्षेत्र में हमारी स्थिति बड़ी दयनीय है। जो लोग अपना जीवन निर्वाह करने के लिए भोजन नहीं जुटा पाते उनके लिए कार की आवश्यकता है या आवश्यकता बुनियादी प्राथमिक जरूरतों को पूरी करने की है?

मैं आपका ध्यान दिलाना चाहता हूँ लोकसभा के चुनावों के बाद स्वयं प्रधान मंत्री जी ने कहा था, मैं उद्धृत कर रहा हूँ।

"Whatever resources are committed to luxury goods, it is not possible to convert them into commodities of mass consumption like transport or houses for the poor."

यह एफ० सी० सी० आई० का उनका भाष० है। अब इस बुनियादी पब्लिक ट्रांसपोर्ट का विकास किया जायेगा। अभी मेरे मित्र श्री चन्द्र शेखर ने, जिनकी प्रगतिशीलता में कोई सन्देह नहीं हो सकता, जो कांग्रेस वर्किंग कमेटी के मेम्बर हैं, अपने एक लेख में कहा है कि आगामी पंचवर्षीय योजना में पब्लिक ट्रांसपोर्ट के लिए 250 करोड़ रुपये रखे गये हैं लेकिन सरकारी कर्मचारियों और अपसरों को कार खरीदने के लिए कर्जा देने के लिए 280 करोड़ रुपये रखे गये हैं। क्या यह 280 करोड़ रुपया इसलिए रखा गया है . . (श्यामनाथ).. में आपको सोर्स बता रहा हूँ मंत्री उसका खंडन करें।

SHRI B. R. BHAGAT (Shahabad):
It cannot be true.

SHRI SHYAMNANDAN MISHRA:
This came out in the *Financial Express* also:

श्री अटल बिहारी वाजपेयी : आप पता लगा लीजिये।

सवाल यह है कि पब्लिक ट्रांसपोर्ट का विकास करें या कर्मचारियों को कार खरीदने के लिए कर्जा देने के लिए उससे अधिक धनराशि निश्चित करें? यदि मेरे आंकड़े गलत हैं तो मंत्री महोदय सही कर देंगे। मैं जानना चाहूंगा वह सही आंकड़े हैं या नहीं।

इस चर्चा में मारुति का काफी वर्णन हुआ है। मारुति हनुमान जी की मां का नाम है। पवनसुत के बारे में कहा जाता है वे चलते नहीं हैं उड़ते हैं या छलांग लगाते हैं। तो जो गुण पुत्र के बारे में हैं माता उनसे वंचित

नहीं हो सकती है। मारुति कार भी जिस तेजी से आगे बढ़ी है उससे लगता है हर मामले में वह छलांग लगाती है, सड़क पर नहीं चलती है। जिस गति से जमीन प्राप्त की गई, हम जानते हैं कि जमीन प्राप्त करने में कितनी कठिनाईयां होती हैं, अगर हरियाणा की सरकार किसानों के साथ धोखाधड़ी न करती, सारे नियमों को ताक पर न रख देती तो मारुति के लिए इस तरह से जमीन कभी प्राप्त नहीं हो सकती थी। जिन किसानों की जमीन ली गई है वे किसानों खुद कहते थे कि 11,000 रु० एकड़ के हिसाब से हमारी जमीन ले ली गई जबकि बगल में जमीन 40 हजार एकड़ के हिसाब से बिक रही है। उन्होंने इस आशय के एफिडेविट भी दिये हैं। हमारे साल्वे जी कहते हैं कि किसानों के लिए अदालत का दरवाजा खुला हुआ है। लेकिन क्या उन्हें मालूम है कि किसान शिकायत करते हैं कि उनको धमकियां दी जा रही हैं कि अगर अदालत का दरवाजा खटखटाओगे तो तुम्हारे लिए हमारे राज्य में रहना मुश्किल हो जायेगा?

श्री सतपाल कपूर (पटियाला) : कुछ तो अदालत गये हैं, बाकी को आप ले जाइये।

श्री अटल बिहारी वाजपेयी : कुछ गये हों या न गये हों, आप कुछ नहीं करेंगे, आप मारुति की वकालत करेंगे।

मैं यह भी कहना चाहूंगा कि केवल जमीन की प्राप्ति में धांधली का सवाल नहीं है।

एक माननीय सदस्य : आप बिड़ला जी की बात कह रहे हैं ।

श्री अटल बिहारी वाजपेयी : आप लोग बिड़ला की गोद में बैठने वाले और बिड़ला जी की कृपा से इस सदन में आने वाले, इस तरह की बातें क्यों कर रहे हैं ?

अभी यह तर्क दिया गया कि खाली मारुति को लेटर आफ इंटेंट नहीं दिया गया, और भी ले सकते हैं और कार बना सकते हैं । जब उनकी रोडवर्दीनेस प्रमाणित हो जायेगी तो उनको भी लाइसेंस मिल जायेगा । क्या मेरे मित्र श्री साल्वे को मालूम है कि एक प्राइवेट फर्म लगाता लिख रही है कि रोडवर्दीनेस की शर्तें क्या हैं, वह शर्तें उसको बतलाई जायें । लेकिन उससे कहा जा रहा है कि अभी वह शर्तें आपको नहीं बतलाई जायेंगी । पहले आप कार बनाइये, फिर हम देखेंगे कि वह हमारी शर्तें पूरी करती है या नहीं । क्या यह आपत्तिजनक नहीं है ? आप चाहते हैं कि प्राइवेट पार्टीज छोटी कार बनायें तो रोडवर्दीनेस की शर्तें घोषित कर दीजिये, फिर प्राइवेट पार्टीज उनके हिसाब से कारें बनायेंगी । मगर अभी तक रोडवर्दीनेस की शर्तें नहीं बतलाई गई हैं । कारण यह है कि शर्तें वही होंगी जो मारुति पूरी करेगी । इसी लिये शर्तों को खोला नहीं जा रहा है । मैं चाहता हूँ कि मंत्री महोदय इसका स्पष्टीकरण करें । रोडवर्दीनेस के बारे में अभी तक कोई पब्लिक घोषणा क्यों नहीं की गई ?

दूसरी बात यह है कि जिस तेजी से मारुति लिमिटेड को स्टील प्राप्त हुआ है, 6,000 टन, वह भी सचमुच में सरकारी कुर्ती और चुस्ती का नमूना है । अगर सरकार इतनी तेजी से काम करने लगे तब तो हमारे देश में समस्याओं के हल होने में कोई कठिनाई नहीं होगी, लेकिन औरों के बारे में यह तेजी नहीं दिखाई देती । मैंने कहा कि यह मारुति है । यह छलांग लगाती है । यह एक दफ्तर से दूसरे दफ्तर लांघ कर जाती है, यह एक नगर से दूसरे नगर को पार करती है । कोई मंत्रालय इसमें बाधक नहीं बन सकता । किसी मंत्री की हिम्मत नहीं है कि कोई आपत्ति उठा सके । कोई राष्ट्रीयकृत बैंक इसे ऋण देने से रोक नहीं सकता क्योंकि यह किसी और शक्ति के बल पर चलता है ।]

मैं यह भी जानना चाहूँगा कि क्या यह सच है कि मारुति लिमिटेड को अभी तक 35 रक कोयला दिया गया है । मारुति लिमिटेड में एक भट्ठा है । अगर मंत्री महोदय को जानकारी न हो तो वह जानकारी प्राप्त कर लें ।

एक माननीय सदस्य : कोयला कोई कंट्रोल्ड कमोडिटी नहीं है ।

श्री अटल बिहारी वाजपेयी : उस पर कंट्रोल नहीं है लेकिन कोयला मिलता किनको है ? मुझे मालूम है कि कंट्रोल रेट पर कितना मिलता है, और जितना कोयला मारुति लिमिटेड को अभी तक दिया गया

हे—35 रेक—उतना तो शायद 100 साल में ईंट बनाने में खर्च नहीं होगा। क्या उन से कुछ पता लगाया गया कि उन की वास्तविक आवश्यकता क्या है? फिर उन्हें इतना अधिक कोयला क्यों दिया गया?

इतनी ही बात नहीं है। अगर आप गुड़गांव की टेलीफोन करें तो उस के लिये आपको एकसर्वेज का सहारा लेना पड़ेगा, मगर दिल्ली से मासुति लिमिटेड तक टेलीफोन की सीधी लाइन है। आप जब चाहें टेलीफोन कर सकते हैं।

एक और छोटी सी चीज है। आप कभी उस सड़क पर जाइये। दिल्ली से लेकर वह सड़क चौड़ी की गई है, मगर वहीं तक चौड़ी की गई है जहां पर मासुति लिमिटेड का भवन है, जहां उनकी फैक्ट्री है। उससे आगे सड़क चौड़ी नहीं की गई। मैं मानता हूं कि यह छोटी छोटी बातें हैं। मगर यह छोटी छोटी बातें

श्री संयुक्त हुसैन खा (गड़गांव) : टेलीफोन लाइन रानी शावर में भी है और दूसरी फैक्ट्रियों में भी है। सड़क दिल्ली से जयपुर तक है।

श्री अटल बिहारी बाजपेयी : मुझे मालूम है, मैं रोज टेलीफोन करता हूं।

कोई नौजवान पुरुषार्थी बने, कोई नौजवान अपने परिधम से कारखाना खड़ा करे, इसमें कोई आपत्ति नहीं हो सकती, लेकिन क्या कोई इस बात से इन्कार कर

सकता है कि जिन लोगों ने पूजी लगाई है उनकी पूजी लागत से ज्यादा हो रही है? क्या वह इसलिये ज्यादा नहीं हो रही है कि वह नौजवान प्रधान मंत्री के सुपुत्र हैं? इस देश में पुरुषार्थी नौजवानों की कमी नहीं है, मगर उनमें से कोई कार बनाने का कारखाना नहीं खोल सकता क्योंकि किसी को प्रधान मंत्री के घर में जन्म लेने का सीमाव्य प्राप्त नहीं हुआ। लोग क्यों पूजी लगा रहे हैं? क्योंकि जो लोग पूजी लगा रहे हैं उनके पूजी लगाने से उनकी सरकार द्वारा और जगह लाभ पहुंचाया जा रहा है। जो डाइरेक्टर हैं उन्हें कारखाना खोलने का लाइसेंस दिया जा रहा है। उत्तर प्रदेश में एक लाइसेंस दिया गया है प्राइवेट उद्योगपति को जिन्होंने इसमें पूजी लगाई। इसी प्रकार रौनक 'सह' को भी लाइसेंस दिया गया है। क्या यह प्रधान मंत्री के पद का प्रभाव नहीं है?

इस चर्चा का उद्देश्य किसी को प्रतिभा को धूमिल करना नहीं हो सकता।

श्री सतपाल कपूर : और क्या हो सकता है?

श्री अटल बिहारी बाजपेयी : लेकिन अगर कुछ काम ऐसे हैं जिनसे प्रतिभा धूमिल होती है तो कोई रोक नहीं सकता। यह मासुति लिमिटेड नहीं है, यह करप्शन अनलिमिटेड है। इस शताब्दी का सब से बड़ा घोटाला है, प्रधान मंत्री की प्रतिभा को कलंकित करने वाला मामला। मैं इसको समझने में असमर्थ हूं। प्रधान मंत्री को अपनी जनता का विश्वास प्राप्त है, इतना

[श्री अटल बिहारी वाजपेयी]

उनका प्रभाव है, मगर एक पुत्र के छोटे से कारखाने के लिये आज उन्होंने लोगों को अपने ऊपर उंगली उठाने का मौका दिया है। यह मां की ममता नहीं है; सार्वजनिक जीवन में जो मर्यादा कायम करनी चाहिये उस मर्यादा से सहमत न होने का नमूना है। जिसके हाथ में शासन की सत्ता होगी, उस को इस बात की चिन्ता करनी होगी कि किसी को भी उंगली उठाने का मौका न मिले। पुत्र के साथ न्याय करना पड़ेगा। यहां न्याय ही नहीं हो रहा है यहां तो पुत्र को आगे बढ़ाने के लिये सारे नियम कायदे ताक पर रख कर उनकी लक्ष्मी से मंडित करने की कोशिश की जा रही है।

SHRI R. V. SWAMINATHAN (Madurai): Is it crime to have such an intelligent son?

SHRI H. K. L. BHAGAT (East Delhi): How can Mr. Vajpayee answer it?

श्री अटल बिहारी वाजपेयी: यह उतना छोटा सवाल नहीं है। श्रीर. देशों में गृह अपराध नहीं है, वहां पेशा होता है, लेकिन भारत में यह नहीं चल सकता।

संसदीय कार्य तथा नौबतून और परि-
कृत्य मंत्री (श्री राज बहादुर): वाजपेयी मर्यादा से नीची बात कर रहे हैं।

श्री अटल बिहारी वाजपेयी: मैं मर्यादा से नीचे बात नहीं कर रहा हूँ मर्यादा से नीचा आचरण किया गया है मेरी और आपकी राय भिन्न हो सकती है।

आज भी सोचा है कि जो भी वाजपेयियाँ इस सम्बन्ध में हुई हैं उनके बारे में जांच कराना आप स्वीकार कर लीजिये। मुझे इस नौजवान के खिलाफ कुछ नहीं कहना है। मैंने उसे देखा तक नहीं है। लेकिन इससे कोई इन्कार नहीं कर सकता कि आज जिस तरह से फँकट्टी खड़ी की जा रही है उसमें प्रधान मंत्री के पद का, उनकी प्रतिष्ठा का, उनके प्रभाव का दुरुपयोग हुआ है। वह करना चाहती है, ऐसा मैं नहीं कहता। लेकिन जो लोग इस फँकट्टी को बनाने में मदद दे रहे हैं वह बाहर उनके प्रभाव का लाभ उठाना चाहते हैं। यह कोई अच्छी परम्परा नहीं है। इससे प्रधान मंत्री की प्रतिष्ठा कोई बढ़ने वाली नहीं है।

श्री एच. क. एल. भगत: सभी जब मैंने वाजपेयी जी के भाषण को सुना जो उन्होंने कार बनाने की नीति के बारे में दिया है तो मुझे उनके व सारे भाषण याद आ गये जो उन्होंने चुनाव के दौरान में दिये थे। जो कुछ उन्होंने आज हाउस में कहा है आम तौर से वही कुछ उन्होंने मोटे तौर पर चुनाव के दौरान पर भी आम सभाओं में कहा था। उस उक्त उसका जवाब हिन्दुस्तान की जनता ने दे ही दिया था। वाजपेयी जी इन्कार नहीं करेंगे कि एक नारा हिन्दुस्तान की जनता को चुनाव के दौरान में दिया गया था और वह लगा भी था। उनके भाषण को सुनकर जनता ने वह नारा लगाया था और उस नारे के बारे में उनकी मान्यता ही है। दिल्ली में भी

यह नारा सुना गया था। लाखों की तादाद में जनता ने लगाया था। वह नारा था बेटा कार बनायेगा मां सरकार बनायेगी। मैं उनको बतलाना चाहता हूँ कि मां ने सरकार बना दी और बेटा कार बनायेगा और बाजपेयी जी भाषण देते रह जायेंगे। यह नारा हिन्दुस्तान के कोने कोने से चुनाव के दौरान लगा था और लाखों लोगों ने यह नारा लगाया था। लेकिन उस नारे के साथ साथ यह भी नारा लगा था कि बाजपेयी जी क्या करेंगे, बाजपेयी जी बेकार बनायेंगे।

उपाध्यक्ष महोदय उनके भाषण को सुनकर मुझे बड़ा ताज्जुब हुआ। उन्होंने कहा कि माफ़ि छत्रांग लगा रही है। लेकिन मुझे लगा कि बाजपेयी जी इतनी बड़ी छत्रांग लगा गये कि वह ज्योतिष्य बसु जी के स्तर पर पहुँच गये। मुझे इनसे यह आशा नहीं थी। मेरे दिमाग में यह था कि वह उस स्तर पर नहीं जायेंगे। लेकिन आज वह चले गये।

उनकी दलील यह है कि इससे प्रचान मंत्रों का इनेज खराब होता है। मैं पूछना चाहता हूँ कि किसको नगरों में खराब होता है? आपको नगरों में 10 कमी अच्छा या हो नहीं। जनता का जहाँ तक सम्बन्ध है उतना नगरों में पहले भी अच्छा था आज भी है और कल भी रहेगा। आपको बातों से यह निराश करने वाला नहीं है।

बसु जी ने मैं और मंकी का जिक्र किया। आपको पता लग ही गया होगा सारा उनका भाषण सुनने के बाद कि कौन

मैं है और कौन मंकी है। जनता का कहना है कि हिन्दुस्तान में कारों की कमी है आम लोगों का कहना है कि कारें कम बन रही हैं लोगों का कहना है कि चाहे सरकार की जिम्मेदारी हो या किसी और की लेकिन कारें जो बन रही हैं वह निकम्मी हैं, बिड़ला बनाते हैं या जो भी बनाते हैं निकम्मी कारें बनाते हैं कीमत अधिक है कारें ज्यादा होनी चाहिये। जनता बिड़ला और कार बनाने वालों के खिलाफ बोलती है और कहती है कि और कारें बनाओ, सस्ती बनाओ, छोटी बनाओ लेकिन बाजपेयी जी न बिड़ला के खिलाफ बोलते हैं और न ही बसु जी बिड़ला के खिलाफ बोलते हैं, दोनों ही संजय के खिलाफ बोलते हैं। अब कौन मैं है और कौन मंकी है इसका आप स्वयं पता लगा सकते हैं। कौन बिड़ला की बात बोल रहा है इससे आपको पता लग ही गया होगा। मैं कोई गुस्ताखी वाली बात नहीं कहना चाहता। मैं समझता हूँ कि बसु जी की बिड़ला की आवाज है। उनकी आवाज किसानों का आवाज नहीं है, जनता की उन्होंने चर्चा नहीं की है लेकिन उनकी आवाज बिड़ला की आवाज है, सरमायेदारों की आवाज है, बैस्टिड इंस्ट्रुमेंट की आवाज है। इसी तरह से बाजपेयी जी की भी है।

मैं बसु जी को याद दिलाना चाहता हूँ कि जब बैस्ट बंगाल में मार्क्सिस्ट को हकूमत थी तब वहाँ बतायें कि बिड़ला से किसने मुत्ताकारों की थी, बिड़ला को किसने फैसिलिटी दी थी, उनकी फैक्टरी को किसने प्रोटेक्शन दिया था। हिन्दुस्तान मोटर्स के कारखाने में बर्कंड से ओवर टाइम लिया

[श्री एच० के० एल० भगत]

जाता था और वहां की मार्किट्स सरकार ने बिड़ला मोटर्स को मदद की बर्कज के खिलाफ। मैं समझता हूँ कि बमु जी की भावाज के पीछे सरमायेदारों की, कैपिटलिस्टों की लाबी बोल रही है।

MR. DEPUTY-SPEAKER: If hon. Members do not like something which is said by the hon. Member who is speaking, they can definitely intervene, but they cannot just go on shouting at him all the time....

SHRI MADHURYA HALDAR (Mathurapur): I would like to know whether he is talking relevant or not.

MR. DEPUTY-SPEAKER: It is an unparliamentary practice to do so.

श्री एच० के० एल० भगत : इनको जो जवाब देना है बाद में दे लें।

तीन चार बातें कही गयी हैं। बाजपेयी जी ने कहा कि प्रायोरिटीज़ बननी चाहियें। क्या कार प्रायोरिटी नहीं है? मैं बाजपेयी जी से जानना चाहता हूँ कि कि क्या इती सदन में खड़े होकर उनकी पार्टी ने बार-बार यह नहीं कहा है कि कारों की कमी है और कारें और बननी चाहिये? आज जब मासि मोटर्स की तरफ से कारें बनने जा रही हैं, छोटी कारें बनने जा रही हैं तो क्या आप यह कहना चाहते हैं कि कारें न बनें। इसके माने सीधे हैं कि आप यह चाहते हैं कि बिड़ला की निकम्मी करें बनती चली जायें और कोई दूसरी कार न बनें। (इंडरशज): अगर आपगो बिड़ला का नाम बुरा लगता है तो नहीं सूंगा।

यह कहा गया है कि जमीन एक्वायर की गई है और एक्वायर करके उनको एलाट की गई है मैं जानना चाहता हूँ कि भारत के कौन से हिस्से में बड़े से बड़े इंडस्ट्रियल कम्प्लेक्स के लिये जमीन एक्वायर करके एलाट नहीं की गई? यह भी कहा गया है कि जमीन अधिक दी गई है। मैं कहना चाहता हूँ कि जब बड़ा कारखाना है बड़े मकसद के लिये जमीन एलाट की गई है एक्वायर करके बड़े काम के लिये की गई है तो क्या ज्यादा नहीं दी जानी चाहिये थी? यह भी कहा गया है कि ग्यारह हजार रुपये एकड़ के भाव पर दी गई है। मैं समझता हूँ कि बाजपेयी जी को मालूम ही है तथा और लोगों को मालूम है कि दिल्ली जो शहर में जो लैण्ड एक्वायर की गई और जिस के ऊपर आप और हम लोग रहते हैं जिस पर बिल्डिंग बनी हुई है नई और पुरानी वह भी किसानों से तीन पये गज पर ली गई थी। हिन्दुस्तान में बीसियों जगह जमीन एक्वायर की गई है समय समय पर। आप यह भी जानते हैं कि एक्विजिशन के खिलाफ लोग अकसर अदालतों में जाते हैं उसको चैन्ज करते हैं ज्यादा कम्पेंसेशन लेते हैं। हजारों केसिस कोर्ट्स में पेंडिंग हैं। हर आदमी जिसकी जमीन को एक्वायर किया जाता है वह कोर्ट में जा सकता है, चैलेंज कर सकता है, अपील कर सकता है, हाई कोर्ट में जा सकता है, रिट के लिए जा सकता है। वह जाता भी है और ज्यादा से ज्यादा कम्पेंसेशन लेना भी चाहता है। इस केस में भी उन्होंने एक्विजिशन को चैलेंज किया, क्यों यह सही नहीं है? वे रिट के लिये गये नहीं? सारी बात गलत हो गई यह कहना ठीक नहीं है।

जो रिट के लिये गये वह जायज है या नहीं इसको कोर्ट को तय करना होता है। जो कानून आपका और हमारा बनाया गया है उसको कोर्ट तय नहीं करेगी तो कौन करेगा? सचरे शाम आपोजीशन के नेता हमें कहते हैं कि कोर्ट भी मानों कोर्ट की मानों कोर्ट की माने। आज वे कोर्ट की बात कर रहे हैं।

बाजपेयी जी ने कहा कि कोयला दिया गया। जहां कारखाना बनना है वहां उनको कोयला न दिया जाय क्या? क्या पानी उसकी जगह दिया जाय? आप सोचें और इसका जवाब दें। ज्यादा कोयला दे दिया गया यह भी कहा गया है। मारुति तो पता नहीं कि छात्रांग लगा रही है या नहीं लेकिन बाजपेयी जी छात्रांग लगाते लगाते इतनी छात्रांग लगा गये और इतना आगे बढ़ गये कि भाग कर श्री ज्योतिर्मय बसु के पास चले गये।

यह भी कहा गया है कि उनको स्टील दिया गया। मैं जानना चाहता हूं कि कार स्टील से नहीं तो क्या कागज से बनती है? अजीब अजीब बातें यहां कही गई हैं।

मैं समझता हूं कि बाजपेयी जी को वाकफियत नहीं है और इसलिये वह कई बातें गलत कह गए। उन्होंने कह दिया कि उनको डाइरेक्ट लाइन मिली हुई है। उनको मालूम नहीं है कि वहां गुड़गांव में डाइरेक्ट लाइनें और भी बशुमार लोगों के पास हैं और उस वक्त से हैं जिस समय मारुति बनी नहीं थी।

3035 LS—11.

लोगों को छोटी कार की जरूरत है लोगों की मांग है कि वह बननी चाहिये। अब जब बनने लगी है तो वे कहते हैं कि नहीं बननी चाहिये इसलिये कि संजय गांधी बना रहे हैं। बसु जी ने बड़ी दिलचस्प बात कही। उन्होंने कहा कि संजय गांधी के पास 748 रुपया ही था। कैसे वह इस पैसे से इतना बड़ा कारखाना लगा रहे हैं। अगर बसु जी के लाजिक को माना जाए तो कारखाना तो सिर्फ बिड़ला ही लगा सकता है, और कोई नहीं लगा सकता है, कैपिटल मोबिलाइज करके कोई दूसरा कारखाना नहीं लगा सकता है। श्री बसु स्वयं सोचें कि कौन इस तरह से दूसरा काम कर सकता है।

यह भी कह दिया गया कि कुछ लोग जो उनके साथ हैं उनका कोई एक्स्टेंशन हुआ है। पिछले चार सालों में पता नहीं कितने लोगों को एक्स्टेंशन लाइसन्सों के मिले हैं। सवाल यह है कि जिन लोगों की इस कारखाने में हिस्सेदारी नहीं है, उन को एक्स्टेंशन कैसे मिल गया। मुझ नहीं मालूम है कि किसकी मिला है, लेकिन सिर्फ इस बिना पर यह कह देना गलत है कि सरकार उन की मदद कर रही है।

कहा गया है कि 26 लाख, या कितने लाख—श्री नाहाटा ने फ़िगर बताई है—रुपया बैंक ने दिया है। क्या ग़ुज़ब कर दिया है! मेरे दोस्त 26 लाख की बर्चा करते हैं। व यह क्यों नहीं बताते हैं कि इतने सरमायेदारों ने, जिन की बोलियां व बोल रहे हैं, बैंकों से करोड़ों रुपये लिये हुए हैं। (व्यवधान)

[श्री एच० के० एल० भगत]

जब कार के मैन्युफ़क्चर की नीति पर बहस हो रही थी, तो हम आशा करते थे कि अपोजीशन के नेता इस नीति के बारे में कुछ कहेंगे। लेकिन कार की नीति पर बहस नहीं हुई। उन्होंने मासति पर बहस करनी शुरू कर दी। मेरे भाई कभी नायरवाला की गर्दन पर सवार होने की कोशिश करते हैं—जिन्दा पर भी और मरे हुए पर भी, उन्होंने मरे हुए को भी नहीं छोड़ा, (श्चब्दान) कभी वे कोई और इस्तेमाल करते हैं, (श्चब्दान)....

MR. DEPUTY-SPEAKER: Order, order. I want to draw the attention of the hon. Member there; once or twice you can intervene, not this kind of shouting; this is not right. This is not the way to behave in the House; this is disorderly behaviour.

श्री एच० के० एल० भगत : उपाध्यक्ष महोदय, मैं यह अज्ञ कर रहा था कि व कभी एक बात पकड़ कर ले आते हैं और कभी दूसरी, जिन के पीछ कोई बनियाद नहीं होती।

मेरे भाई, श्री ज्योतिर्मय बसु, ने कहा कि प्रधान मंत्री को इस्तीफ़ा दे देना चाहिये। हम पार्लियामेंट के मेम्बर हैं और हमारे कुछ प्रिविलेज हैं। हमारा यह प्रिविलेज है कि हम इस हाउस में जो चाहें कह सकते हैं। लेकिन हम यह एक्सपेक्ट करते हैं कि हम पार्लियामेंट की मेम्बर की हैसियत से वह बात कहें, जो रिसपांसिबल हो, जो पूरी तरह से बेड हो, जिसके बारे में हमारे पास सबस्टांशल एविडेंस हो, जिसको हम सबस्टांशिएट कर सकते हैं। यह ताज्जुब की बात है कि

श्री ज्योतिर्मय बसु जो चाहे, जिस बक्त चाहे, जिस तरह की भी बात हो, जिसके पीछ कोई सबूत न हो, जो इर्रेसपांसिबल हो, गलत, बेकार, बेमानी और बेबुनियाद हो, हर बात को इस हाउस में कह देते हैं। इस हाउस के प्रिविलेज का अगर कोई मिसयूज करता है, तो श्री ज्योतिर्मय बसु करते हैं। डेमोक्रेसी की डिसेंसी मांग करती है कि उनको इस्तीफ़ा दे देना चाहिये—ही शुड रिखाइन। इस तरह बिना फाउंडेशन के, बेबुनियाद, इल्जाम लगाना मुनासिब नहीं है।

संजय गांधी की बदकिस्मती कहें या खुशकिस्मती कहें कि वह प्राइम मिनिस्टर के पुत्र हैं।

SHRI JYOTIRMOY BOSU: On a point of order. Almost every day the Chair has ordered that something should be expunged because it is considered to be improper and undignified. Mr. Bhagat has been saying that whatever I say is ghalat. That is very irresponsible. Only a chamcha like him . . . (Interruptions).

MR. DEPUTY-SPEAKER: Order, order. My understanding of ghalat is untrue'. It is not unparliamentary.

श्री एच० के० एल० भगत : मैंने जान-बूझ कर "भूट" नहीं कहा, "गलत" कहा है।

संजय गांधी की शायद बदकिस्मती है कि वह प्राइम मिनिस्टर के पुत्र हैं। लेकिन हमारी बदकिस्मती है कि यहां इस हाउस में श्री ज्योतिर्मय बसु हैं। अभी कहा गया कि वह प्राइम मिनिस्टर के बेटे हैं। मैं कुछ नेताओं के नाम ले सकता हूँ, लेकिन मुझे

इसकी भावत नहीं है। प्राइम मिनिस्टर के इस पुत्र ने कई साल दिल्ली के एक छोटे से बर्क शाप में बिन-रात काम करके इस माडल को डेवेलप किया है। बताइये कि मेरे आप के बेटे ने क्या किया है।

मेरा कहना यह है कि जो कुछ भी श्री बाजपेयी ने या श्री ज्योतिर्मय बसु ने कहा है,

That is only a cheap, propaganda stunt which has not befooled the people and people were not befooled by them. I am sure that they will not be befooled now.

MR. DEPUTY-SPEAKER: Shri Piloo Mody.

SHRI G. VISWANATHAN rose—

MR. DEPUTY-SPEAKER: I will call you. I called Mr. Piloo Mody as he made a special request because he has to go unless you have any objection to it. Do you?

SHRI G. VISWANATHAN: If he is really going, then I will yield.

MR. DEPUTY-SPEAKER: Do you want to speak?

SHRI G. VISWANATHAN: Yes.

SHRI PILOO MODY rose—

MR. DEPUTY-SPEAKER: Just one minute. We have varied the timing of the House once in view of the—

SHRI PILOO MODY: Could you not make this after my speech so that I do not miss my trend?

MR. DEPUTY-SPEAKER: All right.

SHRI PILOO MODY: Considering that Mr. Sanjay Gandhi has now worked day and night in a workshop, it is only befitting that he being the only man in this country who has

done any work, he should be given the Padma Bhushan or something.

When I hear the debate such as I have heard today, particularly when I hear the people whom I happen to know outside the House a little better than I know them inside the House, when I hear them come and defend something in the language that they use, I really begin to wonder whether this country can ever make progress.

We were fortunate enough to have Mr. Amrit Nahata speak the truth accidentally when he said that after 25 years the Government of India had not developed a policy on transport or on cars. It is quite right. They have not developed a policy; not only that: if this Government continues, I assure you that it will not develop a policy in future either, because the Government of India makes its policy to suit them,—that is, the Congress party—from moment to moment.

If you will just recall, originally the small car was going to be made in the private sector. Worldwide tenders were invited by at least seven companies and seven or a dozen collaborators came forward. At that time, Mr. Sanjay Gandhi also got an idea that making a small car must be easier than making a big car and so thought, "Why should I not have a shot at it?" So, the idea of a small car being made by Mr. Sanjay Gandhi happened to be broached at that time.

Now, the Government had to wriggle out of the fact that they had agreed to something like a dozen tenders being invited on which lakhs of rupees were spent. So, all of a sudden, a policy decision emerged, that a small car will be made only in the public sector; that is to wash away five years of hankering for a small car which, they had agreed, should be made in the private sector. So, their first chapter was closed by a policy deci-

[SHRI PILOO MODY]

sion of the Government that it will be made only in the public sector.

When the idea came that there was going to be a car in the public sector, several tenders again started flowing in from people who wanted to make this car in collaboration with the Government of India, but now, the policy had to change again because under no circumstances could Mr. Sanjay Gandhi have made the car had the Government policy continued as announced. So, the Government of India had to revamp its policy and come to the conclusion that the small car which had at one time agitated everybody's mind—because a Janata car must be provided for the Janata so that the Janata vote can be collected—was dropped as the top priority of the pyramid to the bottom, as a low priority item. Therefore, "It must not be made in the public sector and let us push it back into the private sector."

In the private sector, any idiot knows that a man who works night and day in a mechanical workshop cannot manufacture a car.

AN. HON. MEMBER: Who said?

SHRI PILOO MODY: I am telling you. (Interruption).

SHRI R. V. SWAMINATHAN. He is talking about idiots.

MR. DEPUTY-SPEAKER: Does it mean you describe yourself?

SHRI PILOO MODY: Even General Motors needs hundreds of ancillary manufacturers so that they can put together a car, which I am told does not work too well, because most automobiles are poorly made products. But the funny thing is—when this car was sanctioned after the Government changed its policy and dropped it to lower priority and shoved it back into the private sector so that Mr. Sanjay Gandhi could be given a licence—that the condition then was not one iota of foreign exchange will be spent and it will be a totally indigenous car. It is from his very desk I asked Mr. Dinesh Singh when he was minister, "Are you

sure that the licence that is being granted will not permit ancillary manufacturers to enjoy foreign exchange licences, so that Mr. Sanjay Gandhi can turn round and say, 'I got my little spare parts from Mr. Salve. It is Mr. Salve who got Rs. 25 lakhs worth of import licence, with which I am not at all concerned; I am only concerned with buying my spare parts from Mr. Salve!' Mr. Nahata will have another ancillary; Mr. Bhagat will have a third ancillary. But all the licences will be in the name of the Bhagats, the Salves and the Nahatas and none in the name of Sanjay Gandhi. So, a policy decision had to be made by the Government of India that no foreign exchange will be necessary to manufacture this car. Some other automotive geniuses all over the country who really thought they could make a car were also given little letters of intent, because after all you have to make things look good. But they found there was a foreign exchange content in those licences—10 or 15 or 20 per cent—and the Government's decision said, with all the sanctimonious humbug that these gentlemen could muster, no foreign exchange will be permitted to manufacture the small car.

The situation as I understand it today is that Mr. Sanjay Gandhi was provided land by the Government, which has been discussed in minute detail. A tractor company has been over-licensed to manufacture tractors in India, because they have developed a body for a car in Australia and that body tooing will be bought as part of the licence. I am told a scooter company has developed a motor which has also been overlicensed so that they will supply motors. Ultimately Mr. Sanjay Gandhi will put the lock on it and probably that would be the only thing on the car that would not work.

It is rather amusing that this car which is supposed to be the product of an automotive genius was going from the Maruti factory to the exhibition and it so happened that my wife happened to be passing by. She found that this car was stalled and there

were three mechanics under the car with their legs sticking out. She went to the airport and on her way back she found that six legs were still sticking out from under the car! When I am forced to buy one of those cars, because all these gentlemen are going to be forced to buy one, I hope at least a couple of them will have the decency to come and hold it up for me while I get into it!

It is all right. Umpteen things like this are happening in this country for some consideration. To give a fuller account of it, my friend Shri L. N. Mishra can give it to you. When millions of things like this are happening in the country, why should not the Prime Minister's son also indulge in the same thing? I do not think that the law should be different for all the other crooks and the law should be different for just one person because he happens to be the Prime Minister's son. This sort of discrimination I do not believe in. I think that since the Government of India is being run in this dishonest, hypocritical, sanctimonious, corrupt manner, let Shri Sanjay Gandhi also be given the benefit of such a society. Why should he not be? If the Jains, Dalmias and all these people have reaped the benefit of such a society, why not Shri Sanjay Gandhi? And if the Prime Minister's self-respect and dignity are not hurt by it, who am I to say that she should have any? The only thing I want to tell you, particularly my friends over here, is that the price of favours and the price of office can be too high.

MR. DEPUTY-SPEAKER: Let me regulate the business of the House. We have already once varied the timing of the business of the House. We have fixed 4 O'Clock for taking up Private Members' business. But that does not appear to be possible now. I still have with me three speakers from the opposition and some speakers from the Congress Party. The Minister is yet to reply and he has told me that he will require half an hour. Then the mover of the motion will

have to reply. Of course, we are in the hands of the House. We cannot just be too technical and mechanical in this matter. Even so, we have to fix some time.

SHRI VIKRAM MAHAJAN: Let us move for a closure.

MR. DEPUTY-SPEAKER: I would like to have the sense of the House. If the time for this debate has to be extended, we have to fix some time. Can the Minister of Parliamentary Affairs say something.

SHRI RAJ BAHADUR: We should finish it by 5 O'Clock. That would be better.

MR. DEPUTY-SPEAKER: Very well. If we have to finish it by 5 O'Clock, the Minister would require half an hour. How much time does Shri Basu require?

SHRI JYOTIRMOY BOSU: Half an hour.

MR. DEPUTY-SPEAKER: That will mean one hour. There are four speakers from the opposition side and they would like their point of view to be heard.

SHRI VIKRAM MAHAJAN: Let us take it up after the Private Members' business.

MR. DEPUTY-SPEAKER: Let us be realistic. Shall we put it at by 5.30 P.M.

THE MINISTER OF INDUSTRIAL DEVELOPMENT AND SCIENCE AND TECHNOLOGY (SHRI C. SUBRAMANIAM): You may call one more member from the opposition side and then give me the chance. After all, there is Shri Basu who can out-do everybody. He can cover all points.

MR. DEPUTY-SPEAKER: There are parties which are listed here and every party has its own spokesman. Whenever there is any debate, they

[Mr. Deputy-Speaker:]

will have to be given an opportunity. Unless they agree to withdraw, I cannot give time to somebody and not to somebody else. I think 5.30 would be quite realistic. I would request the speakers not to take more than ten minutes. Otherwise, we cannot finish by 5.30 P.M.

16.00 hrs.

SHRI R. D. BHANDARE (Bombay Central): Mr. Deputy-Speaker, Sir, I have heard the speeches from the Opposition side and I am really surprised and shocked as to what extent they can be at a tangent with the proposition before the House. Mr. Vajpayee is going but I am going to quote his partymen as to what extent they have supported the proposition of small car in the previous debates.

As I said, the proposition before the House is totally different from the discussion that has taken place. All the leaders of Opposition have concentrated on one individual only. I am really surprised how they can go to the extent and lower themselves, degenerate their sense of proportion, in criticising one individual while the proposition deals with the policy itself.

I want to raise two serious questions. One is whether the present supply of automobile cars is enough to meet the demand of the people, the middle-class people, of this country. The second question is whether it is not advisable to manufacture at the lowest cost and, at the same time, encourage the growth of indigenous local Indian talent without requiring imports, capital goods or foreign exchange. These are the two questions which, I hope, Mr. Jyotirmoy Bose will answer.

Dealing with the question of priority, both Mr. Vajpayee and Mr. Piloo Mody have raised the question of priority. I would like to ask them, as to what priority under the planning has been given to the production or manufacture of car. They are under

a wrong impression or presumption that the manufacture of small car has been given the top priority. It is a wrong notion they are entertaining. Therefore, their minds must be disabused of that. The priority to the manufacture of small car has been given its due place, not the first or the second or the third priority. The production of essential goods to meet the needs of the people has been given the first priority. Therefore, it is wrong to suggest that the manufacture of car has been given the first priority or the higher priority.

In this connection, I do not know whether the Jana Sangh party has changed its policy. I do not know whether Mr. Vajpayee has lost the memory that, in 1964, when the question of manufacture and fixation of prices of cars was taken up, Mr. Bade took part in the debate and, on behalf of the Jana Sangh party, he said this. I would read out only three proposition from the whole of his speech. He said:

“पापुलर कार बने, छोटी कार बने, जिस की बार बार मांग की गई है और जिस का अभी तक कोई सन्तोषजनक उत्तर नहीं मिला है इस के लिये सरकार को गम्भीरता से विचार करना चाहिए और यह कार सुलभ होनी चाहिए।”

This is proposition No. I. I am quoting from the Lok Sabha Debates, Third Series, 1964, p. 3425.

The second proposition that he advanced is:

“रोग केवल यही है कि तीन जनों को आपने उत्पादन करने और बेचने का अधिकार दे रखा है, इस को खत्म करना चाहिए। दूसरे कारखानेदार जो कार बनाना चाहते हैं इस क्षेत्र में आने चाहिएं, इन के कम्पीटीशन में आने चाहिए, उन को अपने मौका देना

चाहिए कि वे तम्पोटीशन में जा सकें। यदि ऐसा किया गया तो कार के दाम कम हो सकते हैं।”

The second proposition advanced by Mr. Bade on behalf of Jan Sangh, on page 3425, is:

इस लिये सरकार को चाहिए कि दूसरे लोगों को कार का निर्माण करने की सुविधा दे दे।”

I do not know whether the question of priorities was taken into consideration by Jan Sangh persons. Therefore, it is not a question of priority when we talk of manufacture of small cars, but it is a question of necessity which has been considered and felt by the people of this country. Right from 1959 this question was raised and the members of this House demanded manufacture of small cars...

SHRI SHYAMNANDAN MISHRA: Not by all.

SHRI R. D. BHANDARE: By all the members. Shri Shyamnandan Mishra also must have been a party to it. (*Interruption*).

I would like to raise some questions. Is the car a luxury at the present time? Does it not increase the efficiency of the working of the person? In a developing economy, should we allow the politics of inhibition and should we have the politics of character assassination? These are the questions which, I hope, Mr. Shyamnandan Mishra and Mr. Jyotirmoy Bosu and the rest of the Opposition will answer. Mr. Jyotirmoy Bosu hit below the belt when he said that Mr. Sanjay Gandhi was only a technician....

SHRI JYOTIRMOY BOSU: You do not wear a belt. Do you?

SHRI R. D. BHANDARE: I do not know whether you do, with key on to it.

SHRI JYOTIRMOY BOSU: He is referring to the chastity belt. He talked about key, Sir.

SHRI R. D. BHANDARE: He said, Mr. Sanjay Gandhi is, after all, an engineer. Should individuals not be allowed to develop their skill and live honourably in this country? Should the economic development of the country be allowed to be continued in this country or not? Should the demands of the middle class who are demanding small car be met or not? Should we solve the problem of unemployment or not? These are the questions which they may take into consideration provided they have the mind to take them into consideration. According to my view, having failed to create any impact of their leadership or their policies, they have resorted to the means of character assassination. When the policies and programmes fail, the 'politicians'—I am putting the word 'politicians' in single inverted commas—resort to character assassination. Then there is degeneration in public life, eating into the vitals of the body politic of India. When I heard the debate, I really felt sorry that these 'politicians' or those hon. Members of parliament had degenerated to the extent that instead of discussing policy matters, they were trying to assassinate the character of Mr. Sanjay Gandhi and the Prime Minister, Shrimati Indira Gandhi; that is because they know it for certain that their policies will not succeed, their programmes will not attract the people. So far as our party is concerned, we have policies, programmes and Leader . . .

SHRI JYOTIRMOY BOSU: But not fulfilment of those.

SHRI R. D. BHANDARE: Therefore, they want to develop this method of 'character assassination'.

They are under the impression that by character assassination of the Prime Minister, they will be able to catch the imagination of the people. I am certain they will totally fail as they have totally failed. I will advise them: give up this method of going to the people and starting character assassination. The result would be that they themselves will be politically assassinated.

With these words, I am done.

SHRI G. VISWANATHAN (Wandiwash): We are supposed to be discussing the car policy of the Government of India. I do not know whether they have a policy at all regarding car manufacture.

The hon. Member from the Congress Party, Mr. Salve, rightly complained against the inferior quality of the cars produced in our country. I think the cars produced in our country are of the worst quality compared to the cars produced in the whole world. I want to know from the Government whether the entire nation is going to be left at the mercy of these three car manufacturers who are in turn at the mercy of the Government. I also want to know from the Government whether they will consider producing cars, if they do not like it in the public sector, let them allow others to compete and produce quality cars in the private sector.

Sir, I would like to narrate the woeful tale of the small car project. I think probably this is the final day of the small car project and its discussion in this House.

The Government appointed a committee in 1959. Mr. L. K. Jha was supposed to be the Chairman of the committee. That committee invited proposals and 13 companies sent their

proposals and the price was supposed to be Rs. 6000 in 1960. An expert committee was again appointed to look into this small car project in the public sector and it submitted its report in 1961. In August, 1962 Mr. Subramaniam who was then the Minister for Steel and Heavy Industries announced:

"Although the project had been approved by the Government in principle before the Third Plan was finalised, it had not been found possible to include it in the plan. Consideration of the project will have to be deferred."

Again, in 1962, within six to seven years, it came up again in 1969 in the month of May. Mr. Bhanu Prakash Singh—he is not here now, he was then a Deputy Minister—he said in the House:

"Unfortunately, in the Fourth Five Year Plan there is no such scheme, but Government is still very keen to manufacture small car in the private sector."

At that time, it has gone to the private sector. But, immediately within two or three months, we were told in July, 1969 that there will be a small car in the public sector and the Italian firm, the Fiats, have offered assistance to the Government of India and there will be talks in Cairo and Mr. Bali Ram Bhagat, who was then the Minister of Foreign Trade, was going to represent India at the Cairo talks. But one month later Mr. Fakhruddin Ali Ahmed who was in charge of the Ministry, informed the Consultative Committee that the proposals for the project were going before the Cabinet for approval and in September 1969, an official spokesman of the Government of India said:

"The public sector project would expose car manufacturers in the private sector to competition. A small car produced in the public

sector alone would compel established manufacturers to compete in the open market."

That was the spokesman's statement in September 1969. In the same month, Mr. Fakhruddin Ali Ahmed announced in our House that the decision regarding the public sector would be announced very soon. Not only that, he also announced the price of the still-born child. He said that the ex-factory price of that car would be around Rs. 10,000. That was in November, 1969.

Again, in December 1969 we heard that the Planning Commission has strongly opposed the inclusion of the small car project in the Fourth Plan. At that time the *Indian Express* said like this. This is on 16th December, 1969. I quote:

"Talks are still in progress between the Central Ministries and the Planning Commission. Shri F. A. Ahmed still holds his view that public will be happier with a small car rather than an additional coke oven or rolling mill."

He was referring to Bokaro at that time. In February, 1970, the Planning Commission finally turned down the Industrial Development Ministry's plea of this project to be included in the Fourth Plan. We thought it was abandoned but it was not so. The Industrial Development Ministry was approaching the various nationalised banks for financing this project. In April 1970, Shri F. A. Ahmed stated that it will be a cheaper car distinct from small car and the price will be about Rs. 5,000 lesser than the other cars produced in this country. Again in May, 1970, we find that the Ministry of Industrial Development abandoned the idea of having the project exclusively in public sector. We find this now going to the joint sector. They said that they will throw open the shares to the public.

In the month of August, 1970 Mr. Dinesh Singh who was the Minister in charge declared in this House that the Union Cabinet had approved the small car project in public sector in principle. Again it came to the public sector. Do you know with what warmth it was received in this country? I would like to quote a few headlines which the papers gave after Mr. Dinesh Singh's announcement in the Lok Sabha.

It is that car again.

Small car at last.

50,000 low cost cars in public sector.

Small car a reality at last.

Small car in 5 years, says M. R. Krishna. People welcomed it saying, here is a small car which will be of benefit to the middle class people, government servants, etc.

In October, 1970 again, the Planning Commission reversed its decision. I think Mr. Gadgil was the Deputy Chairman and the Planning Commission agreed for a small car in the public sector. So, now again it comes from private sector to public sector. The Planning Commission reversed its earlier decision and agreed for having this in the public sector. Thereafter, the Government received eight proposals from foreign firms for the small car project. In August, 1971, the Industrial Development Ministry decided on the French Renault model for the small car.

Then Mr. Moinul Haque Chaudhury assumed charge of this Ministry. So many people are there: there have been many changes like the policy of the Government. Mr. Moinul Haque Chaudhury in March, 1972, announced that a decision on a small car project would be taken in two months.

On the 31st March, 1972 we heard that the final decision had been deferred. And now, in July, 1972, Mr. Subramaniam, who spoke of the small

[Shri G. Viswanathan]
car first in 1962, again comes here and tells us that they have finally buried the small car project in the public sector. He announced that this is the policy decision of the Government of India and that there will be no small car in the public sector. Now I want to know from the Government as to what their policy is going to be. They have blundered in between these years, 1959 and 1972. I think it was Shakespeare who once said 'cowards die many a time'. I do not know whether the small car project may be termed a coward as we find this project coming up again and again and getting deferred. Government now says that there will be no project in the public sector. I want to know the policy for the future. Objection was taken, of all persons, by Mr. Amrit Nahata for small-car factory in public sector. I want to know the policy of the Government. When banks finance for the private sector, why cannot the same thing be done for the public sector also? According to Mr. Fakruddin Ali Ahmed, this project might cost Rs. 30 or Rs. 35 crores. It will be less than the annual loss in respect of Hindustan Steel Limited.

Now, let me come back to the small car which is under consideration. In September, 1970, the Licensing Committee of the Industrial Development Ministry approved the proposals and on October 12, 1970, the letter intent was issued. The letter of intent was issued to two persons. A question arose whether there was discrimination against some other persons. One Om Prakash Rekhi approached the Delhi High Court for getting the letter of intent. He went to the court in October, 1970 and finally he won the case. He was given the letter of intent in January, 1972 and because of him others were also given letters of intent. I want to know from the hon. Minister why this discrimination was there and why they should drive people to go to the High Court to get a letter of intent. After all, they can take this

into consideration when they want to convert the letter of intent into a licence.

Regarding Maruti Ltd., Shri Jyotirmoy Bosu and Shri Atal Bihari Vajpayee pointed out that there were violations regarding the Indian works of Defence Act and the Land Acquisition Act. I expected that this would be replied to by the ruling benches, but instead of replying to the charges, the ruling party Members just abused Shri Jyotirmoy Bosu and left it at that. I would like the hon. Minister to reply to these charges.

Since the Finance Ministry is interested so much, I would like to ask just only one question which is really concerned with the Ministry of Finance. I am told that on the 10th July, 1971, the nationalised banks which come under the Central Government opened their branch offices in the verandah of the rest-house at Gurgaon; the Punjab National Bank, the State Bank of India and the Bank of Baroda and so many other banks opened their accounts at twelve o'clock midnight. It seems they received cheques and accounts were opened. I appreciate that banks also can open at midnight. But I want to know whether this facility would be given to other people of this country also.

If there is somebody who creates a suspicion and throws doubt on Maruti Ltd. it is this Government alone. I shall have to substantiate this. There was a particular question regarding loans by public financial institutions to Maruti Ltd. In the other House, put by Shri Sundaramani Patel and four others, and Shri Yashwantrao Chavan gave the reply. He said:

"None of the all-India long-term public financial institutions has so far received any application for financial assistances from Messrs. Maruti Ltd., Gurgaon."

"I was under the impression that no loans had been given. But Shri Amrit Nahata quoted some figures in regard to amounts given by the Punjab National Bank and the Central Bank. He quoted the figures and said that Rs. 26 lakhs had been given by the banks. I was going through this reply of the Finance Minister to find out why this inconsistency was there. Then, finally, I would look at one just word by Shri Yeshwantrao Chavan. He said that the banks had given loans. That also, he did not concede; he wanted to hide. I do not know what is wrong in it. He could have come forth with the statement. Even though they are not public financial institutions strictly, and they are called commercial institutions, he could have easily said that banks had received applications or they had given loans.

AN. HON. MEMBER: But that question was not asked.

SHRI G. VISWANATHAN: It was asked particularly, but he evaded the reply. I think about five or six Members had put the question, and yet Shri Yeshwantrao Chavan did not reply at all. Finally, he said that if hon. Members wanted any information regarding banks, they must put another question. I would like to ask why Government are creating this doubt about this. It is this Government which has to be blamed.

Regarding land acquisition, charges were hurled from this side, and nobody had answered from the other side

THE MINISTER OF FOREIGN TRADE (SHRI L. N. MISHRA): Everybody has answered.

SHRI G. VISWANATHAN: I would like to quote only the statement of Shri Bansi Lal, Chief Minister of Haryana in this connection. He says:

"Even the General Motors of America, which is the biggest car company in the world does not have as much land under its factory as I have given to Shri Sanjay Gandhi."

I am placing it before the House for whatever it is worth.

SHRI SAT PAL KAPUR: Where is this statement from?

SHRI G. VISWANATHAN: It has come in all the papers.

SHRI SAT PAL KAPUR: Which paper?

SHRI G. VISWANATHAN: It has come in some paper, and I have got it from the Library. The hon. Member can also see it there.

I would like to know the Government's policy in the future regarding the small cars and also regarding the cars which are called bigger or medium cars which are produced or the three cars which are being produced in the country.

Again, I want to get an assurance from the hon. Minister whether Government are going to provide enough cars and see that we are not left at the mercy of these three car manufacturers.

श्री सतपाल कपूर (पटियाणा) :
उपाध्यक्ष महोदय लोक सभा के एलेक्शन
से पहले हमारे यहां एक ग्रैंड अलायेंस बना
और उस सारे ग्रैंड अलायेंस की एक ही पालिसी
थी कि प्राइम मिनिस्टर की पार्टी को और
मिनिस्टर को किसी तरह से वदनाम किया जाये।
एलेक्शन में हार खाने के बाद कुछ स्ट्रेटजी
को तलदीन करने की जरूरत थी, अपोजीशन
पार्टियों को अपने काम को देखने की जरूरत थी
लेकिन उन की पालिसी कामयाब नहीं हुई
और वह लोक सभा के एलेक्शन में पिछे
लेकिन नजर यह आता है कि पिछे
पिटने के उस पालिसी पर ही बग़वान अमल.

[श्री सतपाल कपूर]

दरामद किया जा रहा है हम इस लोक सभा में गिठने दो सानों से देख रहे हैं कि किसी बेसिक पालिसी पर अगोजीशन का क्रिटिसिज्म नहीं आया। चाहे श्री ज्योतिर्मय बसु हों, श्री श्यामानन्दन मिश्र हों चाहे श्री अटल बिहारी वाजपेयी हों या पीलू मोदी हों उन सब का एक ही काम है किसी न किसी तरह के प्राइम मिनिस्टर को जानी तौर पर बदनाम कर और अपने जिये फील्ड तैयार किया जाये। इस एक यथोरी की तहत अगोजीशन पार्टियों की पालिटिकल चल रही है। पिछले सालों में हम इस को कई रूपों में देख चुके हैं। इस हाऊस में हम ने इस बात को देखा है कि यह लोग इसी बात के ईर्ष गिर्द घूमते जा रहे हैं उन का जहन आगे बढ़ नहीं सकता।

यहां यह कहा गया कि प्राइम मिनिस्टर को रिजाइन करना चाहिए। प्राइम मिनिस्टर को इस्तीफा देना चाहिए, क्योंकि उन के लड़के ने कार बनाना शुरू कर दिया। प्राइम मिनिस्टर को इस लिए इस्तीफा दे देना चाहिए कि बिड़ला साहब की इंडस्ट्री को चोट पहुंचती है। श्रीमती इंदिरा को प्राइम मिनिस्टर नहीं रहना चाहिए। अभी हमारे मित्र श्री भंडारे ने श्री वड़े के पिछले लेक्चर को पढ़ कर सुनाया कि जब छोटी कार का बनाना मुलतवी किया गया तो उन्होंने कहा कि बिड़ला साहब की इमदाद की जा रही है। इसी लिए छोटी कार प्रोजेक्ट को प्राइवेट सेक्टर या पब्लिक सेक्टर में नहीं लाया जा रहा है। अब जब छोटी कार बनाना शुरू हुआ तब भी लोगों को दिक्कत है। पता नहीं वह किस पालिसी, किस फिनसफा, किस

नजरिये या किस इंडस्ट्री को यहां बाध करना चाहते हैं। उन्होंने कार पालिसी पर कहा कि इस पालिसी में यह नुकस है, वह नुकस है। फिर श्री ज्योतिर्मय बसु है दूसरे मेम्बर है, पीलू मोदी हैं, उन्होंने यहां कहा कि अम्बेडकर कार चल नहीं सकती। उन्होंने कहा कि नई अम्बेडकर कार को तीन मेकनिक ठीक कर रहे हैं। वह इसलिए अम्बेडकर कार नहीं लेते कि एक महीने में ही वह खराब हो जाती है। मेरे पास भी फिक्क कार है। जिसको इन्होंने पीपा कहा है उस को हालत बहुत अच्छी है। आज हमें जरूरत इस बात की थी कि हम यहां पर ठीक बात करते।

यहां पर सबसे ज्यादा क्रिटिसिज्म किया गया कि बंती लाल की सरकार ने जमीन के मामले में हेरा फेरी की।

श्री ज्योतिर्मय बसु : रुपये की भी चोरी की

श्री सतपाल कपूर : रुपये की चोरी करना आप की आदत है। आज कोई ऐसी बात नहीं कह गई जो नई हो।

जब कोई नया इंडस्ट्रियलिस्ट आता है या किसी बैंक रोजन को डेवेलप करने की जरूरत हो तो सरकार आम तौर पर आफर करती है कि जमीन हम देंगे, एनोक्विटिसिटी हम देंगे, पानी का इन्तजाम हम करेंगे, टैक्सों में रिजकूगन हम करेंगे। यही नहीं कि सिर्फ कांग्रेस सरकारों ने ऐसा किया है। नम्रूदरी-पाद खुद गये थे बिड़ला के पास कि आप केरल में इंडस्ट्री बनाइये हम आप को कंवेनशन देंगे। यहां से 19 मील पर गुड़गांव है और

16 पील पर फरीदाबाद है। फरीदाबाद इंडस्ट्रियलिस्ट डेवेलपमेंट एरिया है। वहां पर बड़े बड़े कारखाने हैं। एस्काटर्स है दूसरे 6 कारखाने हैं। आज फरीदाबाद में जो प्राइस चार्ज की जा रही है उस से ज्यादा प्राइस गुड़गांव में चार्ज की गई। हालांकि फरीदाबाद इंडस्ट्रियल सेंटर है। गजियाबाद में जो प्राइस चार्ज की जा रही है उस से ज्यादा प्राइस गुड़गांव में चार्ज की गई है। फरीदाबाद और गजियाबाद में जमीन की कीमत कम है अपोजीशन का हाल यह है कि वह चाहता है कि न कोई जमीन को डेवेलप करे और न सरकार डेवेलप करे। गजियाबाद इंडस्ट्रियल टाऊन बन रहा है। वहां की सरकार ने डेवेलप कर के बनाया। उस को डेवेलप करने के लिये कोई चार्ज वसूल नहीं किया गया। लेकिन गुड़गांव में जो जमीन अक्वायर की गई उस में पैसा ज्यादा लगाया गया और उस के साथ साथ डेवेलपमेंट चाजेज भी लिये जायेंगे। जो सारी इंडस्ट्रीज लगेंगी, चाहे मारुति मिलिटो हो या दूसरी हो उन सब को डेवेलपमेंट चार्ज देना होगा। इस लिये इस तरह की बातों को कहना ठीक नहीं है।

मुझे मालूम है कि मेरे भाषण में आपका जरिया और आपकी स्ट्रेटजी चेंज होने वाली नहीं है और नहीं आप इनको करने वाले हैं। लेकिन जनता इन सब बातों को खूब समझती है। जनता यह भी जानती है कि आपकी बोखलाहट की वजह क्या है? लोग जानते हैं कि सयासी तौर पर पिटने के बाद सिर्फ गालियां देने, स्कैन्डल की बात करने और गंद उछालने के

अलावा इन पार्टियों के पास कुछ नहीं रह गया है। उन्हीं का सहारा और प्रेरणा लेकर ये हाऊस को मिसलीड करने की गोशिश कर रहे हैं।

SHRI SHYAMNANDAN MISHRA (BEGUSARAI): Mr. Deputy-Speaker Sir, this has become now an extraordinary debate. It has remained a debate on the car, but let there be no mistake about it, that it has blazed into a fullfledged no-confidence motion, for, what is a no-confidence motion except the expression of the lack of confidence in the integrity of the Prime Minister?

SOME HON. MEMBERS. No, no.

SHRI SHYAMNANDAN MISHRA: For a person like me, Mr Raj Bahadur, though he pays a sycophantic loyalty to the Prime Minister, and others are no friends of the Prime Minister. For a person like me, who has worked very closely and intimately with the Prime Minister, it is indeed very painful to see all that has been said against her. We belong to the same united family and the tie of fraternity does not get snapped so easily or so quickly. It has remained as we are common inheritors, although it is our complaint that the Prime Minister has defected from that position. (Interruption).

SEVERAL HON. MEMBERS: No, no.

SHRI SHYAMNANDAN MISHRA: Mr. Deputy-Speaker, I would not like to tread the ground that has been covered by some of my hon. friends with facts and figures and documents. (Interruption). Much has been said about the favours and patronage extended to the Maruthi, Ltd., because of the Prime Minister. I do not want to go into them, but may I say, as a friend, that it would be well if the Prime Minister goes into them and

[Shri Syam Narain Mishra.]
takes corrective action wherever she thinks a wrong has been committed. But one thing is abundantly clear; it is almost conclusively proved; that the Chief Minister of Haryana has left nothing undone to place the Prime Minister in a situation of blackmail. He has robbed the peasants to put her in the wrong. He has violated the defence rules which prohibit the setting up of such factories or any construction within a particular distance to show that he can do anything in the name of the Prime Minister. He has tried to equate public interest with private interest and also tried to say to the world that industrial estate means personal estate.

Now, therefore, this is my submission, that it would be well for the Prime Minister to go into this, because he had been taking all the steps almost at the same time when the charges of corruption against him were being examined. This is no more accident that the failure of the examination of the charges of corruption against him coincides with the period in which he took all these irregular, fantastically irregular, steps.

What did the Chief Minister of Haryana say and in what way he flaunts the nearness, the proximity, to the Prime Minister? For that, I will quote from a newspaper which seems to be very close to the ruling party, the *Patriot*. It is interesting to quote here what the *Patriot* reported in its issue of 4th November, after the Prime Minister had visited the pavilion which houses this small car. She visited what is called the television cum telephone designed by a Haryana firm which is the highlight of that pavilion. She is reported to have asked Mr. Bansi Lal if he had seen the exhibition. (Interruption.) He replied.

बहन जी, मुझे तो आप को देखना है ।

He says I did not have to see the exhibition,

मुझ तो आपको देखना है ।

(Interruptions).

श्री एल० एन० मिश्र : आपको दिखाना है ।

SHRI SHYAMNANDAN MISHRA:
This kind of exhibitionist loyalties, sychophancy, what you may call chivalry, that is putting the Prime Minister in an embarrassing position, What is the Government's policy with regard to the manufacture of cars, is anybody's guess. Although I might sound paradoxical, it might also be said that it is nobody's guess, because it does not require any guessing game; it is so obvious. Sometimes certain things which are too obvious are bound to be missed by persons. They are now geared to the interest of the monopolies, oligopolists, capitalists, individuals. That is the car policy of the Government. What else is it? I say anybody's guess; I say so because it is so erratic, baffling and mysterious; it has been changing so often with the whims and fancies of the individuals who happen to be in the Ministry. Here I find on the basis of what has happened with regard to the manufacture of small car in the public sector, no Government in the world would have been proved to be as untrue to its words as this Government has proved. It always dangled the carrot of the public sector car before the public; it has been dangling the Tantalus cup of small car before the public and it was an eye wash from the beginning. They wanted to benefit the capitalists and that was the reason why they did not go in for it. It is wrong to say that the Government is not in favour of spending scarce resources on passenger cars; it is interested in the manufacture of vehicles for public transport. If it were so its policy should have been to prevent the manufacture of a small car in any sector, public or private. If they say that public resources are different from community resources I think we shall have to revise our economics. It is the total resources of

the community which must count and I hope that Mr. Subramaniam who happens to be the Deputy Chairman of the Planning Commission must not make the mistake of making so much of a distinction, although there is to an extent, when it comes to the estimation of the total resources available for the community.

Therefore, I am saying that even if you allowed a project, you have given letters of intent to so many, that would mean a draft on the total savings of the community. But in respect of this policy for public transport, what do we find? We find that the public sector project for the manufacture of a small car has been jettisoned and a private sector project for a small car has been pampered, encouraged and assisted out of the way. This is the spectacle which we have been witnessing all the time. Therefore let the Government not put the facade of public interest. My hon. friend Vajpayee was quite right in saying that we are developing the economy of super consumption for the few and utter deprivation for the many. That is the kind of economy we develop in the country.

You may say that the figure which Mr. Vajpayee has taken from the *Financial Express*, the figure for the loans given there are wrong or vague or highly inflated. But what have you to say about the civilian transport which has increased 100 per cent whereas the provision for the public transport has increased by only 15 per cent.

MR. DEPUTY-SPEAKER: Please try to conclude.

SHRI SHYAMNANDAN MISHRA: You have much time to go, because he has got half an hour.

SHRI JYOTIRMOY BOSU: Give five minutes out of mine; I shall cut mine to 25 minutes.

SHRI SHYAMNANDAN MISHRA:

At the same time, I must say that the project about which we have talked so much is not the project which belongs to Shri Sanjay Gandhi. Those who are doing this shikar from behind, they are the real oligopolists, the capitalists, the shady figures in the capitalist field. They are the great Nava Ratna. I have always said there are some diamonds in the crown of this Government. Some of them figure in this. They are the new Nava Ratnas. They already had the Tatas and Birlas behind them. I make a definite charge that even the Tatas who are supposed to be above board are now deep in black money and they have been giving money to the Government. Some of these Nava Ratnas happen to be behind this car project. So, this project does not belong to Mr. Sanjay Gandhi. After all, the capital he has invested in this is not even worth mentioning. So, it does not belong to him. It belongs to those capitalists who happen to be there like Raunaq Singh, Chidambaram and so on.

On behalf of my party, I want to make it clear that we would not like the Prime Minister to be under a cloud. Let the ruling party realise that the Prime Minister does not belong to the ruling party alone. The Prime Minister belongs to the entire House, to the entire country. We would not like her integrity to be under a cloud. You are all simply chanting certain things mechanistically in order to make it known to her that you have been chanting something raucously in her support. That is not the kind of support she requires at the moment.

MR. DEPUTY-SPEAKER: Please conclude in two minutes.

SHRI SHYAMNANDAN MISHRA: I have got a few suggestions to make. My party stands for the nationalisation of all the units including the Maruti Limited. If the Prime Minister wants to get out of this predicament,

[Shri Syam Nandan Mishra.]
let her nationalise all the units including Maruti Limited. That alone would bring about an end of this matter. Otherwise, there is another suggestion. Here is a bright young man with a lot of drive and initiative and enterprise in him. It is said, he is going to depend on his own resources about consultancy, etc. He does not require any foreign exchange. Let Government come forward with a public sector project and enter into collaboration with Shri Sanjay Gandhi. Why should we not utilise the initiative, drive and expertise of this young man?

Much that is being said against this Government is because of the pseudo-radical policies which they have followed. Now those pseudo-radical policies are coming on their head. They cannot escape the consequences of these pseudo-radical policies and slogans they have given. What we have witnessed in this House is the kind of cheap sentiments they have aroused in this country because of their pseudo-radical policies. Therefore, if you want his initiative and drive to be utilised, you must have the courage to come forward and say, "We require your services for the public sector."

Since I have no time, I have to conclude now.

श्री बरबारा सिंह (होशियारपुर) :
उपाध्यक्ष महोदय, मुझे बहुत इस में नहीं कहना है। काफी इस पर बहस हो चुकी है मैं एक ही अर्ज करना चाहता हूँ, अभी मिथा जी ने बहुत लम्बी चौड़ी बातों की और कहा कि इसलिए हम डिफेक्ट कर गए थे कांग्रेस से, सारे देश को पता है कि इन की हालत क्यों ऐसी हुई? इन की हालत इसलिए ऐसी हुई कि इनकी स्टेटिक पालिसी थी, एक जगह पर खड़े थे, आगे जाना नहीं चाहते थे। प्रोग्रेसिव पॉली के व्यूज नहीं थे। जहाँ खड़े थे पीछे की

तरफ मुंह कर के कहते थे कि हम सब से आगे हैं। (स्ववचन)
मारुति एक सिम्बल है एनिलिटी का। उस में प्राइम मिनिस्टर के लड़के का होना कोई गुनाह नहीं है। आप जरा अपनी तरफ झाँक कर देखिये परसनल कोई बात मैं नहीं कहना चाहता मैं अर्ज करना चाहता हूँ कि यह एक कोई मारुति का सवाल नहीं है। सवाल यह है कि हरयाणा में जितनी प्रोग्रेस हुई है जिस के बारे में ये ताने दे रहे हैं, अम्बाले से लेकर गुड़गांव के तमाम इलाके में एक-एक जगह पर आप चल कर देखें एक नहीं दर्जनों जगह ऐसी इंडस्ट्रियल एस्ट्रेट बनी है, कहीं कोई फटिलाइजर फैक्ट्री लग रही है, कहीं कोई और फैक्ट्री लग रही है और उस के लिए पानी का इन्तजाम बिजली का इन्तजाम और जमीन का इन्तजाम किया जा रहा है। अगर यहां मारुति के लिए जमीन दी गई तो यह कोई ऐसी बहुत बड़ी बात नहीं है कि यह कोई आप उपर से सितारे तोड़ कर लाए हैं। यह तो हरयाने में आम तौर पर हर जगह पर लोगों की सहूलियत के लिए इंडस्ट्रियलिस्ट्स की सहूलियत के लिए बहुत से इस तरह के काम किए जा रहे हैं। मैं यहां कहूँ, मुझे पता है बहुत से दूसरे सूबे के लोगों से जो इंडस्ट्रियलिस्ट्स हैं उन को कहा जा रहा है कि आएं, हम आप को सहूलियत देंगे, हमारे सूबे में इस जगह पर जमीन मिल सकती है हम आप को बिजली दे सकते हैं, पानी दे सकते हैं, तो आप इसके लिए ऐसा कौन सा होवा खड़ा कर रहे हैं कि सिर्फ इसी के लिए यह बातें हैं?

जमीन के बारे में बहुत उन्होंने कहा कि कीमत ज्यादा है। सवाल यह है कि आज

जहाँ इंडस्ट्रियल एस्टेट बननी उस के लिए जितनी जमीन ली जाएगी, उसके बाद अगर दो साल के बाद उसकी कीमत ज्यादा बने जायेगी तो वह तो लाजिमी बात है क्योंकि इंडस्ट्रियल एस्टेट बनने के बाद वहाँ और तमाम ऐन्विलियरीज लगाने की कोशिश करेगे। उस वक़्त जब वह जमीन ली गई थी 11 हजार रुपए एकड़ तब उस से कम क़मत पर उस के साथ की जमीन बी गई है उन लोगों को जो वहाँ अपनी इंडस्ट्री लगाना चाहते थे। तमाम दिल्ली, गुड़गांव और मम्बाले के ईई गिर्द, आप मेरे साथ चल कर देखें कितनी डेवेलपमेंट वहाँ हुई है। इसलिए यह जाती तौर पर केंरेक्टर एमसिनेशन के तौर पर इस बात को न लाए यही मैं उन से अर्ज करना चाहता हूँ।

[MR. SPEAKER in the Chair]

THE MINISTER OF INDUSTRIAL DEVELOPMENT AND SCIENCE AND TECHNOLOGY (SHRI C. SUBRAMANIAM): Sir, when I got notice of this Resolution, I was happy from one point of view, because for the last two months I have been struggling to find a policy with regard to the automobile industry, and I thought this House would give me proper guidance with regard to the decision I have got to take with regard to this policy. But, unfortunately, the mover side-tracked the whole thing and brought in other matters. I welcome that also, because till now whispering campaigns have been going on. Therefore, it is good that it has come up in this House so that we have an opportunity to say what we have got to say with regard to this matter.

The debate itself falls into two parts, one with reference to the automobile policy which I will deal first and, second, what Shri Shyamnandan Babu described as a No-Confidence motion, that is, with reference to the Maruti Ltd. and connected matters. As far as the automobile policy is concerned, I do admit that till recently, I should say, it has not been possible for us to

have a definite policy with regard to the development of this industry. A definite policy in one sense began in 1953 when we took a decision that we will not allow merely assembling of cars either under completely knocked down basis or semi-knocked down basis but that only those who have got a manufacturing programme will be allowed to undertake production of cars in the country.

This decision was taken on the basis of the Tariff Commission's report in 1953. It is on this basis that three units got qualified to continue to manufacture cars in the country. Those three units are functioning in the country, that is, the Hindustan Motors, the Premier and the Standard. But we found that we should have a forward policy with regard to this and that is why the Jha Committee was appointed to which some hon. Members made a reference. The Jha Committee made a recommendation that with these three units, we should have a manufacturing programme of 30,000 cars and, in addition to that, we should have another unit to produce about 50,000 cars. It is for that purpose that an expert committee called the Pandey Committee was appointed. That also came forward with a recommendation that in the price range of Rs. 5000-6000 we should have a unit established in the country.

With regard to this recommendation, I had the opportunity of taking a decision as the Minister in-charge of automobile industry in 1962. I think, Shri G. Viswanathan made a reference to a decision that was taken in 1962, taking into account the particularly foreign exchange position at that time because this meant utilisation of foreign exchange, that it would not be possible to undertake a programme of 50,000 cars production in the country. At the same time, we were concerned with regard to the functioning of these three units even in 1962-63. Therefore, in 1964, I had a proposal that these three units should be coordinated and brought under one umbrella so that there might be some rationalised

[Shri C. Subramaniam]

production in these units instead of each unit functioning separately and each unit not having the economy of scale.

I also had an alternative proposal that, if this was not possible, then it should be possible to take over one of the units and expand it. But nothing came out of it. I had changed the Ministry at that time and, therefore, that stopped there.

Again, this matter came up in July, 1966 for the consideration and the Cabinet was asked to take a decision as to whether we should go in for 50,000 car unit particularly in the public sector. A decision on the project was again deferred. This is important. But it was decided in July, 1966 that the possibility should be examined of setting up indigenous capacity in the private sector without involving any imports or requirements for foreign exchange. Therefore, this formula of indigenous technology without involvement of foreign exchange was conceived in 1966 and we were prepared to consider any proposal from the private sector on this basis. This was the decision which was taken even in 1966 when, I am sure, Mr. Sanjay Gandhi was nowhere in the picture.

Again the matter came up for decision in 1970 when again this matter was taken up. In 1970 the then Minister of Industry felt that there should be a public sector project and it was allowed to be examined. The decision was taken that, while this could be examined, the 1966 proposal of indigenous technology without involvement of foreign exchange also could be given effect to, and it was on this basis that we tried to find out whether anybody could come forward to manufacture car in this country with indigenous technology and without foreign exchange. The 1970 decision was two-fold: one was to explore the possibility of a public sector project and the other, to invite proposals from private sector on the basis of the 1966 decision

and it was on that basis that letters of intent were issued to Mr. Sanjay Gandhi and a few others—I will come to that part, on what basis Mr. Sanjay Gandhi applied and was given, when I deal with the second part.

Hon. Member, Shri Vajpayee, made a reference to our Election Manifesto in 1971. In my view, the 1971 Election Manifesto made a very crucial change with regard to the direction in which we wanted to move—on the basis of 'Garibi Hatao'. (Interruption) You may laugh. I know you have been laughed out of the elections and that is why you are laughing. I am not at all surprised at it. Therefore, after the 1971 elections, we had to review our priorities... (Interruption) I never wanted to hit you back in spite of all your provocations. I do not see why you should have this sarcastic laughter which means nothing...

SHRI SHYAMNANDAN MISHRA: This is something. I take objection to this... (Interruption)

SHRI C. SUBRAMANIAM: I am also entitled to retort if you make a sarcastic laughter. Kindly do not interrupt.

Therefore, we had to review the priorities which we should have in regard to the utilisation of the existing resources. Here also 'utilisation of resources' means two things: one, the foreign exchange resources and the other, the internal resources. The foreign exchange resource is a scarcity resource and, therefore, we have got to be very careful with regard to the proposals for the utilisation of foreign exchange resource in non-priority areas. When we reviewed the position... (Interruption) Kindly do not interrupt. Please listen to me and then if you think I have made any mistake, you can point it out and I am prepared to learn from the learned professor.

Therefore, we had to take a decision whether we should go in for production of small car in the public sector which, according to the exercise we had made, indicated an order of Rs. 57

crores of investment, with roughly Rs. 17 to 20 crores of foreign exchange involved in it. This was the decision that we had to take, and the planning Commission also had to look into this. Our judgment was that we would not be justified, in the context of the new directions we had to take, to go in for a project of this type—production of 50,000 cars in the public sector investing Rs. 57 crores involving Rs. 17 to 20 crores of foreign exchange.

17.00 hrs.

But even in 1970 we had issued the letters of intent. So, they have to take their course. You cannot straightaway say, 'Because we have taken decision in these, we will annual all the letters of intent we have issued.' Therefore, the ordinary procedures applicable to letters of intent will have to be followed with regard to the letters of intent already issued. This is how the policy has emerged.

Now, if you want to ask me as to what is the definite policy of the Government, the policy of the Government is to give priority to the public transport system and to build up the public transport system as much as possible and, if any other developments take place, it should not be at the cost of foreign exchange, at the cost of the scarce resources of foreign exchange, but it should be within the possibility of the internal resources to the extent possible.

Another aspect I would like to place before the House for consideration of the hon. Members. Are we interested in the development of an indigenous technology in the crucial areas, and, automobile industry is a crucial area, and, therefore, are we interested in encouraging the development of an indigenous technology within the country as far as the crucial areas are concerned? Therefore, we took the decision that if it is indigenously developed technology, not involving foreign exchange, then we should encourage it and that is why, taking into account, the order

of investments involved in it, we thought that if this could happen within the private sector, we should not stand in the way, particularly, in the case of letters of intent which have already been issued and relying on those letters of intent, action has been taken and investments also have taken place. This is the most important thing which the hon. Members should keep in mind. This is how it stands.

Now, certain charges have been made with regard to Maruti Ltd. I take it quite seriously. I agree with Shyamnandan Babu that it is not just a matter to be brushed aside, particularly, when even from the Opposition, the integrity of the Prime Minister is attacked. I attach very great importance, particularly, with reference to the Opposition charges. If even the Opposition Parties begin to doubt the *bona fides* of the Prime Minister, then, to that extent, I think, we are on a very weak ground. Therefore, I am prepared to proceed on the basis that the Prime Minister has to keep the highest standards of public life. It is with reference to that, I want this House should judge her, with reference to what has happened in the case of Maruti Ltd. I have known what part the Prime Minister has played in this and I make bold to say that even judging by the highest standard of public conduct and public integrity, she has nothing to be ashamed of with regard to any action as far as this concern. I am prepared to stand by it. If anybody is able to prove, even to create an iota of doubt that she has personally used her power—I will come to the second part—that she has personally used her power, her position for the purposes of gaining an advantage to her son, I can give the assurance to this hon. House that she will be first to pay the penalty for that. That is one aspect.

Secondly, I do agree that there may be some enthusiastic friends of hers who may have taken action

[Shri C. Subramaniam]

which may be objectionable. Even in that case, if it had come to her notice and if she had permitted this to be taken, these irregularities to be committed, then also she has to regret for that. And even with regard to that, I am prepared to say that there is absolutely nothing for her to regret. It is from this aspect.

I want you to consider the facts with regard to the issue of the letters of intent and how the matter has proceeded till now. It is not as if in 1970 Sanjay Gandhi just jumped from somewhere without any background whatsoever and asked for a letter of intent. As was pointed out by some friends, as a young man, trained in the automobile industry, he thought it would be possible to fabricate a car within the country without using any raw materials from outside or without any components from outside it should be possible to fabricate a car within the country and he thought.. (Interruptions) kindly wait.

We have got so many M.Sc.s and Ph. Ds. Here also, I am sure, there are some Ph. Ds. I wonder how many can produce one small article on their own. It is not so much the Ph. D. or M. Sc. that matters. What matters is talent. There is some talent which is required for the purpose of developing, designing and fabricating a machinery.

SHRI VASANT SATHE (Akola): Which degree did Ford have?

SHRI C. SUBRAMANIAM: Rightly or wrongly, I also had my own doubts, when this young man indulged in this art of fabricating a car, whether with this background he would be able to produce that car. But he said: I have the confidence, give me a chance. As somebody said, without food, without sleep, he was labouring for this in his workshop, unknown to anybody, and even to the agency of his dear mother that

this follow is spoiling his health. And when, out of those efforts, he produced two cars, fabricated out of our indigenous materials, and asked me to ride in it, I said: You are to be congratulated. I had my own doubts whether it would be possible for you to do this at all.

I looked into every part to find out whether anything had been imported and whether everything had been fabricated from materials within the country. I was quite satisfied. It was on this basis that I also encouraged him and said: You seem to have some talent; go on. It is on this basis, when he applied for the production of this car and said, "I am prepared to compete with anybody else who wants to compete within the production of an indigenous car." It was on the basis that the letter of intent has been issued. Now further action has been taken on that basis.

The main attack has been with reference to the acquisition of land. I wish that the Hon. Member had given notice to me that particularly this is the policy which he was going to attack,—not the car policy, but the acquisition of land policy,—because, then I would have got all the facts and figures.

Acquisition is done by a statute, it is not by Government order alone. There are rules regulating acquisition and any infringement of the rule or the statutory provision can be taken to a court of law and can be objected to and the whole acquisition proceedings can be set aside. And, therefore, now to come and say that there has been abuse of the power by Government in the exercise of this statutory power is not the correct position. It is not one person who is affected. Even according to them, hundreds of persons have been affected. They could very well have taken it to a court. The court has the power to

'Judge whether the statutory procedures have been followed or else, to set them aside. If notice had been given, perhaps, I could have verified some of the facts. But, on the face of it, it is not an arbitrary Act with which anybody can get away. With regard to such acquisition from hundreds of farmers who live in this enlightened area, and where there are political parties also, to get advantage of these, if they are adversely affected, do you think everybody would have kept quiet? A large agitation would have started on the basis that Government's compensation or solatium is not adequate in the matter. After all, Rs. 11,000 is for what? This is not for urban land which is used for building, but for agricultural land Rs. 11,000 is not a low price.

SHRI JYOTIRMOY BOSU: How do you know?

SHRI C. SUBRAMANIAM: How do you know—that it is not adequate? Hon. Members pointed out about Ghaziabad and Faridabad where such lands have been acquired and what is the price that has been paid. And, therefore, this is how we have to make the judgment. And, simply because you want to accuse somebody, you cannot come and say, Rs. 11,000 is inadequate, when persons aggrieved have not taken any action whatsoever . . .

AN HON. MEMBER: He says, Rs. 60,000.

SHRI C. SUBRAMANIAM: He is entitled to mention any figure, but I cannot say that. Rs. 11,000 in my view is adequate. I know what agricultural land is, and I have acquired, as Minister in the State Government, land for industrial purposes, but we acquired at a stretch 500 acres for the purpose of industrial development, and that is why Tamil Nadu stands in the forefront today. This is one aspect of it.

Secondly, even if it has been acquired rightly, it may be said that they had acquired so much of land for Maruti Ltd. It is very well known, and if hon. Members would only refer to their Chief Ministers, they will know it, that with regard to the small car project, here has been so much of competition between State and State that the small car project should go to their own State. Therefore, particularly when it comes in the private sector naturally the Chief Ministers are interested in attracting this to their own States. There is nothing surprising in this if they give various facilities so that it comes to their own State.

After all, for Shri Sanjay Gandhi, even nearby, Haryana was available near Delhi, Punjab was available and U.P. was available . . .

SHRI VIKRAM MAHAJAN: Himachal Pradesh was also there.

SHRI C. SUBRAMANIAM: Rajasthan was also available, and, therefore, it was open to him to go anywhere and still be near Delhi. Therefore, if one Chief Minister wanted to ensure that his car project with a potential of 4000 jobs in this and other subsidiary occupations also comes to his State and if a Chief Minister shows interest in attracting this, that is something which should not be objected to. No doubt, even for this, they should not go out of the way and there should not be any irregularities. If there are any irregularities, if there are any allegations made, I want to give you this assurance, that though it has been done for Maruti Ltd., if any irregularities are alleged and proper documentation is given for the purpose, we are prepared to go into it even now and see and find out whether any irregularities have been committed even for Maruti Ltd. . . .

SHRI SHYAMNANDAN MISHRA: What about the defence installations? How are they going to take them away from there now?

THE MINISTER OF STATE (DEFENCE PRODUCTION) IN THE MINISTRY OF DEFENCE (SHRI VIDYA CHARAN SHUKLA): Nothing has to be taken away. There is no objection from them.

SHRI C. SUBRAMANIAM: Shri Shyamnandan Mishra made a point and somebody also had made the point. That was why I sent for the Defence Minister and he tells me that there is no such infringement as far as their works are concerned . . .

SHRI SHYAMNANDAN MISHRA: Let him say that.

SHRI VIDYA CHARAN SHUKLA: There is no basis for that.

SHRI C. SUBRAMANIAM: I am saying it on his behalf. My saying it is much more responsible than even his saying it.

Therefore, acquisition of land and allotment of land cannot be the basis for suspecting or attacking the integrity of the Prime Minister. This is the point that I want to make.

With regard to any other matter, I am prepared to throw open the files in the Government as far as this is concerned. If anybody points out anywhere a preference which has been shown to Shri Sanjay Gandhi, which has not been shown to others, then I am prepared to say that 'Yes, we have gone wrong'. On the other hand, if you look into it, you will find that nothing has been given to Shri Sanjay Gandhi which has not been given to others. Perhaps, in certain cases, we have been very cautious about it so that it may not be alleged that because it is Shri Sanjay Gandhi, therefore, some preferences are being shown.

Apart from the fact that they are connected as mother and son, and the son is naturally having an industrial project, if it is said that therefore there should have been something which the Prime Minister should have

influenced or which the Prime Minister's friends at least should have influenced, of which she should have had knowledge, then I would say that I am not able to find any substance whatsoever in all the allegations that have been made on the subject.

This is where I would like to say this. I do not want to say that it is because of political frustration or political vindictiveness that these things are being said. I take it that all hon. Members are interested in the integrity of the Prime Minister so that the name of the country is kept flying high. It is from that point of view that I welcome this discussion, so that it may be possible for us to place before this House and the country also that there is nothing shady as far as this is concerned, and there is no transaction and no step which has been taken about which we need regret or about which we need be ashamed of. This is the point which I want to make.

I would like to put this to the House. If a young man is able to design, develop and fabricate a motor car, and we see it with our own eyes, the car, would you encourage him or would you throw all this mud on him and say, 'No, no. Nothing should happen, because he happens to be a son of the Prime Minister'? This is one of the biggest developments that is taking place in the automobile industry on the basis of a technology evolved within the country, trying to fabricate a car.

Somebody said it is not going to be roadworthy. If it is not going to be roadworthy, nobody is going to purchase it. That will be his funeral. Will anybody go and take all these steps, with all these discussions, if he does not have the confidence that he is in a position to fabricate this car and make it run, not only make it run but create confidence in the purchasers? The purchasers are not all going to be fools. Nobody will say

that because it is the Prime Minister's son's car, everybody will go in for it and invest Rs. 12,000 on purchasing it? The number of units planned is 50,000 per year. I can understand one or two cars may just sell like that. But who will go in for the manufacture of 50,000 cars to be sold unless he has got the confidence with regard to its roadworthiness and reliability? Who would venture on this big enterprise of producing 50,000 cars without that?

I am sorry the Sir Falstaff of the House is not here. He has gone away after making his speech, without waiting to hear the reply. He said he saw somebody's legs or that his wife saw them. Whether it is not a figment of his imagination or a figment of the imagination of his wife, I do not know. Any car may get into trouble.

SHRI SHYAMNANDAN MISHRA: Then why figment?

SHRI C. SUBRAMANIAM: I do not know in what circumstances this breakdown was there. Ultimately, all this is not going to matter. Ultimately, when the car is produced and rolls out of the assembly line, it is the confidence of the purchasers which alone would matter. Without creating that confidence, however much we may back it up with all our support, it won't sell. Therefore, it will have to be judged on that basis.

Therefore, I would appeal to hon. members; instead of encouraging such an effort, such a pioneering effort particularly by a young man, do not try to throw all these obstacles in the way. Not only will you be creating difficulties for this man, but perhaps everybody else will hesitate before taking up any sort of this work,—designing, developing and fabricating new machines.

Therefore, I want to make this quite clear. As far as Maruti Limited is concerned, it is a genuine effort made by a young man who has got some self-confidence, not merely self-confidence, but some talent also, to produce this car. Instead of throwing mud at it, let us all wish that Maruti should succeed, that Maruti should run, even hop about in this country. It is that wish that I would expect from this House rather than obstacles put in the way.

I do agree that if, because he is the Prime Minister's son, anything untoward has happened, if anything undesirable has happened, it should be looked into. Again I want to give you this assurance that if anything is brought to our notice, it will be inquired into, and whoever it might be, friend or foe, if irregularities had been committed, either officially or unofficially, proper action will be taken. That assurance I want to give to the hon. House. If my hon. friend is interested in bringing facts with regard to irregularities to my notice, let him kindly make them over to me.

SHRI JYOTIRMOY BOSU: I will lay it on the Table.

SHRI C. SUBRAMANIAM: Placing a document like that does not mean much.

Therefore, it is only on that basis that we have got to go. I want to tell hon. members this, that while I am glad about this frank discussion, before we make an allegation with regard to a person occupying the highest office, we should hesitate, we should ponder. Unless you are on very substantial ground, merely on the basis of doubts, if you raise these matters on the floor of the House and put them before the world as well, you will be harming the interests of the country. Therefore, all of us who are interested in safeguarding the honour and integrity of the country, not only within the country but

[Shri C. Subramaniam.]
abroad also, should take care before we make these reckless allegations, to make some enquiry and try to find out what has happened.

Therefore, as far as this is concerned, I am categorical, and I want to give this assurance to this House, with regard to the automobile policy. We are looking into it along with industrial production. It is also under formulation. We shall try to formulate an automobile policy also. As far as Maruti, Ltd., is concerned, everybody can go with a clean conscience that nothing wrong has happened.

SHRI JYOTIRMOY BOSU: Sir.....

MR. SPEAKER: Ten minutes.

SHRI JYOTIRMOY BOSU: I cannot, because I will have to meet the replies of so many Members. How can I finish in 10 minutes? Even before I had read the book written by Mr. Johnson where there is a reference to Mr. Subramaniam, I had always known him to be His Master's Voice or Her Master's Voice, and so today's speech of Mr. Subramaniam has not surprised me at all. The question is, I am surprised that he has not been sent yet with a love call to the United States. I am, however, fortunate and I am very pleased to say that he is here before us now.

I can tell you, Mr. Subramaniam through Mr. Speaker that for me we all have had to struggle for this debate, and almost for a month and a half, to get this debate through and the resistance that I faced on this question has never been experienced by me in the last six years of my life in the Lok Sabha.

Mr. Subramaniam has given us in his long rigmarole a mixture of half-truths. I clearly ask a few questions. Does this production of the car enjoy a very low priority does it enjoy a high priority? Is it

not a fact that the late Prof. Gadgil has disapproved the whole thing and as a result he had to quit and also as a result he died of shock?

Sir, if it was a must that we should go ahead with this car project, Mr. Subramaniam, why is it that you have abandoned your original idea of having a joint sector with market money, State fund, foreign collaborators' money and export-oriented production? Why is it that you have abandoned that?

Then, this long delay goes more to substantiate our allegation. They talked about Indian technology or concept in 1966. Who prevented you? You have been in power from 1947? Who prevented you from implementing it? Did you have somebody in mind at that time, say, Dr. Dharma Teja or some of his proteges? Did you have at that time in mind the idea that you should shelve this conception of yours? You conceived it but never delivered. That is the whole trouble.

Talking of resources, Mr. Subramaniam, I thought, was a knowledgeable man. Where are the resources going to come for the low priority items? You listen to me, Mr. Subramaniam.

MR. SPEAKER: Address the Chair.

SHRI JYOTIRMOY BOSU: Why is it that your valuable and scarce resources, both local and foreign exchange, should be utilised for a low priority affair? I wanted an explanation from the Government but you very cleverly escaped from that issue.

About this project, I do not mention but now you have provoked me. There have been hidden foreign exchange transactions and hidden importation of foreign machinery. I want a clear statement from you as

early as possible that you have physically verified these things and allowed the House to know them. You tried to water down the whole thing. Now that the assignment has been done, you are talking about going in for the public sector for the production of things for public transport. I must thank you and congratulate you for that.

About the local talent, we have heard your tall talks time and time again. We have heard about the suicides in the SCIR and IARI. Thereby you are thinking of bringing in legislation for stoppage of the brain drain because you cannot provide employment to the 70,000 unemployed graduate-engineers, not the hammer and chisel engineers, whom you have been encouraging. I do not want to say this. I am talking of graduate-engineers, holders of national awards and scholarships. They are employed to pump water or oil into your cars; Maruties to be filled in by graduate-engineers or engineers who have had the national talent awards! That is the irony of fate.

I want to know categorically and clearly, I expect it from Shri C. Subramaniam, for appearance at least he looks to be a sober person, under what circumstances and when and how you had extended this letter of intent whose normal life is six months to one year at the most. You have given it for two years three months to oblige somebody.

SHRI C. SUBRAMANIAM: I am sorry I missed that point. If you will permit me, it should not be thought that the life of the letter of intent has been extended only to Maruti. The letter of intent is for the purpose of giving time to make sufficient preparation to fructify into licence. Any person, not only Sanjay, anybody is entitled to ask for extension provided they have taken substantial steps, also prove to the satisfaction of the authorities that they have taken substantial steps and some more

steps have got to be taken and therefore we want extension. It is not two years. If you go into the history, some of the more intricate projects where it is not one year, but it requires three or four years. There are cases where letters of intent have been extended to three or four or five years taking into account the intricacies and the complexities of the industries concerned. Therefore it is not as if for Sanjay alone it has been extended. Particularly you yourself have been saying that they have put up building there, they have brought in machinery; you want me to verify if it is indigenous or foreign machinery. When all these steps have been taken and when he asks for extension, can we say: no, you have not taken any steps and therefore we do not want to extend. Thus, in the ordinary course extensions take place.

SHRI JYOTIRMAY BOSU: Now, I start where he ends. Mr. Subramaniam has made a desperate effort to take the House for a ride. I am quoting from Swaminathan Committee's report which he can challenge if he likes: "The letter of intent broadly indicates the conditions subject to which Government would be prepared to consider the grant of a licence and also specifies a definite period, varying from 6 to 12 months." Now, Mr. Subramaniam: Doctor, heal thyself. I ask you, Mr. Subramaniam, through the Speaker: can you tell us why you were required to bring one acquisition order and the moment a writ petition was filed on 1-3-1971, within four days the Advocate-General of Haryana Government appeared before the Court to withdraw the acquisition order, so that the writ became infructuous and the poor peasants, unlike you or Mr. Sanjay Gandhi, could not pay for the counsel every time, why is that you were required to bring an acquisition order once, de-requisition and then re-requisition once again? Can you convince anybody, up or down, that that is the proper thing to do? Tell

[Shri Jyotirmoy Bosu] me when your total acquisition was 420 acres (I.P.C. of course), more than 300 acres was for one individual unit or individual, why did you want to call it an industrial estate: because you wanted to bypass sections 38 to 42 of the Land Acquisition Act of the Central Legislature, that has made it mandatory for the company to pay for the full value of the land to the Government before they get it, enter into an agreement and publish it in the Gazette. Nothing was done. Everything was hoodwinked. The King can do no wrong! Therefore, Mr. Subramaniam, you are very nice. I do not say: empty vessels make much noise (*Interruption*). About the price, I have got photostat copies of sale deeds which I have acquired from the Sub Registrar; I have got sworn affidavits about the price; if anybody can prove that these are wrong or fictitious, I shall take any punishment you may wish to give me. May I hand it over to your goodself for laying it on the Table for examination by the Government?

The sale and purchase deeds are always grossly understated because they want to avoid payment of stamp duty, income-tax, capital gains tax and because they want to deal in black money. Even the deeds I have got show Rs. 40,000 to 50,000. Is it not a fact that you are charging for a 2 acre plot Rs. 1,21,000 in Faridabad? You can ask the MP from that area.

श्री तैयब हुसैन (गुड़गांव) : ये गलत बात कर रहे हैं। इनकी गलत बात कहने की आदत हो गई है। श्री संजय गांधी क्योंकि प्राइम मिनिस्टर के लड़के हैं, इसलिए यह इस तरह की बातें कर रहे हैं। जहां इंडस्ट्री पहले नहीं थी। अब इंडस्ट्री यल एस्टेट बन गई है और इंडस्ट्रीज लग रही हैं। वहां जमीन की कीमत पहले बहुत कम थी। अब कुछ कीमत बढ़ी है।

SHRI JYOTIRMOY BOSU: Sir, I want to lay* these certified true copies of the registered sale deeds of recent times. Let Government examine them and satisfy itself.

Is there such a dearth of money for a car project of Rs. 17 crores in the public sector? You find funds for so many things. It is rather unusual. About the foreign exchange I have already stated. I expected him to give details of components and details of allowances shown to suppliers of these components. They are actual users' licences...

MR. SPEAKER: He should conclude now.

SHRI JYOTIRMOY BOSU: The Deputy Speaker asked me how much time I require and I said, half an hour. So many allegations have been made against my party and I would like to set the record straight.

Mr. Nahata talked about figures. Is production of car a low priority or high priority? That would satisfy everybody. Why is it that Maruti Limited do not require foreign technical collaboration and why is it absolutely necessary for the public sector? I do not understand this simple thing. If they can do without foreign collaboration, why is it that you cannot? What is your deficiency, we must know.

The Parliamentary Times subsidised by Lok Sabha wrote about me that I am after character assassination. I ask, those who have no character, what shall I assassinate? You have no character which I can assassinate (*Interruptions*).

MR. SPEAKER: Try to tell the truth. Do not say "it is subsidised by Lok Sabha". You are talking about other peoples' character, while not telling the truth yourself.

*The Speaker not having subsequently accorded the necessary permission the documents were not treated as laid on the Table.

SHRI JYOTIRMOY BOSU: am told...

MR. SPEAKER: You may be told anything; but do not say here anything without verification. Do not do it.

SHRI JYOTIRMOY BOSU: Character assassination can take place only when there is a character. Who appeared on behalf of the Birlas before the Car Prices Commission and pleaded for the enhancement of price of the Ambassador car? The Chief Minister of West Bengal. So, who are the spokesmen of Birlas? The proof of the pudding is in the eating.... (*Interruptions*).

SHRI B. K. DASCHOWDHURY: (Cooch-Behar). Sir, a reference has been made to the Chief Minister of West Bengal. How is it relevant?

MR. SPEAKER: He is not talking relevantly. This is not relevant at all.... (*interruptions*)

SHRI JYOTIRMOY BOSU: Is it not a fact that one of the Birlas Shri B. M. Birla, has become friendly and made a heavy donation of Rs. 55 lakhs to your political party? You have received the money and today you are quarrelling about it.... (*Interruptions*) I say "doctor, heal thyself"... (*Interruptions*) If anybody fights the monopolists, it is my party.... (*Interruptions*) We have been demanding the nationalisation of one car plant. But the Minister scuttled it by saying that it is junk.... (*Interruptions*) The whole thing has been nauseating and it requires a thorough probe. Mere utterances by Shri Subramaniam Will only make bad things worse... (*interruptions*) If they have any self-respect left for themselves, they should immediately arrange for a probe into the matter.

MR. SPEAKER: I will now put the motion to the vote. The ques-

tion is:

"That this House notes with disappointment the policy of the Government in regard to manufacture of car."

Those in favour may say 'Aye'.

SOME HON. MEMBERS: Aye.

MR. SPEAKER: Those against it may say 'No'.

SEVERAL HON. Members: No.

MR. SPEAKER: I think 'Noes' have it.

SOME HON. MEMBER: 'Ayes' have it.

MR. SPEAKER: All right; we will have division. Let the lobbies be cleared.

Now, the Lobbies have been cleared.

I again put the Motion to the vote of the House.

The question is:

"That this House notes with disappointment the policy of the Government in regard to manufacture of car."

Those in favour may say, "Aye."

SOME HON. MEMBERS: "Aye."

MR. SPEAKER: Those against may say, "No".

SEVERAL HON. MEMBERS: No.

MR. SPEAKER: The "Noes" have it: the "Noes" have it.

The motion was negatived.

**STATEMENT RE. EXPULSION OF
FIRST SECRETARY IN THE HIGH
COMMISSION OF INDIA
IN KAMPALA**

**THE DEPUTY MINISTER IN
THE MINISTRY OF EXTERNAL
AFFAIRS (SHRI SURENDRA PAL
SINGH):** Mr. Speaker, Sir, as per
your directions, I would like to make
two statements, one on Uganda and
the other on Vietnam.

The House is aware of the statement which I made yesterday on the subject of the expulsion by the Government of Uganda of Shri N. N. Desai, First Secretary in our High Commission at Kampala. I have taken note of the deep concern of the House about this incident and the feelings about this action of the Government of Uganda.

In the note which our High Commissioner sent to the Ugandan Foreign Office on 19 December, he strongly protested against the unfounded and unsubstantiated allegations they made against Shri Desai and stressed that the expulsion orders given to Shri Desai were on a flimsy pretext and without any justification. He also stated categorically this could not but have repercussions on the existing relations between Uganda and India for which the responsibility would rest entirely with the Government of Uganda and further that the Government of India reserved their right to react as appropriate.

Our High Commissioner later sent a second protest note to the Ugandan Foreign Office demanding that the allegation against Shri Desai of improper action and behaviour not in keeping with his diplomatic accreditation should be either substantiated urgently or withdrawn categorically in the interest of Indo-Ugandan relations.

The High Commissioner is awaiting a reply from the Ugandan Government to his two written protests.

In New Delhi also we have taken up the matter strongly with the Acting High Commissioner of Uganda, adding that the Ugandan Government bears full responsibility for all the consequences which may result from their action which is contrary to all diplomatic norms.

Our High Commissioner in Kampala has also sought an interview the Foreign Minister of Uganda at the earliest possible moment to convey strong feelings and views concerning this incident. In due course after our High Commissioner has met the Foreign Minister he will send us a full report about his talks.

The situation which has arisen as a result of the expulsion of our First Secretary has caused us very serious concern. We have to examine all aspects before we take a final decision. As I informed the House yesterday we are keeping a close watch on developments in Uganda and will take whatever action we consider appropriate to safeguard our interests.

SHRI SHYAMNANDAN MISHRA
(Begusarai): Has Government taken any action?

SHRI SURENDRA PAL SINGH: I have indicated in my statement that action will be taken at the appropriate time. We are awaiting a fuller report and unless and until we have seen and examined the report, we cannot take any action.

MR. SPEAKER: You may make your next statement.

STATEMENT RE. U.S. BOMBING IN VIETNAM

THE DEPUTY MINISTER IN THE
MINISTRY OF EXTERNAL AFFAIRS
(SHRI SURENDRA PAL SINGH):
The Foreign Minister had already
made a statement on the subject of
Vietnam on the 19th instant. We had
then expressed distress at the resump-
tion of bombing raids and acts of war
in Vietnam and conveyed our grave
concern at the tragic turn of events.

Since then many countries of the
world have raised their voice against
these bombing raids which are
evidently not confined only to mili-
tary targets as claimed. According
to reports several Embassy premises
situated in the heart of Hanoi have
been damaged or destroyed. I regret
to have to inform the House that we
have just received information from
our Ambassador in Hanoi that in
yesterday's raid, our Chancery build-
ings and staff quarters were damaged,
though happily all our officers and
staff are reported to be safe.

We cannot but raise our voice in
protest at such indiscriminate bomb-
ings particularly of civilian areas and
even diplomatic quarters. We had
protested to the U.S. Government on
the last occasion on 12th October and
then the U.S. officials had expressed
their regret and described the raids
as 'unfortunate' and unintentional.
Now we again witness repetition of
the same indiscriminate bombing.
Such ruthless bombings involving
civilian life and property on a large-
scale are a matter of the gravest con-
cern to us. The Government of India
would like to record its strongest
protest at this bombing of our diplo-
matic premises in Hanoi.

Words fail to describe the appalling
tragedy which is being re-enacted in
Vietnam. Over the last one year, as
the Honourable Members are aware,
Government of India, have raised

their voice on many occasions in con-
demnation of acts of large-scale war
against a tiny country and its heroic
people. However, these words have
had little effect and in disregard of
the feelings not only of this Govern-
ment but of all the peace loving peo-
ple of the world, more massive bomb-
ings are being resorted to.

It appears to us that all the lessons
of history, recent and remote, have
gone unheeded. As recently as last
year, brutal force was used in Bangla-
desh to suppress the will of the peo-
ple but it did not succeed. It has
been clear to us from the beginning
that the Vietnam problem cannot be
solved through military means. We
are convinced that no amount of mili-
tary pressure will deter or deflect the
heroic people of Vietnam. In fact, if
anything, it would only redouble their
determination to fight the war till
the bitter end and they would have
the sympathies of the whole world.

Even in this tragic hour, we earn-
estly hope that wiser counsels will
prevail and that instead of resorting
to brutal force, negotiations would be
immediately to find a settlement
which meets with the wishes of the
brave people of Vietnam.

श्री अटल बिहारी वाजपेयी (ग्वालियर):
अध्यक्ष महोदय, हम लोगों ने कहा था कि
पाकिस्तान के साथ सीमा के सम्बन्ध में जो
समझौता हुआ है, उस के बारे में रक्षा मंत्री
वक्तव्य दे, मगर कोई वक्तव्य नहीं आया है।
यह वक्तव्य कब दिया जायेगा ?

अध्यक्ष महीबय : वह तो आज नहीं
आना था । एक्सटर्नल एफेयर्स मिनिस्टर
के स्टेटमेंट के बारे में कहा था ।

SHRI SAMAR GUHA (Contal):
Sir, they have expressed their con-
demnation about the developments in
Vietnam and also their concern about
Uganda.

[Shri Samar Guha.]

But about the secession or accession of territory no information has been given.

MR. SPEAKER: That is not the question that was taken up. Only the External Affairs Minister was asked.

MR. SPEAKER: I do not think he was asked to make a statement about it today.... (*Interruptions*) This is not a subject on which he can reply offhand. We did not ask him.

MR. SPEAKER: Now, there will be no half-an-hour discussion as Shri A. P. Sharma is not here.

Now we are left with one hour and five minutes. Now, we may take up Mr. A. K. Gopalan's Resolution.

MR. SPEAKER: Will you please sit down? Consent about what—about something which is not there, which is not moved? Do you agree to this, Mr. Gopalan, or, do you want to sit? We are prepared to sit. .
